BOOK SALES, INC.
110 Enterprise Avenue
Secaucus, N.J. 07094

Publishers Note: An occasional break in page numbers occurs in the original 1906 Sears catalog. Other omissions have been made by the publisher to keep this volume within manageable production limits. We have omitted repetitive pages. We believe we have maintained the original flavor of the catalog. The index to the catalog begins mid-volume on page 603.

No. 1—YOUR MONEY BACK IF YOU ARE NOT SATISFIED

EVERY ORDER SENT US IS ACCEPTED with the understanding and agreement that if the goods we send you are not found perfectly satisfactory, they can be returned to us at our expense and the money sent us, together with any freight or express charges paid, will be immediately refunded. Accompanying every shipment are these plainly printed conditions:

IF THESE GOODS PLEASE YOU, you cannot do us a greater favor than to tell your neighbors and allow them to use your catalogue to send us orders.

IF THEY DON'T PLEASE YOU, you cannot do us a greater favor than to return the goods at our expense and get your money back, together with any transportation charges you may have paid.

No. 2—ABOUT OUR RELIABILITY. YOU ARE PERFECTLY SAFE IN SENDING US YOUR ORDERS AND YOUR MONEY. We are one of the largest commercial institutions in the world and we occupy by far the largest mercantile plant in the world. We own this entire plant, free of indebtedness of any kind, comprising forty acres of ground in one of the best districts in Chicago; our ground and buildings alone are valued at more than six million dollars. We have nearly nine thousand employees and our customers now number nearly five million. If you have any doubt, you are at liberty to refer to any bank, business house or resident of Chicago, and we especially refer to our millions of satisfied customers. Ask your neighbor about **Sears, Roebuck & Co.** We have customers in every neighborhood in the United States and we gladly refer you to any customer.

BE SURE to read the bank letter of the First National Bank of Chicago, capital and surplus \$13,000,000.00, signed by its cashier, F. O. Wetmore; also the Corn Exchange National Bank letter, capital and surplus \$6,000,000.00, signed by Frank W. Smith, its cashier; see page 20. Consider our standing everywhere and be convinced it is perfectly safe to send your money to us, we agreeing to return it if the goods do not please you.

No. 3—LOW PRICE AND HIGH QUALITY GUARANTEE.

WHILE WE NOW PERMIT our customers to share more liberally than ever before in the profits of this business, our prices on everything shown in this catalogue are lower than you can buy elsewhere. Every order sent us is accepted with the understanding and agreement that if you do not find our prices lower, quality considered, and the quality of our merchandise higher than the average, you are at liberty to return the goods to us at our expense of transportation charges both ways, and we will promptly return all your money.

DON'T BUY ANYTHING ANYWHERE until after you refer to this catalogue and see how much money we can save you, and remember that for every dollar you send us you get a Profit Sharing Certificate by return mail for the full amount of your purchase, a certificate that entitles you to get back from us a large part of all the money you sent us.

No. 4—YOU SHARE IN OUR PROFIT on every purchase, as explained on pages 1 and 2 of this book.

No. 5—VERY SIMPLE RULES FOR ORDERING, printed in three languages. See page 3.

No. 6—FOR LIST OF FREE SAMPLE BOOKS and free special catalogues see inside back cover of this catalogue.

No. 7—WHY OUR NAME NEVER APPEARS ON ANY BOX, package, wrapper, tag, envelope or article of merchandise, thus making every transaction strictly confidential. See page 10.

No. 8—WHY WE WILL ACCEPT no order for less than 50 cents. See page 10.

No. 9—FREIGHT AND EXPRESS RATES TO ANY POINT. See pages 15 to 19 for full information. You pay the freight or express charges when you get the goods, but remember, freight or express amounts to nothing compared with what we save you in cost. Don't be afraid of the freight charges.

No. 10—YOU CANNOT do us a greater favor than to show this catalogue to your friends and allow them to use it for sending us orders.

No. 11—WE HAVE NO AGENTS. Anyone claiming to represent us and soliciting orders for us is a swindler.

No. 12—QUICK SHIPMENT. With a stock of merchandise larger than all other mail order houses combined, we are prepared to make very prompt shipment. If you send us your order, you will get your goods much quicker than if you ordered from any other house.

YOU CAN FURNISH YOUR HOME FREE

YOU CAN GET A MANDOLIN OUT-FIT LIKE THIS AND OTHER MUSICAL INSTRUMENTS FREE FOR PROFIT SHARING CERTIFICATES

YOUR MONEY WILL BE IMMEDIATELY RETURNED TO YOU FOR ANY GOODS NOT PERFECTLY SATISFACTORY.

BUILDINGS AND GROUNDS IN CHICAGO WHICH WE OWN FREE OF ENCUMBRANCE

FACTORIES IN VARIOUS STATES WHICH WE OWN IN THEIR ENTIRETY, IN PART OR CONTROL THE PRODUCT OF.

IN our various catalogues most of our customers, no doubt more than one-half of all the families in the United States, have, by the pictures we have shown them in the past, had their attention called to the grounds and to the big buildings in our Chicago plant as well as pictures of many of the big manufacturing plants which we own or are interested in. To those who have not as yet had their attention called we take pleasure, on these pages, in showing, but, unfortunately, for the want of room, in small illustrations that in no way do these buildings, grounds and plants justice, pictures of some of our buildings and grounds in Chicago and some of the more important factories in different states in the Union which we own in their entirety, in part or control the output of.

This gives you a general birdseye view of a small portion of our grounds, showing the big Merchandise Building, Administration Building, Printing Plant, Power House, etc., but you must consider that these grounds are nearly one-half a mile long or, to be exact, twenty-four hundred feet in length, and this in an important part of Chicago, to appreciate the size of these grounds.

This picture shows our Administration or Office Building in Chicago, in which all the clerical work is done. Architecturally it is one of the most beautiful and one of the largest buildings for its purpose in this country.

This building is used for printing and for the manufacture of this Great Catalogue. It is the most modern, fully equipped printing plant for the purpose in this country and one of the largest, if not the largest, of its kind in the world.

This picture shows our Merchandise Building in Chicago, undoubtedly the largest building of its kind and purpose in the world.

This shows a picture of the Power Plant, one of the most modern, largest and handsomest power plants in the country.

View No. 1. This gives you a small sectional view of a corner of our Merchandise Building in Chicago, giving you an idea of our railroad track facilities for incoming merchandise, but to get an idea of these facilities you must remember that these tracks extend 2,400 feet or nearly one-half a mile, the entire length of our property.

View No. 2. This shows you a small view of our train shed under cover. Four railroad tracks running directly into the building. Here is where our outgoing freight is loaded directly into the cars.

View No. 3. This small view will give you just a little idea of what we have done to decorate our grounds, to make them attractive, pleasant for our employees as well as to generally beautify this portion of the city.

View No. 4. Another small sectional view of our private park and grounds, showing fountains and beautiful flower beds, to give you an idea of what we are doing for our people, ourselves and the city.

View No. 5. Small sectional view showing our new Fire Department in action, a department we maintain at all times for the protection of life and property in an immense plant.

Some of these are small pen drawings, as taken from the big set of fifty stereoscopic views, offered on another page of this catalogue for 35 cents. We could fill many pages with interesting views of the many activities in this great institution. A better idea can be had, however, from the set of stereoscopic views offered on another page in this catalogue for 35 cents.

SIMPLE RULES FOR ORDERING.

USE OUR ORDER BLANK IF YOU HAVE ONE. If you haven't one, use any plain paper.

TELL US IN YOUR OWN WAY WHAT YOU WANT, always giving the CATALOGUE NUMBER of each article, and be sure to state size and color where required. Enclose in the letter the amount of money, either a postoffice money order, which you get at the postoffice, an express money order, which you get at the express office, or a draft, which you get at any bank; or put the money in the letter, take it to the postoffice and tell the postmaster you want it registered.

IF YOU LIVE ON A RURAL MAIL ROUTE, just give the letter and the money to the mail carrier and he will get the money order at the postoffice and mail it in the letter for you.

DON'T BE AFRAID YOU WILL MAKE A MISTAKE. We receive hundreds of orders every day from young and old who never before sent away for goods. We are accustomed to handling all kinds of orders.

TELL US WHAT YOU WANT IN YOUR OWN WAY, written in any language, no matter whether good or poor writing, and the goods will be promptly sent to you.

WE HAVE TRANSLATORS TO READ AND WRITE ALL LANGUAGES.

DON'T BE AFRAID OF THE FREIGHT OR EXPRESS CHARGES. You must pay them when you get the goods at the station, but they never amount to much compared with what we save you in cost.

IF YOU FIND IT NECESSARY TO HAVE SOME SPECIAL INFORMATION you can undoubtedly obtain it by referring to the matter contained within the first twelve pages of this catalogue.

ENKLA REGLER ATT IAKTTAGA VID BESTÄLLNING.

Begagna vår beställningsblankett, om ni har en sådan. Om icke, begagna vanligt rent papper.

Säg oss på edert eget sätt hvad ni önskar, alltid uppgif-
de katalognumret på hvarje sak. Inneslut beloppet i
vet antingen i postoffice money order, hvilken köpes å
postkontoret; express money order, hvilken köpes å express-
kontoret, eller en vaxel, hvilken kan köpas å hvilken bank
ni helst, eller också inneslut kontanta penningar i brefvet,
och det till postkontoret och säg postmästaren att ni önskar
att det registrerat.

Var icke rädd för att ni gör ett misstag. Vi erhålla hun-
dretals beställningar dagligen från unga och gamla hvilka
säg förr sändt efter varor. Vi äro vana vid att expediera
alla slags beställningar.

Säg oss på edert eget sätt hvad ni önskar. Skrif på hvil-
ket språk som helst, bra eller dålig stäfnings, bra eller dålig
handstil, och varorna skola blifva eder prompt tillsända.

Vi ha öfversättare som läsa och skriva alla språk.
Det är icke nödvändigt för eder att genomläsa de första
sidorna i denna katalog, såvida ni icke önskar någon spe-
ciell upplysning. Dessa tio sidor innehålla detaljerad upp-
lysning, så att de som i alla delar önska göra sig förtrogna
med sättet att beställa och sända varor, fraktkostnader o. s. v.,
s. v., icke behöfva skriva till oss, utan helt enkelt kunna
läsa upp dessa sidor och finna den upplysning de önska.

Einfache Regeln zum Bestellen.

Gebraucht unsere Bestellungszeittel wenn Sie welche haben, wenn
nicht nehmen Sie gewöhnliches Papier.

Im Bestellen erwähnen Sie die Catalog Numero an allen
Sachen. Die Bestellung soll das Geld enthalten, entweder eine
„Postoffice Money Order,“ (welche man gewöhnlich an der Post be-
kommen kann), eine „Express Money Order,“ ein Bank Certificate,
das man an jeder Bank bekommen kann, oder legen Sie das Geld
in den Brief mit der Bestellung, in welchem Falle Sie den Brief
Eingefschrieben schicken sollten. Der Brief wird in der Post
Eingefschrieben (Registered.)

Wir erhalten jeden Tag eine große Anzahl von Bestellungen von
allen Leuten (Jung und Alt).

Sie brauchen nicht furchtsam zu sein Sachen zu bestellen, wir wer-
den Ihr Bestellung schon verstehen.

Schreiben Sie uns in Ihrer eigener Weise, und in Ihrer eige-
ner Sprache, was Sie wollen, einerlei ob gut oder schlecht geschrie-
ben, und die Waare wird Ihnen sofort zugesandt.

Wir haben Leute die alle Sprachen schreiben und übersetzen.

Die ersten zehn Seiten in diesem Catalog beziehen sich hauptfäch-
lich an die Frachtbeträge der verschiedenen Waare und hat nur Wich-
tigkeit für Sie im Falle Sie in diesen Einzelheiten interessiert sind.

DO NOT FAIL TO GIVE SIZE, COLOR, WEIGHT, ETC., IF RECOMMENDATION TO THE WRITER WHEN WRITING YOUR ORDER.

OUR CAPITAL AND FINANCIAL STANDING

THIS IS A SUBJECT SO THOROUGHLY ESTABLISHED in the minds and to the knowledge, not only of all our millions of customers, but also to every other citizen of the United States, that it is perhaps altogether unnecessary to refer at all to our financial strength and standing; but since our present position, our accumulative capital and standing financially reflect the soundness of our policy of high quality standards and low price making, and are after all, with the good will of our millions of customers, the reward for our policy of merchandising, it may be interesting to refer to the question of our position in finance and strength, to show you what has been the measure of success up to date, as a result of making prices such as were never made before, giving values such as no other house is giving, has given, or can give, treating our customers certainly as well as any other house could possibly treat them, applying the Golden Rule, which says among other things that we must have the highest quality at the lowest price, treating our customers as we would like to be treated.

FROM A COMPARATIVELY SMALL BEGINNING we have grown in point of capital, accumulated and employed, in the volume of business done, in the size and money value of our stocks of merchandise, in the ground area, in the size of buildings and factories which we own, to where we stand out apart and alone, among all the mercantile institutions of the land, as by far the largest institution of the kind in the world, and one that sells more goods to users than all other mail order houses in the United States combined. Today we have a capital and surplus of Forty Million Dollars, fully paid; we own the grounds here in one of the best portions of Chicago (nearly 40 acres in area) on which our buildings are erected; these grounds we own free of any encumbrance; the mammoth buildings on these grounds, in which are located our headquarters and where the larger part of our stocks of merchandise is carried, are among the largest buildings of their kind in the world. The big merchandise building is undoubtedly the largest of its kind in the world; the office building, a mammoth architectural beauty; the power plant, perhaps one of the largest and finest in the city; the printing plant, the largest of its kind in this country—all these enormous buildings with vast grounds and real estate holdings we own free of any encumbrance. They are part of our reward for honest effort, bigger values, better qualities, lower prices than were ever offered before, a policy that has guided and shall continue to guide us.

IN ADDITION TO THESE VAST HOLDINGS REFERRED TO, we own other very large and valuable real estate in Chicago, included in which are the enormous buildings that we occupied prior to our moving out, two years ago, to this present enormous plant. We own in their entirety, free of any encumbrance, a large number of big manufacturing plants in different states in the Union. In other very large manufacturing plants scattered throughout the land we are large stockholders or we own or control the output. Among these many factories that we own in their entirety, are large stockholders, or we own and control the output, some of these factories being the largest of their kind in the world, are factories manufacturing stoves, shoes, wearing apparel, furniture, cream separators, organs, musical instruments, mill work (doors, sash, blinds, etc.), agricultural implements, plumbing goods, guns, revolvers, wire fencing, safes, cameras, saws, hardware, vehicles, paint, wall paper, etc.

ONE NOT FULLY ACQUAINTED WITH OUR VAST REAL ESTATE and factory and merchandise holdings in Chicago, and scattered throughout the various states of the Union, can form no idea of the enormous capital

that is required to place us in a position to own and offer you the big variety of goods we offer and the high standard of qualities that we demand and the low prices we make.

WE HAVE A CAPITAL STOCK OF FORTY MILLION DOLLARS, fully paid, enormous real estate, factory and merchandise holdings in Chicago and elsewhere all over the United States. The various commercial agencies give us the highest capital and credit rating given to any concern. We are known by every resident of Chicago, who could tell any interested person almost anything they might want to know about Sears, Roebuck & Co. We enjoy the highest credit at the various banking and financial institutions, and this latter point is especially important because we buy from all the markets of the entire world, and with this end in view our financial credit standing and strength is fully established in all the large banking and financial centers of all the leading foreign countries, and we refer, by special permission, to the First National Bank and Corn Exchange National Bank of Chicago, the Chase National Bank of New York, the National Shawmut Bank of Boston, with the special request that should you write to any of these banks for information, you will be sure to enclose a stamped envelope for reply. We produce on page 18 facsimile copies of bank letters furnished us by the First National Bank and the Corn Exchange National Bank of Chicago and could, of course, furnish you with similar letters of many other banks with which we have corresponding accounts or with whom we do business, and we name some of the banks in foreign lands to which we are especially permitted to refer and invite anyone to make inquiry, only requesting that should inquiry be made of any of these banks that sufficient postage be enclosed to cover the return postage. Referring fearlessly as we do to everyone and anyone who knows us, whether the big commercial agencies or great banking institutions, leaders of business in the great financial and money centers, it affords us pleasure to specially refer to our millions of customers in every state and territory, in every city, every town and every hamlet, every little community in every corner and quarter of the whole United States.

NEARLY ONE-HALF OF ALL THE FAMILIES IN THE UNITED STATES, especially those residing outside of the larger cities, have sent to us for goods, they have tried us out, they have had the opportunity of measuring our standard of quality, the goods we furnish, how they compare with our illustrations and descriptions, the values we give, the money we save, they know how we treat our customers, and therefore we especially refer to any interested parties to our customers in their own immediate neighborhood. If you are not a customer of ours, most likely your next door neighbor is. You will surely find at least one-half of all the families in your immediate neighborhood able to tell you all about us. They can tell you from their own experience, which is the best proof we have to offer. If one-half of all your neighbors have sent to us for goods, then we refer you to these, to every one of them, one-half of all the people in your neighborhood, and if every one of these tells you that our goods are of the highest standard of quality, much lower in price than they can buy elsewhere, that they have saved money on everything they have bought from us, and we have done everything that we could do to satisfy them, and if they advise you to send your orders to us, that you may be sure of the highest standard of quality at the lowest possible price, that you may be sure of saving money by dealing with us, then we may hope to receive your order; if they don't so advise us, we cannot expect to receive an order from you. Therefore, on the advice of our customers, one-half of all your neighbors, we rest our case.

WE SOLICIT HONEST CRITICISM MORE THAN ORDERS

FROM THE MILLIONS OF CATALOGUES we send out annually our customers might be led to believe that we ask for nothing but orders. But when you once send us an order you will find we solicit something else, we solicit criticism, for when you send us an order and the goods reach you, you will find conspicuously placed in the top of the box in which the goods are packed or on a tag attached to the goods, just as you will find on the inside cover of every one of our Big Catalogues, the very first printing that you find in the book, and it reads as follows: "YOUR MONEY BACK IF YOU ARE NOT SATISFIED."

EVERY ORDER SENT US is accepted with the understanding and agreement that if the goods we send you are not found perfectly satisfactory, they can be returned to us at our expense, and the money sent us together with any freight or express charges paid, will be immediately returned. And then these words, "If these goods do not please you, you cannot do us a greater favor than to return the goods at our expense and get your money back, together with any transportation charges you may have paid."

WHILE WE STRIVE WITH EVERY MEASURE of resource we can command to leave no room for honest criticism, still, occasionally errors will creep in and again

misunderstandings for which we may not be to blame, occasional unavoidable delays on the part of railroad or express companies, or other causes beyond our control, will give reason for honest criticism.

AND WE DO MOST EARNESTLY SOLICIT HONEST CRITICISM. WE SOLICIT CRITICISM MORE THAN ORDERS.

IF YOU HAVE REASON TO CRITICISE and you don't criticise us, that you are not entirely satisfied with a transaction with us, it means an awful loss to us. It may mean the loss of your good will, your trade and your influence for us. A mistake on one order on our part left uncorrected may cost us dozens, yes hundreds of orders; therefore we tell you honestly, anxious as we are for orders, if you have an honest criticism to make and an order to send, and we can't have both, we beg of you to send us the criticism and don't send the order. Your criticism may involve money. It may be ten cents or one hundred dollars. It doesn't matter, we want to treat it as a principle, regardless of its importance as measured by dollars. Our policy says, it's got to be made right. In fairness you must be satisfied.

This gives a glimpse of the tower of the great Merchandise Building, in which the main entrance to the various merchandise departments is located. Through this entrance more than six thousand people pass in and out every working day of the year.

This shows a part of our Clothing Manufacturing Plant on the ninth floor of the great Merchandise Building, flooded with daylight from windows and skylights, the cleanest and most sanitary plant in existence.

This little sketch gives you just a faint idea of the army of men engaged in packing merchandise for shipment by freight to our customers. Nearly two million wooden boxes of various sizes were used in this room last year.

Here we show just one corner of a room in which about 200 young women are engaged in writing the letters dictated by correspondents throughout our institution. More than 10,000 letters are written every day.

Here is the Boiler Room of our Power House, having an ultimate capacity of 12,000 horse power. The coal-carrying machinery in this boiler room has a capacity of 100 tons per hour. Sufficient to run a dozen good sized factories.

YOUR MONEY WILL BE IMMEDIATELY RETURNED TO YOU FOR ANY GOODS NOT PERFECTLY SATISFACTORY.

HOW FAR THE REGULAR, REGULAR and LOW PRICE TO GO, THE PRICE BY THE GET SATISFACTORY HIGH QUALITIES AT SATISFACTORY LOW PRICES

IN MANY VARIETIES OF MERCHANDISE, such as furniture, shoes, guns, plumbing, hardware, cameras, wall paper, paint, agricultural implements, buggies, leather goods, cream separators, clothing, musical goods, etc., etc., our buyers in these several lines have, in times gone by, reported to us that conditions governing many of these goods in their manufacture and sale were such that they could not, under any kind of a contract or contract always get the satisfactory low prices as they would like to have. As a result, and for the purpose of assisting ourselves to these needed goods of an acceptable high standard of quality at the lowest possible cost, we have bought, built and created many factories for the manufacture of these various wares, where we might with our own facilities and own control get just exactly what was wanted at the first cost of manufacture.

FOR EXAMPLE, a professional buyer unable to buy the particular wares which he considers will be a satisfactory low price, reaches his conclusions in the way: necessarily knowing as much about the goods he is about to buy, how they should be made and what they should cost to make as the manufacturer could possibly know, he takes up an article, for example, clothing, a man's suit. We will assume the quality is fairly satisfactory, although unfortunately, the manufacturer may have a reputation for varying quality, which would mean that out of a thousand suits they would not run absolutely uniform, a serious suit and one which the buyer could not accept. The manufacturer may offer our buyer this suit for say \$7.00 in lots of 1,000, and our buyer will analyze this suit in the following manner: He will say, this suit of clothes contains so many yards of cloth made by such and such a mill, the value of which is so much. He will measure up the linings, buttons, trimmings, etc., etc., and he must have an accurate knowledge of their quality and market worth. He will then say the manufacturer paid or should have paid so much for making the coat, so much for making the vest, so much for making the trousers, and he will perhaps figure it that this suit of clothes should be produced at an actual cost of say \$5.65, but being unable to buy these suits in any quantity from any maker anywhere at less than \$7.00, he comes to us and tells us the only way this clothing can be produced with uniformly high quality, controlled and guaranteed, and at the lowest possible price is that we manufacture them ourselves, and straightway we proceed to equip to manufacture our clothing, and which, by the way, we have been doing for a long time.

THE BUYER IN CHARGE OF CREAM SEPARATORS, who has been separators at about \$45.00 each, the lowest price he could possibly get from any maker in any quantity, comes to us and says, at the price we are buying the manufacturer makes too much money. He tells us this machine is composed of so many pounds of cast iron, so many pounds of steel, so many parts of brass, worth a certain price; there is in this machine too much labor, such and such value in the various parts, bought or made, and therefore if we were to manufacture or contract the manufacture of this machine in large quantities, we should be able, at our one small percentage of profit, to sell a better machine at much less than the price we ourselves are now paying another manufacturer, and straightway we proceed to buy into and get control of factories and the output of factories for the manufacture of cream separators. This same process of calculation has driven us into the manufacture of a vast variety of merchandise, among which several of the more important lines have been referred to.

OUR BUYERS WILL SOMETIMES REPORT OTHER CONDITIONS which deprive them of getting the highest standard of quality at a satisfactorily low cost. For example, the buyer will come to us and tell us we are paying too much for certain furniture from a certain factory, and this furniture is costing this certain factory too much to manufacture. He will explain to us that this certain factory is, in his opinion, run with too much overhead expense or waste. They are making perhaps too great a variety of merchandise, too many styles, running very busy, perhaps, six months in the year and very light the other six months, while the period in which they are running very light, perhaps at half capacity, their management, superintendency, investment and other similar expenses are

WHY A BUYER MUST KNOW TO QUALIFY HIM TO BUY FOR US, AND THE ONLY POSSIBLE REASONS ALLOWED TO TAKE OFF THE GREAT QUESTIONS OF THE QUALITY OF THE GOODS

WE HAVE ABOUT ONE HUNDRED PROFESSIONAL BUYERS, and each buyer buys one kind of goods. For example, one man may buy ladies' shoes, one may buy sewing machines, another may buy hardware and jewelry, and so on. Each of our buyers must know to qualify him to buy for us, and the only possible reasons allowed to take off the great questions of the quality of the goods are as follows:

COMPARATIVELY FEW THINGS and on one class of merchandise in a limited variety, do we entrust to the care of one buyer, but this buyer must be a professional expert in the particular few things which we trust him to purchase for us. For example, a buyer of ladies' shoes, he must have a thorough knowledge of ladies' shoes, the same as a buyer of any other article must have a thorough knowledge of the article he is buying. He must know the average quality of the goods, the demand of the people as to styles, he must know what standard of quality he must have in great variety of merchandise, for it would be impossible for him to inform himself sufficiently on all the things essential to make him a good buyer. He must needs be a specialist in his limited line, and in this limited line he is not permitted to make any mistakes.

FOR EXAMPLE, the buyer of ladies' shoes, he must first know the best styles in the various parts of the United States. He must know the styles suitable to all classes and all ages. He must through his own knowledge, gained from years of experience, and kept up to date through the assistance of our missionaries throughout the country; he must know what the retail dealers are selling, know their standards of quality, and he must know the average quality of the goods as they are being supplied, from whom they buy and, in turn, he must know the factories that supply the wholesaler, who in turn supplies the retailer in the various sections of the country. This buyer of ladies' shoes when he goes into the market, among the different manufacturers, must know just what kind of shoes he must have. He must know the number to the people as to styles, he must know what standard of quality he must have in every number to be sure that his quality is up to and a little better than the corresponding numbers or kinds sold by dealers generally, and when he goes to a manufacturer in the shoe district, which for ladies' shoes is principally located around Boston, and looking to a contracting the specifications laid down by our shoe buyer; our shoe buyer must be competent to make any one of these samples, cut it up, check it up and see that the manufacturer has fulfilled every requirement as specified for by our buyer. It's a long story. He must know the cost of producing shoes, the relation that the market price of green hides bears to the price of the particular leather furnished in the shoe, the vamps, the uppers, the soles, the counters, the heels, the eyelets, the stitching and shoe maker, he must know the value of the materials as well as the manufacturer himself can possibly know. He must know, and most to a cent, what it should cost in labor and other manufacturing expense to produce his shoe; this he must know in order to know that he gets the prescribed measure of quality, he must know what standard he must have, and then he must also know this to know that, once the question of quality is settled, the price is right.

WHEN IN THE MARKET, and before going to the several manufacturers for bids and specifications, he must have a sufficient knowledge of the different factories that are best adapted, best equipped to make the particular style of shoe, best in quality, style and at the lowest cost, which our buyer is about to buy. Having completed his contract, his specifications as quality having been specified, the price having been agreed upon, the contract closed, one or more pairs of these shoes are usually taken as exhibits in the contract and become a part of the order that our Inspection Department, that must inspect these shoes when they come from the factory, can use the samples for the purpose of measuring the quality of

exactly the same as when they are running full capacity, and all these expenses tend to increase their cost, and to prevent this particular furniture factory from making us as low a price as we ought to have.

OUR BUYERS MEET THESE CONDITIONS CONSTANTLY, and we prevent this useless waste in such instances and we get the right quality at the right cost by pursuing this policy. We will, for example, go to this manufacturer who perhaps has a capacity of one million dollars' worth of goods in a year in his manufacturing plant, but is making say five hundred thousand dollars' worth, and we say to him that we will absorb and utilize all his excess capacity, so that instead of running part of the time with a small force, part of the time light and part full, he must run at his utmost capacity every day in the year, and for any surplus capacity he may have at any time he may make for us a certain few prescribed styles in furniture, which styles we will specify, and he will make a few in variety of a special high standard of quality. This sort of a position not only enables the manufacturer to make the few styles for us in enormous quantities at a very low cost, but also reduces the cost on the goods that he makes for himself. His power plant, his machinery, his buildings, his managerial force, superintendency and all is active, going at full capacity all the time. In this way we reduce to the very minimum what is known by manufacturers as overhead expense, we own these goods at the lowest possible cost, and we in turn, of course, give our customers the benefit of these savings charging, as we do on everything, our one small percentage of profit above the actual cost to us. You, our customers, who sit down to peruse our catalogue to make up an order for needed goods, cannot possibly have any idea of how far reaching are our efforts to make possible the prices we print in this catalogue, the values we give,

ALMOST EVERY LITTLE ITEM IN THIS ENTIRE BOOK has in it a history. It could be written of almost every little item that would fill quite a volume, picturing in words all the effort, the research, the condition, the obligation that has gone to make possible the price and quality offering shown in more than one hundred thousand items in this Big Catalogue. Our buying organization is enormous. It's divided into a great many units. It reaches out into every part or resource in the United States and, in fact, over the civilized world. It begins with the most thorough research into the proper time, place and way of buying such staple raw materials as pig iron, steel, cotton, hides, lumber, wool and all those things which go to make up the endless variety of goods we sell. Our buying organization is a great college of commercial economies. Through this organization we study the methods of all the manufacturers, wholesalers and retailers of the world. We bring together for comparison, selection and for study those things that are made in shops, big and small, all over the world. We devise ways and means of bettering, improving and perfecting styles. The history of a little ten-cent item, small, insignificant in itself, if you please, when you see it in this catalogue, it may mean, however, that to produce this article at the selling price we have had to find the one man with that peculiar experience and knowledge that fits him to make this one article and make it cheap. We have had to grub-stake him, as it were, that is, supply him with the necessary capital and then we have had to nurse him along by seeing that he bought his raw material right. We have had to send our statistician, or cost accountant, to his place of business from time to time, to see that it was economically and properly run, one of our master mechanics probably visits him, our inspectors inspect his work in process as well as finished, and so we nurse this little unit of activity along in our effort to finally produce this one little article in order that it may be at least a little better than any similar article you can buy elsewhere and at the same time much lower in cost, much lower in price to you. We must do all these things all the time, for we cannot possibly live as a business institution if our quality is not of a standard that satisfies, that is, at least as good as, if possible, better than you can buy at home, nor can we live if our prices are not much lower than you can possibly buy elsewhere. If when you receive goods from us you do not find by comparison that you have gotten more for your money than you could have possibly gotten elsewhere, and are thus so pleased that you will be inclined to favor us with orders in the future; otherwise we know too well that you will do even as we ask you to do, a request that goes with every shipment, that is, you will return the goods to us at our expense and get your money back, and you will not be likely to send us another order.

the goods as they come from the factory, and thus knowing that every pair of shoes that comes in under the contract is exactly in accordance with the contract and has the full measure of quality.

AS THE ONE MAN IS AN EXPERT IN LADIES' SHOES and capable of buying for us, capable of getting all we demand in high quality and buying them at the lowest possible price that enables us to give you the highest standard of quality, at a cost to you much lower than you can possibly buy elsewhere, this same sort of talent is used by us in the purchase of all the different goods shown in this catalogue.

THE BUYER OF DRESS GOODS will, with his magnifying glass that accurately analyzes that will accurately measure the materials, will measure the weave, and by chemical measure of quality, and will know if the goods delivered are exactly in accordance with the contract, from his knowledge of the relation of the cost of materials (wool, cotton or silk) and labor to the proper price of the finished article, whether or not we own these goods right, and with this knowledge will procure for us dress goods that we can sell you lower in price and better in quality than you can buy elsewhere.

FOR EXAMPLE, the man who buys our sewing machines has on his staff several expert sewing machine mechanics, especially two who have devoted their entire lives to the mechanical study of sewing machines, and after every conceivable point has been covered, every specification has been fulfilled, after the calculation of cost, which begins with the raw material (cast iron and steel) has been gone over and figured through its different processes to the finished machine, then samples of every little piece and part in the sewing machine are nailed on to boards and numbered, and these parts together with several sewing machines as samples are kept by us, representing a part of our contract, and the product of the factory is being constantly checked up against these two sets held by us to know that they are up to the standard of quality.

THE BUYER WHO BUYS OUR HARNESS, and, by the way, it is so small a part of our business, but for one who gives us the big standard of harness we use, and he has quite enough responsibility to know everything necessary to know about harness in order to make sure that we get a satisfactorily high quality at a price so low that we can sell you any kind of a harness and give you a much better harness than you could get elsewhere, and yet show you a big saving in cost. This man who buys our harness is a practical harness maker, he has been in the harness business all his life, he is an expert harness maker and can make any kind of harness. He is an expert judge of hides and he is equally expert as a judge of leather. He is only called upon by us to know everything about a harness. That is all we ask of him but we ask all of that in the fullest measure. He must know everything about quality, everything about cost, everything that enters into the cost of harness, he must know this in order that he may know that we get a satisfactory standard of quality. He must know what harness makers, sellers of harness everywhere get for harness, because he is expected to make ours better and yet permit us to sell them cheaper.

WE COULD GO ON AND FILL PAGES OF SPACE by telling you of the separate buying organizations, the peculiar experience and knowledge of the several buyers in their respective lines. All this is necessary to giving the goods we give you the big standard of quality we offer at the low prices we name, and anyone less equipped than this cannot possibly give you so much. This great ability to measure with accuracy, and the buying power that is without a parallel in the world, with a vast network of manufacturing plants of our own, and a disposition to give you all there is in it, and in no case save for ourselves anything other than our one small percentage of profit above the actual cost to us, that is what makes possible the most extraordinary values shown in the upwards of one hundred thousand low price offerings shown in this Big 1908 Catalogue.

IF YOU ARE A MERCHANT who buys to sell again you will find thousands of articles in this catalogue on which we can save you money. Remember, every transaction with us is treated in the strictest of confidence. No article you buy from us will bear our name; no box, package or shipment of any kind will bear our name. Our name will not appear on any tag, envelope or any piece of paper that is exposed that will go to you from us. If you buy goods from us no one will know from whom you buy your goods or what you pay for them. You can send your order to us for anything in this catalogue, the goods will go to you with the understanding that they will please you, you will find them lower in price and better in quality than you can buy elsewhere, and you are always at liberty to return any goods you get from us if you are not perfectly satisfied and always at our expense, and we will immediately return your money together with any express or freight charges paid by you.

OUR LIBERAL TERMS OF SHIPMENT.

WE HAVE NO DISCOUNTS, we sell for cash only, and the prices quoted in this catalogue are absolutely net, from which there is no discount whatever. Our prices are alike to one and all, regardless of the amount of the order; the same to the merchant, the manufacturer, contractor or corporation as to the farmer, mechanic or laborer. We especially recommend that you send cash in full with your order. Send us either a postoffice money order, express money order, bank draft, your own check or send the money in a registered letter.

If you are a farmer and live on a R. F. D. Route, make up your order, go to the R. F. D. carrier, give him the money you wish to send to us and he will give you a receipt for the money and either issue to you or get for you a postoffice money order for the amount you wish to send.

If you reside in a town, then either go to the postoffice and buy a postoffice money order, to the express office and buy an express money order, or to the bank and buy a draft, or enclose your own check.

WE ESPECIALLY REQUEST THAT YOU SEND THE FULL AMOUNT OF CASH WITH YOUR ORDER, for this is always much more satisfactory than to send part of the money with your order, the balance to be paid C. O. D., and understand, when you send us your order and money we accept your money and your order and ship the goods to you with the understanding and agreement that if they are not perfectly satisfactory in every way, you are at liberty to return any part or all of them to us, at our expense, and we will immediately return your money, together with any freight or express charges paid by you.

ABOUT C. O. D. SHIPMENTS.

WHILE FOR YEARS WE SHIPPED A GREAT MANY GOODS BY FREIGHT AND EXPRESS C. O. D., subject to examination, on receipt of a comparatively small cash deposit, usually about twenty-five per cent or one-fourth of the total amount of an order, or enough to fully cover the freight or express charges both ways on the goods ordered, and sent the goods by freight or express, C. O. D., subject to examination, allowing the purchaser to examine the goods at his nearest railroad station or express office, and if found to be perfectly satisfactory the customer would then pay the railroad agent or express agent our price and freight or express charges, less the amount of money sent with order, otherwise he would refuse the goods, the railroad or express agent would return the goods to us at our expense and we would return all the money sent us; of late years, and especially the past two or three years, we have sent comparatively few goods either by freight or express C. O. D., subject to examination, but rather have, in the interest of our customers and the interest of the greatest economy and lowest possible price making, urged our customers to send cash in full with their orders in every instance. We have advised our customers to invariably send cash in full with their orders, first because there is an extra charge for any goods shipped by freight or express C. O. D., subject to examination. By express there is an extra charge for collecting the money and returning it to us, which the customer must pay, and by freight there is a still higher charge for collecting the amount of the draft and returning the money to us, and also customers are frequently put to inconvenience in paying the draft at one office and getting the goods from the railroad station at another office. Then too, for some time past, many railroad companies have declined to allow their agents to permit customers to examine goods shipped by freight before paying for the same, so in the interest of our customers, with a view of saving them the extra charge for collecting money on C. O. D. shipments and returning the same to us, with a view of saving them the least possible trouble in receiving the goods promptly, with a view of effecting the greatest economy in handling and getting the goods to our customers in the shortest possible time, we advise our customers always to send cash in full with their orders.

WE FEEL NOW THAT WE ARE SO WELL KNOWN that we can afford to be perfectly frank with every customer in regard to C. O. D. shipments, for nearly everyone in the United States knows us, has dealt with us, knows our reputation for fair and honorable dealing, and to the comparatively few who may as yet be unacquainted with us, they can easily learn all about our financial and commercial standing and manner of treating our customers by asking their neighbors who have dealt with us, and when we say to you in your own interest that we advise you to always send cash in full with your order, remember, we bargain and agree with you that if the goods we send you are not perfectly satisfactory, do not reach you promptly and in perfect condition, free from any damage or flaw of any kind, you are always at liberty to return the goods to us at our expense, and we will immediately return your money, together with freight or express charges paid by you.

WHILE WE HAVE PRACTICALLY DISCONTINUED ALL C. O. D. SHIPMENTS, and nearly all our customers who at one time ordered their goods shipped C. O. D., sending a deposit with the order, now send cash in full, and we advise you to do likewise, if for any reason you would prefer to see and examine any goods you might select from our catalogue before paying for them in full, and you wish us to ship them by freight or express C. O. D., subject to examination, you can send your order for such goods as you want, but be sure to enclose a sufficient cash deposit (at least one-fourth of the total amount of your order), and immediately your order is received, if it be for such goods as we can afford to ship C. O. D., subject to examination, on the amount of cash deposit you send us, the goods will go to you at once C. O. D., subject to examination, balance payable after the goods are received; otherwise we will immediately return your money and your order with a full explanation as to why we cannot ship the particular order by freight C. O. D., subject to examination; and please understand, on

any order for goods to be sent by freight C. O. D., subject to examination, where goods are so shipped we will especially request the agent at your station to allow examination, but we cannot guarantee that examination will be so allowed, for, as before explained, many railroad companies have instructed their agents not to allow goods to be examined before they are paid for. Under any circumstances, however, whether goods ordered from us are shipped C. O. D., subject to examination, on receipt of a cash deposit, or whether shipped as a full paid order, the goods go to you with the understanding and agreement that if they are not perfectly satisfactory, they can be returned to us at our expense and we will immediately return your money, together with any freight or express charges you may have paid.

Paragraph A.

ABOUT OUR PRICES.

LOW PRICE AND HIGH QUALITY GUARANTEE.

Our prices on everything shown in this catalogue (market conditions of raw material and labor considered), are lower than you can buy elsewhere. Every order sent us is accepted with the understanding and agreement that if you do not find our prices lower, quality considered, and the quality of our merchandise higher than the average, you are at liberty to return the goods to us at our expense of transportation charges both ways, and we will promptly return all your money.

WE BUY AND SELL FOR CASH, and having no bad debts, no traveling men's expenses, no expenses for collecting, asking but one small profit, and by manufacturing the goods ourselves or by securing the manufacturers' lowest spot cash prices, we can sell goods at a smaller margin of profit than any other business house could do and still exist.

WE MAKE NO REDUCTION IN OUR PRICES. To those who are inclined to write us for a reduction from the prices quoted in this catalogue, we wish to state that we cannot make any reduction or concession, whether your order in large or small quantities. The price quoted on each and every article in this catalogue is as low as we can possibly make it, and it is out of the question to reduce these prices still further; and we earnestly believe a careful comparison of our prices with those of any other concern will convince you that we can furnish you better goods for less money than you can obtain from any other house in the United States.

ALL PRICES ARE SUBJECT TO THE FLUCTUATIONS OF THE MARKET. The prices quoted in this book are correct, according to market conditions at the date the catalogue is printed, and our wants have been anticipated as far as possible by contract, goods in stock, etc., but when our stock on hand is sold or when a contract expires and the market conditions at the time are such that we are compelled to pay more money for the goods, we reserve the right to advance our prices without notice, charging you the difference the advance represents, only the difference in cost to us. The necessity for advancing prices very rarely happens, but as a protection to us, at the extremely low prices we are making, we must reserve this right, and this space is used to inform everyone of the right so reserved. If prices decline so that we are able to buy any goods to fill orders at lower prices than those printed in this catalogue, you will always get the benefit of such prices and the difference will be returned to you in cash.

AS THE TENDENCY IS FOR LARGER CONTRACTS, larger purchases, closer buying, the history of our house and our records show that we reduce prices and return the difference in cash ten times where we make an advance and ask more money once; but for our protection the right to recognize advances and declines must be and is reserved.

IN THIS CATALOGUE you will find only such goods listed as we can save you money on, goods that can be delivered anywhere in the United States for less money than they can be bought at your local dealer's. The amount of money that we can save you over the prices you pay at home varies from 15 to 50 per cent, according to the nature of the goods, but there is not an item quoted in this entire catalogue on which the saving is not worth taking into consideration, to say nothing of the fact that our goods are, as a rule, of a higher grade than those carried by the average storekeeper or catalogue house.

THE ILLUSTRATIONS AND DESCRIPTIONS IN THIS CATALOGUE can be depended upon. We aim to illustrate and describe every article with the strictest accuracy. Most all of the illustrations are made from photographs taken direct from the article. They are such as enable you to order intelligently; in fact, with our assortment, correct illustrations and accurate descriptions, you can order from this catalogue with the same ease, confidence and security as though you were personally in our store selecting the goods yourself.

OUR CUSTOMERS MAY REST ASSURED that we will exert every effort to bring the best merchandise to them at still lower prices in the future and as the volume of our business increases on lines which are not at the present time manufactured by us in factories owned or controlled by us we shall build and equip or control factories which will produce these lines for us at a lower cost. Gradually our interests in manufacturing establishments have been extended until now we manufacture an enormous percentage of the goods we offer in this catalogue and as it has been our practice to sell at manufacturing cost, plus one small profit, we have been enabled to bring the best merchandise to our customers at lower prices than are quoted by any firm or individual engaged in general merchandising lines. We shall exert every effort to increase the opportunities offered our customers to still further reduce their living expenses and we are sure that a comparison of our prices with those quoted by others will influence you to send us an increasing share of your patronage.

DO NOT FAIL TO GIVE SIZE COLOR, WEIGHT ETC., IF REQUIRED, WHEN WRITING YOUR ORDER.

YOUR MONEY WILL BE IMMEDIATELY RETURNED TO YOU FOR ANY GOODS NOT PERFECTLY SATISFACTORY.

Paragraph O. HOW TO RETURN GOODS.

BEFORE RETURNING THE GOODS to us in any manner, we would ask that you communicate with us in regard to them, as we are frequently able to adjust matters in a manner that will avoid the delay occasioned by return of goods.

EVERY ARTICLE IS SOLD BY US with the understanding and agreement that if you are not perfectly satisfied with the goods, if there is the slightest dissatisfaction by reason of quality, size, style, color or any other reason, and you wish to return the goods to us and have us return your money, or you wish to make an exchange for different size, style, color or different goods, you are at liberty to return the goods to us at our expense, and we will return your money or make such exchange as you may direct; but in returning goods to us for any reason the following rules must be observed:

INVOICE NUMBER. Be sure to mention the invoice number under which the goods were shipped to you.

BE SURE TO ENCLOSE WITH YOUR LETTER, all the sheets of our bill as well as any other papers you receive from us relating to the transaction.

ADDRESSING. When returning any goods to us, either by mail, express or freight, you must write your name and address on the outside of the box, package or tag, as plainly as you write ours, and use ink. Write the invoice number also.

DO NOT UNDER ANY CIRCUMSTANCES fail to write your name and address and invoice number plainly and distinctly on the outside of the package or wrapping of the goods that you are returning. This is absolutely necessary in order that we may know by whom the goods are returned.

WHEN YOU RETURN GOODS BY EXPRESS OR FREIGHT,

NEVER RETURN GOODS BY EXPRESS, if the package weighs more than 25 pounds, as it is cheaper to ship by freight.

WHEN RETURNING GOODS BY EXPRESS OR FREIGHT, BE SURE TO WRITE A LETTER telling us whether you want to exchange for other goods, or whether you want us to refund your money, and pack this letter together with the bill of your goods in the box. Be sure that your letter of instructions is complete, and that you mention invoice number, catalogue number of the goods, color, size, etc. Enclose your letter, bill and all other communications that you may have received from us in an envelope, and when the goods are packed, place this envelope containing these communications on top of the goods before enclosing them in the wrapper.

DO NOT SEND THEM SEPARATELY BY MAIL.

IF YOU SEND ADDITIONAL MONEY, send it by mail in a letter by itself and say in the letter which you pack in your goods, that you have sent another letter by mail, containing the necessary amount of money to complete payment for the goods you wish.

WHEN YOU RETURN GOODS BY MAIL, write your name and address as well as ours plainly and in ink, on the outside of the package, also the invoice number, but do not enclose your letter in the package. Send your letter of instructions, with the bill and any other papers referring to the transaction, separately by mail.

DO NOT SEAL A MAIL PACKAGE, but wrap it up in such a manner that the postmaster can open it and examine it without destroying the wrapper.

DO NOT FAIL TO REGISTER MAIL PACKAGES WORTH \$2.00 or more. A package can be registered for 8 cents, and if it does not reach us on time it can be traced.

ABOUT FACTORY SHIPMENTS—SPECIAL NOTICE.

BEFORE YOU RETURN ANY ARTICLE shipped from one of our factories, **PLEASE WRITE US BEFORE YOU RETURN IT** so we can advise you how and where to ship it.

THINGS TO REMEMBER.

In order that your wishes may always have prompt attention, remember the following things:

YOUR NAME AND ADDRESS AND INVOICE NUMBER MUST ALWAYS BE ON OUTSIDE OF THE PACKAGE.

DO NOT ENCLOSE MONEY WITH GOODS.

IF YOU RETURN GOODS BY FREIGHT OR EXPRESS, PACK YOUR LETTER WITH THE GOODS.

IF YOU RETURN GOODS BY MAIL, SEND YOUR LETTER SEPARATELY.

ALWAYS INCLUDE WITH YOUR LETTER THE BILL FOR THE GOODS.

Paragraph P. ABOUT DELAYED SHIPMENTS.

IF YOU HAVE SENT US AN ORDER FOR GOODS and you think it is time they should have arrived, before writing us concerning the delay, please consider the following:

WHILE WE ARE WILLING AND GLAD to answer all kinds of inquiries, to make every possible kind of research, to quickly look up and trace any shipment said to have been delayed, we are daily in receipt of hundreds of letters claiming that goods have been delayed when the orders have been filled by us with all possible promptness and have been handled by the railroad or express companies with their usual dispatch. The investigation simply shows the customer is impatient and has not allowed sufficient time for the order to reach us, for us to fill the order and the railroad or express company to deliver the goods.

WE FILL ALL ORDERS with the greatest possible dispatch consistent with proper care and safety. It requires from two to six days after your order is received for us to ship goods. Where goods are ordered that have to be made to order or finished after received, such as tailoring, upholstered furniture, vehicles, etc., additional time must be allowed. Goods shipped direct from our factory, such as stoves, sewing machines, furniture and a few other heavy items, require from five to ten days to make shipment; add to this the necessary time for the express company or railroad company to carry the goods to you and you will seldom, if ever, be disappointed in the arrival of your goods.

BEFORE WRITING US concerning goods ordered, or before calling for them at your railroad station, first consider if you have allowed ample time for your order to reach Chicago, the nearest point for us to fill same, as above stated, and for the railroad or express company to carry it to you. If you will always do this, allowing liberal time, bearing in mind that express and railroad companies sometimes delay goods a few days after they receive them, you will seldom, if ever, have occasion to write us concerning a delay. If there is more than one freight or express agent in your town, always make inquiries at each office before writing us concerning non-arrival of goods, as it often happens that a shipment is at one office and the notification card has miscarried, while the customer has been making inquiries at another office.

IN CASE, HOWEVER, an order should be delayed beyond the time above referred to, and you write us, do not fail to mention the date on which you mailed our order, the name and address as given in the original order, the value and nature of the cash you sent, and, if possible, give us your invoice number, for if you received from us a postal card acknowledging the receipt of the order, you will find the invoice number on the card mailed you.

ABOUT MISTAKES. If we make a mistake in filling your order, kindly give us a chance to correct it. We try to fill every order absolutely correct, but errors sometimes creep in. They do in all business houses. You will always aid us willing to correct ours. Do not fail to write us in case of an error; otherwise we may never know of it.

CHANGE OF ADDRESS. We would kindly request our customers to immediately advise us concerning any change of address as we keep our records according to states and towns, and should you order from one town and then write from another, we would be compelled to send for further information before we could adjust the matter in question.

DO NOT FAIL TO GIVE SIZE, COLOR, WEIGHT, ETC., IF REQUIRED, WHEN WRITING YOUR ORDER.

Paragraph Q. ABOUT UNNECESSARY CORRESPONDENCE.

WHILE WE EMPLOY OVER ONE HUNDRED STENOGRAPHERS for the accommodation of our customers, and are willing and glad to answer all letters and furnish any special information that may be desired, we daily receive hundreds of letters of inquiry about things that are plainly answered in this catalogue, hundreds of letters which might be avoided, saving loss of time and unnecessary expense.

IT IS VERY SELDOM NECESSARY TO WRITE US, asking what the freight or express charge will be on any article to any point, for, from the weights given under each description and from the express and freight rates shown on pages 13 to 17, you can calculate very closely what the freight or express will amount to and save the time and trouble of writing for this information.

OUR OLD CUSTOMERS rarely ever have occasion to write us, asking what the freight or express will be on any article, and new customers will hardly ever have occasion to if they will refer to pages 13 to 17.

LETTERS CONCERNING SHIPMENTS CAN OFTEN BE AVOIDED. We receive hundreds of letters every day from parties who have ordered and have not allowed sufficient time for the order to reach us, the goods to be packed and shipped and for the goods to reach them. (See paragraph P.) Never write about a shipment until ample time has been allowed for the goods to reach you. We receive hundreds of letters asking for prices or special prices on articles on which the price is plainly printed in this catalogue. All such letters are unnecessary, for it only means an answer again, referring you to the catalogue.

WE RECEIVE HUNDREDS OF LETTERS DAILY from people who ask us if we can't make changes in the goods as advertised, that they want the same thing or things with slight changes. This is all irregular and could not be furnished excepting at an advanced price, and we have often found it impracticable to make any such changes, and to all such inquiries we can save you the time and trouble by saying that no changes can be made from those made plain in this catalogue. Since we answer as many as ten thousand letters a day, you will help us where a reply is necessary by answering on the back of our letter.

Paragraph R. INSTALLMENT PLAN OR PARTIAL PAYMENT.

WE RECEIVE HUNDREDS OF LETTERS asking for prices on certain goods, especially on organs, pianos and other goods that run into money, from parties who wish to buy on the installment plan and to make settlement in notes. All these inquiries can be avoided for the reason that our only terms are cash, we never extend time, we open no accounts nor allow goods to be sold on the installment plan.

THE INSTALLMENT PLAN OR PARTIAL PAYMENT METHOD OF PURCHASING MERCHANDISE is the most costly any purchaser can adopt. The price you pay when you buy goods on time is always from 25 to 50 per cent higher than it would be if you paid cash, and whether you buy from us at our low prices for cash, or from some other house, our advice to you is: Do not buy on the partial payment or installment plan under any circumstances. Every dealer who sells on time, who accepts partial payments, must suffer large losses and every customer of his who does meet his payments promptly must make up for these large losses. It will pay you to borrow the money from your bank or from some other source and then pay cash, as the saving, especially if you purchase from us at our astonishingly low prices, will pay several times the interest on the borrowed money. When you buy merchandise from us for cash, you pay only the mere cost of materials and labor, with one small percentage of profit added; not one penny do you pay for bad debts; not one cent for bookkeeping and not one cent of extra profit to jobbers, wholesalers or other middlemen. You cannot afford to buy on time, at high prices, when we can sell you better merchandise at prices about one-half the prices asked by dealers who sell goods on the installment plan.

Paragraph S. ABOUT CLAIMS FOR DAMAGE AND OVERCHARGE ON TRANSPORTATION.

WE CAREFULLY PACK AND DELIVER ALL OUR GOODS in good condition on board the cars, either in Chicago or at the factory, as made plain in this catalogue. We accept a receipt from the railroad company for the goods in good order, and it very rarely happens that any goods that we pack and ship reach their destination in bad order.

IF IT SHOULD EVER HAPPEN that any article reaches you marred, scratched, broken or in any way defective, be sure to have the railroad agent make a notation of such defect on the freight receipt (expense bill) he gives you. You can then present your claim for damage to the railroad agent from whom you received the goods, it being his duty at that end to take the matter up with the officials of that road and collect for you any damages that may have occurred.

WHILE THE PROPER PLACE FOR TAKING UP ANY CLAIMS FOR DAMAGE OR OVERCHARGE ON TRANSPORTATION on goods in transit, either by freight or express, is through the agent who delivers the goods, the trouble and delay and expense of writing us to do this can also be avoided. We, however, guarantee the goods we ship to reach you in the same perfect condition they leave us, and to be satisfactory to you in every way, and if you find them damaged in transit and you accept them and the agent hesitates to take and collect your claim for damage, you can write us, enclosing your receipt (expense bill) for the freight charges paid the agent, with the agent's written notation on the expense bill, stating what the damage is, and we will take the matter up at this end, collect the damage and send the money to you. If you can discover at the station before taking the goods that there is any damage or anything missing you must be sure to have the agent write the facts across the expense bill, which he gives you when you pay the freight. Unless we have these facts written across the expense bill, we cannot make claim against the railroad company for the damage or shortage; so be sure to have him write the facts on the expense bill.

WHILE WE HAVE A LARGE CORPS OF STENOGRAPHERS and corresponding clerks in our employ, whose duty it is to promptly and courteously answer all inquiries and give all desired information, in order to maintain our extremely low prices the cost of conducting our business must be cut down to the very minimum, and to do this our customers are especially requested before writing us concerning freight rates, claims, delays, or before asking us for information of any kind to carefully consult this catalogue, and if they will do this they will find in nine cases out of ten the information can be had or the adjustment of damage made without going to the trouble of writing us or putting us to the expense of corresponding on the subject.

ON THE BASIS OF BETTER VALUE THAN YOU CAN POSSIBLY GET ELSEWHERE, the best possible service, every item you order guaranteed to reach you in perfect condition and to prove perfectly satisfactory or your money to be immediately returned to you; under our binding guarantee to please you in every way in your dealings with us, we respectfully solicit your orders.

ABOUT OUR RELIABILITY.

YOU ARE PERFECTLY SAFE IN SENDING US YOUR ORDERS AND YOUR MONEY. We are one of the largest commercial institutions in the world, and we occupy by far the largest mercantile plant in the world. We own this entire plant, free of indebtedness of any kind, comprising forty acres of ground, in one of the best districts in Chicago; our ground and buildings alone are valued at more than Six Million Dollars. We have nearly nine thousand employees, and our customers now number nearly five million. If you have any doubt, you are at liberty to refer to any bank, business house or resident of Chicago, and we especially refer to our millions of satisfied customers. Ask your neighbor about **Bears, Roebuck & Co.** We have customers in every neighborhood in the United States, and we gladly refer you to any customer.

BE SURE TO READ THE BANK LETTER OF THE FIRST NATIONAL BANK OF CHICAGO, capital and surplus \$13,000,000.00, signed by its cashier, F. O. Wetmore; also the **Corn Exchange National Bank** letter, capital and surplus \$6,000,000.00, signed by Frank W. Smith, its cashier; see page 20. Consider our standing everywhere and be convinced it is perfectly safe to send your money to us, we agreeing to return it and pay all transportation charges if the goods do not please you.

HOW WE MAKE EVERY TRANSACTION WITH US STRICTLY CONFIDENTIAL.

Why our name and address do not appear on any box, package, wrapper, tag, envelope or article of merchandise.

As many people, especially merchants, business houses, townspeople and others, do not care to have others know where or from whom they buy their goods, as many people object to having the name of the shipper spread across every box or package, so that when it is unloaded at the station or express office everyone can see what they are getting and where they buy it, to protect all those who care for this protection and make it possible for you to order your goods from us with no fear of anyone learning at the railroad station, express office or elsewhere what you bought or where you bought it, our name and address will not appear on any box, package, tag, envelope or article of merchandise.

For example: If you are a merchant and wish to buy goods to sell again, your customers will be unable to learn from any marks inside or outside where you bought the goods or what you paid for them.

If you are a professional man, or even in the employ of some merchant, who for personal reasons might object to your sending to us for goods, you need have no fear, our name will not appear on any goods or packages you get.

While we would be glad to have our name appear on every article of merchandise and on every box and package, as a valuable means of advertising, we have learned that thousands of our customers need the protection that the omitting of our name affords. This applies especially to townspeople.

NO ORDER WILL BE ACCEPTED FOR LESS THAN 50 CENTS.

PLEASE DO NOT SEND US ANY ORDER AMOUNTING TO LESS THAN 50 CENTS. If you want some article, the price of which is less than 50 cents, please include one or more other needed articles and make your order amount to 50 cents or more.

AS A MATTER OF ECONOMY, BOTH TO OUR CUSTOMERS AND OURSELVES, we do not fill orders for less than 50 cents. The postage or express charges especially make small orders under 50 cents unprofitable to the purchaser, or at least much more expensive than the orders amounting to 50 cents or more.

WE MAKE THIS EXCEPTION: In the case of needed repairs, attachments and supplies, such as needles for our sewing machines, parts of guns, etc., which can be secured only from us, we will fill the order no matter how small it may be.

TO MAKE ORDERING BY MAIL VERY PROFITABLE TO OUR CUSTOMERS we especially urge that you make your order as large as possible. Orders of from \$2.00 to \$5.00 or more are always very much more profitable to the purchaser than smaller orders, for the express or freight charges are in this way very greatly reduced. It always pays, even if you have to get some friend or neighbor to join with you, to make up an order of from \$2.00 to \$5.00 or more, and include enough heavy goods to make a profitable freight shipment of fifty to one hundred pounds. In this way you reduce the transportation charges on each item to next to nothing. You then pay the exact same freight charges that your storekeeper must pay on the goods he sells.

ON THE BASIS OF FAR GREATER VALUE FOR YOUR MONEY THAN YOU CAN POSSIBLY GET ELSEWHERE, lower prices than any other house does or can name, the best possible service, every item ordered guaranteed to reach you in perfect condition and give perfect satisfaction or your money to be immediately refunded to you; on our binding guarantee to please you in every way on every dollar sent us, wholly in your own interest we ask you to kindly conform to these terms.

OUR COMPLIMENTS TO THE RETAIL MERCHANT.

IT IS NOT OUR DESIRE TO ANTAGONIZE THE RETAIL MERCHANT (the storekeeper of the country). This is a big, growing country, and there is ample room for us all. Our prices are alike to all. Whether to the largest or the smallest merchant, farmer, mechanic or laborer, our price is exactly the same. Our goods are for sale at the prices plainly printed in this book, and occupation or position restricts no one from buying goods from us at our printed prices.

However, we number thousands of the best merchants of the United States among our valued customers. The prejudice which for a time existed because we would not sell to the dealer and refuse to sell to his customers, is dying out; for the shrewd, careful buying, up to date merchant of today has broader business views. He buys his goods where he can get the best value for his money, and on the basis of more value for the money than is furnished by any other house we especially invite all classes of merchants to carefully compare our prices as printed in this book with the prices you have been in the habit of paying.

As explained on this page, we ship all our goods in plain boxes or packages, and our name appears on no package or article of merchandise. You can buy your goods from us at our selling prices, which are much lower than you can buy elsewhere, you can fix your profit to suit yourself and your customers will not know where you bought the goods or what you paid for them.

We want to correct the impression that may be in the minds of some merchants, that we sell exclusively to the consumer, the party who buys the goods to use. If you have this impression we are anxious to correct it. A goodly percentage of the goods we ship in all lines go direct to merchants, business houses who buy to sell again, and in some lines, especially materials and supplies, a large percentage of our goods go to manufacturers, which they use in the manufacture of their wares, which in turn they sell to dealers. Among our valued customers are the U. S. Government, state and city institutions, railroads and other large corporations, and also jobbers, brokers, retailers and consumers in all parts of the country.

WE ESPECIALLY SOLICIT THE TRADE OF THE SUCCESSFUL, SHREWD BUYING MERCHANT, who wishes to buy his wares where he can get the highest standard of quality at lower prices than he can get elsewhere.

TO THE SHREWD MERCHANT buying for cash to sell again at a profit, to the one who buys where he can get the most for his money.

DO NOT FAIL TO GIVE SIZE, COLOR, WEIGHT, ETC., IF REQUIRED, WHEN WRITING YOUR ORDER

TO THE PURCHASING AGENT OF RAILROAD COMPANIES and other large corporations, to contractors and builders and to manufacturers of all classes of goods, to all of these who are now dealing with us, we want to thank you for your liberal patronage in the past and again invite you to a careful comparison of our prices in this, our latest, large merchandise catalogue, with the very lowest prices the same goods can be had elsewhere, and on the basis of quality and price we earnestly solicit your future business.

To all this class who have not as yet dealt with us we earnestly solicit a careful study of our catalogue prices, which will point in many directions to a great saving for you.

TO RAILROAD PURCHASING AGENTS we especially direct attention to our incomparably low prices on safes and stoves for station use, also to furniture, hardware, etc., for other uses. We are doing a large business with a number of the large express and railroad companies; therefore, to the purchasing agents of these corporations especially, do we direct your attention to the prices quoted in this catalogue and our ability to save you money on the goods we offer.

TO CONTRACTORS, BUILDERS, MANUFACTURERS, ETC., we can save you money on goods you consume and goods that go into your manufactured wares. If you are a builder we can save you money on a large part of all your building material. If you are a manufacturer using any kind of finished parts of iron, wood, leather or cloth, we can save you money on many items that go into your manufactured articles. If you are a contractor, mill operator or the like, you are consuming machinery, tools and supplies of all kinds, and we can save you money on these, and this in competition with any market in the world.

MANY MANUFACTURERS WORKING IN IRON buy all their files, emery wheels and various similar supplies, as well as tools and machinery from us.

MANY MANUFACTURERS WORKING IN WOOD buy their saws and other tools and supplies from us.

MANY MANUFACTURERS WORKING IN LEATHER, such as harness, etc., buy their buckles, trimmings and leather from us.

MANY MANUFACTURERS OF BUGGIES, HARNESS, ETC., buy their wheels, woodwork, leather, cloth, iron, trimmings, etc., from us.

MANY MANUFACTURERS OF FURNITURE buy their hardware, such as locks, hinges, knobs, casters, trimmings, etc., from us.

MANY MANUFACTURERS OF AGRICULTURAL IMPLEMENTS, ETC., buy their paint, various hardware and tools from us.

CONTRACTORS AND BUILDERS OF HOUSES buy their builders' hardware, such as doors, locks, nails, paint, paper, roofing, doors, sash, blinds, millwork, etc., from us.

LUMBERMEN, OPERATORS OF SAW MILLS, LOGGERS, ETC., in all sections of the country, north, south, east and west, buy their general supplies from us, such as saws, files, mechanical tools and supplies, including axes, chains, hooks and all kinds of provisions and supplies.

ALMOST EVERY DEALER IN MERCHANDISE, general store or special store in the United States, sells goods purchased from us, either directly or indirectly, for in the goods you buy from others to sell again, among some of them surely will be found goods that were bought from us, supplies of some kind that entered into the manufacture of the goods you bought. As we are operators, owners or controllers of a great many factories manufacturing finished materials in parts, goods made of iron, wood, leather, cloth, etc., it would be hardly possible for any dealer in hardware, groceries, dry goods, clothing, agricultural implements or other goods to buy the finished goods to sell, from any wholesale dealer anywhere without there would enter into some of the goods which he offers for sale, parts that have come either direct from our store or from one of the many factories in which we are interested.

WE OWN OR CONTROL THE OUTPUT OF FACTORIES MAKING VARIOUS KINDS OF HARDWARE AND HARDWARE SUPPLIES, carriage and wagon material, blacksmiths' materials, materials that enter into clothing, harness, furniture, etc. We also own or control many factories making shoes, stoves, cream separators, organs, musical instruments, plumbing goods of all kinds, paint, wall paper, guns, revolvers, furniture, safes, saws, mechanics' tools, photographic goods, washing machines, household supplies, cameras, clothing, ladies' wearing apparel, electrical goods, tents, canvas goods, gun implements, surgical implements, typewriters, books, jewelry, stereoscopic goods, hardware, special millwork, radiators, agricultural implements, etc. We are either sole owners or controllers of a vast number of these factories. From some we sell the entire output; others, we allow the factory, under our direction, to sell to either wholesale or retail dealers, usually to wholesale dealers, and the wholesale dealers in turn sell to the retail dealer, and the retail dealer to his local trade. So if you could trace the original source of supply of every article in your store or on your shelves, you could trace a liberal percentage of all the goods you are now selling either directly to our store or indirectly to one of our many factories.

Therefore we urge you, if you are a live, up to date merchant, that you buy from first hands.

IF YOU ARE A MERCHANT who buys to sell again you will find thousands of articles in this catalogue on which we can save you money. Remember, every transaction with us is treated in the strictest of confidence. No article you buy, from us will bear our name; no box, package or shipment of any kind will bear our name. Our name will not appear on any tag, envelope or any piece of paper that is exposed that will go to you from us. If you buy goods from us no one will know from whom you buy your goods or what you pay for them. You can send your order to us for anything in this catalogue, the goods will go to you with the understanding that they will please you, you will find them lower in price and better in quality than you can buy elsewhere, and you are always at liberty to return any goods you get from us if you are not perfectly satisfied and always at our expense, and we will immediately return your money together with any express or freight charges paid by you.

OUR LIBERAL TERMS OF SHIPMENT.

WE HAVE NO DISCOUNTS, we sell for cash only, and the prices quoted in catalogue are absolutely net, from which there is no discount whatever. prices are alike to one and all, regardless of the amount of the order; the same to merchant, the manufacturer, contractor or corporation as to the farmer, mechanic or laborer. We especially recommend that you send cash in full with your order. Send us either a postoffice money order, express money order, bank draft, your own check or send the money in a registered letter.

If you are a farmer and live on a R. F. D. Route, make up your order, go to the R. F. D. carrier, give him the money you wish to send to us and he will give you a receipt for the money and either issue to you or get for you a postoffice money order for the amount you wish to send.

If you reside in a town, then either go to the postoffice and buy a postoffice money order, to the express office and buy an express money order, or to the bank and buy a draft, or enclose your own check.

WE ESPECIALLY REQUEST THAT YOU SEND THE FULL AMOUNT OF CASH WITH YOUR ORDER, for this is always much more satisfactory than to send part of the money with your order, the balance to be paid C. O. D., and understand, when you send us your order and money we accept your money and your order and ship the goods to you with the understanding and agreement that if they are not perfectly satisfactory in every way, you are at liberty to return any part or all of them to us, at our expense, and we will immediately return your money, together with any freight or express charges paid by you.

Paragraph C.

HOW TO ORDER.

Use our regular order blank, if you have one; if not, use any plain paper. Always keep well supplied with our order blanks, as it is more convenient for you to make out your order on our regular order blanks than in any other way. If out of them at any time, drop us a postal card and we will send you some.

Whether you write your order on our regular order blank or letter paper instead, be sure to observe the following instructions:

Always sign your full name (Christian name and surname).

Please write your name and address very plainly and in INK.

Write your name in full clearly and distinctly. Make it as plain as possible so that we cannot make a mistake.

Give your postoffice, county and state, rural route or street and number and your shipping point, if different from the postoffice.

Always give catalogue number in full (write every figure and letter in the catalogue number), description and price of each article ordered.

Always try to mention the number or name of the catalogue or circular from which your order is taken and be sure to give the size, color, weight and measurements when required.

Be sure to enclose your money with your order and state plainly in your order how much money you enclose and in what form. Sending us money in one envelope and your order in another causes delay and confusion in our office, as they become separated in the mails. For instructions on how to send money see paragraph F.

Be sure you have followed our rules carefully about enclosing the proper amount of money with the order, including enough to pay postage if the goods are to be sent by mail, and insurance fee if to be sent by insured mail.

Be sure your name and address is written plainly and in full, that your shipping directions are plainly stated, that the exact amount of money enclosed is plainly stated, that you have given us catalogue number, price, description, correct size and measurements and you will seldom, if ever, have any delay or inconvenience. By carefully observing these rules you will avoid errors and loss of time by our having to write you for further information.

AFTER WRITING AN ORDER, please compare it with these rules, check it over closely and see if you have written your order correctly.

IF YOU WISH TO REFER TO ANY MATTER not concerning the order, be sure to write it on a separate sheet. Do not write it on your order sheet, though you may enclose it in the same envelope with your order. Our orders and letters are handled in separate and distinct departments, and we ask you, therefore, please do not fail to observe this rule.

ALWAYS TRY TO WRITE REMARKS CONCERNING YOUR ORDER on the same sheet with the order. This will prevent the possibility of such remarks or instructions being separated from the order. Should you have occasion to write us concerning an order which you have already sent us, do not fail to mention the date on which your letter was mailed, also state the nature and value of your remittance and the name and address as given in your order. This information will enable us to promptly locate the matter you refer to.

Every time you send us an order sign your name in the exact same way you signed it the first time you ordered. For instance, if you signed your first order "Thomas J. Brown," sign every other order you send "Thomas J. Brown," and not "T. J. Brown," "T. Brown" nor "Tom Brown." This is very important, as it enables us to promptly adjust complaints which may arise in connection with your order.

SHOULD YOU CHANGE YOUR ADDRESS, please notify us, being sure to give old as well as new address in full.

Paragraph D.

ABOUT OMISSIONS.

ALL ORDERS FOR MERCHANDISE are accepted by us with the understanding that we will use every reasonable effort to promptly ship every item exactly as ordered, and in order to make this possible we carry in stock, constantly, merchandise to the value of more than seven million dollars, and if we do not have the goods in stock we invariably buy them in Chicago if we can, even if we are compelled to pay more than we get for them, rather than delay an order or withhold shipment of any part of an order. But it sometimes happens that on an order including several items of merchandise there may be one or two items that are not in stock and cannot be had in Chicago, usually for the reason that the manufacturers are behind with their orders, have met with some accident, or there has been some unusual delay in transportation.

THEREFORE, WE ACCEPT ALL ORDERS with the understanding that we reserve the right, when unable to ship every item, to cancel that portion of the order which we cannot ship promptly, filling the balance of the order, and returning to the customer in cash the amount for the item or items canceled. We make this explanation so that anyone ordering merchandise from us, and receiving the goods with one or more items missing, and receiving by mail his money returned for the omitted items, will understand that the reason for omitting is that the goods are not in stock and cannot be had in Chicago at that time. Where an omission for the above reason is necessary, we usually send a letter telling when we expect to have a stock of the missing goods, so that the customer may renew his order if he so desires.

UNDERSTAND, it seldom happens that we are unable to fill an order complete and exactly as given, but out of the many thousands of orders we receive every day, there are always a few (a very small number) on which items must be cancelled, and we make this explanation in our catalogue so that none of our customers need misunderstand our position.

Paragraph E.

ABOUT SUBSTITUTION.

WE ARE BITTERLY OPPOSED TO SUBSTITUTING one article for another unless instructed to do so by the customer. We believe, except in rare cases, it is very presuming on the part of any customer receiving an order for one kind of goods to send another, without first having the written consent of the customer to do so. There are, however, exceptions where we take upon ourselves the responsibility of substituting, and with reference to this we make the following explanation:

IF A PARTY SENDS US AN ORDER and there is some article in that order which we have not in stock and cannot get in Chicago, but we have the same kind of an article in a higher grade, we then take the liberty of sending the higher grade at the price of the lower grade, sacrificing our profit rather than to disappoint the customer. A customer ordering a watch may call for a 7-jeweled Elgin or Waltham movement and we may not have one in stock, and there may not be one in the Chicago market, in which case we would consider ourselves justified in taking the liberty of substituting a higher grade in an 11 or 15-jeweled Elgin or Waltham movement, but always at the price of the cheaper

one ordered, taking the loss ourselves for the difference in price. This is an example. The same would apply on hundreds of items in our stock, but only in cases where in our judgment the customer can only be the better pleased by reason of such action on our part. However, even this kind of substitution we admit is presuming on our part, and when such substitution is made it must be understood it is done entirely at our risk, and with the understanding that if our action is not entirely satisfactory to the customer, he is at liberty to return the goods at our expense of transportation charges both ways and his money is to be immediately returned to him.

Paragraph F.

HOW TO SEND MONEY.

SEND US A POSTOFFICE MONEY ORDER, express money order, bank draft, cash or stamps. Should you send stamps, fold them in waxed paper. We receive many orders with stamps stuck together and worthless. We do not accept revenue stamps, foreign stamps and due stamps, as they are of no value to us. Do not send them.

IF YOU LIVE ON A RURAL ROUTE you can just give the letter and the money to the mail carrier and he will get the money order at the postoffice and mail it in the letter for you.

IF YOU HAVE A CHECKING ACCOUNT AT A BANK, you may send us your personal check if it is more convenient for you to do this, although we prefer to receive a postoffice money order, an express money order or a bank draft. Personal checks of course, are accepted subject to payment immediately upon presentation to the bank on which they are drawn.

POSTAGE STAMPS in amounts exceeding \$1.00 will be accepted only at a discount of five per cent (5%), or ninety-five cents on the dollar. If you order an article priced at \$2.00 and send stamps you should send \$2.10. If a \$3.00 article you should send \$3.15 in stamps. We are compelled to dispose of all surplus stamps at a discount of from 2 per cent to 5 per cent and besides there is an extra expense in handling stamps, and our very small profit will not admit of this expense. We advise remitting by postoffice or express money order, but will accept postage stamps in any amount at 95 cents on the dollar. As an accommodation to our customers we will accept postage stamps at the face value in amounts less than \$1.00.

WE RECOMMEND THE POSTOFFICE AND EXPRESS MONEY ORDER SYSTEMS, because they are inexpensive, of less trouble and safe. Besides this, if the money order should get lost or miscarry, your loss will be made good.

DO NOT, UNDER ANY CIRCUMSTANCES, send money or stamps in a letter except by registered mail. If sent by open mail (not registered) the letter may never reach us, and in such a case a great amount of trouble and inconvenience is caused, as well as the loss you sustain. If you prefer to remit by registered mail, we advise the use of two envelopes, one inside the other, and the outer one carefully and securely sealed. Do not send coin unless absolutely necessary, but if you do, be sure to wrap up the coin in paper and use two envelopes, one inside the other, so there is no danger of the coin wearing through and getting lost; and be sure to register the letter. Do not send gold or silver coin that is defaced, as light weight coins are worth no more than bullion, and bullion is less than the face value of the coin.

TO INSURE SAFETY always register a letter containing money. Be sure to state in your order plainly how much cash you enclose and in what form. You need not be afraid of sending too much, as we always refund when too much money is sent.

Paragraph G.

METHODS OF SHIPMENT.

We can ship goods by mail (see paragraph H about mail shipments), by express (see paragraph I about express shipments), by freight (see paragraph K about freight shipments). If left to our judgment we will ship goods in the manner which will be the least expensive to our customers. In all cases transportation charges are to be paid by the customer.

Paragraph H.

MAIL SHIPMENTS.

The mail service affords a convenient method for the transportation of merchandise of small weight and considerable value to points that are distant from express or railroad offices. On all orders to be shipped by mail we require the full amount of cash with the order, together with sufficient money extra to pay postage and insurance or registration, when same is desired. There are three methods of shipping goods by mail.

SECTION 1. OPEN MAIL, which is so called because only the regular amount of postage, according to the classification of goods, is paid and the customer must assume all risk. We do not recommend sending goods by open mail, for if the package is lost or stolen, neither we nor the customer have any recourse. In sending goods by open mail the customer must assume all risk.

SECTION 2. INSURED MAIL. This we consider the best, safest and cheapest method of shipping by mail. The following is the rate, in addition to the regular postage: For orders valued at \$3.00 or under, 5 cents each. For orders valued at \$10.00 or under, 10 cents each. For each additional \$5.00 in value, 5 cents extra. In case of loss, we refill the order on receipt of statement certified to by your local postmaster that goods were not received. We advise insuring everything of value. Insurance is less than the cost of registering, because no matter how many packages the order consists of, our insurance charge would be only on the value of the order and not on the number of packages, as is the case when sent by registered mail. We guarantee for our charge the safe arrival of the entire order. If you want your mail package insured be sure to write "Insure" in your order, and in addition to your remittance for the order be sure to add enough money to pay postage and insurance fee. To secure adjustment it is necessary to make prompt notification of the failure to receive package.

SECTION 3. REGISTERED MAIL, so called because in such cases the postoffice authorities keep a record of the transaction and are thus enabled to trace your shipment. Registry fee per package is 8 cents in addition to the regular postage. We are not responsible for loss of registered mail.

A PACKAGE SHIPPED BY MAIL CANNOT EXCEED 4 POUNDS, but any number of packages may be sent at one time, each weighing four pounds or less. If you live at a great distance from the express office, it might be more convenient to send an order by mail in two or more packages, each weighing four pounds. One book can be sent by mail, no matter what its weight. The rate is $\frac{1}{2}$ cent per ounce.

THE RATE ON MERCHANDISE BY MAIL IS 1 CENT PER OUNCE, on books and printed matter, $\frac{1}{2}$ cent per ounce, and you should allow, in addition to the weight of an article, from one to five ounces for packing material, according to size of package shipped.

IF YOU ARE NOT SURE as to the weight of the article, be sure to enclose enough money for postage; if you send too much, we will refund balance.

EXPLOSIVES, POISONOUS OR INFLAMMABLE ARTICLES cannot be mailed under any circumstances whatever.

LIQUIDS OVER 4 OUNCES CANNOT BE SENT BY MAIL, but liquids weighing four ounces and under can be safely shipped by mail when packed in special mailing cases. Always allow five cents extra for this special case.

SECTION 4. PROFITABLE MAIL SHIPMENTS. ARTICLES SUCH AS WATCHES, JEWELRY and other valuable merchandise of light weight make profitable

YOUR MONEY WILL BE IMMEDIATELY RETURNED TO YOU FOR ANY GOODS NOT PERFECTLY SATISFACTORY.

mail shipments. In all cases where other goods are not ordered at the same time, we advise that such articles can be sent by mail economically.

CERTAIN MEDIUM PRICED GOODS, which, being weighty, cost considerable postage for transportation, should, if possible, be ordered in connection with other needed articles, sufficient to make up express or freight shipment, thus reducing the transportation charges to one-quarter or one-eighth of the postage rate and effecting a far greater saving for you.

WITH THE EXCEPTION OF ARTICLES OF SMALL WEIGHT and of some value, sending goods by mail is by far the most expensive means of transportation, but even in cases where the postage may seem out of proportion to the value of the goods, the cost of the goods with the postage added is usually less than if purchased at the local dealer's and frequently the article wanted is not handled by them at all, while our immense stock of merchandise will supply your demands.

Paragraph I.

EXPRESS SHIPMENTS.

HOW TO FIGURE EXPRESS CHARGES. See pages 13 to 17.

SHIPPING GOODS BY EXPRESS is an absolutely safe method of transportation and offers the advantages of quick service. It is the most profitable method of shipping goods when the weight is less than 20 pounds. Frequently a customer is in a hurry for certain goods and is willing to pay the extra cost of express charges over freight, the money we save him making it profitable on such shipments instead of buying the goods at home.

WHERE LIGHT AND EXPENSIVE ARTICLES, such as watches, jewelry and high priced revolvers are ordered shipped with a miscellaneous freight or express order, we make separate shipment of the expensive goods, sending them by sealed express for greater safety.

IF YOU HAVE NO AGENT at your station, all express shipments will be carried to the nearest town where there is an agent. If there is no agent at your station, always state in your order at what station you prefer to receive your goods.

A RECOMMENDATION THAT WILL SAVE YOU MONEY: If you live at a far distant point and wish to order some article of merchandise which would weigh about 20 pounds and amount to \$6.00 or less, on which the express charges would be from \$1.25 to \$2.75, and you require nothing further from our catalogue at the time, show the book to your friends, let them add articles they may be in need of and the shipment can go by freight at about the same cost per 100 pounds as by express for 20 pounds, your proportion of the transportation charges being then about 60 cents. We frequently find it greatly to a customer's advantage to ship by freight instead of by express, and when we can save them money by changing the shipping directions we will often do so, unless the goods are wanted in great haste.

ALWAYS RESPOND PROMPTLY TO THE NOTIFICATION OF THE EXPRESS AGENT AS TO THE ARRIVAL OF MERCHANDISE. We are constantly in receipt of requests from them for disposition of packages by reason of the fact that consignee does not call promptly for his goods when notified by the agent that they have arrived.

WHEN YOU WRITE US CONCERNING AN EXPRESS SHIPMENT, please write your name and address very plainly and in INK.

Paragraph K.

FREIGHT SHIPMENTS.

FOR FREIGHT CLASSIFICATION and freight rates, see pages 13 to 17. **Heavy, bulky merchandise**, such as agricultural implements, household goods, furniture, groceries, hardware, etc., can be shipped most profitably by freight. When a shipment weighs 100 pounds or more, the railroad companies will charge only for the actual number of pounds.

WHERE LIGHT AND EXPENSIVE ARTICLES, such as watches, jewelry and high priced revolvers are ordered shipped with a miscellaneous freight or express order, we make separate shipment of the expensive goods, sending them by sealed express for greater safety.

HOW TO SAVE MONEY ON FREIGHT SHIPMENTS. Railroad companies usually charge no more for 100 pounds than they do for 20 pounds. While the extremely low prices at which we sell our merchandise would make even a small order by freight profitable, as you would certainly be getting the goods cheaper than you could possibly buy them through a dealer, at the same time it would be a considerable saving of money if you could make up a larger order, either of your own wants or club together with your neighbors, as the freight charges will amount to comparatively very little more. The saving that may be effected by anticipating your wants and sending one large order instead of five or six smaller orders at different times is quite an item, and therefore should be taken into consideration by our customers.

YOU MUST PAY THE FREIGHT OR EXPRESS CHARGES, but it will amount to very little as compared with what you will save in the price.

IF YOU HAVE NO AGENT AT YOUR SHIPPING POINT, freight charges must be prepaid. If you do not know what the freight charges will amount to, be sure and allow liberally for same. If you send more than actual amount required, we will immediately refund the difference. If you have an agent at your station, it is not necessary to prepay charges, as they are the same whether paid by you or by us, as our system of checking rates insures for our customers almost absolute correctness in transportation charges.

WHEN WE MAKE A SHIPMENT to a railroad station where there is no agent, we guarantee safe delivery to the station. From the fact that there is no agent at the station to receive the goods the railroad company will not assume any responsibility if, after they are put on the platform, they are lost or damaged, and we consequently cannot hold them for such loss or damage.

CUSTOMERS WHO ORDER GOODS shipped to a station where there is no agent must make careful arrangements for the care of the goods after they are put on the platform; otherwise, they are liable to be damaged or stolen. We would recommend that you have the goods shipped, if possible, to your nearest open station where there is an agent, thus making the railroad company entirely responsible for the goods until they are delivered to you.

OVERCHARGES IN TRANSPORTATION. Whenever a customer suspects an overcharge on the part of the transportation company, we will be pleased to give same our most prompt and careful attention in his behalf, if he will send us the expense bill received from the agent, after he has paid the charges. Complaints for overcharges are very few, as our system of checking the rates on freight and express shipments insures for our customers almost absolute correctness in transportation charges.

IF YOU HAVE REASON TO BELIEVE THAT AN ERROR HAS OCCURRED IN THE WEIGHTS, as shown in the freight expense bill, ask the agent to weigh the goods, and if it is found that the shipment is billed overweight he will correct the error and ask you to pay only for the correct weight.

WHEN YOU WRITE US CONCERNING A FREIGHT SHIPMENT, please write your name and address very plainly and in INK.

DO NOT FAIL TO GIVE SIZE, COLOR, WEIGHT, ETC., IF REQUIRED, WHEN WRITING YOUR ORDER.

Paragraph L.

INFORMATION ABOUT GOODS SHIPPED DIRECT FROM THE FACTORY.

IN ORDER TO GIVE OUR CUSTOMERS THE VERY LOW PRICES WE DO, prices based on the actual cost to manufacture, cost of material and labor only, with but our one small percentage of profit added, prices much lower than they could possibly get elsewhere, we find it necessary to ship many heavy goods direct from the factory where they are made, and in doing this we save the freight on the goods into our warehouse in Chicago, the cartage, handling and other expenses incident to merchandise passing through the store in Chicago, and we give our customers every particle of the benefit of this saving in our extremely low prices. Wherever the catalogue states the goods are shipped from the factory, the prices quoted are for these goods delivered on board the cars at the factory and the customer pays the transportation charges from the factory. In many cases, the freight from the factory will be less than from Chicago, the factory being nearer to the purchaser. In some cases the factory will be at a greater distance than Chicago, in which case there will be an additional freight beyond the Chicago rate, but even in such cases the saving to you is very great, for if we were to ship the goods to you ourselves we would be compelled to add the freight to Chicago to all the goods, and to this add the expense of handling to and from the railroad, in and out of our store and other expenses incident to general handling of merchandise in the city.

IT SOMETIMES HAPPENS that a customer orders several articles in one order that are shipped from different factories. For instance, he may order a buggy to be shipped from our factory in Southern Indiana; a stove, to be shipped from our foundry in Central Ohio; a windmill, that will be shipped from our factory in Northeastern Indiana. In this case we would be compelled to make three different shipments. The goods would go direct to our customer from the three different factories, but there would be no extra freight charges by reason of the three shipments, as each shipment would weigh more than 100 pounds and would therefore entitle the customer to the same freight per 100 pounds as if the shipments were all made together.

WHILE THE GREATER PART OF OUR GOODS ARE CARRIED IN STOCK IN OUR STORE AND WAREHOUSES IN CHICAGO, and this factory shipment information does not apply to small or general merchandise, we have found it necessary to make factory shipments on many heavy and bulky articles, purely in the interest of our customers, in order to give our customers the greatest possible value for their money, to enable us to deliver the goods to them at our one small percentage of profit direct from the manufacturer to the consumer, and your attention is called to the explanation that is always made in the catalogue regarding any article that is to be shipped from the factory, that you may understand that the freight is to be paid by the purchasers from the factory direct, and also that you may understand our reason for this method of handling certain merchandise.

WE FREQUENTLY RECEIVE ORDERS which include merchandise, a part of which is to be shipped direct from the factory and part direct from our store. For example: A man may order a buggy and a harness. The buggy will be shipped from the factory, the harness from the store. He may order a stove and some stove furniture, cooking utensils, etc. The stove will be shipped direct from the foundry and the cooking utensils from the store.

WHEN AN ORDER INCLUDES SUCH HEAVY GOODS as we ship direct from the factory (in order to make the low price), and other goods which we ship direct from our store, if that portion of the order which is to be shipped direct from our store is a profitable shipment (see paragraph M about unprofitable shipments), we make two shipments; the stove, buggy or other heavy shipment going direct from the factory, the balance from our store. But it sometimes happens that that portion of the order to be shipped from our store would not be a profitable shipment. It may be for a few cooking utensils, amounting to \$1.00 or \$2.00, or a very low priced harness of \$5.00 or \$6.00, or \$1.00 or \$2.00 worth of miscellaneous merchandise, on which the freight charges would amount to more than the saving, or difference between our price and the price at which the customer could buy in his own town. In such cases of unprofitable shipment we use our very best judgment, and where we deem that portion of the order that is to go from our house an unprofitable shipment, we cancel that portion of the order and return the amount to our customer in cash for the goods cancelled.

AS A FURTHER EXAMPLE: The customer may order a parlor suite for \$15.00 to \$20.00, which we ship from the factory, and may include with his order one chair for 90 cents, which we ship from the house. This one chair (except to nearby points), would be considered an unprofitable shipment. On such an order we would take the liberty of cancelling the order for the chair, returning the 90 cents to the customer at once, and we would ship the parlor suite to him direct from the factory by freight, with a letter of full explanation for our action. This article is intended to explain our methods of treating special orders only in the interest of the customers.

Paragraph M.

ABOUT UNPROFITABLE SHIPMENTS.

WE FREQUENTLY RECEIVE ORDERS which we term "unprofitable" shipments, which means that the shipment would not be profitable to the customer. For example: A party living far distant may order a dollar's worth of heavy goods to go by express. The express charges would equal the cost of the goods. We occasionally get an order for heavy hardware, the order amounting to perhaps less than \$5.00. The goods weigh 100 pounds. We are asked to ship them by express. This is usually an "unprofitable" shipment. An order for a single pair of heavy cheap boots to go a great distance by express, or for very bulky woodenware or heavy and low priced merchandise, such as molasses, nails or cornmeal, might be what we term an "unprofitable" shipment for far distant points.

WE WOULD ADVISE OUR CUSTOMERS to study the freight and express rates, as given on the following pages, for we do not wish you to send us a dollar for anything unless we can save you money on the purchase.

ORDERS THAT WOULD BE UNPROFITABLE to ship by mail or express may be very profitable when sent by freight, but as 100 pounds is usually carried by freight for the same charge as ten pounds, by adding other merchandise to your order, either for yourself or by getting your neighbors to join you in making up a large order, you can make the shipment very profitable. Read paragraph K before making up your order.

Paragraph N.

CLUB ORDERS.

TO EQUALIZE OR REDUCE THE COST OF TRANSPORTATION, we advise the sending of club orders. Anyone can get up a club. Simply have your neighbors or friends send their orders in with yours and advise us to ship all to one person by freight. If each customer writes his order under his own name, it will be a very easy matter for us to keep each one's goods separate, and the freight charges will be next to nothing when shared by several persons.

IF YOU LIVE AT A FAR DISTANT POINT and wish to order some article or articles of merchandise which, together, would weigh about twenty pounds, the value of which may be \$5.00 or less, and you find that the express charges will be from \$1.25 to \$2.75, and there is nothing further in our catalogue that you require at the time, show this catalogue to your friends. Let your friends add twenty, thirty or forty pounds, even fifty or seventy-five pounds of goods, then the goods can go by freight and the one hundred pounds by freight will cost no more than twenty pounds by express.

COMPARED WITH THE VAST VOLUME OF BUSINESS handled by us, the thousands of orders filled daily, we receive surprisingly few complaints, and the complaints we get are, as a rule, of trivial importance in a way, yet measured as we measure them, they are of vast importance. A pair of shoes, a suit of clothes or some other garment may not fit satisfactorily, a customer may have erred in the measurements; perchance something has been broken by the railroad company in transit, which occasionally, but not frequently, happens. You may receive something from us in the way of a machine or other article that you do not fully understand how to operate, and then again, there is that very small percentage of errors that will creep in and which, guard as closely as we will, we cannot altogether overcome. Sometimes there is a delay on the part of one of our factories for a few days in making shipment, sometimes the express company or railroad company will cause a shipment to be delayed, giving rise to inquiry or complaint. Fortunately for us, our customers are very charitably inclined, and when they send goods back for exchange or for any other reason have occasion to point out any shortcomings or any dissatisfaction, their letters, while carrying the words of complaint, also carry with them the manifestation of a spirit of the fullest confidence in our desire to apply the Golden Rule and do by them as we would like to be done by, and which we always try to do.

WE WANT TO SO CONDUCT OUR BUSINESS as to make it impossible for any customer anywhere to have any sort of a transaction with us, and when the transaction is completed, not to be able to find himself better off by reason of having had this transaction. By this we mean, if you have but a dollar in money, and you wish a certain article which we have to sell, and you would prefer to have this article as we have pictured and described it rather than the dollar which you have, then we would like to exchange that article which we have and which you desire for your dollar, provided only that after the trade has been made and we have exchanged the article for the dollar, we may know that you are perfectly satisfied, that you have received from us the exact thing that you wanted, that the article when delivered measures in the fullest measure to our illustration (picture) and description, that it is at least as good as described, if not better, and, compared with similar articles sold by others, it is at least as good if not better in quality and much lower in price, at least enough lower in price to make it a most interesting inducement for you to have sent your order and your money to us.

NOW, IF YOU HAVE THIS TRANSACTION WITH US and it is completed and the exchange is made, and we have the money and you have the goods, and you do not accept our invitation and request that goes with these goods to return them to us at our expense and get your money back if you are not satisfied, and you do not send us any word of criticism or complaint, we have only to assume that you are perfectly satisfied; but if it should so happen (and no doubt occasionally it does) that after the exchange is made you are not altogether satisfied, you may have misunderstood the color, the shape, the style, or there may have been some other reason, big or little, to cause you to feel just a little dissatisfied with this transaction, to feel that finally when the transaction is completed that perhaps you should have bought this article or goods at home or elsewhere rather than to have sent to us; now if there is any such feeling, then we feel it is due us, as it certainly is due you, that you write us and tell us of your dissatisfaction, for a word from you is the only opportunity we have to

show you our great anxiety to satisfy you; besides, as a matter of policy, it is so very expensive to let any transaction be finished except in the most satisfactory way to both parties. It is likely to prevent either one of us from again doing business together, prevent us from making a profit, prevent you from saving money, prevent us both from making money, whereas it's so easy to settle any misunderstanding if you will but give us the chance.

WE HAVE A LARGE BUSINESS, the largest business of the kind in the world. We undoubtedly sell more goods direct to the users (the consumers) than all other mail order houses in the United States combined, more than any other institution in the world. We have sold to nearly one-half of all the families in the United States. We are very well known, and, we are quite sure, very favorably known. We haven't a dissatisfied customer in the world that we know of, for we have always tried to give the people just what we advertised, just what they wanted, and at a much lower price than they could buy elsewhere. Where any complaint or criticism has been sent us we have tried to settle it in the most liberal way. We have tried invariably to apply the Golden Rule, to serve our customers as we would like to be served, and yet we have no doubt, in fact we know, there must be some who have felt there was ground here or there to criticize and yet they have not criticized. These are the ones we most earnestly make our appeal to, for we feel that our business has been a great success only so far as we have been successful in fully satisfying every customer in every transaction, and if there be those and we hope there are very, very few, who feel that they have not been fully satisfied but have not so manifested, and therefore have not given us the opportunity of finally making them satisfied, to this extent our business has not reached the highest point of efficiency and success for which we are so earnestly and diligently striving, and to these, and we hope there are few, we hope in the future, if possible, there may be even less, but from these we earnestly solicit your honest criticism.

BECAUSE OUR BUSINESS IS BIG, we, as individuals, are not big, permit ourselves; we do not permit any of our people to allow themselves to feel above their real position, which is in truth, the servants of our customers. We volunteer and agree to serve you, and we are here for that purpose.

BIG AS OUR BUSINESS IS, great as our volume of sales has grown, States know as well as the writer knows the full measure of advantage, safety, the measure of high quality and low price, the measure of desire and ability to serve you and satisfy you, then every family in the United States would send to us for nearly everything they buy, and our business, now bigger than any other, would soon be many times larger than it now is. You cannot know the advantages we offer without being in and breathing the very atmosphere of privilege that is placed at your disposal. Such selections of merchandise, such offers, such high standard of quality, such incomparably low prices, an organization so able to do and so willing to do, a policy so broad, so liberal, so fair, an underlying guarantee, the foundation of our growth, the guarantee for our future that says, you must be satisfied, you must have everything your own way, you must get what you want, it must at least be as good if not better in quality than you can get from the other dealer, and we must show you a big saving in cost. These are the things that are here. They have cost a world of time, a world of effort, a vast amount of capital and a determination to do and do right and to accomplish.

WHAT IS OUR STANDARD OF QUALITY, HOW WE MEASURE IT AND HOW WE MAKE COMPARISONS

TO AID OUR BUYERS, and to keep them constantly in touch with what is generally being sold by retail dealers throughout the country, we employ and place at the disposal of our various buyers what we term missionary men, the men on the road, traveling all over the United States, visiting retail stores of all kinds, big and small, in large, medium and small cities, in live country towns, large and small, watching their stocks of merchandise, seeing what they sell, how they sell it, and what they charge for it, learning the wants of the people by going to and visiting with the people in all parts of the country. By the people we mean the consuming families. These missionaries, directed by our various buyers, are constantly buying goods of all kinds and descriptions. They send them to us here in Chicago where they are brought together and analyzed, criticized and used for comparison by our various buyers, and these missionaries are especially instructed to look out for new and better things, for improvements, for betterments in styles, qualities, weights, measurements and general satisfaction, and especially are they requested to buy and send these goods to us from all parts of the country, all over the United States, that they may be analyzed, dissected, brought together and used for comparison, and only for the purpose of getting our goods even better than the best. From all the things that are sold by all the dealers that sell from all parts of all the states in the United States, there is all the time a stream of merchandise flowing into our institution, samples which our missionaries have purchased. They tag each article, saying where they bought it, the name of town, the name of the retail dealer, his relative size in the town and all about it, and these various goods coming to us from all quarters, brought to one place, make a great museum, a museum of information, useful to our buyers. For example, if they be stoves, steel ranges, if you please, we may get together the very best from dozens of different localities, ranges made by almost as many different makers as the number of places from whence they come to us, and when they get into our museum they are taken apart and the manager of our Steel Range Department and the various superintendents and managers of the stove foundry at Newark, Ohio, will go over these various ranges to pick

their good and weak points, to see if there is anything new, any betterment, any place where we are lacking. If anyone has produced anything that we can afford to use or, if possible, use and better, and so this work goes constantly on and on and we are ever and all the time in touch with the market conditions from the retailer's point of view, the one who distributes to the users. We keep thoroughly in touch with what the retailer is selling, and in a general way from whom he buys, in a general way what he pays for his goods, and very accurately do we record the price at which he sells these goods, what the consumer pays for them. We keep an accurate gauge at all times as to the prevailing standards of quality, checking them up, that we may do as we must do if we live, see that our goods are always at least as good, never poorer, and wherever possible better than those sold in the country and, of course, invariably offered by us at much lower prices, prices that will mean a big saving to the buyer, our customer.

IN ADDITION TO THE INFORMATION WE GATHER THROUGH OUR VARIOUS MISSIONARIES, our buyers are more or less constantly exhibition, every fair, every center where merchandise is gathered together for the purpose of exhibition and comparison. Our buyers are continually going through the various factories of the country, learning of and studying new methods and improvements, learning wherever a new way, a better quality or lowering of cost has been devised. Our buyers are constantly in touch with the wholesale distributors of the particular merchandise in which they are interested. They are watchful all the time of the selections and methods of discerning buyers in the largest retail department stores in Chicago, New York and other cities; in short, if they buy for us they must keep alive to every condition, from a point of protection, a point of wholesale distribution and, lastly, from the retailer's point of delivery, for they must all the time know, they must get the benefit of every possible improvement, they must know always that their goods are right in quality, as good if not better than any other dealer furnishes and always offered at prices lower than can be had elsewhere.

Here is a corner of the Composing Room in our Printing Building, where we employ more than 100 skilled printers to set the type used in the printing of all our catalogues and all the blank forms and stationery used in our business.

The development of the latest ideas in printing as illustrated in the wonderful typesetting machines here shown. This machine will produce as much type matter in a day as five skilled printers could produce by hand.

A glimpse of the center aisle of the Press Room in our Printing Building, the largest private press room in the world. Each of our twenty-two presses deliver five thousand 32-page sections of our big catalogue every hour.

This Automatic Gathering Machine gathers the different sections into a complete catalogue, all ready for the binding machine, at the rate of two thousand catalogues every hour of the day all the year around.

One of our several Automatic Book Covering Machines, which bind together the various sections of the catalogue, and automatically glue on the covers of 24,000 of our big 1,200-page catalogues every day.

ABOUT OUR RELIABILITY.

YOU ARE PERFECTLY SAFE IN SENDING US YOUR ORDERS AND YOUR MONEY. We are one of the largest commercial institutions in the world, and we occupy by far the largest mercantile plant in the world. We own this entire plant, free of indebtedness of any kind, comprising forty acres of ground, in one of the best districts in Chicago; our ground and buildings alone are valued at more than Six Million Dollars. We have nearly nine thousand employees, and our customers now number nearly five million. If you have any doubt, you are at liberty to refer to any bank, business house or resident of Chicago, and we especially refer to our millions of satisfied customers. Ask your neighbor about **Sears, Roebuck & Co.** We have customers in every neighborhood in the United States, and we gladly refer you to any customer.

BE SURE TO READ THE BANK LETTER OF THE FIRST NATIONAL BANK OF CHICAGO, capital and surplus \$14,000,000.00, signed by its cashier, Charles N. Gillett; also the Corn Exchange National Bank letter, capital and surplus \$6,000,000.00, signed by Frank W. Smith, its cashier; see page 18. Consider our standing everywhere and be convinced it is perfectly safe to send your money to us, we agreeing to return it and pay all transportation charges if the goods do not please you.

HOW WE MAKE EVERY TRANSACTION WITH US STRICTLY CONFIDENTIAL.

Why our name and address do not appear on any box, package, wrapper, tag, envelope or article of merchandise.

As many people, especially merchants, business houses, townspeople and others, do not care to have others know where or from whom they buy their goods, as many people object to having the name of the shipper spread across every box or package, so that when it is unloaded at the station or express office everyone can see what they are getting and where they buy it, to protect all those who care for this protection and make it possible for you to order your goods from us with no fear of anyone learning at the railroad station, express office or elsewhere what you bought or where you bought it, our name and address will not appear on any box, package, tag, envelope or article of merchandise.

For example: If you are a merchant and wish to buy goods to sell again, your customers will be unable to learn from any marks inside or outside where you bought the goods or what you paid for them.

If you are a professional man, or even in the employ of some merchant, who for personal reasons might object to your sending to us for goods, you need have no fear, our name will not appear on any goods or packages you get.

While we would be glad to have our name appear on every article of merchandise and on every box and package, as a valuable means of advertising, we have learned that thousands of our customers need the protection that the omitting of our name affords. This applies especially to townspeople.

NO ORDER WILL BE ACCEPTED FOR LESS THAN 50 CENTS.

PLEASE DO NOT SEND US ANY ORDER AMOUNTING TO LESS THAN 50 CENTS. If you want some article, the price of which is less than 50 cents, please include one or more other needed articles and make your order amount to 50 cents or more.

AS A MATTER OF ECONOMY, BOTH TO OUR CUSTOMERS AND OURSELVES, we do not fill orders for less than 50 cents. The postage or express charges especially make small orders under 50 cents unprofitable to the purchaser, or at least much more expensive than the orders amounting to 50 cents or more.

WE MAKE THIS EXCEPTION: In the case of needed repairs, attachments and supplies, such as needles for our sewing machines, parts of guns, etc., which can be secured only from us, we will fill the order no matter how small it may be.

TO MAKE ORDERING BY MAIL VERY PROFITABLE TO OUR CUSTOMERS we especially urge that you make your order as large as possible. Orders of from \$2.00 to \$5.00 or more are always very much more profitable to the purchaser than smaller orders, for the express or freight charges are in this way very greatly reduced. It always pays, even if you have to get some friend or neighbor to join with you, to make up an order of from \$2.00 to \$5.00 or more, and include enough heavy goods to make a profitable freight shipment of fifty to one hundred pounds. In this way you reduce the transportation charges on each item to next to nothing. You then pay the exact same freight charges that your storekeeper must pay on the goods he sells.

ON THE BASIS OF FAR GREATER VALUE FOR YOUR MONEY THAN YOU CAN POSSIBLY GET ELSEWHERE, lower prices than any other house does or can name, the best possible service, every item ordered guaranteed to reach you in perfect condition and give perfect satisfaction or your money to be immediately refunded to you; on our binding guarantee to please you in every way on every dollar sent us, wholly in your own interest we ask you to kindly conform to these terms.

OUR COMPLIMENTS TO THE RETAIL MERCHANT.

IT IS NOT OUR DESIRE TO ANTAGONIZE THE RETAIL MERCHANT (the storekeeper of the country). This is a big, growing country, and there is ample room for us all. Our prices are alike to all. Whether to the largest or the smallest merchant, farmer, mechanic or laborer, our price is exactly the same. Our goods are for sale at the prices plainly printed in this book, and occupation or position restricts no one from buying goods from us at our printed prices.

However, we number thousands of the best merchants of the United States among our valued customers. The prejudice which for a time existed because we would not sell to the dealer and refuse to sell to his customers, is dying out; for the shrewd, careful buying, up to date merchant of today has broader business views.

DO NOT FAIL TO GIVE SIZE, COLOR, WEIGHT, ETC., IF REQUIRED, WHEN WRITING YOUR ORDER.

He buys his goods where he can get the best value for his money, and on the basis of more value for the money than is furnished by any other house we especially invite all classes of merchants to carefully compare our prices as printed in this book with the prices you have been in the habit of paying.

As explained on this page, we ship all our goods in plain boxes or packages, and our name appears on no package or article of merchandise. You can buy your goods from us at our selling prices, which are much lower than you can buy elsewhere, you can fix your profit to suit yourself and your customers will not know where you bought the goods or what you paid for them.

We want to correct the impression that may be in the minds of some merchants, that we sell exclusively to the consumer, the party who buys the goods to use. If you have this impression we are anxious to correct it. A goodly percentage of the goods we ship in all lines go direct to merchants, business houses who buy to sell again, and in some lines, especially materials and supplies, a large percentage of our goods go to manufacturers, which they use in the manufacture of their wares which in turn they sell to dealers. Among our valued customers are the U. S. Government, state and city institutions, railroads and other large corporations, and also jobbers, brokers, retailers and consumers in all parts of the country.

WE ESPECIALLY SOLICIT THE TRADE OF THE SUCCESSFUL, SHREWD BUYING MERCHANT, who wishes to buy his wares where he can get the highest standard of quality at lower prices than he can get elsewhere.

TO THE SHREWD MERCHANT buying for cash to sell again at a profit, to the one who buys where he can get the most for his money.

TO THE PURCHASING AGENT OF RAILROAD COMPANIES and other large corporations, to contractors and builders and to manufacturers of all classes of goods, to all of these who are now dealing with us, we want to thank you for your liberal patronage in the past and again invite you to a careful comparison of our prices in this, our latest, large merchandise catalogue, with the very lowest prices the same goods can be had elsewhere, and on the basis of quality and price we earnestly solicit your future business.

To all this class who have not as yet dealt with us we earnestly solicit a careful study of our catalogue prices, which will point in many directions to a great saving for you.

TO RAILROAD PURCHASING AGENTS we especially direct attention to our incomparably low prices on safes and stoves for station use, also to furniture, hardware, etc., for other uses. We are doing a large business with a number of the large express and railroad companies; therefore, to the purchasing agents of these corporations especially do we direct your attention to the prices quoted in this catalogue and our ability to save you money on the goods we offer.

TO CONTRACTORS, BUILDERS, MANUFACTURERS, ETC., we can save you money on goods you consume and goods that go into your manufactured wares. If you are a builder we can save you money on a large part of all your building material. If you are a manufacturer using any kind of finished parts of iron, wood, leather or cloth, we can save you money on many items that go into your manufactured articles. If you are a contractor, mill operator or the like, you are consuming machinery, tools and supplies of all kinds, and we can save you money on these and this in competition with any market in the world.

MANY MANUFACTURERS WORKING IN IRON buy all their files, emery wheels and various similar supplies, as well as tools and machinery from us.

MANY MANUFACTURERS WORKING IN WOOD buy their saws and other tools and supplies from us.

MANY MANUFACTURERS WORKING IN LEATHER, such as harness, etc., buy their buckles, trimmings and leather from us.

MANY MANUFACTURERS OF BUGGIES, HARNESS, ETC., buy their wheels, woodwork, leather, cloth, iron, trimmings, etc., from us.

MANY MANUFACTURERS OF FURNITURE buy their hardware, such as locks, hinges, knobs, casters, trimmings, etc., from us.

MANY MANUFACTURERS OF AGRICULTURAL IMPLEMENTS, ETC., buy their paint, various hardware and tools from us.

CONTRACTORS AND BUILDERS OF HOUSES buy their builders' hardware, such as doors, locks, nails, paint, paper, roofing, doors, sash, blinds, millwork, etc., from us.

LUMBERMEN, OPERATORS OF SAW MILLS, LOGGERS, ETC., in all sections of the country, north, south, east and west, buy their general supplies from us, such as saws, files, mechanical tools and supplies, including axes, chains, hooks and all kinds of provisions and supplies.

ALMOST EVERY DEALER IN MERCHANDISE, general store or special store in the United States, sells goods purchased from us, either directly or indirectly, for in the goods you buy from others to sell again, among some of them surely will be found goods that were bought from us, supplies of some kind that entered into the manufacture of the goods you bought. As we are operators, owners or controllers of a great many factories manufacturing finished materials in parts, goods made of iron, wood, leather, cloth, etc., it would be hardly possible for any dealer in hardware, groceries, dry goods, clothing, agricultural implements or other goods to buy the finished goods to sell, from any wholesale dealer anywhere without there would enter into some of the goods which he offers for sale, parts that have come either direct from our store or from one of the many factories in which we are interested.

WE OWN OR CONTROL THE OUTPUT OF FACTORIES MAKING VARIOUS KINDS OF HARDWARE AND HARDWARE SUPPLIES, carriage and wagon material, blacksmiths' materials, materials that enter into clothing, harness, furniture, etc. We also own or control many factories making shoes, stoves, cream separators, organs, musical instruments, plumbing goods of all kinds, paint, wall paper, guns, revolvers, furniture, safes, saws, mechanics' tools, photographic goods, washing machines, household supplies, cameras, clothing, ladies' wearing apparel, electrical goods, tents, canvas goods, gun implements, books, jewelry, stereoscopic goods, hardware, special mill work, radiators, agricultural implements, etc. We are either sole owners or controllers of a vast number of these factories. From some we sell the entire output; others, we allow the factory, under our direction, to sell to either wholesale or retail dealers, usually to wholesale dealers, and the wholesale dealers in turn sell to the retail dealer, and the retail dealer to his local trade. So if you could trace the original source of supply of every article in your store or on your shelves, you could trace a liberal percentage of all the goods you are now selling either directly to our store or indirectly to one of our many factories.

Therefore we urge you, if you are a live, up to date merchant, that you buy from first hands.

FACTORIES IN VARIOUS STATES WHICH WE OWN IN THEIR ENTIRETY, IN PART, OR OF WHICH WE CONTROL THE PRODUCT.

The Safe Plant at Newark, Ohio.

The Great Stove Foundry at Newark, Ohio.

The Plumbing Goods Factory in Wisconsin.

The Modern Wall Paper Mill in Chicago.

The Agricultural Implement Factory in Wisconsin.

The Upholstered Furniture Factory in Chicago.

The Wire Fence Mill at Knightstown, Indiana.

The Big Furniture Factory at Binghamton, New York.

The Great Organ Factory at Louisville, Kentucky.

The Big Paint Factory in Chicago.

The Saw Factory in Michigan.

The Enormous Vehicle Factory at Evansville, Indiana.

The Camera Factory at Rochester, Minnesota.

The Great Gun Factory at Meriden, Connecticut.

The Cream Separator Plant in Iowa.

The Modern Shoe Factory at Littleton, New Hampshire.

THESE very small illustrations will give you but a very faint idea of the combined strength and capital represented in these enormous factories. Among them are factories that cover acres and acres of ground. For example, the stove plant is the largest stove foundry in the world. Many of the other factories are among the largest in the world.

IN addition to these factories we own in their entirety, in a large part, or control the output of many other factories, included in which might be mentioned another cream separator factory in New York, furniture factories, factories for the manufacture of clothing, wearing apparel, millinery, hardware, etc. The factories we illustrate are but a few of the vast number in which we wield a controlling influence.

For example, in the manufacture of wall paper which we make in our own mill, from the raw paper stock to the finished wall paper in all shades, grades and colorings, in order to make absolutely certain that we own our wall paper at the lowest possible cost, go to the very bottom of the source of supply. We contract with the manufacturer of changing paper stock, who owns thousands of acres of standing timber, who can make our paper stock with the smallest loss of time or expense, who can deliver this raw wall paper stock to our mill under positively ideal conditions, thus forming the last link in the chain of conditions necessary to produce high grade wall paper at our marvelously low prices, all of which is plainly shown in our free Wall Paper Sample Book illustrated on another page of this catalogue. In addition to the factory connections which we have mentioned, and illustrated, we might go on and tell you of many other connections, arrangements and advantages by means of which we have effected wonderful economy for our customers on such items as Sewing

Machines, Harness, Saddles, Horse Clippers, Sheep Shearing Machines, Watches, Jewelry, Silverware, Clocks, Musical Instruments, Hardware, Washing Machines, Cement Block Machines, Doors, Sash, Blinds, Mill Work, Bicycles, Electrical Goods, Photographic Goods, Cutlery, Sporting Goods, Graphophones, Crockery, Carpets, Rugs, Curtains, Blankets, Furnishing Goods, Notions and thousands of other items mentioned in this Big Catalogue. To get the right quality and the right cost on these thousands of items, we have gone to the very bottom of the sources of supply, of manufacture of raw materials; we have investigated every point in connection with the manufacture and marketing of merchandise that possibly could be of benefit to our customers; and every advantage that could be gained by the investment of capital or the employment of experts has been secured for only one purpose, for only one reason—to give you a better quality in any given article than you could get elsewhere, to give you a much lower price than you could secure from any other dealer.

ANY ONE OF THESE ARTICLES

FREE \$25 IN PROFIT

FOR ONLY \$25 SHARING

CERTIFICATES

OUR REVISED, MORE LIBERAL THAN EVER, \$25.00 PROFIT SHARING PLAN.

EVERY TIME YOU SEND US AN ORDER OF \$1.00 OR MORE

we will send you a Customers' Profit Sharing Certificate for the full amount of money you send us. Keep these Profit Sharing Certificates you get from us until they amount to \$25.00 or more and then write for our big free Profit Sharing Book, showing the hundreds of valuable, useful and handsome articles we give to every customer free in exchange for \$25.00 or more in Profit Sharing Certificates. Many articles that formerly were given for \$100.00 in certificates are now given for only \$25.00. Many that more recently were given for from \$50.00 to \$100.00 in certificates are now given for only \$25.00 in certificates.

ALL OUTSTANDING PROFIT SHARING CERTIFICATES ARE GOOD.

If you already hold Profit Sharing Certificates from us, they are good to apply on any article shown in our new free Profit Sharing Book in accordance with our latest plan. Every customer holding certificates is entitled to exchange them according to the latest, best and most liberal terms we have ever made, on our new \$25.00 basis, as explained throughout this catalogue, and more fully explained in our new, big, FREE Profit Sharing Book. YOU GET BACK a large part of all the money you send us for goods. A big share of our profit on every purchase you make goes back to you in the shape of valuable articles of merchandise which we give free for your Profit Sharing Certificates amounting to \$25.00 and upwards.

THIS HANDSOME VIOLIN OUTFIT IS GIVEN FREE FOR \$25 IN PROFIT SHARING CERTIFICATES

WATCH, DIAMOND AND JEWELRY DEPARTMENTS

WHEN YOU BUY A GOLD FILLED CASE by all means we would advise you to select our new Plymouth gold filled case. This case is recommended above all other makes, being made of extra plates of solid gold over an inner composition metal and will wear longer than any other gold filled case made and is the handsomest and best fitting of any. We have discontinued the sale of the Sears gold filled case and the Sears, Roebuck & Co. brand of special cases. The Plymouth case is manufactured by the same company especially for us for the benefit of our customers who sometimes prefer a differently named case so that they in turn can sell it or trade it to better advantage. With every Plymouth gold filled case we issue our unqualified written binding guarantee. You are protected in the purchase of this case to the very letter. Unlike any other guarantee written or sent with any gold filled case, our guarantee unqualifiedly guarantees our gold filled cases to be as represented. Sears, Roebuck & Co. as an institution stands behind every Plymouth filled case.

IN SELECTING A MOVEMENT we would advise by all means that you pick out as the best possible value one of the Edgemere or one of the Plymouth Watch Co. movements, illustrated on pages 259 and 260, and quoted throughout the following pages in the various sizes and grades. For a gentleman's watch, the 21 Jeweled Prince of Wales, in 16-size, both open face and hunting, and the 21 Jeweled King Edward, in 18-size, open face or hunting, both movements manufactured by the Plymouth Watch Co., stand out pre-eminently the best values and the most accurate timekeepers in this entire department. No pains or expense were considered in their making. In everything that constitutes a fine watch, timekeeping, finish and size, these movements are undoubtedly the finest in the American market.

MAIL AND EXPRESS SHIPMENTS. We recommend sending watches by express, as they do not receive the hard usage as when sent by mail. Our statistics show that 90 per cent of breakages in watches happens while in transit through the mails; therefore, we again advise you to have watches shipped by express, and all other small jewelry by mail, as it is perfectly safe and far the cheapest. Postage is 1 cent per ounce. A watch packed for shipment weighs from 6 to 8 ounces; chains, rings and other small articles of jewelry, about 2 ounces. Packages amounting to \$1.00 or over should be registered, which costs 8 cents extra, as this is the safest method. 26 cents will carry any watch to any part of the United States by express.

ENGRAVING. Cash in full must accompany all orders when goods are marked with engraving. We charge for engraving in script on jewelry, watches, etc., 2½ cents per letter; in Old English, small, 5 cents per letter. Monograms on silverware and jewelry are all the rage. Prices for two or three-letter combinations, script or ribbon style, as follows:

	Script	Ribbon
¼-inch size	20c	\$0.25
½-inch size	30c	.35
¾-inch size	50c	.75
1-inch size	60c	1.35

In writing orders when goods are to be engraved, write or draw plain letters, so as to avoid mistakes. We cannot exchange goods after they have been engraved.

MERCHANDISE ENGRAVED ACCORDING TO INSTRUCTIONS. We must caution you that under no circumstances will we exchange or refund money on any merchandise that has been engraved according to instructions with letters, dates or monograms. The merchandise is of no value to us after it has been so marked. Our goods are as shown and we have described them as carefully and as accurately as we could. Therefore, should you desire any article engraved you must do so on your own risk. But remember, we guarantee the quality of every article in our catalogue to be exactly as described and we are willing at any time to refund your money, together with transportation charges both ways, whether the goods are marked or not, when the quality proves different than is claimed.

REGARDING ENGRAVINGS ON WATCH CASES. It sometimes happens that we are out of the exact engraving on watch case ordered, but we aim to carry exact designs. When the exact engraving cannot be had, we always have a very similar one, which we will take the liberty of sending, rather than delay your order, it being understood you can return same if not perfectly satisfactory.

WATCH REPAIRING. We have a thoroughly equipped mechanical department, which is fitted with all the latest tools and appliances for the repairing of all kinds of watches. Our charges are about one-half what is usually charged by the retail dealers, and the work will be done in a very superior manner. We cannot give an accurate estimate of the cost of repairs without a thorough examination of the work. Our charges are merely enough to cover cost of material and labor. In sending a watch for repairing, be sure to send it by registered mail; mark on the outside of the package your name and address, and write us at the same time that you have done so, giving full explanation regarding trouble with watch. **DO NOT FAIL when sending anything to us for repairs to PLAINLY WRITE YOUR NAME AND ADDRESS ON PACKAGE.**

OUR BINDING GUARANTEES.

WATCH CASE GUARANTEE. Where a watch case in this catalogue is described as guaranteed for life, 25, 20, 10 or 5 years, it applies to gold filled watch cases, and means that the case is covered by plates of solid gold over an inner plate of hard composition metal, and the gold is guaranteed to wear and retain its perfect color for the time stated, and if the gold in any piece or part of the case wears through within the stipulated time mentioned in the description and in the guarantee, the case will be replaced with a new case free of cost to you.

OUR PLYMOUTH LIFE GUARANTEE.

Where we describe any gold filled case or article of jewelry or silverware as carrying our **PLYMOUTH LIFE GUARANTEE**, we mean that should any of these articles fall in any part to be exactly as warranted, we will exchange same at any time within your natural life, whether you have owned the article five years, twenty years or fifty years. Return it to us, and we will upon receipt of it send another one of the same quality **FREE OF CHARGE.**

MOVEMENT GUARANTEE. Where we guarantee a watch movement for five years, the guarantee is absolute and binding upon us to replace or repair, free of cost to you, any piece or part of the watch movement that may become defective by reason of imperfect material or workmanship at any time within five years; and while this guarantee does not include removing dirt, cleaning of movement or repairing, free of cost, any piece or part that may be broken or damaged through careless or improper handling, it is the widest, longest and strongest watch movement guarantee ever issued, and if you buy any movement from us and on the last day of the fifth year the watch stops or fails to keep accurate time, and this failure is in any way due to imperfect material or workmanship, it will be repaired by us or replaced with a new movement free of any cost to you. Our written guarantees which accompany every watch and movement are so written over our own signature that there can be no question of your absolute security in the purchase of any watch case, watch movement or complete watch from us.

DIAMOND GUARANTEE. Our Refund, Exchange and Guarantee Certificate. With every diamond we issue a written, binding guarantee with a further agreement that you can at any time return any diamond you may select, where weight and quality are quoted, and exchange it for any other diamond or other article of jewelry at the same or higher price.

We further agree on the return of any diamond purchased from us within sixty days of purchase, when so requested, to refund in cash your full purchase price, and we further agree at any time after sixty days, on return of any diamond to us, when requested to do so, to refund your full purchase price less 10 per cent.

JEWELRY GUARANTEE. Where we describe any article of jewelry as solid gold, gold filled or gold plated, where we describe it as 18, 14 or 10-karat or solid silver or silver plated, the article of jewelry is covered by our binding guarantee, guaranteeing it to be in every way exactly as represented by us, and if after received, and examined and put to any kind of test, acid or otherwise, it should prove any different, should fall short in the slightest degree of the representation made in this catalogue, we will replace the article purchased with a new article or refund your money, as you may direct.

TECHNICAL TERMS USED IN DESCRIBING JEWELRY AND SILVERWARE.

BRIGHT POLISH is a finish on silver and gold showing the bright polished surface of the metal itself without coloring, and always has a bright and shining surface.

SATIN FINISH. The finishing of jewelry and silverware by sand blasting or a scratch brush, which dulls the surface and gives it a peculiar satiny effect and shows the dull color of the metal without any other coloring.

ROMAN COLOR is the absolutely pure color of virgin gold. It is pure gold plated upon a lower karat of gold and is of a rich, bright yellow or canary color, the same color as nuggets of pure 24-karat gold. Two methods are used in putting this color on, the electro plating process and the acid process. The acid process is used only on 14 and 18-karat jewelry. When Roman color is used the article is generally satin finished after.

HAND ENGRAVING. When stated that the article is hand engraved, we mean that the article is beautified, as the illustration of the article shows, by bright cutting done by hand with an engraving tool.

GOLD FILLED STOCK. Gold filled stock is made of stock that is gold filled, the outside or visible surface being a sheet of solid gold of substantial thickness, hard soldered on a plate of base metal.

ROLLED GOLD PLATE. Rolled gold plate is made very similarly to gold filled stock, with the exception that the plate is rolled to a thinner degree and has not the wearing ability of gold filled stock.

ELECTRO PLATE. Electro plate is a process of gold plating by electricity. This is the cheapest and quickest method of gold plating. Electro plated jewelry cannot be guaranteed, and will wear but a short time. It is very difficult to recognize electro plated jewelry from rolled plate or gold filled. Only one well versed and educated in the jewelry business can recognize the difference.

TECHNICAL TERMS USED IN DESCRIBING WATCHES.

FULL ADJUSTMENT. A high grade watch is fully adjusted when it is adjusted to heat, cold, isochronism and to six positions.

ADJUSTED TO TEMPERATURE. As a watch is only as perfect as the balance wheel and hairspring is perfect, and as these parts are made of metal, and the metal contracts and expands with the variations in temperature, a watch to be adjusted to temperature must have the balance wheel so constructed as to allow for extreme cold or extreme heat. In other words, the balance wheel must be so constructed that one metal will expand to such an amount as can be taken up by the other metal used in its makeup. When the balance wheel is so constructed that this variation does not affect it, it is known then to be adjusted to temperature.

ADJUSTED TO ISOCHRONISM is an adjustment of the hairspring by which it vibrates with the balance wheel in perfect uniformity; that is, when the long and short arcs of a balance wheel are caused to perform in the same time by means of the hairspring. This assures accuracy in timekeeping.

ADJUSTED TO POSITION. This adjustment can only be brought about by having the balance wheel in perfect poise and absolutely trued. The watch is run and timed in six different positions and corrections are made from time to time until the watch runs in each position without any variation in time.

BREGUET HAIRSPRINGS. This hairspring differs from the old style flat hairspring in having the outer coil adjusted above the other coil and tempered in this position. This arrangement insures a condition for perfect adjustment of the hairspring in all positions, thus obviating all chances of its becoming misplaced and entangled, as has always been the case with flat hairsprings.

PATENT REGULATOR is a device for controlling the vibrations of the hairspring, and by its use a watch can be regulated to the smallest fraction of time.

STEM WIND AND STEM SET. All watches that are set by turning the winding crown, whether they are set by pulling out a setting lever or by pressing in a push pin, are known as stem set and stem wind watches.

PENDANT SET. All watches that are set without setting lever or push pin are known as pendant set watches, being set by pulling out the winding crown, which is located at top of pendant or neck, as it is sometimes called; the hands may be set by simply turning the crown, which is pushed back into place when the hands are in desired position.

TIMING SCREWS. With the use of these screws a watch can be brought down to accurate time without in any way changing the position of the hairspring. Only a watchmaker can manipulate these screws. Care must be taken in the use of them in timing a watch, together with great skill, as a well poised balance wheel is very delicate and easily put out of true and is often spoiled by incompetent workmen.

CUT BALANCE. The cut or expansion balance is the most reliable for accurate time. They are so constructed that there can be only a minimum amount of variation by any climatic change, whereas the solid balance wheel, by contraction or expansion, will vary when used where variations of temperature are met with.

RUBY JEWELS are used in the high priced, fine finished watches. By ruby jewels we mean the jewels are of genuine ruby. Garnet jewels are mostly used in the average middle priced watches, and are made of garnet, and cheap imported watches are sometimes fitted with glass jewels.

DOUBLE SUNK DIALS are made of three pieces: The outer part on which the numerals are placed, the center or plain field, and the small circular disc for registering the seconds. This construction is a great advantage over the plain dial as a preventive of the hands catching, thereby causing the watch to stop.

SAFETY PINION is a patent device on the center wheel arbor of a watch, the purpose of which is to protect the train wheels and mainspring barrel from damage in cases where the mainspring breaks.

WATCHMAKERS', WIRE WORKERS' AND JEWELERS' TOOLS AND MATERIALS

ONLY \$1.18 FOR THIS WIRE WORKERS' OUTFIT.

No. 4K2 Wire Artists' or Wire Workers' Tool Set for \$1.18.

SEND US \$1.18 and we will ship you by express our entire Wire Workers' Outfit, exactly as illustrated, and if after you have carefully examined it you do not find it equal or better than sets offered for \$1.95 and \$2.25, return it and we will refund your money, together with the express charges. This outfit consists of the following items:

1 pair snipe nose pliers, 1 pair round nose pliers, 1 pair side cutting pliers, 1 file with handle, 1 ounce gold plated wire (1/2-ounce round and 1/4-ounce square), 1/2-gross plated washers, assorted, 1 lot assorted shells, 1 drill, 2 sample names. Follow the principle used in making these names and you will know the entire art. Shipping weight, about 1 1/4 pounds. Order by number.

No. 4K2 Price, \$1.18. If by mail, postage extra, 18c.

No. 4K32 Gold Filled Bar, gent's size. Price, 16c.

No. 4K33 Gold Filled Bar, ladies' size. Price, 15c.

No. 4K39 Gold Filled Swivel, gent's size. Price, 22c.

No. 4K39 Gold Filled Swivel, ladies' size. Price, 22c.

WE DO NOT carry any other watch and clock material for sale except that quoted and illustrated on this page. Should you desire balance staffs, hole jewels, mainsprings, etc., and you are not positive of the exact size of watch that you want it for, send a sample to us and state the make of the watch and the movement number and the size in inches and fractions of an inch, write us that you have sent the sample and enclose in the package your name and address so as to prevent possible loss and confusion. REGARDING WATCH CRYSTALS. We carry two kinds, the Geneva crystal used in hunting style cases and the mi-concave crystal or the thick beveled edge style for open face watches. These crystals vary in sizes and heights. The sizes vary 1-1/6 of a millimeter in diameter and the heights range from 4 to 8 millimeters. Therefore, it will be absolutely necessary, and we will undertake to fill no orders unless the exact sizes and heights are given. If you do not know these send us the bezel of the watch to be fitted with a crystal.

No. 4K570 Watch Glasses, hunting style. Price, per gross, \$4.00.

DESCRIPTION OF OUR OWN WATCH MOVEMENTS.

OUR OWN MOVEMENTS as listed through our Watch Department, complete with the various cases, movements, that are made especially for us under contract and as illustrated and described on this and following pages, are recommended by us in preference to any other movement you can buy, for in these movements we can give you far greater value for your money than is possible for us or any other house to give you in any other watch movement made. Why you get almost double the watch movement value when you select one of our movements, illustrated and described on this page, as compared with any other movement made.

ALL WATCH MOVEMENTS bearing the manufacturer's name are sold at a fixed list price, subject to certain fixed discounts, and for these movements, no matter whether the wholesaler buys a dozen or a thousand at a time, the fixed list price and the fixed list discount is exactly the same, and as a result the very largest buyer pays the exact same price for an Elgin, Waltham, Hampden, Illinois, Hamilton or other factory made movement that the very smallest wholesaler buyer pays. Everyone pays a price that means for the manufacturer a very handsome profit.

DETERMINED that we should give our customers far greater watch value for their money than any other house does or can give, that we should sell direct to our customer one movement, quality considered, at a much lower price than the largest wholesaler can buy from the regular manufacturer even in thousand lots, we took the matter up with one of the largest manufacturers of strictly high grade movements in America, with the idea of making a contract for so large a number of movements, for so large a part of the entire capacity of his factory as would induce this manufacturer to depart from the long established custom of one list price and one discount, and we succeeded to this extent:

THIS MANUFACTURER agreed that on condition that we would take one-half of all the movements they would produce in their factory they would agree with us on a plan by which we could own the movements at a cost to us approximately the very same as if we owned the factory ourselves, but as this meant that we could produce and offer for sale their movements at about one-half the price which they were getting from the largest wholesalers, the agreement made restricted us from using the manufacturer's name. For example, take the gents' 18-size, 17-jeweled, patent regulator Edgemere movement which the manufacturer sells to the largest wholesale dealers at \$14.00, less 50 per cent (or \$7.00), under his name. We sell the exact same movement, piece for piece and part for part, made in the same factory under our name, the Edgemere, complete with a 3-ounce silver case for \$4.90; in other words, we sell this movement complete with case and all, selling one single watch to any customer for \$1.20 less than the manufacturer sells the identical same movement alone without the case, under his own name, to the largest wholesale watch dealers.

THE MANUFACTURER OF OUR MOVEMENTS is quite correct: if we were permitted to put these movements out under his name, mentioning his (the manufacturer's) grade, and sell them, including cases, at the price we do, it would ruin his business with every wholesale and retail watch dealer in America, since we sell the complete watch, movement, case and all, for less than the wholesale dealers buy the movement alone from the manufacturer, or the complete watch for about one-half the price the little retail dealer must pay the wholesale dealer for the movement alone.

THESE, OUR SPECIAL EDMERE AND PLYMOUTH WATCH CO.'S MOVEMENTS as illustrated and described on this and following pages, and as priced complete with the different cases on the following pages, are made by one of the largest, most reliable and best known watch movement manufacturers in America, a watch company whose name is almost a household word, a movement maker whose name appears on the dial and plate of hundreds of thousands of watches that are now in the pockets of users all over the world, and our contracts permit us to sell you the identical same movement, the same high grade work, everything exactly alike, piece for piece and part for part, under our own name, at about one-half the lowest price at which you can buy the identical same movement from almost any retail jeweler in the country; for this company's movements will be found in almost every jewelry store in the land.

Gents' 18-Size, Open Face or Hunting Case, 7-Jeweled Edgemere Movement.

Gents' 18-size Edgemere, open face or hunting case, full nickel, 7-jeweled, neatly damasked and expansion balance, hairspring hardened and tempered, highly finished, regulator, patent pinion, polished screws, marginal figures on dial, true timing screws, quick train, worth double any of the cheap 7-jeweled movements and guaranteed the equal of any 7-jeweled movement made.

NOTE—We sell the high grade 7-jeweled movement complete in any case for less than others sell the cheap grades of 7-jeweled movements.

Gents' 18-Size, Stem Wind, Open Face or Hunting Case, 12-Jeweled Edgemere Movement.

This movement is solid nickel, fancy gold damasked and ornamented, patent regulator, upper plate full jeweled, all jewels are set in screw settings, cut expansion balance, true timing screws, Breguet hairspring. You will note from the prices as shown on the following pages that we can furnish you a case fitted with this 12-jeweled patent regulator Edgemere movement complete for less than we can furnish the same case with a 7-jeweled movement bearing the manufacturer's name. If you order a watch with this 12-jeweled patent regulator Edgemere movement and do not consider the movement double the value of any 7-jeweled movement made, you can return it to us at any time and we will immediately refund your money.

Gents' 18-Size, Open Face or Hunting Case, 17-Jeweled Edgemere Movement.

This movement is regular 18-size, it is solid nickel, beautifully gold and nickel damasked and finished; it has 17 jewels, all set in screw settings, patent regulator, Breguet hairspring, cut expansion balance, true timing screws, a quick train, safety pinion, compensating balance, exposed winding wheel, fine sun enamel dial.

You will note from the prices on the following pages that we furnish this 17-jeweled patent regulator movement at a few cents less than the plain 15-jeweled movement without patent regulator furnished under manufacturers' names, and at from \$3.00 to \$5.00 less than the identical same grade 17-jeweled patent regulator movement furnished under the manufacturer's name. Therefore, to get double the value for your money in a gents' 18-size watch, we especially recommend, in preference to all other movements, that you select a case and order us to fit in the case one of these 17-jeweled patent regulator movements.

TRAINMEN'S SPECIAL.

This is a Cheap Traveling Watch, Made to Look Like the Most Expensive 23-Jeweled Adjusted Railway Watch Made.

While it is in interior construction a plain 7-jeweled movement, to give to it all the appearance of the highest priced railway movement made, it is made of nickel, the upper plate is very showily gilt damasked, imitation of rich ruby jewels in imitation of solid gold screw settings have been set with the screws over the pinion places of the entire top of the plate, including the pinion, center, first, second and third wheels and balance; has a patent regulator; it is stamped "23-Jewels, adjusted"; it is also stamped with a locomotive on the plate and on the front or dial and is named "Trainmen's Special." It is essentially a trading watch. We have sold thousands of these movements to such as houses for premiums, etc., for while we sell it for just what it is, in interior construction a plain 7-jeweled American movement, it has all the appearance of a movement that you would pay \$25.00 or more for. It is especially popular in our No. 4114 Alaska silver stem wind case, and all for \$3.00, making an ideal trading watch or watch that really has the appearance of a \$25.00 gold filled, 23-jeweled, adjusted watch, but you buy the complete watch for \$3.00. Many of our customers among the traveling men carry them as a side line and sell them at from \$5.00 to \$20.00, adding from \$5.00 to \$25.00 a week to their net income. If you want a very showy watch for trading purposes there is nothing that will match this watch.

Gents' 18-Size Open Face or Hunting Case 15-Jeweled Plymouth Movement.

Th

hun
15-Je
men
na
mo
Co.
out
ma
with a view of making it in every way a higher grade 15-jeweled movement than is made by any other manufacturer, an improvement over any other 15-jeweled movement on the market; full plate, solid nickel, richly damasked, full 15-jewels have

screw settings, micrometer patent regulator, cut expansion balance, overstrung Breguet hairspring, patent pinion and escapement. In quality of material and fine mechanical lines, in workmanship, finish, in lasting qualities, in accurate time keeping, nothing is spared to make this positively the highest grade 15-jeweled movement on the market, and while, as shown in the following pages, we furnish it for less than we sell 15-jeweled movements bearing the manufacturer's name, if you buy this movement and after giving it a reasonable test as to time, if you do not consider it better than any other 15-jeweled movement on the market, you can return it to us at our expense and we will immediately refund your money. NOTE, that different from any of the 15-jeweled movements of other makes, this, our 15-jeweled movement, is accurately adjusted to all positions, and you get in this the only accurately adjusted 15-jeweled movement made.

OUR 7-JEWELLED EDMERE.

NOTE THE ILLUSTRATION AND DESCRIPTION OF our gents' 18-size 7-jeweled Edgemere movement as shown on this page, and note, especially, the very low prices at which we furnish this movement complete, with the various cases, as shown on the following pages. Remember, in spite of the low price, we guarantee this 7-jeweled Edgemere movement the equal of any 7-jeweled movement made, regardless of name, make or price.

DON'T COMPARE THIS, our 7-jeweled Edgemere movement, with any of the cheap 7-jeweled movements on the market. We have discontinued the sale of the Trenton, Standard and Century 7-jeweled movements, since our contract enables us to offer you one of the highest grade 7-jeweled movements made at a lower price than other houses can sell even the cheap grade of 7-jeweled movements. Our 7-jeweled Edgemere is put out under our binding five years' guarantee as the equal of any 7-jeweled movement made in America, and in running and lasting qualities worth more than double any of the cheap 7-jeweled movements, and if you order one and do not find it so, you may return it to us at our expense and we will immediately refund your money. Therefore, if you want a 7-jeweled movement you will get double the value in our Edgemere that you will get in any one of the cheap 7-jeweled movements, and we guarantee you will get all and more value than you will get in any of the 7-jeweled movements you can buy of any make at any price.

OUR 12-JEWELLED, GENTS' 18-SIZE, PATENT REGULATOR EDMERE MOVEMENT.

WHILE OUR CONTRACTS FOR MOVEMENTS permit of our furnishing this high grade, full 12-jeweled, fancy nickel damasked, patent regulator, cut balance, Breguet hairspring movement for less money than we could sell you under the manufacturer's name, even 7-jeweled Elgin, Waltham, Hampden, Hamilton or Illinois movement, if you order a watch with one of our 12-jeweled Edgemere movements, and if after receiving it you are not satisfied that the movement intrinsically is worth double that of any 7-jeweled movement made, you can return the watch to us at our expense, we to refund your money.

OUR 17-JEWELLED, PATENT REGULATOR, GENTS' 18-SIZE EDMERE MOVEMENT.

WHILE THIS MOVEMENT HAS FULL 17 JEWELS, fancy nickel, fancy gold damasked, patent regulator, Breguet hairspring, cut balance, patent pendant, all jewels in screw settings, everything the highest grade, yet under our contract we own this movement at a price, and we can furnish you even this, our 17-jeweled Edgemere movement, fitted complete in any case shown on the following pages at from \$3.00 to \$5.00 less money than it would be possible to furnish you the exact same movement under the manufacturer's name, or any other movement of equal grade; in short, we can furnish you this movement for less than it is possible to furnish it so, the plain 15-jeweled non patent regulator Elgin, Waltham, Hampden or Illinois movement; in short, for a strictly high grade watch, by selecting this, our 17-jeweled patent regulator Edgemere movement, we can almost double the value we can give you in any watch with a movement bearing the manufacturer's name and therefore also bearing the manufacturer's long profit.

OUR OTHER SPECIAL MOVEMENTS.

THE OTHER SPECIAL MOVEMENTS we furnish in the different sizes and grades illustrated and described on this page, all movements that we own on the basis of the actual cost of material and labor, to which we add but our one small percentage of profit, and can therefore furnish you almost double the watch movement value in any one of these movements that we can possibly furnish you in any movement bearing the name of the manufacturer.

OUR FIVE YEARS' GUARANTEE.

EVERY ONE OF THESE MOVEMENTS is covered by our binding five years' guarantee, covering every piece and part that enters into the movement, and if any part should fail to perform its duty within five years through defective material or workmanship, it will be replaced or repaired by us free of any charge.

WE WOULD ESPECIALLY RECOMMEND in selecting a watch from the following pages, to get the greatest possible value for your money, to avoid paying unnecessary profit to any manufacturer for name only that you select one of our special movements fitted in any case you may choose. Remember, the movement goes to you under our binding five years' guarantee and with the understanding and agreement that if you don't perfectly satisfy you, if you are not convinced you have made a big saving by buying one of our special movements rather than buying an Elgin, Waltham, Hampden or any other make of movement, you can return the watch to us at our expense and we will immediately refund your money.

Gents' 18-Size, Open Face or Hunting Case, Stem Wind, 17-Jeweled, Adjusted Plymouth Watch Co. Movement.

This movement is made under our new contract, and is highly finished and an accurate timekeeper. It has full nickel plates, jewels in screw settings, high polished exposed winding apparatus, cut expansion balance, with Breguet hairspring, fine polished patent regulator, the equal of any 15-jeweled movement manufactured bearing the makers' name. By reason of our new contract, we are able to quote it in this catalogue on the various pages at less than we ask for 7-jeweled movements bearing the makers' name. If you want a good and accurate timekeeper, we would advise you to select this watch above all other 18-size movements with 7 jewels, stamped with the makers' name.

lines on any watch made; quick train, hand finished escape wheel, compensating balance, Breguet overstrung tempered hairspring, new improved patent micrometer regulator barrel arbor pivots, double sunk glass enamel dial with marginal figures. This 17-jeweled, full adjusted, full plate movement is gotten out for us with a view to furnishing a higher grade adjusted movement than is made and sold by any watch company in America. While we furnish it at a much lower price than you can buy a 17-jeweled adjusted movement bearing the manufacturer's name, if you order this movement and do not find, after giving it a thorough trial, that it gives better satisfaction than any other 17-jeweled movement made, you can return it to us at our expense and we will immediately refund your money.

Note the difference between this 17-jeweled Plymouth Watch Co. and our 17-jeweled Edgemere. It is the very fine adjustment of this movement, the adjustment to all positions temperature and isochronism, which accounts for the difference in cost to manufacture.

Gentlemen's 18-Size, Stem Wind, Lever Set, Open Face or Hunting Style, 21-Jeweled King Edward Movement, Manufactured by the Plymouth Watch Co.

This movement procured by us under a new deal and in an immense quantity, represents the

best in the line of fine watches in the world. It is a new safety pinion, patent regulator, adjusted to temperature and the positions, the most accurate and most modern watch on the market to day quoted throughout our catalogue, at less cost than the 17-jeweled adjusted movements bearing the makers' name. This watch we can recommend as being perfection in the watchmaking art, and is made with the idea not to equal any 21-jeweled watch on the market but to have something better than has been heretofore manufactured. By all means, if you want the best watch manufactured, we would advise either the Prince of Wales in the 18-size or the King Edward in the 18-size.

Gentlemen's 16-Size, Open Face or Hunting Style, 7-Jeweled Nickel Edgemere Movement.

plates, richly damaskeened, exposed high polished winding wheels, non-magnetic balance and hairspring, full polished pinions, handsome double pressed dial with red marginal figures, is stem wind and pendant set and positively gives the best satisfaction of any 7-jeweled cheap watch on the market. Its equal cannot be procured for twice what we ask for it.

Gentlemen's 16-Size, Open Face or Hunting Style, 15-Jeweled Patent Regulator Edgemere Movement.

This movement is made under our new arrangement, is highly finished and an accurate timekeeper. It has full nickel plates, jewels in screw settings, high polished exposed winding apparatus, cut expansion balance, with Breguet hairspring, fine polished patent regulator, the equal of any 15-jeweled movement manufactured bearing the makers' name. By reason of our new contract, we are able to quote it in this catalogue on the various pages at less than we ask for 7-jeweled movements bearing the makers' name. If you want a good and accurate timekeeper, we would advise you to select this watch above all other 16-size movements with 7 jewels, stamped with the makers' name.

Gents' 16-Size, Open Face or Hunting Case, Stem Wind Plymouth Watch Co. Movement.

This is positively the highest grade 15-jeweled 16-size movement made, each movement stamped "Plymouth Watch Co." It is full 15-jeweled, all jewels in screw settings and it is accurately adjusted to positions; has cut expansion balance, overstrung Breguet hairspring, gotten out with a view of giving our customers in every respect a better 15-jeweled 16-size movement than is made or sold by any watch company in the country. This movement has the latest exposed winding wheel, solid nickel plates, every up to date feature found in any 16-size movement, and still we furnish it for a little less than any other named 16-size movement.

Gents' 16-Size, Open Face or Hunting Case, 17-Jeweled Adjusted Plymouth Watch Co. Movement.

This is our gents' 17-jeweled adjusted 16-size movement, each movement stamped "Plymouth Watch Co." It is 17-jeweled, all jewels in screw settings, accurately adjusted to heat, cold, position and isochronism; has the latest patent micrometer regulator, patent pinion and escapement, exposed winding wheel, has every new and up to date improvement, combines all the best in all the highest grade 17-jeweled 16-size movements made, and yet we offer it at a lower price than we can offer any other 17-jeweled movement.

Gentlemen's 16-Size, Open Face or Hunting, 21-Jeweled, Nickel, Patent Regulator Prince of Wales Movement, Manufactured by the Plymouth Watch Company.

This movement is a new addition to our exceptional value page and represents positively the highest grade watch in 21-jeweled manufactured. A new deal with a new company for an immense quantity enables us to sell this watch to you at less money than 17-jeweled named watches manufactured by others. This watch has full nickel plates, jewels all in settings, cut expansion balance, double sunk dial, patent regulator, in fact, all modern improvements, adjusted to temperature and positions, in fact, a watch such as cannot be compared with any other watch quoted or illustrated in our catalogue. If you purchase this watch you are making a saving of no less than \$12.00 to \$15.00 and are getting the best production of modern watch making.

Gents' 12-Size, Open Face or Hunting Case, Solid Nickel, 10-Jeweled, Stem Wind and Stem Set Movement.

These movements are stamped "Edgemere." They are 10-jeweled, exposed winding wheels, cut expansion balance, Breguet hairspring, true timing screws. This is a movement made especially for us. It is extra high grade, and under our contract we can furnish it for less money than we can furnish 7-jeweled 12-size movements of other makes, and in buying a 12-size gents' watch, we especially recommend that you select this movement.

Gents' 12-Size, 15-Jeweled, Open Face or Hunting Style, Stem Wind and Stem Set, Plymouth Watch Co. Movement.

These movements are stamped "Plymouth Watch Co." They have fifteen fine ruby jewels, patent regulator, exposed polished winding wheels, Breguet hairspring, accurately trued and timed and positively the finest 15-jeweled 12-size movement manufactured. We control the prices on account of an immense contract and while this watch is positively the finest 15-jeweled 12-size movement on the market, still we are able to offer it at less money than any of the 12-size stamped movements offered by such factories as the Elgin, Waltham, Hampden and other makers. If you want the latest extra thin model 12-size watch in 15-jeweled grade, we recommend, above any other, this movement fitted in any of the cases illustrated and described in our catalogue.

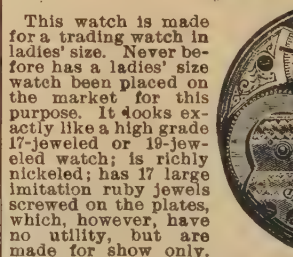

Gentlemen's 12-Size, 17-Jeweled, Open Face or Hunting Style, Stem Wind and Pendant Set, Plymouth Watch Co. Movement.

As positively the case of production in 17-jeweled 12-size movements, we offer this, our latest production from the factory. This movement is stamped "Plymouth Watch Co." and represents the highest order in this grade above all other makes. This movement is adjusted, trued and timed before leaving the factory to the very closest, possible degree. It has high polished exposed winding wheels, Breguet hairspring, true timing screws, patent safety pinion, handsomely damaskeened nickel plates and patent regulator, jewels in screw settings; in fact, every detail in watchmaking has been covered and perfected. While this movement stands pre-eminent for timekeeping and perfection of finish, still, by our new contract in placing our immense order, we are able to sell it at less than watches stamped with the maker's name throughout these pages. We would advise, if you are looking for a small size extra thin gents' watch in a high jeweled grade, to positively select this one to the exclusion of all other grades and makes.

Ladies' 6-Size Hunting Style Countess Janet.

This watch is made for a trading watch in ladies' size. Never before has a ladies' size watch been placed on the market for this purpose. It looks exactly like a high grade 17-jeweled or 19-jeweled watch; is richly nickelled; has 17 large imitation ruby jewels screwed on the plates, which, however, have no utility, but are made for show only. The movement itself is merely a 7-jeweled American made movement, manufactured for our express use by one of the big watch companies. It is for a trading watch only, but as a timekeeper will keep only fair time. It is richly damaskeened so as to make a beautiful appearance; is stem wind and stem set. Our 18-size cheap trading watch for travelers has met with exceptionally fine sale. The profit from a watch of this sort cannot be estimated. Never before have they been placed on the market. They have the appearance of a watch being worth twenty times more than what we ask. This watch is particularly attractive for the purposes of watch trading, for peddlers' use, publishing houses, scheme houses, partial payment houses, in fact, any one wanting a watch having the appearance of the very highest grade for next to nothing in cost.

18-SIZE THIN MODEL OPEN FACE OR HUNTING STYLE GOLD FILLED WATCHES, WARRANTED FOR 20 YEARS.

YOUR CHOICE of any 18-size, thin model, open face, 20-year gold filled case on this page, fitted with a fine 7 jeweled movement for \$5.15. Better than ever, higher grade, better made, more gold, better engravings, latest antique bow, better in every way, yet less than ever before and is one of our challenge offers in 18-size watches. This is the Kingston case; they are made of two plates of solid gold, heavy enough that the manufacturer guarantees them to us, and we in turn guarantee them to you for a term of twenty years. See the guarantee that goes out with every one of these watch cases. This guarantee, exactly as illustration shows, together with our own binding guarantee, means sending you double insurance on your watch. No firm ever made such an offer. You are doubly protected, doubly insured. Any part or piece of this case should wear down to the inner composition metal you can return it to us, and we will, upon its receipt, immediately exchange it for a new one free of all charge and transportation charges. Twenty years means a long time, a lifetime, yet we are able to make this proposition, knowing the quality of gold contained in each case. This, together with the fact that the manufacturer is not harming himself by his own product being undermined, as we do not use the maker's name, and are thereby not in direct competition against his own goods, but each watchmaker knows, though, how cheap these watches are.

\$6.90 FOR THE COMPLETE WATCH. You can select the style you desire from this page. Any case you desire, fitted with the 7 jeweled Edgemere movement, a movement that is the best cheap 7 jeweled movement on the market, better than many movements called high class. We guarantee it to give entire satisfaction. We guarantee it for a term of five years against defective material and workmanship. With care it will last your actual lifetime.

HOW THESE GOLD FILLED CASES ARE MADE
Two sheets of solid gold are rolled down to the proper thickness. These two sheets are then soldered over a plate of tough patent composition metal. Therefore this plate is gold outside and inside. From this plate all the parts of the gold filled cases illustrated on this page are made. No piece skinned, no piece but is thoroughly inspected, no joint but is gold soldered; in fact, this is our challenge case, called the Kingston. We consider it the best value of any gold filled case (we bar none) placed on the market at anywhere near the price.

The illustration shows the screw back and bezel case arranged in three parts before they are put together.

No. 4F1741 Open Face, Screw Back and Bezel.
No. 4F1743 Hunting Style.

No. 4F1745 Open Face, Screw Back and Bezel.
No. 4F1747 Hunting Style.

We fit these cases with the following 18-size movements. Prices quoted are for the complete watch, movement and case.

	Open Face, Screw Back and Bezel.	Hunting Style

WE ARE ABLE TO GIVE YOU POSITIVELY THE HIGHEST POSSIBLE GRADE IN 17 JEWELLED MOVEMENTS FITTED IN EITHER OPEN FACE OR HUNTING STYLE CASE FOR \$11.75 OR \$13.50.

PLEASE EXAMINE CAREFULLY THE DESIGNS ON THIS PAGE. We supply any one of these cases, either open face or hunting style. No. 4F1741 shows the screw back and bezel style case, the different parts well exposed to view, the back, center and front bezel. This is a dust and dampproof case. Your gold filled case. No. 4F1751 shows one of the hunting style Kingston gold filled cases, warranted for 20 years. Note how carefully all the joints are made. Note how carefully all edges have been fastened. Notice the beautiful centers, the antique bow and pendant and winding crown, above all, the neatness and the thinness of these 18-size watches. This is one of the principal ideas gold filled than the 17 jeweled adjustment movements bearing the makers' name. By all means, if you want the best watch manufactured, we would advise either the Prince of Wales in the 16-size or the King Edward in the 18-size.

The illustration shows the Hunting Case with the front and back slightly opened.

LADIES' HUNTING STYLE O-SIZE 10-KARAT GOLD FILLED WATCHES, \$7.15 TO \$29.62.**GUARANTEED FOR 20 YEARS.****AT \$7.15 TO \$29.62**

according to the prices listed below, we offer these handsome, beautifully engraved, guaranteed watches, made by the most responsible and representative manufacturers, at prices that are below any kind of competition. At \$7.15 to \$29.62, according to the movement selected, you can buy from us a ladies' O-size, 10-karat case, 20-year guaranteed watch, the equal of what would cost you elsewhere 20 to 30 per cent more money.

EVERY CASE IS A GEM OF THE ENGRAVER'S ART, and we call attention to the handsome **PLYMOUTH CASE**, as shown below. Every case represents a standard for quality. Whether you select a Dueber, Plymouth, Wadsworth or Giant case, you cannot make a mistake.

12 CENTS WILL CARRY ANY ONE OF THESE WATCHES TO ANY PART OF THE UNITED STATES BY MAIL. 25 CENTS BY EXPRESS.

Edgemere Movement. We advocate 15 jeweled movements.

THE PLYMOUTH GOLD FILLED CASE is recommended above all others, being made of two extra heavy plates of solid gold over a hard composition metal. Will wear longer than any other gold filled case made, and is the handsomest, best finished and best fitting gold filled watch case made. **IF YOU SELECT A PLYMOUTH CASE YOU WILL HAVE THE BEST GOLD FILLED WATCH CASE EVER MADE.**

TRY OUR 15 JEWELLED EDMERE Movement at \$10.15 to \$12.15 fitted in any one of these cases. This is the picture of the 15 Jeweled

LADIES' O-SIZE 25-YEAR GOLD FILLED WATCHES

AND PLYMOUTH GOLD FILLED CASES GUARANTEED FOR LIFE.

This is a picture taken direct from our 15 jeweled EDMERE, the best 15 jeweled movement on the market.

We warrant it for five years.

DESCRIPTION OF OUR O-SIZE 15 JEWELLED EDMERE MOVEMENT. Solid nickel plates through and through, 15 finely polished ruby jewels, cut balance, lever escapement, patent pinion, perfect in finish and detail, and warranted for 5 years.

MANUFACTURED BY THE MOST REPRESENTATIVE GOLD FILLED CASE MANUFACTURERS IN THE WORLD.

THE GUARANTEE GIVEN: Each case is warranted by the maker, and we send, together with this, our own special binding guarantee.

WHAT WE MEAN BY THE PLYMOUTH LIFE GUARANTEED CASE

The Plymouth Life Guaranteed Case is a gold filled case of the very highest quality and the nearest approach to a solid gold case manufactured. The Plymouth Life Guaranteed Case means that should any one of these cases wear down to the inner composition metal any time within your natural life, whether you have owned the case five years, twenty years or fifty years, return it to us, and we will upon the receipt of same exchange it for a brand new case of same quality, free of charge.

REGARDING THE ENGRAVINGS, WE GENERALLY HAVE THE EXACT PATTERN; IF NOT, WE WILL SEND A VERY SIMILAR DESIGN.

GENTLEMEN'S 18-SIZE AND LADIES' 6-SIZE WATCHES

OPEN FACE AND HUNTING STYLE, MADE IN ELECTRO PLATE, GOLD FILLED AND SOLID SILVER

The movements quoted on this page are all of representative makes. They are all well known throughout the country. We warrant each one of them for a term of five years against defective material or workmanship.

IN
OPEN FACE
OR
HUNTING
STYLE.

Electro Plate, 18-Size.
No. 4F903 Open Face,
Screw Back and Bezel.
No. 4F905 Hunting Style.

Above all others as the highest possible perfection in watch movements for accurate timekeeping, we recommend the 21 Jeweled King Edward movement, manufactured by the Plymouth Watch Co., quoted on this page, described and illustrated on page 24.

These cases are often used by unscrupulous merchants and fake concerns and offered as "high grade gold filled and solid silver" but we tell you plainly just what they represent.

Solid Silver, 18-Size.
No. 4F919 Hunting Style.

ELECTRO PLATED CASES.

These cases are made by the electro plating process. This is the cheapest known process of plating and we do not guarantee the wearing ability of them. They may wear for one month or six. We offer these electro plated cases for just what they are.

Gold Filled, 18-Size, Guaranteed for 2 years.
No. 4F900 Open Face, Screw Back and Bezel.
No. 4F909 Hunting Style.

Gold Filled, 18-Size, Guaranteed for 5 years.
No. 4F911 Open Face, Screw Back and Bezel.
No. 4F913 Hunting Style.

Gold Filled, 18-Size, Guaranteed for 10 years.
No. 4F915 Open Face, Screw Back and Bezel.
No. 4F917 Hunting Style.

OUR SOLID SILVER CASES

We guarantee to be PURE COIN SILVER through and through, and give our written guarantee to that effect.

We can furnish a fine Leatherette Presentation Case to fit any watch. See page 25.

Solid Silver, 18-Size.
No. 4F921 Open Face, Screw Back and Bezel.

We fit these cases with the following 18-size movements. Prices quoted are for the complete watch, movement and case.

\$37.28 **12 BEAUTIFUL WATCHES**
 EXACTLY AS ILLUSTRATED.
 SELL THEM IN ONE WEEK FOR \$88.50
 AND MAKE \$51.22 NET PROFIT.

These twelve watches are all gents' 18-size, all stem wind and stem set, all high grade, all covered by our binding guarantee. They are watches that you can easily sell at from \$2.00 to \$15.00 or \$20.00 each.

WATCH No. 1 is an 18-size, nickel plated, open face, American made watch, stem wind and stem set watch, a watch you should sell readily for \$2.00.
WATCH No. 2 is a gents' 18-size, nickel plated, open face American made watch, stem wind and stem set, a very reliable time piece. You should be able to sell this watch easily for \$2.50.

WATCH No. 3 is a gents' 18-size solid silver, open face, screw back and bezel case, fitted with a high grade 7 jeweled American movement. It is a stem wind watch you ought to be able to sell easily for \$5.00.

WATCH No. 4 is a gents' 18-size, open face, screw back and bezel, stem wind and stem set, gold plated case, beautifully engraved, fitted with a 7 jeweled, high grade American movement. A watch you should be able to sell easily for \$5.00.

WATCH No. 5 is a gents' 18-size hunting case, stem wind and stem set, gold plated, an elaborately engraved watch, fitted with high grade 7 jeweled American movement, a watch you should be able to sell easily for \$5.00.

WATCH No. 9 is a gents' 18-size hunting case gold filled watch, guaranteed for 5 years, elaborately engraved, stem wind and stem set, fitted with a high grade 7 jeweled American movement. You should sell this watch easily for \$7.00.

WATCH No. 10 is a gents' 18-size hunting gold filled case, guaranteed for 20 years, elaborately engraved and decorated, stem wind and stem set, fitted with an extra high grade 23 jeweled Locomotive Special Movement. This watch you should sell easily for \$15.00.

WATCH No. 11 is a gents' 18-size open face, screw back and bezel gold filled case, guaranteed for 20 years, elaborately engraved, stem wind and stem set, fitted with a 23 jeweled Locomotive Special Movement. This watch you should sell easily for \$15.00.

WATCH No. 12 is a 12-size gents' open face, snap front and snap back oxidized white metal, an exact imitation of solid silver, fitted with a fine jeweled Swiss imported cylinder movement, stem wind and stem set. This watch you should sell easily for \$5.00.

WATCH No. 6 is a gents' 18-size, open face, a screw back and screw bezel, gold filled case, made of two plates of solid gold over an inner plate of hard composition metal, guaranteed for 10 years, elaborately engraved and decorated, fitted with a 7 jeweled American movement. You should be able to sell it easily for \$10.00.

WATCH No. 7 is a gents' 18-size hunting case, stem wind and stem set, gold filled, guaranteed for 5 years (will last a natural lifetime), elaborately engraved and decorated, stem wind and stem set, fitted with a high grade 7 jeweled American movement, and you should be able to sell it easily for \$10.00.

WATCH No. 8 is a gents' 18-size, screw back and screw bezel, gold filled watch, guaranteed for 5 years (will last a natural lifetime), elaborately engraved and decorated, stem wind and stem set, fitted with a high grade 7 jeweled American movement. You should sell this watch easily for \$7.00.

SEND US \$37.28 mention Special Offer No. 4F950, we will send these watches to you by express, guaranteeing them to reach you in perfect order in just a few days. After you receive them you can give them a thorough test and if you are not perfectly satisfied with your purchase, if you are not satisfied with the watches at from \$75.00 to \$100.00 in a very short time and thus make from \$50.00 to \$75.00 net profit, you can return them to us at our expense, and we will immediately refund your money.

THE ILLUSTRATIONS AND ENGRAVINGS, taken direct from the watches by our artists, will give you a general idea of the appearance. They are all high grade, all new styles for this season. The movements shown hereon are the movements fitted in these watches, Trainmen's Locomotive Special, stamped 23 jewels, with patent regulator and the other a high grade American movement. Among these watches are the highest grade 20-year, 10-year and 5-year gold filled cases made in the world. Cases made by the best makers in the country, made from two heavy plates of solid gold over inner plates of hard composition metal, and guaranteed to wear for five, ten and twenty years as stated, and with fair usage will last a natural lifetime. NEVER BEFORE WAS SUCH WATCH VALUE OFFERED!

SEND \$37.28 FOR THESE TWELVE WATCHES, trade one or two of the watches in even pay for a cow or a horse, trade them for horses, cattle, vehicles, accounts, due bills, sell them for cash, trade them in on lots and other property. You can realize the \$37.28 you paid us three or four times over, for no such trading value was ever given in any lot of merchandise as we show in these twelve watches for only \$37.28. **AT OUR SPECIAL PRICE WE CANNOT BREAK THE LOT.** Not less than twelve watches will be sold. To get this heretofore unheard of price, to get a lot of watches that you can easily sell in a week's time at from \$75.00 to \$100.00 you must order the whole lot. Send us \$37.28 and we will send the watches to you with the understanding and agreement that if they are not perfectly satisfactory you can return them to us at our expense and get your money back.

YOUR MONEY BACK IN A DAY. It is more than likely if you send \$37.28 for these twelve watches you will sell one or two of them the day you get the twelve for enough to pay for the entire lot of twelve watches. You will most likely sell the No. 10 or No. 11 or both 20-year gold filled cases with Locomotive Special Movements, you are likely to sell either of the ten watches over for your profit free of any cost to you. This is a great opportunity for dealers, for general stores, for traders of all kinds, for no such value ever before went out of any wholesale watch house or watch factory.

No. 4F950 TWELVE WATCHES AS DESCRIBED. Price. \$37.28

18-SIZE HUNTING STYLE, SOLID 14-K. GOLD WATCHES

A NEW LINE JUST
SELECTED BY US

For 23 cents we furnish a beautiful Leatherette Presentation Case, to fit any watch. Order by number and give size of watch. See page 23.
No. 4F588
Price...23c

Each piece and part of gold that enters into the making of these cases is guaranteed to be 14-karat solid gold, with the exception of the lifting and locking springs necessary in every case to operate the opening and closing of same. We do not handle quantities less than 14-karat.

Many concerns are offering watch cases as 14-karat solid gold cases that in reality only assay 11 to 12-karat. Ours we positively guarantee, or money refunded to assay 14-karat by any assayer.

These pictures show the exact size of the watches.

25 cents will carry a gentleman's watch to any point in the United States by express.

No. 4F4258 Solid gold, open face, plain polished, solid back, screw bezel, swing ring cup case, heavy weight.

No. 4F4250 Solid gold, Hunting style light weight.

No. 4F4252 Solid gold, Hunting style, plain polished or engine turned, light weight.

No. 4F4254 Same style as No. 4F4252, but heavy weight.

No. 4F4256 Solid gold, Hunting style, engraved, heavy weight.

18-SIZE, STEM WIND, LEVER SET, 21 JEWELLED KING EDWARD MOVEMENT. Manufactured by the PLYMOUTH WATCH CO.

This movement procured by us under a new deal and for an immense quantity, represents the highest perfection in watchmaking. It has 21 fine ruby jewels in gold settings, cut expansion balance, Breguet hairspring, patent safety pinion, patent regulator, adjusted to temperature and the positions, the most accurate and most modern watch on the market today quoted throughout our catalogue, at less cost than the 17 jewelled adjusted movements bearing the maker's name. This watch we can recommend as being perfection in the watchmaking art, and is made with the idea not to equal any 21 jewelled watch on the market but to have something better than has been heretofore manufactured. By all means, if you want the best watch manufactured, we would advise the King Edward.

We fit these cases with the following 18-size movements. Prices quoted are for the complete watch, movement and case.

18-SIZE GOLD FILLED SOLID GOLD BOX JOINTED HUNTING STYLE WATCHES.

Guaranteed for 20 and 25 Years Continuous Wear.

Many of our customers want more pretentious, more elegant appearing watches than are being shown by the local merchants. To accommodate them we have had the Illinois Watch Case Co. make for our especial use the two cases illustrated here, the engraving, antique bow and general get up, something entirely new in the box hinge case line. We show two grades, 14-karat gold filled, warranted for 25 years, and the 10-karat gold filled, warranted for 20 years.

We Fit these Cases with the Following 18-Size Movements. Prices quoted are for the complete watch, movement and case.

GOLD FILLED, GOLD PLATED AND SOLID SILVER RINGS. HOW GOLD FILLED RINGS ARE MADE.

WE OFFER YOU HERE a line of gold filled rings. It will be interesting to you and much more satisfactory before making a purchase of a gold filled ring to know just how they are made. The operation is very easy when it is understood. To start with, a piece of solid gold tube from 1 1/2 to 2 inches in diameter is taken, and the hole on the inside is made perfectly smooth, after which a piece of hard, fine composition metal is placed on the inside of the tube so as to fit the opening perfectly. Some fine gold solder is now placed in the crevice and the whole is inserted in the furnace. As soon as the two pieces are heated sufficiently the solder flows into the crevice, after which it is removed from the furnace, and after it is cold the two original pieces are one. One end of this piece is then hammered and drawn out, so as to make it a little smaller, after which it is inserted in what is called the draw plate, which is a long steel plate with a number of holes in it of such shape as the pieces which it is desired to make. These holes are graduated in size at one end being very large and at the other end small. The piece of material to be worked on is inserted in the large hole first, and with a pair of tongs it is drawn through; this reduces the piece, when it is again hammered at the end to make it small enough to be inserted in the next smaller hole and in turn drawn through this.

THE EDGES OF THE HOLES are all polished so as not to scrape, but to press the metal. This drawing hardens the metal to such an extent that after drawing it through several times it would break easily. It is then annealed by inserting it in the fire and allowing it to cool gradually. After the piece has been drawn out to the required shape and size, one end is bent around a steel mandrel until it has formed a circle of the size the ring is to be made. It is then cut off at the proper place and both ends are carefully surfaced in order to bring them together and make a perfect joint, and on this joint is placed some fine gold solder and the ring inserted in a furnace sufficiently heated to cause the solder to flow into the joint. The ring is then polished carefully on a cotton buff wheel with tripoli and rouge, after which it is ready for the market. Solid gold rings are made in the same manner with the exception of the composition metal on inside.

The market is flooded with cheap brass rings which are electro gold plated, and are called rolled plate or rolled gold plate, and which are utterly worthless. In gold filled rings we handle nothing but the very best.

FOR CHEAP
UNGUARANTEED
RINGS.

Remember, postage on rings is only 2c extra; insurance 5c extra, up to \$5.00 purchase.

GET A BIRTHDAY RING. We illustrate below as No. 4F02987 and No. 4F02988 two rings that are particularly adapted for use as birthday rings. No. 4F02987 has a double cup ring. No. 4F02988 is an ideal birthday ring, being the regulation Tiffany style. The double cup setting increases the brilliancy of the stone and emphasizes in every way the beauties of the 4F02988, price, \$1.46. The best value in birthday rings ever offered. The stones used according to months are as follows: January, garnet; February, amethyst; March, bloodstone; April, diamond doublet; May, emerald; June, agate; July, ruby; August, sardonyx; September sapphire; October, opal; November, topaz; December, turquoise. Do not fail, when ordering, to give catalogue number and month or stone desired, also size of ring wanted. For prices on engraving see page 19.

HOW TO DETERMINE THE SIZE OF RING WANTED.
Cut a strip of thick paper so that the ends will exactly meet when drawn tightly around the second or third finger. Lay one end of strip in the diagram at O and order the size the other end indicates, also send slip so that we can verify size wanted.

This is an illustration of a fine glaze lined ring box, that goes out free of charge with every ring we show on this page.

Don't Fail To Give Exact Size Wanted.

GENUINE DIAMONDS and SOLID GOLD 14-KARAT MOUNTINGS.

WITH EVERY DIAMOND we issue a written, binding guarantee, with a further agreement that you can at any time return any diamond you may select from this catalogue, and exchange it for any other diamond or other article of jewelry at the same or a higher price. **WE FURTHER AGREE** on the return of any diamond purchased from us within 60 days of purchase, when so requested, to refund in cash your full purchase price, and we further agree, at any time after 60 days, on return of any diamond to us, when requested to do so, to refund your full purchase price, less 10 per cent.

YOU CAN BUY A DIAMOND from us today at \$3.66 to \$251.25 and you can keep it for three months or three years or longer, and if you so desire return it to us and we will refund you in cash the full amount of money you paid us for it, less 10 per cent. But we must caution you that we positively will not exchange, refund, or allow credit for any diamond purchased from us unless it is in or with the origi-

nal setting and is accompanied by our guarantee and refund certificate that was sent with the diamond.

EXCEPTIONS WHERE WE DO NOT GIVE OUR REFUND AND EXCHANGE CERTIFICATE WITH A PURCHASE. This ruling applies to such items plainly marked "no refund certificate," and is made necessary for the reason that where we allow a refund certificate, the cost of making the mounting is but a small item of cost and the gold value is the principal one. Where we do not give our refund certificate, the actual gold value amounts to but little and the principal cost is in the making and the cost of the pearls, fancy stones, etc., and as we melt up all returned mountings, our loss would be too great where the cost of making the article is the principal expense. However, we will allow for the diamond without the mounting. On most of our diamond mounted jewelry we quote quality and weight. Where quality and weight are not given we do not allow refunds or exchange after goods have been worn.

Diamonds are advancing in price. We expect an advance of 10 to 15 per cent this year. Buy now.

GRADES OF

DIAMONDS.

With every diamond we send a plush covered and plush lined case for same, free.

FIRST QUALITY.

These stones are perfect in color, proportion, brilliancy, shape and are free from all flaws.

SECOND QUALITY

(sometimes called "Commercial White"). A second quality diamond is in every particular the same as a first, except for the color. The second quality has a slight shade of yellow. This yellow sometimes increases the brilliancy of the stone. At night it is often more fiery than the best grade in the first quality. To the inexperienced it is difficult to see the yellow tinge. This can be discovered by holding the diamond sidewise to the sunlight.

THIRD QUALITY.

A third quality diamond is one that is brilliant and well cut, but has some imperfection or blemish, generally so small and so slight that it requires one high in the knowledge of diamonds to be able to detect the imperfection at all. Our own third quality diamonds are practically perfect in cut and shape. The color may be the same as in our first or second quality, but by close examination it is possible to detect a blemish of some sort. Our third quality diamonds never have cracks in them or large, unsightly chunks or pieces knocked out

of them. The same quality that we sell for third quality is sold by some monthly payment houses and by small dealers as first quality stones. These people either buy and sell them as first quality because they are unable to judge diamonds, or they are fully aware of the imperfections and are simply misrepresenting the goods.

HOW TO DETERMINE THE SIZE OF RING WANTED.

Cut a strip of thick paper so that the ends will exactly meet when drawn tightly around the second joint of the finger. Lay one end of slip on the diagram at O and order the size the other end indicates, also send slip so that we can verify size wanted.

RING SIZES.

WE ASK A CAREFUL COMPARISON

of our goods with those shown by other concerns, which will do more toward showing the value we give than any other argument.

Our binding guarantee and refund certificate goes with every ring.

SPECIAL VALUES IN GOLD PLATED JEWELRY.

A GROWING DEMAND from clothing stores, furnishing goods stores, dry goods stores, traders and others for a grade of gold plated jewelry such as is commonly sold by retail clothiers and dry goods merchants, has induced us to add the following special lines of gold plated jewelry, to our already big line of the highest grade gold plated, gold filled and solid gold jewelry.

THERE IS A GREAT DEMAND among our millions of customers, those who buy for their own use, as well as those who buy to sell again, for a dependable quality of gold plated jewelry that can be sold at a fraction of the price we are compelled to ask for the highest grades of gold plated and gold filled and solid gold jewelry, such as is shown in the other pages of this catalogue.

TO SUPPLY THIS DEMAND, on the following pages we show a variety of jewelry in the very latest styles and patterns which we offer at the lowest price at which any dependable grade of gold plated jewelry can possibly be offered, and at prices very much lower than the same grade of jewelry is or has ever been offered by any other house in any quantity.

THE SPECIAL GOLD PLATED JEWELRY which we offer on the following pages is not to be compared with any of the cheap electro plated jewelry that is so widely advertised and sold by cheap jewelry houses, peddlers, etc. Every piece of jewelry illustrated is well made and beautifully finished, all nicely gold plated, highly polished and finished, and has all the appearance of the higher grade of gold plated and gold filled jewelry which sells at several times the price we ask.

SPECIAL OPPORTUNITY FOR DEALERS, JEWELERS, CLOTHIERS, GENERAL STORES, TRADERS AND OTHERS TO BUY IN QUANTITIES AT HERETOFORE UNHEARD OF LOW PRICES.

WE ARE SELLING THIS JEWELRY AT PRICES MUCH LOWER than the same grade of jewelry was ever sold by any manufacturer or wholesale dealer. At our special prices you can supply your wants at a much lower cost than you have ever before been able to buy. If you have a general store or are engaged in the clothing, dry goods or furnishing goods business and do not carry a stock of jewelry, we especially urge that you order a small assortment selected from the following pages. We will guarantee you will find the goods the very latest style, gold plated goods that will give satisfaction, an assortment of gold plated jewelry that will find ready sale with your trade and at prices from three to five times the price you pay us. If you don't carry jewelry, put in a little stock, if only an assortment of \$5.00 or \$10.00, and you will be surprised how rapidly these goods will sell. A \$10.00 assortment at our prices, as selected from these pages, would, at average retail prices, bring \$50.00 to \$75.00, and we are sure if you make the start you will in time carry a liberal stock and add greatly to your profit by the small investment made.

DEALERS AND TRADERS are especially urged to make up a small order of this popular priced gold plated jewelry, as selected from these pages. Make up a \$5.00 assortment, if you please, and the shrewd peddler or trader will be able to sell the lot for at least \$25.00.

WHILE THE VERY LOW PRICES at which we sell this popular grade of gold plated jewelry will attract thousands of our customers, who may wish to buy one item for their own use, the prices we offer enable you to buy for 10 or 15 cents, one article for which you would have to pay at retail from 25 cents to \$1.00. This grade of gold plated jewelry is offered especially to supply the retail jeweler, the peddler and the trader who wishes to buy in dozen lots and take advantage of our very low prices, prices much lower than were ever before quoted on this grade of goods.

REMEMBER, WE ACCEPT NO ORDER FOR LESS THAN 50 CENTS. If less than 50 cents, select enough more needed jewelry or other merchandise to make your order amount to 50 cents or more.

THIS IS THE EXACT SAME GRADE of gold plated jewelry as you will find in the best dry goods stores as well as in many of the most representative retail jewelry stores. For example, the cuff buttons and cuff links which we offer at from 10 to 20 cents each (special prices in dozen lots), are the exact same links and buttons that retail generally at from 25 to 50 cents per pair. The handsome, new style brooches which we offer at 10 to 25 cents are the exact same style and grade of gold plated goods that retail generally at 25 cents to \$1.00. The stick pins, scarf pins and other pieces of gold plated jewelry shown in this line, which we offer at 10 to 20 cents (special prices per dozen quantities), are the exact same goods that retail everywhere at from 25 to 50 cents each. The chains which we show in a big variety, at prices ranging from 10 to 50 cents each (special prices in dozen quantities), are the exact same new, late style goods that are retailed generally at from 50 cents to \$1.50.

WHILE WE DO NOT GUARANTEE THE WEARING QUALITIES of this grade of jewelry, as before stated, it is the exact same grade of gold plated jewelry that is sold largely by dealers under one, two and three year guarantees at from two to ten times the price we ask. The length of time any piece of this jewelry will wear without the gold wearing off and without tarnishing or discoloring depends on the kind of wear the piece of jewelry gets. For example, a scarf pin, brooch, charm or cuff button will wear much longer than a ring. Every piece we offer will give the best of satisfaction and we guarantee it the equal of any gold plated jewelry retailed generally at from two to five times the price we ask.

YOU WILL NOTE UNDER EACH ARTICLE OF JEWELRY we quote the single price, also the price per one-half dozen and the price per dozen, making a special price where orders are placed for dozen lots, and in ordering a dozen you are at liberty to assort the dozen. For example, if you are selecting cuff buttons and wish to take advantage of our dozen price you can make up the dozen by selecting one or two of each number at the same price. For instance, there may be one-half dozen numbers that sell at \$1.50 a dozen, in which case you are at liberty to select two of each number and get the benefit of the dozen price. In this way it gives the dealer, the peddler or the trader an opportunity to get together a very attractive assortment of the showiest cheap gold plated jewelry made for a very small investment. Just a few dollars, \$5.00 to \$10.00, would make up an assortment of jewelry that would prove very attractive in any clothing store, dry goods store, general store or in the stock of any peddler or trader.

REMEMBER, THESE ARE BEAUTIFUL GOODS, handsomely finished and highly polished, all gold plated, the same grade of latest style goods as is handled usually by the retail clothing trade and dry goods trade, but none of this jewelry is guaranteed by us, nor will it be replaced or repaired by us after being worn except when otherwise specified. We will fill any order for this jewelry, sending it to anyone with the understanding and agreement that if it isn't perfectly satisfactory when received, it can be returned to us at our expense, and the money sent us will be immediately refunded, together with any express charges paid by the customer, but after the jewelry has been worn, used or carried in stock, or offered for sale, it is not returnable to us and no repairs will be made on it by us. If you wish to buy jewelry which is guaranteed to wear for years you should select the higher grade gold plated, gold filled and solid gold jewelry shown in this catalogue.

If you wish to buy an item of jewelry for your own use, the price of which is less than 50 cents, select enough more needed jewelry or other merchandise to make your order amount to 50 cents or more.

WONDERFUL JEWELRY ASSORTMENT OF 141 PIECES.

MENTION SPECIAL OFFER No. 4F15225, ENCLOSE \$12.87, and we will send you this enormous assortment of fine gold plated jewelry, 141 pieces in all, a big assortment for a retail dealer, a jewelry merchant, general store, peddler or trader. If you have any ability at all in buying and selling or in trading you can dispose of this big assortment of gold plated jewelry, 141 pieces, easily within a week for from \$25.00 to \$75.00. You can make a profit of \$25.00 to \$50.00 in a week's time by disposing of this jewelry in your immediate neighborhood. Such an assortment of fancy gold plated, engraved, ornamented and elaborately set gold plated jewelry as was never before offered at anything like the price. It's an ideal big assortment for traders, peddlers, money makers of all kinds. It's an assortment that gives a young man an opportunity to make a start in business, a vast variety, 141 pieces, a chance to get your money back in a day and still have a liberal stock of jewelry left to sell for your profit.

THIS BIG ASSORTMENT OF 141 PIECES, all of which we furnish for only \$12.87, comprises the following: 24 pairs of handsome link cuff buttons, all rich gold plated, assorted, no two pairs alike, bright, polished, engraved, embossed, set with various fancy stones and mother of pearl. They are plain and engraved, a good liberal stock of cuff links, 24 pairs, no two pairs alike. Sell them, if you please, at from 25 cents to \$1.00 a pair, and you will soon get back all the money you have paid us.

TWELVE PAIRS OF CUFF BUTTONS, gold plated, bright polished, engraved raised, ornamented, set with various fancy stones and mother of pearl; plain, engraved and embossed, no two pairs alike, a good big assortment, all the very latest style, handsome gold plated. You can sell them at from 25 cents to \$1.00 per pair. You get your money back in a day or two and will be left with a big stock of jewelry on hand, jewelry that will pay you a handsome profit.

EIGHTEEN GOLD PLATED FINGER RINGS, assorted sizes and assorted patterns, bright polished, engraved and plain, set with various fancy stones. These rings will sell readily for enough to repay you for your entire purchase and leave you the balance of the jewelry.

TWELVE GOLD PLATED BROOCHES, a fine assortment, bright polished, engraved, embossed and decorated, set with fancy stones. These are brooches you can sell at 50 cents to \$1.00 each. You can sell

all the brooches for about enough to pay for the entire assortment of 141 pieces which we furnish you. TWENTY-SEVEN FANCY GOLD PLATED SCARF PINS, Enameled, bright polished in Roman yellow finish, set with various stones, a beautiful assortment of gent's fine scarf pins, scarf pins you can sell at 25 cents to \$1.00 each.

TWELVE GENT'S GOLD PLATED VEST CHAINS. All new up to date patterns, bright polished, with bar, toggle and swivel, regular 12-inch length. Want of space compels us to use a very small picture of these chains. You can easily sell these gold plated chains for enough to pay for entire assortment we send you.

THREE LADIES' GOLD PLATED, BRIGHT POLISHED NECK CHAINS, 13 inches long. These are new 1907 styles, chains you can easily sell at from 25 cents to \$1.00 each.

THREE LADIES' GOLD PLATED GUARD CHAINS. Very elaborate, new 1907 styles, bright polished, made with fancy set slides, regular 45-inch lengths. You can sell them easily at from \$1.00 to \$2.00 each.

THREE GENTS' FINE SILK FOBS, 6 inches long, made with slide and charm; rose roman yellow finish.

THREE GENTS' EGYPTIAN FOBS, Egyptian finish, 6 inches long.

TWO DOZEN HANDSOME ASSORTED GOLD PLATED COLLAR BUTTONS, full size, gold plated, bright polished, consisting of six pointers, six bull top and twelve levers.

THIS WONDERFUL ASSORTMENT OF 141 pieces of gold filled jewelry, all new 1907 styles, pieces of jewelry that you can sell easily at from 25 cents to \$1.50 each, we offer you for only \$12.87. We can make this especially low price of \$12.87 for these 141 pieces only by your sending for the complete assortment. We cannot divide the assortment or sell any piece or part of it. You must take the entire assortment exactly as illustrated and described, the big outfit of 141 pieces for \$12.87, in order to take advantage of our most extraordinarily low price offer. The special \$12.87 price barely covers the actual cost to us with but our one small percentage of profit added. It's about one-third what these goods would ordinarily wholesale at. You can sell them at one-half the price charged by dealers generally and still make \$25.00 to \$50.00 on the outfit.

SEND US \$12.87, mention Special Offer No. 4F15225, we will send this big outfit of 141 pieces of high grade, new 1907 style jewelry to you with the understanding and agreement that if it isn't perfectly satisfactory, if you are not satisfied when you get it that you can sell it at several times what you pay us for it you can return it to us at our expense, and we will immediately return your money together with any express charges paid by you.

No. 4F15225 Jewelry Assortment, as described above. Price \$12.87

GENTLEMEN'S GOLD PLATED LEVER LINK CUFF BUTTONS.

BEATRICE SILVER PLATED TOILET SETS.

A brand new pattern on the market, and the biggest value ever offered for the money. To satisfy the popular demand for toilet sets and manicure pieces, ranging from 48 cents to \$2.80, we contracted for a large quantity of the very handsome articles illustrated below. They are silver plated on white metal, strong, substantial and good for practical purposes. They are all full sizes, in fact, run larger in size than similar articles quoted on this page in solid silver. Each complete in box, as illustration shows.

No. 4F06970 Silver Plated Toilet Set, consisting of the twelve following pieces: nail brush, hand brush, nail file, cuticle knife, paper cutter, roller blotter, letter seal, ink eraser, curling iron, button hook, shoe horn and corn knife.

Price, complete in white paper cloth lined box.....\$2.80

Price, complete in box.....48c

If by mail, postage extra, 15 cents.

SOLID GOLD PENS AND PEARL HOLDERS.

MADE UNDER CONTRACT FOR US. THE SPECIFICATIONS ARE CARRIED OUT IN EVERY DETAIL.

OUR PENS AND HOLDERS.

THE BEST ON THE MARKET. The manufacturer, following the exact details of our contract, produces for us, at a price cheaper by 25 per cent, pens that are worth 50 per cent more than the best pen sold by others. We have them made of solid gold through and through, heavy and well tempered. The points of every one of them are tipped with genuine iridium (sometimes called diamond pointed). Iridium, a very hard metal, being applied at the writing point of a pen, gives it a wearing period of practically a lifetime. The pearl sticks, gold filled holders and noses are made and selected from the best stock to be purchased. Illustrations are reduced size. The actual size of pens and holders are from 6 to 7 3/4 inches long. No. 1 pen and holder is 6 inches long, balance of sizes in proportion.

Don't be misled by fancy prices asked by others. We warrant our pens and holders the equal of any and better than the most.

FOR 19 CENTS EXTRA WE WILL FURNISH THIS FINE PEN BOX.

No. 4F07142 Genuine silk plush covered, plush lined pen box.....19c

With any pen you select.

PAUL E. WIRT FOUNTAIN PENS AND OUR OWN SPECIAL MAKE, THE NEW WABASH, MADE ONLY FOR US.

BEFORE LISTING A LINE OF FOUNTAIN PENS we have thoroughly investigated the mechanism of all makes, and have spared no pains to place at the disposal of our customers, the finest fountain pens manufactured. The construction of these pens is of such a simple and practical kind that it is utterly impossible for one of them to become out of order, and cause more trouble to the writer and destroy more copy than the entire thing is worth, instead of being a convenience, making it in reality an absolute inconvenience.

THE PAUL E. WIRT FOUNTAIN PEN stands at the head without a peer. It is most simple and practical in construction as to operation and beauty of workmanship. Their popularity rests upon the fact that their ink feed device is the most perfect and simplest ever discovered. Do not buy inferior imitations, but get the original, genuine article. They are elegant, simple, clean and durable; every fountain is fitted with a 14-karat solid gold pen. Each one is warranted by the manufacturers, and we guarantee them to you personally to be the finest and most practical pen made.

No. 4F07304 Our New Wabash, with patent, non-breakable cap, something brand new in the fountain pen line. The cap has a ferrule of rolled gold plate, as illustration shows, which makes it practically non-breakable. The cap is the weak point on the fountain pen. The case is perfectly plain and has non-leakable screw nozzle, medium length and fitted with a No. 2 solid gold pen. Comes only medium pointed, a pen well selected for general work. Price.....\$1.16
No. 4F07306 The Wabash. Plain case, screw nozzle, medium length, fitted with No. 2 medium 14-karat solid gold pen; medium pen only furnished. Price.....65c
We guarantee this pen to be equal to any sold by others for \$1.00 to \$1.25.

OUR SILVERWARE DEPARTMENT.

DO NOT BE MISLED IN THE TERMS TRIPLE AND QUADRUPLE PLATE,

these terms do not show quality. They merely indicate, although there is positively no way of proving it, that the article has been in the silver bath three times for triple plate or four times for quadruple plate. The merchandise could be good or very bad. It depends on the length of time the article has been left in the silver plating bath and the richness of the bath in silver. A knife can be triple plated but still contain only four pennyweights of silver to the dozen, and can be quadruple plated and only have the same amount. We sell our knives for exactly what they are. When branded as 12 pennyweight knives, we guarantee 12 pennyweights of silver has been deposited on each dozen of knives and forks; if 16 pennyweight is branded on them, 16 pennyweights have been deposited. There is no knife in the market at the present time that contains more than 16 pennyweights of pure silver.

Mail Charges on Knives and Forks, About 48 Cents Per Dozen.

Sears, Roebuck & Co.'s Special Brand 12 and 16-dwt. Knives and Forks.—Stamped Paragon.

as applied to steel knives and forks. These terms apply only to silver plated hollow ware, tea spoons, forks, etc., made of nickel, then plated, positively no way of proving it, that the article has been in the silver bath three times for triple plate or four times for quadruple plate. The merchandise could be good or very bad. It depends on the length of time the article has been left in the silver plating bath and the richness of the bath in silver. A knife can be triple plated but still contain only four pennyweights of silver to the dozen, and can be quadruple plated and only have the same amount. We sell our knives for exactly what they are. When branded as 12 pennyweight knives, we guarantee 12 pennyweights of silver has been deposited on each dozen of knives and forks; if 16 pennyweight is branded on them, 16 pennyweights have been deposited. There is no knife in the market at the present time that contains more than 16 pennyweights of pure silver.

OUR SEARS, ROEBUCK & CO.'S FLAT WARE, stamped "Paragon" Brand Silver Plated Cutlery (Sears, Roebuck & Co.'s name does not appear on it) is made under special contract. We can recommend them above all other makes. A full description and prices are quoted on page 105. We cannot engrave knives as they are made of steel.

No. 5F179 Our Latest Paragon Brand Fleur de Lis Pattern Hollow Handled Knives. This knife is made on the same plan as solid silver handled knives are. Look anywhere, and select the finest pattern hollow handled knife you can find and we are positive they cannot compare with this brand, in quality or design. The blade is of the finest tempered crucible No. 1 steel and the handle is of 21 per cent nickel silver, the entire knife plated with 16 pennyweights of pure silver, the heaviest amount plated on any knife manufactured. This knife is made with the idea of surpassing any that have heretofore been placed on the market. The hollow handled knife that you can buy from any other firm will cost you from \$7.50 to \$9.00 per dozen, and it does not compare even favorably with this knife. Length, 9½ inches. Each dozen put up in fancy lined, white glazed paper box. Price, complete in box, per dozen. \$6.95

\$1.18 for Silver Plated Knife and Fork Set.

No. 5F182 Plain Pattern Knife and Fork Set, regular size, plated with 4 dwt. of silver; excellent value. Price for complete set. \$1.18

No. 5F184 As above, marked CHALLENGE, 6 dwt. to the dozen. Price. \$1.72

No. 5F185 Set of six Knives and Forks, marked CHALLENGE, 8 dwt. to the dozen. Price. \$1.88

Our \$1.05 Silver Plated Knife and Fork Set.

No. 5F187 Knife and Fork Set, the knives are plain handles, but the forks are engraved like the flat fancy patterns: six knives and six forks in box, complete. Price, per set. \$1.05

If by mail, postage extra, 35 cents.

Our \$1.65 Knife and Fork Set.

No. 5F188 Set of six each. Fancy Knives and Forks, engraved handles. Both the knives and forks are made of solid steel, heavily plated with pure silver. Price, per set. \$1.65

If by mail, postage extra, 35 cents.

A POINT OF INFORMATION. Pure solid silver will tarnish. Coal gas, smoke, even the atmosphere will cause silver to oxidize, that is, turn dark. This does not denote that it is of inferior grade or poor manufacture. Silverware, to be kept bright and clean, should be polished from time to time.

No. 5F198 Silver Sunshine is unquestionably the purest and best silver polish made, contains no acid and will not scratch. Price, per ¼ pint bottle. 22c

Cannot be sent by mail.

No. 5F200 Silver Sunshine Powder, for silverware, cut glass, china, etc. Contains no acid and will not scratch. Price, per dozen, 78c; per box. 7c

If by mail, postage extra, per box, 4 cents.

\$3.58

with some of the other brands that we quote. As a wedding wearing ability of five years, we can recommend this set. This set displayed in any store would positively bring double what we ask. No one but an expert, and only by the closest examination and tests, would know but that it was one of the highest grade. We cannot sell any of the pieces separately. The very close price will not permit of the set being divided. You must order it complete.

No. 5F189 Price, for complete set, including case. \$3.58

KNIVES. The knives, on account of being silver plated over crucible steel, the silver plating will in time wear off on the cutting edge. This will happen to the very best silver plated knives on the market. We, therefore, do not include the knives in this five-year guarantee. Shipping weight, about 6½ pounds.

ALASKA SILVERWARE—A NEW DISCOVERY

THE CHEAPEST AND BEST FLAT WARE MADE

but is the same solid metal through and through, and color as long as there is any portion of the goods left. Do not be deceived by any dealer who undertakes to sell you any of the numerous imitations of this ware, that are sold on the market for more money than we ask for the genuine. The genuine Alaska Silverware can be had only of us.

BEFORE TAKING HOLD OF THIS NEW DISCOVERY

we left nothing undone to thoroughly investigate the properties of this metal, and to test the same in every conceivable manner, to satisfy ourselves that it was all that it was represented to be. After having made all sorts of experiments, and it stood all tests, we made a contract with the factory to handle the goods. It has now been about seven years since we began to handle this line, and it has not only proved from experiment to be as represented, but with seven years of actual service in the hands of many thousands of our customers, who send us the most flattering recommendations in praise of these goods, and with the rapidly increasing sales, we feel that we cannot recommend it too highly.

THE METAL IS VERY DENSE AND TOUGH,

is almost

as white as genuine silver, takes a beautiful polish and requires much less care than does silver plated ware.

OUR GUARANTEE.

ALASKA SILVERWARE KNIVES are not plated. They are the same metal and color through and through. They are proof against all table and fruit acids. They will not rust. They will not tarnish. They will cut and cut well. They can be ground and sharpened like a steel knife, and we guarantee them for the term of your natural lifetime.

Relative Lengths of Alaska Silverware: Tea spoons, 5½ inches; dessert spoons, 7¼ inches; table spoons, 8¼ inches; dessert forks, 7 inches; medium forks, 7¼ inches; medium knives, 9 inches; sugar shells, 5½ inches; butter knives, 7 inches.

Paragon Brand Silver Plated Tableware

MADE EXCLUSIVELY FOR US BY THE INTERNATIONAL SILVER CO., OF BRIDGEPORT, CONN.

WE QUOTE AND ILLUSTRATE TWO WEIGHTS, medium and extra heavy; also two grades, extra plate and triple plate. The triple plate is the highest grade. All fancy pieces come only in the extra heavy weight and triple plate. Our order for this highest grade silverware was placed very early. The factory has worked six months on it, so as to give us a brand of silverware unequalled by any manufacturer. To own exclusively the patterns shown, it was necessary to place an unheard of contract for quantity. It is an accepted fact that it was the largest contract placed by any concern for silverware last year with any factory. The disposition of manufacturers of late years has been to reduce the quality of tableware, so as to be able to increase their profits. Our customers must have the best, so we had this new Paragon brand made under our own specifications. We therefore are safe in sending with every piece of silverware that we sell our written guarantee as to quality. Considering the high grade of the Paragon brand, silverware was never sold as cheap.

THE MOST VITAL DEFECTS CONQUERED. We offer a brand of silverware that for quality, wearing ability and finish is unequalled at one-half the price inferior silverware is sold by others. In this, our Paragon brand silverware, you are buying the name. There is no weight or style that you cannot procure from us. We have in our specifications used the good points of the other makes and improved on them, and eliminated all faults.

HOW OUR PARAGON BRAND SILVERWARE IS MADE. Large ingots of solid, high grade, proper thickness. These sheets are then passed into the cutting room where the blanks for tea spoons, table spoons, etc., are stamped out. From the stamping room they are passed into the die room, where the blanks are then placed in hydraulic presses and the patterns are stamped on them. This high pressure stamping toughens and strengthens the blanks. These blanks are now ready for the finisher. After they have been thoroughly polished and trimmed down, all rough and raw edges smoothed and finished, they are turned over to the platers, who plate the necessary amount of absolutely pure silver on them. The hand burnishers take them next, who, with bloodstones burnish the silver on the blank, which toughens it and leaves the same amount of silver on the piece as was deposited. The old method of polishing on a wheel with rouge has been done away with in the manufacture of this silver, as it wears away some of the silver. After they have been properly burnished, they are then packed in tissue paper according to kind and placed in boxes, ready for shipment, each package containing our guarantee as to quality.

PARAGON BRAND SILVERWARE IS BETTER THAN ALL OTHERS, because the highest possible grade of nickel silver is used in the blank. The article itself, all the way through, consists of the closest approach to solid silver of any foreign metal. After years of wear, should any spot show through, it cannot be seen, as the metal underneath so closely resembles silver. The blank and the amount of silver deposited on the blank, are the two main features in silverware. We offer you in the Paragon Brand Silverware the highest grade nickel silver blank with the greatest amount of solid silver deposited on it.

OUR GUARANTEE.

OUR PARAGON SILVER PLATED WARE, stamped according to quality, is guaranteed to be plated with pure silver. The extra plate tea spoons, stamped "Paragon Extra," contain 50 pennyweights of pure silver to the gross; the table spoons and medium forks, 100 pennyweights to the gross. This is 25 per cent heavier silver deposit than the regular standard plate offered by other factories. The same percentage of increased silver deposit is contained in our triple plate, which is the highest grade manufactured, stamped "Paragon Triple." We claim our goods superior in quality, finish and durability, and guarantee them to give perfect satisfaction in every respect.

OUR SPECIAL OFFER, TRIPLE PLATED DINNER SET, GUARANTEED FOR FIFTEEN YEARS, \$8.48

For \$8.48 we offer this 26-piece combination silver plated dinner set, made in the Paragon brand, triple plated, Fleur de Lis pattern, the peer of all silver plated ware on the market. The set consists of six Paragon brand 16-pennyweight knives, six Paragon brand triple plated forks, six Paragon brand triple plated table spoons, six Paragon brand triple plated tea spoons, one Paragon brand triple plated sugar shell and one Paragon brand triple plated butter knife. The knives are made of the very best crucible steel, highly finished, and are plated with 16 pennyweights of pure silver to the dozen, and are the very best grade of knives ever placed on the market.

\$8.48
Guaranteed for 15 Years.

At \$8.48 we offer you this fine dinner set in a beautiful plush covered purple satin lined case. The case is divided to hold the pieces just as illustration shows, which protects the silverware from becoming marred when not in use. We also furnish this set in a leatherette fancy lined case. For comparison, we would ask you to order a dinner set from us and compare it with a dinner set from your local merchant or any one else you might desire, and if upon examination, you do not find our set to be superior in quality and finish, and that we can save you from \$3.00 to \$4.00 on this set, return it to us at our expense and we will cheerfully refund your money, together with the transportation charges. With this Paragon brand Fleur de Lis pattern triple plated dinner set, catalogue No. 5F585, we issue our fifteen-year written binding guarantee. If any

piece should wear out or prove defective within this time, it can be returned to us and we will cheerfully exchange it for another.

No.	Price for 26-piece set	Price of set in leatherette case	Price of set in plush case
No. 5F585	Price for 26-piece set	\$8.08	\$8.48

We can also furnish this set in the extra plate in the Fleur de Lis pattern, but we do not issue a written guarantee with this extra plate set. However, this grade of goods is superior to the regular standard brands on the market.

WM. ROGERS & SON'S SILVER PLATED TABLEWARE

TEA SPOONS	Price, per dozen, \$0.94
TABLE SPOONS	Price, per dozen, 1.88
MEDIUM TABLE FORKS	Price, per dozen, 1.88

EACH PIECE IS STAMPED ON THE BACK exactly what grade it is. AA, and triple plate is stamped 6 on tea spoons and 12 on table spoons. This well known brand we have selected in preference to all other Roger brands of silverware, for the reason they charge less for their name and offer more in quality for the money than any other Roger manufacturer. Do not be misled by the name Rogers. Many fake brands are on the market. We handle only the brands that we can conscientiously recommend.

THIS BRAND COMES IN TWO WEIGHTS and in two grades: Medium weight extra plate and heavy weight extra plate. The only difference between the two weights is in the weight of the blank. The heavy triple plate line is the best weight and is the highest quality silver plated ware in the Rogers brand on the market. While the medium weights will wear a great many years and give splendid service, the triple heavy weights will practically wear a lifetime. The Tipped pattern and the Shell pattern we quote both medium weight and heavy weight in extra plate and triple plate.

FANCY PIECES in the most beautiful pattern of all, the Oxford pattern. All fancy pieces come in the heavy weight. We illustrate and quote the Oxford pattern, as this pattern makes the best show in fancy pieces and likewise because we are able to sell it much cheaper than any of the other fancy line by reason of our special contract. If you want to own the most elegant knives manufactured, we recommend hollow handled knives, made after the same plan as solid silver knives are made.

No. 5F1831 Child's Cup, embossed, satin finished, gold lined. Price 25c.
No. 5F1878 Baby Cup, quadruple silver plated, plain hand burnished, gold lined. Height, 2 1/2 inches. Price 90c.
Guaranteed for 5 Years.

No. 5F215 Sugar Shell and Butter Knife, Wallingford pattern. Price, per set, in lined box..... 30c
If by mail, postage extra, 8 cents.

A POINT OF INFORMATION. Pure solid silver will tarnish. Coal gas, smoke, even the atmosphere will cause silver to oxidize, that is, turn dark. This does not denote that it is of inferior grade or poor manufacture. Silverware, to be kept bright and clean, should be polished from time to time.

No. 5F198 Silver Cream is unquestionably the purest and best silver polish made, contains no acid and will not scratch. Price, per ½ pint..... 22c

No. 5F200 Silver Soap Polish, for silverware, cut glass, china, etc. Contains no acid and will not scratch. Price, per box..... 7c
If by mail, postage extra, 8 cents.

No. 5F219 Silver Plated Baby Spoon. Fancy pattern. Something new, just the thing, at a small cost, to give the baby. It is made in the best possible manner, beautifully embossed pattern, comes in a neat box. Price..... 25c
If by mail, postage extra, 2 cents.

No. 5F224 Child's Set, three pieces, good plate. Price, per set..... 38c
If by mail, postage extra, 12 cents.

No. 5F234 Child's Set, three pieces, ivory handled knife, fine quality. Price, per set... 68c
If by mail, postage extra, 15 cents.

BE SURE TO MENTION PATTERN DESIRED.

SOLID SILVER FLATWARE. GUARANTEED TO BE ⁹²⁵/₁₀₀₀ FINE. POSITIVELY THE FINEST QUALITY MANUFACTURED.

We give weights on sterling silver flatware, but we recommend the 8 or 10-ounce tea spoons, as they are very heavy, and will positively wear forever.

REMEMBER,

that our Solid Silver Flatware is solid silver through and through, every grain of it being of the same quality, fine silver. We merely show the tops of the handles so as to give you a correct idea of the patterns. We carry all the fancy pieces. Please note that we quote in the price list, butter knives, sugar shells, berry spoons, cream ladies, gravy ladles, cold meat forks, etc. All of the fancy pieces come in a beautiful lined box, for which there is no extra charge. Our solid silverware is stamped Sterling Silver, not coin, which is only ⁹⁰⁰/₁₀₀₀ fine but Sterling Silver. When you see this mark you are positive that you are getting honest goods.

Princess Pattern.

Engraving Script Letters, 2½ cents each; for Old English Letters, 5 cents each, extra.

Plymouth Pattern.

Altair Pattern.

Postage extra, as follows, when goods are sent by mail.

Registered mail, 8 cents extra.
Sugar Shells, 3 cents.
Cold Meat Forks and Cream Ladies, 5 cents.
Tea Spoons, 6 cents.
Table Spoons and Forks, 12 cents.
Butter Knives, 3 cents.

Orchid Pattern.

Wild Rose Pattern.

Tipped Pattern.

WE SUPPLY LEATHERETTE CASES,

fancy lined, to hold twelve tea spoons for 25 cents; to hold six knives and six forks for 25 cents; to hold twelve tea spoons, butter knife, sugar shell and pickle fork at 25 cents; to hold twelve tea spoons and six table spoons at 35 cents; to hold one dozen table spoons at 35 cents. Cases only supplied when goods are ordered to fill same from us.

If by mail, postage extra, 4 cents.

Wonderful Bargains

SEVEN ARTICLES LEFT, but we have a large quantity of each piece. Last year we ran the Rose pattern in our Paragon brand high grade silver plated ware. We have discontinued this pattern, and rather than sell our remaining stock to the job lot concerns we are giving you the advantage of our bargain prices, $33\frac{1}{3}$ per cent less than we sold it for, which means a frightful loss to us. Your choice for 48 cents each for sugar shell and butter knife combination, berry spoon, cold meat fork, pie knife or gravy ladle, each one put up in a beautiful paper lined box, exactly as illustrated below; 28 cents your choice for butter knife, pickle fork or sugar shell, each one put up in fancy box.

No. 5F410 Berry Spoon. Paragon brand, triple plate, Rose pattern; $8\frac{1}{4}$ inches long; in fine lined box.

Price... (Postage extra, 8c)... 48c

No. 5F415 Butter Knife. Paragon brand, triple plate, Rose pattern; $7\frac{1}{4}$ inches long; in fine lined box.

Price... (Postage extra, 4c)... 28c

No. 5F419 Pickle Fork. Paragon brand, triple plate, Rose pattern; $7\frac{1}{4}$ ins. long; in fine lined box. Price, 28c.

If by mail, postage extra, 4 cents.

No. 5F426 Cold Meat Fork. Paragon brand, triple plate, Rose pattern; 8 ins. long; in fine lined box. Price... 48c.

If by mail, postage extra, 8 cents.

No. 5F430 Pie Server. Paragon brand, triple plate, Rose pattern; 9 inches long; in fine lined box. Price... 48c.

No. 5F443 Sugar Shell. Paragon brand, triple plate, Rose pattern; 6 inches long; in fine lined box. Price... (Postage extra, 4c) 28c.

OUR 28-PIECE INITIAL SILVERWARE SET FOR \$4.10

FOR \$4.10 we offer a 28-piece set of silverware, engraved with any initial, complete with case, the equal of anything you can buy anywhere at three times the price.

EXPRESS CHARGES. will amount to next to nothing as compared with what you will save in price. The express charges will average for 500 miles, 35 cents; 1,000 miles, 50 cents. Greater distances in proportion.

THIS SET CONSISTS OF 6 full size table spoons, as illustrated, each spoon engraved on the handle with any initial desired, as shown in illustration; 6 teaspoons, as illustrated, each spoon engraved on the handle with any initial desired, as shown in illustration; 6 full size forks, as illustrated, each fork engraved on the handle with any initial desired, as illustrated; 1 sugar shell, 1 butter knife, 1 pepper and 1 salt shaker (these two pieces are of hard solid metal), and 6 knives (the knives we cannot engrave).

ALASKA SILVERWARE KNIVES ARE NOT PLATED. They are the same metal and color through and through. They are proof against all table and fruit acids, they will not rust, they will not tarnish. They will cut and cut well. They can be ground and sharpened like a steel knife and we guarantee them for the term of your natural lifetime.

IN ADDITION TO THE 28 PIECES of silverware as illustrated, we furnish this handsome plush covered and fancy blue lined case. Case is 12 inches long, 10 inches wide and 2 inches deep, nicely finished with a fancy metal clasp and so divided as to just hold the 28 pieces in position, as shown in illustration, so that when the tableware is not in use it can be kept in perfect condition in the case, as illustrated.

THIS SOLID SILVER METAL is the nearest approach in composition to the pure coin silver that has ever been attained. This composition silver is one solid metal through and through, guaranteed to retain its perfect silver color and wear forever. Each piece is stamped "Alaska Silverware."

IT WILL NEVER TARNISH if properly used. It is stronger than silver; more springy, you can scour it with a brick; you cannot harm it, but like solid silver or most any other metal, do not leave it stand in salt butter, vinegar or any acid for any considerable time, six or eight hours or over night, as it will tarnish; however, it can be cleaned again and made bright as when new.

THIS SILVER COMPOSITION METAL is made by a process known only to the manufacturer of these sets, who supplies them to us in immense quantities; is in appearance, finish and every way (except intrinsic value) equal to coin silver. In appearance it cannot be told from solid coin silver. It must be examined by an expert to detect the difference. We can furnish the pieces separately, engraved with any letter, at the prices quoted here.

No. 5F1470 COMPLETE SET, WITH CASE, \$4.10.			

AT \$4.10 WE FURNISH THIS 28-PIECE SET of initial silverware complete with case as the greatest value ever offered in this class of goods; in fact, our \$4.10 price is based on the actual cost to us in immense quantities for cash, with but our one small percentage of profit added.

Postage on these goods, if to go by mail, will be extra per half dozen as follows: Tea spoons, 6 cents; dessert spoons or forks, 12 cents; table spoons or medium forks, 15 cents; sugar shells or butter knives, 2 cents each. It is cheaper to send by express, if you have an express office near by.

DO NOT COMPARE THIS, any of the cheap plated ware that is offered in cases. We could furnish a 28-piece set of cheap silver plated ware with a cheap case similar to the cases that are being furnished by some houses at \$1.50 to \$2.00, but we believe our customers want a higher grade of goods and we have received so many letters of commendation for this class of goods the past two seasons that we have decided to increase our contracts and offer the goods in sets of twenty-eight pieces at even a lower price than we have ever before been able to sell the same class of goods without the case.

You will get a good value for your money, and can soon get valuable articles FREE, as explained on first pages.

No. 5F1400 The latest idea for a souvenir, the birthday spoon. These spoons are the latest craze. Each spoon represents a different month of the year. The die work is most artistic and represents the figures true to life.

These spoons are sold throughout the country for \$1.50 apiece. But following our policy of one small percentage of profit above the actual cost of manufacture, we offer these birthday spoons to our customers at 95 cents. The spoons are 5 inches long, have French gray handles and gilt bowls.

When ordering be sure to state month desired. Price.....95c

SPECIAL OFFER AT \$3.90

No. 5F20652 Cut Glass Bowl and Mirrored Top Plateau, complete, for the center of the table. The bowl is genuine cut glass, the newest Viola pattern cutting. The bowl is 8 inches in diameter, the plateau is 10 inches in diameter. Weight, about 12 pounds. Price, complete for the two pieces.....\$3.90

OUR SOLID SILVER MEDIUM WEIGHT STATE SOUVENIR SPOONS. PRICE, EACH, 65 CENTS.

JUST THE PROPER THING for whist prizes, birthday presents, in fact, appropriate on any occasion as a gift. In our cosmopolitan cities friends are exchanging souvenir spoons.

THE ILLUSTRATION No. 5F1114 shows the exact size of these spoons. They are solid sterling silver, and are stamped so on the back of each spoon. They are manufactured by the most representative silverware house in the United States. They are of good medium, serviceable weight, and will last your natural lifetime. They are 5 inches long, gray oxidized finish; the bowls are gilt. Each state spoon shows the state seal, together with the state motto and other points of identification, such as some particular point that identifies and is characteristic of that state. Illinois, as shown under No. 5F1114, shows the state seal, together with the main produce of that state, wheat and corn. Michigan her state seal and a woodman hewing timber in the northern woods.

Be sure to order by catalogue number, so as to avoid any possible mistake.

Length, 5 1/2 inches. Mail charges on souvenir spoons, extra, 5 cents; if by insured mail, 5 cents extra. Price.....\$1.65

OUR QUADRUPLE SILVER PLATED HOLLOW TABLE WARE DEPARTMENT.

OUR SILVER WARE IS SOLD WITH A FIVE-YEAR INSURANCE GUARANTEE.

IN THIS DEPARTMENT we have added many new designs and bettered the quality of every piece. The growing demand for the highest possible grade silver plated hollow ware has indicated to us the advisability of bettering our present lines and increasing the number of pieces. We have investigated this branch of merchandise along entirely new lines with this result, that we are able to offer this new line made especially for us, a higher grade silver plated hollow ware than has ever before been offered at prices 20 to 30 per cent less than asked by others for inferior goods. In every instance we find our already small profit reduced to smaller, still we believe that quantities count and through the bettering of this line, that is by increasing the silver deposit, using a higher grade of Britannia metal, will result in increase of sales and therefore greater business for us.

A FIVE-YEAR INSURANCE with our silver plated hollow ware. Every piece of hollow ware when so stated is covered by one of our five-year written binding guarantees. This guarantee goes out with every piece of silver plated hollow ware except when otherwise stated. It is far reaching. It protects you in every direction, makes you absolutely assured that you are owning the best quadruple silver plated ware procurable.

EVERY PIECE OF HOLLOW WARE with few exceptions, listed throughout these pages carries our five-year insurance guarantee. Our five-year insurance guarantee only goes out on such pieces where it is plainly stated. All other pieces we guarantee to be genuine Britannia metal, heavily plated with silver. Every item shows a saving from 20 to 40 per cent over that asked by any other merchant and in every instance represents the best article considering the price, that is to be found on the market.

OUR BINDING GUARANTEE.

WE GUARANTEE this piece of table ware to be quadruple plated and to be made of genuine Britannia metal of the very highest quality white metal compound, plated with absolutely pure silver and we warrant it to retain its silver like appearance, if properly cleaned, and used in ordinary domestic service for a term of five years. We further agree to take back at any time within five years from date of purchase and exchange for new any piece of silver plated table ware sold under this guarantee that shows the silver worn off and exposes the Britannia metal underneath it used as described above.

SEARS, ROEBUCK & CO.

THE ABOVE is practically a facsimile of the guarantee that goes out with our insured quadruple silver plated hollow ware. Different than any other firm in the United States, we know how our hollow ware is made. Different from any other merchant we know our hollow ware is positively quadruple silver plated. Different from any other dealer, we have compared our line of silver plated hollow ware with practically every other line that is shown or comes to Chicago or New York markets, which practically includes every maker, and our stands pre-eminently the best. Therefore, we feel perfectly safe in making this offer, that is, to give a five-year insurance. Notwithstanding the reason of a special engagement with the manufacturer, by reason of our one small percentage of profit system, our prices are less than the trashy premium stuff, so called the triple, double or quadruple silver plated ware offered by others at 30 to 40 per cent more than we ask for ours, which is the very best. Every piece purchased from us represents a double saving to you; a money saving first, because you save money in the original purchase, and because it will outwear from three to four times silver plated ware of inferior quality.

No. 5F1622 Cracker Jar, fancy engraved, satin finish, height, 8 1/2 inches. Shipping weight, about 7 1/2 pounds. Price, \$1.72. Guaranteed for five years.

OUR \$12.60 FOUR-PIECE SILVER PLATED BEADED PATTERN TEA SET WITH TRAY.

QUADRUPLE SILVER PLATED.

Our Four-Piece Tea Set and Tray is an extra special bargain, extra heavy quadruple plate, hand burnished and hand finished, beaded edges, for \$12.60. We sell any of the pieces separately. We bought 950 sets exactly as picture shows from a very large representative manufacturer, who retired from business. \$12.60 really does not represent the market value of this five-piece set, which includes tea pot 8 inches high, sugar bowl 6 inches high, spoon holder, gold lined, 4 inches high; cream pitcher, gold lined, 4 inches high, and tray, 11x15 inches. Remember, that every point, both in quality and finish, in this five-piece set is covered. Positively nothing better on the market. Nothing finer shown by the finest institutions in the country. If you want to own a serviceable, heavy and exquisite tea set together with a server, one that you can be proud to own, we can suggest no better than the one shown above.

OUR \$12.08 POPPY PATTERN TEA SET.

QUADRUPLE SILVER PLATED.

Our New Poppy Pattern Quadruple Silver Plated Five-Piece Tea Set for \$12.08. This is one of the newest up to date patterns on the market, comes in plain polished hand burnished, fancy flowered, raised border and beaded edges. Do not compare this set with cheap silver sets on the market, sold for \$12.00 to \$15.00. Money cannot buy a better quality or finer finished set than the one shown here. It was only on account of a special contract for an immense quantity that we are able to quote this unmatchedable price. Set consists of tea pot 8½ inches high, sugar bowl 7 inches high, spoon holder, gold lined, 5 inches high, and tray, 11x15 inches. We will sell any piece separately of this set if you so desire.

FIVE-PIECE QUADRUPLE SILVER PLATED TEA SET, \$12.36

Order our Five-Piece Quadruple Silver Plated Hand Engraved Satin Finished Tea Set for \$12.36 and compare it with the finest silver tea set that you know of, costing from \$17.00 to \$22.00. If ours is not superior, return it and we will refund your money. Quadruple plate is one plate heavier than triple plate and we guarantee it to wear and give entire satisfaction. You cannot buy a better quality set even if you paid \$17.00 to \$22.00. The set is made from the best Britannia metal, and is hand engraved and satin finished throughout. It has

fancy handles, spout and feet and is finished in a thorough manner. The tea pot is 8½ inches high, capacity about 2 quarts; sugar bowl 6½ inches high, cream pitcher 3½ inches high, spoon holder 3½ inches high, and tray is 11 inches wide by 15 inches long. \$15.70 FOR OUR FOUR-PIECE BLACKBERRY PATTERN TEA SET.

This 1907 Pattern Tea Set was made with the object of surpassing anything that was on the market at anywhere near this price. It is made extra heavy, fluted pattern, finished in the latest French gray finish with blackberry vine trimmings. The body, feet, spout and handles are made of solid Britannia metal, not like some sets now advertised, made of lead and Britannia metal. At \$15.70 for this set nothing equal to this has ever been placed on the market by us or anyone else at anywhere near this price. In offering this set to our customers we give you the benefit of our buying facilities and offer you saving of at least 20 to 30 per cent.

The tea pot is 7 inches high, capacity five half pints. Spoon holder is 4½ inches high and gold lined; sugar bowl is 6½ inches high and the cream pitcher is 4½ inches high and gold lined. We will sell any piece separately of this set if you so desire.

OUR COLONIAL FIVE-PIECE TEA SET, \$25.50.

Our five-piece extra quadruple silver plated guaranteed for 20 years continual wear, Colonial Tea Set, price \$25.50 for the five pieces. The duplicate of this set is manufactured, in solid silver at a cost of \$180.00. It is extra quadruple plated, that is, four distinct platings, with an additional or extra plating put on, really making five contacts with the silver plating solution. It is bright hand burnished, has beautiful applied beaded borders. Sugar bowl and cream pitcher are gold lined. Tea pot and coffee pot have solid ebony non-beatable handles. Coffee

pot stands 6½ inches high, with a capacity of 3 pints. Tea pot stands 7½ inches high, with a capacity of 2 pints. The sugar bowl is 7 inches high and the cream pitcher and spoon holder 5½ inches high. Order one of

\$25.50

our tea sets, send us \$25.50. When you get it examine it carefully. Compare it with any tea set owned by any neighbor or friend, go to any retail jeweler or any merchant in your community handling silverware, whether wholesale or retail, and if our set is not a better set and at less money than what your retail or wholesale merchant will sell this set for or what your friend or neighbor paid for theirs, return it, and we will, upon receipt, refund your money together with the express charges. We will sell any piece separately of this set if you so desire.

No. 5F2825 Quadruple Silver Plated Four-Piece Smoking Set. Made of very heavy Britannia metal with applied beaded border. Please notice the cigar lamp which we send with this set. It has an alcohol lamp with colored glass. Height, 8½ inches; diameter of plate, 8 inches. Price, for complete set, four pieces, \$5.00. Shipping weight, about 3 pounds.

No. 5F2824 Tilting Table Tea Kettle, nickel plated, complete with stand lamp and kettle. One of the most handsome table kettles ever placed on the market. Height, complete, 12 inches; diameter of base, 6½ inches; capacity of kettle, 2½ pints. This kettle is full nickel plated, hand made throughout and will give absolutely perfect satisfaction. Price, \$5.48. Shipping weight, 8 pounds.

No. 5F2826 Alcohol Flagon, air tight, pours when you press the knob on handle; nickel plated. Something very substantial, makes a very handsome adjunct to a chafing dish outfit. Capacity, ½ pint. Price, \$1.65. Shipping weight, 3 pounds.

No. 5F2760 Salt and Pepper. Imitation cut glass effect, with silver plated top. Height, 3½ inches. Price, per pair, 35c. If by mail, postage extra, 16 cents.

No. 5F2764 Quadruple Silver Plated Bouquet Holder or Flower Vase. The base is made of heavy Britannia metal, quadruple silver plated and hand burnished. The crystal glass is a very good imitation of genuine cut glass. Stands 10½ inches high. Price, \$4.66. Shipping weight, 4 pounds.

A POINT OF INFORMATION. Pure solid silver will tarnish. Coal gas, smoke, even the atmosphere will cause silver to oxidize, that is, turn dark. This does not denote that it is of inferior grade or poor manufacture. Silverware to be kept bright and clean, should be polished from time to time.

No. 5F198 Silver Sunshine is unquestionably the purest and best silver polish made, contains no acid and will not scratch. Cannot be sent by mail. Price, per ½-pint bottle, 22c.

No. 5F200 Silver Sunshine Powder, for silverware, cut glass china, etc. Contains no acid and will not scratch. If by mail, postage extra, per box, 4 cents. Price, per dozen, 78c; per box, 7c.

GENUINE CUT GLASS.

Many of the patterns illustrated this year are brand new from the cutter's hand. Every piece bright, sparkling, scintillating and attractive. Prices reduced again, notwithstanding finer, richer cuttings have been added to the line. Never before in the history of cut glass have such magnificent pieces been offered at our prices. Take any catalogue that you get, any advertising from any periodical or newspaper, go to your local merchant and compare our cut glass with what they are offering. Compare the brilliancy and intricacy of cut, and if ours is not superior in every way and if you do not save money besides, return it to us, and we will cheerfully refund your money together with transportation charges. Our cut glass is conspicuous because of the clearness of the crystal and well defined sharp edges in the cutting, the total absence of cracks, flaws and blemishes, and above all the remarkable brilliancy of each piece. No dining room or table complete without some cut glass. No tableware has become so popular in such a short time as beautiful cut glass. Yet, on account of our one small per cent of profit system, our remarkable purchasing power, on account of our immense outlet, we are able to sell this absolutely perfect line of cut glass at prices that some merchants ask for pressed imitation cut glass. We guarantee each piece to reach destination in perfect condition.

Fruit or Salad Bowl. Genuine hand cut glass, in the Chrysanthemum pattern, the most delicate and up to date pattern on the market. The cutting is exceedingly heavy and is perfect in every detail. Weight, packed ready for shipment, about 7 pounds.

Our \$3.00 Corona genuine hand cut glass Bowl, 6 inches in diameter. This bowl for \$3.00 represents a value at least 25 to 30 per cent more than we ask. Every piece of cut glass we sell, even though as cheap a bowl as \$3.00, is thoroughly inspected and is guaranteed to be entirely free of faults and flaws and in every way as described. Shipping weight, 8 pounds.

No. 5F20385 Price.....\$3.00

Fruit, Berry or Preserve Bowl. 8 inches in diameter, genuine cut glass, extra heavy weight, in the Sunburst pattern. This beautiful cut glass can hardly be described. The cuts are extremely deep and the design is becoming so popular with our trade that we are now able to purchase this bowl in lots of thousands, thereby getting them at a very small percentage above the actual cost of manufacture and we give our customers the benefit. This bowl on a 10-inch plateau, as illustration shows, is one of the most beautiful and valuable wedding presents. Shipping weight, 12 pounds.

No. 5F20414 Price for complete set.....\$5.95

No. 5F20416 Price for bowl without plateau.....\$4.88

Our Chrysanthemum pattern 8-inch genuine cut glass Bowl for \$4.80. This bowl is 8 inches in diameter, genuine hand cut glass, and in every way as represented. The plateau is 10 inches in diameter with metal base which amply protects the edge of the mirror. Weight, packed ready for shipment, about 12 pounds.

No. 5F20396 Price for complete set.....\$4.80

No. 5F20398 Price for bowl without plateau.....\$3.75

Our wonderful \$5.85 fancy fluted square shaped pointed edge Bowl. This bowl is one of our challenge bowls, made especially with a view of producing at \$5.85 a bowl unequaled in the market, a bowl that jobbers would want no less than \$7.00 to \$9.00 for. This bowl is 8 inches in diameter, is genuine hand cut glass, brilliant and scintillating, a bowl we take particular pride in offering. Shipping weight, 8 pounds.

No. 5F20418 Price.....\$5.85

A handsome Venus genuine hand cut glass 8-inch Bowl for \$6.30. Complete with metal bottom plateau, as illustration shows. This Venus pattern bowl we consider one of the biggest bargains in our entire cut glass department. The glass is extra thick, free of any faults or flaws, one of the most attractive up to date cuttings in the market. Yet on account of our wonderful quantity buying powers we are able to sell you this entire set, which includes bowl and plateau, for \$6.30, at least 10 to 15 per cent less than what the average merchant pays for it. Shipping weight, 12 pounds.

No. 5F20424 Price for complete set.....\$6.30

No. 5F20426 Price for bowl, without plateau.....\$5.25

Our Iris pattern genuine hand cut Bowl for \$8.45. The Iris pattern is one of the very latest patterns in glass cuttings. This bowl represents the highest degree of efficiency in glass cutting. It is one of the most brilliant, one of the most gorgeous bowls in the market. Yet we are able to sell it, after our one small percentage of profit, system for \$8.45. A smaller bowl and one of inferior quality would bring in an average store no less than \$14.00 to \$16.00. This bowl is 8 inches in diameter. Bowl packed ready for shipment, weighs about 8 lbs.

No. 5F20435 Price.....\$8.45

Genuine cut glass Sugar Bowl and Cream Pitcher in the Chrysanthemum pattern. We particularly call your attention to the beautiful design as well as the deep cutting in this very popular sugar bowl and cream pitcher. Stands 3 inches high. Shipping weight, 6 lbs.

No. 5F20545 Price for complete set.....\$3.24

Genuine cut glass Sugar Bowl and Cream Pitcher in the Corona pattern. This beautiful pattern must be seen to be appreciated. The cuttings are extremely heavy and the very highest polish possible is put upon this line of glass. Stands 3 inches high, with jeweled notch handle. Shipping weight, 6 pounds.

No. 5F20548 Price for complete set.....\$3.98

Sugar and Cream Set, Sunburst pattern, two pieces, genuine cut glass, extra heavy weight, cutting reaches from the very base to the top edge. The cutting in this set is extremely heavy and is finished in the very best possible manner. A sugar and cream set others would charge double the price. We offer this extra high grade article at a very remarkable low price. The design of this set shows the brilliancy to a very marked degree. The handles are jeweled notch handles. Depth of sugar bowl, 3 inches; depth of cream pitcher, 3 1/2 inches. Weight packed ready for shipment, about 6 pounds.

No. 5F20552 Price for complete set.....\$5.95

Our \$8.60 8-piece Cut Glass Water Set, which includes six fine hand cut full size tumblers, standing 4 inches high, and full one quart hand cut water bottle, which stands 8 inches high, and a very fine fancy edge, double quicksilvered mirror, 14 inches in diameter. Don't compare this with the cheap shoddy so called genuine cut glass extensively advertised through the newspapers and periodicals. This, our \$8.60 8-piece set we guarantee to be unequalled and, as represented, genuine cut glass, no skinning in the cutting, size or weight; in fact, just such a set as you

will see in fine jewelry stores quoted at \$12.00 to \$15.00. This set, packed ready for shipment, weighs about 20 pounds.

No. 5F20602 Price for complete 8-piece set.....\$8.60

No. 5F20626 Tumblers only. Price, each94

The Sunburst pattern, genuine hand cut 8-piece Water Set for \$12.78, a price never before heard of for this exquisite intricate pattern. The tumblers stand 4 inches high, each one most elaborately cut all around as close to the very edge as possible and practical. The bottle stands 8 inches high, and has a capacity of one quart. The plateau on which this set stands is 14 inches in diameter, has fine quicksilvered mirror with metal base and cut notched edging. The Sunburst cutting, the most elaborate cutting of all. Nothing more exquisite, nothing more attractive is possible in hand cut glass water sets. This is the pride of all of our sets, our challenge set. The same set shown by your merchant could not be delivered for less than \$16.00 to \$18.00. The tumblers alone are worth \$18.00 a dozen if marketed in the regular way through regular channels. This set, packed ready for shipment, weighs about 20 pounds.

RELIGIOUS CEREMONIAL ARTICLES OR ECCLESIASTICAL GOODS FOR HOME, PERSONAL AND CHURCH USE.

WE IMPORT DIRECT FROM EUROPE every article illustrated under this heading. We therefore save you the profit made by wholesaler and retailer. We are satisfied with one small percentage of profit, less than the profit made by the importer. Compare prices and you will be astonished. Never before has this merchandise been offered at anywhere near what we ask, we save you no less than one-half. Different from any other line of ecclesiastical goods shown on the market, ours have been made with the idea of bettering lines heretofore shown. The bisque is of finer material, the tinting and gilding of a more lasting quality, the celluloid and silver plated goods as fine as artists can turn them out, and yet our prices are less than any competitor's. We desire particularly to point out the advantages of buying your rosaries from us. Our prices are really one-half of what others are asking. The majority were made under special contract for us in Europe, especially selected beads, each one large and perfect, special care in stringing them, special care in the finishing of them. We guarantee every rosary we sell to be exactly as represented and if after examination you are not pleased with them, or do not want them or they are in any way different from what you supposed them to be after reading our description and comparing our goods, return them and we will at once refund your money together with transportation charges.

Our \$2.20 Cabinet Clock.

Five-Year Written Guarantee Sent With This Clock.

No. 5F3096 THE AMSTERDAM Cabinet Clock. This clock stands 22 inches high and is 15 inches wide. Made exclusively for us by one of the four big clock manufacturers. The case is made of solid oak only, not veneered, or painted to imitate oak, but solid oak through and through. The illustration shows you, but in a very faint way, the beautiful floral design worked out in the wood. The movement is manufactured by one of the most representative clock companies and carries with it our own special written binding guarantee for a term of five years. It runs eight days with one winding, strikes the hours and half hours. Dial, 6 inches in diameter. We would particularly advise purchasing this clock, as we know that it is, without the shadow of a doubt, the greatest clock value ever offered. You positively will be more than pleased with your purchase should you favor us. Weight of clock, boxed ready for shipment, about 15 pounds. Price.....\$2.20

No. 5F3098 With alarm attachment. Price.....\$2.40

The Netherlands, \$2.64.

Five-Year Written Guarantee Sent With This Clock.

No. 5F3099 THE NETHERLANDS. We cannot tell you the maker's name on account of the special cut price, but we can tell you that it is manufactured by one of the four big clock companies in the United States, and we guarantee it to give entire and absolute satisfaction. Our written binding guarantee goes with every clock sold. This clock is made of solid oak only, guaranteed not veneered or stained to represent oak, but is solid oak through and through. The clock stands 22 inches high and is 15 inches wide. The illustration does not, by any means, give you any idea of the beautiful effect this clock has. The movement runs 8 days with one winding, strikes the hours and half hours, and has calendar attachment, showing the days of the month, likewise has barometer and thermometer, indicating at all times the temperature and enabling you to anticipate the changes in the weather. Dial, 6 inches in diameter. Our price for this specially made clock is \$2.64. Don't think that because we have named such a wonderfully low price on this clock that it is not the best on the market. Money cannot buy a better clock, no matter what price you pay for this style of clock. This price is possible only for the reason that we maintain our one small per cent profit policy and on account of a special arrangement with the factory for an immense quantity at a remarkably low price, as and always, we give you the benefit of this remarkable purchase. Weight of clock boxed ready for shipment, 15 pounds. Price.....\$2.64

**This Eight-Day Clock for \$1.85.**

5-Year Written Guarantee Sent With This Clock.

No. 5F3126 8-day clock with calendar, thermometer and barometer attached, called the Prophet. A new addition to our extensive line of guaranteed clocks, made under special contract for us by one of the four great clock companies. Our guarantee for a term of five years goes with every one sold. The manufacturers' name does not appear on it. It was made for us not with the idea of making similar clocks on the market, but rather to improve on any heretofore manufactured. The idea being not how cheap a clock could be produced, but rather how fine a one for the price. Clock stands 44 inches high, width, 15 inches; has 6-inch dial. The case is handsome carved oak. We do not supply in walnut nor can it be had with alarm attachment. This clock is especially adapted as a wall clock, having a shelf attachment. Runs eight days with one winding on a wire bell, likewise shows day of the month, temperature, and changes of the weather, having calendar attachment and supplied with barometer and thermometer on either side of case, as illustration shows. The movement is of oil tempered hand rolled steel and brass, pivots and all friction gear being well polished to avoid friction, thereby increasing its ability as a timekeeper. Weight, boxed ready for shipment, 18 pounds.

\$2.65 Buys a Calendar Clock with Barometer and Thermometer.

No. 5F3166 THE GIBSON. Calendar 8-Day Clock with thermometer and barometer.

This clock is one of the greatest bargains that we have ever been able to offer to our customers. It can be furnished in black walnut or antique oak case, as desired. The height is 24 inches, dial, 6 inches. The movement is one of the best made by the Waterbury Clock Co. Runs eight days with one winding and strikes the hours and half hours. It is warranted to be an accurate timekeeper. Has a complete calendar attachment which works automatically and always indicates correctly the day of the month.

It has a perfect thermometer on one side and on the other a barometer. We cannot furnish it with alarm. Weight of clock, boxed ready for shipment, 17 pounds.

Price.....\$2.65

\$2.48 for a Musical Alarm Clock.

One of the newest novelties on the market. We import them ourselves direct. This clock plays one tune for about ten minutes instead of ringing a bell. What is more beautiful than to be awakened from sleep by hearing a beautiful tune being played instead of the harsh, clanging sound of an alarm bell. This clock stands 7 inches high, 5 inches wide with front arabesque ornamentation around dial, full nickel plated brass frame with glass sides so that the movement and its action is visible at all times.

The movement is a very fine one imported from Germany. The musical attachment is ingeniously hidden at the bottom of this clock, and is so arranged that when the clock is set at a certain time, instead of the alarm from a bell being heard, a beautiful tune is played. The device is simple and strong in construction. The danger of it getting out of order is very remote. With care, that is if the clock is not handled or played with, but merely wound and set, and placed on the mantel shelf or bureau should last for many years and give entire satisfaction. Construction is so simple, the parts are so well made that there should be no trouble in getting entire satisfaction, both for timekeeping and for music part combined. \$2.48 is a remarkably low figure for such a unique piece of clock mechanism, and this price is only possible on account of our one small percentage of profit system, and the fact that you are owning it exactly at what wholesalers would own this clock, as we import them ourselves direct, saving all the different handling expense. Weight of clock packed ready for shipment about 2½ pounds.

The Conqueror.

\$4.70 for a genuine Waterbury hard enameled eight-day bronze ornamented large size mantel clock with solid bronze figure.

This is our special offer, \$4.70 for this grand clock, and we challenge any manufacturer, jobber or retailer to duplicate it.

We ask for comparison. We want you to investigate. Write for prices. Never before has such a value in a clock, marked with the name of one of the greatest clock manufacturers been offered. The Conqueror, so named because it beats any clock on the market. Height, including figure, 23 inches; width at base 17½ inches; depth, 8 inches; height of clock alone, 11 inches. It is durably made of hard seasoned wood, guaranteed not to warp or crack, beautifully hand black enameled to imitate black marble, and trimmed in colors to imitate the lighter Mexican onyx.

A special feature of this clock is the secret process of enameling. It is guaranteed not to peel or chip off. A rag slightly moistened with oil keeps it as new for a lifetime. This clock is magnificent in its bronze metal ornamentation, which includes the heavy one-inch border all around the clock just above the base, massive bronze feet and massive side bronze scroll ornaments. The dial is plain but still beautiful, with bright finished gilded sash.

The Waterbury Clock Co. guarantees the movement in this clock to give perfect satisfaction. It runs eight days with one winding, strikes the hours on a cathedral gong and the half hours on a cup bell. No clock but what is absolutely perfect in going and timekeeping is allowed to leave this splendidly organized factory. The manufacturer, by reason of a big contract, reduced his profits to a mere fraction compared to what he generally makes, and we, following out our accustomed rule and method, have added only our one small percentage of profit. Weight of clock, boxed ready for shipment, 20 pounds.

\$3.65 for Our Prince Elias.

\$3.65

OUR PRINCE ELIAS, the newest clock out of the factory, exactly in every particular as illustration shows, for \$3.65. Don't think that you will not get or cannot buy from us a fine clock for this price. In fact, this price is no criterion. The clock is really worth twice as much. Your local dealer or the jobber he buys it from would pay 25 to 45 per cent more than we ask you for it. In other words you would have to pay your local dealer for a clock as good as this and as handsome as this one, from \$5.00 to \$6.00. This clock is made expressly for us by the Waterbury Clock Co., of Waterbury, Conn. Each one of them is thoroughly guaranteed and we warrant them to give entire satisfaction.

DESCRIPTION OF CASE. The case is made of wood, covered with a secret prepared enamel, imitating black marble. It is guaranteed not to chip or wear off and always retains its deep black marble-like appearance. It has handsome gilt feet, marbleized gilt metal capped and gilt metal based columns, beautiful gilt scroll metal work at top and base. The sides are also ornamented by two gilt metal designs, exactly as the illustration shows. The dial is very pretentious, made of metal fancy work and is 5 inches in diameter.

DESCRIPTION OF MOVEMENT. The movement fitted in this case is one of the Waterbury guaranteed movements, runs eight days with one winding. It is made of the finest tempered steel and hand wrought brass. It strikes the hours on a cathedral gong and the half hours on a brass bell. You can always know the time without seeing the clock. The hands are very fine hand sawed blue steel of the fleur de lis pattern. Shipping weight, 16 pounds.

No. 5F3302 Price.....\$3.65

Our Queen Clyde Mantel Clock, for \$2.68.

\$2.68

Never before in the history of the clock business was ever such a fine clock offered for this price, \$2.68.

Description of case. The clock case is of wood, well seasoned and guaranteed not to warp or crack, it is enameled in black, then polished to a high gloss.

The ornamentation. A beautiful gilt border of the rococo pattern made of metal sets off the top. This is entirely a new idea in clock ornamentation, no other clock has it. The front of the clock on the base is ornamented by three beautiful gilt metal scrolls, two fine columns, one on each side of the dial, made in exact imitation of marble, lend a rich appearance to the clock; the dial is 5½ inches in diameter with ornamented sash.

This clock stands 10½ inches high and is 12½ inches wide at the base.

The movement is manufactured by one of the most representative clock makers in the United States. On account of the cut price we cannot give name. It runs eight days with one winding, strikes the hours and half hours on a soft toned gong. Weight, packed ready for shipment, about 14 pounds.

No. 5F3305 Price.....\$2.68

Remember, you get a **VALUABLE PROFIT SHARING CERTIFICATE** for the full amount of your purchase. See the front of book for what you get Free for your Certificates.

\$31.50

No. 5F3308 \$31.50 for our genuine mahogany Grandfather's 8-day Clock, exactly as illustrated, exactly as described below. The same clock costs the retail merchant, if he pays cash for his goods, \$35.00 to \$38.00. This very handsome clock is not an imported one, but is an American production, American case and American movement. We are able to make this price because we assemble the clock ourselves, that is, we have had the case made under our specifications, and the movements we buy direct from the clock companies. We put the parts together and are able by this handling to save 25 to 30 per cent in the purchase. According to our customary rule, we give you the advantage of it, which means no less than \$15.00 saving to you. The dimensions of the clock stand 7½ feet high, 11½ inches wide at base; 13½ inches deep; dial is 12 inches in diameter. The case is made of mahogany, beautifully finished and polished. No rough edges, no unfinished joints, in a perfect masterpiece of the joiner's art. As illustration shows, the clock is beautifully ornamented by solid fancy turned top ornament and side pillars. The crystals in this clock are all the finest beveled edge, firmly set in strong sashes hung on double hinges. The movement is a genuine American made movement, runs eight days with one winding; not a spring movement used in many cheap and shoddy clocks now on the market and advertised extensively in newspapers and periodicals as mission, grandfather's clock, etc., but is a genuine weight clock; that is the motive power which operates this time piece is two fine brass weights. This mechanism when properly constructed is such that it insures the most accurate possible time, and is used by the big conservatories where accurate time without variation is required. Black numerals and fine blue steel hands lend a handsome touch to the clock. Interior clocks sold as high grade have poorly penciled numerals and poor clock hands. The pendulum is 32 inches long, and is visible. The glass front makes it possible to see the swaying of the brass pendulum and the two weights hung on chains, one of the charms in a grandfather's clock. The movement is especially tested and tried before it leaves the factory and again before we make shipment of same. It is thoroughly oiled and regulated and we guarantee it to reach destination in perfect running order. Don't think because of this unheard of price for such a handsome grandfather's clock, \$31.50, that this clock will not wear a lifetime. With proper care we guarantee it to be serviceable and to keep good and accurate time for the lifetime of any human being. In fact, the face of this clock purchased through any other channel in the regular way could not be procured for double of what we ask. Weight, boxed and crated ready for shipment, about 180 pounds.

Regular Eight-Day Clock with Perpetual Calendar Attachment for \$5.80.

No. 5F3310 This clock is manufactured by the Waterbury Clock Company in either oak or walnut. Stands 28½ inches high. It runs 8 days with one winding, strikes the hours and half hours on a cathedral gong. It has the calendar attachment as shown on the lower dial, which is a perpetual one, marking even the leap years without having to be reset. The dials are 8 inches in diameter. This clock is particularly adapted for dining rooms, libraries and offices. We warrant it to be an accurate timekeeper. The parts are made of finely wrought brass and oil tempered steel, most accurate for timekeeping, and giving it great durability. The case is beautifully hand engraved and embossed. The glass in the door is decorated in black and gold. See our price, \$5.80. We absolutely guarantee it to give satisfaction. Weight, boxed for shipment, about 25 pounds.

Price.....\$5.80

Our Challenge Clock at \$3.20 For Church, School or Store Regulator.

This clock is made by the Gilbert Clock Co., and is one of their latest productions. The case is made of golden oak, ornamented with hand carvings throughout. The movement is made of solid brass with oil tempered steel parts. The clock runs eight days with one winding, has long wooden pendulum with brass ball which can be lowered or raised so as to regulate the clock. The clock stands 37 inches high, 15½ inches wide and has a 12-inch dial.

No. 5F3711 OUR COUNTESS JANET Mantel Clock. The most wonderful bargain ever offered in the United States. This mantel clock is made of wood, then hand enameled in black with marbled ornamentation, exactly as illustration shows. Stands 10½ inches high, 7½ inches deep, 16½ inches wide. Has gilt metal feet, side ornaments and tops and bases of the two columns on front of clock. It has an eight-day movement, strikes the half hours on a bell, and the hours on a gong. The dial is 5½ inches in diameter, with plain numerals; the dial ash is the latest Parisian pattern. This is one of the most wonderful values offered. It was made especially for us, and carries our five-year binding guarantee. We cannot divulge the maker's name on account of the low price quoted. The movement will give particularly good satisfaction, it is of hard rolled brass and oil tempered steel parts. All friction in the train and delicate running parts has been reduced to a minimum, thereby giving it a life of accurate time keeping not possible in other clocks. Weight, 18 pounds. Price.....\$3.62

Beautiful Mantel Clock for \$5.25.

No. 5F3723 THE PATMOS. A very handsome mantel clock, a most excellent imitation of Mexican onyx, and unless it is examined very closely no one would believe that it was not a real onyx clock. It holds a beautiful polish and with proper care will last a lifetime. If the case gets soiled or dirty it can be wiped off with a damp cloth. Has fancy bronze feet in artistic design and side dragon head metal ornaments. Length of clock, 17 inches; height, 11 1/4 inches. Has an eight-day movement, made by Seth Thomas Clock Company. Strikes hours on a cathedral gong and half hours on a cup bell. Weight, boxed, about 16 pounds. Price.....\$5.25

5-Year Guarantee Sent with this Clock.

hours on a sweet toned gong. It is manufactured by one of the most celebrated clock companies in the United States. On account of the low price quoted here, we cannot print the maker's name. The movement, as in all of our own special clocks, is made of hardened rolled brass and oil tempered steel parts. The bearings and all intricate and delicate parts, where friction reduces the wearing ability, are so constructed that it is reduced to a minimum, therefore we know our special line of clocks will outwear any on the market and give accurate time. This clock is the most massive and most pretentious and biggest value for the money ever before offered. Clocks sold by the makers of this clock, of similar design but not so massive or elaborate, bring from the retail jewelers and from the jobbers from 25 to 30 percent more than the price we ask. Just compare this with others, and we are satisfied that we will get your order. Weight, boxed for shipment, 18 pounds. Price.....\$4.45

At \$4.50 We Defy Competition.

No. 5F3900 Our new eight-day, striking, black finished, six column Waterbury Clock for \$4.50. The case is of hard black enameled wood, not a joint, crack or crevice to be found in any part of it. It is warranted to give entire and absolute satisfaction. A cloth slightly moistened with sweet oil will keep this clock in its pristine beauty for many years. Six columns, made to imitate Mexican marble and ornamented with gilt tops and bases, ornament the sides. This is a new idea in clock ornamentation. The feet are of fine gilt metal with beautiful scroll work, which lends a fancy and charm to this clock rarely equaled. The sash which holds the dial is of fine gilt brass 5 1/2 inches in diameter. The dial is plain and distinctly marked with Roman numerals and fitted with fine fleur de lis hands. The clock stands 10 1/2 inches high, the base from foot to foot, 15 1/2 inches wide, depth, 7 inches. The movement is manufactured by the Waterbury Clock Co., Waterbury, Conn., and is tried and timed and guaranteed in every respect runs eight days with one winding, strikes the half hours on a brass bell and the hours on a cathedral toned gong. It is made of fine hard wrought brass, oil tempered steel parts, and with care will wear and keep time for a lifetime. Weight, packed for shipment, about 20 pounds. Price.....\$4.50

\$4.50

Our Leader. \$14.46 for this \$25.00 Clock.

No. 5F3904 A genuine French pattern American made full polished, solid gold plated brass eight-day, crystal clock and the highest possible degree of perfection in clock making, for \$14.46. A steady inquiry and a persistent demand for a high grade crystal sided clock, such as is here illustrated, impelled us to have made under special contract this beautiful highly polished solid brass beveled crystal glass sided clock at a special price for a large quantity. The case is solid brass, heavily gold plated, has the rich Californian yellow pure gold finish. The case stands 10 1/2 inches high, 4 1/2 inches deep with a 6 1/2 inch base. The front, back and sides are paneled, as illustration shows, with the finest beveled edge crystal glass, free from any blemish, flaw or defect. The front of the clock opens, has a patent safety catch, swung on an extra strong pivoted steel hinge. By this arrangement the clock is practically dustproof. The movement is manufactured by the Waterbury Clock Co. The duplicate, made in France and imported to this country, would cost no less than \$40.00 to \$50.00. The steel parts, pivots, pinions and wheels are all made in the highest possible perfection. No part, no piece left unfinished or unpolished, even the screws used throughout are blued and screw tempered. The pendulum is of the attractive regulator style, being an imitation of the accurate going mercury pendulum, an exact imitation of a pendulum that would cost no less than \$10.00 to \$15.00. It can be adjusted so as to regulate the time of the clock to the closest degree of accuracy. The clock runs with one winding full eight days, has a fine blue steel wire gong. The strike is so beautifully toned and mellow that it resembles the stroke of a cathedral bell when heard from a distance. The dial is of solid kiln burnt porcelain with Arabic numerals. The hands are the fleur de lis pattern, extra hard and blued. The clock has a fine French visible escapement fitted with two genuine cut garnet stones. No soldering, no swedging, no riveting contained in this clock. Everything of the highest clock making perfection. All parts fastened by screws. Every piece can be detached and every piece or part of it can be examined; yet all we ask for this absolutely perfect piece of timekeeping mechanism and most beautiful appearing clock is \$14.46, a price unheard of before for a clock of this type or quality. Weight, packed for shipment, about 12 pounds. Price.....\$14.46

5-Year Guarantee sent with this Clock.

No. 5F3917 OUR AMERICAN LADY MANTEL CLOCK, manufactured by one of the biggest and most representative makers in the United States, but in account of the very low price quoted, we dare not print the maker's name. However, it carries our 5-year written binding guarantee, and we know you will be entirely satisfied with it. This clock stands 10 1/2 inches high, 7 inches deep and 17 inches wide. It has solid gilt bronze ornaments; also metal top and base on the four columns, as illustration shows. The dial is 5 1/2 inches in diameter, the very latest pattern of fancy fret work, with a beautiful roccoco sash. The case is of wood, black enameled, warranted not to peel, chip or crack off. A soft woolen cloth, sprinkled with sweet oil, will keep it as new, practically, for a lifetime. The movement runs eight days with one winding; strikes the half hours on a metal bell and the hours on a soft toned gong. This, our American Lady mantel clock, is one of the special bargains we have referred you to in our description on page 123. If this clock suits your taste (we refer to the design), we know that a better clock or a greater value for the money cannot be had for twice what we ask. We are particularly proud of the movement used in this clock, as it is made of solid hardened rolled brass and oil tempered steel parts. The bearings and other delicate parts are so constructed that the friction is reduced to a minimum, therefore, the life of the clock is greater than any other. Weight, boxed for shipment, 18 pounds. Price.....\$3.98

DEPARTMENT OF GUNS, REVOLVERS AND AMMUNITION.

the largest dealers in guns, revolvers and ammunition selling direct to the consumer, and owning our own gun and revolver factory, we are able to offer you such values in this line as were never before heard of. We give you higher grade fire arms than were ever offered in any catalogue and save you so much money on your purchase that you could not possibly afford to buy elsewhere.

JR MANY YEARS we have been headquarters on guns, revolvers and ammunition, building up a steadily increasing trade by reason of asking only a very small profit above our cost and our trade has grown so much that we have been enabled to build, equip and maintain a very large arms manufacturing plant located at Meriden, Conn., where our own guns and revolvers are made, those re arms in which we can by reason of having our own factory offer you so much in high quality and save you so much by reason of the low price.

WE ESTABLISHED OUR OWN FIRE ARMS FACTORY principally for two reasons: first, in order that we might have several profits for our customers and furnish them this line direct from the factory, and second, that we might be enabled to more thoroughly control the quality of the fire arms we offer. For in this great fire arms factory at Meriden, Conn., we turn out only high grade arms, use only the very best material and employ the most skilled artisans. Only in this way can we furnish our customers such high grade goods which we can so thoroughly guarantee.

THE MERIDEN FIRE ARMS COMPANY at Meriden, Conn., is a factory that we own and control. You can get an idea of the size of this factory from the next illustration. It consists of five buildings, one 3-story building 30x200 feet, one 3-story building 30x70 feet, one 1-story building 50x125 feet, one 3-story building 30x140 feet, one 4-story building 40x100 feet. It is erected in the center of the fire arms manufacturing district where the skilled labor for this line can best be secured and where the expenses of operating are reduced to the minimum. It is conveniently situated as regards transportation. The plant is equipped with the highest type of gun and revolver making machinery, every machine that reduces labor and therefore expense, and we believe it is the most complete and most ideal fire arms factory in the world. Our output is so large that we reduce the cost of our materials and the Meriden Fire Arms Company is able to operate continuously every day of the year, all of which tends greatly to reduce manufacturing cost.

Our Gun and Revolver Factory at Meriden, Conn.

MR. A. J. AUBREY, who is known as the designer and maker of some of the highest grade guns on the market, is in charge of the factory. Mr. Aubrey is vice president and general manager and through his experience combines the ability to produce the highest grade fire arms at the smallest possible manufacturing cost. In this factory quality is the watchword. Every gun and revolver is carefully inspected and tested and must come up to certain specifications, a certain high standard of quality and in this way we can positively guarantee the quality of every gun and revolver we turn out.

OUR TWENTY YEAR GUARANTEE, A GUARANTEE NOT GIVEN BY ANY OTHER MANUFACTURER OR SELLER IN THE LAND.

TO SHOW THE HIGH QUALITY of our fire arms and our confidence in the guns we turn out at Meriden, Conn., we issue this twenty year guarantee with every gun made by the Meriden Fire Arms Company. This illustration is a reduced facsimile of the guarantee we issue and by its terms and conditions we guarantee the gun twenty years, guaranteeing its quality and workmanship and agreeing to replace or repair, free of charge, any piece or part that gives out at any time within twenty years through a defect in material or workmanship.

REMEMBER, this twenty year binding guarantee goes to you if you buy an Aubrey gun. It is sent with the gun we ship, protects you in every way, assures you that you have a strictly high grade fire arm guaranteed for twenty years, a guarantee that you cannot get from any other dealer. We have gone so much further on the question of quality in guns, we use such a high grade of material throughout and employ such skilled mechanics that we are able to place on every gun this seal of our confidence, our written twenty-year guarantee that protects you in every way.

HOW TO ORDER. Select the gun you want, be sure that you give the right catalogue number, the gauge and length of barrel wanted, enclose our price and send your order to us and if the gun is not perfectly satisfactory when received, you can return it to us at our expense and your money including the express or freight charges you paid will be immediately refunded. You take no risk whatever in ordering from us, for if we do not furnish you with a better gun than you can buy elsewhere and at a much lower price, you can return it to us at our expense and all your money, including transportation charges you paid, will be promptly returned to you.

Certificate of Guarantee

This certifies that the Gun the name and number of which has been registered is made of strictly high grade materials by skilled mechanics. We guarantee it for twenty years and if any piece or part gives out by reason of defect in material or workmanship during that time, we will replace or repair it free of charge.

Meriden Fire Arms Co. *Fred Briffel* President.
A. J. Aubrey Vice President.

WE LET YOU SHARE IN THE PROFITS OF THIS BUSINESS, and you cannot afford to buy elsewhere. Our prices are guaranteed lower than those asked by any other concern, our goods are guaranteed the highest quality, we guarantee to save you money on every purchase and you get a Profit Sharing Certificate good for something valuable shown on the first pages.

\$49.75 WORTH \$125.00

This is the Genuine A. J. Aubrey Made to Order Hammerless Double Barrel Breech Loading Shotgun, made in our own factory, the Meriden Fire Arms Company, of Meriden, Conn., and offered to you at \$49.75, under our guarantee that it is in every way the equal of any double barrel hammerless breech loading shotgun you can buy elsewhere at \$125.00, and our \$49.75 price barely covers the cost of material and labor, with but our one small percentage of profit added. This is the exact same style of gun, all working parts the very same as the lower priced hammerless A. J. Aubrey guns illustrated and described in detail on the following pages. This gun differs in that it has the finest five-blade Damascus steel barrels, that it is very elaborately finished, that it is elaborately hand engraved on locks, frame, guard, barrels, trimmings, etc., it has a beautifully selected, imported English or Italian walnut stock, handsomely checkered, ornamented and finished, and is, in fact, in every way the equal of any hammerless gun you can buy elsewhere for \$125.00.

MADE TO ORDER. Our \$49.75 and \$69.00 guns are made to order. When a customer selects a gun at this price he usually has certain ideas how the gun should be built, so we show only the style of engraving. The barrels will be best quality five-blade Damascus, the stock will be carefully selected and of a high order close grain and figured English or Italian walnut, and special attention will follow these guns through the entire operations and only our most skilled workmen will be put on them under Mr. Aubrey's supervision. Send us \$49.75, send us the length, weight, drop of stock at butt and comb and the kind of choke wanted, allow us four to six weeks time and this gun will go to you exactly as you order it.

No. 6F60 The A. J. Aubrey Special Made to Order Hand Engraved, Five-Blade Damascus Steel Barrel 12-gauge Gun, 30 or 32-inch barrels; weight, 7½ to 7¾ pounds. **\$49.75**
Our special price.....(Weight, packed for shipment, about 14 pounds).....

\$69.00 WORTH \$150.00

Our \$69.00 Aubrey Hammerless Double Barrel Shotgun is made to order. When a customer orders a gun at this price he usually wants some special features, and these we are prepared to furnish. Send us your order, enclose our selling price of \$69.00, send us the weight, length of barrels, length of stock, say which kind of choke you prefer, drop of stock at butt and comb, allow us six weeks to two months time and we will build this gun for you and it will be equal to any gun which you can get from any other house at \$150.00, and will be just exactly as you order it. All our \$49.75 and \$69.00 guns will be built to order. We put our most skilled workmen on these guns. Select the finest material and steel, also the finest wood for the stocks, and all will go through under the personal supervision of Mr. Aubrey. This is the finest A. J. Aubrey made to order hammerless double barrel breech loading shotgun made, the most elaborately hand engraved, most beautifully finished, the highest grade American gun made, regardless of name, make or price; has the very finest six-blade Damascus steel barrels, finest imported English or Circassian material figured, close grained walnut stock and fore end possible to produce; the hand engraving is the most elaborate shown on any gun made in this country or in Europe, elaborately hand engraved locks, frame, barrel, breech, guard, etc. In the mechanism the locks, locking bolts, mechanical construction are identically the same as the Aubrey gun shown in large illustrations on the following page. It is positively the finest gun we make, the equal of any gun made, regardless of price.

No. 6F62 A. J. Aubrey Made to Order Finest Hand Engraved Six-Blade Damascus Steel Barrels Hammerless Double Barrel Shotgun, 12-gauge, 30 or 32-inch barrels; weight, 7½ to 7¾ pounds. **\$69.00**
Our special price.....

A. J. AUBREY HAMMERLESS

Made by the Meriden Fire Arms Co., Meriden, Conn.

Let us send you this gun to try, to test, compare with guns that others sell at double the price, and if you are not perfectly satisfied, if you are not convinced you have saved from \$15.00 to \$25.00 on your purchase you can return the gun to us at our expense, and we will immediately return your money.

DETAILED DESCRIPTION

OF THIS, THE NEW 1906

A. J. AUBREY HAMMERLESS

GUN. BARRELS—The barrels of the \$13.85 gun, are made from genuine armory steel. We also furnish it with laminated steel or twist (as illustrated) or 2-blade Damascus steel, as desired. **FRAME**—The frame is made of steel top forging, beautifully case hardened and well fitted. **LOCKS**—The locks are simple and strong, not liable to get out of order, having only four parts in lock, namely, main spring, hammer, sear and bridle. **LOCKING DEVICE**—Our locking device is something entirely new, and gives four distinct locks, namely: two in the lugs, one in the extension rib, which has a tendency to draw the barrels up to the frame, and another one in the extension rib, which has a tendency to draw the rib down into the frame. All operate by the top lever, which releases the four locks at the same time when opening the gun. It is really and truly a quadruple locking gun. **GUARD**—The guard is fastened to the trigger plate in the usual manner by two screws in the grip, and then it unscrews from the trigger plate. **TRIGGER PLATE**—The trigger plate is so constructed that a half turn of the screw forward of the trigger guard operates a cam under the plate, and it is instantly released. **FORE END**—The fore end fastening device is a new and simple device, since it locks to the lug by two springs, one from each side, and the fore end iron is made of first quality steel, fitted with straight grain, well seasoned and handsomely checkered and well proportioned. **SAFETY SLIDE**—The safety slide is very simple and composed of only two parts. We believe we have the best safety slide device on any hammerless gun made. **TRIGGERS**—The triggers are well proportioned, handsomely curved and easy in the pull. **EXTENSION RIB**—The extension rib is beautifully matted, tapered toward the muzzle, a feature that is found only on the highest grade guns made. **WORKING PARTS**—All working parts are made from the best tool steel, finished, polished and hardened so they will give the longest possible service. **CHOKE BORING**—The choke boring in this gun is done by a special machine and on the celebrated Taper system. **SIGHTS**—This gun is furnished with front and disappearing rear sight, a very desirable feature and one which most shooters have added to their guns by a gunsmith at an extra expense of 75 cents to \$2.00, while on this gun we furnish the front and rear sight free, the rear being 14 inches back of the front sight, a valuable assistance in "lining" up a gun for a good center shot. Our rear sight is our own invention and can be made to appear or disappear with a pin. Without the rear sight the shooter is very liable to sight down one side of the rib and miss his bird. In case you do not wish to use the rear sight, you can push it into the rib. To make it reappear, take a pin or pencil point and push down on the stud back of the rear sight. It works like a rocker.

STOCKS. The stocks are all straight grain, well seasoned walnut, made full pistol grip, with fancy cap, fitted with fancy butt plate, nicely checkered and fit perfectly in every part, the lines of which are equal to any high grade gun, regardless of name, make or price.

ENGRAVING. This, our \$13.85 hammerless gun, is furnished with line engraving of neat design, taking it away from the finish of plainer guns.

COCKING DEVICE. Our cocking device is operated from the fore end. By opening the gun the fore end goes through a cam motion on the cocking bolt, which cocks the hammers, a very simple and ingenious device, which cannot possibly get out of order, and one which is positive in its action.

The Aubrey Gun can be taken apart and put together as easily and as quickly as a hammer gun.

Want you let us send you this gun to see, examine, try for ten days and compare with other double barrel hammerless guns that sell at from \$30.00 to \$50.00?

ILLUSTRATION OR LENGTHY DESCRIPTION will not do this gun justice. The mechanical construction, the workmanship throughout, the frame, the locks, the break, the safety mechanism, the three-bolt locking mechanism, the sliding locking extension rib, the general outline of the gun, and above all, the shooting qualities, penetration, target and lasting qualities, while it will compare in general appearance with any double barrel hammerless gun you can buy elsewhere at \$30.00 to \$50.00, this you can only understand when you have seen, examined and compared an A. J. Aubrey side by side with the guns that sell at \$30.00 to \$50.00, so we ask you to let us send you this gun on our liberal terms, and if it does not all we claim for it and more, if you are not satisfied you have gotten a much better hammerless gun than you could have gotten elsewhere at double our price, you can return the gun to us at our expense, and we will immediately return your money.

FIG. 1.

slide, "R" is the tang screw, "H" is the fore end iron and "K" is the lock plate. With this mechanism there is no possible chance of the gun shooting loose. You will make the same target, you will get the same results after you have shot the gun for years that you will get from the gun when new. There is no hammerless gun you can buy at any price that has any bolt or bolt locking construction or device that will in any way compare with the A. J. Aubrey.

SEND US YOUR ORDER FOR THIS GUN,

our price, and we will send you this, our new 1906 Model Genuine A. J. Aubrey Double Barrel Hammerless 12-Gauge Breech Loading Shotgun. It will go to you with the understanding and agreement that you can use the gun for ten days after you receive it, put it to every test, compare it with any gun made for long range shooting, for penetration, pattern and target, compare it with any double barrel hammerless gun you can buy, regardless of name, make or price, and if you do not find it in outline, in mechanical construction, workmanship and finish and in all up to date points and features the equal of any hammerless gun on the market, you can return it to us at our expense, and we will immediately return your money, together with any express charges paid by you. This is a strictly high grade double barrel hammerless shotgun, one of the highest grade double barrel hammerless guns on the market. It embraces every late improvement, all the best features of the highest priced guns made, therefore, should not be compared in any way with the double barrel hammerless guns of other makes that sell under \$30.00. It is in no sense a cheap or low grade hammerless shotgun; designed and built throughout by Mr. A. J. Aubrey, maker of the finest guns made in America. The Aubrey Double Hammerless Gun combines every new improvement, every up to date feature, with many new special points of improvement, not found on any other double barrel hammerless shotgun made.

HOW WE MAKE THE PRICE SO LOW.

Our special \$13.85 price barely covers the cost of material and labor in our own factory at Meriden, Conn., with but our one small percentage of profit added. We own the factory, Mr. Aubrey is in charge of the factory as vice president and general manager, thus insuring for us the highest grade gun work possible to produce, the lowest possible manufacturing cost, and to this cost we add our one small percentage of profit, so that our customers can buy one double barrel hammerless breech loading shotgun from us for about one half the price that wholesale dealers can buy hammerless shotguns from their manufacturers, even in one hundred lots. We furnish this style of the A. J. Aubrey gun exactly as illustrated in the plain line engraving, richly finished, beautifully case hardened and polished, fine checkering throughout. This gun we furnish in either armory steel or laminated steel or twist or Damascus barrels at the special prices as quoted below. We also furnish the A. J. Aubrey gun in very elaborate engraving and decorations, with very fine two and four-blade Damascus steel barrels, at prices ranging from \$16.35 to \$69.00 as shown on the following pages; but whether you order the most elaborately finished A. J. Aubrey Hammerless Gun at \$69.00, or this, our \$13.85 Armory Steel Double Barrel Hammerless Aubrey Gun, understand, the mechanism and working parts are all the same, one will shoot exactly the same as the other, one will last as long as the other, and every Aubrey gun we send out at \$13.85 to \$69.00 goes out under our binding guarantee, and we guarantee it in shooting qualities the equal of any gun made, regardless of name, make or price. We guarantee the mechanical construction, the new locking mechanism and every up to date feature the equal of any gun on the market, and if you do not find it so, you can return it to us at our expense, and we will immediately return your money.

ILLUSTRATION OF No. 6F20

FROM THIS ILLUSTRATION, drawn by our artist, you can form some idea of the bolting mechanism of our Double Barrel Hammerless Aubrey Gun, the strongest and most lasting and altogether the best bolting mechanism furnished in any hammerless gun made. THE LETTER "A" represents the top lever. This, by being pushed to the right causes the double locking bolt "C" to operate in a sliding motion. The bolt "C" is connected with the extension rib locking bolt "B" by a steel pin, as shown in the illustration. The extension rib locking bolt "B" has a vertical slot in which the extension rib "E" enters, so that the sliding motion of the bolt "C" gives a rotary motion to the top bolt "B," thus locking and unlocking the gun. FIGURE 1 represents a portion of the frame and barrels, with the locking mechanism in its position when unlocked. "J" is the safety

DETAILED DESCRIPTION

See preceding page for detailed description of the bolting mechanism. The bolting mechanism is exactly the same on all double barrel hammerless Aubrey guns. See preceding page for description of locks, break, safety barrel, extension rib, bolt construction, etc. In this regard all double barrel Aubrey guns are alike.

SIGHTS. This gun is furnished with sight, a very desirable feature and one which most shooters have added to their guns by a gunsmith at an extra expense of 75 cents to \$2.00, while on this gun we furnish the front and rear sight free, the rear being 14 inches back of the front sight, a valuable assistance in "lining up" a gun for a good center shot. Without the rear sight the shooter is very liable to sight down one side of the rib and miss his bird. In case you do not wish to use the rear sight you can push it down into the rib and when you wish to use it take a pin or pencil point and push down the little stud in front of rear sight and it will come out of the rib. It works like a rocker.

THIS, OUR SPECIAL high grade Aubrey double barrel hammerless, which we furnish at \$16.35 and \$18.85, according to barrels, is elaborately engraved in front creux leaf design. From the illustration, engraved by our artist from a photograph you can form some little idea of the general appearance of the gun. With its beautiful engraved locks, frame, guard, etc., its specially selected walnut stock with special fancy hand checkering on the full pistol grip and fore end, it makes a finished double barrel hammerless shotgun, the equal of which you could not buy elsewhere at less than \$40.00. It's a gun you must see, examine and compare with guns that sell at \$40.00 and upward to appreciate the value we are giving.

LET US SEND YOU THIS GUN TO EXAMINE.

Send us your order, giving catalogue number of the gun you select, state whether you wish this beautiful hand engraved gun with finest laminated steel or twist barrels, at \$16.35, or with genuine two-blade Damascus steel barrels as illustrated, at \$18.85, state whether you wish 30 or 32-inch barrels and the weight of gun wanted, and we will send the gun to you with the understanding and agreement that you can give the gun ten days' thorough trial, during which time you can put it to every test, test it for long range hard shooting, test it for penetration, for pattern, compare it with any hammerless double gun you can buy elsewhere at \$40.00 to \$50.00, compare the treble bolt extension rib and automatic locking device with any gun made, regardless of price, and if you are not perfectly satisfied with your purchase, if you are not convinced you have gotten such a double barrel hammerless breech loading shotgun as you could not have bought elsewhere at less than \$40.00, if you do not feel you have saved from \$15.00 to \$25.00 by sending your order to us, you can return the gun to us at our expense and we will immediately return your money.

HOW WE MAKE THE PRICE SO LOW

Fig. 1

THIS 12-GAUGE double barrel, full engraved, hammerless, quadruple lock action, breech loading shotgun is made by the Meriden Fire Arms Company of Meriden, Connecticut, a factory owned, controlled and operated by us, designed, modeled by and built under the direct personal supervision of Mr. A. J. Aubrey, vice president and general manager of the Meriden Fire Arms Company, and maker of the highest grade double barrel breech loading shotguns made in America. Mr. A. J. Aubrey is recognized as authority in this country on high grade gun building, and he has been associated in the past years with a number of the largest American gun factories, where he has designed, modeled and brought out their very finest guns, guns made to retail as high as \$500.00 each.

The A. J. AUBREY GUNS have a distinctiveness in design, mechanical construction, up to date features, shooting qualities,

IN FACT, in every essential point, an individuality, ality found only in guns of the Aubrey make, and they are such guns as can be compared only with the highest grade guns made in this country and in Europe. They are from the lowest priced to the highest priced models, free from every earmark of cheapness common to American guns that sell at \$30.00 and under.

THE AUBREY DOUBLE HAMMERLESS GUN,

whether you buy our cheapest gun at \$13.85, as shown on preceding page, or the finest Aubrey gun we build for stock, our \$69.00 Aubrey, you will find in the gun every essential feature of the highest grade guns made in the world, an Aubrey individuality throughout, a mechanism that stands alone. You will have a gun there is practically no wear out to, a gun you cannot shoot loose, a gun with a locking or bolt mechanism unequalled by any other gun made, the mechanical construction throughout stands alone, shooting qualities unexcelled by any gun at any price, a gun that is evenly balanced, beautiful in outline and shape, an A. J. Aubrey contour, a gun that "hangs" beautifully, one that you can handle quickly for quick wing shooting, a gun possessing the good qualities of every other high grade double barrel breech loading hammerless gun made, with the defects of none.

WE HAVE BROUGHT OUT THE A.

J. AUBREY double barrel hammerless breech loading shotgun in a variety of designs to suit all buyers, the armory steel barrel, plain hammerless gun with line engraving, at \$13.85, as described on preceding page, gotten up in various grades of engraving, barrels, trimmings, etc., at prices ranging \$16.35, \$18.85, \$19.35, \$22.35, \$29.75, \$39.75, \$49.75 and \$69.00, as illustrated and described on this and the following pages; but whether you order the armory steel barrel at \$13.85 or the very finest double Aubrey gun we build at \$69.00, the mechanical construction, the working parts, the shooting qualities, the lasting qualities, the satisfaction the gun will give will be the same in every Aubrey gun, regardless of price. The Aubrey gun embodies all improvements found on other guns and has many improvements not to be found on other makes.

AT

\$18.85

UNDERSTAND, the A. J. AUBREY guns are made in our own factory, made by the Meriden Fire Arms Company, at Meriden, Connecticut, a factory we own, control and operate. In this factory all our guns are made at a cost to us covering only the cost of material and labor, to this we add our one small percentage of profit, and as a result we can sell you one gun of the Aubrey make, a genuine Aubrey gun, a gun that can be compared only with the highest priced guns made in America, this gun we can sell you at less than dealers can buy guns that will in any way compare with the Aubrey, even in dozen or hundred lots.

NO ILLUSTRATION

that we can engrave and print on paper, no description that we can give will give you any idea of how much more value for your money we can furnish you in the A. J. Aubrey gun than you can possibly get in any other gun you can possibly buy from your dealer at home or elsewhere. You must see, examine and compare these guns with guns sold by others to appreciate the value we are giving. We, therefore, especially urge that before you buy a gun elsewhere you, at least, let us send you one of these guns to examine.

NOTICE OUR SPECIAL PRICES ON SMOKELESS

POWDER SHELLS. We lead all sporting goods dealers and hardware merchants in ammunition. None can compete with us.

No. 6F34

ORDER BY NUMBER.

THE AUBREY ELABORATELY ENGRAVED.

Made in our own factory, the Meriden Fire Arms Co., Meriden, Conn., under the personal supervision of Mr. A. J. Aubrey, one of the foremost gun makers in this country.

BORED FOR BLACK OR SMOKELESS POWDER.

Be sure to state length of barrels wanted.

FOR FULL DESCRIPTION of bolting mechanism, of barrels, locks, frame and mechanical construction throughout, see preceding pages, or the description of the \$13.85 gun. All Aubrey guns are in mechanical construction alike, and whether you buy the cheapest Aubrey double barrel gun at \$13.85 or the one illustrated and described hereon at \$19.35 or \$22.35, or the highest grade Aubrey gun we make, the \$69.00 gun, the mechanical construction, the shooting qualities, the durability are exactly the same. The difference in the price represents only the difference in the barrels, the difference in the elaborate engraving and finish, and in these more elaborately finished guns we actually furnish you from three to five times as much value for your money as you could possibly get elsewhere.

THIS GUN comes in 12-gauge only, in 30 or 32-inch barrels, the finest twist or laminated steel barrels or genuine two-blade Damascus barrels, as desired. Weight, packed for shipment, about 15 pounds.

THIS GUN is made by the Meriden Fire Arms Company, of Meriden, Conn., under the personal direction of Mr. A. J. Aubrey, maker of the highest grade shotguns made in America. It combines every new, high grade, up to date feature of every other high grade double barrel hammerless shotgun made, with the defects of none.

KNICKERBOCKER HAMMERLESS GUN, \$15.50.

Made by the American Gun Co., of New York, factory in Connecticut.

ALIGNMENT. The Celebrated Knickerbocker Hammerless Double Barrel Shotgun, as turned out by the American Gun Co., possesses perfect alignment, in fact, the alignment is equal to that of any gun made, regardless of name, make or price.

Every minute feature has been studied with a view of producing a gun which "handles" and "hangs" nicely, which is a comfort to the shooter, a gun that makes a good pattern, has excellent shooting qualities and one which is bound to become a favorite with hunters or trap shooters. The above illustration is engraved direct from a photograph of the gun itself by our artist and will give you some idea of its appearance, but you should see the gun and examine it and compare it with high priced guns in order to get a proper idea of the gun. We recommend this gun very highly and know that you will be pleased with it. **THIS IS THE LATEST HAMMERLESS SHOTGUN ON THE MARKET.** It is made from the best material that money can buy—made on fine lines, balances perfectly and is a neat, attractive and serviceable gun.

DESCRIPTION. The Knickerbocker is fitted with top snap break, laminated steel or genuine Damascus barrels, strong bar locks, beautifully matted L-shape Edwards' extension rib, double bolt locks, straight grained walnut stock and fore end handsomely checkered, Deesley & Edge patent fore end, full pistol grip capped with ornamental rosette, choke bored for close shooting; a good, sound, honest, hammerless gun. Wt., packed for shipment, about 14 lbs.

Catalogue Number	Grade	Style of Barrels	Gauge	Length of Barrels	Weight of Guns	Price

LOADED SHOTGUN SHELLS, \$1.32 per 100. See page 164.

ENGRAVED, SPECIALLY FINISHED HAMMERLESS GUN, \$13.30 AND \$15.30.

HOW WE CAN MAKE THE PRICE \$13.30

As explained on other pages, we own, control and operate our own gun factory and this factory is equipped with every high grade, up to date, labor saving gun making machine, tool and device, and it is the only gun factory that runs every working day in the year at full capacity, the only gun factory with practically no overhead expense, no expense for traveling salesmen, no expense for collection, none of the big office and officers expense common to other gun factories. This is one gun factory in which practically every dollar expended goes into raw material and pay roll, the only factory where the cost of the finished gun can be figured by the cost of the original raw material and the labor.

THE HAND ENGRAVING. From the illustration you can get an idea of the beautiful scroll and floral effect worked out in this hand engraved design, a full engraving covering the sides and top of frame, top lever, the guard and the fore end connection. The hand engraving alone that we show on this gun would not be furnished by any other maker much short of an extra charge

BARRELS. We furnish this gun either in genuine laminated steel or twist barrels for \$13.30, or in extra high grade two-blade Damascus steel barrels for \$15.30. We would especially recommend that in selecting one of our guns that you select the highest grade double barrel breech loading shotgun we make, the specially finished, hand engraved gun with the genuine two-blade Damascus steel barrels at \$15.30. You will find it such a gun as you could not buy elsewhere at less than \$30.00 to \$40.00. Our barrels are all specially well made, they are made from the highest grade barrel steel. They are bored, true to gauge, they are taper choke bored by the celebrated taper system, they have an especially finished, shaped, true and matted rib; they are accurately sighted, made for extra long and extra hard shooting. They are all 12-gauge and will take 12-gauge shells only. They are made with extra long, heavy, full extension rib; have the latest patent shell extractor and extra strong lug.

FRAME. The frames are made from the best quality steel. They are beautifully mottled and finished, they are elaborately engraved by hand, as shown in the illustration, fitted with a top snap break, and with patent safety.

ACTION. The action includes the locking, cocking, safety double lever, the sears, triggers and main spring of the mechanism, and we say, without fear of contradiction, that in this we have the simplest, strongest, safest action, less liable to get out of order, than any other gun action made.

Illustration showing the Gun Lock used in our Aubrey Double Barrel Hammerless Shotguns. You will notice it is strong and simple, having but

four pieces, namely, hammer, sear, top spring and bridge.

\$19.35

FOR \$19.35 in the highest grade steel barrel or for \$22.35 in the genuine two-blade Damascus barrel, with the elaborate fine line scroll and game hand engraving on the locks, frame, guard, etc., the quality is equal to any gun made; with special finish throughout, with specially selected and elaborately finished stock and fore end, with every new and up to date high grade feature, we furnish you this genuine A. J. Aubrey Hammerless Double Barrel Breech Loading Shotgun, exactly as shown in the illustration, under our guarantee that it is in every way the equal of any hammerless double barrel breech loading shotgun you can buy elsewhere for \$50.00. We will gladly accept your order and, in fact, we especially urge that you let us send you this gun to examine. We will send the gun to you with the understanding and agreement that you can use it for ten days, during which time you can put it to every test, compare it with any gun made for long range shooting, penetration, target, for mechanical construction, and if you do not find it perfectly satisfactory, the equal of any double barrel hammerless gun you could buy elsewhere for \$50.00, if you do not find the bolting mechanism, the locking device and all essential parts superior to any other hammerless gun on the market, regardless of name, make or price, if you do not feel you have saved from \$20.00 to \$30.00 by sending your order to us, if you are not convinced you have gotten one of the highest grade double hammerless guns made, if you cannot see wherein this gun is worth double that of any of the cheaper grades of double hammerless guns on the market, you can return the gun to us at our expense and we will immediately return your money.

THIS SPECIAL, high grade, elaborately engraved A. J. Aubrey Hammerless Double Barrel Shotgun, which we furnish at \$19.35 and \$22.35, according to the barrels, has every late improvement, every up to date feature, is put out under our binding guarantee. We especially urge that you send us your order for this gun, enclosing the full amount of cash, and if the gun isn't perfectly satisfactory you can return it to us at our expense and we will immediately return your money. Weight, packed for shipment, about 15 pounds.

NOTICE OUR PRICES ON AMMUNITION, especially Shotgun Shells. We beat all competitors, wholesale or retail; none can compete with us.

THE NEW FOREHAND DOUBLE BARREL

HAMMER GUN.

12-GAUGE ONLY

\$12.45

BORED FOR NITRO OR BLACK POWDER.

For \$12.45 we offer this season the celebrated Forehand Double Barrel Hammer Gun, fitted with fine laminated steel or twist barrels, low circular ham mers,

patent nitro cross bolt in the extension rib which locks the gun firmly when the barrel is closed. Straight grain walnut stock and fore end nicely checkered, rebounding hammers, patent top lever, fancy butt plate, elegantly case hardened frame and lock works, choke bored for close, hard shooting; a well made, good shooting, well balanced gun and one that is bound to give satisfaction. The factory price on this gun with laminated steel or twist barrels is \$19.50, but owing to a large contract which we have made for them we are able to make you a reduced price of \$12.45 this season, and it is certainly a great bargain at this price. All Forehand Arms Company's product is now manufactured by Hopkins & Allen Manufacturing Company, who purchased the entire plant of the Forehand Arms Company, including patents, machinery, tools, etc., about seven years ago.

Catalogue Number	Grade	Style of Barrels	Gauge	Length of Barrels	Weight of Gun	Price
6F103	T. P.	Laminated Steel	12	30 or 32 in.	7 1/4 to 8 lbs.	\$12.45

Weight, packed for shipment, 14 pounds.

\$1.32 PER 100 FOR HIGHEST GRADE LOADED SHELLS. SEE PAGE 164.

NOTICE. All our guns are tested with heavy loads and cannot burst unless by carelessness in improper loading of nitro or dense powders. Read how gun barrels burst on another page so you will avoid accidents.

IN OUR OWN FACTORY WE MAKE THE HIGHEST GRADE OF GUNS AND REVOLVERS AND OFFER THEM DIRECT TO OUR CUSTOMERS ON THE BASIS OF FIRST COST OF MATERIAL AND LABOR WITH BUT ONE SMALL MANUFACTURING PROFIT ADDED.

YOU WILL SHARE IN OUR PROFIT if you send us an order from this department. We send you a profit sharing certificate showing the amount of your purchase for every order, and when these certificates amount to certain sums you can get various kinds of goods entirely free of charge, as explained in the first pages of this book.

FOR \$13.30

we offer this specially finished, extra well made, elaborately engraved and decorated, double barrel, hammerless breech loading, 12-gauge shotgun with laminated steel barrels, and for \$15.30 we furnish it with genuine Damascus barrels as illustrated, under our

guarantee for quality, workmanship, material, finish, shooting qualities, pattern, penetration. Your money back if it isn't in every way superior to any double barrel, hammerless shotgun you can buy elsewhere at less than \$20.00 to \$25.00.

STOCK. The stocks are made of carefully selected walnut, beautifully finished, fancy checkered pistol grip and fore end, fancy butt plate. At our special price of \$13.30 for twist barrel, \$15.30 for two-blade Damascus barrel, we furnish the gun complete under our binding guarantee. We guarantee the gun to reach you in the same perfect condition it leaves us, and if there is a defect of any kind, or if the gun doesn't prove perfectly satisfactory, return it to us at our expense and we will immediately return your money. This gun is the same identical gun as described on the following page, the "Champion Ramrod Wonder," except it is highly engraved by hand and highly finished, otherwise, in general details, it is the same.

Catalogue Number	Grade	Style of Barrels	Gauge	Length of Barrels	Weight of Guns	Finish	Price

Weight, packed for shipment, about 14 pounds.

OUR STRICTLY AMERICAN HAMMERLESS SHOTGUN. THIS GUN IS KNOWN AS THE BOX FRAME SHOTGUN.

AT \$9.95 IT IS THE WORLD'S WONDER.

\$9.95 buys the now justly celebrated, high grade, 12-gauge, Chicago Long Range Wonder, Double Barrel Breech Loading Hammerless Shotgun, with Armory Steel Barrels, a double barrel hammerless gun, which in gun making is indeed the "World's Wonder."

OUR OWN PATENT GLOBE SIGHT FURNISHED FREE WITH THIS SHOTGUN.

**NOW
A \$9.95
PRICE IS
MADE POSSIBLE.**

The manager of our gun department being convinced that high grade hammerless shotguns, such as are usually offered, were being sold at prices unreasonably high, conceived the idea of establishing a strictly up to date modernized gun factory of our own, where a high grade gun, embodying all the good points of other high grade guns could be made and offered to our customers at a price that would barely cover the cost to make and leave us our one small percentage of profit. To accomplish this we secured as manager of our gun factory one of the best gun makers in America, a gentleman who has for years been in charge of several of the best gun and revolver factories in this country. We also secured the services of a number of expert gun machinists, gun and gun tool makers. These gentlemen, in charge, selected and had built for our factory the very highest types of gun making machinery, machines built with marked improvements of their own over the machines employed by other gun factories. Ample time was taken for the making of all special tools, dies, patterns, jigs, chucks, gauges, etc., everything essential to the accurate making and finishing of every part of the gun was completed and perfected before any start was made to get out guns. All the machinery, all necessary tools and appliances were perfectly placed in one of the most modern gun plants in this country. A competent corps of selected mechanics, the best men picked from the best factories, where they had formerly been in charge, were engaged and detailed to take charge of, operate and make the different parts that go into our \$9.95 LONG RANGE WONDER so that when the factory was opened for the production of the Long Range Wonder, every piece came out with a nicely and perfectness of shape and finish to be found only on the highest grades of guns made, a gun with a general outline, weight, shape, proportion, dimensions, style, finish, fit, strength, durability, long and hard range shooting, simplicity of action such as can be equaled only by the most expensive guns on the market.

ABOUT THE SAFETY OF HAMMERLESS GUNS.

Many hunters who have always used hammer guns are under the impression that hammerless guns are dangerous. We would like to say in regard to this, that hammerless guns are just as safe as hammer guns, in fact they may be considered safer for it is possible to lock a hammerless gun by the safety slide so that it is absolutely impossible to pull off the hammers, whereas with a hammer gun it has often happened that when the hammer was at half cock, something coming in contact with the hammer has discharged a shell accidentally. This is not possible with a hammerless gun, for the hammer is concealed within the frame, and it is impossible for it to come in contact with anything. Remember every time you open a hammerless gun you cock it and it is ready to shoot.

DETAILED DESCRIPTION.

BARRELS. We furnish this gun with either blued steel at \$9.95, genuine twist or laminated steel barrels at \$10.45, or genuine Damascus barrels at \$13.90, as desired.

THE TWIST OR LAMINATED STEEL BARRELS we use in these guns are the highest grade of genuine laminated steel, and should not be compared with the cheap imitations and so called laminated steel barrels that are not safe for high explosive powders. Our barrels are made for the highest explosive gun powders used, such as white or nitro powder. The Damascus barrels are extra high grade, beautifully finished. The method of making Damascus barrels is illustrated and described on another page. These barrels are all beautifully browned and given an extra high finish. They are the highest strength barrels of the kind made, and are made with handsome heavy matted rib, tapering from breech to muzzle, as found only on the most expensive guns made. The matted rib is especially fine and neat design. The rib is extra heavy and beautifully finished. The barrels are made with a strong Edwards extension rib. They are taper choke bored, by the celebrated Taper system, to insure the strongest long range shooting qualities, the best possible target, the highest possible penetration, and being made in the proper proportion of length at the butt, the minimum of recoil is obtained. The barrels are fitted at the breech with a genuine flat water table, found only on the most expensive guns made. They have a very heavy self locking steel lug, the strongest ever end lug tried on any gun made.

FRAME. The frame is made of the best quality steel, case hardened beautifully mottled and finished. It is thoroughly machined and accurately fitted, and made especially strong at the points where the recoil acts in order to insure perfect safety. In design it is one of the handsomest hammerless shotgun frames made, smooth, symmetrical, strong at every part, perfect fitting and highly polished.

ACTION. This includes the locking, cocking safety double lever, the concealed hammers, sears, triggers and main spring of the mechanism with which the gun is operated, and these parts are made from the very best material procurable. Positive, yet simple in construction, made interchangeable so that if the parts should break (which rarely happens) they can be immediately replaced at a very slight expense. The action will, in simplicity of construction, strength, durability, in finish and every essential feature, compare favorably with the action furnished on the highest priced hammerless shotguns made.

STOCK. The stock is handsomely shaped, pistol grip, case hardened checked in a neat design, fancy checked butt plate. The stock is made from carefully seasoned selected walnut, hand finished and hand polished, and fitted to the gun by one of the best gun stock fitters in the country.

FORE END. The fore end is made from carefully selected walnut, handsomely finished and polished, beautifully checked in a neat design, made with a special patent spring fastener.

SAFETY. We offer in our \$9.95 Long Range Wonder Hammerless Gun one of the best safety devices used on any gun. It is positive and automatic in its action and renders an accident next to impossible, as the gun always stands on safe when loaded, unless pushed forward ready to shoot. Standing on safe the triggers are locked and the gun cannot be discharged. By a very ingenious mechanical device, we feel we have the best automatic safety made.

AT \$9.95 we know we are offering a hammerless gun with genuine Armory steel barrels that once seen, you would have no more. If you are about to select a cheap foreign made gun at \$10.00 to \$20.00, a single barrel gun at \$5.00 to \$15.00 or a high priced gun at \$30.00 to \$50.00, and could first see our Hammerless Long Range Wonder at \$9.95, you would instantly accept this gun in preference to any other gun made.

BUILT IN OUR OWN FACTORY

under the direct supervision of one of the most skilled gun makers in America, utilizing the highest types of automatic gun making machinery, buying only the highest grades of raw gun material, we produce the finished hammerless, double barrel shotgun as illustrated, at a net shop or factory cost that enables us to undersell almost any other maker by half, and quote the astonishingly low price of \$9.95.

THE \$9.95 LONG RANGE WONDER, with genuine Armory steel barrels, is a hammerless gun that must be seen to be appreciated, a gun that is seldom equaled even by the most expensive guns, in its perfect proportion, in its beautiful case hardened finish, in all those lines so much appreciated by the lover of a fine hammerless shotgun.

EXAMINE OTHER CATALOGUES. Ask your dealer for prices on double barrel hammerless shotguns and you will find no one can quote within 25 to 50 per cent of our prices, gun for gun and quality for quality, besides every gun goes out under our binding guarantee for quality, and if you do not find it the greatest gun value you have ever seen, return it to us at our expense of transportation charges both ways and we will return your money.

THIS ILLUSTRATION, which is engraved from a photograph taken direct from our \$9.95 Chicago Long Range Wonder, which is exactly the same as the \$9.95 gun, except it has laminated steel barrels instead of Armory steel, and will give you some idea of the appearance of this handsome gun, but it must be seen and compared with other hammerless shotguns to appreciate the value we are giving.

GENERAL FINISH. This gun is not only honestly built from the best material procurable, by skilled makers, but in finish you will find it has none of the ear marks of cheapness common to hammerless guns that sell for from \$20.00 to \$50.00, on the contrary, in finish it is given all the appearance of a high priced hammerless gun such as sells at \$30.00 and upwards. The beautiful browning effected on the barrel, the case hardening of the frame and trigger guards, bringing out clear handsome mottled effect unequalled by any other maker; the high finish given to stock and fore end, the artistically finished checkering, the taper extension rib (a special mark of high grade) and the generally well proportioned outlines of the gun throughout given you in this gun at \$9.95 all the show and style, as well as all the essential features, everything that you would get in a hammerless shotgun that cost three times the money.

SHOOTING QUALITIES. This all essential point has been the foundation from which the manufacturer has built this gun up, to furnish a gun that would not shoot loose, that would be the equal of any gun made for durability and a gun that could be relied upon for close, hard shooting at long range, and one in which white or nitro powder could be used as safely as the regular black powder. This gun has been built on lines to insure all this in the highest degree. The barrels are made gauged and bored (choke bored by the celebrated Taper system) to effect the best possible target, the longest range that it is possible for white or black powder to throw shot, and no matter what make or what price you may pay for a gun you will get no gun that will shoot stronger or better.

WEIGHT, LENGTH, GAUGE, ETC. These guns are made in 12-GAUGE ONLY. They can be furnished in no other gauge. They are made in 30 or 32-inch barrels as desired, and can be furnished in weights ranging from 7 3/4 to 8 pounds, as desired. In ordering, be sure to state length of barrel and weight wanted.

ABOUT BROKEN PARTS OR REPAIRS. While this gun is built with a view of making repairs or replacements unnecessary, in case by accident or otherwise, any piece or part should get broken or lost, we wish to say that from our factory we can at any time to come furnish at a comparatively small expense to the purchaser any piece or part to replace any part that may break or get lost. This should be quite an object to the purchaser of a gun, for it may mean the saving to you of quite an expense at some future date.

AN ALL PURPOSE GUN. We are manufacturing this gun to meet the general demand throughout the country for a thoroughly reliable, high grade hammerless all purpose double barrel breech loading shotgun, and it is suitable for all kinds of game that can be hunted with any shotgun—geese, ducks, prairie chickens, partridges, squirrels, quails, snipe, rabbits, in fact it is an all around general purpose, high grade, up to date guaranteed, double barrel, hammerless, breech loading shotgun.

We make the price, \$9.95, a very small percentage above the actual cost to produce in our own factory, the cost of material and labor, for we must depend upon our customers, upon the illustrations and descriptions given on this page to consume the entire output of our factory.

We have at present a capacity of about 40 guns a day, or 12,000 a year, and to insure our selling every gun we make, we have really made the price ridiculously low, namely, \$9.95. Understand, you send us your order, we taking all the risk, guaranteeing the gun to you in every respect, guaranteeing it to reach you in the same perfect condition it leaves us, and further, if not found perfectly satisfactory to you, to be returned to us at our expense of transportation charges both ways, we to return your money at once.

The No. 1 grade is fitted with fine two-blade Damascus steel barrels, hardened lock plates and action. Plain line engraving, but well made and desirable, and just as good a shooter as a higher priced gun. **State length of barrels wanted.**

The No. 2 grade is practically the same gun fitted with three-blade Damascus steel barrels, frame and breech nicely hand engraved with a quail, and scroll engraving on the lock plates, is made to special order.

Catalogue Number	Grade	Style of Barrels	Finish	Gauge	Length of Barrels	Weight, Lbs.	Price
6F136	No. 1	2-Blade Damascus	Plain Line Engraving	12	30 or 32 in.	7½ to 8	\$42.00
6F140	No. 2	3-Blade Damascus	Game and Scroll Engraving	12	30 or 32 in.	7½ to 8	\$56.00

Weight, packed for shipment, about 14 pounds.

OUR L. C. SMITH HAMMER GUNS.

The L. C. Smith Hammer Guns have the patent cross bolt locks, top snap action, compensating fore end, rebounding bar locks, circular hammers, best American walnut stock and fore end, checkered pistol grip, fancy butt plate, case hardened frame, and are choke bored for black or smokeless powder.

These guns are too well known and too popular to require an exhaustive description, for you probably know the L. C. Smith guns have as many friends among the shooters as any guns made.

Weight, packed for shipment, about 14 pounds.

NOTICE. All our Guns are tested with heavy loads and cannot burst except by carelessness, obstruction in the barrel or improper home loaded shells with nitro or dense powder.

RUSTED AND DAMAGED GUNS. Do not return to us a gun, revolver or rifle which is rusted, pitted or has the finish worn off, for we have no way of selling these guns. If you have a gun, revolver or rifle which needs repairing, first write us fully describing the article and what is broken, as we may be able to send you the part necessary, thus saving the express charges on the gun both ways.

OUR MANUFACTURERS' SPECIAL HAMMERLESS

\$14.95

OUR PATENT GLOBE SIGHT

FREE WITH THIS GUN.

No. 6F160

For only \$14.95 we offer you this standard, hammerless, double barrel, breech loading shotgun, a splendid gun in every particular, guaranteed to give satisfaction, well made, fitted and finished, made by a well known manufacturer of reliable hammerless shotguns, and sold by various concerns under their own brand and name at various higher prices. Look in other catalogues, see the prices others ask for this particular double barrel, hammerless, breech loading shotgun, the exact same gun we offer for \$14.95. You will recognize it immediately by the extension rib and cocking device which is peculiar to this manufacturer's gun, and you will find it offered by others under a special name at several dollars more than we ask. Our price, however, is based on the lowest possible cost, with just our one extremely narrow margin of profit added, and in this particular gun, as well as all other lines of merchandise we positively undersell all competition. The frame is made from the best steel drop forging, locks are simple and not liable to get out of order, the cocking mechanism is simple and positive, has safety slide, so that the gun can be made operative or inoperative, fitted with blue steel barrels, taper choke bore, rib is matted and tapered from breech to muzzle, and the extension rib has a nitro cross bit. Full pistol grip, fore end and grip nicely checkered. This our manufacturers' special gun offered by us for only \$14.95 is guaranteed the lowest price ever heard of on this well known standard make, which you will find offered by other concerns under their own brands as one of their highest grade guns and at much higher prices.

No. 6F160 Manufacturers' Special Hammerless Double Barrel Shotgun, 12-gauge, 30 or 32-inch barrels. **State length wanted; weight, 7½ to 8 pounds. Price.....\$14.95**

Weight, packed for shipment, 14 pounds.

REMINGTON NEW MODEL DOUBLE BARREL SHOTGUNS.

MANUFACTURED BY THE REMINGTON ARMS CO., ILION, N. Y.

WE GUARANTEE EVERY REMINGTON GUN to be free from defective material and workmanship and if any piece or part gives out by reason of defect within one year we will replace it free of charge. Order one of these guns and if you do not find it satisfactory and exactly as represented, return it to us at our expense and we will refund your money.

PLEASE NOTICE. It is the policy of our house to sell all classes of merchandise as low or lower than any other house, and by comparing our prices on Remington goods with those of other houses you will find they are 10 to 30 per cent lower than you can buy elsewhere. Our motto is to sell goods to our customers on the smallest possible margin of profit and we shall endeavor to maintain this motto for the benefit of our customers. Our selling price is based on actual cost with one small percentage of profit added.

Gun.

REMEMBER, these are the genuine Remington Shotguns, manufactured by the Remington Arms Company, of Ithaca, N. Y., one of the oldest and most reliable manufacturers of arms, a company which has made arms a study for many years, a company which has manufactured arms for the hunter as well as for the United States and other governments, and the name Remington on a firearm is a guarantee of first class workmanship, high grade rifles and shotguns and arms which can be depended upon.

\$26.50

GENUINE 2-BLADE DAMASCUS.

No. 6F172

The above illustration, engraved by our artist direct from a photograph, will give you some idea of this celebrated Remington Automatic Shell Ejecting Hammerless Shotgun.

\$26.50 is the lowest price ever named on a standard, hammerless, double barrel, breech loading shotgun, fitted with an automatic shell ejector and genuine two-blade Damascus barrels.

ABOUT THE AUTOMATIC SHELL EJECTOR.

The Remington Automatic Shell Ejector is constructed with a "split extractor," so when you open the gun it ejects only the shell which is fired and the unfired shell remains in the gun. If you fire both shells, the gun ejects both upon opening it. In addition to this the ejector is also constructed that should anything happen to the automatic ejector device, the gun will act as a plain extractor, pushing the shells out far enough so that they can be removed by the thumb and first finger. This is an improvement which very few ejectors have. Don't miss this opportunity to buy a high grade gun at a low price. Mention weight wanted when ordering.

Cat. No.	Grade	Style of Barrels	Style of Extractor	Gauge	Length of Barrels	Weight Lbs.	Price
6F172	KED	2-Blade Damascus	Automatic	12	30 inches	7 to 7½	\$26.50

ITHACA NEW MODEL BREECH LOADING SHOTGUNS.

MANUFACTURED BY THE ITHACA GUN CO., ITHACA, N. Y.

The manufacturer fixes the selling price of these guns and will not allow us or any other house to sell them lower.

ILLUSTRATION showing the heavy breech of Ithaca guns. This illustration is intended to show our customers the double thick breech of Ithaca guns. All guns made for us by the Ithaca Gun Co. have this reinforced breech and are made extra strong for any proper load of black or nitro powder. We charge you nothing for boxing guns for shipment as some houses do.

ITHACA FIELD GRADE HAMMERLESS SHOTGUN

Our Patent Globe Sight free on these guns.

Bored for Black or Nitro Powder.

\$18.00

THE ITHACA FIELD GRADE HAMMERLESS

SHOTGUN is the latest creation of the Ithaca Gun Co., Ithaca, N. Y., and is viewed on the market with a view of giving our customers a lower priced gun and, at the same time a good, honest, substantial gun at a lower price than we have heretofore been able to offer. The lock, working parts and frame are essentially the same as on the high grade guns and the principal difference between the Field grade and the No. 1 grade is the style of barrel. The Field grade is fitted with smokeless steel barrels, while the No. 1 grade is fitted with the twist barrel, and we heartily recommend the Field grade gun as one of the best medium priced hammerless shotguns made. State length of barrels wanted. Weight, packed for shipment, about 14 pounds.

THE IMPROVED BAKER HAMMERLESS SHOTGUNS.

\$31.00

This illustration from a photograph by our artist will give you some idea of the Model B Baker Hammerless Double Barrel Shotgun.

No. 6F188

As is well known by all hunters, the Baker gun is an old reliable, good, honest, well made gun. The fitting, the workmanship, the alignment, the general appearance, the balance and the general construction of the Baker gun is equal or superior to any hammerless gun made regardless of name, make or price.

The model B gun is fitted with celebrated Baker nitro bite extension rib, which is made to take up the wear of the ribs, and any hunter will tell you that Baker guns will stand more hard usage and not shoot loose than any gun made.

The model B gun is fitted with the celebrated block safety device, so that if the hammer accidentally falls before you are ready to shoot, the hammer falls on the safety block instead of on the firing pin, a feature which has made the Baker model A and B grades very popular.

The model B grade is fitted with finest laminated steel barrels, beautifully matted and tapered rib, celebrated Baker bar locks, imported English walnut stock and, fore end, beautifully checkered, patent safety device which makes the gun always ready to shoot but can be made inoperative to lock the triggers by pushing the safety slide backward, fitted with Baker top lever, fine artistic hand engraving on the locks and frame as shown in the illustration, well fitted, well made, well balanced and well lined up, a gun that comes up to the shoulder as easily and as comfortably as any gun made.

The model A grade is almost identical with the model B grade except that it is fitted with beautiful four-blade Damascus barrels instead of laminated steel barrels and the design of the engraving varies slightly. Weight, packed for shipment, about 15 pounds.

Catalogue Number	Grade	Style of Barrels	Gauge	Length of Barrels	Weight of Guns	Finish	Price
6F188	Model B	Twist	12	30 inch	7½ to 8 lbs.	Engr'd	\$31.00
6F190	Model A	Damascus	12	30 inch	7½ to 8 lbs.	Engr'd	\$36.50

OUR LINE OF IMPORTED DOUBLE BARREL SHOTGUNS.

WE IMPORT OUR OWN GUNS direct from Belgium thereby saving the profit of the importer and jobber which enables us to offer imported guns at less money than dealers pay for them. Our principle is to sell imported guns as we do all other merchandise at one small narrow margin of profit from the maker to the consumer. We handle more goods than any house in the United States selling to the consumer and by comparing our prices with other houses you will find that we are 10 per cent to 25 per cent below any competition.

In our line of imported guns we desire to call your attention to our **Double Barrel Breech Loader**, our **T. Barker**, our **Special Greener Action Guns**, and our high grade machine guns. We are in a position to make you prices on this class of goods below any competition, and if you will favor us with your order we know you will be so well pleased that you will not only give us your future orders, but recommend our house to your friends. Think also of our **PROFIT SHARING PLAN**.

HOW OUR IMPORTED GUNS are tested by the Belgian Government. All our imported guns are tested by the government of Belgium in the following manner: After the barrels are first made and before they are brazed together, reamed or chambered, they are sent to the government proof house where a plug is screwed into the breech of the barrel and it is loaded with 11 drams of good quality black powder and a bullet weighing 1 ounce. After this test they are brazed together and tested again with 7 drams of good black powder and a bullet weighing 1 ounce. After this second test is made, the frame, or breech, is fitted to the barrels and they are tested for the third time with 8½ drams of powder and 1½ ounces of shot. You will see that the test is very severe, and each and every Belgian gun which we sell, from the cheapest to the best, is put through this same test, so if you buy a Belgian gun of us you are assured that you are getting a gun which has been thoroughly tested for Sears, Roebuck & Co. with more powder and more shot than you can possibly put into a shell. In order to put such a heavy charge into the barrels, the government must load from the muzzle, and any gun you buy from us is safe, as you will see by the foregoing rigid tests.

AN IMPORTED EXTENSION RIB GUN

10, 12 and 16-Gauges.

\$6.35

No. 6F237A

The above illustration, engraved from a photograph, will give you an idea of the appearance of this gun.

OUR \$6.35 BACK ACTION GUN

We offer you a high grade, imported double barrel shotgun at \$6.35 which cannot be duplicated elsewhere for less than \$8.00 to \$10.00. We import these guns direct, and you save the wholesale and retail dealers' profit. The result is you buy a gun for less than one-half the retail price, 20 to 40 per cent cheaper than other houses advertise, and far below the price you would pay for a poorer gun from other houses. We guarantee every gun to have barrels of best Raleigh steel.

GENERAL DESCRIPTION.

This gun is fitted with top snap break, laminated steel finished barrels, made of best Raleigh steel, strong back action rebounding locks, L-shaped Edwards' extension rib, rebounding hammers, straight grain walnut stock and fore end nicely checkered, pistol grip stock, patent snap fore end, flat plain rib, left barrel choke bored, right barrel cylinder bored, nitro firing pins, case hardened lock plates and frame.

RUSTED AND DAMAGED GUNS OR RIFLES.

Do not return to us a gun, revolver or rifle which is rusted, pitted or has the finish worn off, for we have no way of selling these guns. If you have a gun, rifle or revolver which needs repairing, first write us, fully describing the article and what is broken and we may be able to send you the part necessary, thus saving the express charges on the gun both ways.

OUR CELEBRATED SAM HOLT GUNS FOR \$8.38.

CASE HARDENED MOUNTINGS. EXTENSION RIB. BAR LOCKS.

12-Gauge Only.

No. 6F247

The Celebrated SAM HOLT GUN

is made especially for us under season contract and will be found to give entire satisfaction for field shooting. THE BARRELS are made from celebrated Raleigh steel and the frame from best forgings. The barrels are bored smooth and accurate and are chambered to gauge.

DESCRIPTION. Our Sam Holt Gun is fitted with top snap break, strong bar locks, laminated steel finished barrels, Edwards' L-shaped extension rib nicely fitted, rebounding circular hammers, straight grain well seasoned checkered stock and fore end, pistol grip stock, nitro firing pins, patent snap fore end, chase engraving on the locks, case hardened frame and lock plates, bored smooth and true to gauge for black or smokeless powder. The left barrel is choke bored and the right barrel is cylinder bored for field shooting. Always state length of barrels wanted in your order.

WE GUARANTEE ALL OUR SHOTGUNS FOR BUCKSHOT WHEN LOADED AS FOLLOWS:

This illustration shows how buckshot should be loaded in a shell. 1st—put in the powder; 2d—put in a card wad; 3d—put in two felt wads; 4th—put in a layer of buckshot; 5th—a card wad, then another layer of buckshot and a card wad. Always put a card wad between each layer of buckshot and if you wish you may sprinkle sawdust around the buckshot or in cold weather you may use lard or paraffin around the buckshot instead of sawdust.

RULE FOR LOADING BUCKSHOT. The following rule is for Raymond shot which we have tested. You may use other shot, but if you do it must be the same size as Raymond, so the pellets will lie flat and not pile up on the wad, otherwise they will strain the muzzle of the gun.

A 12-gauge shell should take three No. 4 buck, four No. 6 buck or five No. 8 buckshot in each layer. Don't vary from this. Notice, these are all even numbers of buckshot.

A 10-gauge shell should take three No. 3 buck, four No. 5 buck or five No. 7 buckshot in each layer. Notice, they are all uneven numbers.

A 16-gauge shell should take three No. 5 buck or four No. 7 buckshot in each layer. Don't try to use larger sizes or you may injure the barrel and we will not be responsible for same.

HOW A SHOTGUN BARREL IS CHOKE BORED.

For the benefit of our customers who are not familiar with choke boring, we give here illustration of how a shotgun barrel is choke bored. From the illustration you will imagine that a shotgun barrel has been cut in two the entire length, and you are looking at the inside of the barrel. You will notice that the chamber is large, the rest of the bore (cylinder bore) is smaller and of the same diameter until you come to about 1 inch from the muzzle, which is smaller than the cylinder bore from the chamber to the choke. This is known as taper choke; that is to say, the diameter is the same after it leaves the chamber until it meets the choke about 1 inch from the muzzle, when it tapers slightly leaving the muzzle about one or two gauges smaller than the diameter of the cylinder bore from the chamber forward. It requires fine reamers and skill to taper choke a shotgun barrel. The difference between the cylinder and choke bore is hardly great enough to notice with the naked eye and the philosophy of choke bore is that the shot travels normally until it meets the choke when it becomes concentrated while leaving the barrel, and being concentrated puts a larger number of pellets in a 36-inch circle than if the shotgun was cylinder bored. Cylinder bored shotguns are similar, except that they are not smaller at the muzzle, the bore being the same from the chamber to the muzzle end of the barrel.

**THE CELEBRATED THOMAS BARKER DOUBLE BARREL BREECH LOADING SHOTGUN, \$9.80**

Made in 16-gauge, 6½ to 7 pounds. 30-inch barrels.
20-gauge, 6½ to 6¾ pounds. 30-inch barrels.

The illustration will give you some idea of the appearance of this gun.

GENERAL DESCRIPTION. Our Thomas Barker gun is made with top snap break, Scott action, strong bar locks, laminated steel finished barrels, extension rib beautifully matted, rebounding circular hammers, straight grained walnut stock and fore end nicely checkered, full pistol grip stock with shield inlaid, nitro firing pins, patent snap fore end, chased engraving on locks, case hardened frame and lock plates, left barrel full choke bored, right barrel cylinder bored; all barrels bored smooth and true to gauge. A wonder for the money and a gun that will shoot black or smokeless powder. Always state length of barrel and gauge wanted. They come in 10, 12, 16 and 20-gauge. One of the best guns made for field shooting. Mention gauge wanted. Weight, packed for shipment, about 14 pounds.

OUR CELEBRATED EBONIZED DOUBLE BARREL BREECH LOADING SHOTGUN,

\$10.69

Our Globe Sight FREE with this gun.

MADE IN 12-GAUGE ONLY.
LEFT BARREL CHOKE BORED.

WE ARE THE LARGEST IMPORTERS

in the United States, selling goods from the manufacturers to the consumer. We import all our own foreign guns direct from Liege, Belgium, which is probably the largest gun making center in the world, and all our imported guns have the Belgium Government test, as explained on another page of this catalogue. When you buy a Belgium gun from us you do not pay a wholesaler's, jobber's, or retail dealer's profit, but you buy the gun at one small profit from the manufacturer to the consumer, thus making a great saving on your purchase.

OUR CELEBRATED EBONIZED STOCK and fore end double barrel breech loading shotgun is fitted with a forged breech, lock plates are nicely polished and handsomely nickel-plated, elegantly engraved in scroll design, as shown in the illustration. The barrel is finished in two-blade Damascus pattern with handsome matted rib, latest style Edwards' patent, rebounding circular hammers, straight grained walnut stock and fore end beautifully carved in leaf design, pistol grip stock, nitro firing pins, patent snap fore end, case hardened frame and lock plates, left barrel choke bored, right barrel cylinder bored and the left barrel is choke bored for field shooting.

THE LOCKS are of the bar lock type with rebounding hammers, which fly back to half cock after the gun is fired. The butt plate and top lever are nickel-plated to conform with the frame and locks of the gun. The stock is beautifully finished in black ebonized color, checkered in diamond design with German silver pins in the diamonds; has scroll carving on the outer edge of the diamond field, as shown in the illustration. The general ap-

pearance of the ebonized stock, engraved nickel-plated frame, locks and top lever, nickel-plated butt plate and the two-blade Damascus finished barrels makes a combination of contrast pleasing to the eye. Always mention length of barrel wanted.

Catalogue No.	Grade	Style of Barrels	Gauge	Length of Barrels	Weight of Gun	Price

GUN AND OUTFIT

THIS GENUINE AMERICAN MADE GUN

made by the American Gun Company of New York, factory at Norwich, Conn., an American high grade, double barrel, breech loading shotgun, a gun that you could not buy elsewhere at less than \$15.00, better than many guns that are retailed at from \$20.00 to \$25.00, with a complete sportsman's outfit, as illustrated and described hereon, an outfit that is really indispensable to anyone owning and using a double barrel breech loading shotgun, such an outfit as could not be bought in any market for less than \$6.00, an outfit that would cost \$8.00 to \$10.00 in many stores, all furnished by us, gun, outfit, and all, exactly as illustrated, under our binding guarantee, complete for \$11.98.

\$11.98

SEND US \$11.98
GENUINE ARMORY STEEL.
PAPER CHOKE BORED

with your order for this outfit. Be sure to state the size of coat wanted. Merely give the number of inches around the body at the breast taken under the arms over your regular coat, also size of the cap. Give us the size of the hat you wear and your waist measure for the belt, and we will send you a gun and complete outfit fit with the understanding and agreement that you can examine the gun and outfit thoroughly in your own home, compare the goods with similar goods sold by others at nearly double our price; give the gun ten days' trial, during which time you can put it through every test; if you do not find it thoroughly well made, first class in every particular and in shooting qualities, the equal of any gun made, and do not find that it will make as good a pattern at as long a range and an equal penetration with the highest priced gun on the market; in short, if you do not find everything entirely satisfactory, you can return the gun and the outfit to us at our expense any time after you have given the gun a thorough trial up to ten days and we will then return your \$11.98, including any express charges paid by you.

AT THE BOTTOM OF THE PAGE we give a list of the different articles furnished in this complete outfit with a very abbreviated description of same, and opposite each article we name the average retail price of the different articles we furnish, although in many stores these articles sell at much higher prices. Remember, the prices named below are merely to give you an idea of the average market value of the items.

OUR PRICE OF \$11.98 PAYS FOR EVERYTHING, THE HIGH GRADE GUN AND EVERY ONE OF THE 21 DIFFERENT ITEMS INCLUDED IN THE BIG OUTFIT.

QUALITY OF OUTFIT.

Limited space prevents our describing each of the 21 different items in detail, but we wish to state that they are of the highest grade, the best of everything and if you do not find them so, understand, that you are to return the outfit and get all of your money back, including the transportation charges paid by you.

DESCRIPTION OF GUN.

This is a genuine American made high grade gun, made at Norwich, Conn., and should not be in any way compared with the many cheap imported or Belgian guns on the market. It can only be compared with guns that retail alone at from \$15.00 to \$25.00, for in this American made gun all parts are machine made and interchangeable. Every part is made true to gauge. They are all gauged to the thousandth part of an inch, built exceedingly strong, intended for hard usage, for long range use, for great penetration and close target.

These guns come in 12-gauge only. The barrels are made from genuine armory steel which adapts them to the use of either smokeless or black powder, preventing any possibility of accident; they are choke bored by the latest taper system; they have the latest type of matted top rib, extension lock rib, the latest type of shell extractor, heaviest and strongest double bolt construction.

FRAME. The frame is the highest type of gun construction, made with heavy barrels, low circular hammers, large straight plungers, new top snap break-bar lock construction, beautifully shaped triggers, accurate triggers and trigger action, the whole beautifully finished in handsome mottled decarbonized effect.

STOCK. The stock is made of selected walnut perfectly shaped, giving the gun a perfect balance, has full pistol grip fancy butt plate, fancy checkering on grip.

FORE END. The fore end is the genuine celebrated Deely & Edgepatent fore end. The illustration, showing the bottom of the gun, also shows the Deely & Edgepatent fore end, a fore end construction which is only used on the highest priced guns. The stock and fore end is made of selected walnut and beautifully checkered, as illustrated.

THE OUTFIT CONSISTS OF THE FOLLOWING ARTICLES,

which usually retail at the following prices at most stores, and at some stores much more:

No. 1. Loading Block for holding 20 shells.....	\$0.25	No. 13. Wad Cutter, best steel.....	\$0.15
No. 2. Jointed Cleaning Rod.....	.25	No. 14. One Box Loaded Shells.....	.45
No. 3. Wool Swab for cleaning rod.....	.05	No. 15. Webbing Shell Belt, 12-gauge.....	.50
No. 4. Wire Scratch Brush for cleaning rod.....	.05	No. 16. Victoria Gun Cover, made of 8-ounce canvas.....	.50

No. 10. Ring Shell Extractor.....	.10		
No. 11. Recapper, Japanned.....	.10		
No. 12. Interchangeable Powder and Shot Measure.....	.10		

This makes all told twenty-one pieces and the above prices are what dealers generally charge you, which would be a total of \$6.00.

The outfit alone is worth \$6.00, while we sell you this high grade gun and the complete outfit described above for only \$11.98.

WE ARE THE LARGEST DEALERS IN GUNS, gun implements, accessories and sporting goods in the world. We own the largest gun and revolver factories in the world at Meriden, Conn., and we have contracts for the entire output of other gun factories. This alone makes possible our extremely low prices.

This handsome double barrel breech loading shotgun comes in 12-gauge, 30 or 32-inch barrels as desired. Weights 7 1/4 and 8 pounds.

No. 6P340 Our high grade double barrel breech loading shotgun in 12-gauge, 30 or 32-inch barrels, and outfit complete length of barrels of gun, chest measure of hunting coat and size of cap. Price, for the gun and outfit as above illustrated, only \$11.98. Weight, packed for shipment, about 19 pounds.

OUR \$10.99 DOUBLE BARREL AMERICAN BAR LOCK WONDER

Manufactured by the American Gun Co., New York, N. Y.
FACTORY AT NORWICH, CONN.

How the bird appears when using our Globe Sight.

FOR \$10.99

WE OFFER THIS STRICTLY HIGH GRADE, A1, AMERICAN MADE, EXTRA STRONG, FULL PISTOL GRIP, DOUBLE BARREL BREECH LOADING SHOTGUN, as the superior of any imported machine made gun sold generally at \$20.00 to \$30.00, and the first time a strictly high grade, bar lock, choke bored, genuine laminated steel, breech loading, genuine American gun WAS EVER OFFERED AT ANYTHING LIKE THE PRICE.

OUR PATENT GLOBE SIGHT FURNISHED FREE WITH THIS GUN.

This sight can be instantly adjusted to, or taken off from any shotgun without in any way marring or scratching the gun barrel. When the gun is aimed at a bird on the wing, no matter how swiftly it flies or how inexperienced the marksman it describes a large circle around the bird, and once the bird is within the circle and you fire you are sure of hitting the mark. It makes possible the most effective and accurate wing shooting, even in the hands of an inexperienced hunter. This sight really doubles the value of any shotgun for actual service. Once you have used our sight, you would not be without it even at the cost of the gun, and yet we furnish it free with this and all other shotguns. Understand, we own and control the patent. The sight can only be had from us. It is free with this gun.

BORED FOR NITRO POWDER

No. 6F342
ORDER BY NUMBER.

WHERE
THE GUN IS
MADE.

THIS GUN is made for us under contract by a large manufacturer who has gained the reputation for the manufacture of strictly high grade breech loading shotguns, guns that are made and offered in competition with other American guns that sell at double the price. Only skilled mechanics are employed.

Every piece and part that enters into this gun is made true to gauge and is interchangeable. The locks are rebounding and all have double locking bolts.

\$10.99

GENERAL DESCRIPTION.

BARRELS. The barrels are genuine laminated steel. They are made on the most approved process. Every barrel, before leaving the factory, is thoroughly tested with nitro (white and black) powder, tested to the greatest possible strain. These barrels are choke bored on the latest taper system, with a view to giving the most perfect target, the greatest possible penetration, to insure long range effect such as can be had only from the highest grade American guns made.

FINISH OF BARRELS. These barrels are given an extra fine finish and polish. The illustration will give you some idea of the effect worked out on the coloring process, the barrels being browned, colored and decorated by the latest barrel coloring process.

RIB. The rib to these barrels is handsomely finished, beautifully matted, perfectly leveled and comes with a heavy genuine Edwards' lock extension rib.

EXTRACTOR. These barrels are fitted with the very latest shell extractor, as illustrated; positive in its action.

EXTRA HEAVY BOLTS. These barrels are fitted with extra heavy double bolts, made very strong, thus insuring perfect lock and a strength from which the gun, even with the use of white or black powder, cannot give out or wear loose or shaky.

LENGTH OF BARREL. The American Wonder comes with either 30 or 32-inch barrels, as desired. In ordering, be sure to state whether you wish 30 or 32-inch barrels.

WEIGHT. The American Wonder is made to weigh from 7 3/4 to 8 pounds.

AMERICAN WONDER FRAME.

This gun is made with one of the heaviest, strongest and most durable steel gun frames made. The frames are extra heavy, strong in every part, extra well finished, case hardened and handsomely colored. They have the latest nitro firing pins, handsomely shaped; perfect acting top snap break, neat circular rebounding hammers, very strong genuine bar lock, with steel hardened interchangeable parts, perfectly finished.

STOCK. The stock is made from carefully selected straight grained walnut, thoroughly seasoned. It is perfectly shaped. The maker of these guns employs only the most expert stock makers. The stock is fitted to the frame by an automatic stock fitting machine that insures a perfect fit and the frame and stock are so constructed at the point of construction as to insure the strongest kind of a stock where many guns are weakened. This stock is full pistol grip with a handsome fancy cap on grip. The grip is handsomely checkered, as illustrated. Stock comes with handsomely ornamented butt plate.

FORE END. Our American Wonder is fitted with the Deely & Edge automatic fore end, made of selected walnut, handsomely checkered as here illustrated, beautifully finished, self locking in its application.

GAUGE. These guns come in 12-gauge only, but in shooting qualities, penetration, pattern and for long range work they are the equal of any ordinary 10-gauge American kinds of game for which a shotgun is used this American Wonder is perfectly suited.

SAFETY AND DURABILITY. First, in shooting hard, long range shooting, extra penetration, extra target, the question of strength, durability and safety has not been overlooked, and while it is not safe to use white or nitro powder in any cheap foreign made guns or many of the cheap American guns manufactured, this gun is built for shooting any white powder of proper load that can be safely used in any of the highest priced American guns made. It has been built extra strong, of the best material, strongly locked, strongly reinforced, especially strong where many guns are weak, all with a view of giving you a gun that will be always safe, always reliable; a gun that will last for years and give the very best of satisfaction.

SHOOTING QUALITIES. Too much cannot be said for the shooting qualities of our \$10.99 Wonder. Nothing has been spared to make this gun in shooting quality the equal of any gun made, regardless of price. The gun was in every part designed by one of the best and most practical gun makers in this country. It was designed after considering all the strong points for shooting work of all other American guns, and has been built with a view of embodying the strong features of other double barrel breech loading American guns with the defects of none. If a strong point, one that would add to the target or penetration, anything that would help for long range shooting, was found in another American gun, it has been applied in this, so that we feel perfectly safe in assuring the purchaser that he will find in this gun a gun that will equal if not outdo in strength and shooting qualities any other gun he has ever used.

12-GAUGE LOADED SHELLS, \$1.32 PER 100. See page 164

HOW WE MAKE THE PRICES SO LOW.

While a thoroughly reliable genuine American Double Barrel Breech Loading gun has never been sold at anything beginning to approach our special \$10.99 price, determined that we would get out a genuine American gun at as low or a lower price than the very inferior machine made foreign or Belgian gun could be sold, we took the matter of manufacturing this high grade gun up with a celebrated New England gun maker, figuring how, by running a certain branch of his factory at its utmost capacity, the price of a reliable gun might be greatly reduced. We found by employing the very highest type of automatic working machinery for making the different parts, by buying the raw material, including the drop forgings, steel, walnut, etc., in large quantities, and by running the factory to its utmost capacity, the actual factory cost, the cost of material and labor, could be reduced even below what we ourselves or the manufacturer had any idea of reaching, and to this net factory cost, the cost of material and labor, we add our one small percentage of profit and name you the heretofore unheard of price of \$10.99.

THE BARRELS ON THESE GUNS are all genuine laminated steel, and not imitation laminated steel as sold by some houses. We guarantee them just as represented or money refunded. **NO OTHER HOUSE** will give you such a guarantee on a gun at the price which we offer you this gun, and it is certainly the best gun value offered by any house in the United States.

ABOUT SMOKELESS POWDER. We have heard of a great many guns bursting through the use of home made smokeless powder, containing chlorate of potash, and we desire to caution our customers to be very careful how they handle such home made powders, as expert powder makers inform us they have never been able to control the detonating qualities of chlorate powders. We will not guarantee any gun with chlorate powder.

No. 6F342 Our American Bar Lock Wonder, 12-gauge, 30 or 32-inch barrels; weight, 7 3/4 to 8 pounds. State length wanted. When boxed for shipping, weight is about 14 pounds. Price..... **\$10.99**

WHEN ORDERING PARTS for guns, rifles or revolvers, always give catalogue number in full, also give the name, caliber, gauge of the gun, rifle or revolver. This will save us from writing you for this information.

NOTICE. The Canadian government charges 30 per cent duty on guns shipped into Canada from this country.

\$2.96 BUYS THE LONG RANGE WINNER

OUR \$2.96 PRICE is made possible by reason of our building this gun in our own factory. We started the manufacture of these guns with a view of giving our customers something better than the regular grade of single barrel guns turned out by factories generally. We started our own factory that we might produce a gun free from all the weak points of the many guns that are being manufactured under competitive conditions that compel the manufacturer to slight vital parts in order to meet the price made by other makers.

OUR METHOD. By our system each barrel is choke bored for strong and long range shooting, made and bored to shoot either white, nitro or black powder, is more highly polished, better finished and blued than any similar gun on the market. We have installed special machinery for making every screw, every piece and every part for the milling, cutting, polishing, shaping, making and fitting of stock, the most economical and finest case hardening plant, everything combined to turn out a perfect gun at the very minimum of cost, and to this actual cost we add our one small percentage of profit and quote the ridiculous low price of \$2.96.

WILSON'S WELDED STEEL.
TAPER CHOKE BORED

WE LOCATED our single gun factory at Meriden as a matter of economy and efficiency of labor. Meriden, Conn., is located in the very center of the gun and revolver making industry of America. Within a short radius of our factory, nearly all the American gun and revolver factories are located, hence we have the most skilled labor concentrated and always at our disposal. The supply usually being in excess of the demand of other factories, we are able to build this gun at a lower wage scale at Meriden than at any other point in the country. All this helps to make possible our special \$2.96 price.

COMPARE THIS, OUR \$2.96 LONG RANGE WINNER, breech loading guns on the market, those catalogued by other houses at \$4.50 to \$6.00, those that retail generally at \$5.00 to \$8.00, and if you do not find our Long Range Winner at \$2.96 the equal of any other shell ejecting breech loader, you can return the gun to us at our expense of express charges both ways, and we will immediately return your money.

GENERAL DESCRIPTION. Our Long Range Winner is fitted with blued finish genuine armory steel barrel, top snap brake, rebounding hammer, half pistol grip walnut stock and walnut fore end, case hardened frame, automatic shell ejector, which throws the shell automatically when you open the gun, and fancy butt plate.

SPECIAL POINTS OF EXCELLENCE. We claim for the Long Range Winner superiority over other single barrel guns, especially on the following points: First, genuine armory steel barrels, choke bored, and finished in our own factory, smoother, stronger and better than other makers furnish, and bored for nitro or black powder.

RUSTED AND DAMAGED GUNS. Do not return to us a gun, revolver or rifle which is rusted, pitted or has the finish worn off, for we have no way of selling these guns. If you have a gun, revolver or rifle which needs repairing, first write us fully describing the article and what is broken, as we may be able to send you the part necessary, thus saving you the express charges on the gun both ways.

MISFIRES. Misfires are often caused by shells which have been reloaded, as follows: When putting on a new primer with a common recapper, the shooter forces the primer so hard as to cause the head of the shell to become concaved in the center, which renders the firing pin incapable of exploding the primer. Do not use too much pressure when recapping a shell.

OUR COMBINATION SINGLE BARREL SHOTGUN AND OUTFIT, COMPLETE, \$3.98.

\$3.98

OUR PATENT GLOBE SIGHT is free with this gun and outfit.

GENUINE ARMORY STEEL
TAPER CHOKE BORED

FOR \$3.98

ing shotgun must have, an outfit that would retail anywhere at from \$3.00 to \$5.00. We furnish the entire outfit, gun, implements and all, for only \$3.98.

We offer the High Grade Genuine American Made Pistol Grip Breech Loading Shotgun, such a gun as retails generally at \$6.00 to \$8.00, together with a complete gun outfit, such an outfit as every owner of a breech loading gun must have, an outfit that would retail anywhere at from \$3.00 to \$5.00. We furnish the entire outfit, gun, implements and all, for only \$3.98.

Give waist measure when ordering.

SEND \$3.98 and we will send you this gun and complete outfit, exactly as illustrated and described, and it will go to you with the understanding and agreement that you can give the gun ten days' trial during which time you can shoot it and put it through every test, compare it with guns that retail at from \$5.00 to \$8.00, compare the implements and supplies with those of any other outfit which you could buy at home from \$3.00 to \$4.00, and if you do not find this gun and outfit satisfactory in material, workmanship, finish, if it is not satisfactory in every way, and you do not find that you have made a big saving in cost, you can return the gun and outfit to us at our expense and we will immediately refund the \$3.98, together with any express charges you may have paid.

THE PRICE, \$3.98, is made possible because, first, we are one of the largest manufacturers in our own factory in Meriden, Conn., and through our own factory we are able to contract with other factories on more favorable terms than any other buyer or seller of guns and sporting goods. No such price has ever before been attempted nor could any other concern think of making such an offer.

The gun is strictly high grade, one of the best American made single barrel breech loading shotguns on the market. The tools and implements are also of the highest standard of quality, the very best, and fully guaranteed.

DESCRIPTION OF THE GUN.

The gun is 12-gauge, and the barrel is made from genuine armory steel, made especially so that either smokeless or black powder can be used. They are choke bored by the tapered taper system. They have the latest style of shell extractor (not ejector), beautifully finished, guaranteed for long range hard shooting, make a close target and the gun has derful penetrative powers.

AT \$2.96, reduced from \$5.50, our original price, and afterward reduced to \$4.45, we now offer the genuine Long Range Winner as one of the highest grade automatic shell ejecting, single barrel breech loading shotguns made for white or black powder.

\$2.96 BARELY COVERS THE COST of material and labor in our own gun factory, with but our one small percentage of profit added. It is lower than dealers can buy in any quantity, a gun the equal of guns that retail everywhere at from \$5.00 to \$8.00.

Loaded Shells, \$1.32 per 100. See page 164.

Our Globe Sight is Free with this Gun.

**AUTOMATIC SHELL EJECTOR,**

stronger, more sure and less liable to get out of order than any other single barrel shell ejecting device known.

FRAME AND ACTION. The strongest, handsomest, most case hardened frame and action used on a single barrel ejector.

LOCKING BOLT. The heaviest, strongest and best locking bolt used on any single gun.

SHOOTING QUALITIES. Above all, we claim for our \$2.96 shooter of any single barrel gun of this type on the market. Our barrels and frames are made and the gun is hung in a way that insures a better target at longer range than you will get from any single barrel gun you can buy from any other house at \$1.00 to \$3.00 more money.

UNDERSTAND, we accept your order and money with the agreement to immediately return your money to you and pay the express charges both ways if the gun is not found perfectly satisfactory. **BE SURE TO STATE LENGTH OF BARREL WANTED.**

Catalogue No.	Grade	Style of Barrel	Gauge	Length of Barrel	Weight, about	Price
6F401	L. R. W.	Armory Steel	12	30 or 32 in.	6½ pounds	\$2.96

\$3.39 BUYS THE NEW WHITE POWDER WONDER

FITTED WITH AUTOMATIC SHELL EJECTOR.

AT \$3.39, REDUCED FROM \$7.00, OUR ORIGINAL PRICE, AND AFTERWARD REDUCED TO \$4.40, WE NOW OFFER THE GENUINE WHITE POWDER WONDER AS ONE OF THE HIGHEST GRADE AUTOMATIC SHELL EJECTING, SINGLE BARREL BREECH LOADING SHOTGUNS MADE FOR WHITE OR BLACK POWDER.

\$3.39 barely covers the cost of material and labor in our own gun factory with but our one small percentage of profit added. It is lower than dealers can buy in any quantity, a gun the equal of guns that retail everywhere from \$7.00 to \$10.00.

HOW WE MAKE THE PRICE \$3.39

WE OWN THE FACTORY in which these guns are made and control the entire output. The cost to us is gotten down to merely the cost of the raw material and labor, and to this we add our one small percentage of profit, making the heretofore unheard of price of \$3.39. This gun is made in our own factory at Meriden, Conn., and the factory is in charge of one of the best single gun makers in the world, and we believe under his management, utilizing the modern machinery we do, that we produce a better automatic shell ejecting single barrel shotgun at a lower cost than any other factory.

WE MAKE AND FINISH MORE BARRELS of this kind than any other maker, thus reducing the cost. On the item of barrels alone there is a saving to us in the cost of every gun over other manufacturers of about 50 cents. Where nearly all makers of single guns import the barrels, the barrels being made in Belgium, we make our barrels in our own factory from solid bars of genuine Armory steel. To make the barrels we buy the highest grade of genuine Armory steel in solid bars of about 12 foot lengths. We cut this steel up into lengths of 30 and 32 inches, and in a new improved automatic barrel boring machine we bore two barrels at a time, and by this process we not only reduce the cost of the barrels about 50 cents each, but we furnish a higher grade, truer, stronger, better finish, and hence a better shooting barrel than is furnished on any single gun made.

SPECIAL POINTS OF SUPERIORITY in the New Model White Powder Wonder Ejector over the many other single guns made: Genuine highest grade full Armory steel barrel, bored for black or white nitro powder, choke bored by the celebrated taper system; more perfect and more positive action; stronger built and lock mechanism; highest grade automatic shell ejector made; greater strength, accuracy and better finished frame; interchangeable and better finished parts, longer range, better target and more carefully tested. All these very essential points in the shooting and lasting qualities of a gun go to make our New Model White Powder Wonder Ejector superior to any of the regular factory made ejectors now on the market.

BROKEN PARTS ALWAYS REPLACED. If by accident or otherwise, any part should get broken or become lost, being interchangeable they can be readily replaced and can always be had from us at a very nominal charge.

FROM THE ILLUSTRATION, engraved by our own artist from a photograph, taken direct from our \$3.39 New White Powder Wonder Ejector, you can form some idea of the appearance of this gun, but you must see this gun, examine it, compare it with others, must put it to the test of its shooting qualities, compare its target, penetration, long range, killing effect, to realize fully what we have, from our own factory, from the material we ourselves control, from the workmanship we put on the gun by employing the very finest automatic machinery, attained in this justly termed New White Powder Wonder Ejector; the only white powder ejector American gun offered at \$3.39.

ABOUT SMOKELESS POWDER. We have heard of a great many guns bursting through the use of home made smokeless powder, containing chlorate of potash, and we desire to caution our customers to be very careful how they handle such home made powders, as expert powder makers inform us they have never been able to control the detonating qualities of chlorate powders. We will not guarantee any gun with chlorate powder.

GENERAL FINISH. This gun is gotten up to present a more symmetrical, shapely and in every way a better general appearance than the ordinary single barrel gun. With its neat stock, handsome butt plate, beautifully decarbonized frame and trimmings, highly finished blued barrel, nicely proportioned parts and fittings throughout, even at our special \$3.39 price, it is one of the handsomest single guns on the market.

GAUGE. This gun comes in 12-gauge only, and being made and bored for white or black powder, made extra strong throughout, the gun is suitable for any kind of shooting where any shotgun can be used suitable for game, geese, ducks, chickens, partridge, quail, snipe, rabbits, squirrels, etc.

LENGTH OF BARREL. The barrel is either 30 or 32 inches in length as desired. When ordering be sure to state the length of barrel wanted.

DETAILED SPECIFICATION. Genuine Armory steel barrel bored from the solid bar, choke bored by the celebrated taper system; very finest automatic ejector, heavy bolted, self locking, self compensating, interchangeable parts, beautifully case hardened; reinforced frame; barrel detachable from frame; rebounding hammer, latest top snap break, fine selected straight grain full pistol grip walnut stock, fancy butt plate to stock. Wt., about 6½ lbs.

ABOUT THE EXPRESS CHARGES. The gun weighs, packed for shipment, about 10 pounds, and you will find the express charges will amount to next to nothing as compared with what we will save you in price. The express charges will average for 300 miles, 40 cents; for 500 miles, 50 to 65 cents; for 1,000 miles and upward, 75 cents to \$1.00.

EXACT DESCRIPTION.

FRAME. The \$3.39 White Powder Wonder has one of the very strongest solid steel frames, made extra heavy, reinforced at all parts, nicely shaped, perfectly finished. It is given a handsome mottled finish on the outside. It has the latest rebounding hammer, positive springs, the very latest top snap break. The gun is the latest type of take-down or detachable model. By simply removing the thumbscrew the barrel and fore end can be detached from the frame.

THE BARREL is bored from a solid bar of the highest grade, extra fine, thoroughly tested genuine Armory steel, choke bored by the celebrated taper system, each barrel is blued, decarbonized finish, fitted with automatic shell ejector, one of the strongest, positive, perfect working automatic shell ejectors made, so constructed that when you open the gun the empty shell is automatically thrown clear from the gun.

The illustration shows the action of the shell as it is being automatically ejected. By this device there is no stopping to remove the shell by hand, it being thrown clear from your way ready to receive the new loaded shell. This makes possible very rapid firing; in fact, you can load and unload very much faster than with the ordinary extractor gun. The device is only appreciated by those who have used automatic shell ejecting guns, and such people would have no other; in fact with this single barrel automatic shell ejecting gun you shoot almost as rapidly and do almost the same execution that you can accomplish with a double barrel hammer breech loading shotgun.

STOCK. This gun is fitted with an extra quality, thoroughly seasoned straight grain walnut stock, with full capped pistol grip as illustrated, and the stock is fitted with a fancy butt plate. The fore end is of selected straight grained seasoned black walnut.

STOCK. This gun is fitted with an extra quality, thoroughly seasoned straight grain walnut stock, with full capped pistol grip as illustrated, and the stock is fitted with a fancy butt plate. The fore end is of selected straight grained seasoned black walnut.

WEIGHT, PACKED FOR SHIPMENT, ABOUT 10 POUNDS.

Our Globe Sight is FREE with this Gun.

COMPARE THIS, OUR \$3.39 WHITE POWDER WONDER with any of the single barrel, automatic shell ejecting, breech loading guns on the market, those catalogued by other houses at \$4.50 to \$6.00, those that retail generally at \$7.00 to \$10.00, and if you do not find our White Powder Wonder at \$3.39 the equal of any other shell ejecting breech loader, you can return the gun to us at our expense of express charges both ways and we will immediately return your money.

WE HAVE SUCCEEDED in turning out in our New White Powder Wonder Ejector, a gun combining the good points of all strictly high grade guns with the defects of none, and yet on a basis of the actual manufacturing cost, the cost of material and labor with but our one small percentage of profit added.

OUR BINDING GUARANTEE. Every New White Powder Wonder Ejector offered at \$3.39, is sent out under our binding guarantee, by the terms and conditions of which if any piece or part gives out by reason of defect in material or workmanship within one year from date of purchase, we will replace or repair it free of charge.

YOU SHARE IN OUR PROFIT.

We send you a valuable PROFIT SHARING CERTIFICATE and you can soon get something valuable, entirely FREE, as shown on the first pages.

Read our booklet of Useful Information to shooters, so you will familiarize yourself with your arms and you will have no accidents.

THE WORLD'S CHALLENGE AUTOMATIC EJECTOR, \$4.30

A GENUINE TWIST BARREL, FANCY CHECKERED FULL PISTOL GRIP, AUTOMATIC SHELL EJECTING, SINGLE BARREL BREECH LOADING SHOTGUN FOR ONLY \$4.30.

NOTE THE SPECIAL STRONG POINTS OF EXCELLENCE.

- No. 1. Genuine twist barrel. See our booklet explaining how twist barrels are made, and do not compare the genuine twist barrel with any of the plain steel barrels usually found in single guns. This is a genuine twist barrel, sometimes known as laminated steel.
- No. 2. Case hardened frame. The frame used in the World's Challenge Ejector is the very latest style, extra heavy and strong, beautifully mottled, case hardened finish effect, accurately milled and nicely fitted.
- No. 3. Full pistol grip. The World's Challenge Ejector has a good straight grained walnut stock and a full pistol grip. The stock is nicely shaped, close and firmly fitted, with the result that the gun hangs beautifully.
- No. 4. Checkered grip. The full pistol grip on the World's Challenge Ejector is nicely checkered by hand. Note the fancy checking as shown in the illustration, and bear in mind that none of the cheaper single barrel guns are finished in this way.
- No. 5. Taper Choke Bored. The World's Challenge Ejector is choke bored by the celebrated taper system. The barrel is so taper choke bored as to confine all the gas behind the charge, insuring the greatest possible penetration, and the barrels being twist or laminated steel, are of the very greatest strength, hence are perfectly safe for the use of either smokeless or black powder.

DON'T COMPARE THIS GENUINE

checkered grip, automatic shell ejecting, breech loading shotgun with any of the many cheaper grades of single barrel shotguns of which there are many on the market. This single barrel gun is made in our own factory at Meriden, Conn., and the barrels, frame, action, stock, in fact all the parts, all the material and workmanship are calculated to give our customers a higher grade single barrel breech loading shotgun than they could get from any other factory. If you want a cheaper single barrel breech loader, and yet a thoroughly reliable gun, select our Long Range Winner Automatic Shell Ejector at \$2.96, shown on another page; but if you want one of the highest grade single barrel guns made, a genuine twist or laminated steel barrel, a single barrel automatic shell ejector, combining the good points of all single barrel shotguns made with the defects of none, then pay a little more; add \$1.34 more to the price of our \$2.96 Long Range Winner and select this, the World's Challenge Ejector at..... **\$4.30**

Examine the Foster Rear Sight for single guns, on page 155. It is a wonderful adjunct to a single barrel gun.

THE WORLD'S CHALLENGE AUTOMATIC EJECTOR...

which we offer at \$4.30, is made in our own gun factory at Meriden, Conn., the most complete, up to date, thoroughly modern gun factory in America. We started this factory with a view of turning out a uniformly high grade of guns and revolvers, and by employing the most modern type of automatic gun making machinery, and buying our material in large quantities for cash, reduced the cost of manufacture, so that after adding our one small percentage of profit, we could furnish our customers direct from our own factory the

HIGHEST GRADE GUNS AND REVOLVERS

at but a fraction of the price charged by other makers. In our own factory at Meriden, using nothing but the most modern type of automatic gun making machinery, having no traveling salesmen, no high salaried officers, making no losses by bad debts, we can produce and sell direct to our customers the highest grade guns and revolvers at about one-half the price charged by others.

THE ILLUSTRATION

does not do the gun justice, since by picture we are unable to show the difference between a twist barrel and the plain steel barrel. We are unable to show satisfactorily the difference between this and a cheaper frame. The many points of excellence in this, OUR WORLD'S CHALLENGE EJECTOR, can only be appreciated when you have seen and examined the gun and compared it with other single guns, and particularly after you have put it through the test of long range shooting, and more particularly after it has stood the test of years of service.

WE FURNISH FREE

with every WORLD'S CHALLENGE EJECTOR at \$4.30 our own patent Globe Sight as illustrated.

THIS GLOBE SIGHT IS OWNED BY US

and can be had only from us, and is furnished free with every World's Challenge Ejector at \$4.30. You cannot afford to buy a single barrel shotgun from any other house when you can get our World's Challenge Ejector at \$4.30 and our patent Globe Sight attachment FREE. With this globe sight you can do wing shooting which it would be impossible to do without the sight. By the aid of this sight the most swift winged game can be

DETAILED DESCRIPTION.

THE BARREL. The barrel of the World's Challenge Ejector is twist, which is sometimes known as laminated steel, and is made by hand by skilled workmen, who have spent years of their lives learning this art, and no machine has ever been invented which could do this work. It is made by a hand welding process of iron and steel, which makes one of the strongest barrels conceivable, free from flaws and defects. All barrels in the World's Challenge Ejector are made with a view of using black or nitro smokeless powder.

STOCK. The stocks are made from carefully selected straight grain, well seasoned walnut, turned out and finished from the solid plank, and the full pistol grip is handsomely checkered.

FORE END. The fore end is made from the same grade of material as the stock.

PARTS. All the parts which go into this gun are made accurate and true to gauge and are interchangeable, so if you accidentally break a hammer top lever or similar part, it may be replaced without the assistance of a gunsmith.

CHOKE BORED. The World's Challenge Ejector Gun is choke bored on the latest scientific principles, choke bored by the taper system, which insures the best possible target at the longest possible range.

BUTT PLATE. Each gun is fitted with a handsome fancy butt plate of neat design.

EJECTING DEVICE. Our ejecting device is made with the fewest possible parts, which renders it less liable to get out of order than any other ejecting device made, and throws out the shell automatically when opening the gun.

HAMMER. The hammer is rebounding and comes back to half cock, so the gun may be opened without cocking the hammer.

GAUGE. The World's Challenge Ejector comes in 12-gauge only, and is bored for either black, nitro or smokeless powder.

LENGTH OF BARREL. These guns come in 30 or 32-inch barrel. When ordering, state which you prefer.

\$4.30

OUR PROFIT SHARING PLAN enables you to get back part of your money. Consider what you get FREE as shown on the first pages.

REMEMBER OUR LIBERAL TERMS

by which you can give this gun ten days' free trial, and if not found satisfactory you can return it to us at our expense and have your money returned to you. Remember, this is a genuine twist barrel gun, not a plain steel barrel gun. Note that

IT HAS A CHECKERED FULL PISTOL GRIP...

not a plain half pistol grip. REMEMBER, WE GUARANTEE it combines the good points of all high grade single barrel automatic ejectors, with the defects of none. It is, in short, the only single barrel shotgun to buy. There is no need of paying more money for any single barrel ejector made.

THE MAIN POINTS

to be considered when buying a single barrel breech loading shotgun are these: Are the barrels bored true to gauge, so they will shoot well? Are they so strong, they will withstand black, nitro or smokeless powder? Are the stocks well seasoned so they will not open in the grain after being fitted on the gun? Is the frame case hardened and strong? Is the hammer rebounding, and does it come back to half cock so you do not have to raise it every time you wish to open the gun? Is the automatic ejector simple, so that the gun can be taken apart to be cleaned?

ALL THESE POINTS

are covered in the World's Challenge Ejector, and we are satisfied that if you send us your order for one of these guns you will not part with it for three times the cost if you could not get another. Read our booklet of Useful Information to Shooters so you will become familiar with fire arms and the explosive nature of powder, as we wish our customers to have no accidents whether you buy guns of us or other houses.

Loaded Shells, \$1.32 per 100. See page 164.

Order our \$4.30 World's Challenge Ejector Gun and we will send it to you with the understanding and agreement that you can give it ten days' free trial, during which time you can put it to every test; you can compare it with other guns for long range shooting, for target and for penetration, for quality of barrels, for workmanship and finish, for strength and durability, and if you do not find our World's Challenge Ejector better than any single gun you can buy elsewhere at anything like the price, you can at any time within ten days return the gun to us at our expense and we will immediately return your money, together with any express charges you may have paid; further, we guarantee every piece and part of the material that goes into the construction of the gun. Any part proving defective by reason of defective material or workmanship within one year will be replaced or repaired free of charge.

WEIGHT, PACKED FOR SHIPMENT, ABOUT 10 POUNDS.
No. 6F422

Weight, packed for shipment, about 10 pounds.

THE BEST GUN MADE ONLY \$9.95

OUR CHALLENGE COMPARISON TEST OFFER.

DETAILED DESCRIPTION

A Few of the Many Special Features of the A. J. Aubrey Hammerless Single Barrel Breech Loading Shotguns.

FRAME. The frame is made of steel, with water table, the lugs of the barrel fitting strongly into the same, so that it will stand the maximum amount of shooting, no possibility of shooting loose. So far as we know, it is the only single barrel construction of the kind on the market, and such as you will find on \$100.00 double barrel ejector guns.

BARREL. The barrel is made from the best quality armory steel, Taper choke bored by the celebrated Taper system, fitted with automatic shell ejector, which throws the shell automatically with the opening of the gun, and it is the strongest, most positive, perfect acting, most effective and best made automatic shell ejector ever used in a single gun, equaled only by the most expensive shell ejector systems found in \$100.00 double barrel guns.

TOP LEVER. The top lever is of the new design, invented by Mr. Aubrey, and constructed with a cam motion, that by opening the gun, it simultaneously cocks the hammer, working very smoothly and easily, a feature not to be found in any other gun made.

THE LOCK. The lock is fitted on the trigger plate, which may be removed with the aid of a screwdriver in a few seconds, for oiling or repairing, by removing the two screws in the trigger plate and the two screws in the tang under and back of the top lever. This alone more than doubles the value of this gun over any other single gun made.

BARREL LUG. The barrel lug is made of the best steel, which will wear longer than any ordinary iron lug, such as is used on other single guns.

FORE END. The fore end may be taken off or put on the same as any double barrel shotgun, and is held fast to the fore end lug by two side springs; a feature of fore end fastening not to be found on any other single gun made. The fore end design is a novel feature, the shape of which is pleasing to the eye and more easily removed than any other fore end made, the wood part of which is made from well seasoned, straight grained walnut in a handsome diamond design checkering.

STOCK. The stock is made from well seasoned walnut lumber, with a handsome checkered pistol grip, with ornamented cap, shaped and aligned on the order of regular \$100.00 double barrel guns, and, in fact, in appearance, general outline, hang, construction and all is on the lines of the \$100.00 double hammerless gun.

LUG AND OILING DEVICE. All the lock parts are made of the very best tool steel, and with ordinary care should last the owner a lifetime. The main spring is a "V" shaped spring, which acts in combination as a hammer spring as well as a seat spring.

WATER TABLE. The water table construction is a feature that is distinctive in the Aubrey single barrel gun only, a feature of construction that you will find only on the most expensive double guns that sell at \$100.00 each and upwards.

SHOOTING QUALITIES. This gun is built with a view to giving you in a single gun, in shooting quality, in penetration, in pattern, in long range shooting, in fact, in every particular all the results that can possibly be attained in the highest priced double barrel hammerless ejector shotgun made, a gun that you would pay \$100.00 or more for, and we guarantee this gun to shoot as far, to give pattern and penetration equal to any gun made, single or double, regardless of name, make or price, and if you order this gun and do not find it all this, you can return it to us at our expense, and we will immediately return your money.

FROM THIS ILLUSTRATION of the working parts of the Aubrey single gun you can get just a little idea of how far we have gone beyond anything yet produced in single guns, and how closely we approach the highest priced double guns ever made.

The pushing to the right of the top lever "A" causes the cocking lever "B" to have a swinging motion, which gives to the locking bolt "C" a sliding motion, which causes the hammer "D" to be thrown into a cocked position and held there by "D" by the trigger "M." The letter "J" represents the safety lever "H" to be swung backwards in such a manner as to draw the safety rod "I" from its locked position on the trigger. The automatic safety rod "G" raising rearward, with the sliding motion of the locking bolt "C" when the gun is being cocked. The letter "K" represents the automatic ejector, which has a notch at its forward end which engages with a pin driven through the lug, which holds it in position until the gun is opened far enough for the shell to pass over the top of the frame, when it is released by being pushed from the pin in the lug by the end of frame when opening the gun.

FIGURE 3 shows the manner in which the lock, cocking and safety mechanism is fastened to the trigger plate.

THE ABOVE ILLUSTRATION AND DESCRIPTION of the working parts of the \$5.95 Aubrey Single Gun will give you just a little idea of the wonderful mechanism worked out in this most wonderful gun.

Be sure to state length of barrel wanted.

Catalogue No.	Grade	Style of Barrels	Gauge	Length of Barrels, Inches	Weight, Pounds	PRICE
6F424	A. S.	Genuine Armory Steel	12	30 or 32	6½	\$5.95
6F425	L. S.	Genuine Laminated Steel	12	30 or 32	6½	6.75

Weight, packed for shipment, about 10 pounds.

NOTICE the L. H. Foster rear sight for single barrel shotguns on another page. It's a wonderful help in "lining up" a single gun for good shooting.

SEND US \$5.95, give length of barrel which you prefer and we will send you this, our new improved 1906 Model, Genuine A. J. Aubrey Hammerless Single Barrel Automatic Ejector Shotgun, with the understanding and agreement that if you do not and it in every way the highest grade single barrel shotgun you ever saw, if you do not say it is worth a dozen of any other single barrel guns on the market, regardless of name, make or price, if you do not say it is far cheaper at \$5.95 than any other single gun would be for just one dollar, if you do not find it smoother, handsomer, better shooting, stronger, higher grade in every way, if you do not say that it carries an individuality, a finish, a workmanship, a style, a high grade effect not found in any other single gun made, if you do not find in this single gun every up to date feature that you will find in the highest grade double barrel hammerless ejectors that sell at \$50.00 to \$100.00 each, if it has not every earmark of every \$100.00 double barrel, automatic ejector hammerless gun, if it does not outclass, in every particular, any single gun yet produced, return it to us at our expense, and we will immediately return your money. Do not buy any kind of a single barrel gun until you see this. If all other makes of single barrel guns were sold at \$1.00 each, you could not afford to buy one even at \$1.00 until you had seen this new A. J. Aubrey hammerless single gun. Nothing like it was ever produced before, nothing on the market that resembles it, nothing that begins to approach it; it stands in a class by itself, higher grade in every detail, better in every piece and part than anything yet produced in a single barrel shotgun.

GENUINE ARMORY STEEL

WE SELL SINGLE BARREL BREECH LOADING SHOTGUNS as low as \$2.65; we sell hammerless ejector single barrel guns as low as \$3.92, and they are standard guns of good quality, they are the equal of shotguns sold by others at one to three dollars more money.

You will find them illustrated and described in this catalogue, but we sell no single gun in which we give so much value for the money, we or no other house sell any single gun that will in any way compare with this, the new improved A. J. Aubrey Single Barrel Ejector Hammerless Shotgun which we offer at \$5.95.

IT IS DIFFERENT FROM ANY SINGLE BARREL HAMMERLESS AUTOMATIC SHELL EJECTING BREECH LOADING SHOTGUN YOU EVER SAW.

YOU CANNOT COMPARE it in any particular with any other single gun on the market.

You really can compare it in quality only with the highest priced double barrel ejector guns, guns that retail at \$100.00 or more. In short, it has every feature found in the highest grade \$100.00 double hammerless guns, the same safety device, same style of frame, bolt action, lock work, finish and general mechanism, the same water table construction; it is a gun in a class by itself.

This A. J. Aubrey Hammerless Automatic Shell Ejecting Shotgun is made in our own factory, a factory we own, control and operate, the Meriden

Fire Arms Company, of Meriden, Conn. The gun is designed, modeled and made by that celebrated gunmaker, Mr. A. J. Aubrey, vice-president and general manager of the Meriden Fire Arms Company, the designer of a number of the highest grade guns on the market, a recognized authority as a maker of the highest grade fire arms produced.

DON'T BUY A CHEAP SINGLE BARREL GUN. By all means select this A. J. Aubrey gun. While we sell cheaper single barrel guns at lower prices, as good guns as others sell at prices much higher than ours, for the slight difference in cost you will get ten times the difference in value if you order this A. J. Aubrey at \$5.95. If you could see and compare this with any other single gun made before buying, you would have no other. It contains every high grade feature of every high grade double barrel ejector hammerless breech loading shotgun, with the defects of none, and is entirely free from any of the earmarks of cheapness, common to all other single barrel shotguns and common with the cheaper grades of double guns.

WANT OF SPACE prevents our going into detail as to the mechanical construction, the workmanship, the finish and more than a hundred little points of superiority in this gun over any other single gun made. We tell you what we can in the limited space, and urge that you let us send you this gun to see, examine and test in every way, of course, with the understanding that if it is not perfectly satisfactory, you can return it to us at our expense, and we will immediately return your money, together with any express charges paid by you.

PAT. APPLIED FOR

THESE ILLUSTRATIONS show the water table construction on the barrel, a construction found on no other single gun made, the same construction as is used on the highest priced ejector double hammerless guns, guns that sell generally at \$100.00 and upwards. **NO ILLUSTRATIONS, NO DESCRIPTIONS.** No explanation will give you any idea of the difference in the real value between this wonderful A. J. Aubrey hammerless ejector single gun and any of the many other grades of single guns on the market. There is no comparison; the difference in quality is many times the difference in price, therefore, if you want a single gun that outclasses anything heretofore produced, by all means send for this our A. J. Aubrey single ejector. Let us send it to you with the understanding and agreement that it must prove perfectly satisfactory to you, you must feel that this gun is cheaper at our special price of \$5.95 than any other single gun made would be at one-fourth the price, and remember, our \$5.95 price barely covers the cost of material and labor in our own factory, with but our one small percentage of profit added.

Our 36 and 40-inch SINGLE BARREL SHOTGUNS

BORED FOR NITRO POWDER

36 AND 40 INCH GENUINE ARMORY STEEL BARRELS

No. 6F510A

These Special 36 and 40-inch Barrel Guns are made of the best material throughout, with automatic shell ejectors, made on the latest improved

principle, choke bored by the latest taper system, fine quality of walnut stock, nicely checkered, and fore end nicely shaped and finished, as shown in the illustration; and bored for nitro or black powder. The automatic ejector device is very strong and simple and less liable to get out of order than any other device known. The frame is made from the best material that money can buy; the barrel from Wilson's best quality of Armory steel, and we consider it one of the best guns that was ever put upon the market. The frame and trigger guard are case hardened and beautifully finished; all are made with pistol grip walnut stocks, hand checkered. The hammer is hung in the center of the frame so as to strike the primer squarely, the butt plate is of ornamental design and the gun can be taken down by removing the patent fore end.

The Remington Semi-Hammerless Single Barrel Breech Loading Shotgun, top lever break, the best break made, blued armory steel barrel, choke bored, side choking lever, case hardened frame and butt plate, pistol grip stock, rebounding lock. The material, finish and shooting qualities are the same high standard as the Remington double barrel gun. Every gun is warranted perfect and a strong shooter. They are all put to a test before leaving the factory and none are allowed to go out until a perfect pattern has been shown. You take no risk in buying the old and reliable Remington.

Catalogue No.	Grade	Style of Barrel	Gauge	Length Barrel, inches	Weight, about	Price
6F515	No. 9	Armory Steel	12	30	6½ lbs.	\$6.75

Weight, packed in box, about 10 pounds.

BEWARE OF IMITATIONS. Many houses are selling guns that are similar, but not genuine. We guarantee our guns to be as represented or money refunded.

Examine the Foster Rear Sight for single guns on page 155. It is a wonderful adjunct to a single barrel gun.

TESTING SHOTGUNS. When testing a shotgun do not attempt to test it on a target 12 inches square, but take three or four sheets of newspaper, rest the muzzle on some solid object, and shoot at 40 yards. This will give you a chance to see how the shot groups and will not deceive you in case you shoot to one side of the target, which often happens, and shows only about half the pellets. After you get the target, draw a 30-inch circle around the shot, and you will find, as a rule, that any gun you get from us will make a satisfactory target. Always remember that the shot begins to fall at 40 yards. It cannot remain in the air. When a gun puts 60 per cent of the entire charge in a 30-inch circle it is considered a good shooting gun. If you live in Canada, the duty on guns is 30 per cent when shipped from the United States.

\$1.32 per 100 for black powder, \$1.49 for smokeless, buys the best grade 12-gauge loaded shells. See page 164.

SINGLE BARREL BREECH LOADER

OTHERS ASK

\$3.00 TO \$5.00

FOR \$2.28 WE OFFER YOU THIS NEW 1906 MODEL 12-gauge, hammer single barrel breech loading shotgun under our guarantee that it is in every way equal to single barrel breech loading shotguns that are being widely advertised and sold by other houses at \$3.00 to \$5.00.

If you want to buy a thoroughly reliable single barrel breech loading shotgun, a gun that is bored for smokeless or black powder, one that will kill at long range, a gun that is choke bored by the celebrated Taper system, then we especially urge that you select one of our higher grade guns, either our \$2.96 Long Range Winner, as shown on page 147, our White Powder Wonder, as shown on page 148, or, better still, our celebrated World's Challenge Ejector, as shown on page 149, which we furnish for only \$4.30, complete with genuine twist barrels, checkered grip, automatic shell ejector, all the very latest improvements, a better gun than you could buy elsewhere at less than double our price. However, if you want a single barrel breech loading shotgun at a low price, rather than buy any gun now being advertised by other houses at \$3.00 or less, or sold by retail dealers generally at \$3.00 to \$5.00, then send us an order for this single barrel gun, enclose our special price, \$2.28, and we will send the gun to you with the understanding and agreement that if you do not find it satisfactory, and in every way equal to any single barrel breech loading shotgun you can buy from any other catalogue house at \$3.00 or less, the equal of single barrel guns that retail dealers sell at \$3.00 to \$5.00, you can return it to us at our expense and we will immediately return your money.

In your own interest, to give you the strongest, best shooting and best wearing gun, the greatest value possible for your money, we especially urge that you select our celebrated World's Challenge Automatic Ejector, as shown on page 149, and as offered by us at \$4.30.

This, our \$2.28 gun, has blued steel barrel, strong frame and breech, top snap break, straight grained black walnut stock, pistol grip, black walnut fore end, ornamental butt plate, case hardened frame, rebounding hammer, comes in either 12 or 16-gauge, as desired, offered in 12-gauge at \$2.28, in 16-gauge at \$2.48, under our guarantee that it is equal to any single barrel gun advertised by any other house at \$3.00 or less, equal to guns sold by retail dealers at \$3.00 to \$5.00.

Catalogue No.	Grade	Style of Barrel	Gauge	Length of Barrel	Weight of Gun	Price
6F530A	N. V.	Blued	12	30 inch	6½ to 6¾ lbs.	\$2.28
6F530B	N. V.	Steel	16	30 inch	6¼ to 6½ lbs.	2.48

Weight when packed for shipment about 10 pounds. Understand, we furnish this gun at \$2.28, guaranteeing it equal to guns that others advertise at \$3.00 and dealers sell at \$3.00 to \$5.00; but to get the most possible for your money, we urge you to select our World's Challenge Automatic Ejector, shown on page 149, which we sell at \$4.30 under our guarantee that it is the equal of guns others sell at double the price or more.

OUR 1906 CRESCENT GENUINE TWIST BARREL TAKE DOWN GUN, WITH ALL MODERN IMPROVEMENTS.

Our Patent Globe Sight is Furnished FREE with this Gun. 16-GAUGE ONLY. READ THE DESCRIPTION. Choke Bored.....\$4.08. Examine the Foster Rear Sight for single guns on page 155. It is a wonderful adjunct to a single barrel gun.

BORED FOR NITRO POWDER.

No. 6F533

Order by Number

OUR NEW CRESCENT TWIST SINGLE BARREL GUN

Is one of the best single guns made. This gun is made on modern lines and in the most approved manner to shoot any proper load of black or smokeless powder. It has fine laminated steel or twist barrel, center hammer, patent top lever break, pistol grip stock, rebounding hammer, fancy butt plate, and is choke bored. These new guns, as now made for us, leave absolutely nothing that is to be desired in a first class single gun, as they are a combination of every real improvement of merit. The barrels used are genuine laminated steel or twist of the best quality, imported especially for them. These guns make an average target of 560 pellets in a 30-inch circle at 40 yards. Load used, ¾ drams black powder, 1 ounce of No. 8 shot. Weight, packed in box, about 10 pounds.

No. 6F533 16-gauge, 30-inch barrel; weight, 6½ pounds. Price.....\$4.08
12-GAUGE LOADED SHELLS, \$1.32 PER 100. SEE PAGE 164.

OUR 16-GAUGE ARMORY STEEL AND TWIST BARREL AUTOMATIC EJECTOR SINGLE GUNS. 12-GAUGE LOADED SHELLS, \$1.32 PER 100.

See page 164. Our Patent Globe Sight is furnished FREE with these Guns.

\$3.78 and \$4.55

BORED FOR NITRO POWDER.

Our \$3.78 Gun is fitted with genuine armory steel barrel and our \$4.55 16-gauge Ejector Single Gun is fitted with a genuine twist barrel; all have walnut pistol grip stock, walnut fore end, bored smooth and true to gauge, choke bored for field shooting and has fancy butt plate. The hammer is hung in the center so as to strike the cartridge squarely. The automatic ejector device is very strong and simple and cannot get out of order. The barrel is detachable, making it convenient to carry the gun apart in a Victoria style gun case. It has rebounding hammer, top snap break, and the frame and trigger guard are case hardened and beautifully finished. The shell is thrown out automatically when you open the gun. State length of barrel.

Weight, packed for shipment, about 10 pounds.

OUR BOX FRAME SINGLE BARREL HAMMERLESS AUTOMATIC EJECTOR, REALIZING THAT THERE IS A MARKET

for a single barrel hammerless shotgun at a popular price, we have closed a contract with an eastern manufacturer for a large quantity of Box Frame Single Barrel Hammerless Shotguns with automatic ejector, and we are giving our customers the benefit of our large contract by furnishing this gun at the manufacturing cost, adding our one small percentage of profit. **IN ORDER TO GIVE OUR CUSTOMERS** a better value and a better gun than can be had from any other house at \$3.92, we have stipulated these must be manufactured from the best material that money can buy, the barrels must be made from the very best armory barrel steel and all other parts of the gun must be proportionately good in quality. **THE BARREL** is made from the best quality of armory barrel steel, taper choke bored for black or smokeless powder at \$3.92, and for 75 cents more we furnish the same gun with genuine laminated steel or twist barrel.

THE STOCK is made from well seasoned walnut, the pistol grip is fitted with an ornamental cap on the pistol grip, nicely checkered, and the butt is fitted with an ornamental butt plate. The fore end is also fitted with well seasoned straight grained walnut, nicely finished and nicely shaped, as shown in the illustration.

\$3.92

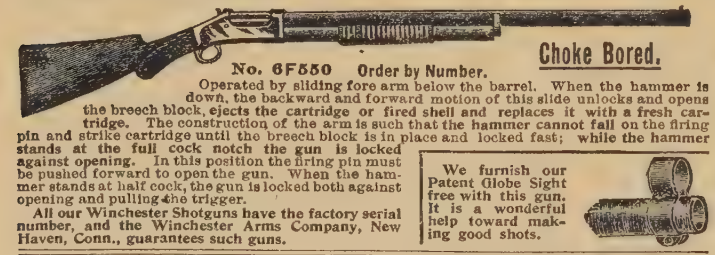

No. 6F537 THE FRAME is made of steel and the lock works are easy of access. The top lever is so constructed that it is next to impossible for it to get out of order. **WHILE WE HIGHLY RECOMMEND** this gun as being positively the best hammerless single gun upon the market at \$3.92, a gun that will give you good satisfaction, a gun that is good in every way, a gun that has strong shooting qualities and good penetration, a gun which we know will please you at our popular price of \$3.92 with armory steel barrels, or 75 cents extra for genuine laminated steel or twist barrels; but if you wish a very high grade gun, one that handles and is lined up very much like a double barrel gun, we refer you to the A. J. Aubrey single barrel hammerless gun, which we illustrate and describe on another page, as the value in every way, a gun that has strong shooting qualities and good penetration, a gun which we know will please you at our popular price of \$3.92 with armory steel barrels, or 75 cents extra for genuine laminated steel or twist barrels.

A. J. Aubrey single barrel gun which is positively the highest grade single gun made, regardless of name, make or price. It is impossible to make a higher grade gun at any price.

WINCHESTER MODEL 1897. REPEATING SHOTGUN, PRICED AT \$16.10

THIS GUN IS KNOWN AS THE WINCHESTER PUMP GUN. MODEL 1897. For an extra inducement on this gun, equal to a BIG DISCOUNT, see Profit Sharing Dept. on first pages. While we will gladly furnish this Winchester Repeater for only \$16.10, we can furnish you the celebrated Take Down Model Marlin Repeating Shotgun, a gun we consider worth \$10.00, more for only 40 cents additional for a take down gun, only \$16.50, as shown at bottom of page, No. 6F580. If you want a repeating shotgun we would advise by all means that you order the Marlin Take Down Repeater, No. 6F580, at \$16.50.

No. 6F550 Order by Number. Operated by sliding fore arm below the barrel. When the hammer is down, the back ward and forward motion of the slide unlocks and opens the breech block, ejects the cartridge or fired shell and replaces it with a fresh cartridge. The construction of the arm is such that the hammer cannot fall on the firing pin and strike cartridge until the breech block is in place and locked fast; while the hammer stands at the full cock notch the gun is locked against opening. In this position the firing pin must be pushed forward to open the gun. When the hammer stands at half cock, the gun is locked both against opening and pulling the trigger.

All our Winchester Shotguns have the factory serial number, and the Winchester Arms Company, New Haven, Conn., guarantees such guns.

Catalogue No.	Grade	Style of Barrel	Gauge	Length of Barrel	Number of Shots	Weight	Price

Weight, packed for shipment, about 14 pounds.

MARLIN 6-SHOT REPEATING TAKE DOWN SHOTGUNS, \$16.50. The Marlin Take Down Repeating Shotgun, model 1898, can be taken apart and put together very quickly and easily. Made in 12-gauge, 30-inch barrel only. Weight, about 7 pounds. Barrel made of blued smokeless steel, choke bored, guaranteed for nitro powder. Magazine grip stock. This gun has been tried and thoroughly tested by the best shooters in the country and found to be perfect in every detail. Magazine holds five shells, and one in the chamber, making six shots.

A FEW WORDS ABOUT MARLIN SHOT-GUNS AND RIFLES. Mr. Marlin was the original maker of the Ballard Rifle, which was so absolutely perfect in every detail, and this policy has been pursued by the Marlin Company ever since. Later on the company made repeating rifles which immediately became popular with hunters, and in 1893 they put this present shotgun on the market, which has been growing more and more popular ever since. We cannot recommend Marlin goods too highly. Not only the best material enters into the construction and only the best skilled workmen are employed in the factory. If you wish a repeating take down shotgun, by all means order this gun.

Catalogue Number	Grade	Style of Barrel	Gauge	Length of Barrel	Weight	Price
6F580	A	Smokeless Steel	12	30 inches	7 pounds	\$16.50

Weight, packed for shipment, 14 pounds.

HOW GUN BARRELS BURST AND CAUTION TO SHOOTERS. FOLLOW THESE INSTRUCTIONS and you will never have a burst gun or rifle barrel. Do not accidentally put two charges of smokeless powder in the shell, always look through the barrels before loading and see that there is nothing in them. Don't ram the wad edgewise into the powder, nor crimp the shell more than 1/4 of an inch.

DON'T USE A Mallet for ramming the powder, use hand pressure. Don't rest the muzzle on the ground, nor leave the gun in the bottom of a boat or buggy, for something is liable to get into the barrel in this way. When using 12-gauge brass shells use 10-gauge wads so they will not get loose in the shell and bulge the barrel. If you get a bullet stuck in the barrel don't try to shoot it out or you may bulge the barrel. No manufacturer is held responsible for a burst gun or rifle barrel, because barrels are made to withstand a greater bursting strain than you can possibly get from any factory loaded ammunition. When a gun barrel bursts at the breech or chamber it is caused by some obstruction, such as a dent, snow, water, moss, mud, etc., and will generally show a distinct ring inside the barrel. Nitro powder should only be used by people familiar with it; and dense nitro powder should be weighed by an apothecary's scale and not measured. Chlorate of potash powder should never be used. We will not guarantee any gun with chlorate powders.

GUN AND RIFLE BARRELS can only burst by having some obstruction in the barrel or by overloading with nitro powder. We would like our customers to read this, for it will prevent accidents.

PLEASE OBSERVE THE FOLLOWING CAUSES for we are extremely anxious that our customers have no accidents with firearms, whether they buy them from us or some other house. Every gun or rifle which we offer for sale is bought from reliable manufacturers, made from the very best materials that money can buy, and is made to stand any proper load of nitro or black powder, but no matter how good or how strong the material is, you can burst the very strongest barrels by misuse or improper loading. Even an army cannon may be burst in this way. A strong rifle barrel, such as made by the Winchester Arms Co., which has a bursting strain limit of 40,000 to 80,000 pounds to the square inch, can be burst by misuse or carelessly loading smokeless powder, but no barrel will ever burst by using factory loaded ammunition, providing there is no obstruction or foreign substance inside the barrel.

\$3.92

Our Patent Globe Sight is furnished free with this gun. It is a remarkable assistance in shooting game on the wing.

THIS WELL MADE AND WELL FINISHED hammerless single barrel automatic ejecting shotgun is made on the box frame type, as shown in the illustration. The automatic ejecting device is a recent improvement on automatic ejectors and is very positive in its action. The cocking device is operated from the fore end, so that every time you open the gun to insert a shell the hammer cocks itself automatically and the gun is ready to shoot by pushing forward the safety slide just back of the top lever. The fore end is made on the spring locking principle, which may be removed in order to take down the gun and is fitted with a metal joint where it connects with the frame.

No. 6F537 THE FRAME is made of steel and the lock works are easy of access. The top lever is so constructed that it is next to impossible for it to get out of order. **WHILE WE HIGHLY RECOMMEND** this gun as being positively the best hammerless single gun upon the market at \$3.92, a gun that will give you good satisfaction, a gun that is good in every way, a gun that has strong shooting qualities and good penetration, a gun which we know will please you at our popular price of \$3.92 with armory steel barrels, or 75 cents extra for genuine laminated steel or twist barrels; but if you wish a very high grade gun, one that handles and is lined up very much like a double barrel gun, we refer you to the A. - 14 Trigger Spring.

especially an accuracy not found in any other rifle on the market at three times the price. For target shooting, target practice, for small game such as squirrels, rabbits, birds, etc., it is the equal of any rifle made. The barrels are blued steel finished, tapering gently from the breech to the muzzle, a finish not found on any rifle at within two or three times the price. BREECH LOADING DEVICE. The breech loading, or locking, extracting and loading mechanism, is as strong and as positive as any loading and extracting mechanism made on a breech loading gun. The lock parts being all made true to gauge, interchangeable and strong, having an exceptionally strong spring construction and a positive locking mechanism, a misfire is impossible, an explosion is impossible and the breech locking mechanism is so much firmer than on any other rifle on the market at within two to three times the price, that you get a greater penetration and a more accurate target. The extractor, a very ingenious device, is positive in its action and no cartridge can stick in the barrel that cannot be quickly extracted by this positive extractor device.

RAPID SHOOTING. The breech loading construction of the Atlas rifle is such that you can load or reload and shoot with great rapidity. As soon as you become accustomed to the handling of this wonderful little breech loader you will have no desire for a repeating rifle, since it is not only one of the strongest, safest and most accurate breech loading rifles made, but by its construction it is possible to load, fire and reload with wonderful rapidity.

SPECIAL FEATURES. This rifle is made with a front and rear sight, carefully gauged; has a strong trigger guard, nicely blued and finished, has the latest Atlas lock, half and full cock trigger and locking device.

STOCK. The stock is made of selected, full seasoned, straight grained black walnut, nicely finished.

TAKE DOWN SYSTEM. This is one of the best take down rifles made. One screw in the fore end of the stock immediately in front of the trigger guard removes and the barrel is then free from the stock. In this shape it can be carried in a small space, put in a very small gun or rifle cover, making it most convenient to carry. 19 cents per hundred buys 22-caliber cartridges.

OUR FREE TRIAL OFFER. As a guarantee that this, our new 1906 model, 22-inch barrel, breech loading Atlas rifle which we offer at \$1.69 is the equal of any 22-caliber, 22-inch barrel rifle you can buy elsewhere at two to four times the price, we make this free offer:

WE OWN THE FACTORY THAT MAKES THIS RIFLE.

By purchase we became owners of everything connected with the plant. We bought the tools, machinery, patents and all. We have greatly improved the rifle, increased the manufacturing capacity, thus greatly lowering the cost of production, and we give you all the benefit, all the saving in cost, all the betterments in quality, all the saving in expense, selling expense and losses of the old factory; all of this goes to you in our great offer of the new 1906 model 22-inch barrel take down Atlas rifle for only \$1.69. Our many improvements over the Atlas rifle, which heretofore retailed at \$4.00 to \$5.00 and which wholesaled at \$2.25 to \$2.75, and which we are now selling for only \$1.69, have been brought about by new and better machines and tools, general remodeling, better materials, more skilled mechanics, better inspection, more thorough and better tests.

DETAILED DESCRIPTION.

BARRELS. The barrels are 22 inches long. Note, you can get a 22-inch rifle barrel only in target rifles that others sell at two to four times the price. The barrels are made extra heavy from finest crystal carbon rifle drill steel, especially prepared, extra well finished, beautifully blued. The rifle is bored to shoot all three of the 22-caliber cartridges, either a short or long rifle or long cartridge or BB caps, and in the boring it is rifled by the same process, with the same care, the same accuracy and finish as the boring and rifling in the most expensive rifles made, and as a result you get a trajectory, a velocity and more

OUR 30 DAYS FREE OFFER.

Send us \$1.69, and we will send you this rifle with the understanding and agreement that you can give it thirty days' trial, during which time you can put it to every test, test it for target practice, for killing small game, compare it for accuracy with any single shot breech loading rifle made, and if at any time during the thirty days you become dissatisfied with your purchase, if you are not convinced that you have gotten such a rifle as you could not get elsewhere at less than two to three times our price, you can return it to us at our expense, and we will immediately return your money.

THE MOST ECONOMICAL RIFLE FOR TARGET PRACTICE.

At 19 cents per hundred we sell the highest grade 22-caliber cartridges made, more than five shots for one cent. These cartridges are good to shoot in this rifle for target practice or for small game, and there is no better ammunition and no other regular ammunition that can be used for target practice at so small a cost.

At \$1.25 per thousand, eight shots for one cent, we furnish high grade BB caps which shoot in this rifle. This is an ideal ammunition for indoor or out of door target practice. Use these BB caps in this rifle and you have an ideal outfit for target practice. It can be shot indoors, in the basement, in the attic, in the barn, and affords unusually interesting amusement in winter. In the summer the target can be placed out of doors.

Our \$1.69 price is the manufacturing cost to us in our own factory, with but one small percentage of profit added. It's the actual cost of material and labor, with but one small percentage of profit added. It's a great reduction from the price that the Atlas factory formerly sold this same rifle to dealers in large quantities, and yet the rifle has been wonderfully improved. The barrel has been lengthened to 22 inches, it is now made tapering shape, it is now rifled by the same process that the most representative rifles are rifled, it has been improved in every particular, and we offer it at the bare cost of material and labor, with but one small percentage of profit added, only \$1.69.

This wonderful new improved 1906 model, breech loading, 22-caliber, 22-inch model Atlas rifle, which we offer for only \$1.69, weighs about 2 1/2 pounds; is neat, showy, light, convenient and reliable, suitable for man or woman, boy or girl, suitable for every purpose that a high grade 22-caliber, accurate target or game rifle can be used.

No. 6F664 Our special price for the rifle all complete, exactly as illustrated and described. (If by mail, postage extra, 48 cents).....\$1.69

TARGET RIFLES.

THE GENUINE NEW PIEPER RIFLE FOR \$2.45.

With Remington Action. Good for 35 to 100 yards.

19 CENTS PER 100 FOR 22-CALIBER SHORT CARTRIDGES. See page 165. THE BEST BOYS' RIFLE MADE FOR SQUIRREL AND SMALL GAME.

The New Pieper Rifle. Patented 1897. This is the best boys' rifle made. It fills a long felt want, and is first class in every respect. This rifle has the celebrated Remington action, which is the best action used. It is entirely machine made. All parts are interchangeable, which is a great advantage. It shoots accurately, is adapted to and will shoot either 22-caliber No. 6F2336 or No. 6F2338 cartridge, or BB caps, and 22-inch fine rifled octagon barrel. Weights about 3 1/2 pounds. Just the rifle for squirrels, rabbits and small game. Don't buy a cheap rifle when you can get a genuine Pieper for \$2.45.

No. 6F665 Pieper Rifle. 22-caliber, 20-inch octagon barrel. Price.....\$2.45

Weight, packed for shipment, about 8 pounds.

THE STEVENS' CRACK SHOT TAKE DOWN RIFLE FOR \$3.00.

FOR \$3.00 we furnish you the STEVENS' CRACK SHOT RIFLE which is well worth \$5.00. This is a strictly American made rifle, smooth, well bored and well rifled, all the working parts are of steel and interchangeable, and if any part breaks we can furnish you another part to replace it. It is an excellent rifle for boys.

The CRACK SHOT RIFLE will shoot accurately and is chambered to take a BB cap No. 6F2331, No. 6F2332, or 22-caliber cartridges Nos. 6F2336, 6F2338 or 6F2340. We recommend using any of the above cartridges in it. It has a blued steel barrel, solid breech block, as shown in illustration, and can easily be taken apart by unscrewing the screw in front of the guard. We guarantee the stock to be of the best American walnut. The CRACK SHOT has 20-inch barrel and weighs about 4 pounds, and is good for 35 to 100 yards.

No. 6F666 Stevens' Crack Shot Rifle. 22-caliber, 20-inch barrel. Price.....\$3.00

Weight, packed for shipment, about 8 pounds

OUR NEW NO. 6 REMINGTON TAKE DOWN RIFLE, \$2.75

The New Remington No. 6 Take Down Rifle is placed upon the market with the view of giving the best possible value at a low price. This new No. 6 Remington Rifle is made from the best material that money can buy, and the shooting quality is of a high order, and each rifle is bored and rifled with the same accuracy and precision that follows the entire line of Remington rifles which have become famous for their shooting qualities. It is made in 22-caliber only, shoots the 22-caliber cartridges Nos. 6F2336 or 6F2338, and is good for 35 yds. No. 6F681 Remington Rifle No. 6, 22-caliber, 20-inch round barrel; weight, 3 1/2 pounds; walnut stock and fore end; case hardened frame; take down model. Weight, packed for shipment, about 8 pounds. Price.....\$2.75

OUR QUACKENBUSH JUNIOR RIFLE, \$2.76.

The Quackenbush Junior Rifle is practically the same as the Quackenbush Safety Rifle No. 6F674, except it has a nickel plated skeleton stock and metal fore end, as shown in the illustration, otherwise the rifle is identical with the Quackenbush Safety Rifle. The Junior rifles are no longer made and we will have no more after our stock is sold. If fitted with globe and peep sights, 25c extra. No. 6F672 Quackenbush Junior Rifle. 22-caliber, 18-inch blued steel barrel, with open sights, as illustrated. Price.....\$2.76

No. 6F672 1/2 The same rifle with nickel plated barrel. Price.....2.85

QUACKENBUSH SAFETY CARTRIDGE RIFLE. \$3.68 AND \$3.87.

19 CENTS PER 100 FOR 22-CALIBER SHORT CARTRIDGES. See page 165. Fine steel barrel, automatic cartridge extractor. Stock is black walnut, handsomely finished, and so fastened to the barrel that the two may be easily and quickly separated, making the rifle handy to carry in a trunk, valise or package. The barrel is rifled and durably blued, except the breech block, which is case hardened in color. Whole length, 33 inches, 18 or 22-inch barrel, 22-caliber. Shoots cartridges Nos. 6F2336, 6F2338, 6F2340, or 6F2635; good for 35 to 100 yards. Plain open sights, as shown in illustration. Weight, about 4 1/2 pounds. Guaranteed good shooter.

HOPKINS & ALLEN'S TAKE DOWN RIFLE, \$2.35.

For \$2.35 we offer you the latest model Hopkins & Allen Take Down Rifle, factory No. 722. We have bought a large quantity of these rifles, thus insuring ourselves the very lowest price, and by adding our one small percentage of profit we are able to make you this unheard of price of \$2.35 for a genuine Hopkins & Allen rifle. As the factory price is \$3.60 on this rifle you can readily appreciate the bargain you will get by buying this rifle from us. Description—This Hopkins & Allen Take Down Rifle has a finely rifled steel barrel. The frame, breech and trigger guard, as well as all working parts, are case hardened, making them durable. The stock and fore end are of selected straight grain walnut. The rifle is fitted with fancy butt plate and plain open sights. In order to take the barrel from the frame, remove the screw in front of the trigger guard.

No. 6F696 Hopkins & Allen Rifle, 22-caliber, suitable for cartridges Nos. 6F2336 and 6F2338, 19-inch barrel, weight, about 3½ pounds. Weight, packed for shipment, about 4 pounds. The factory price, \$3.50, our price—**\$2.35**

THE OLD RELIABLE HOPKINS & ALLEN JUNIOR RIFLE, \$4.50.

The Hopkins & Allen Junior Rifle is one of the most popular 4½ to 5 pound rifles that has ever been placed on the American market. For years this rifle has been in the front rank of good shooting, well made, well proportioned American made rifles until a fire completely destroyed the Hopkins & Allen Mfg. Co.'s plant at Norwich, Conn. Long after this fire took place we continued to receive orders for Hopkins & Allen Junior rifles, which we were unable to fill and our customers were obliged to buy other rifles instead. The Hopkins & Allen Mfg. Co., of Norwich, Conn., has been reorganized and has built a very large new factory, installed hundreds upon hundreds of new, up to date machines and are now making their same old line of goods which they made before the fire, among which is the celebrated Hopkins & Allen Junior rifle.

GENERAL DESCRIPTION. The Hopkins & Allen Junior Rifle is made with the celebrated vertical sliding breech block similar to that used on the Sharps rifles in past years, which is conceded to be one of the strongest breech block systems ever invented and which made the Sharps rifles so popular in the large caliber years ago. The Hopkins & Allen Junior Rifle is made in the latest down model, so that by unscrewing the bolt in front of the guard lever, the barrel may be detached so it may be carried in a Victoria style gun cover. The hammer of this rifle is rebounding, a feature very seldom found on rifles and one which commends itself to the user. The barrel is made from the very best quality crucible steel, bored true to gauge, well rifled with the proper amount of twist and the proper depth of rifling grooves to give the very best possible execution and the most accuracy and the empty shell is ejected by throwing the lever forward. The stock and fore end are made from well seasoned straight grained lumber, finished and fitted accurately and perfectly and the stock is also fitted with rubber butt plate.

SIGHTS. The Hopkins & Allen Junior Rifle is fitted with sporting rear and sporting front sights, a special feature which has been added to the old original rifle and a feature which makes it far better than any rifle made at this price. We have purchased a large lot of these rifles in order to secure supplies, for we anticipate an immense sale as soon as our customers know that this rifle is again manufactured, as a 4½ pound to 5 pounds rifle in 22 and 22-caliber is very desirable. All Junior rifles are fully guaranteed.

STEVENS' FAVORITE RIFLE WITH DETACHABLE BARREL.

All our Stevens' Favorite Rifles are carefully selected for finish, accuracy and workmanship, and we do not send out any rifle which has not passed a rigid inspection at the factory. The manufacturer fixes the price at which we shall sell these rifles, and will positively not allow our store to sell them cheaper. The prices are guaranteed to be as low as offered by any reliable broker in the United States, and should you be offered these rifles lower by any dealer, you will confer a great favor by advising us, to give us an opportunity of adjusting the prices. All our Favorites are made to our special specifications.

19 CENTS PER HUNDRED FOR 22-CALIBER SHORT CARTRIDGES. SEE PAGE 165.

THE FAVORITE
is guaranteed as well finished and rifled a barrel as found in the most costly rifles. Entirely new model. The barrel is held to stock by a set screw, and is easily separated or put together. Rifling and quality of barrel same as the higher cost rifle. All have case hardened frames, walnut stock, finely finished, warranted accurate; all shoot rim fire cartridges and have open sights, 22-inch barrel and weigh about 4½ pounds.

STEVENS' LATEST MODEL IDEAL RIFLE, 7 TO 7½ POUNDS.

The Ideal Rifle is manufactured by the Stevens' Arm & Tool Co., Chicopee Falls, Mass. The rifle is made so that it can be instantly detached from the frame, and put into a Victoria gun cover. The rifling in the barrel is equal to any rifle made, regardless of price, and the Ideal Rifle, as made for us, will be found extremely accurate. Finish—The barrel is blued and fitted with sporting rear and sporting front sight; the frame is handsomely case hardened, and the lock works are hardened to insure them being good wearing parts; stock and fore arm are made from selected straight grain, well seasoned walnut, and in fact, the Ideal Rifle is all that its name implies, an Ideal Rifle. The manufacturer fixes the price at which we shall sell these rifles, and will not allow us to sell them cheaper. **NOTE OUR PRICES ON POINTER SMOKELESS SHELLS. NO HOUSE CAN COMPETE WITH US.**

MARLIN REPEATING RIFLES.

A FEW WORDS ABOUT MARLIN FIRE ARMS.
THE MARLIN FIRE ARMS CO., of New Haven, Conn., have been manufacturing rifles and shotguns for more than twenty-five years, they have had a large and wide experience in manufacturing fire arms and each and every fire arm which leaves their factory is thoroughly tested, the shotguns with loaded shells and the rifles with measured ranges and no shotgun or rifle is allowed to leave the factory until it is true and accurate in every particular.

INSPECTION. Each and every fire arm is rigidly inspected by an expert in this line for workmanship, quality, accuracy and rifling, and on the smaller detail work a magnifying glass is used to be sure that every piece and part is interchangeable, correct, made to gauge and free from defective workmanship.

THE MARLIN FIRE ARMS CO., became famous when All old hunters, marksmen and rifle clubs used the Ballard rifles to the exclusion of nearly all other rifles, and marksmen used to say they could drive a tack into a board with a bullet coming from the Ballard rifle at one hundred to three hundred yards. Many of our customers who have hunters and marksmen used to sit around the fireside and talk "Ballard" rifles, load the cartridges after their own liking, and prepare for the match which they were going to shoot tomorrow or within a few days. We cannot recommend Marlin goods too highly. This company (in addition to the many innovations they have injected into the rifle business) was the one which brought out the celebrated 32-40 and 38-55 center fire cartridges to take the place of the 45-70 Government, 50-70 Government, 45-90, 45-110 and 50-110 and other large calibers, which the Marlin company contended were too hard on the shoulders of the hunters, and the 32-40 and 38-55 caliber cartridges, which the Marlin company invented, are today the most popular cartridges for large game and probably will always remain so. Other cartridges, such as 38-56, 38-72 and many others have come, but they have never been able to supplant the celebrated 32-40 and 38-55 calibers.

BEFORE BUYING A REPEATING RIFLE make we strongly recommend that you consider the Marlin, for we know that you will be so well pleased with it that you will not use any other.

MARLIN'S NEW BABY REPEATER, \$8.50.

15-SHOT ROUND OR OCTAGON BARREL SHOTS 22-CALIBER SHORT RIM FIRE CARTRIDGES.

The above illustration will give you some idea of the Marlin Baby Carbine, the latest production of the Marlin Fire Arms Company, and is known as the Model 18 Baby Carbine. The new Marlin Baby Carbine has been gotten out with a view of placing on the market a neat small repeating rifle for ladies and boys at a popular price. In general appearance this rifle looks very much like the model 1897 except it is smaller and lighter and is made regularly to take the 22-caliber short rim fire cartridges.

GENERAL DESCRIPTION. The Baby Carbine has a blued finished frame or breech made from the very best steel forging, blued steel barrel accurately rifled, well seasoned, straight grained walnut stock and fore end, 20-inch barrel, plain open front and rear sights, made so the side plates may be removed for cleaning and oiling, the same as model 1897 rifle is made, weighs about 3½ pounds, and the entire length of the rifle is 36 inches. The butt stock may be removed by taking out the tang screw, which would leave the rifle 26½ inches long, so that it may be packed in a trunk.

MARLIN TAKE DOWN MODEL 1897 RIFLE.

19 CENTS PER 100 BUYS HIGHEST GRADE 22-CALIBER SHORT CARTRIDGES MADE. See page 165. We undersell all makers on ammunition of all kinds.

The New Marlin Model '97 Take Down Rifle, is the latest 22-caliber arm of its class on the market. This rifle is practically the model '92 with the addition of the "take down" feature and many other valuable improvements. It has finely tapered barrel and a neat rubber butt plate; the receiver is made of special steel, same as is used in the high power smokeless rifles, and is finely case hardened. This rifle is very easily cleaned; by simply removing the side plate (by use of the thumbscrew for the purpose), makes ready access to the inside of this rifle. It comes in 22-caliber only. Magazine holds 25 cartridges 22-caliber short, 20 cartridges 22-caliber long, and 18 cartridges 22-caliber long rifle. Shoots cartridges No. 6F2336, No. 6F2338 or No. 6F2340.

MARLIN REPEATING RIFLES, MODEL 1892.

The Model 1892 Rifles have BLUED FRAMES.
\$10.83
11.65

FOR SMALL GAME AND TARGET WORK.
Made in 22-caliber rim fire, 32-caliber rim fire and 32-caliber center fire.

In the 22-caliber rifles any or all of the following rim fire cartridges may be used; 22-short, 22-long, and 22-long rifle. This is the only repeater that will do this. Other systems require two or three rifles to do this same work. This model takes entirely to pieces without tools, allowing of perfect cleaning. The magazine holds 25 cartridges 22-short, 20 cartridges 22-long and 18 cartridges 22-long rifle.

All 32-caliber rifles are sent out with two firing pins. This rifle is so made that in the same rifle may be used 32-short rim fire, 32-long rim fire cartridges, and by changing the firing pin, 32-short and 32-long center fire cartridges may be used. The magazine holds 18 cartridges 32-caliber short and 18 cartridges 32-caliber long. This ammunition is cheap, and as compared to repeaters using the 32-20 cartridge will save the entire cost of the rifle on first 2,000 cartridges.

Weight, packed for shipment, 14 pounds.
For fitting Lyman Sights, add 25 cents to the cost of the sights for fitting.

THE POINT BLANK RANGE of a rifle means that if you hold the rifle perfectly horizontal, the bullet will travel in a true horizontal line up to a certain distance, and after this distance the bullet will necessarily drop toward the earth as it cannot remain in the air. A bullet falls at the rate of 15 feet per second coming out of a rifle.
The point blank range of rifles using 22-caliber cartridges is 30 to 35 yards and on larger caliber black powder cartridges the point blank range is from 50 to 75 yards, and with smokeless cartridges, such as 303 Savage and 30-06 Winchester, the point blank range is 100 yards, and the rear sight should be kept at the lowest notch for these ranges. For longer ranges elevate the rear sight according to the distance you intend to shoot. All Winchester rifles are point blank at 50 yards.

THESE MATCHLESS AUTOMATIC REVOLVERS COVERED BY 20-YEAR BINDING GUARANTEE.

THE THREE REVOLVERS SHOWN ON PAGES 156, 157 AND 158, our Meriden Automatic Self Acting Revolvers, made in our own factory at Meriden, Conn., are not only the most wonderful values in revolvers offered by any manufacturer or dealer, but they also carry our binding 20-year guarantee, the only revolvers in the world carrying such a guarantee for such a length of time. We know that these fine arms are so carefully made, of such fine materials, the workmanship is of such a high order and the mechanism so simple and so durable that these revolvers will last almost forever, and we have no hesitancy in warranting them to give perfect satisfaction, and in giving this long time guarantee against defects in material and workmanship.

THE ILLUSTRATION OPPOSITE shows in reduced facsimile our 20-year issue with every revolver made by the Meriden Fire Arms Company, our own revolver factory at Meriden, Conn., and they are the only revolvers manufactured in the world which are thus guaranteed.

IF YOU BUY ONE OF THESE SPECIAL REVOLVERS at our wonderfully low prices, if you order the nickel plated, rubber handled, self acting revolver at \$2.69, or the beautifully engraved, self acting rubber handled revolver at \$3.12, or our matchless hammerless rubber handled revolver at \$3.25, you will receive such value as has never been put in any revolver offered by any manufacturer or dealer, and if you add the slight difference in price to any one of the revolvers mentioned above and order one of our beautiful pearl handled revolvers, with blued steel finish, you will receive such a revolver as you cannot possibly secure anywhere else at a price ranging from two to four times that asked by us.

PLEASE REMEMBER, ALSO, that every style of these Meriden Automatic Revolvers carries this 20-year guarantee, so that if anything happens to the fire arm purchased by you and it gets out of order because of defect in workmanship or materials, we guarantee to protect you with the strongest and the most binding guarantee it is possible to give. You cannot afford to order a revolver from any other firm or individual when you can secure these high grade, perfect fire arms at these marvelous price saving quotations.

EXTREME SIMPLICITY OF THE MERIDEN AUTOMATIC DOUBLE ACTION REVOLVERS.

THIS ILLUSTRATION, showing cross section view of the working parts of our famous Meriden Revolvers, made in our own factory at Meriden, Conn., together with the description of the numbered parts, as shown in table below, give you a very clear idea of the careful construction of these fine high grade revolvers, the simplicity of their action, the limited number of parts, freedom from springs and the general excellence of their construction. No other revolvers made have fewer parts or equal the Meriden Revolvers in positiveness of action, simplicity and speed. We urge you, therefore, if you are in the market for a revolver of any kind that you select one of these made by us in our own factory and shown on pages 156, 157 and 158; send us the price of the revolver you select and if, upon its arrival, you are not satisfied to keep it as bringing to you very great value, the very highest type of pocket fire arm, you may return it to us at our expense of transportation charges both ways and we will refund your money.

FAR AHEAD OF THEM ALL.

Bay Wood, Virginia.

Gentlemen:—I have received two of your revolvers in the last month and both have proven very satisfactory. They are fine guns and, I think, better than any revolver that I have ever used, considering finish, style, size, shooting qualities, etc., and I have used a Harrington & Richardson, a Hopkins & Allen, Iver Johnson and others. I think your gun is far ahead of them all.

T. F. DIAMOND.

HAND ENGRAVED, AUTOMATIC, SELF COCKING REVOLVER, \$3.12.

FOR \$3.12 we furnish this highest grade, automatic, self cocking revolver, elaborately engraved by hand, as shown in illustration, each revolver heavily nickel plated and highly polished or beautifully blued and highly polished. **THIS HAND ENGRAVED REVOLVER** is made in our own factory at Meriden, Conn., which alone makes possible our \$3.12 price, a price that barely covers the cost of material and labor, less than one-half the price at which revolvers of inferior grade and other makes are sold everywhere.

OUR BINDING GUARANTEE, MONEY REFUND, FREE TRIAL TEST AND COMPARISON OFFER.

As a guarantee that this is one of the handsomest, strongest and best revolvers made, as a guarantee that it is superior to revolvers that are sold generally at double the price, we make this extraordinary offer:

SEND US \$3.12 and we will send the revolver to you by express, with the understanding and agreement that you can give it ten days' trial, during which time you can put it to every test. You can compare it with revolvers sold by others at double the price, you can compare it piece for piece and part for part, note the difference in our hinge device, note our cocking device, the automatic shell action, the safety, note the alignment, shape and finish, note the beautiful hand engraving in comparing with other revolvers, and after you have given the revolver a ten days' test and compared it with revolvers of other makes, if you are not satisfied you have received for your money \$3.12, double the value you would get in any other revolver, you can return the revolver to us at our expense and we will immediately return your money.

From the illustration, engraved by our artist from a photograph, you can get some idea of the appearance of this handsome revolver, although it must be seen, examined and compared with the cheaper makes of revolvers to appreciate the value we are giving.

THIS REVOLVER EXCELS IN STRENGTH, DURABILITY, STYLE, FINISH, SHAPE AND SHOOTING QUALITIES, ANY OTHER REVOLVER MADE AND SOLD AT NOT LESS THAN DOUBLE THE PRICE.

SPECIAL POINTS OF SUPERIORITY.

OUTLINE. Our revolvers have an evenness of balance, shape and outline, a modeling that we do not feel is approached by any other revolver on the market sold at double the price.

PATENT BARREL LATCH. Our revolvers have a patent barrel latch, made under letters patent and owned by us, that far exceeds any other device made for the secure, rigid fastening of the barrel to the frame. Different from many of these devices, the perfect sight is not interfered with, and we get an evenness of finish not found on other revolvers.

SHELL EXTRACTOR. Our special device for operating the shell extractor is a great improvement over all others; stronger, more simple, less liable to get out of order, positive in its action, always ready for work, no danger of sticking and never missing.

LOCK MECHANISM. We claim for our lock mechanism an advantage over all other revolvers in being more simple, stronger, positive in its action and less liable to get out of order than any other lock mechanism made.

SHOOTING QUALITIES. We claim for our revolver that you can shoot more accurately and farther than with any other revolver made and sold at double the price.

FINISH. Our revolvers are given the highest possible finish. The nickel finished revolvers

COMPARE THIS, our special hand engraved, elaborately finished, automatic, self cocking hammer revolver which we offer at \$3.12 with any of the half dozen or more cheap makes on the market that are retailed at from \$3.50 to \$5.00. If you want to know how our revolver differs from those cheap makes of revolvers, how in quality of material, workmanship and finish, in the action, in the various devices, in the mechanism, in the shooting qualities and practically in every respect our revolver is superior to revolvers sold generally at \$3.50 to \$5.00, order one of our revolvers, compare it with any of these and decide for yourself. If you are not perfectly satisfied you have gotten such a revolver as you could not get elsewhere at anything like the price, return it to us at our expense and we will immediately return your money.

DON'T BUY A CHEAP REVOLVER of any kind until you have seen our own high grade automatic, self cocking, hand engraved, nickel plated or blued steel revolver which we offer from our own factory at Meriden, Conn., at the bare cost of material and labor, with but our one small percentage of profit added.

are all heavily nickel plated and highly polished, the blued steel finished revolvers are always given the highest grade blued finish. The trigger and trigger guards are beautifully mottled and case hardened in the finish, have handsome monogram and checkered rubber handles, one of the latest raised ribbed sights, a revolver that is gotten out with a view of combining the good qualities of all high grade revolvers, with the defects of none.

\$3.25

FOR OUR HAMMERLESS AUTOMATIC SHELL EJECTING SELF COCKING REVOLVER.

The 32-caliber takes this cartridge.

No. 6F2377
Price, per hundred.....70c

AT \$3.25 WE OFFER THIS HAMMERLESS AUTOMATIC SHELL EJECTING REVOLVER in 32 or 38-caliber, built in our own factory and **QUARANTEED SUPERIOR IN EVERY RESPECT** to hammerless revolvers of other makes that sell at much higher prices.

THIS HAMMERLESS REVOLVER AT \$3.25 like our special \$2.69 Automatic Hammer Revolver, illustrated on preceding page, is built in the same factory—a factory we own and control at Meriden, Conn.—and our special \$3.25 price barely covers the cost of material and labor with but our one small percentage of profit added. It is made from the same materials, on the same machines, by the same skilled labor as our \$2.69 revolver described on page 156. It differs only in that it is hammerless instead of a hammer revolver.

The 38-caliber takes this cartridge.

No. 6F2388
Price, per hundred.....91c

IN EVERY DETAIL, in the making of the barrel, stock, this is the exact same type of revolver as our special \$2.69, as illustrated and described on page 156. It is gotten out with a view to giving our customers the highest type of hammerless revolver it is possible to make, yet at the very minimum price, a price much lower than you can buy such a high grade revolver for elsewhere.

IF YOU ARE IN THE MARKET FOR

A REVOLVER of any kind, we especially urge that you select either this \$3.25 hammerless or our \$2.69 hammer revolver, shown on page 156, as representing the best revolver value in the market.

Shooting Qualities as Good as Colt or Smith & Wesson.

Messrs. Sears, Roebuck & Co., Chicago, Ill.

Gentlemen:—The revolver I ordered from you is certainly all right; it has given excellent satisfaction, and its shooting qualities are certainly as good as any revolver, including either Colt's or Smith & Wesson. Certainly nothing cheaper than a Colt's or a Smith & Wesson will begin to compare with it.

M. D. W. BARR.

THIS ILLUSTRATION

IS THE EXACT LIFE SIZE of our 32-caliber revolver, engraved by our artist direct from a photograph of the revolver, and from it you can get a general idea of the outline and style of the revolver, and we believe you will agree with us that it carries a distinctiveness in beauty of design and general style, and above all, we guarantee it to excel in workmanship and general finish any revolver on the market approaching it in price.

\$3.25

32-CALIBER CARTRIDGES

70 CENTS
Per 100

SEE PAGE 165.

hammer being exposed, a fall, stumble or other accident that may bring the horn of the hammer immediately in contact with a rigid surface is liable to drive the hammer onto the cartridge and discharge the revolver. Such accidents are not infrequent with hammer revolvers, whereas it could not happen

WHY WE RECOMMEND THE HAMMERLESS REVOLVER OVER ALL OTHERS.

We especially recommend that you select this our hammerless revolver at \$3.25 in preference to the hammer revolver at \$2.69. We recommend this additional outlay in the interest of safety. There is no hammer revolver that can be carried with absolute safety to the owner, for the horn of the hammer, in case of accident, is liable to drive the hammer onto the cartridge and discharge the revolver. Such accidents are not infrequent with hammer revolvers, whereas it could not happen

WE RECOMMEND THE FOLLOWING CALIBERS OF RIFLES.

For Squirrels, Muskrats and Similar Game, 22-Caliber Rim Fire
For Rabbits, Birds and Similar Game, 32-Caliber Rim or Center Fire
For Mountain Sheep and Similar Game, 25-20 or 32-20-Caliber Center Fire
For Small Deer and Similar Game, 38-40-Caliber Center Fire
For Moose, Bear and Similar Large Game, 32-40, 38-55, 30-30 or 303 Caliber

OUR 5-INCH BARREL AUTOMATIC HAMMERLESS REVOLVER.

THE 5-INCH BARREL REVOLVER

is made exactly the same as our Automatic Hammerless Revolver except that the barrel is 5 inches long, which makes it preferable for target shooting, while the 3 or 3½-inch barrel revolver is mostly used as a pocket or home revolver for defense.

When ordering, write catalogue number in full and mention caliber, length of barrel and finish wanted.

\$3.75

HOW TO TAKE APART REVOLVERS.

The average revolver is usually taken apart by First—Removing the stocks. Second—Removing the main spring. Third—Removing the hammer. Fourth—Removing the pins which hold the guard. Fifth—Removing the pin which holds the trigger. Nearly all revolvers can be taken apart in this manner.

NOTE—These Revolvers are not made for Rim Fire Cartridges.

WE SELL MORE REVOLVERS

than any five mail order houses combined and more than any wholesale dealer. Our magnificent manufacturing equipment, our special patented features which make these the best automatic self cocking revolvers on the market, our wonderfully low prices, below those asked by others for revolvers of inferior make, have all contributed to the remarkable sales of these high class revolvers. Please remember that with each revolver we sell you you have our

binding 20-year guarantee and refund offer. Order one of our own revolvers, as shown on pages 156, 157 and this page, at our special price, and we will send it to you with the understanding that if it is not perfectly satisfactory when received, you can return it to us at our expense of express charges both ways, and we will immediately return your money. Further, we guarantee every piece and part that goes into these revolvers for 20 years, and if any revolver proves defective when received, in any piece or part, it can be returned to us at our expense of express charges both ways, and we will exchange it for another or your money will be refunded, at your option.

with a hammerless revolver; the trigger being protected by a guard and the revolver being hammerless, there is no possibility of accidental discharge.

WHILE THE PROFIT IS EXACTLY

THE SAME TO US whether you order a hammerless revolver or a hammer revolver, for the above reasons we especially recommend that you order the hammerless in place of the hammer revolver. All are 5-shot and use center fire cartridges.

WE FURNISH THIS REVOLVER

in either nickel plate or blued steel finish, either in 32-caliber, using cartridge No. 6F2377, or 38-caliber, using cartridge No. 6F2388, with fancy rubber handles at the following prices:

These guns are genuine, and new from the factory. Beware of imitations and shop worn goods, which are sold for new goods by some firms. We handle nothing but first class goods. 70c PER 100 FOR 32-CALIBER CARTRIDGES, 81c PER 100 FOR 38-CALIBER CARTRIDGES. SEE PAGE 165.

See our 63c Revolver Stock on next page.

HOW TO TEST A PISTOL OR REVOLVER.

PLEASE NOTE that expert pistol and revolver shooting can only be accomplished by experience and when once you become an expert shot, it is difficult for you to do poor shooting when you are in good form. **ALL REVOLVERS ARE TESTED** at 12 to 20 yards except the high power strong shooting arms, which are tested at 50 yards, and if you do not make a good target, it is not the fault of the revolver, but is usually the fault of the sighting; for instance, a revolver that is tested at a target at 12 yards, and you can do good shooting at this range, you will find if you shoot the same revolver at 50 yards the bullets will fall under

THE PURCHASE OF A REVOLVER MADE IN OUR OWN FACTORY, as illustrated and described on the preceding pages, we show on this and the following pages A LINE OF THE WELL KNOWN DOUBLE ACTION MAKES, AND AT PRICES LOWER THAN YOU CAN BUY ELSEWHERE.

This can be done by enclosing enough

IF YOU ORDER SEVERAL REVOLVERS IT IS BEST TO SHIP THEM BY EXPRESS.

REMEMBER when you buy a revolver from us we ship it to you with the understanding and agreement that if it is not as represented you may return it to us at our expense of transportation charges. We sell more revolvers than any five mail order houses combined. We best all competition. Notice our prices on Guns and Ammunition.

OUR BABY HAMMERLESS.

Our Baby Hammerless Revolver is manufactured by Henry M. Kolb, Philadelphia, Pa., who guarantees the revolver against defective parts. It is made to carry in the vest pocket, length of revolver is 4 inches, all parts made interchangeable. All have folding trigger, rifled steel barrel, fancy rubber stock, fluted cylinder, can be loaded from the side, rebounding hammer, full nickel plated; taking 22-caliber rim fire cartridge No. 6F2336.

6F1369	22 r.f.	6 in.	Nickel Plated	7	6F2336	Pearl	3.00

This is the only 22-caliber, 7-shot, target pistol on the market and we were the first to offer it to our customers. If by mail, postage extra, 14 cents.

the target, so in order to become an expert shot it is quite necessary for you to become acquainted with the revolver you intend to shoot, and in a short time you will know whether to hold above or below the bull's eye in order to hit it. **WHEN TESTING A REVOLVER** always take a muzzle rest, and shoot 5 or 6 consecutive shots at a bull's eye without stopping, then examine your target and see how the shots group and how near the group is to your bull's eye. This will give you an idea whether you should hold high, low, to the right or to the left of your mark. Always bear in mind that the wind has more or less effect on target shooting, and 6-inch barrel revolvers are better than 3-inch for target shooting. It requires long practice to become skilled with a 3-inch barrel.

COLT'S NEW NAVY REVOLVER.

Colt's New Navy side ejecting, double action revolver has been adopted by the U. S. Navy, and every one must pass a rigid inspection and test. This Colt's New Navy double action, self cocking, side shell ejecting revolver is fitted with rubber stock, beautifully finished, and made of finest material, length about 13½ inches; six shooter, weight, 2 lbs.; blue steel finish. The 38-caliber takes cartridges No. 6F2392, and the 41-caliber takes cartridges No. 6F2401. This revolver is very similar to the New Army, differing slightly in the handle.

COLT'S SPECIAL PEARL HANDLE REVOLVER.

SINGLE ACTION FRONTIER.

This is our special Cowboy's Six Shooter with pearl handles. The right handle has an Ox Head carved in raised design and makes a handsome revolver. This illustration is engraved from a photograph of the revolver and will give you some idea of its appearance. Made in blued steel finish only. We handle these regularly in 32-20 and 44-40-calibers but can furnish them on special order in caliber 41 c.f. or 45 Colt's c.f. with 5½ or 7½-inch barrel at \$20.00 each. Weight, 41 ounces. When ordering, say which length barrel you prefer.

If by mail, postage extra, 46 cents.

COLT'S SINGLE ACTION BISLEY MODEL.

The Colt's Bisley Model Revolver is patterned after the Colt's Single Action Army Revolver, but has a longer handle, a different shape hammer, and the lock work is somewhat different, and it makes a good smooth working revolver. The frame is case hardened, and the barrel and cylinder are blued. This revolver embodies all the high grade workmanship of the famous Colt's revolvers. We carry this revolver regularly in 32-20 and 38-40 calibers, but can furnish it in 45-caliber to special order.

THE IMPORTED AUTOMATIC DOUBLE ACTION REVOLVER.
This illustration, engraved from a photograph by our artist, will give you some idea of the revolver. It is central fire and has 5½-inch barrel, finished in blued or nickel plated. Made in 44-40-caliber only. It is 6-shot, has rebounding hammer, rubber stock, weighs 35 ounces and is automatic shell ejecting. This revolver takes same cartridge as the Winchester Rifle, 44-caliber (No. 6F2409), so that a man who has a 44-caliber rifle can use the same ammunition in both the rifle and this revolver. We have contracted for a large lot of these revolvers in order to get the price so we can sell them with our one small percentage of profit.

GENUINE SMITH & WESSON REVOLVERS.

S. & W. SIDE EJECTING 32 AND 38-CALIBER, \$11.46 TO \$13.49.

This is double action and center fire, 6-shot, with solid frame, swing-out cylinder and side ejecting mechanism; 32-caliber has 4½ and 6-inch barrel, the 38-caliber has 5 and 6½-inch barrel; blued steel or nickel plated finish; using 32 S. & W. long No. 6F2376 and 38-caliber long Colt DA cartridge No. 6F2392. This revolver is Smith & Wesson's latest creation and is a revolver that is built for business. It will withstand hard usage and the 38-caliber has a movable firing pin on the nose of the hammer, which absolutely closes the firing pin hole and prevents any possible gas from going back of the frame. They are highly recommended for target shooting, and made in blued steel or nickel plated finish, fitted with rubber handles.

We cannot furnish Smith & Wesson Revolvers for 38-40 cartridges.

S. & W. DOUBLE ACTION REVOLVERS.

These revolvers are warranted genuine Smith & Wesson. Manufactured by Smith & Wesson, Springfield, Mass. All are self cocking and double action, with automatic shell extractor, finely rifled steel barrel, and rubber stocks, nickel plated or blued steel finish. Made of the finest material that money can buy and the workmanship is equal in finish to that of any ordinary watch. If you want the best work for your money buy a Smith & Wesson. The 32-caliber takes cartridge No. 6F2377 and the 38-caliber takes cartridge No. 6F2388.

SMITH & WESSON HAMMERLESS.

Made by Smith & Wesson, Springfield, Mass. Latest type new model, hammerless, automatic shell ejector, patent safety catch, self locking rebounding locks, double action, blued steel or nickel plated finish, fitted with rubber handles. This is positively the best hammerless revolver made. "A thing of beauty is a joy forever." If you own one of these revolvers you are certain to own one of the best revolvers made and one which always has a market value. The 32-caliber takes cartridge No. 6F2377 and the 38-caliber takes cartridge No. 6F2388.

GUARANTEED HIGHEST GRADE SMOKELESS POWDER LOADED SHOTGUN SHELLS MADE. WARRANTED TO OUTSHOOT ANY OTHER SMOKELESS POWDER SHOTGUN SHELL ON THE MARKET, REGARDLESS OF NAME, MAKE OR PRICE.

WHY THEY ARE THE BEST AND HOW WE MAKE THE PRICE SO LOW.

We are sole owners of the Meriden Fire Arms Co., Meriden, Conn. Every fire arm that goes out of this factory is made, controlled and sold by ourselves, the sole owners of the factory. So it is with Pointer Smokeless Shells. We absolutely control them. We use a higher grade smokeless powder than goes into any other shells made, heavier, truer and better brass, full finished and properly gauged heads, the best primers made, heavier, stronger and better firing anvils. We use the highest grade waterproof paper known in shell making. We use specially prepared wads.

OUR SHELL MAKING MACHINERY is the latest, most modern and, therefore, the most perfect shell making machinery, on the market. The top brass head, the anvil, the paper are all perfectly shaped, perfectly fitted, producing a finished product not approached by any other shell maker.

OUR LOADING MACHINERY is of our own special designs and guarantees an accuracy of measure, pressure, crimp and smoothness not approached by any other shells on the market. In short, with our equipment we get a loading effect that cannot be approached even by the most carefully hand loaded shells. There is an accuracy that can only be effected by the most accurate automatic machinery, an accuracy that insures every shell in the box being exactly alike, one shooting the same as the other.

USE POINTER SMOKELESS SHELLS once and you will never use any other again. Every hunter knows the joy that the long so called chance shot brings to him when, on the duck pass or in the field, you have on rare occasions brought your bird down from what appeared to be almost the clouds, or you have dropped your bird when apparently far out of range. Hunter, this is not always a chance shot, but very often a chance shell, one shell that was just right, almost as good as a Pointer Smokeless, which are all, every one in the box, exactly alike. They are the shells that bring down the bird, the quail or goose, dove or turkey after the bird is out of the range of all other ammunition. Pointer shells, in the poor gun, will give better results in the field than other ammunition in the most expensive guns made, and as there is a difference in the shooting qualities of guns, so there is a vastly greater difference in the ammunition you use.

DON'T USE BLACK POWDER. Don't use black powder shells when Pointer Smokeless Shells cost so little more, and double the sport and comfort of shooting.

DON'T USE ANY OF THE COMMON GRADES OF SMOKELESS SHELLS until after you once try Pointer Smokeless Loaded Shells. Try them in the field. If your bird seems out of range, never mind, take aim and pull. Try the Pointer at long range. When others refuse to shoot, you shoot Pointer Shells, for Pointer Shells claim the game others cannot reach.

SAFETY. The Pointer Shells are positively the safest loaded shotgun shells made. The brass head construction, the heavy anvil, the waterproof grade of smokeless powder used, the system of loading, the uniformity throughout, the evenness with which the primers are fitted and the grade of primers we use, everything combines to make Pointer Smokeless Shells in every way the safest shotgun shells on the market.

This illustration shows an exact life size picture of one of our 12-gauge Pointer Smokeless Loaded Shells.

SHOOTING QUALITIES.

WE GUARANTEE FOR OUR
POINTER SMOKELESS POWDER SHELLS
GREATER PENETRATION, BETTER PATTERN,
LESS RECOIL, BETTER COMBUSTION,
BETTER EXECUTION IN EVERY RESPECT,
THEREFORE, LONGER RANGE SHOOTING.

A BETTER BAG than can be accomplished with any other smokeless powder shells made, regardless of name, make or price, and we accept every order for Pointer Smokeless Powder Shells with the understanding and agreement that you can test the shells with any other make, and if you do not find that the Pointer Shells outshoot all others under all conditions, you can return them to us at our expense, and we will immediately return your money.

EVERY SHELL EXACTLY ALIKE. If you kill with the first shell, you can depend on it every shell in the box will produce the exact same results under the same conditions. Where is there another make that would do this?

This illustration shows a shell split in half to show the loading, a finish, strength and evenness of load not approached in any other shell made.

NOTICE OUR PRICES ON METALLIC AMMUNITION, GUNS, RIFLES AND REVOLVERS. NO HOUSE CAN COMPETE WITH US.

HOW WE MAKE THE PRICE SO LOW.

OUR PRICE OF \$1.49 PER HUNDRED AND UP, according to load, is so much lower than the prices you have been in the habit of paying for smokeless powder shells that you may wonder how we can possibly make such low prices. The lowest price at which loaded smokeless powder shells are sold by others is about \$2.25 a hundred; others have asked from \$2.25 upward per hundred for smokeless powder shells that we guarantee will in no way compare with the smokeless powder shells we sell at \$1.49 per hundred; in fact, our shells are put out under our guarantee with a thorough test and trial privilege, and if you do not find that the smokeless shells that you buy from us at \$1.49 per hundred will outshoot any smokeless powder shells you can buy elsewhere at \$2.25 per hundred, you can return them to us at our expense and we will immediately return your money.

COMPARE OUR PRICES on the highest grade shells made with the prices others ask for the common black powder shells, and you will find that other houses ask from \$1.60 per hundred upward for the most common grades of black powder loaded shotgun shells as against our price of \$1.49 per hundred for the highest grade smokeless powder shotgun shells made.

OUR FACTORY AT MERIDEN, CONN., is run on the most economical lines. No high priced officers' salaries are paid; economy is studied in every way, every possible labor saving, automatic machine is employed, everything is done that can possibly be done to increase quality and lower cost, and you get the benefit of all this. Our price to you barely covers this cost of production, with but our one small percentage of profit added. No selling expense, no manufacturer's profit, no jobber's profit, no salesman, no commissions, no losses, no expense allowance to pay for fancy trap shooters, no fancy publicity advertising expense, no losses, none of the multitude of expenses common to other manufacturers of loaded smokeless powder shells are figured into our cost. You pay for the material and labor only, with just our one small percentage of profit added. This is why we can furnish you the highest grade smokeless powder shells made in the world at less money than you can buy the most common black powder shells elsewhere, at a little more than one-half the price others charge for the common grades of smokeless powder shells, which we guarantee will, in shooting qualities, in no way compare with Pointer Smokeless Powder Shells.

Mr. Doolittle likes our Pointer Shells better than the Winchester Shells, because they are Longer Range.

Hunt, N. Y.

Sears, Roebuck & Co., Chicago, Ill.
Gentlemen:—I have been using Winchester Repeater Shells, but I like the Pointer Shells which you sent me much better, they shoot a greater distance than the Winchester repeaters.
Yours respectfully,
ALBERT DOOLITTLE.

TEST AND GUARANTEE OFFER ON
ORDER FOR ONE CASE OF 500 OR MORE.

SEND US AN ORDER FOR 500 SHELLS OR MORE, and we will send the shells to you with the understanding and agreement that you can shoot one box of 25 shells for careful test, and, if you do not find them by far the best shells you ever used, you can return the balance to us at our expense and we will immediately return your money, including any freight charges you paid, and we will make no charge for the 25 shells you used for test; these 25 shells will be FREE to you.

Mr. Bell says Our Pointer Shells have greater Shooting Qualities than the High Priced Winchester or Peters Shells.

Versailles, Ohio.

Sears, Roebuck & Co., Chicago, Ill.
Gentlemen:—I have tried your Pointer Smokeless Shotgun Shells. I find them to be up to the standard, they have greater shooting qualities than any of the high priced Winchester or Peters. I am well satisfied with them.
Yours truly,
N. E. BELL.

Mr. Bremner says for penetration, good pattern and long range shooting, our Pointer Shells outdo the Winchester, Nitro Club or any other shells he ever used.

Kewanee, Ill.
Sears, Roebuck & Co.,
Chicago, Ill.

Gentlemen:
For the last two seasons I have used your Pointer Smokeless Powder Shotgun Shells. I formerly used Nitro Club and Winchester shells, but from experience and severe tests, I find that for a shell yielding the two essential qualities, a good pattern and penetration, that they outclass any shells I have ever used. For long range, and in fact any kind of shooting, they cannot be equaled.

Respectfully,
J. S. BREMNER.

Mr. Wilt says our Pointer Shells kill at longer range, and are the best shells on the market.

Portage, Penna.
Sears, Roebuck & Co.,
Chicago, Ill.

Gentlemen:
Your Smokeless Shells are number ONE. I shall use no other make as long as I can get the Pointer shell. Have tried all other makes and find the Pointer shell the best for long range and dead shot; have killed birds from 80 to 100 yards with No. 5 shot. Your shells make better pattern and greater execution, will kill at longer range than any shell I have used before, they are the best shell on the market. Shall order more in next order.

Yours respectfully,
THOMAS WILT.

Mr. Dale likes our Pointer Shells better than the Winchester Leader, U. M. C. or Arrow brands.

Twin Lakes, Minn.
Sears, Roebuck & Co.,
Chicago, Ill.

Gentlemen:
I bought from you some time ago the Pointer Smokeless Shotgun Shells. I must say that I was well pleased with what I received from you. I have used the highest priced shells made, the Winchester Leader, U. M. C. Arrow, etc., but cannot find a shell I like better than the Pointer made by the Meriden Fire Arms Company. Yours, ever a customer,
H. G. DALE.

YOU GET BACK PART OF OUR PROFIT.

WHEN YOU SEND US AN ORDER for Pointer Shells, if your total order amounts to \$1.00 or more, we send you a PROFIT SHARING CERTIFICATE, and these certificates entitle you to various valuable articles entirely free, as explained on the first pages. Do not forget this great feature—our Profit Sharing Department. Remember, also, that this profit sharing feature of our business does not add a fraction of a penny to our selling price, as it is a liberal free division of our profits with our customers, and we guarantee our prices always as low as possible, by far lower than the prices you can get from any other concern.

Mr. Betz says our Pointer Shells are better for long range shooting than the Nitro Club, Winchester or New Rival Shells.

Sears, Roebuck & Co.,
Chicago, Ill.

Gentlemen:—I received your Pointer Shells, and found them just as they were recommended. They are better shells than any shell I have ever used before for long range and hard shooting. I was very well pleased with the shells, as they did fine work. I have used Nitro Club, New Rival, Winchester Repeater and other makes of shells, but found that they did not come up to your shells.

Yours truly,

HARRY R. BETZ.

ORDER AT LEAST ONE CASE OF 500 SHELLS. Our shells will keep shoot 500 shells sooner than you realize, especially when you have Pointer shells. Order at least one case of 500, even if you have to get one or more neighbors to join with you in making up an order.

A full case of 500 shells for only \$7.25. In quoting full case lots we furnish only one gauge and one size in a case, same as it comes to us from the factory.

WE CAN MAKE A PRICE OF \$1.49 per hundred and upward for smokeless powder shells that will outshoot any other

AS MANUFACTURERS we reduce the cost of our shells to the actual cost of material and labor, the cost of brass, paper, powder, shot, wads, etc., as made in our factory, and the price we name to you on the highest grade smokeless powder shotgun shells made barely covers the cost of the different materials that enter into the construction, with but our one small percentage of profit added.

Mr. Fisher says our Pointer Shells at 47 cents are far better than Peters' Shells sold at 60 cents per box.

Sunny Side, N. J.
Sears, Roebuck & Co.,
Chicago, Ill.

Gentlemen:
I received some of your special smokeless powder shotgun shells (the Pointer). I am greatly pleased with them for various reasons. First, they have a good penetration, second, they will kill at longer range, third, they have but little jar, fourth, they are quick and sure fire, fifth, they are much cheaper in price than any shells I have ever seen or bought. Your shells sell at 47 cents per box, while the Peters' Cartridge Company shells sell at 60 cents and are not so good a grade of goods. In fact, the Pointer Shells are a better shell in every respect than any other shells I have ever used.

Yours respectfully,
JAMES R. FISHER.

Mr. Tice gets better results from our Pointer Shells than any Shells he ever used.

Buford, N. D.
Sears, Roebuck & Co.,
Chicago, Ill.

Gentlemen:
I am well pleased with the Pointer Smokeless Shells I received from you. They will carry a great deal further and give much better penetration than any shell I have ever used. I have been using U. M. C. Nitro Club and Winchester Leader, and have no luck at all with them, as they would not carry far enough, so I gave your Pointer shells a trial, and have been more than pleased with the results I get. I remain, Ever your customer,
WALTER TICE.

Mr. Gates likes our Pointer Shells better than the Winchester, U. M. C. or Peters.

Columbia Cross Roads, Pa.
Sears, Roebuck & Co.,
Chicago, Ill.

Gentlemen:
The Pointer Shells I got from you are the best shells I ever used. I have tried all kinds of shells, the Winchester, U. M. C., Peters' and several other makes, but I like Pointer shells the best for penetration and pattern, especially the three-dram and 1 1/4-ounce shot load. Will order some more as soon as I need them. Yours truly,
G. W. GATES.

THE NEW MODEL KING AIR RIFLE, SINGLE SHOT.

Our King Rifles we Guarantee the Highest Grade Made.

All metal, nickel plated, shoots BB shot. Length of barrel, 19 inches; length over all, 31 inches. Weight, 1½ pounds. The New Model King Air Rifle shoots common BB shots accurately and with sufficient force to go through ½-inch soft pine. The barrel and all working parts are made from the best material possible; no castings to break in case it falls to the ground. Each gun is lighted with movable sights.

No. 6F1832 The New Model King Air Rifle. Price 57c
It by mail, postage extra, 35 cents.

THE COLUMBIAN 1,000-SHOT AIR RIFLE.

\$1.09

The Columbian 1,000-Shot Air Rifle, as now made, with improved lock parts and magazine, is a rifle which will give universal satisfaction. The loading device is similar to the old model air rifle, that by pushing the sleeve forward you fill the magazine with BB shot, and to operate the rifle place the butt under your right knee, pull lever upward until the trigger catches. This rifle will hold about 1,000 pellets of BB shot, and every time the lever is pulled forward one of the shots is placed automatically in the barrel. Shot is an imperfect shot get into the barrel, it can easily be removed by cocking the rifle and inserting a wire from the muzzle, which pushes the shot into the chamber, from which it can be easily removed. The entire length of the Columbian 1,000-Shot Air Rifle is 35 inches; the barrel is nickel plated and the frame is japanned. The stock is of good seasoned hardwood. This rifle weighs about 4½ pounds. It looks like a Winchester, works like a Winchester and pleases the boys. Cannot be sent by mail, as the postoffice will not take anything over four pounds.

No. 6F1846 The Columbian Air Rifle. Price... \$1.09

PEARL HANDLES FOR REVOLVERS.

Many of our customers who are owners of revolvers having rubber handles would like to have them fitted with pearl handles and we are now prepared to furnish pearl handles for the following standard revolvers. Understand, these pearl handles are not interchangeable and will have to be fitted by the customer; but it is a simple matter to fit them, all you need is a file and a drill, and they can be fitted in this manner: First drive out the pin which holds the rubber stock in position from the frame; then clamp one pearl handle on the frame in position and drill the hole in the pearl stock through the pin hole in the frame. First drive out the pin which holds the rubber stock in position from the frame; then drive pin back again into the frame. The reason you must do this is because the pins in frame are not always in the exact same place. After you have filed the pearl to fit, take a piece of very fine emery paper or emery cloth to take out file marks, then rub briskly on a piece of cloth or felt to polish the places where you have been filing. Anyone can fit a pair of pearl stocks in this manner. Be sure to mention the name, caliber, style and model of the revolver, or send us a pencil sketch of the rubber stock, so we can match it.

OUR BLACK POWDER LOADED SHOTGUN SHELLS.

LOADED SHOTGUN SHELLS \$1.20 PER HUNDRED AND UP for the highest grade loaded shotgun shells made, in both black and white powder, prices heretofore unknown. 12-gauge black powder shells ranging from \$1.20 to \$1.60 per hundred, and other sizes at proportionately low prices. We direct your attention to our illustrations, descriptions and incomparable low price quotations on the highest grade loaded shotgun shells made.

EVERY LOADED SHELL COVERED BY OUR BINDING GUARANTEE. We guarantee our loaded shells to be superior to any other loaded shotgun shell on the market, regardless of price.

WHILE OUR PRICES ARE VERY MUCH LOWER than you can buy elsewhere, we use a higher grade empty shell than other makers use, and if you wish to reload them, they will stand more reloading than any other paper shell made. No swelling, no sticking in the gun, the strongest, smoothest and best empty shell on the market.

QUALITY OF POWDER USED. We use a higher grade of black and smokeless powder than is used in any other machine loaded shell on the market, and we guarantee our shells, loaded with the high grade powder we use, under our special system of loading and wadding, to give better penetration, better target, in short, to kill at longer range than any other machine loaded shell made, regardless of price.

WE HAVE TESTED OUR LOADED SHELLS by the Chronograph Testing Machine with all other so called reliable makes of machinery shells, and have found, by the most accurate test, that the shot from our shells goes with greater rapidity, hence it shoots farther, gives more penetration, and more perfect target than any other machine loaded shell on the market. There is less recoil, no misfires; in short, there are no other machine loaded shells made that will in durability, safety and shooting qualities compare with ours.

ABOUT OUR LOW PRICES. The price we name barely covers the cost of material and labor, with but our one small percentage of profit added; hence, we can furnish loaded shotgun shells of a higher

grade than you can buy elsewhere, and yet at a price very much lower than any other house can furnish you.

BUY EARLY. We aim to carry on hand at all times, one to three millions of loaded shells in the sizes which we advertise, but in the early spring and fall when hunting is at its height, it sometimes happens that we receive hundreds of orders in one day, from all parts of the United States, for the self same load, which temporarily exhausts our stock, and in these two seasons all loaded shell manufacturers are taxed to their utmost capacity, and even then are unable to supply the demand, so if you can give us a second choice of load number when ordering, it will oftentimes assist us in filling your order promptly in case we are out of the particular load which you prefer. We advise buying shells early when you can do so.

THE VELOCITY OF OUR SHELLS. The velocity of our shells means that the shot travels a certain number of feet per second after leaving the shell. We have repeatedly tested our shells on the electrical chronograph, which is an electrical machine constructed to measure the number of feet that shot will travel per second, and our average velocity for black powder shells is 950 feet per second, and for smokeless powder shells is 1,050 feet per second; while other makes of shells which we have tested of the same size load as our own, do not in most cases come up to this average.

THE CHRONOGRAPH is a scientific electrical instrument made for testing velocity, and shells are tested with a chronograph as follows: One electric wire is attached from the chronograph to the trigger of the gun, and another electric wire is attached from the chronograph to a metallic target. As soon as the trigger is pulled the chronograph registers and when the shot strikes the target the chronograph ceases to register, which gives us the exact velocity of the shell.

SEND GOODS BY FREIGHT. We advise sending goods by freight, as it is cheaper than by express. If you order a gun or a rifle, and you include enough needed goods from our big catalogue to make a shipment of 50 to 100 pounds, the entire shipment will be very near as cheap by freight as the gun alone would cost you by express. When shipping 50 to 100 pounds or more by freight, it makes the freight cost practically next to nothing on each item.

NUMBER OF PELLETS TO ONE OUNCE OF SHOT.

We give below the number of pellets to one ounce of shot. The number is approximate. It may vary ten or more pellets.

HIGHEST GRADE METALLIC AMMUNITION AT WONDER PRICES.

19 CENTS PER 100 FOR CARTRIDGES

These illustrations show the exact size of the 22, 32 and 38-caliber cartridges that we offer as our leaders in our high grade metallic ammunition at the lowest prices ever known.

These illustrations show the method in which our metallic ammunition is put up, 50 in a box, every box and cartridge guaranteed perfect, the best metallic ammunition that ever went out of any factory. In the larger quantities the 22-caliber comes 500 cartridges in a carton (10 boxes of 50 each) and the 32 and 38-caliber come 250 cartridges in a carton (5 boxes of 50 each).

19 C PER 100; \$1.90 PER 1,000
for the highest grade 22-caliber short, rim fire, loaded metallic cartridges made in the world.

70 C PER 100; \$6.90 PER 1,000
for highest grade 32-caliber central fire, S. & W., loaded metallic cartridges, the best made in the world.

91 C PER 100; \$8.90 PER 1,000
for highest grade 38-caliber central fire, S. & W., loaded metallic cartridges, the best made in the world.

THESE ARE THE LOWEST PRICES ever heard of, and we guarantee this ammunition to be equal to the very best on the market, regardless of name, make or price. **WE GUARANTEE** the quality of our metallic ammunition in every way. We guarantee it the equal, if not the superior of any you have ever used, any

ammunition you can get from any other dealer or catalogue house. You can send us your order with the understanding that if you do not find our ammunition strictly high grade in every way, the very best ammunition it is possible to make; if you find it inferior in any particular, you are at liberty to return it to us at our expense and we will promptly refund your money.

19 CENTS per 100 for 22-caliber, 70 cents per 100 for 32-caliber, and 91 cents per 100 for 38-caliber; these are the lowest prices ever heard of for high grade loaded pistol and rifle cartridges, each and every one shipped under our binding guarantee for quality.

SHOOTING GALLERIES

PLEASE NOTICE THESE EXTREMELY
LOW PRICES FOR 22, 32 AND 38
CALIBER CARTRIDGES

HUNTERS, TARGET SHOOTERS

everyone using metallic ammunition, do not fail to take advantage of our wonderfully low prices and send us an order for the quantity of cartridges you use.

One Box Free. TO SHOW THE CONFIDENCE WE HAVE THAT WE ARE OFFERING ONLY THE

HIGHEST GRADE CARTRIDGES,
TO PROTECT YOU IN EVERY WAY
we make this ONE BOX FREE OFFER.

ORDER ONE THOUSAND and get the benefit of our quantity prices; we will get the cartridges to you in just a few days; the freight will be but a few cents. You will save about one-half in price as against the price you would pay others for an equal grade of ammunition, and if you don't find our cartridges the best you have ever used, if after testing one box of 50 you are not entirely satisfied with them, return the balance to us at our expense and we will promptly return all your money and make no charge for the box of 50 you used as a trial.

OUR BINDING GUARANTEE.

Every order for metallic ammunition is accepted by us with the understanding that the cartridges must be perfect, satisfactory to you in every way, equal to the best well known ammunition in the world; otherwise the goods can be returned to us and your money will be refunded. Our binding guarantee for quality protects you on every purchase of metallic ammunition from us and covers every sale we make.

WHY WE CAN GUARANTEE OUR CARTRIDGES THE BEST IN THE WORLD.

WE HAVE MADE A CAREFUL COMPARISON AND TEST of our cartridges with those of all other makes and we can positively guarantee that there is no ammunition that surpasses what we offer. We make our tests systematically from every lot we receive; every lot must come up to a certain high standard of efficiency. We know that the cartridges we send out are absolutely perfect, guaranteed to be sure fire and of unexcelled accuracy. We can guarantee that our metallic ammunition is better in these respects than any other ammunition. If you buy your cartridges from us you will have fewer misfires than with any others. We guarantee our cartridges to have greater penetration, to be surer fire, to shoot stronger, to make less smoke and heat the barrel less than any cartridges you ever used. For either hunting or for target shooting you will find our cartridges more satisfactory than any others.

No. 6F2336 22-caliber short rim fire cartridges. Price, per thousand, \$1.90; per hundred, 19c.
No. 6F2337 32-caliber S. & W. central fire cartridges. Price, per thousand, \$6.90; per hundred, 70c.
No. 6F2338 38-caliber S. & W. central fire cartridges. Price, per thousand, \$8.90; per hundred, 91c.

These 32 and 38-caliber cartridges will fit all double action and automatic revolvers, except Colt's.

OUR HIGH GRADE RIM FIRE CARTRIDGES.

LOADED WITH BLACK POWDER. Cannot be sent by mail.

If in doubt about the caliber, send a sample shell which has been shot, with your order, or send the cover of the box.

Our ammunition is always fresh and loaded with first class powder. **OUR TERMS ARE CASH WITH ORDER. WE CANNOT SEND CARTRIDGES C. O. D.**

How to Load Paper Shells to Get the Best Results.

Our experience is that the loading of shells is largely responsible for good or poor targets. Some guns will make a good pattern with a certain size of shot, and a poor pattern with another size, but nearly all guns will do better when the shell is properly loaded. Try the following rules if you load your own shells. For black powder—first, put in the powder, second, one thick cardboard wad; third, two 1/4-inch felt wads; fourth, another card wad; fifth, the shot; sixth, one thin card wad. Test load for 12-gauge, 3 drams black powder, 1 1/2 ounces No. 4 shot. For nitro powder use the same rules, except put a thin card wad, or a wad which is free from grease, over the powder instead of a thick card wad. When loading nitro powder don't put in a heavier charge than the directions on the can. Guns are usually tested on a 30-inch circle, at forty yards distance.

OUR BLACK POWDER EMPTY PAPER SHELLS, SUITABLE FOR BLACK POWDER LOADING.

These shells come packed 100 shells in a box and we cannot sell less than 100 shells of one size at a time. All these shells take No. 2 primer. If you wish to shoot smokeless powder in these shells put 2 grains of black powder into the shell before you put in the smokeless powder. Two grains is about half as much as a 22-caliber rim fire cartridge shell will hold. This is called "priming shell" with black powder. Empty shells cannot be sent by mail.

SMOKELESS CARTRIDGES.

Metallic Cartridges, loaded with Smokeless Powder, are all the same shape and size as regular Black Powder Cartridges, but have less grains of Powder than Black Powder Cartridges.

These two illustrations show a soft point bullet before and after shooting. The soft point bullets have a metal patch or jacket to the point, and when the bullet strikes it spreads at the point, as shown in illustration. The full metal patched bullets have a metal jacket covering the entire bullet and keep their shape after shooting. We recommend soft point bullets for hunting purposes, but for powerful shooting, full metal patched are better; for instance, a 30-caliber Army metal patched bullet will go through 58 pine boards, 1/2-inch thick, 15 feet from the muzzle of the rifle. A 30-30 caliber metal patched bullet will go through 35 boards, 1/2-inch thick, in the same distance, while a lead bullet would go through only about one-half as many boards.

RIM FIRE SMOKELESS. COME WITH LEAD BULLETS ONLY.

These illustrations are half size of cartridges. If you are in doubt about correct caliber, send us a sample shell, which has been shot, with your order, or send cover of box. No. 6F2535 No. 6F2539

A FEW WORDS ABOUT RELOADING RIFLE CARTRIDGES.

The only economical way to reload rifle or pistol cartridges is to buy the cartridges and after being shot, remove the primer as quickly after shooting as possible, for the fulminate of the same is liable to bring about a corrosion of the brass.

When reloading bottle neck shells, our customers should use a shell resizing tool in order to realize the neck of the shell properly. This is not always necessary on straight shells.

Extreme caution should be exercised when reloading smokeless cartridges so that they do not get too much smokeless powder in the shell, which will either burst the rifle or destroy the barrel for accuracy. Most smokeless powders generate a terrific heat when the shell is overloaded and this causes the bullet to lead the barrel and rifling, and this causes the bullet to deteriorate the metal of the barrel. So when loading smokeless powder always follow the directions of the manufacturer whose powder you use, and be sure to weigh the powder on an apothecary's scale to get the proper amount of grains in the shell.

Read our booklet about loading rifle cartridges so you will have no accident.

AN EXPLANATION ABOUT PRIMERS. There are at

least fifty to sixty styles of primers manufactured, and it becomes confusing to customers as to which style of primer to order. When ordering primers advise us for which name and brand of shells the primers are wanted, and you will assist us greatly, for there are ever so many different styles of primers, and unless you give us the name and brand we are obliged to guess at what you want, but if you can tell us the maker's name of the shells, and whether they are wanted for black or smokeless powder, we can generally send you the right size.

PRIMERS AND GUN CAPS.

Illustrations show the exact size of caps and primers. Caps and primers cannot be sent by mail.

NOTICE—When ordering primers tell us if you want them for Winchester, U. M. C., or other shells or cartridges and state caliber, gauge and make of your shells or cartridges. The primers are different for each kind, except No. 2. All No. 2 primers are alike in size and are used for black powder paper or brass shells.

6F3226	Trimmed Edge.	Guns.	5c	45c
6F3227	U. S. Musket.	Muskets.	5c	65c

NOTICE—In 12-gauge brass shells, use 10-gauge wads. In paper shells, use wads the same size as shell. Always put the wad down to place flat and evenly, otherwise the shooting qualities of your gun will be greatly impaired.

A FEW WORDS ABOUT GUN WADS.

There is considerable difference of opinion among shooters about the best method of loading shells, with reference to the wadding. We have gone into this matter extensively and our experience is as follows: That if you place one cardboard wad next to the powder, then use one or two 1/4-inch black edge wads (according to the length of the shell), after this put another cardboard wad over the black edge wads, then put in your shot and a thin cardboard wad over the shot, leaving about 1/4-inch of the shell to be crimped, you will get as good results as you will from any fancy loading, all other things being equal.

The main scientific principle in shooting is to confine the gas generated by the burning powder behind the shot. If loading as above mentioned does not give the proper pattern we advise you to try one size larger felt wad. For instance, if you do not get good results with No. 12 black edge wads, try No. 11 wad, for it is sometimes happens that the diameter of one gun barrel is a mere trifle larger than another. If you are doing rapid shooting, enough so as to cause the barrel of your gun to become heated, bear in mind that this heating process expands the bore of the gun, though not enough to notice it with the naked eye, still enough to impair the shooting qualities.

CARDBOARD GUN WADS.

Made from specially prepared cardboard. To be used next to the powder, but may be used over the shot also. Mention gauge wanted when ordering. They come \$20 in a box.

Catalogue Number	Gauge	Weight per box	Price per box of 250	Price per 1,000

OUR GUN SHOP

Is equipped with first class, up to date press, turret lathe, tools, etc., and we are prepared to give estimates on almost any kind of repair work. Tell us the make, name, style, model, caliber, gauge of your shotgun, rifle or revolver, say what is broken and the manager of our gun shop will estimate the cost of repairing same and will advise you if it is necessary to send the fire arm to us or if he can make or furnish the part or parts necessary so you need not return the fire arm to us. We always aim to save you the transportation charges of sending the fire arm to us if we can do so.

OUR APOTHECARY SCALE With Weights. FOR SMOKELESS POWDER.

Will weigh from 2 grains to 120 grains. The little weights made of sheet brass are the grain weights, weighing from 2 to 6 grains; the 10-grain weights are made of aluminum and stamped 10 grains. In addition to the above weights we also furnish the regular apothecary scruple and dram weights for druggists. 1 scruple being equal to 30 grains. These scales have 2-inch pans and come put up in a box 5 1/4 inches long, 2 1/2 inches wide and 1 1/4 inches deep. No. 6F3451 Price.....35c

If by mail, postage extra, 6 cents.

DYNAMITE, BLACK AND SMOKELESS POWDER.

In order to conform with the laws of the City of Chicago, and as a necessary economy in the way of getting a low rate of fire insurance, we are UNABLE TO HANDLE, BUY OR SELL ANY KIND OF POWDER OR DYNAMITE.

Understand, this does not apply to loaded ammunition, such as shotgun shells and metallic cartridges. These we carry in immense stocks in a great variety of styles, which we sell in any quantity at much lower prices than you can buy elsewhere.

6F3607	Buck Drop	8 to 10	5 lbs.	.55
6F3608	Buck Drop	8 to 10	5 lbs.	.55

In case of fluctuation chilled shot is always 25 cents higher in 25-pound sacks and 5 cents higher in 5-pound sacks than drop shot. We will always bill shot at the lowest market rates.

No. 6F3613 Bar lead for running bullets. Take 1 part tin (or solder) to 40 parts of this lead for bullets. If too soft, add tin (or solder). Price, per pound.....9c

No. 6F3616 BB Shot in 1-pound packages for air rifles. Price, per pound.....12c

We always bill at lowest market prices. We guarantee lowest market prices on cartridges, shells, primers, wads, shot, etc. Prices are subject to change without notice.

B. G. I. LOADING TOOL, 45c.

These Reloading Tools, made by the Bridgeport Gun Implement Co., Bridgeport, Conn., consist of the following articles, and the bullet mould alone is worth as much as we ask for the complete set. No. 1 is the recapper; No. 2, a charge cup; No. 3, a decapper; No. 4, a bullet mould for the 38 L.C.F. 38-40 and 44-40 calibers, and No. 5, is the base block. They come in the following sizes only: state caliber wanted. No. 6F4279

Caliber	For	Price per Set
38 L. O. F.	Colt's Revolver Cartridge	45c
38 S. & W.	Winchester Rifle Cartridge	45c
44-40	Repeating Rifle Cartridge	45c

If by mail, postage extra, per set, 18 cents.

IDEAL RELOADING TOOL, No. 1. \$1.43.

This tool is nicely nickel plated. All parts necessary to load the cartridge and make bullets are combined in this one tool.

No. 6F4288 Order by catalogue number and state caliber wanted, also name of revolver or rifle.

Caliber (All are Center Fire)	For	Price, per Set
22 C. F.	Winchester singleshot	\$1.43

TO PRESERVE SHELLS.

always wash them out with hot soapsuds or hot soda water and take out the primers as soon after shooting as possible.

Shell Reducer and Resizer.

Shell Reducer and Resizer for any size from 25 to 45 caliber and larger; will resize shells which have become bulged. Shipped from New Haven, Conn. Allow for postage. State size wanted. No. 6F4296 Price.....\$1.34

If by mail, postage extra, 15 cents.

Our Supplemental Chamber.

No. 6F4297 Our Supplemental Chamber to be used in 30-caliber rifles. This is an ingenious device which admits of your shooting the 30 S. & W. cartridge in a 30-caliber rifle. The supplemental chamber is made exactly like a 30-caliber shell, and it is chambered to take a 30-caliber S. & W. cartridge, so that if you own a 30-caliber rifle you can insert a 30 S. & W. cartridge in this supplemental chamber, put it in the barrel and use your rifle for short range practice at much less expense than shooting 30-caliber cartridges. In other words, with this chamber you can shoot a 30-caliber S. & W. cartridge in a 30-caliber rifle. These rifles we require chamber take the regular 30 S. & W. cartridges. No. 6F2377. Price.....45c

If by mail, postage extra, 2 cents.

Our Excelsior Paper Shell Crimper.

In order to give our customers an extra fine paper shell crimper at a low price, we have arranged to manufacture them ourselves. Nearly all cheap and medium grade crimpers are manufactured of common cast iron, with common crimping cups, no expelling pin to discharge the shell from the crimper after being crimped, a short chamber, and in many respects not properly gauged. On our own paper shell crimper, which we ourselves manufacture we have covered and improved all the weak points of cheap crimpers, by making our levers and cranks of the very best wrought steel which money can buy; our crimping cups are turned out of solid bars of brass, true to gauge, with steel crimping pins, which last longer and do better work than the ordinary stamped brass cups. Each and every crimper which we make is fitted with an expelling pin and long chamber, all are handsomely japanned, and they are by far the best crimpers ever offered by any house at higher prices. We furnish them in 8, 10, 12, 16 and 20 gauge as desired. Order by catalogue number and state gauge wanted.

NOTICE—To make a good crimp, turn fast and feed slowly.

The New Improved Ideal Diamond Square or Round Crimp.

The New Improved Ideal Diamond Square or Round Crimp. To change the crimp from square to round or round to square, unscrew the crimping cup and reverse the pins which are fastened by small screws. It has a new straight feed lever, with steel grip. The only tool that will crimp every shell alike, no matter what variations of load may be. The only tool having an automatic plunger that prevents the end of the shell from spreading over the wad. All wearing parts and cups are of steel. The best crimper ever made.

TO LUBRICATE BULLETS, Dip the bullet in lubricant and set them on a board till the lubricant is hard in the grooves. Good lubricant can be made from beef tallow with enough vasoline to soften it, or pure vasoline with enough paraffin to harden it. Never use fat which has salt or acid in it. It is liable to rust or pit the barrel.

For information on casting bullets, send 3 cents to pay the postage on our Handbook of Useful Information.

SHELL LOADING BLOCKS, 86c.

Our 20-Hole Shell Loading Block. Made of well seasoned wood, holed bored with shoulder to fit the twenty hole shell. The top of hole is reamed out to act as a wad starter; shells do not come within 1/4 inch from top of block; shells cannot bulge or break. With this block you can load 20 shells in half the time you could in the old way, and no danger of upsetting the shells when half loaded. Weight, about 3 pounds.

GUN IMPLEMENT SETS

OUR 8-PIECE LOADING SET \$1.00.

This complete Gun Implement Set for loading paper shells and cleaning a gun as illustrated and described, contains eight articles, and comes in a strong pasteboard box; size, 5 1/2 inches; neatly divided into compartments for each article, and each implement is made of good material and recommends itself to every owner of a breech loading shotgun. The best ever offered for the money. No house can compete with us on these goods; in fact if you bought these goods one at a time from regular stores you would have to pay about the following prices: A retail dealer's price for 1 Shell Loading Block with 20 holes.....\$0.25

1 Jointed Cleaning Rod, with attachments.....35c

1 Paper Shell Crimper Japanned, with Expelling Pin.....45c

1 Combined Powder and Shot Measure.....15c

1 Rammer, Decapper (take off the knob to find decapper pin) and Nickel Loading Tube.....20c

1 Shell Recapper, japanned.....15c

1 Ring Shell Extractor, nickelled.....15c

1 Steel Wad Cutter.....15c

Eight pieces, making a total of.....\$1.85

WHILE OUR PRICE for the complete set is \$1.00, or nearly one-half what you would have to pay, and the quality of our set is much better than offered by others, our cleaners are iron and steel, while others are gray iron. Our closer cups are turned from solid bars of brass, with steel pins, while others are common stampings.

Empire Target Trap For Trap Shooting, \$5.00.

No. 6F4424 Our Empire Target Trap. This trap will be found more substantial and more compact than other traps now in use; all the working parts being large, strong and well fitted, assuring positive action in every detail. The Empire Target Trap is constructed with a lever trigger pull, which allows the trap to be changed to any desired angle without obtaining with the pulling device, and the ropes always have the same length and tension of the pull. These traps will throw any standard target, such as the blue rock, white fly, black bird and others, at all angles. Weight, packed for shipment, 10 pounds. Price.....\$5.00

OUR NEW J. C. PISTOL HAND TRAP. \$1.65

The above illustration, engraved direct from a photograph, was taken from some of our J. C. Hand Traps, which we formerly sold at \$3.25. Believing that we could manufacture this trap cheaper than the former manufacturer, we have made a contract with him whereby we obtain the right to manufacture these traps on a royalty, and under this contract we can offer this trap to our customers on our policy of one small percentage of profit above the cost of production, \$1.65. This is the latest and most novel contrivance ever invented for trap shooters. It weighs but 6 pounds and will throw any standard target, such as blue rocks, white flyers, etc., as far as any stationary trap. The trap when sprung is 18 inches long, and when it is set for shooting is 24 inches long. The carrier is made adjustable and the mainspring is made so that it can be tightened or loosened for fast or slow birds as the shooter may desire. This J. C. Pistol Trap is made of malleable iron. The carrier is made of steel stampings, and the entire trap resembles a pistol, as you will notice by the above illustration, and the main feature of this trap is that you can trap shooting anywhere with it. Two or more friends can go out together, and you do not have to stop and fasten down the trap, as you must do with a regular trap for it is always ready, and it will throw targets at any and all angles. All you have to do is to point the trap the way you wish the target to fly; for throwing at unknown angles, let the trapper stand behind you. When throwing targets let the trap swing forward about 4 to 6 inches after pulling trigger to obtain the best results and to reduce vibration. Weight, packed for shipment, about 6 pounds. No. 6F4425 Price on this J. C. Pistol Trap.....\$1.65
No. 6F4426 The same trap, but finished in oxidized copper and gun metal color, very handsome. Price.....\$1.95

OUR 6-PIECE LOADING SET.

otherwise it is of the same high quality as our 7 and 8-piece sets. We will give you here a list of the prices which regular stores would charge you for an outfit if you bought it separately. No doubt many of our customers have bought these goods and can verify our figures. A retail dealer would charge for

1 Paper Shell Crimper with Expelling Pin.....\$0.45
1 Combined Powder and Shot Measure.....15
1 Rammer, Decapper (take off knob to find decapper pin) and Loading Tube.....20
1 Shell Recapper.....15
1 Ring Shell Extractor.....15
1 Steel Wall Cutter.....15

Six pieces, making a total of.....\$1.25

WHILE OUR PRICE for a better outfit is only 75 cents, REMEMBER, we give you the best quality outfit that you can get anywhere in the United States and for less money than you can buy elsewhere.

OUR BLUE ROCK TARGETS.

NOTE OUR PRICES OF \$2.30 for 500, \$4.55 for 1,000, and you will observe our price is below all others. Our terms are cash with order on these goods.

No. 6F4427 This is the original, standard Blue Rock Target which has been on the market for many years and with which all trap shooters are familiar. Many other targets have been made since then but the Blue Rock still continues to be standard and popular with the shooters for accurate scoring as they are specially constructed to break if struck by only two or three pellets. The Blue Rock Target will fly from any standard trap such as the Empire, White Flyer, etc. We buy these Blue Rock Targets in carload lots in order to obtain the best possible price on the targets and so in order to obtain the best possible freight rate on them from the factory so that we can quote our customers the lowest possible price on them. Price, per barrel (500). Wgt., 150 lbs.....\$2.30
Price, per 1000. Wgt., 300 lbs.....\$4.55

SHOOTING GALLERY TARGETS.

Round Steel Face Plain and Figure Targets.

No. 6F4430 Steel Target, 12-inch diameter, heavy, for 22 or 32 caliber rim fire cartridges. Without the bird figure, but it rings when bull's eye is hit. Bull's eye is 1/2 inch or 3/4 inch diameter. State size wanted. Weight, 15 pounds. Price.....\$1.48
No. 6F4433 12-inch diameter, 1/2 inch thick. Bird is thrown up and bell rings when bull's eye is hit. Must be reset with rope from the shooting stand. Intended for cartridges not larger than 32 long rim fire. Bull's eye is 1/2 inch or 3/4 inch diameter. State size wanted. Weight, 15 lbs. Price.....\$2.49
No. 6F4434 Our new skeleton face steel target, 12 inches in diameter. Made of sheet steel 1/2 inch thick and adapted to 22 caliber cartridges. When the bull's eye is hit a bell rings and the face of the target turns down, showing a skeleton head, where the face of target was. The target being swiveled on each side. The skeleton head may be removed and you can use any other figure or an advertisement to take its place. This target may be reset from the shooting stand and the skeleton is not in view to the shooter, which creates quite a little amusement when the shooter first hits a bull's eye and then sees the skeleton head facing him. Bull's eye is 1/2 inch or 3/4 inch in diameter. State size wanted. Weight, about 13 pounds. Price.....\$2.55

CUN GREASE, CUN OIL ETC.

No. 6F4444 The N.P. Leach famous Gun Grease is the best gun grease ever put on the market by any house. It prevents rust on a steel or polished surface, such as the inside and outside of gun or rifle barrels, cutlery, razors, in fact, it is invaluable for all polished surfaces of steel or iron, and our price is lower than you can possibly buy from any other dealer. It is put up in a neat tin box so it may be carried in the pocket. Weight, 3 ounces. Price, per box, 6 boxes for.....35c
Postage extra, 2 cents per box.

DUCK, TURKEY AND SNIPE CALLS.

Kankakee Marsh Duck Call.

The Kankakee Marsh Duck Call is a call which we manufacture ourselves in order to give our customers the very best duck call at the lowest possible price. We guarantee the call to be equal to any call made regardless of name, make or price. These calls are fitted with best quality reeds and have not the metallic sounds found in many duck calls and sounds which are unnatural to the tones of wild duck, each call is toned by an old experienced duck hunter when it leaves us and should not be altered in any way. With a little practice an amateur will soon learn to call duck as well as an old experienced hunter. Directions for calling accompany each call.

Order by Catalogue Number in full.

No. 6F4561 Our Kankakee Marsh Duck Call, made so that it can be carried by a string fastened in the buttonhole when hunting. Price.....(If by mail, postage extra, 2c).....24c

Our Latest Turkey Caller.

No. 6F4564 Our Turkey Caller is made from well seasoned wood, adapted to make the proper sound for decoying wild or domestic turkeys. Hold the caller in the left hand, as shown in the illustration, and with the right hand rub the slate on the side of the caller, either with the edge or with the flat side, and a little practice you will be able to decoy turkeys successfully. This caller is 4 1/2 inches long, 2 1/2 inches wide, and may be carried in the pocket. Price.....(Postage extra, 3c).....44c

Order by Catalogue Number.

CEDAR WOOD DECOY DUCKS.

In making these decoys great care has been used to select only sound white cedar for their construction and to secure a perfect balance. They are light, substantial and naturally painted. They will not sink if you shoot them. \$2.45 and \$3.65 per dozen. Each dozen contains 8 drakes and 4 females. We cannot furnish them any other way except by special order, which causes delay. Decoys below these prices cannot be properly made and painted to look natural. For highest grade wood decoy ducks, these prices are BELOW ANY COMPETITION. They come in mallard, canvasback, redhead, bluebill, teal or sprigtail. Weight, 35 to 40 pounds per dozen. State which style you wish.

REMEMBER—We can only furnish 8 drakes and 4 females in each dozen.

No. 6F4595 No. 1, our best decoy ducks with glass eyes. These decoys are as nicely painted and as well shaped as most decoys which sell at \$6.00 to \$7.50 per dozen in regular stores. They are really fine decoys and will please you. State which style you wish. Price, per dozen, \$3.65; each.....35c

No. 6F4596 No. 3, good decoy ducks, nicely painted in natural colors, with painted eyes. The decoys are as quite as well painted nor shaped as the No. 1; but are excellent value for the money. State which style you wish. Price, per dozen, \$2.45; each.....28c

No. 6F4597 Anchors with cord for decoys. Price, per dozen.....39c

The Acme Folding Canvas Mallard Decoy.

No. 6F4604 The New Acme Folding Canvas Decoy Mallard is very simple in construction. Mounted on a wood base, with wire frame. The best collapsible duck on the market. The interior canvas ducks are useless when punctured with shot, but this duck still keeps its shape, even though there were several holes through the canvas. Packed one dozen in a neat wooden carrying case, complete with cords and anchors. Price, per dozen.....\$4.95
If by mail, postage extra, each, 20 cents.

OUR CROW DECOYS.

On account of the scarcity of game and the very stringent game laws, now existing at certain seasons of the year in some states, we have conceived the idea of manufacturing crow decoys, to provide sport during the "closed" as well as "open" season on game, as there is no law in most states prohibiting the killing of crows, and in doing so you are helping to protect crops and game, for it is a well known fact that crows destroy the eggs of quail, prairie chicken, grouse, etc., and also those of song birds, and it is also well known that crows abuse song birds.

HOW TO USE OUR CROW DECOYS SUCCESSFULLY.

In "setting out" decoys, we suggest you place them on high ground, stumps, logs or fences, (by sticking their sharp legs in same), where they may be seen at a long distance. Then find a good hiding place, as the crow has very keen eyes and long range of sight. In the brooding season when the young crows are about full grown, it is more difficult to decoy the old ones; at such times take a gunny sack and dump it with black paint or axle grease and fill it with hay or straw. This at a distance will make a good likeness of a dead hog, on which crows are in the habit of feeding. Place the sack on some high ground where it may easily be seen, and you will see your crowd around it, get into a "blind" within killing range and use a duck or crow call or imitate a crow call just enough to attract attention and the results will be surprising. You might try a grouse suit, as a blind, if you have one.

No. 6F4610 Crow Decoys, packed one dozen in a carrying case. Price, per dozen, \$3.75; each.....40c
Weight, packed for shipment, about 24 pounds.

Our Crow Caller, 65 Cents.

No. 6F4615 Our Crow Caller, made of well seasoned wood, fine reed. With a little practice you can soon learn to call crows successfully. Price.....65c
If by mail, postage extra, 2 cents.

Crows will sometimes decoy to the hooting of a horn owl. You can imitate the horn owl with an empty 2-ounce or 4-ounce bottle by blowing into it. Try it.

Grass Suits reduced to 90c.
90c PER SUIT is our price and thousands are being worn by sportsmen everywhere.

No. 6F5112 For wild goose, duck and all kinds of shore bird shooting; made of long, tough imported marsh grass into a cape coat with hood. They weigh about five pounds and are convenient to wear and shoot from. Make good waterproofs in rainy weather, are easily packed and carried. Hunters appreciate the value of these suits, as no blind or bough house is necessary when shooting on marshes. Weight, about 5 pounds. Price, per suit, 90c.

Cannot be sent by mail. Order by Catalogue Number.

REPAIR PARTS FOR FLOBERT RIFLES.

NOTICE—These parts are not fitted. They are in a filed state and must be fitted by a gunsmith or mechanic. If possible send us the broken part and we will try to match it as near as we can.

OUR GUN AND RIFLE COVERS.

We have selected the following line of gun and rifle covers and placed a large season contract for them, so as to enable us to give you the best possible value for the least amount of money in this line of goods. When you order a gun cover from us you are getting it at a price based on the actual cost of material and labor with only our one small percentage of profit added. You will assist us materially when ordering these goods if you will give us the name of your gun or rifle, also length of barrel, and advise us whether it is a single barrel, double barrel, repeating shotgun or rifle for which you want the cover; this will enable us to furnish you the exact cover you wish without any delay. For special lengths not mentioned in this catalogue allow us one week's time to make them.

8-oz. canvas means a yard weighs 8 oz.
10-oz. canvas means a yard weighs 10 oz.
12-oz. canvas means a yard weighs 12 oz.
The more ounces to the yard, the heavier the canvas.

Mention length of barrel and name of gun or rifle when ordering a gun cover.

Our 39-Cent Leather Bound Cover.

No. 57F4695 Rifle and Gun Cover, best 8-ounce tan canvas, leather bound, leather sling, cotton flannel lined, best quality. For 24, 26, 28, 30 or 32-inch barrels. Mention length of barrel when ordering and say if you wish it for a rifle or shotgun. Price.....39c
If by mail, postage extra, 15 cents.

Special Value for 64 Cents.

No. 57F4698 Heavy Tan 18-ounce Duck Cover, for rifle and shotgun. Full leather, leather sling, leather bound, leather protector, with handle and sling. For 24, 26, 28, 30 or 32-inch barrels. State length wanted. Price.....64c
If by mail, postage extra, 16 cents.

Our \$1.40 Leather Rifle and Shotgun Cover.

No. 57F4701 Soft Leather Cover, made of heavy, soft russet bag leather, with combined sling and handle. Bright trimmings. For 24, 26, 28, 30 or 32-inch barrels; give length of barrel and name of gun or rifle when ordering. Absolutely waterproof. The finest gun cover made. Price.....\$1.40
If by mail, postage extra, 25 cents.

Rifle and Carbine Sheath.

No. 57F4703 Rifle Sheath, made of best russet leather, for sporting rifles. These sheaths are not full length covers, but are intended for carrying rifle on saddle, leaving stock of rifle exposed so it may be easily grasped when needed. Be sure to give name of rifle, model and length of barrel when ordering, as different makes require different sheaths. We furnish these for 24, 26, 28 and 30-inch barrel rifles only. Price.....\$1.20
If by mail, postage extra, 30 cents.

Our 85-Cent Duck Gun Case, Victoria Style.

No. 57F4704 The same identical sheath for carbines. State name of carbine and length of barrel when ordering. We furnish these for 30 and 32-inch barrel carbines only. Price.....\$1.15

OUR HUNTING CLOTHING.

We are the largest handlers of hunting clothing selling direct to the consumer in the United States, and we know that we are offering greater value in this line of goods than it is possible for you to obtain elsewhere. Our hunting clothing is guaranteed to be made of the highest grade full weight canvas, full size, made with the same care and finish found in tailor made goods. Quality, both in material and workmanship, considered, our prices cannot be equalled, as they are based on our one small profit, manufacturer to consumer plan, and by reason of our enormous trade in this line, our cost of production is far smaller than that experienced by other manufacturers. In ordering, state number of inches around the chest under the arms, and state what size dress coat you wear. Special sizes not mentioned in the following descriptions, will have to be made specially, and will cost 35 per cent more than the prices named below.

NOTICE: DO NOT FAIL TO GIVE SIZE. Hunting clothing should be ordered one size larger than regular clothing to allow plenty of freedom.

Our Best 12-ounce Army Duck Coat, \$3.80.

Our Very Best Quality Hunting Coat, made of the very best quality 12-ounce army duck, dead grass color, double stitched throughout, lined with the entire back with best quality 2-ounce army duck, sleeves lined with Walker's sateen, corduroy collar and adjustable cuffs lined with corduroy, reinforced waterproof padded leather shoulder pieces, leather bound throughout, including the pocket flaps; silk crow's foot stitching at the pockets and silk stitched buttonholes. Note the gusset under the arms, as shown in the illustration. This enables you to freely raise your arms without feeling the weight of shells and game in the pockets. The pockets are made on the cut in principle, with large flaps, which is very neat, and the game pockets are made so as to be accessible from the front and at the side seams, as shown in illustration. This is our best hunting coat, has six outside pockets and three spacious game pockets, with best quality of horn buttons, and no pains have been spared to make this hunting coat the best canvas hunting coat on the market, and is as nearly waterproof as a canvas coat can be. It comes in sizes of 36 to 46 inches. Give chest measure when ordering. Price,\$3.80 Cannot be sent by mail, as it weighs over 4 pounds. 12-ounce canvas weighs 12 ounces to the yard.

No. 57F5135 Our Very Best Quality Hunting Coat, made of the very best quality 12-ounce army duck, dead grass color, double stitched throughout, lined with the entire back with best quality 2-ounce army duck, sleeves lined with Walker's sateen, corduroy collar and adjustable cuffs lined with corduroy, reinforced waterproof padded leather shoulder pieces, leather bound throughout, including the pocket flaps; silk crow's foot stitching at the pockets and silk stitched buttonholes. Note the gusset under the arms, as shown in the illustration. This enables you to freely raise your arms without feeling the weight of shells and game in the pockets. The pockets are made on the cut in principle, with large flaps, which is very neat, and the game pockets are made so as to be accessible from the front and at the side seams, as shown in illustration. This is our best hunting coat, has six outside pockets and three spacious game pockets, with best quality of horn buttons, and no pains have been spared to make this hunting coat the best canvas hunting coat on the market, and is as nearly waterproof as a canvas coat can be. It comes in sizes of 36 to 46 inches. Give chest measure when ordering. Price,\$3.80 Cannot be sent by mail, as it weighs over 4 pounds. 12-ounce canvas weighs 12 ounces to the yard.

NOTICE—DO NOT FAIL TO GIVE SIZE. Hunting clothing should be ordered one size larger than regular clothing to allow plenty of freedom.

The New Anson Mills Woven Shell Belts.

No. 57F4791 In these Mills belts, the loops are woven into the belts, making them very strong and durable in all kinds of weather; 10 or 12-gauge, with shoulder strap and game hooks. Mention gauge wanted. Price, \$1.18 If by mail, postage extra, 25 cents.

No. 57F4794 Anson Mills Hunter's Belt. The loops are woven closed at the bottom, protecting the crimped end of the shell, no sewing whatever on the belt; 10, 12 or 14 gauge. Mention gauge wanted. Price, 79c If by mail, postage extra, 20 cents.

For Indian Snow Shoes See Our Shoe Department.

The Lanz Canteen.

No. 57F4796 The only canteen which will keep water in palatable condition in any climate. With the Lanz Canteen a doctor can always have a cool drink of water in summer, or warm coffee or tea in winter, when making long rides through the country. With it, the farmer and ranchman always have a cool drink at hand, when at work in the field, or upon the prairie.

Automobile tourists' or sportsmen's tongues never parch when carrying a Lanz Canteen. Where water in an ordinary canteen would freeze solid, under like conditions water in this canteen would not fall below a temperature of 60 degrees. The same theory applies to this canteen used in hot climates. Where water in an ordinary Government canteen would reach a temperature of 135 degrees, water in this canteen would not exceed a temperature of 88 degrees. Endorsed by doctors, explorers, soldiers and government officials. The canteen is made of heavy tin covered with a layer of felt, which in turn is covered with a removable canvas cover. Fitted with an adjustable web sling strap. The canteen is 9 inches in diameter, holds 45 fluid ounces, weighs about 1 pound. Price, (By mail, postage extra, 20c) \$1.00.

BASEBALL GOODS FOR AMERICA'S NATIONAL GAME BASEBALLS.

The National League Ball.

Made by hand, with the best pure rubber center, wool yarn wrapping and horsehide cover, sewed with linen thread. This is not a new ball on the market but it is a ball that has been sold for years for \$1.25 and which we, by reason of a contract agreeing to take a very large quantity and selling this ball under a different name than it has been sold heretofore, are able to sell for 75 cents. We guarantee this ball to be the equal of any ball made and to conform with every specification in regard to weight and size of the National and American Leagues. This ball is guaranteed to hold its shape for nine innings and is further guaranteed to be the equal if not the superior of any ball on the market regardless of price. Each ball comes wrapped in tissue paper and tin foil in a sealed box.

Baseball Mitts.

No. 57F6923 The Sullivan Professional Catcher's Mitt is made of the very highest grade drab colored horsehide, made extra large on an improved model with patent adjustable thumb strap, laced heel, strap and buckle at wrist, reinforced double front and best felt padding, which is hand quilted, so it cannot get out of shape. This mitt is so tailored, or made, that it forms a deep round pocket and requires no breaking in. It is double stitched throughout and guaranteed in every respect. This is the finest mitt on the market, material, workmanship and design considered, and cannot be excelled at any price. Price (Postage extra, 40c).....**\$4.00**

No. 57F6925 The Victor Professional Mitt made of the highest grade drab horsehide. This mitt is designed especially for professionals and embodies suggestions received from many of the league catchers. Workmanship the best, material the best. Has patent thumb strap and patent lace. The patent thumb strap forms and keeps a deep pocket in the mitt, thus you buy a mitt that is already broken in. Lined. This mitt is 11 inches long and 10 inches wide. Price.....**\$4.70**
(Postage extra, 35 cents.)

No. 57F6927 Our Victor Cleveland Mitt. We believe this mitt superior to any \$5.00 mitt on the market. The front is of best quality horsehide and the back and trimmings are of calf. Has the patent thumb strap and lace, same as our \$4.70 mitt. Made on lines of the professional mitts and felt lined. This mitt is 10 1/2 inches long and 9 1/2 inches wide. Price.....**\$3.70**
If by mail, postage extra, 40 cents.

No. 57F6928 Our Amateur League Mitt. 10 inches long, 9 inches wide, made of selected, oil tanned, genuine kip leather, double stitched, leather bound around the edge, padded with good quality heavy felt, same as is used in \$5.00 mitts, made with laced heel, the thumb is adjustable with strap and buckle, forming a deep pocket in the palm; thumb reinforced at the base with a quirk. This mitt is regulation size, made after the improved pattern professional league mitt, and of best material and workmanship; warranted to give satisfaction and service. Price.....**\$2.45**
(Postage extra, 35c.)

No. 57F6931 Our Commercial League Mitt made of fine, selected oil tanned, genuine kip leather throughout, double stitched, leather bound around the edge; has crescent heel pad, the thumb is adjustable with strap and buckle, forming a deep pocket in the palm, padded with heavy felt, is 10 inches long and 9 1/2 inches wide, and is first class in every respect; must be seen to be appreciated. Price.....**\$2.25**
(Postage extra, 35c.)

No. 57F6933 Our Men's Buck Mitt made with buckskin palm, goatskin back, calfskin fingers and leather bound around the edge, double stitched, stuffed with good quality felt padding, adjustable strap and buckle on thumb, crescent heel pad. This is a well made mitt, and nicely finished article. Makes an ideal amateur mitt for school or clerical clubs. Price.....**\$1.85**
If by mail, postage extra, 30 cents.

No. 57F6934 Our Chelsea Mitt buckskin palm, back and fingers of selected goatskin, leather bound around the edge, thumb adjustable, crescent heel pad, with deep cup shape palm. An excellent mitt for little money. All are stuffed with felt, and the workmanship is first class. An excellent mitt for school clubs. Price.....**\$1.65**
(Postage extra, 30c.)

No. 57F6937 Our Medium Size Amateur Mitt. Palm is made of selected horsehide, back is made of selected glove leather, leather bound around the edge, crescent heel pad, medium deep pocket in the palm and well stuffed. Price.....**\$1.25**
If by mail, postage extra, 28 cents.

No. 57F6938 Our Men's Medium Size Amateur Mitt. Palm is made of asbestos buckskin, back is made of light tan color glove leather, leather bound around the edges, well stuffed, with medium size pocket in the palm. An excellent glove for young men for amateur games. Price.....**75c**

Baseball Catchers' Masks.
This illustration shows the Patent Pneumatic Cushion or Pad we are placing on our Nos. 57F6972 and 57F6973 baseball masks. Unquestionably these pneumatic pads represent the best invention within the past five years in baseball goods. The old style leather pads were hard and rigid, they would never conform to the face of the wearer and were never comfortable. These pneumatic pads of ours are made of rubber covered with perspiration proof brown khaki cloth, extend around the face and across the chin, conform to the contour of the face and are at all times comfortable, making our masks the most perfect fitting and most comfortable masks on the market. These pads are inflated or deflated by means of the nozzle shown in the illustration. One operation inflates the entire pad.

No. 57F6972 Our Patent Neck Protecting Pneumatic Pad Mask. The best mask on the market, fitted with our pneumatic pads as above described, made of the best annealed steel wire of extra heavy gauge covered with black enamel to prevent the reflection of light. Fitted with an extension at the bottom of mask to give protection to the neck, which extension does not in any way interfere with the free movement of the head. Endorsed by professional and amateur players throughout the country. Price.....**\$2.10**
If by mail, postage extra, 30 cents.

No. 57F6977 Men's Professional League Mask. Black enamel wire of 5-32 and 6-32 inch diameter, which prevents the reflection of the light; 2 1/2 inch wide and cheek piece with head and chin pieces; weight, 33 ounces; an A1 quality mask; 10 1/2 inches long, 7 1/2 inches wide. A strong mask. Price.....**\$1.25**
If by mail, postage extra, 27 cents.

No. 57F6978 Men's Professional Mask. Black enamel wire, 5-32 inch in diameter, temple and cheek pads, head and chin pieces; well made; weight, 18 ounces; 10 inches long, 7 inches wide. Price.....**90c**
If by mail, postage extra, 18 cents.

No. 57F6980 Men's Amateur Mask. Bright wire, 4-32 inch in diameter; temple and cheek pads; nicely finished; weight, 11 ounces; 10 inches long, 7 inches wide. Price.....**50c**

BASEBALL UNIFORMS.

OUR BASEBALL UNIFORM SAMPLE BOOK OF WHICH WE HEREWIT SHOW A SMALL ILLUSTRATION, IS ABSOLUTELY FREE. SEND US A POSTAL CARD STATING, "SEND ME YOUR BASEBALL SAMPLE BOOK," AND IT WILL BE SENT TO YOU AT ONCE POSTPAID.

Our Baseball Uniform Business is so enormous that we find it necessary to issue a special illustrated catalogue to do full justice to the large and varied line of uniforms we are handling. We make our own uniforms and buy our own material, and therefore positively guarantee our uniforms to be the superior in quality, workmanship and to be lower in price than any other uniforms on the market. In this special catalogue which we will send you free upon receipt of your request, we describe, illustrate and furnish samples of five different grades of uniforms at \$2.40, \$3.25, \$4.50, \$5.80 and \$7.40 per uniform complete. These prices include lettering. This special catalogue contains illustrations of the various styles of pants, caps and shirts and is the most complete uniform catalogue ever issued.

OUR LINE OF HAMMOCKS.

We claim our hammocks are the best, strongest hammocks on the market. They contain more material and are closer knitted than any other. The valance or curtain on our hammock is wider and longer than those offered elsewhere. Color effects, making ours the most handsome fast and well made hammock. We particularly note Nos. 57F7243, 57F7244 and 57F7245.

Our Hand Knitted Seine Twine Hammock, 95c.

This hammock is knitted by hand, of double seine twine, forming a 2-inch square mesh, and each hammock is made in white and one other neat attractive color. The edge on each side is chain braided, and interwoven into the meshes, making a strong, substantial and durable hammock, and with ordinary care will last a number of years. The entire hammock is about 13 feet long and the bed is about 7 feet long; and we furnish it without spreaders.
No. 57F7230 Our hand made double seine twine hammock. Price.....95c
If by mail, postage extra, 32 cents.

Our Hann's Patent Canvas Hammock.

The Hann Patent Hammock is the latest and most comfortable hammock yet produced. It is so constructed that by simply moving the arm rest from one position to another along the ropes, the hammock may be changed from one position to another instantly. By removing the arm rests the hammock may be used as a regular hammock, and by inserting the arm rests, as shown in the above illustration, the hammock has the effect of a reclining chair, and is an excellent thing for invalids as well as being one of the most comfortable hammocks on the market. All are made of striped canvas. Bed is 30 inches wide and 73 inches long and weighs about 7 1/2 pounds.
No. 57F7234 Made of striped canvas with spreader pillow and valance. Price.....\$1.35
When hanging a hammock always hang it so that the head will be higher than the foot.

Open Weave Cotton Hammock, 55 Cents.

No. 57F7235 Open Weave Cotton Hammock. Fine cotton weave, quarter color, with fancy colored stripes. Size of bed, 6 feet long, 3 feet wide. Strong and durable, fitted with good wood spreader; without pillow. A good hammock for children. Weight, 2 pounds. Price.....55c

Two-Piece Bathing Suits.

LADIES' BATHING SUITS, SEE INDEX.

Capoe Swimming Jacket.

This jacket, as shown in the illustration, is made in two parts, front and back. It is 9 1/2 inches wide, length of each half about 25 inches. Weight about 2 pounds. It is designed for the shoulders with tapes, fastened round the body in such a manner as not to interfere with the free movement of the limbs. Can be instantly removed. Capoe is a vegetable wool and is very buoyant. These jackets are guaranteed to support any average person. Come in two styles, for men, ladies and children.
No. 57F7225 For ladies and children. Price.....80c
No. 57F7226 For men. Price.....85c
If by mail, postage extra, 37 cents.

Wire Pillow for Hammocks.

This illustration shows the Torsion Braided Wire Pillow used on the following three styles of hammocks, No. 57F7243, No. 57F7244 and No. 57F7245. This pillow is undoubtedly the greatest improvement on hammocks within the past five years. It is entirely free from the heat and stiffness of the ordinary pillow, self ventilating, very soft and comfortable and accommodates itself to every movement of the head. It will always retain its shape and elasticity and will not rust. Other manufacturers charge from 50 cents to \$1.00 more for a pillow of this kind. We are furnishing the following three numbers of hammocks fitted with our spring pillow for less money than other dealers charge for the same quality of hammock with the ordinary stuffed pillow.
No. 57F7243 Our Big Leader Hammock, made in figured fancy weave, damask pattern, full fancy fluted valance, with fringe and scroll pattern. One strong spreader at head, with fancy patent spring pillow, also one short wood spreader at the foot. Size of bed, 40x80 inches. One of the most beautiful hammocks ever placed on the market. Strong and durable, and which generally sells at retail for \$3.00. Weight, 6 1/2 pounds. Price.....\$1.90

Our Damask Weave Spring Pillow Hammock, \$1.90

No. 57F7244 Our Large Size, Torsion Spring Pillow Hammock. This hammock is made in full fancy colors, strong spreader and full size spring pillow at one end and extra wood bar at the foot. Full deep valance at the sides. Size of bed, 40x83 inches. Made of heavy three-ply warp, color of old gold effect, and we consider this one of the best bargains which we offer in hammocks. Weight, 10 lbs. Price, for this full size hammock.....\$2.45

Our Old Gold Pattern Spring Pillow Hammock, \$2.45

No. 57F7245 Hammock, extra heavy fancy close canvas weave, fine fancy bright colors, in contrasting design, extra deep fluted valance with fancy extra large patent spring pillow, heavy strong spreader. One short wood bar at the foot. Size of bed, 46x88 inches. This is a large size hammock, strong, durable and very showy. Weight, 9 pounds. Price.....\$2.75

Hammock Ropes.

No. 57F7262 Hammock Ropes, 6 1/2 feet long, adjustable anchor fastening that remains where you place it; no knots to tie after attached to hammock, no slipping in hammock. Hammock can be raised and lowered in an instant.

Calcutta Four-Piece Splashing Rod, 12 to 16 Feet, 85 Cents.
No. 57F8607 Calcutta Four-Piece Bamboo Rod, double telescope ferrules, ringed for line, with butt cap and reel bands. An excellent rod for splashing or sparring or trolling among the weeds and lily pads. Length, 12 to 16 feet. Weight, about 3 pounds. Price..... 85c

LANCEWOOD RODS.

There are about thirty to fifty styles of Lancewood rods manufactured by the various makers, and each style necessitates a change in equipment, machinery, etc., and by reducing the number of styles of our lancewood rods, we are able to save the expense of these changes, which expense is necessarily added to the rods when so many styles are handled by one house. We have decided to reduce the number of styles of lancewood rods in order to handle a few.

St. Croix River Lancewood Fly Rod, 10 to 10½ Feet, 82 Cents.
No. 57F8616 Our St. Croix River Lancewood Fly Rod, made in three pieces, with an extra tip, genuine lancewood throughout, nickel plated mountings and raised telescope ferrules. Silk wound tie guides and silk whippings at each mounting. Solid reel seat below hand. Zylonite corrugated grip. Length, about 10 to 10½ feet. Put up in neat partitioned cloth bag. Eight In One Combination Lancewood Rod, \$2.85.

No. 57F8623 The best combination rod on the market. You can make eight different rods of this rod, can place the reel seat above or below the handle, and with the aid of the shortener carried in the butt of rod make a short, medium or long bait casting rod or a fly rod, as desired. The rod can be shortened when in use without taking the line from the entire rod by drawing the line to the side of the guides, which are open for that purpose. Made of the best grade lancewood, solid nickel reel seat, nickel mounted throughout, fitted with frictionless guides, beautifully wrapped at close intersections with silk. Comes put up four joints and extra fly tip, making five joints in all, with detachable cord wound grip, in a neat partitioned cloth bag. Price..... \$2.85
If by mail, postage extra, 19 cents.

OUR SPLIT BAMBOO RODS.

his illustration will give you as near as it is possible, an idea of how a split bamboo rod is made. At first the bamboo cane is split in a sort of triangle shape, as shown in illustration, and glued together, forming a hexagonal shape. This is where the rod derives its name—Split Bamboo—(the bamboo is split and glued together).

Our Western Expert Split Bamboo Bass Rod 5½ Feet, \$2.00.

No. 57F8629 This rod was designed by us to meet the large demand for a high grade short length bait casting rod, and is one that is generally sold for from \$4.00 to \$5.00. This rod is original with us. It was made in exact accordance with the specifications furnished by us, made by one of our men who has been in business for years and whose rods ordinarily sell for very fancy prices. This rod is made of special selected clear straight grain, hand split bamboo, the joints are beautifully tapered and balanced, giving this rod just the right amount of life and elasticity which has always been so hard to obtain in a cheap rod. It is handsomely and closely wrapped with alternate wrappings of black and red silk, is fitted with German silver anti-friction trumpet guides, double hole funnel tip, handsome solid nickel plated reel seat with nickel plated finger hook, corrugated black and white celluloid grip, nickel plated butt cap, heavy welded shouldered ferrules, shouldered dowels, put up at a price fully \$2.00 less than it could possibly be duplicated for elsewhere. Weight, 5½ ounces. Length, 5½ feet. Price..... \$2.00
If by mail, postage extra, 30 cents.

Agate tip fitted to this rod, 65 cents extra; agate guide fitted to this rod, 65 cents extra; agate tip and guide fitted to this rod, \$1.20 extra over stated price of the rod.

Our Climax Split Bamboo Bass Rod, 8 to 9 Feet, 75 Cents.

No. 57F8630 Solid reel seat above the hand. This rod is one that we are making a run on at an exceedingly low price and are positive the rod cannot be duplicated for twice the amount anywhere in the country. Split and glued bamboo bass rods, nickel plated telescope ferrules, silk wound line guides, with alternate wrappings, nickel mounted mountings, three pieces, with an extra tip. Put up on a wooden form in a cloth bag. About 8 to 9 feet long. Weight, about 11 ounces. Price..... (If by mail, postage extra, 30 cents)..... 75c
Agate tip fitted to this rod, 65 cents extra; agate guide fitted to this rod, 65 cents extra; agate tip and guide fitted to this rod, \$1.20 extra stated price of the rod.

Our Tournament Bamboo Bait Casting Rod, \$2.88.

No. 57F8633 This rod is made of the highest grade selected split bamboo, beautifully tapered from grip to tip, giving it the needed elasticity for accurate and distance bait casting. It is beautifully wrapped with two colors of silk, the wrappings are very closely clustered, presenting a most handsome appearance. The rod is fitted with a double mottled cord wound grip, large two-ring Kalamazoo guides. Comes three joints and extra tip, 5 feet long. Weighs 6 ounces. Put up in partitioned flannel bag. This same rod sells for \$5.00 or \$6.00 all over the country, and at our price of \$2.88 is the best value ever offered in a split bamboo bait casting rod. Price..... \$2.88
If by mail, postage extra, 18 cents.

Our Aome Split Bamboo Fly Rod, 9½ to 10 Feet, 82 Cents.

No. 57F8634 Solid reel seat below the hand. This rod is the same quality as our Climax, except that the reel seat is below the hand for trout and light fishing. Has silk wound ring guides, with wrappings of fine silk every few inches, solid reel seat and nickel plated telescope ferrules and mountings. Length, about 9½ to 10 feet. Weight, about 11 ounces. Worth \$1.75 anywhere. Comes in three pieces with an extra tip on a wood form and in a cloth bag. Price..... 82c
If by mail, postage extra, 19 cents.

Our Special Willowmuck Split Bamboo Fly Rod, 9½ to 10 Feet, \$1.50.

No. 57F8641 Solid reel seat below the hand. This rod is made of special selected bamboo, hexagonal in shape, with close wrappings of colored silk, full nickel plated telescope ferrules and mountings, cork grasp. Put up in three pieces with an extra tip on a fine tapered wood form and in a neat bag. Length, about 9½ to 10 feet. A rod that retails at \$3.00 in stores. Weight, 6 ounces. Price..... (If by mail, postage extra, 18 cents)..... \$1.50

Sunday Pocket Fly Rod, \$2.85.

No. 57F8645 This is an ideal rod for the man that wants a rod he can carry in his pocket or in a small grip. The joints of this rod are but 13 inches long, made of select split bamboo, closely wrapped with two colors of silk, fitted with improved snake guides, welded ferrules, nickel plated reel seat, below the cork grip. With the heavy tip you can make a short six-piece rod, 6 feet long, by placing the heavy tip in the fifth joint. By using the light tip you can make a seven-piece rod, 7 feet long. This is a high grade rod in every respect, and while the joints are short they do not in any way injure the life and spring of the rod. The rod has as much life as any rod with joints twice as long. Put up in neat partitioned cloth bag. Price..... \$2.85
If by mail, postage extra, 10 cents.

Our High Grade Split Bamboo Fly Rod, 9 to 10 Feet Long, \$3.24.

For \$3.24 we offer our Walton Split Bamboo Fly Rod which is the equal of any \$6.00 rod on the market. This rod is made of the very best select bamboo, fitted and joined by hand. Mountings of rod, including the reel seat and ferrules, are solid German silver. To add strength and beauty to the rod it is fitted with an extra inlaying of cedar at the butt; wrappings are of silk and are beautifully clustered at close intervals. Fitted with improved snake guides and cork grip. Put up three joints and an extra tip on a handsome covered wood form in a flannel bag. Each joint is about 36 inches long and rod weighs about 7 ounces. This is the liveliest, handsomest and strongest fly rod ever offered at anything like the price.

No. 57F8668 Our Walton Split Bamboo Fly Rod. Price.....\$3.24
If by mail, postage extra, 17 cents.

STEEL FISHING RODS.

Manufactured by the Horton Manufacturing Co., of Bristol, Conn.

Note the exceptionally low prices we are making on our line of steel rods. These are excellent rods in every respect and we guarantee each and every one to give satisfaction. We guarantee them for one year against breakage caused by defective material or workmanship. This guarantee, however, does not apply when the rods are broken through careless handling. If the joints go together rather tightly, do not file the ferrule but put a drop of oil, a bit of graphite or soap on the ferrule and the joints will go together very easily.

Our High Grade 10-Foot Jointed Steel Fly Rod, \$2.35.

No. 57F8675 Steel Fly Rod, 10 feet long, full nickel mounted, with solid reel seat below the hand. This rod is jointed and fitted with two-ring German silver tie guide and one-ring German silver fly tip. It is made with three pieces and handle; each joint being 33 inches long. Does not telescope. With cork grip. Weight, 9½ ounces. Price.....\$2.35
If by mail, postage extra, 13 cents.

Genuine Henshall 8½-Foot Steel Bass Rod, \$2.25.

No. 57F8677 Full nickel mounted with solid reel seat above the hand. This rod is jointed and fitted with two-ring German silver tie guides and German silver three-ring tip. Does not telescope. With cork handle. Price.....\$2.25
If by mail, postage extra, 15 cents.

The Expert 6½-Foot Steel Bass Rod, \$2.32.

No. 57F8681 The Expert Steel Bass Casting Rod, 6½ feet long, full nickel mounted, with solid reel seat above the hand. This rod is jointed and fitted with two-ring German silver tie guides and German silver three-ring tip. It is made with three pieces and handle; the joints are 24 inches long. This is a fine rod for long casts and for heavy work. Does not telescope, but is jointed. With cork grip. Weight, 8½ ounces. Price.....\$2.32
If by mail, postage extra, 13 cents.

The Kalamazoo Steel Bass Casting Rod, \$2.95.

No. 57F8686 This rod has a short cork grip, large polished German silver two-ring guides, and solid agate double hole tip. The reel seat is so arranged that the reel is brought close to the grip, which enables the fisherman to thumb the reel without tiring his hand. The free running qualities of the large guides and tip are such that a novice can cast from 75 to 100 feet after a few trials. Length, 5 feet. Weight, 8½ ounces. Price.....\$2.95

The Champion Steel Bass Casting Rod, \$3.65.

No. 57F8689 The Champion Steel Bass Casting Rod, 5½ feet long with agate tip and one agate guide, which saves the wear on the line, the other guides are German silver, trumpet style. This rod is intended for those who prefer a short rod, which is rapidly becoming more and more popular, being more readily handled and not so severe on the wrist. This rod does not telescope, but is jointed and fitted with cork handle. Weight, 8½ ounces. Price.....\$3.65
If by mail, postage extra, 13 cents.

Emergency Tip.

No. 57F8690 Emergency Tip, to be used with Bristol steel fishing rods only, in case of incident to the regular tip joint or in place of the tip joint, to make a very stiff trolling rod. Can be carried in the vest pocket. About ¾ inches long. Every owner of a Bristol rod should have one. Price.....\$1.75
If by mail, postage extra, 2 cents.

Steel Rod Shortener.

No. 57F8695 Our Steel Rod Shortener. This shortener fits in the grip of jointed steel rods and in doing so takes only the two smallest joints, leaving out the joint which fits in the grip. With this shortener you can make an 8½-foot rod 6 feet long. Price.....\$2.35
(If by mail, postage extra, 2 cents)

WHITE ASH OARS.

One pair of 6½-foot oars weigh about 6 pounds and one pair of 8½-foot oars weigh about 13 pounds. All our oars are first quality.

Price.....\$1.15

Notice—We do not use granulated cork in our life preservers—we use solid block cork only.

The Seroco Complete Tackle Outfit, \$2.35.

No. 57F8726 This is a first class outfit, one that will please any fisherman, no matter how critical. Same consists of a split bamboo bait casting rod, 8 feet long, three joints and extra tip, zylonite grip, anti-friction tie guides, mounted wood frame in cloth bag, excellent 60-yard fly pool quadruple reel, fitted with click and drag, full nickel plated, fancy bone balance handle; 25 yards of hard silk braided casting line, one linen line suitable for trolling or still fishing, one and a half dozen assorted gut hooks, three popular attractive artificial baits, half a dozen trout flies, half a dozen assorted sinkers, one 3-foot double gut leader, one worm gage, one chain fish stringer, one fancy float, one fish scaler; all put up in a durable pasteboard box. This outfit, if the items were purchased separately, would cost about \$3.75.
Our price for above outfit as stated.....\$2.35
If by mail, postage extra, 42 cents.

The Shakespeare Service Takeapart Reel.

This is a fine improved model reel, made with the celebrated Shakespeare take down feature, which is the simplest taken down on the market. When taken down there are only three parts; no small pieces or screws to become lost. Can be taken apart in a few seconds and as quickly put together without the aid of any tools by giving the two knurled pillars in front and back a few turns. This reel is handsomely finished in nickel and is a full quadruple. Fancy knurled screw off oil caps, steel piston and steel axle. The click is on the left side, the adjustable graduated drag is on the top of the right side, as shown in the illustration. These reels are built for service, are very strong and rigid and possess free running qualities. Extra wide 1½ inch spool. Weight, about 7 ounces.
No. 57F8730 Price, 80-yard size, \$3.60
No. 57F8731 Price, 100-yard size, 4.05
If by mail, postage extra, 15 cents.

Carlton Ideal Reels.

No. 57F8753 The Carlton Ideal Reel is an ideal reel for fly casting. It is doubtless the lightest reel on the market; it is a single action reel, but the construction of the spool enables this reel to reel in the line as fast as a multiplying reel, also thoroughly dries the line, as the air can easily get at same. The reel is finely nickel plated, fitted with click and balance handle, the base and side plate are made of one piece of metal, making the reel doubly strong.

80 yards. Price.....\$0.85
120 yards, large size. Price.....1.15

If by mail, postage extra, 10 to 14 cents.

Kelso Automatic Reel.

No. 57F8754 The best automatic reel made, possessing all the improvements embodied in the various automatic reels in addition to various valuable features of its own. This reel is made of aluminum and weighs but 7 ounces. It is very simple in construction, has but few parts and will not get out of order. This is an ideal reel for fly casting; can also be used for trolling. A slight pressure on the brake causes reel to rapidly take in the line, keeping the line taut at all times. Will handle 100 feet of line with one winding. Spool will hold 100 yards of No. 6 or H line. The tension of the mainspring is automatically thrown off, which relieves the wear and strain on the spring and allows the line to unwind even if the spring is wound up tight. This reel is 3 1/2 inches in diameter, 1 inch wide.

Price.....\$3.25

If by mail, postage extra, 12 cents.

Our Genuine Quadruple Pennell Reel.

Each reel is carefully tested for smooth running and carefully adjusted before leaving the factory. We guarantee this to be the genuine Pennell Quadruple Reel, the best reel for bass fishing or trolling. Our Quadruple Pennell Round Disc Reel is fitted with adjustable sliding click and drag, steel pivots, bridge over gear made of the best material possible, handsomely nicked, fancy bone balance handle.

If by mail, postage extra, 12 cents.

Our Kentucky Pattern Jeweled Reel.

No. 57F8767 Our Kentucky Pattern Jeweled Reel is undoubtedly the best reel of its kind on the market. It is made especially for us by one of the most famous reel makers in the country. This reel is full quadruple, 80-yard size, extra wide 1 1/2-inch spool, steel pinion and steel axle. The pinion and gear wheel are securely bridged and locked so as to obviate all lost motion and to insure smooth frictionless running qualities not found in reels that sell for twice its price. The pillars extend clear through the front and rear, thus insuring greater strength and rigidity in this reel than found in any other reel of the same pattern. The click and drag are on the handle side and are of an improved positive type. The steel axle bears on jeweled ball bearings, which are fitted by hand with the same degree of accuracy as is employed in fitting jewels in a watch. The mechanism of this reel is quickly accessible by removing two small screws, for which purpose a small flat steel screwdriver (which can be carried on a key ring) is furnished with each reel. Reel is beautifully finished in nickel plate throughout, screw off agate oil caps are nicely knurled, fitted with handsome large side bone balance handle and improved cross blade. Each reel put up in neat box, complete with screwdriver, as shown in the illustration.

Price.....\$3.00

If by mail, postage extra, 11 cents.

The Shakespeare Standard Takeapart Reel.

This reel holds the world's record for long distance bait casting. Made with the celebrated Shakespeare takeapart features, which enables you to take the reel apart in a few seconds' time and as quickly put it together again. When taken apart there are but three parts, no screws to get lost or out of adjustment. This is a beautifully finished reel, made as accurately and carefully as a watch, hard rubber heads mounted between turned plates, heavily silver plated and oxidized on hard drawn rolled brass with English silver steel journal and pinions, is fitted with the harmonic click and adjustable drag, both being operated by knurled wheels placed in a convenient position on the edge of a head and end plates. The adjustable graduated drag prevents the overrunning and snarling of the line when casting. 1 1/2-inch wide spool pattern.

No. 57F8768 80 yards. Price.....\$5.40

If by mail, postage extra, 15 cents.

The Illinois Takeapart Reel.

This reel can be instantly taken apart by pressing in the small button at top of right disk and giving disk half turn to the left. Reel is absolutely locked when in position, cannot accidentally become loose. This is a full quadruple reel with extra large balance handle, steel axle and pinions, goose neck click, spiral gears. The material and workmanship in this reel is equal to that in any \$6.00 or \$8.00 reel on the market. This reel is absolutely noiseless and runs very true and smooth.

No. 57F8770 60-yard size. Price \$2.34

No. 57F8771 80-yard size. Price, 2.45

If by mail, postage extra, 15 cents.

The Expert Serozo Agate Rubber Plate Metal Boud Quadruple Reel.

These reels are of the new wide spool type, are made of great strength and are especially for us under contract. It is one of the finest reels made, a reel that would ordinarily sell for twice the price we are asking for same. Rubber plates incased with nickel bands, jeweled bearings, the agates being accurately adjusted to the axle, has handsome white bone milled balance handle, is bridged to prevent action from becoming loose, insuring smooth running qualities, gears are carefully cut and adjusted by experts, finely finished, being extra heavily nickel plated, new style cross blade, fitted with click and drag. Made in 60 and 80-yard size.

No. 57F8775 60-yard size. Price \$1.90

No. 57F8776 80-yard size. Price, 2.20

If by mail, postage extra, 15 cents.

Perfection Pennell Takeapart Reel.

No tools required. This reel may be taken apart in a moment's time by unscrewing the ring at either end. This reel is made by the most skilled mechanics, built on entirely different principles than other reels, and is the strongest, simplest, swiftest reel on the market. Has a scientific friction device by which any degree of friction can be instantly secured on the spool. The pinion gear of quadruple steel is cut upon a solid steel shaft running through and securely fastened into the non-corrosive German silver spool. The pivots are turned upon this hardened steel shaft and have cone bearings. The large gear is perfectly cut in bronze, and is securely bridged on the cap of the reel. The fancy bone handle is screwed upon the solid post of this gear and can be placed in four different positions. This reel is of the wide spool pattern, is the best bait casting reel of its kind ever placed upon the market. Absolutely true and accurate.

No. 57F8777 60 yards. Price.....\$2.60

No. 57F8778 100 yards. Price.....2.75

No. 57F8779 This reel is the same as that above described except the frame instead of having riveted pillars and cross blade is made of one solid piece, making a very strong, substantial reel and guarding against loose joints, otherwise same as No. 57F8777. Comes 80-yard size only, wide spool pattern. Price.....\$4.00

If by mail, postage extra, 14 cents.

The Twentieth Century Line Guide.

This is the simplest, most practical spooling device on the market today. Can be attached to any reel within a few moments' time by anyone, the only tool required being a screwdriver. It does not retard the cast or wear the line. Weighs only one ounce. This spooler works on a pivot, being worked slowly from side to side with the thumb of the hand that holds the rod. The loop is made of German silver and can be bent in and out to suit.

No. 57F8781 Price.....\$3.50

If by mail, postage extra, 2 cents.

The New Model Sleeping Tent.

\$5.70

An excellent tent for cowboys and ranchmen and for people who are compelled to sleep out in the open or to move from place to place. The above illustration shows the tent set up, also rolled. This tent when set up is 6 feet 9 inches long; 42 inches wide. When rolled up it is 42 inches long and about 12 inches in diameter. Weighs 11 pounds complete. The tent is made of heavy white canvas of a heavy waterproof seamless canvas floor. The ribs in the tent are made of steel that are sewed fast to the tent. There are no parts to get lost and the entire tent is made of one piece. There is sufficient room in this tent for two people to sleep, permitting the use of several pairs of blankets. Owing to its construction it permits an excellent ventilation, which is a big advantage over the sleeping bag. Fitted with loops at the corners so it can be staked down.

No. 57F10361 Price.....\$5.70

Cowboys' or Stockmen's Bed Sheets.

For herders who are compelled to sleep in a tent or on the ground, or they may be used as sod covers. Fitted with snaps and rings or eyelets, as may be ordered. When ordering, say if you wish snaps and rings or eyelets. Made to order of very best heavy white duck, and cannot be returned if sent as ordered. Allow 2 to 6 days for making. We do not ship Bed Sheets C. O. D. Weight, packed for shipment, 10 to 20 pounds.

No. 57F10362 Be sure to state size wanted.

Waterproof Ponchos.

No. 57F10368 Our Luster Ponchos, made of finest quality rubber, lined with fine sheeting and have a hole in center, covered with heavy flap. By using this hole and drawing the poncho over the head, it forms a large rubber cape, protecting the entire body. It is absolutely waterproof and may also be used as a rubber blanket. Size, 45x72 inches. Weight, 3 1/2 pounds. Price.....\$1.22

PAULINS OR STACK AND MACHINE COVERS.

Weight given below is for 8-ounce duck; 10-ounce will weigh one-fourth more than 8-ounce, and 12-ounce will weigh one-half more than 8-ounce. Protect your crops, implements and machinery from snow, rain and inclement weather. Made to special order. Allow from two to five days, according to the number of orders we have on hand when we receive yours. We do not ship Paulins or Covers C.O.D.

Made of white duck. Always state size wanted when ordering. These goods are not tents, but paulins or stack covers. Stack covers have short ropes, BUT NO POLES; machine and merchandise covers have eye-lets around side. Paulins are made to order and cannot be returned if sent as ordered. Write for samples of canvas which goes into our covers. Write for prices for special paulins, conveyer and elevator canvases not in this catalogue.

No. 57F10370 Be sure to state size wanted.

Prices given on other sizes upon application.

Brown Waterproof Covers.

No. 57F10377 These Waterproof Covers are made of 11-ounce brown duck, 34 inches wide and are treated with paraffine wax, making an excellent waterproof cover for wagons, machinery, merchandise, etc. The canvas is run between hot rollers and the paraffine wax fills every pore, making these covers thoroughly waterproof. These covers are particularly adapted to warm southern climates where a line-seal waterproof cover would rot in a short time. Give length and width desired. Price, per square foot.....5c

WHITE DUCK EMIGRANT WAGON COVERS.

ALWAYS GIVE SIZE WHEN ORDERING. Weight given below is on 8-ounce covers. 10-ounce weighs one-fourth more and 12-ounce about one-half more than 8-ounce. We do not send wagon covers C.O.D. Write for prices on covers not quoted in this list.

No. 57F10388 Long Peg, 13 1/4 inches long. Weight, about 7 1/2 ounces each. Price, per dozen.....68c

Our Palmetto Lawn Tents.

These Palmetto Lawn Tents are calculated for temporary use; as play-houses for children, for lawn parties, fairs, etc. They are made of about 8-ounce awning material and come in stripes of blue and white, are set up with one pole, and a light iron frame sewed into the tent around the eaves; are handsome in appearance upon the lawn. Order by catalogue number and state size wanted.

WARNING:—There are Lawn Tents on the market quoted as being the same size as ours, but which are 6 inches shorter in height of center and size of top.

No. 57F10393

10x10 ft.	3 ft. 6 in.	9 ft.	7 ft. 6 in.	23	8.05

THE "KAUTNIK" FOLDING TORCH.

A folding gasoline vapor lamp, designed for all outdoor uses. This is the ideal torch for people who require light in a convenient and portable form. This torch is very compact, folds up into the small space of 2 1/4 inches thick by 8 1/2 inches wide and 10 inches long; has a flat tank with semi-oval sides; in the center throughout its length on one side is a hollow recess as shown in the illustration, into which the 42 inches of jointed brass pipe folds up entirely out of the way. If desired, the joint next to the tank can be locked into the steel strap that otherwise is used to retain the pipe when folded. This torch can be easily carried in a valise or suit case, thereby possesses a great advantage over the old style rigid one-piece pipe torch. The joints of this torch are perfectly tight, being packed with braided asbestos. It is fitted with a powerful burner which gives an excellent light, burns 7 to 8 hours with one filling.

No. 57F10396 Price, each, aluminum finish, including a wrench to keep joints from wearing loose. Packed in a strong paper box. (If by mail, postage extra, 45c).....\$2.00

PORCH CURTAINS.

If you have a porch or piazza, a porch curtain will enable you to enjoy the full benefit of same, as it will protect you from the heat of the sun; will also keep out dust and rain, and will help to make your porch very comfortable during the summer months.

Our porch curtains are made of fancy striped or plain white duck, furnished complete with pulleys, ropes and roller, and all necessary screws and adjustments ready to attach to your porch. No experience is required to put up one of these curtains. This curtain is made with double pulleys—the roller is at the bottom. By pulling the rope you revolve the roller, the curtain being raised or lowered, as desired.

When ordering, give actual height and width of the opening for which you desire the curtain. These curtains are made to order. Cannot be returned if made as ordered. We sell these curtains by the square foot, the price per square foot includes all accessories. A curtain 10 feet high and 16 feet wide would contain 160 square feet, and at 6 cents per square foot would cost \$9.60.

Plain Striped White Duck 4c 6c

No. 57F10397 Price, per square ft.

Our Adjustable Window Awning.

Our Adjustable Window Awning is constructed so that anybody can quickly fix same to a window, and can be as quickly removed if desired. It is not necessary to have an experienced awning hanger to hang these awnings. You can do it yourself just as well. They are made of regular awning material, blue and white striped, with scallops at the bottom, as shown in the illustration; are raised and lowered with ropes over pulleys, same as other awnings. These awnings will help to make your home pleasant, keep the sun from fading your carpets and furniture, and will greatly add to the appearance of the house. They come in three sizes to fit windows from 2 feet 4 inches to 4 feet 5 inches wide. When ordering, give width of your window so that we shall know which of the three sizes to send you.

No. 57F10399 No. 2 Awning will fit any size window from 2 feet 4 inches to 3 feet 10 inches wide.....\$1.68

No. 3 Awning to fit any window from 3 ft. to 3 ft. 7 in. wide.....1.75

No. 4 Awning to fit any window from 3 ft. 10 in. to 4 ft. 5 in. wide (Weight, packed for shipment, 11 pounds).....1.90

CONVEYER, ELEVATOR AND

ADJUSTER CANVAS.

Give name, number and model of your threshing or binder, state what canvas is wanted and we will quote lowest prices.

Prices on stable tents, stable tops, Sibley tents, canopy tops without walls, photographers' tents, square hip-roof tents or any other style, given on application and at bottom prices.

Prices quoted on ORE BAGS upon receipt of specifications.

The New Century Awning.

This is the latest, most improved awning on the market. It is absolutely noiseless, storm and wind-proof, does not stick or jam, can be instantly raised or lowered when raised does not block out the light, no catch and retain water, when lowered allows free circulation of air and, as the canvas when lowered is tightly stretched, no creases or folds can form to collect dirt or soot. This awning operates with a roller and is fitted with brackets the same as a window shade. The roller, instead of working with a spring, is operated with a cord, the two side arms, as shown in the illustration, sliding on steel bars, which are fastened on either side of the window frame. This awning, where no screens are used, can be hung inside of window and used as a shade as well as for an awning. Adapted for schools, hospitals, factories and residences. When ordering give actual height and width of window. Give measurement in inches. Made of fancy striped canvas; the metal work is heavily galvanized.

No. 57F10400 No. 1 Awning. Any size up to 34 inches wide. Price.....\$2.25
No. 2 Awning. Any size over 34 inches and not exceeding 40 inches in width. Price.....\$2.70
No. 3 Awning. Any size over 40 inches in width and not exceeding 45 inches. Price.....\$2.80
Prices on larger sizes quoted on application. When ordering be sure to give actual measurements in inches, the width and height of window, measuring inside of the casing.

STORE AWNINGS.

We are headquarters for awnings of all kinds. Our business in awnings exceeds that of any other house. Our awnings are made of the best full weight canvas, and all exposed metal parts are either japanned or galvanized. The quality, workmanship and material in our awnings are superior to that in awnings furnished by any other house. We here-with quote prices on a few of the most popular sizes of store awnings. On any awning not quoted in the following list, we will be pleased to quote prices on receipt of specifications. The prices quoted herewith are for awnings complete, ready to be set up and include all the necessary fittings.

No. 57F10405 The following prices are for awnings made of plain white duck, blue and white and brown and white. (State which color is desired when ordering.)

Height from 1 to 2	Projection from 2 to 3	Width of Front—from 3 to 4					
		10 Feet	12 Feet	14 Feet	16 Feet	18 Feet	20 Feet
4 ft.	4 ft.	\$5.50	\$6.15	\$6.73	\$7.38	\$8.11	\$8.75
4 ft. 6 in.	4 ft. 6 in.	6.18	6.74	7.41	8.05	8.74	9.51
5 ft.	5 ft.	6.72	7.37	8.03	8.64	9.46	10.26

The Bradley Folding Chair.

The Most Compact Folding Chair on the market. Frame is made of the best straight grain white maple, seat and back made of heavy brown duck. It has best quality blue steel braces. This chair is guaranteed not to collapse. It will hold 300 pounds without straining the chair in any way. Can be instantly folded without the use of any tools or loosening any screws. When folded it occupies a space of 36 inches long and 12 inches circumference. Weight, 5 1/2 pounds.
No. 57F10433 The Bradley Chair. Price, per dozen, \$7.50; each.....60c

Our Entertainment Folding Chair, 55c.

This chair is constructed on the folding principle and with a view of furnishing a firm substantial chair for societies, clubs and other people who have occasion to use a large hall for entertainments or for open air concerts, parties, receptions, etc. The chair is constructed entirely of wood with steel seat, the seat being 18 inches from the ground and about 14 inches square. The back is fitted with rounded ends shown in the illustration, the legs are fastened with bolts, and the chair is made so that the seat will fold flat against the back in order to stack away and will not take up much room.

No. 57F10434 Our Entertainment Folding Chair. Weight, about 9 pounds. Price, each.....\$0.55
Per dozen.....6.00

Our Combination Folding Cot and Litter, \$1.46.

Just the thing for camping purposes, harvest help and may be used as a stretcher; made of 10-ounce duck. This is the lightest, strongest and most compact folding cot made. It has the only practical pillow ever put on a cot. It is made so that you can stuff straw or clothing into the pillow casing. Length, 6 feet 3 inches; width, 29 inches. Dimensions, when folded and ready for shipment, 6 feet 3 inches by 5 inches by 2 inches. Weight, 16 pounds.
No. 57F10435 Price, complete with pillow.....\$1.46

Our Gold Medal Folding Camp Bed.

This is positively one of the most substantial, well made and well finished folding cots upon the market. It is so constructed that it can be folded into a parcel 3 feet long and about 6 inches in diameter, and is guaranteed to hold 1,000 pounds. The frame is made strong and substantial, and is covered with heavy brown canvas and has a pillow casing which may be stuffed with straw, hay or clothing to act as a pillow. It is about 6 1/2 feet long and 3 1/2 feet wide and weighs about 16 pounds.

No. 57F10438 Gold Medal Folding Camp Bed. Price, \$2.10
No. 57F10439 Gold Medal Cot, same as above, but extra wide, 36 inches wide, 20 inches high, 6 feet 5 inches long; weight 24 pounds. Price.....\$3.05

CAMPING OUTFIT COMPLETE AT \$5.35.

No. 57F10455 Wilson's Kamp Kook's Kit. Just the thing for camping out. 53 pieces. Fire jack, two boilers suitable for using as an oven, fry pan, coffee pot and all utensils and tableware for a party of six. Everything first class. Boilers are made of 26-gauge smooth iron. The entire kit nests in small space, and when packed ready for shipment makes a package 14 1/2 x 10 1/2 x 8 inches, all nested together and can be firmly locked up by an ordinary padlock. Weight, complete, 20 pounds. Price, complete.....\$5.35
This outfit can be packed inside of either the oven or the fire box of our No. 57F10470 Stove. Making the most complete compact and serviceable combined outfit on the market.

Our Rival Camp Stove.

No. 57F10470 Perfect baker, good heater. The stove is made of heavy sheet steel, has heavy half-inch rolls all around bottom line of body, the corners are well braced inside; also has half-inch rolls around the doors to stiffen them, strong steel latches for each door. The cooking top is supported by strong angle braces which connect with the side of the stove thereby preventing warpage from the weight of cooking vessels. The pipe collar is in the corner, increasing the space for top cooking. The bake oven is corrugated to prevent warping, and an air space formed by a double wall is made between the fire and the oven; this prevents burning of food in the oven. The stove pipe is nested in six short lengths, so as to pack inside of either the firebox or oven. This stove burns wood; fire is placed on the ground, burns equally well inside or outside of the tent; is an excellent heater, will hold fire all night and keep the tent very comfortable; is undoubtedly the best stove of this kind on the market. The stove is not only for campers, but good for contractors, surveyors, cattlemen, people of all occupations who are compelled to stay in the open air and move from place to place. Length of stove, 29 inches; width, 16 inches; height, 14 inches. Size of oven, height, 9 inches; depth, 16 inches; width, 12 inches. Size of pot holes on top, 7 inches. Weight, crated for shipment, about 40 pounds. Price.....\$3.15

Our No. 57F10455 can be packed inside of either the fire box or oven of this stove, making one compact piece of baggage. For a complete line of Blue Flame Oil Stoves, hard and soft coal cooking and heating stoves, see our Stove Department.

The Camper's Alcohol-Gas Stove.

No. 57F10472 The Camper's Double Burner Alcohol-Gas Stove, the ideal stove for campers, prospectors, canoeists, etc. This stove is very compact, is 14 inches long, 6 1/2 inches wide and 4 1/2 inches high, is made entirely of brass and weighs only 2 1/2 pounds. It has a capacity of one quart of alcohol and, using two burners at one time, would burn over 2 1/2 hours. With one burner, it will burn five hours. It will burn any kind of alcohol and will boil a quart of water in nine minutes. Absolutely safe and reliable. This stove is nickel plated and polished and well finished throughout. Put up in strong paper cartons. Weight, 24 ozs. Price.....\$1.70

If by mail, postage extra, 24 cents.

Fireproof and Mildewproof Tents.

Following is the British Government method of water and fireproofing tents, also making them mildewproof: 2 or 3 buckets of rain water; add to this 3 or 4 pounds sugar of lead and 3 or 4 pounds of alum. Soak your tent in this solution during the night. In the morning take it out and hang it up to drip and dry or spread it out on the grass. Let it dry thoroughly. Your tent will be mildewproof, fireproof and waterproof. Stock covers and white emigrant covers can also be treated in this manner.

For prices on sugar of lead and alum, see our Drug Department Catalogue.

VEHICLE DEPARTMENT. 1907 ADVANCE STYLES IN OPEN AND TOP BUGGIES, SURREYS, WAGONS ETC

Where we build over 50,000 vehicles a year.

SOLID COMFORT VEHICLES are built in our elegant new vehicle factory in Evansville, Indiana. The Solid Comfort line of vehicles, are in demand because we are particular to see that they are easier riding, stronger and more comfortable than any other line of vehicles manufactured in America. There is no other factory that pays so much attention to the little points that make a vehicle comfortable. If you order one of the Solid Comfort line of vehicles shown in this catalogue you will appreciate the efforts we have made to furnish you a vehicle that is more comfortable, easier riding, stronger and handsomer than any vehicle you could secure elsewhere.

HOW TO ORDER.

IT IS EASY TO ORDER A BUGGY FROM THIS CATALOGUE. Each and every buggy is fully described and given a catalogue number and if you want to send us an order it is only necessary to give us the catalogue number, and state whether you want the narrow or wide track (see page 199 explaining how to measure track). We will then send the buggy to you exactly as shown in the illustration in this catalogue, and the buggy will be built exactly as we describe it. You do not have to have one of our order blanks to send us an order for a vehicle of any kind. On a plain piece of paper or one of our order blanks if you have it, just state the catalogue number, whether wide or narrow track, extend the price, enclose the amount to pay for same, according to instructions on page 198, and the vehicle will go forward to you promptly. Just as illustrated and described in this catalogue under the catalogue number which you select.

CHANGES AND EXTRAS. Of course, if you desire some little changes that we are always pleased to make, kindly state what changes you desire. If any extras, be sure to extend the price for them, and we will fill the order according to your directions.

NOTICE. It is not necessary to give us a full set of specifications; simply give us the catalogue number, state whether wide or narrow track, extend the price and allow for all extras if any are wanted, and we can fill your order.

WHY OUR VEHICLES ARE EASIER RIDING, STRONGER, MORE DURABLE, MORE ROOMY, HANDSOMER, MORE STYLISH AND BETTER FINISHED THAN ANY OTHER VEHICLE YOU CAN BUY ELSEWHERE.

OUR FACTORY is located in Indiana, in the very center of the best hardwood lumber market in the United States, so situated that we have our first pick from the very best stock of the different hardwood mills, insuring us a grade of carriage wood not to be had by other makers. We have in our factory the highest type of carriage making machinery that can be procured, every piece of machinery is as good as the best in any vehicle factory, and a great many machines of our own patent that other factories cannot obtain, hence our gear wood, wheels, bodies, tops, irons, shafts, poles and all the different parts that go to make up a buggy or carriage, come through our factory exactly alike, all interchangeable, all perfect in size and shape, all with the same high grade finish which you will find in no other factory. Our new automatic axle welder insures a perfect axle, our micrometer axle gauge insures perfect gather and pitch, our new patent tire welder insures a perfect weld, our automatic tire bender gives tires better shape; our system of putting on the tires insures a perfect dish to the wheel, while the twin wheel tire evener makes all tires true to the rims; our hydraulic press for putting boxes in the wheels makes them everlasting, our hub boring device insures perfect track, our latest patent cushion and back machines, for making upholstery, produce the finest work possible to make, our patent method

of cementing the axles and axle caps produces a finish not found on any other work made.

NO OTHER FACTORY turns out a gear where the wheels track as perfectly, where the bearings rest as true, where the adjustment is so accurate, and, therefore, where the wear is so minimized, the draft so light or the rig as easy riding. Our bodies, by our system of gluing, screwing and plugging, make a stronger, handsomer and better finished buggy or carriage body than goes out of any other factory. To produce a high grade finish in the painting, a more perfect surface, better luster, a finish that will not crack, peel or blister, a job that will look better after two years of service than other makers' work will look in six months, we employ facilities and a system in our paint department not to be found in any other factory. We use only the highest grade of paint that can be procured, all our oils, colors, lead, pigments and varnish are put to a chemical test before they are accepted, and in putting a carriage body through our paint department we know it receives more coats, more and better finish under more favorable conditions than any vehicle turned out by any other factory in the country.

WHY THE DEALER IS COMPELLED TO CHARGE YOU \$20.00 TO \$25.00 MORE THAN WE DO.

OUR METHOD OF BUILDING VEHICLES, selling them direct from does away with the jobber's profit, and the profit of the local dealer. In order to find out just what price the consumer would have to pay for our regular line of vehicles, if sold through the jobber and local dealer, last season we made an arrangement to sell a large jobber in vehicles 200 buggies, and sold them at the regular jobber's price, our catalogue price to the consumer. These vehicles were distributed to the vehicle dealers by this jobber, the jobber, of course, making his profit off of the dealer, together with the freight he had paid on the job from our factory. The dealer then paid the local freight from the jobbing house to his warerooms, adding his expense of handling and profit and sold them to the consumer. As an example: Our No. 11F105 buggy, illustrated and described on page 206, and quoted at \$39.95 in this catalogue, is the identical job sold by vehicle dealers to the consumer at \$60.00 and \$65.00, according to the different profits added by the different dealers. This is easily explained when we tell you that the jobber in buying these 200 buggies from us paid the same price that we quote you, namely, \$39.95. (This price is lower than most jobbers buy.) The freight in carload lots to his warehouse averaged \$1.80 per buggy, and as he sold these jobs to the vehicle dealers by traveling men, their expenses and salaries had to be paid, and as he had to figure in the cost of storing these jobs, and hauling them from the cars to the warehouse, in addition to figuring his own profit, he was compelled to sell the buggy to the vehicle dealers at \$50.75. The jobber or dealer, you understand, does not charge an excessive profit, but by their method of marketing goods you are compelled to pay three profits; factory profit, the jobber's profit and the dealer's profit.

WE GIVE YOU THE FOLLOWING FIGURES which you will see justifies the dealer in selling this same buggy at \$60.00 to \$65.00:

Our price to the jobber (or to you) for the buggy.....	\$39.95
Freight in carload lots, per buggy.....	\$1.80
Cost of selling to the dealer by traveling men, 10 per cent.....	4.00
Cost of storing, insuring and handling each buggy.....	1.00
The jobber's legitimate profit, 10 per cent.....	4.00
The dealer's price is now made by the jobber at.....	\$50.75
Local freight from jobber's warehouse.....	\$1.35
Cost of storing, insuring and handling each buggy.....	1.00
Dealer's margin of profit, 20 per cent.....	10.15
Price you would have to pay a retail dealer for this rig.....	\$63.25

YOU WILL READILY UNDERSTAND, after reading this explanation, why a buggy, such as we sell for \$39.95, must be sold by the vehicle dealers at from \$60.00 to \$65.00. If the customer had bought this job direct from us he would have paid our price, \$39.95, plus the local freight charges (a small item compared to the saving), making a net saving of \$18.00 to \$22.00. These figures are taken from a cash transaction. If the rig had been sold on time or partial payment plan it would have cost the user \$5.00 to \$10.00 more.

IF YOU ARE MORE INTERESTED in the welfare of your own dealer than you are in getting these buggies at first cost, you will continue to pay these high prices; but you can get the buggy at from \$20.00 to \$25.00 less by ordering direct from us, as manufacturers.

OUR WRITTEN, BINDING GUARANTEE. We reproduce below a copy of our written, binding guarantee, the most binding guarantee sent out by any vehicle manufacturer. While every one of our vehicles are so built that they will, with proper care, last a natural lifetime, as a guarantee that everything is first class and free from the slightest defect in material or workmanship, we send to each purchaser of a rig, a handsome registered guarantee, covering every piece and part that goes into the construction of the vehicle, one of the strongest binding guarantees issued.

INSPECTION AND SAFE DELIVERY GUARANTEED.

THOROUGHLY EXPERIENCED AND COMPETENT INSPECTORS, men who are expert vehicle builders, men who have had years of experience in shipping vehicles, are employed in our factory to carefully inspect each vehicle before it is shipped to our customers; every detail of the construction and finish is rigidly examined, before the vehicle is crated for shipment, each vehicle, after being thoroughly inspected as to workmanship, material, construction and finish, is covered with a dustproof bag so that it will not gather dirt or dust while in transit. We aim to so wrap, cover, pack and crate our work that it can travel any distance, and be sure to open up at destination in the same perfect condition in which it leaves our factory. We load all our vehicles direct from the shipping room floor into the car; no carting, hauling or handling; we crate in the best possible manner, in fact, we guarantee safe delivery.

REPAIRS. We can always furnish repairs at factory cost. We have a complete record of each vehicle we build and ship, and we keep this record for years in order to serve our customers in case of accidents.

THIS COMPLETE SPECIAL VEHICLE CATALOGUE IS FREE.

ON PAGES 201 AND 202 IN THIS CATALOGUE YOU CAN GET AN IDEA OF THE COLORED ILLUSTRATIONS SHOWN IN OUR SPECIAL FREE VEHICLE CATALOGUE.

IF YOU ARE UNABLE TO MAKE A SATISFACTORY SELECTION

of a rig from the following pages, don't place your order elsewhere before you first write and get our new Special FREE Vehicle Catalogue. We illustrate, describe and show our lowest prices on practically our entire line of 1907 style vehicles in the following pages, showing every desirable and popular runabout, top buggy, surrey, phaeton, etc., including every one of our wonderful values, our big vehicle leaders for 1907, and therefore you should have no trouble whatever in making a satisfactory selection and placing your order direct from the following pages. Almost all of our customers order direct from this, our big General Catalogue, since the best we have in every way is offered here, and since every vehicle is shipped with the understanding and agreement that you have ten days' trial, and if you are not perfectly satisfied you can return it to us and your money will be promptly refunded and we will pay all the freight charges. At the same time, for the benefit of those who would like to see larger illustrations by which we can show more of the detail of the rig as well as a more thorough description of our vehicle factory, our methods of manufacturing buggies, the various processes we use, for the benefit of those wanting more extended information on this subject, as well as a larger variety to select from, we issue this large, complete 96-page vehicle catalogue, as illustrated, and this book we will gladly send to you free on application. If you would like to have it before placing your order, just write us a letter or a postal and say, "Please send me your vehicle catalogue" and the book as shown will be sent to you immediately by return mail, free and postpaid. Understand, it is not absolutely necessary to first write and get this free special vehicle catalogue. You need not wait for the book. It is not necessary to delay your order to first write and get this special catalogue for you are perfectly safe in sending your order direct from this big general catalogue, selecting from what we show on the following pages.

THIS SPECIAL VEHICLE CATALOGUE

is a handsome book, 7 x 10 inches in size, containing 96 pages, printed in colors, shows our entire line of vehicles by means of large, handsome half-tone illustrations and carries most complete descriptions, shows an immense variety of rigs of all kinds, the entire 1907 line, the most complete ever offered, and this special book is by far the largest, handsomest, most complete and most interesting catalogue ever published. A number of pages are devoted to the full description of our wonderful, large vehicle factory at Evansville, Indiana, showing many pictures of the various divisions or departments in the big factory where the various parts of the rigs are made, finished and fitted, explains everything in detail, shows very clearly why we are able to produce such a high grade of vehicles and name such low prices, shows all our great manufacturing facilities and is thoroughly interesting from the first page to the last to anyone interested in the purchase of a vehicle of any kind. The book is FREE. We gladly mail it to you on request. A postal card request will secure it for you. Just write us a postal card and ask us to mail you our vehicle catalogue or make the request in your next letter or order to us and it will be sent to you promptly by return mail, postpaid.

ABOUT THE FREIGHT CHARGES.

The freight charges on any kind of a vehicle from our factory to your shipping point amount to practically nothing as compared to what you will save in price. Our factory was located in Indiana, first with a view of being right in the midst of the best source of supply for material and labor, and second, with a view of getting the lowest possible freight rates to all points in the United States. Our factory is located in a convenient center, from which we can ship East, West, North and South at the lowest possible rate of freight. We are so located that we can reach from New England to the Gulf States, and from the West to the Southwest, at a very much lower rate than from Chicago, and to the North and Northwest our freight rate is but a shade higher than the Chicago rate. Our shipping facilities are such that with the sharp competition of the several roads whose tracks run into our factory, we can reach any point in the United States at a rate of freight so low that the freight charges will amount to next to nothing as compared to what you will save in price. After you have added the freight charges to the price of any rig we quote in this catalogue, you will still own the rig at a much lower cost than you would have to pay others for inferior work. Remember that we guarantee to save you money after you pay the freight charges. If you should desire to know just exactly what the freight would cost on any rig before ordering, just drop us a postal card, or in a letter say,

"How much will the freight charges be on such and such a rig," and we will tell you exactly how much the rig will cost laid down at your railroad station.

OUR LIBERAL TERMS OF SHIPMENT.

If you buy a vehicle from us and it is not satisfactory after you have given it a ten days' thorough trial, send it back to us, and you will get your money back, including any our guarantee, for we leave it all with you. These few lines really explain our terms, our policy and our guarantee, for we leave it all with you. After you have received the vehicle from us you can give it a ten days' thorough trial, during which time you can compare it with vehicles sold by your local dealer, and if you are not satisfied that the amount you paid us, including freight charges, is not much lower than you could have secured the same rig elsewhere, with us. Remember, order the vehicle, give it a ten days' trial, and we will agree to give you a better vehicle than you could buy from any other maker or dealer, and after you pay our price and the freight charges, save you from \$15.00 to \$25.00. When you get the vehicle, if you don't feel we have done this, we don't want you to keep it, nor do we want to put you to one penny of expense, we will gladly refund your money and any freight charges you may have paid.

METHOD OF SHIPMENT. Most all of our customers send our full catalogue price direct to them, they uncrate it, are privileged to give it a thorough ten days' trial, as fully

Solid Comfort Vehicles

YOU SHARE IN OUR PROFIT
ON EVERY PURCHASE, AS EXPLAINED
ON THE LAST PAGES OF THIS BOOK

Sears, Roebuck & Co.
CHICAGO

explained above, and if at the end of ten days they are not fully satisfied that they have made a big saving and are not fully convinced that they have a much better rig than they could buy elsewhere, they are at perfect liberty to return the rig, and we will refund the money sent us and all freight charges. We recommend that you send the full amount of money with your order, for this is the most convenient way for both of us, you run no risk whatever, and we can make shipment direct to you. Remember, we give you a ten days' trial, and promptly refund your money and freight charges if you are in any way dissatisfied.

FOR THE CONVENIENCE of a few of our customers who do not wish to send the full amount of cash with their order, we ship C. O. D., subject to examination. If you live east of the Rocky Mountains send us a deposit of not less than \$5.00 on each vehicle ordered; we will ship any vehicle (excepting farm and delivery wagons) C. O. D., subject to examination, and draw through the express company for the balance of the price of the vehicle; the customer then pays the freight charges, the balance of the money due us, and pays the collection charges for the returning of the money. This latter charge is made by all express companies for carrying the bill of lading and returning the balance of the money to us. This extra charge can easily be avoided by sending the full amount of cash with your order, which is the most satisfactory way to order a vehicle, as explained above. We do not advise C. O. D. shipment, as the customer has the same privilege when he sends the full amount of cash, that he can examine and try the vehicle ten days, and if he is not satisfied he is not put to one penny of expense.

1907 ADVANCE STYLES AND IMPROVEMENTS SHOWN BELOW AND ON THE FOLLOWING PAGES.

NARROW SEAT.

MEDIUM SEAT

SOLID COMFORT SEAT.

medium seat or a narrow seat on any job that is not quoted with the seat you desire, order it that way, and we will handle your order promptly. You must remember, however, that the wide seat can only be furnished on the 25-inch body, the medium sized seat on the 23-inch body, the narrow seat on the 19-inch body. It is not necessary to write us asking if we can make some of these changes, we are prepared to do most anything in our factory, just send the order in the way you want it, and if for any reason we cannot comply with your wishes or furnish the job according to your specifications, we will advise you before taking any action.

BEST BUGGY BODY BUILT.

Four Seat Rods

**Extra Strong
Hardwood Sills.**

to hold up the top; notice the width and depth of the seat, the high back and high seat panels. We use the greatest possible care in our factory to build these bodies and seats; they will outwear three ordinary buggy bodies, every little detail is watched carefully and we produce the finest looking, strongest and most durable bodies manufactured.

OLD STYLE BODY LOOP—USED BY OTHERS.

**NEW STYLE BODY LOOP
FOUND ONLY ON SOLID
COMFORT VEHICLES.**

This illustration shows our new style center bearing body loop. This loop can be found only on Solid Comfort vehicles built in our factory at Evansville, Indiana. Note that the loop sets on top of the spring; note that the loop is so shaped that there is a straight down center pull; note that by setting this loop directly on top of the spring you get all the possible good out of the spring, so that it will work easier and absorb nearly all the jars and the bumps in the road. With this loop all the strain is directly on top of the spring, where it belongs; no side pull, but a straight down center pull, which makes the vehicle very easy riding. This is the best looking loop on the market, the most practical and the strongest. It is carefully tested and guaranteed not to break.

See that Bend.

Pull from Center.

Straight Down Pull.

OPEN HEAD SPRINGS.

This illustration shows the open head spring that is described in our highest grade vehicles. It is the most comfortable riding spring on the market; has less friction, full sweep, and is made of the best oil tempered steel.

LONGITUDINAL SPRINGS.

SCREWED RIM WHEELS.

This illustration shows you the advantage of screwed rim wheels, which are furnished on the better grade of our vehicle work as noted in the descriptions. There is a screw on each side of the spoke, which prevents the rim from splitting. It is a very desirable feature, and screwed rim wheels will easily outlast any other kind.

OUR ACME STORM SHIELD.

This Stormshield is the best thing of its kind on the market. It can be easily attached or detached without the use of any tools. It is made of good heavy rubber and can be put on in less than a minute. It closes up the vehicle completely, keeping the occupants snug and dry. It is a great protection against the elements. It is made of a heavy gauge celluloid window, allowing an unobstructed view of the road. The window will not break. The pocket for the lines is very large and two horses can be driven with ease. Can be folded and carried under the seat. Stormshield is made of a very heavy waterproof rubber cloth and can be furnished on any of our burlaps for \$1.95 extra.

KELLY SPRINGFIELD RUBBER TIRES

WE FURNISH THE BEST.

WE FURNISH THE BEST.

We furnish the well known Kelly Springfield Buckeye Brand solid rubber tires, recognized by everyone as the best rubber tire that is made for vehicles. We quote them throughout our catalogue on the different jobs, and where they are not quoted on any job, they can be furnished at the prices quoted below. We recommend and guarantee these tires. We also furnish guaranteed cushion tires. Do not buy a rubber tire; get the best.

KELLY SPRINGFIELD BUCKEYE BRAND GUARANTEED TIRES

Look for this Brand on every tire. "The Kelly Springfield Tire, Pat. Feb. 18, 1896.

 1 1/2-inch, on wheels 38 inches front and 42 inches rear or 40 front and 44 rear. Price, 20.65

Some few of our customers desire to use a cheap tire, and for this reason we furnish a cheap unguaranteed rubber tire at the prices quoted below. Our guaranteed Kelly Springfield Buckeye brand tires will outwear three sets of these tires.

BEST SURREY BODY BUILT.

throughout of well seasoned tough, hardwood; It is almost impossible, with natural wear and tear, to wear out one of our surrey bodies.

SARVEN'S PATENT HUB WHEELS.

The Sarven's patent wheel is the most popular wheel on the market. It is furnished with sixteen spokes to each wheel. There is a heavy malleable iron flange on each side of the spokes, covering the hub. These flanges are bolted and riveted together between each spoke. It is very neat in appearance, and is the strongest and best wheel on the market. We furnish it on all of our vehicles unless compressed band hub wheels are specified.

COMPRESSED BAND WOOD HUB WHEELS.

This illustration shows the compressed band wood hub wheel that we use when so specified by customer in place of the regular Sarven's patent. The spokes are staggered, as shown in illustration. There is a steel band forced over each end of the hub by hydraulic pressure, which keeps it from splitting, and makes a very strong and neat appearing wheel.

Be sure to state width of track. With the exception of a few special track vehicles, as noted in this catalogue, all vehicles are furnished either in the 4 feet 8 inches narrow, or 5 feet 2 inches wide track, as desired.

\$56.50

NEW AUTO SEAT BUGGY

THE HANDSOMEST AND LATEST DESIGN IN AN AUTOMOBILE SEAT TOP BUGGY.

AUTOMOBILE SEATS on top buggies have proven to be very popular with buggy users, and we offer you in this one, No. 11F218 Top Buggy, one of the most comfortable and stylish Auto Seat Buggies ever built. \$56.50, our price, represents the actual cost of material and labor with our one small percentage of profit added. You get more for your money, better gear, better wheels, better top, higher grade finish, workmanship of expert mechanics, in fact, you get the best that can be furnished for the money when you order this, our NEW AUTO SEAT TOP BUGGY AT \$56.50.

ONE OF THE POPULAR NEW DESIGNS FOR 1907.

Before designing and building this buggy we made several different styles of automobile seats; our designer personally visited different repositories in large cities and noticed the designs of automobile seats that were being used, and he then designed this handsome seat, as shown in the illustration, which combines all of the good qualities and all the graceful lines found in other seats; at the same time we combine these ideas with our Solid Comfort Seat, and offer you herewith in our New Auto Seat Top Buggy, at \$56.50, one of the handsomest designs of automobile seats that was ever put on a top buggy, at the same time this seat is one of the most comfortable, roomy and easy riding seats built.

HOW TO TELL THE DIFFERENCE. When you order this buggy we want you to compare it with other makes; we want you to find another automobile seat top buggy, drive up along side of it, or if your dealer has one on the floor, we want you to drive up to his place and compare this, our New Auto Seat Top Buggy at \$56.50, with any automobile seat buggy he may have selling for \$25.00 to \$35.00 more money. In comparing, first look at the style; see if ours is not better in appearance in every way, then examine the graceful sweep of our top and look at the other, notice the graceful lines on our automobile seat, then examine the other, see how roomy and comfortable this job is, ride a few blocks if you can in the other buggy and see the difference, notice the arch of the axles, the size of the fifth wheel, the gather and dish of the wheels, notice how much easier it is to pull our buggy than it is the other, notice the finish and job of painting we give you, and notice how every adjustment in the construction of our New Auto

Seat Top Buggy is perfect. If you will get down to the little things and examine this, our New Auto Seat Top Buggy, and then examine another make, you will see why our buggies are called the Solid Comfort Line, why they are stronger, last longer, are easier riding and why they draw easier.

NOTICE how we stay and brace our gears, notice how the clips are put on, connecting the axle bed and the steel axle, take off a wheel and put it back again to see how perfectly our wheels fit on the spindles; in fact, make a most critical examination, and if you don't find that you have secured a much better buggy than is turned out from any other factory, if you find that you have not made a saving of \$20.00 to \$25.00 by having sent us your order, you are at liberty to return the rig to us and we will refund all money sent us together with the freight charges you paid.

BODY. On this, our New Auto Seat Top Buggy, we furnish a plain box body, 23 inches wide by 55 inches long. The body is carefully made of bone dry carefully selected material; the entire frame is made of the best possible hardwood, selected for the purpose; the seat frame is made of hardwood, and the step strips running from one side to the other side of the frame, are heavy hardwood; poplar panels are glued, screwed and plugged to the frame; the seat risers are con cave; the body is ironed and braced, one of the strongest and neatest appearing bodies built.

SEAT. Special design Automobile Seat, a new idea for 1907 buggy users, bound to be very popular. There is already a very large demand, as automobile seats are being used on top buggies and every large repository in a large city has top buggies with automobile seats. This seat is one of the best designs, the lines are more graceful and the seat is more comfortable in every way than any other automobile seat on the market.

GEAR. Arched Axle Gear. The axles are made of the best red and mudproof oil spindles; hickory axle caps are cemented, sanded and clipped to the graceful design of arched axles. We use the right number of clips; Bradley shaft couplings for the shafts; large 11-inch fifth wheel, with a long, graceful head block; open head, easy riding 36-inch springs, connected to the body with our special design center bearing body loops, double reach, ironed full length, stayed and braced.

DESCRIPTION.

WHEELS. We furnish regular on this job Sarven's Patent without extra charge compressed hand wood hub wheels. The wheels furnished on this automobile seat top buggy are made of carefully selected material throughout; the spokes are selected hickory; the rims are carefully bent; the hubs are of Sarven's patent style with iron flange riveted between each spoke (compressed hand wood hubs if ordered). The wheels on this job are bored true to the rim; the boxes are carefully set under a hydraulic press; they will never come loose. You will find the wheels will track perfectly, they will have the proper dish and the proper pitch. The regular height of wheels furnished are 38-inch front and 42-inch rear, although if ordered we will furnish 40-inch front and 44-inch rear.

TOP. On this Automobile Seat Top Buggy we furnish a very long, graceful sweep three-bow leather quarter top; the top is built special to fit this special seat, it has just the right sweep and the right height to make a nice appearing top buggy in connection with this automobile seat; four bows can be furnished if ordered. The quarters and back stays are made of the best top leather; the roof and back curtain are made of an extra heavy quality waterproof rubber; the back stays are padded and lined; four roll-up straps are used for the back curtain; good heavy side curtains are furnished. We line the top throughout with an extra heavy quality of all wool faced head lining; the top is stitched carefully; leather valance front and rear; black propnuts; Peerless curtain fasteners; long curved top joint, as shown in illustration.

PAINTING. One of the nicest finished buggies on the market. We paint the body a plain jet black. The gear, as shown in the illustration, is painted a rich dark blood carmine. We stripe the gear neatly with black, very modest, and the surface of our finish throughout this buggy is the best possible that can be turned out. Will furnish dark Brewster green gear if ordered.

TRIMMING. As shown in the illustration, this seat is up-small biscuit tufting of diamond shape. The tufting extends clear around the back of the seat and up the sides; it is fitted with springs tufted in the best possible manner, with a spring cushion to match. We use regularly a very heavy dark green imported cloth, which matches perfectly the head lining in the top, the whole effect is pleasing and corresponds nicely with the balance of the job. If desired we can upholster the job in genuine leather instead of cloth, extra price quoted below. The job comes complete with full length velvet carpet, lined body panels, boot on the rear of body, 13-inch padded patent leather dash with hand holds, Bradley shaft couplers, storm apron, side curtains, wrench and double braced shafts, nicely trimmed with leather.

TRACK. 4 feet 8 inches narrow or 5 feet 2 inches wide.

EXTRAS.

Pole with Bradley couplings in place of shafts... \$1.90
Both pole and shafts with Bradley couplings... 4.25
Genuine leather upholstery in place of cloth upholstery... 2.50

FREE TEN DAYS' TRIAL.

So confident are we, knowing as we do, after looking over the field of automobile seat top buggies that will be offered by different manufacturers during the season of 1907, that no one can compete with us, that we will be glad to accept your order for this buggy with the understanding that you can try it ten days, hitch to it, get in and ride, compare it with other makes, test it out thoroughly, and, if then you have any reason to feel that you are not perfectly satisfied, return the rig to us at our expense and we will refund your money, together with any freight charges you may have paid.

PROMPT SHIPMENT. We build and carry in stock a large number of these New Auto Seat Top Buggies.

Send us your order, enclose our price, and the job will go forward to you a few days after your order is received. There is no other concern in the country in a position to ship as promptly as we do.

1907 ADVANCE STYLE.

If you are going to need a buggy during the next year, do not wait, order now, have your buggy long before your neighbors. This job will be one of the popular sellers for 1907; these styles will be offered by all manufacturers through the jobber and retail dealer at prices from \$25.00 to \$35.00 in advance of what we ask. There will be a large demand for this buggy during the spring of 1907, and if you are going to have any use for a buggy, do not wait for the rush, but order now.

WE LET YOU SHARE IN THE PROFITS

of this business, and you really cannot afford to buy elsewhere. Our prices are guaranteed lower than those asked by any other concern; our goods are guaranteed the highest quality; we guarantee to save you money on every purchase and you get a PROFIT SHARING CERTIFICATE, good for something valuable, shown on pages 1 and 2.

\$45^{.25} - LEADERS FOR 1907 - \$49^{.75}

No. 11F406 SAME DESCRIPTION AS No. 11F405, EXCEPTING AUTO SEAT.

OUR No. 11F405 STICK SEAT DRIVING WAGON and our No. 11F406 AUTOMOBILE SEAT RUNABOUT are selling so fast and giving such general satisfaction that they are bound to be the leaders for the coming season of 1907. Complimentary letters we receive say their equal cannot be found at local dealers for twice the price we ask.

DON'T BUY A CHEAP RUNABOUT.

While in this catalogue we show runabouts at a lower price, we urge you to select one of these leaders for 1907, for every dollar that you invest in a runabout, selected from this catalogue, means just so many dollars invested in material and labor. Our profit is alike on each and every rig. We sell all our vehicles on the same same percentage of profit, upon actual factory cost of material and labor, and while our cheaper runabouts and driving wagons listed in this catalogue are much better than you could purchase elsewhere for \$15.00 to \$20.00 more money than we ask, at the same time you will get far better value for your money by selecting one of these leaders for 1907.

DESCRIPTION.

BODY. 23 inches wide by 55 inches long, hardwood sills, corner posts, seat frame and step strips; poplar panels glued, screwed and plugged. One of the strongest and nicest appearing and best proportioned bodies made.

GEAR. Graceful arched axle, of the long distance pattern, with dust and mudproof bell collar; large 11-inch fifth wheel, with a long graceful head block; Bradley shaft couplers; open head 36-inch easy riding springs; special design center bearing body loop; double reaches, ironed full length, strongly stayed and braced. If desired, we will furnish drop axles instead of arch.

WHEELS. If not specified we furnish, just as shown in the illustration, the Sarven's patent wheel, but will furnish the compressed band wood hub wheel if ordered. Wheels are made throughout of carefully selected material, with second growth hickory spokes; the rims have a screw on either side of the spoke to prevent it from splitting. The wheels are regular 7/8-inch, and when ordered with steel tires are fitted with an oval edge steel tire, bolted between each spoke, most of these runabouts, however, are furnished with rubber tires. The front wheels are 42 inches high, the rear wheels 46 inches. We will furnish, when ordered, 40-inch front and 44-inch rear wheels.

PAINTING. Body painted plain black without any striping; we finish these bodies in the best possible manner, a regular piano mirror finish. The gear on both the No. 11F405 and No. 11F406 runabout is furnished as shown in the large illustration No. 11F405, a very rich, dark blood carmine, neatly striped with black, which corresponds nicely with the finish we put on the bodies and seats of these two jobs. If desired, we will furnish New York red or dark Brewster green gear instead of blood carmine, although the blood carmine is the popular color.

TRIMMING. We upholster this job in an extra quality of light colored whipcord, both cushion and back are tufted in the best possible manner in a very neat pattern. Springs in the cushion. The jobs come regular with a 13-inch padded patent leather dash with hand holes, as shown in the illustration, full length velvet carpet, Bradley shaft couplers, boot on rear of body, storm apron, seat fenders on the stick seat job, but none on the automobile seat job, double braced shafts, trimmed, 36-inch shaft leathers and round tug straps, wrench, etc.

TRACK. 4 feet 8 inches, narrow; or 5 feet 2 inches, wide. State width wanted. No. 11F405 Price, complete, with steel tires and double braced shafts... \$45.25
No. 11F406 Same as No. 11F405, excepting it has automobile seat, as shown in small illustration. Price, complete, with steel tires and double braced shafts... 49.75

\$51.95 YOUNG MAN'S BUGGY.

NEW design with all the newest and latest improvements. Our own design, embodying every up to date feature without leaving out any of the special easy riding qualities of our solid comfort vehicles.

A GREAT DIFFERENCE would be noticed if you could go through any other vehicle if you could see a Young Man's Buggy built in an ordinary factory and then could see this, our No. 11F316 Young Man's Buggy at \$51.95, built in our large vehicle factory at Evansville, Indiana, you would then understand why this Young Man's Buggy will outwear two ordinary buggies.

A DOZEN REASONS. If you were in our factory, if you could see this job, you would easily see a dozen reasons why you should purchase this, our Young Man's Buggy, in preference to any buggy offered by any other vehicle manufacturer. We pay attention to the small things in our factory, to the little points that count so much in the construction of a vehicle, that figure so largely in the easy riding qualities, the lasting qualities and the easy running qualities of a buggy.

DESCRIPTION.

BODY. 55 inches long and 19 inches wide; the sills, cross pieces, step strips and uprights, are made of carefully seasoned hardwood, poplar panels, clamped, glued, screwed and plugged. Seat measures 23 inches wide by 15 inches deep, can furnish Corning body if desired.

GEAR. Long distance axle with dust and mudproof bell collar; we furnish regularly an arched axle, fitted with a wood axle cap, we will furnish drop axles without extra charge. We cement, sand and clip the axle caps to the steel axles; two hickory reaches ironed full length on the bottom, carefully stayed and braced; large 11-inch full bearing fifth wheel; long, neat design head block; single leaf elliptic springs, of the Armstrong pattern, clipped to our special center bearing body loops. Longitudinal spring running from front axle to rear axle, connecting to the body in the center. The regular three and four-plate elliptic springs can be furnished if ordered, without extra charge.

WHEELS. 38-inch front and 42-inch rear wheels furnished regularly, although, if desired, we will furnish 40-inch front and 44-inch rear wheels; 1/4-inch screwed rims, fitted with 1/4-inch oval edge steel tires furnished regularly; wheels are of Sarven's patent style, selected grade tire; is bolted between each spoke. Can furnish compressed band wood hub wheels if ordered, without extra charge.

TOP. We use an extra quality of leather in the quarters and back stay; the quarters are cut extra wide; the back stays are padded and lined; full leather valance, stitched front and rear. The top, back curtain and stays are lined throughout with heavy all wool head lining; heavy rubber roof and rubber back curtain; good quality of waterproof rubber side curtains; Higgins' patent fasteners; three-bow top is furnished regular. Comes with a hood as shown in illustration. Can furnish four bow top if ordered.

PAINTING. This job is painted in the best possible manner, a job of painting that you will have to see before you can understand how much farther we go in painting and finishing a job than any other manufacturer. The body is painted a plain black with a piano mirror finish, no striping; gear as shown in illustration, is furnished in a blood carmine color, neatly striped with black; will furnish New York red, dark Brewster green or canary yellow gear in place of blood carmine.

TRIMMING. Neat biscuit effect in cushion and back; we pad and line the seat ends and the cushion and back, which makes it a very comfortable and easy riding job. Leather when ordered, see list of extras. The job comes complete when ordered with a 13-inch padded

No. 11F316

patent leather dash with hand holes, as shown in the illustration, boot on rear of body, storm apron, Bradley shaft couplers, dust hood, wrench, and shafts nicely trimmed with leather. We use 36-inch leathers on the shafts and furnish them double braced.

TRACK. 4 feet 8 inches, narrow; or 5 feet 2 inches, wide. State width wanted. Extras same as No. 11F405 above. No. 11F316 Price complete with double braced shafts and steel tires... \$51.95
Shipping weight crated, under 30 inches, about 450 pounds. Shipped from factory.

\$39.75 IMPROVED NAKED AXLE BIKE RUNABOUT.

VERY HIGHLY IMPROVED FOR 1907. Combines every up to date feature of every other high grade, new, 1907 advance style bike runabout on the market, all our own features, all new improvements. HAND-SETTER, STRONGER, EASIER RIDING, LIGHTER DRAFT, more stylish, more lasting, in every way a better runabout rig than you could buy elsewhere at \$15.00 to \$25.00 more money. OUR \$39.75 price barely covers the cost of material and labor in our own factory with but our own small profit added. **WE CAN MAKE IMMEDIATE SHIPMENT,** for we carry a large number.

WE HAVE THESE RIGS IN STOCK at our factory in Evansville, Indiana, ready for immediate shipment, so if you send us your order it will take only a few days for your order to reach us and the runabout to reach you. You will find that the freight will amount to next to nothing compared to what you will save in price.

OUR OFFER.

Send us your order for one of these new 1907 advance style runabouts at \$39.75, enclose our price; we will send the rig to you with the understanding and agreement that you can give it ten days' trial, during which time you can put it to every test, and if you do not find it perfectly satisfactory, one of the nearest, most stylish, best finished, strongest built, highest grade runabouts on the market, if you are not convinced you have gotten a better rig than you could have gotten elsewhere, you can return the rig to us at our expense, and we will immediately return your money, together with any freight charges paid by you.

Understand, the rig goes to you complete, every piece and part, all covered by our binding guarantee. We guarantee it to reach you promptly and in perfect order and agree to return your money if you are not satisfied in every way.

DESCRIPTION.

BODY. Piano box style, 23 inches wide by 54 inches long, thoroughly well made, with a hardwood body frame, corner posts and seat frame; convex panels thoroughly glued, clamped, screwed and plugged. The edges of the panels are fitted with oval edge irons at the top and at the corners; hardwood step straps are gained into slots.

GEAR. This gear is of our own design and manufacture, we make it right in our blacksmith shop, we do not use any wood axle bed or axle caps, but use the high arch hickory steel axles, made of the best steel 15-16-inch spindles. The axles have a 3 1/2-inch arch; they are swedged top and bottom; spindles are the celebrated dust and mudproof, self oiling, long distance spindles, fitted with the bell collars. The fifth wheel is riveted and brazed to the front axle; the rear reach circle is connected to the center of the rear axle; the braces, running from the reaches to the point of the axle are bolted to the reaches and riveted and brazed to the axle, making a very strong connection. The reaches are selected second growth hickory, rounded full length, with a 3-16-inch reach plate. We use 36-inch oil tempered, easy riding, open head, full bright springs, clipped to our own pattern center bearing body loops, the nearest designed body loops on the market. We use a heavy wrought iron fifth wheel.

YOUR \$39.75 PROFIT SHARING CERTIFICATE will almost pay for another big valuable article. See pages 1 and 2. No. 11F2400

WHEELS. Wheels on this job are made of selected second growth hickory, fully warranted, they are the Sarven's patent style; 36 inches front and 38 inches rear. We use wheels slightly lower than the regular wheel used on a top buggy, on account of the high arch axle. This makes the body about the regulation height from the ground. The wheels are thoroughly made throughout, the spokes are selected second growth hickory; the rims are 3/4 inch, with a screw on each side of the spokes, they are fitted with oval edge steel tires regular, the tires are full bolted between each spoke. We sell a large portion of these runabouts, however, with the rubber tires, 3/4 inch, as quoted below. Compressed band wood hub wheels, if ordered.

PAINTING. We paint this runabout in the best possible manner, the body being painted a plain black with a mirror finish. We use more coats of paint and rub and polish this body more than any other runabout we build, except our No. 11F400, which gets the same treatment. The gear is finished in the best possible manner, regularly a rich carmine, neatly striped with black. Gear furnished New York red, Brewster green or canary yellow, if specified in the order.

TRIMMINGS. We upholster this job in the best possible manner, using regularly a heavy light colored Bedford cord, which is heavier than a whipcord. The seat and back are both upholstered in this material. We put springs in the cushion and use a polished 10-inch bent panel back; there is a double bent stick seat, full length velvet carpet, Stanhope seat fenders, 13-inch padded patent leather dash, good storm apron, wrench, and a fine pair of shafts trimmed with leather 36 inches back from the points, round shaft straps and Bradley shaft couplings.

TRACK—4 feet 6 inches only, not built in the wide track.

OUR 1907 ADVANCE "BLUE RIBBON" RUNABOUT \$42.95

No. 11F402

FOR \$42.95 we offer this handsome Boulevard Blue Ribbon Runabout with all the new 1907 improvements, with its handsome combination panel and stick seat, Stanhope seat fenders, beautiful panel back, with our new special gear construction, our new system of bracing, bolting and staying, a rig that will ride easier, run lighter and wear longer than any runabout rig you could buy elsewhere at \$20.00 more money, a runabout made in our own factory and put out under our binding guarantee as the highest grade work on the market. More than a hundred little special features in the manufacture go to make a smoother, handsomer, more stylish, more lasting and better runabout in this, our Blue Ribbon at \$42.95, than any runabout you could buy at \$50.00 to \$60.00.

IF YOU COULD BE IN OUR FACTORY and see what we do in wheel construction, gear making, body making, trimming, painting, finishing, etc., to make our buggies wear longer, look new longer and give better satisfaction than any work you could buy elsewhere, you would not think of buying a runabout from your dealer at home or sending to any other house. We have these rigs on hand and can make immediate shipment. It will take but a few days for your order to reach us and the rig to reach you.

DESCRIPTION.

BODY. Body is 23 inches wide by 55 inches long, it is built in the best possible manner; with a hardwood frame, corner posts and seat frame. The panels are thoroughly glued, clamped, screwed and plugged to this hardwood frame.

GEAR. 15-16-inch arched axles, of the long distance pattern, with dust and mudproof bell collars, the axles are fitted with a selected hickory wood axle cap, which is cemented and clamped to the axle, then sanded down so as to make a perfect joint; has a large wrought iron fifth wheel, with selected hickory reaches. 17-18-inch full length, with a 3-16-inch reach plate; stays and braces are of wrought iron, thoroughly bolted and clipped to the axles and reaches. 36-inch open head, oil tempered, easy riding springs, to which are clipped our new style body loops, the best on the market.

WHEELS. 42-inch front wheels and 46-inch rear wheels. Will furnish 40-inch front and 44-inch rear wheels if ordered. The wheels are made throughout of carefully selected second growth hickory; they are Sarven's patent style, with the rims screwed on either side of the spokes; the rims are 3/4 inch wide, fitted when furnished with steel tires with a regular oval edge steel tire, which is bolted between each spoke to the rim; the majority of these runabouts, however, we furnish with rubber tires. Compressed band wood hub wheels if ordered.

PAINTING. The way this job is painted and finished makes it one of the most attractive runabouts on the market today. Body plain black with a mirror finish, the panel or solid part of seat is finished in a handsome dark maroon, the gear is painted a rich carmine, striped with black.

TRIMMINGS. This job we upholster regularly with a heavy light colored Bedford cord, which is heavier than a whipcord. We furnish springs in the cushion, and as shown in the illustration, we upholster in a very fine pattern, with a 10-inch bent panel back. The job comes complete with a full length velvet carpet, padded patent leather dash, wood storm apron, Stanhope seat fenders, Bradley shaft couplings, and a nice pair of shafts trimmed with leather 36 inches back from the points, and round shaft straps.

TRACK—4 feet 8 inches narrow or 5 feet 2 inches wide.
Weight, crated under 30 inches, 400 pounds. Shipped from factory.

SOLID COMFORT CONCORD RUNABOUT.

\$39.85

BODY—27 inches wide by 56 inches long, making it very roomy. Body is extra well made of selected material, with hardwood sills, beams and seat frames, ironed and braced; seat is extra wide and deep, with a high, solid panel spring back. Seat measures 32½ inches across top of cushion.

GEAR—Full Concord gear, with three reaches made of carefully selected second growth hickory, ironed and braced; 1-inch long distance axles, fitted with dust and mudproof bell collars. The axle caps are selected hickory, cemented and clipped to the axles; extra long Concord side, 1½-inch four-plate springs, hung on equalizers, both front and rear; an extra strong gear throughout.

WHEELS—Sarven's patent, second growth hickory spokes, ¾-inch screwed rims, fitted with oval edge steel tires, 38 inches front and 42 inches rear. If ordered, we can furnish compressed band wood hubs, also 40-inch front and 44-inch rear wheels.

PAINTING—Body and seat panels, black, nicely striped, shutter work on the seat risers being painted carmine to harmonize with the gear. Gear, blood carmine, neatly striped. Can furnish Brewster gear green if ordered, with shutter work on the seat risers to correspond.

TRIMMINGS—Seat cushion and back upholstered in genuine leather over solid panel spring back and box spring cushion, nicely tufted. Can furnish whipcord upholstery if ordered. Velvet carpet, handsome patent leather dash, quick shifting shaft couplers, double braced shafts, leather trimmed.

Wagon Complete, Greatly Improved.

Guaranteed to Draw Easier, Last Longer and Carry Heavier Loads, Size for Size, Than Any Other Wagons Made. 3x9 Cast Skein Standard Wagon Complete, \$42.95.

OUR FAMOUS WAGONS, GREATLY IMPROVED, are without exception, the highest grade, the easiest running, strongest and best finished wagons that go out from any factory in the United States.

If you could have the privilege of going through our factory and seeing the extra care we use in the manufacturing of our wagons to make them the easiest running, strongest and best finished wagons on the market, you would have no hesitancy in placing your order for one of these wagons.

WHEELS—Four of the strongest wheels it is possible to make, size for size, is the claim we make for the wheels furnished on our Famous Wagon. Our wheels have larger hubs, larger spokes, heavier rims, size for size, than any other wagon manufactured. For instance, you will find that on our 3x9 cast skein standard wagon, No. 11F1509, quoted below at \$42.95, that the wheel has as large a hub, as heavy a spoke and as heavy a rim as is usually found on any so called standard wagon, 3 1/2 x 10-inch skein. The hubs we use are made of the toughest kind of black birch, which is thoroughly seasoned, and before putting into the workshop is bone dry; this makes the best hub for farm wagons that it is possible to make. The spokes are large in size, made from selected air seasoned, bone dry, second growth oak in the two-horse wagons, and bone dry, second growth hickory in the one-horse wagons. The spokes are dipped into hot casein glue just before they are driven into the hub with a power sledge hammer. You will never hear of a spoke coming loose at the hub on any of our Famous Wagon wheels. The rims which are extra large size, are fitted by hand, and the entire wheel is then dipped into boiling linseed oil, so that the oil can saturate every part and crevice; this makes the wheel stand in any climate, and the Famous farm wagon wheels will need tire resetting less than any wagon wheel made. The hubs are bored for the boxings by a special patent boring machine, and are so set in this machine that they are bored true to the rim, so that every wheel we turn out of our factory will run perfectly true. In setting the boxes under the hubs are bored, we first paint the inside of the hub with red lead, we set the boxes under an eighty-ton press, which is self centering, insuring every boxing to be driven straight and true to the rim. The tires are heated in an oven, so that they will expand in every part; they are put on the wheel while hot. The rims are clipped and bolted to the tires, making a wheel that will wear twice as long as the ordinary farm wagon wheel, without having the tires reset.

AXLES—The material used in the axles of a Famous Wagon is all made of selected second growth hickory, they are hewn from a log, which insures their running with the grain, and is far superior to axles that are sawed. Every axle is air seasoned for three years, and we guarantee it to be bone dry before going into our workshop. We have a patent axle lathe, which turns the ends of the axles for the skeins, insuring a perfect fit. This machine is set at such an angle, and the axle turned in such a manner, that every wheel has exactly the correct gather. Before the skeins are put on the axle, we dip the axle in boiling linseed oil, and then force the skeins on under our eighty-ton press, making the skeins and axle like one solid piece. In addition to this, we use our special truss rod on the axles, as shown in the small illustration on this page. This consists of a steel rod running the entire length of the axle, from point

to point of skeins, making a regular bridge construction, at the same time this truss rod is drawn so tight that even though the skeins were not forced on the axle under our eighty-ton press, they would be held securely.

SKEINS—Our cast skeins are made of the best cast iron, being cast right from the pig iron, we never use a particle of scrap on any of our cast skeins. We have a special sand and mudproof collar, which makes them the easiest running skeins on the market, they are level bearing, the weight of the wagon and load rests on the entire length of the skein and not on one part, there is less friction, in fact, our cast skeins are as much better than a regular skein found on so called standard wagons as the long distance axle on a buggy is superior to the common axle.

Illustration showing our Truss Rod connection and our Famous Sand and Mudproof Skeins

Front Gear, Style A.

Front Gear, Style B.

gear, style C; be sure and advise when sending your order which style you want, otherwise we will send the wagon just as illustrated on this page, with front gear, style A, and drop tongue.

Front Gear, Style C.

GEAR—All of our gear wood, such as reaches, bolsters, hounds, etc., are made of thoroughly air seasoned bone dry second growth oak and rock elm, every piece being saturated in boiling linseed oil before being ironed, they are heavily steel braced throughout. The wood parts and irons are heavier than found on most wagons, in fact, the gear on our Famous Wagon could not be made stronger.

Illustration showing the Famous Cut Under Rub Iron.

BOXES—Our boxes have pine and birch flooring on the bottom, which is grooved and matched. The sides are made of poplar, the stakes and trap plates are on the outside of the box, heavy sills and cleats, strong side braces, etc. The ends of the boxes are fitted with hardwood cleats, taking the wear off of the sideboards. Before being painted the boxes are given a coat of linseed oil, Comstock patent endgate is furnished on this our standard farm wagon box.

PAINTING—Our wagons are painted in the best possible manner, the work being done by hand, the box being handsomely finished in green, neatly decorated and striped, with the word "Famous" on each side (if desired we will leave the word "Famous" off of the sides of the box). We do not put our name anywhere on our Famous Wagon. The gear is painted a very handsome shade of red, handsomely striped. All of our Famous Wagons are finished in the best possible manner, in fact, they are the best finished wagons on the market.

Illustration showing the Famous Evener and Singletree.

OUR BINDING GUARANTEE. In order that there will be no doubt in your mind as to our claims for this Famous Farm Wagon, we send to each customer ordering one of these wagons, one of the strongest binding guarantees issued by any manufacturer. We guarantee every piece and part entering into the construction of these wagons, to be exactly as described and represented, to be free from defect in material or workmanship, and while these wagons will outwear any other make of wagon in the country, and while it will last a natural lifetime, in order to guarantee you against any defect in material or workmanship that might through error enter into the construction of our wagon, we send to each customer a binding guarantee, by which we agree to replace free of all expense to the customer any part that may prove defective in material or workmanship, during a period of one year from date of sale.

HOW TO ORDER—When sending an order, give us the catalogue number of the size wagon you desire, state whether you want gear only or complete wagon, allow the price given below, state whether you want wide or narrow track, and the wagon will go forward to you within a few days after you order, just as illustrated and described herein.

OUR GIANT HANDY WAGON.

Our GIANT HANDY WAGON is furnished on different height of wheels, as shown in the table below. When on wheels 26 inches front and 32 inches rear, the top of bolsters are only 26 inches from the ground, making it a very handy wagon for loading. Axles are made of the best hickory; bolsters, coupling pole and tongue are made of the best oak; stakes are oak, bound with flat iron. Coupling pole in 9 feet 4 inches long, and if wanted, can be furnished at the same price. Front and rear boards are of angle steel, almost indestructible, and the wheels are the best metal wheels made. Spokes and tires are made of the best wrought steel, guaranteed not to break on the rockiest roads. Hubs are made of superior cast iron, cast onto the spokes, making an almost one-piece construction, and we guarantee the spokes never to come loose in the hub. This wagon with its broad tires is handy in the field and over soft roads, and is guaranteed fully by us. Come with either 4 feet 8 inches narrow or 5 feet wide track. Do not fail to state track desired.

This wagon comes with pole complete, as shown in illustration, without whiffletrees or nekyoke. If desired, we can send it fitted with shafts instead of pole at same price. Prices for extras apply only when furnished in connection with a regular order for wagon, as extras are not sold separately at the prices quoted.

IF YOU HAVE ANY USE FOR A FARM WAGON

select the size you want, enclose our catalogue price as quoted, tell us whether you want wide or narrow than any wagon you could buy elsewhere, and we will guarantee to save you from \$15.00 to \$25.00 on the purchase price. Knowing as we do, after examining other so called standard wagons, that our Famous Wagons are better in every way and are furnished at a much lower price, that we will gladly accept your order for a Famous Wagon, you send us the order, enclose our price, (as we do not ship farm wagons C. O. D.) and we will send you the wagon. After you have paid the freight charges, which by the way is a very small item as compared with the amount you will save, and after you have added these freight charges to the price you have sent us for the wagon and given it a thorough ten days' trial, during which time you can put it to every test and compare it with other makes of wagons, if for any reason you do not feel that we have furnished you a much better wagon than you could secure elsewhere, if you are not satisfied that you have made a large saving by having ordered a Famous Farm Wagon, we don't want to put you to one penny's expense, but if you will advise us we will give you instructions for returning the wagon, and we will refund your money and any freight charges you may have paid.

OUR SPECIAL FREE WAGON CATALOGUE.

ON THESE TWO PAGES IN THIS CATALOGUE WE SHOW A FULL LINE OF FARM WAGONS AND TRUCKS, WE SHOW THE BEST SELLERS, THE ONES THAT ARE MOST POPULAR WITH OUR CUSTOMERS.

WE SELL THE STYLES SHOWN ON THESE TWO PAGES IN LARGE NUMBERS

to our customers in every state in the Union, and if you have any use for a farm wagon, you can order any of the Famous Wagons shown on these two pages and you will get far greater value than you could possibly secure elsewhere. However, there are a few styles used in different sections of the country that are not shown on these two pages, and to serve satisfactorily those customers who desire something different than shown on these two pages, we issue a very handsome Farm Wagon Catalogue, containing large halftone illustrations, with full complete descriptions, printed on the best kind of paper; every little detail is shown; every detail and part is carefully described, and we list in this Special Farm Wagon Catalogue a very complete line of all the various different styles of farm wagons used in the different sections of the United States, and while, as stated above, we show on these two pages practically a complete line of standard wagons, if you are not able to find what you want on these two pages, if you are unable to send us your order, do not fail to write for our Special Farm Wagon Catalogue. In a letter or on a postal card simply say, "Send me your Special Farm Wagon Catalogue," and it will go forward to you the day we receive your request. When you receive this catalogue you will find listed therein every kind of a farm wagon that is manufactured, steel axle wagons, tubular axle wagons, block tongue wagons, Pennsylvania wagons, special New York wagons, long trucks, in fact, every kind of a wagon that is used by the American farmer today.

THIS CATALOGUE IS ONE OF THE HANDSOMEST FARM WAGON CATALOGUES EVER ISSUED BY ANY CONCERN IN THE UNITED STATES,

very large illustrations, printed in halftone cuts on fine paper. We reproduce herewith a picture of this Special Farm Wagon Catalogue, and while this catalogue shows all the specialties in the farm wagon line, it is not necessary for you to send for one of these if you desire a regular standard farm wagon, either one or two-horse, as you will find on these two pages in this catalogue, our Famous Wagons, one-horse and two-horse, as fully illustrated and described herewith. They are much better wagons than you could secure elsewhere, and we will guarantee to make you a large saving in price. We say again, however, if you have any use for any kind of a farm wagon, and if you do not find on these two pages just what you want, do not fail to send for our Special Farm Wagon Catalogue,

OUR \$22.50 CUTTER.

Very handsome design of body, with moulding on the sides, as shown in illustration. The body has a rounding front, one of our own special designs, and one of the most graceful style of bodies we furnish. The body throughout is made of strictly air seasoned bone dry material. The body frame work is made from the very best materials obtainable for the purpose. The body panels are strictly No. 1 one-piece wide stock lumber. Single ply panels in the body and dash are used instead of the inferior three-ply stock used in the majority of cutters built. The body is very comfortable and roomy, with a wide seat and high back. The gear is well made, all wood parts being made of tough stock, bone dry. The runners are fitted with channel shoes, the knees are thoroughly braced, the braces being clipped to the knees. All bolts and rivets used are of the best Norway iron, all braces are forged in our own blacksmith shop, a very strong and stylish gear, one that will give long and satisfactory service. The job comes complete with removable cushion and back. The cushion and back are upholstered in the best possible manner, nicely tufted, and we use an all wool heavy imported dark green broadcloth. As shown in illustration, the job has nickel dash rail, nickel arm rails, carpet, channel shoes, wing dash and shafts trimmed with leather. The way we paint this job makes it one of the handsomest cutters on the market, the body is painted a rich olive green, making a very fine finish, and a very handsome appearing job. The dash and gear are neatly striped, the gear is furnished with a handsome dark Brewster green, which harmonizes beautifully with the olive green body. We cannot paint this job any other way. Track, 38 inches. Patent quick shifter is used regular, so that horse can be driven in the center or side as desired. Regular Albany direct hitch furnished if ordered. No. 11F1412 Price, complete, with shafts. \$22.50

EXTRAS.

OUR \$24.95 OLD COMFORT PORTLAND.

As shown in the illustration, this Old Comfort Portland is roomy and comfortable. It has a very handsome and artistic design of body. It is very stylish and handsome in appearance, and while roomy is not at all cumbersome looking. The body panels are made of one-piece No. 1 wide stock. The dash is bent out of one-piece wide stock lumber, we do not use the three-ply material that goes into the construction of most cutters. This body is strong and lasting, the material used is first class, strictly bone dry. Body has rounding front, and a very handsome wing dash. As shown in the illustration, this job is furnished with a regular rave gear, a very artistic design, with scroll braces. All wood parts are made of strictly bone dry tough stock. The runners are fitted with channel shoes, the braces are clipped to the knees. All bolts and rivets are of Norway iron, and all braces are forged in our own blacksmith shop, a very handsome, and at the same time, very strong cutter gear. The job comes complete with removable cushion and back, upholstered with a heavy all wool dark green broadcloth. As shown in illustration, this is a very handsome roomy Old Comfort Portland, and comes complete with nickel dash rail, carpet, channel shoes, wing dash and leather trimmed shafts. We finish this job in the best possible manner, the body being painted a handsome black, gear a dark Brewster green. If ordered, we will furnish a blood carmine gear, nicely striped. Track, 38 inches. Patent quick shifter, so that horse can be driven in the center or side, is furnished regular. Regular Albany direct hitch furnished if ordered. No. 11F1413 Price, complete, with shafts. \$24.95

OUR SPECIAL TOP PORTLAND, \$31.90.

We build this Portland with a top, to meet the demand of our customers who desire to use a closed top in winter. The body is a very neat design, graceful and stylish in appearance, roomy and comfortable, made throughout of thoroughly seasoned bone dry material. Body frame is made of tough solid stock, panels are made of strictly No. 1 one-piece wide stock lumber, dash is made of one-piece, we do not use the two and three-ply stock in this cutter body. The gear is very strong and substantial. All wood parts are made of the toughest kind of seasoned bone dry stock, Norway iron bolts and rivets being used, all braces are hand forged, it is a very strong and substantial gear throughout. The knee braces are clipped and cushioned, is upholstered with a heavy dark green cloth. We build the job two ways. At the price of \$31.90 we furnish this job with a regular three-bow top, with loose side curtains that is, the side curtains can be taken off. This kind of top is preferred by many. At \$37.90 we build the job with a solid closed top, as shown in illustration. Be sure and mention whether you desire the top with removable side curtains or whether you desire the solid closed top as shown in illustration, and allow the correct price when ordering. The job comes complete with nickel dash rail, wing dash, some top, carpet, channel shoes, wing dash and shafts leather trimmed. This cutter is painted in the best possible manner, the body being painted black, the gear a dark Brewster green, neatly striped. The dash panel is painted in a color to harmonize with the color of gear. We will furnish blood carmine gear if ordered. Track, 38 inches. Patent shifter, so that horse can be driven in center or to one side, is furnished regular. We will furnish the Albany direct hitch if so ordered.

THE ACME RUNNER.

At the prices quoted below, which prices represent the actual factory cost of material and labor, with our one small percentage of profit added, we furnish a complete set of four runners with attachments, so that they can be placed on any vehicle. The runners and raves are made of carefully selected tough stock. The knees are fastened with T plates instead of being mortised into the raves and runners, so that the vehicle will set level. These runners are made to order, and it makes them much stronger. The runners are fitted with hardened steel shoes, four wrought iron braces hold the runner rigid, by connecting with a steel box, which covers the spindle, and is held on by the regular axle nut. It is so arranged that it can be changed to either wide or narrow track. The oscillating connection clamps to the axle, and is adjustable so that it will fit the square part of any axle without wedging. The oscillating device gives the runner free play over rough roads. The rear runners are 2 inches higher than the front runners, so that the vehicle will set level. These runners are fully guaranteed in every respect, are painted dark red and striped, and can be shipped as soon as order is received. Safe delivery guaranteed. Shipped from factory in Michigan.

Size of axle to be used on	Weight per set	Price per set
No. 11F1430 1/2 or 1 in.	35 lbs.	\$5.25
No. 11F1431 1 1/4 or 1 1/2 in.	55 lbs.	6.15
No. 11F1432 1 3/4 or 2 in.	75 lbs.	7.05

LIGHT SPRING WAGON BOBS.

These light wagon bobs are used a great deal by livermen, grocers and dairymen to haul light loads. The wood material in the runners, raves and knees are made of carefully selected tough stock to endure the strain to which they will be subjected. We do not mortise the knees into the runners and raves, but use the regular T plate which is riveted, making a very strong connection, around sleds on the market. They are thoroughly braced to the beams which are 1 1/2 inches. The knees and raves are 1 1/2 inches. Any size wagon bed can be bolted on to the bolsters. The rear bolster is oscillating. The height of bottom of wagon bed when set on these bobs is 21 inches from the ground. The runner is 3 feet 1 inch long. The rear runners have chains that can be attached to the box. The front runners are furnished with regular draw bar and shaft shackle so that any width of shafts or pole can be attached to same, and it can be used either for center or side draft. The runners are fitted with hardened steel shoes. Painted dark red. Shipped from factory in Michigan. Width of track, 3 feet 1 inch.

No. 11F1440 Price, per set. \$8.70

MORTISELESS BOB SLED.

We have in our Mortiseless Bob Sleds, one of the best all around sleds on the market. It is very light and exceptionally strong. The runners are solid bent second growth ash, fitted with cast iron shoes, with grooved bottom, which prevents slipping or sliding sideways. The knees and runners are made of the toughest kind of stock, and are connected to the runners with T plates, which are riveted instead of having the knees mortised into the raves and runners. The bolsters are 38 inches between stakes. The front and rear sleds are connected with a light strong reach. They have a great clearance, will run light and are very strong. Prices quoted below are for the bobs sleds complete with shafts on four-knee bob and pole on six-knee bob. Can furnish bolsters 48 inches wide when wanted, at 50 cents extra. Track 3 feet 2 inches. Painted dark red. Shipped from factory in Northern Illinois.

OUR HEAVY BOB SLED.

This illustration shows our regular six-knee bob, although we build same in four-knee as well as the six-knee, prices quoted below. Runners and raves are made of hickory elm, balance of tough oak and maple, strongly ironed and braced. The raves are 6 inches wide by 48 inches long. The runners 1 1/2 inches wide by 3 inches deep, 4 feet 8 inches long, fitted with a 40-inch chilled grooved shoe. The front and rear sleds are connected with a heavy, strong reach, and we can guarantee these bobs in every respect, to be free from all defects. Prompt shipment and safe delivery guaranteed, are nicely painted dark red and striped, and at the prices quoted below, come complete as shown in illustration with pole. Bolsters are 38 inches between stakes, but can furnish 48 inches between stakes when desired, at an extra charge of 50 cents. Track 3 feet 2 inches, outside to outside runner. Weight, four-knee bob, 300 pounds; six-knee bob, 350 pounds. Shipped from factory in Northern Illinois.

No. 11F1461 Four-Knee Bob. Price, per set \$12.25
Six-Knee Bob. Price, per set

OUR SPECIAL MANDT PATENT BOB SLED.

Our Special Mandt Patent Bob Sled is one of the lightest, and at the same time one of the strongest bob sleds on the market. Both front and rear bolsters are oscillating, and each runner oscillates independent of the other one. This is one of the best kind of bob sleds to be used over rough roads. The runners are made of the toughest kind of hickory elm, fitted with steel shoes. The knees are made of one solid piece of steel, all braces, plates, etc., are hand forged; beams, bolsters, reach and tongue are made of tough white oak. The beams are 3 1/2 inches; reach is 3 1/2 inches; bolster, 3 1/2 inches. Our Special Mandt Oscillating Bobs are the best on the market, so constructed that while they oscillate freely, the load cannot tilt forward or backward, they are nicely painted dark red and striped. The bolsters are 38 inches between stakes, but we can furnish bolsters 48 inches between stakes, at an extra charge of 50 cents. At the prices quoted below, they come complete with pole. Track 3 feet 2 inches, outside to outside of runner. Shipping weight, 380 pounds. Shipped from our factory in Northern Illinois.

No. 11F1472 Price, 2 1/2-inch by 5 feet 8-inch runners \$13.95
2 1/2-inch by 6 feet runners 15.35

Solid Nickel, German Silver Hook and Terrets.

See the Solid Nickel German Silver Hook and Terrets we use on harness Nos. 10F40, 10F43, 10F45, 10F55, 10F60, 10F66, 10F150, 10F166, 10F167, 10F171, 10F175, 10F476, 10F195, 10F201, 10F210, 10F277, 10F485, 10F495, 10F501, 10F506, 10F510, 10F570, 10F574, 10F576, 10F580, 10F620. We are the only dealers who have adopted solid nickel German silver for the hook and terrets. They are superior to the regular nickel plated hooks and terrets, for our Solid Nickel, German Silver Hook and Terrets will wear beautiful and bright forever, will never tarnish, never turn brassy or yellow like the ordinary nickel plated hook and terrets; adds 50 percent to the appearance of your harness, especially after a year's use. It costs us money to put solid nickel, German silver hooks and terrets on these special harnesses but it represents such an improvement, such an advantage, adds so much to the life and appearance of the harness that we are sure our customers will appreciate it. Remember, on the special harness mentioned, the hook and terrets are solid nickel through and through and you can file them or saw them and you will find them solid nickel, will positively look bright and shiny forever, never wear dull, brassy or yellow.

Our New Jersey Special Harness.

Bridle, 1/2-inch, cheek, heavy patent leather blind, round winker brace, with heavy overcheck or side reins as preferred. DEPARTMENT OF SADDLES.

WE GUARANTEE to furnish you a better saddle for less money than you can possibly get elsewhere. Our saddles are strictly high class, thoroughly well made, guaranteed in every way and our prices are lower than the wholesaler's or jobber's, very much lower than the retail dealer's prices. Our line of stock saddles is especially adapted for western and southwestern trade and they are the best and handsomest saddles it is possible to produce.

OUR STOCK SADDLE TREES are guaranteed against breaking. We guarantee the tree in every one of our stock saddles and if the tree should break in roping cattle or doing other work, you can send the saddle back to us and we will replace it with a new tree without any expense to you and pay the transportation charges both ways, or else we will send you a new saddle. We know that the trees we use in our stock saddles are built to last and stand any amount of hard usage and we therefore positively guarantee them against breaking.

WE ISSUE A SPECIAL SADDLE CATALOGUE showing our entire line of saddles in large, clear, handsome half tone illustrations; showing every detail of the saddle. If you are unable to make a satisfactory selection from these pages, don't hesitate to write us for our Free Special Saddle Catalogue.

Our Gunnison Stock Saddle.

\$12.90

No. 10F1430 Our Gunnison Stock Saddle. We have lately improved this saddle by making it on a new steel fork Gunnison tree, hide covered, 14½-inch tree. The leather used in this saddle is a fine quality oil tanned skirting, well selected and well finished. The stirrup leathers and jockey are fancy stamped. The saddle is made with 21½-inch skirts and lined with an extra quality wool sheepskin, with steel strainer and roll cantle, raised and beaded gullet, 1½-inch stirrup straps to buckle, with large fenders attached, size of fender, 14 inches long, 7 inches wide; 1½-inch latigo straps, to tie, on a double cinch rig, genuine Mexican strong hair cinches and 3-inch California wood stirrups, leather bottom. This Saddle is one of our leading sellers and, when compared with other saddles of like price, you will find it superior in quality of material and in workmanship. Weight, 20 pounds, net, and 45 pounds boxed for shipment. Price.....\$12.90

Winfield Special Stock Saddle,

\$18.13

No. 10F1440 Made of selected oil tan Oregon saddle skirting. All parts of saddle are given special attention where extra heavy grain is required. Made on a 16-inch Winfield steel fork tree, hide covered, with 24-inch sheepskin wool lined skirts. Full extended seat; seat and jockey in one piece. Steel strainer and bound cantle. Stirrup leathers, 2-inch to lace, with fenders, 15 inches long and 8 inches wide, attached. Tie straps, 1½-inch on near side, to tie, and 1½-inch, to buckle, on the off side; 20-strand white Angora hair cinches; wool lined chafes and connecting straps; leather covered steel stirrups. We will make this saddle in roll cantle if wanted, but will always send bound cantle unless otherwise ordered. A strictly up to date good saddle, a saddle that would sell for \$5.00 to \$8.00 more than our special price. Weight, about 25 pounds; boxed, 35 pounds. Price.....\$18.13

Our Popular Saddle is made on a thoroughly first class steel fork tree, with high horn. This tree is made for general purposes, for all kinds of ordinary use, and will stand a great deal of rough work. The leather used in the making of this saddle is a fine oil tanned skirting, well selected and nicely finished. The tree is 14½ inches (this is the only size we make this saddle), with 21½-inch unlined skirts. The seating is of solid leather, fancy stamped. The saddle is made with large fenders attached. Size, 15 inches long, 7 inches wide. It is double rig to tie with 1½-inch tie straps, 4-inch woven cinches and 4-inch Texas wood stirrups. Weight of saddle, about 16 pounds; packed for shipment, about 30 pounds. We can highly recommend this saddle as being one of the best cheap stock saddles we handle, and is sure to give excellent service.

Casper Big Heavy Stock Saddle, \$31.10.

This Saddle is a large size and will fit a man of 200 to 250 lbs.

\$31.10

No. 10F1442 Made on a 17-inch Visalla tree, heavy steel fork, rawhide covered. We will also make this saddle on a 17-inch Nelson tree if wanted. Large, heavy 30-inch skirts; sheepskin wool lined. Extended full seat; bound cantle; seat and jockey in one piece. This is an extra large, roomy saddle, for a big, heavy, stout rider; 3-inch stirrup leathers, to lace, with extra heavy steel leather covered stirrups. Large, heavy fender, 18 inches long, 9½ inches wide, attached. Heavy, 20-strand, white hard hair cinches; wool lined chafes and connecting straps, 1½-inch tie straps, 7 feet long on the near side, to buckle, and 2 inches wide on the off side, to buckle. We will make any changes in cinches wanted on this saddle; either all cotton or back band webbing cinches, but will send cinches listed regular with the saddle unless otherwise specified. We will also make this saddle in roll cantle if wanted. Remember, this saddle is made of an extra quality of fine Oregon heavy oil skirting, with full extended seat; seat and jockey in one piece. This saddle is made with lariet strap on the off side, and head string on the inner side. Weight of this saddle is about 38 pounds; shipping weight, 60 pounds. This saddle will sell in most places from \$45.00 to \$65.00, and at our low price it is a special bargain.

Sears, Roebuck & Co. Old Style Side Saddle.

No. 10F1570 Price of saddle \$5.97

Tree: The tree used in the manufacture of this, our Special Princess Side Saddle, is a strictly first class Ruwert tree, with bars of saddle padded with sheepskin so as to be soft and easy on the horse's back. Seating: The seating of this saddle is of the finest quality of buckskin, handsomely ornamental stitched, making a very soft and easy cushion. This saddle is made with large jockey on back; the skirting is handsomely stamped four pieces, pigskin impression body; extra heavy 1½-inch leather surcingling, with ¾-inch stirrup strap; fine pigskin impression.

This saddle is made on the famous Somers tree, flat seat with slanting cantle. The tree is so constructed as to make it easy for a fleshy person to ride this saddle without being uncomfortable. The seat is calfskin, quilted and hand raised. The skirts are embossed in russet leather with iron stirrup. Tree, 17-inch, old style; skirts, large russet skirts, embossed; seating, calfskin seat, silk stitched, hand raised, lined and stitched horns; padded heavy drill, hair stuffed, quilted, making the saddle easy on the horse's back; girth, cotton, to buckle on each side. Weight, packed for shipment, about 20 pounds.

Our High Grade Improved Old Style Side Saddle.

\$9.65

The seat of this saddle is so constructed that it is very easy for the rider to sit in this saddle with the greatest comfort. The lady using this saddle will find it one of the easiest riding saddles that can be made, as the seat is so constructed as to give the rider plenty of room. The cantle is slanting, so as to protect from slipping backward. The horns are so constructed as to be easy on the limb. This style of tree is used in all high grade English saddles and gives the best satisfaction. Tree, 18-inch old style tree; seat, calfskin leather, zik stitched, hand raised; skirts, large leather skirt, hogskin impression and embossed edges, leather jockey, leather stirrup strap, iron stirrup, web cinch and a leather surcingle over the skirt; pad, sheepskin lined pad, serge bottom, hair stuffed, making the saddle easy on the horse's back; girth, cotton cord girth to buckle on each side, leather surcingle to buckle on the off side, adjustable stirrup strap with iron stirrup. Weight, shipped for shipment, about 25 pounds.

No. 10F1573 Price of saddle, \$9.65

If by mail, postage extra, 7 cents.

THE
DAKOTA

HORSE CLIPPING MACHINE \$8.95

AT \$8.95 we offer you our famous Dakota Horse Clipping Machine, all complete as shown in the illustration ready to attach to a post or board in your stable, and at this price it is really the most wonderful value ever offered in a clipping machine. No other clipping device compares with the Dakota in simplicity of parts, in easy running, in perfection of work, in lowness of price and we send it out under our unqualified guarantee that it will give absolute satisfaction to every user, that it is in every way the very best clipping machine on the market, and if it is not all that we represent it to be or all that you could ask in a clipping machine, it may be returned to us at our expense and we will promptly refund the purchase price.

EVERY HORSE OWNER, every farmer who works his horses hard and long during the busy season on the farm, every team owner whose horses toil through the long hot days of the summer time, every livery owner who desires to keep his animals in the very pink of condition, in short, everyone who has a horse should own one of these Dakota Clipping Machines, and at our astonishingly low price of \$8.95 you have the opportunity to secure a clipper which does absolutely perfect work under all conditions, and which will give you the utmost satisfaction.

ALL THE LEADING AUTHORITIES ON LIVE STOCK now agree that the clipping of horses is decidedly beneficial to the animal. Experiments and careful observation have established the fact that clipping is quite as essential to the welfare of the horse as shoeing him or giving him a comfortable place to sleep at night, and when the reasons for this belief are stated they appeal to the common sense of every horse owner.

A CLIPPED HORSE dries out rapidly after a hard day's work and he refreshed on the following day than he would be if he were permitted to stand in the stable all night, and when the cool nights of spring in a thick coat of hair wet and soggy with perspiration.

MANY OF THE DISEASES to which the horse is subject, and he falls a prey to many, are due to his working hard and perspiring freely, and afterward standing or lying in a stable at night in his wet, shaggy coat of hair and catching cold. From a simple cold it is but a step to heaves, pneumonia, rheumatism, distemper and various other kindred troubles, and this danger of disease is always present in the early spring when the animal comes out of a season of long inactivity and he is consequently unhardened to exercise or hard work and is what is commonly called "soft." Under these conditions, when he is taken from the stall and begins his spring and summer work he perspires freely. The moisture is held by his long coat of hair, and as he stands in the stable at night, wet and cold, the food that should go to build up the tissues of his body is used instead to develop heat to evaporate the cold perspiration and overcome the chill resulting from his exposure. No horse can be healthy under these conditions.

ON THE OTHER HAND, if before this horse is taken thoroughly clipped with a Dakota Clipping Machine, when he goes into the stable at night his coat will be dry in a few minutes, in fact, the perspiration dries almost as soon as it is secreted. He is not covered with a wet, cold blanket of hair and he therefore rests comfortably. He assimilates his food and under these conditions he is in every way a better horse, a stronger horse and at all times he is practically free from disease, especially those diseases which follow severe colds. He will be a more economical horse for you to keep because he will require less food to remain in condition. He will be a much handsomer and a much better horse from every standpoint and it will pay you to purchase a Dakota Horse Clipping Machine. Keep the animal clipped in the summer more satisfactory service, and you will undoubtedly save the price of the machine after a few short months, because he will eat less, he will do more work and his freedom from colds and similar diseases will mean freedom from the services of the veterinary surgeon and the entire absence of bills for veterinary remedies.

IF YOU OWN ONE HORSE time and your driver will be handsomer, he will have a brighter, smoother, finer coat, he will give you more satisfactory service, and you will undoubtedly save the price of the machine after a few short months, because he will eat less, he will do more work and his freedom from colds and similar diseases will mean freedom from the services of the veterinary surgeon and the entire absence of bills for veterinary remedies.

IF YOU OWN MORE THAN ONE HORSE, if you have several teams, you cannot afford to be without one of these superior Horse Clipping Machines, for if the proper clipping of a horse in the spring will improve his general health, if he rests better, feels better and works better, the amount represented in the purchase price of this machine is certainly very insignificant when compared to the returns this investment will yield you from day to day. If it will save the horses from one day's sickness now and then, it will quickly pay for itself and if you have never used a horse clipping machine, if you have never had any experience along this line and you own several horses, we urge you to wholly in your interest to order one of our Dakota Horse Clipping Machines at our \$8.95 price, and on our free trial plan and refund proposition, as explained further on this page, and we know that a brief experience will convince you that it is just as necessary in your stable as your investment in harness, in wagons, in buggies or in any other equipment you find absolutely essential as a horse owner.

FROM THE STANDPOINT OF ECONOMY, therefore, and leaving out of the question the matter of appearance, it will pay you immensely to order one of these perfect horse clipping machines at our \$8.95 price. It requires very little saving along any one of the lines mentioned to quickly return the purchase price. No matter what your experience may have been with other machines, no matter if you have tried other horse clipping machines and they have proven unsatisfactory, we want you to send us an order for this wonderful machine. We send it to you on the broadest sort of a guarantee so that if it isn't perfectly satisfactory it comes right back to us and your money will be refunded and you will not be out one cent on the transaction. If we were not absolutely sure of the high quality of this machine, if we were not absolutely certain that it is the best clipping machine on the market and is in every way all that we represent it to be we could not afford to send it to you on such broad and liberal terms, but there are many thousands of them in use, they are giving such universal satisfaction in all cases that we have no hesitation in recommending the Dakota Clipping Machine to you as the very acme of perfection in a horse clipping machine.

OUR WONDERFULLY LIBERAL TERMS.

SEND US \$8.95 for this machine all ready to attach to a post or board, or send us \$9.95 for the machine complete with iron stand as shown in the larger illustration. When it has arrived and is connected up, clip your horses with it and after you have tried it on all of them, if you are not perfectly satisfied that it is a wonderful value, that it is as fine a clipping machine as you could get from anyone at any price, if you are not fully satisfied to keep the machine you may return it to us at our expense of transportation charges both ways and we will promptly refund your money. If you have any doubt of the quality of the machine as compared to any other horse clipping machine on the market, we would be pleased to have you order any other horse clipping machine that you think compares favorably with ours, at the same time you send us the price of the Dakota and we will be glad to have you try them side by side, to compare them from every standpoint; from the standpoint of simplicity, of easy running, of perfect clipping without grinding or pulling, and if you do not decide after making this test your self in your own way that our machine is by far the better of the two, you may return it to us at our expense and we will refund the purchase price.

OUR BINDING GUARANTEE.

The Dakota Horse Clipping Machine is made by us in our own factory and we control the patents under which it is manufactured. We own the special machinery used in its construction; we know the quality of every piece of material which enters into it and we employ skilled workmen to build it. The materials used in its construction are the very best that money can buy, all the working parts are very carefully fitted and we guarantee this machine against defective materials or workmanship for a period of 20 years, and if any piece or part gives out or breaks by reason of defective material or workmanship within that period, we will promptly replace such defective piece or part absolutely free of charge. This guarantee, however, does not cover the comb or cutting knife, because they are tempered very hard to give perfect cutting surface and the careless handling of the machine, such as dropping on the floor, is liable to break these delicate parts. Our guarantee, therefore, does not cover these two pieces. We guarantee the Dakota Clipping Machine to be better made, to carry better material, to do better work, to wear longer than any other clipping machine on the market, and we send it out to you under this the strongest guarantee covering the longest period of time offered by any manufacturer.

DESCRIPTION OF THE DAKOTA HORSE CLIPPER.

THE FRAME is very substantially constructed and the material used is the best gray iron. It is well painted to preserve it from rust, it is very strong and of graceful design. **THE BEARINGS** are of the best cold rolled steel, case hardened. They are accurately milled and equipped with proper oil holes. **THE COMBINATION DRIVE AND BALANCE WHEEL** weighs 20 pounds, it is accurately turned on a lathe to insure its running true and it is fitted with handle. **THE SMALLER GEARS** are made of the best cold rolled steel, case hardened. The flexible shaft is made of cold rolled steel links especially designed for use in this machine. Casing covering of flexible shaft is of best woven fabric. **ALL GEARS** are properly protected so that the operator is in no danger from accidental catching of the clothing or person in the mesh. **THE HEAD** is the vital part of this machine and it is illustrated herewith. The comb is very carefully milled with teeth close together and it is adjustable to the cutter knife. The teeth are open and short, properly beveled and will not clog. The machine eats its own way through the hair without hard pushing on the part of the operator; just the gentlest pressure will keep it moving rapidly. The cutting blade which vibrates back and forth over the teeth of the comb is speeded to about 1,600 vibrations to the minute and possesses a cutting power exceeding any other cutter head ever devised. It clips very rapidly and there is practically no limit to the speed of this machine as it will clip as rapidly as the experience of the operator will permit. Because of the short, blunt comb and protected cutting knife, it is absolutely impossible to cut the animal by accident. The cutter lever is made of Manganese Bronze, hung on perfect bearings and it is practically everlasting. The comb and knives are made of a special high grade cold rolled tool steel especially hardened and tempered for use in these machines. The cutter knife is easily inserted or removed and a small thumb screw on the cutter lever regulates the tension of the cutting knife, and as the blade grows dull a slight turn of this thumb screw presents a new cutting surface. This cutting head has an absolute shear cut. It doesn't grind off the hair as many other machines do, but cuts it clean and smooth and it doesn't pull. It is no trick at all to remove the dull cutter blades and insert sharpened blades. All the working parts in the head are made of the best cold rolled steel, case hardened and are enclosed in a malleable cast handle, heavily nickel plated.

No. 10F4890 Dakota Horse Clipping Machine, ready to fasten to post or board, complete with four cutting blades.

Price \$8.95

No. 0F4892 Dakota Horse Clipping Machine, complete with iron stand and four cutting blades. Price \$9.95

The Head.

OUR MONTANA MACHINE,
The only
Perfect
Shearing
Device on
the Market.

THE

WORLD'S BEST SHEEP SHEARING MACHINE

GET FROM HALF A POUND TO TWO POUNDS MORE WOOL PER HEAD.

The use of the MONTANA Sheep Shearing Machine will get from 8 to 32 ounces more wool from every sheep you own than you can get by the old method of hand shearing. You can prove this statement yourself if you will take advantage of our free trial offer and refund proposition as explained on this page. After receiving one of our machines have the most expert hand shearer in the business clip one of your sheep as closely as he knows how, let him take all the time he needs to do a strictly first class close job of hand shearing, and when he has finished his work take the shorn sheep in hand yourself, use the perfect Shearing Machine you have received from us, and in five minutes time you can go over the same animal from its hoofs to its eyelashes and get an additional 8 to 32 ounces of wool. What you can do with one head, you can do with all, which means from 15 cents to 60 cents additional income from every head of sheep you own. The Montana Sheep Shearing Machine clips closer, clips easier and clips better than any other method, machine or hand, and will add an average of one pound of wool to the fleece throughout your entire herd, an increase in wool yield which if you own a flock of 200 head means an addition to your WOOL PROFITS OF FIVE TIMES THE COST OF THIS MACHINE.

\$37.50 MORE WOOL FROM 200 SHEEP. Our records show that on a herd of 200 sheep the use of this perfect sheep shearing machine will get at least 150 pounds more wool than can be gotten by hand shearing. At a conservative price of 25 cents per pound this would mean an increase in wool profits amounting to \$37.50, and in the face of this established record no stockman can afford to shear his sheep by the old method, because every ounce of wool he fails to get by hand shearing that he can get by using the Montana Shearing Machine represents just so much lost income, just so much lost profit, and on a large herd the loss would be tremendous. Owners of large sheep ranches have been most enthusiastic in praise of this specially valuable profit producing feature of the Montana.

GET MORE MONEY FOR YOUR WOOL TOO. If you will shear your sheep with the Montana Sheep Shearing Machine you will get better prices for your wool than you can get for it clipped by any other method. The best wool grows close to the skin, and as this machine clips so closely that it gets from 8 to 32 ounces per head more wool of the finest grade that grows than can be gotten by any other shearing process, this increased weight, made up of the finest and highest grade wool, brings up the average quality of the whole clip to the very highest degree and wool buyers in every market pay top prices for it. Stockmen who use our machine are getting better prices for their wool than they ever received before, and better prices than are paid any sheep raiser for hand clipped wool.

\$12.00 SAVED IN SHEARING 100 SHEEP.

SAVE THREE-QUARTERS OF THE COST OF SHEARING. The MONTANA Sheep Shearing Machine will cut the labor cost of shearing your herd at least 75 per cent, and if you own 200 sheep you will save in wages usually paid hand shearers to do the same work enough money to pay for this machine twice over, and save a labor bill of \$25.00 every time you shear thereafter. Shearing by hand at the average price of 15 cents per head would cost you \$30.00. Two men with this perfect sheep shearing machine can shear 150 head per day, and at a fair daily wage of \$2.50 each, the expense of clipping 200 sheep would be \$6.67, a clear saving over hand shearing of \$23.33. The tremendous saving in wages for shearing large herds can be seen at a glance. No sheep raiser can longer afford to shear by hand when for an investment of only \$10.40 he can save from 10 to 12 cents per head every year on every sheep he owns.

BUYERS AT THE STOCK YARDS pay a half cent a pound more for sheep sheared by the Montana Sheep Shearing Machine than they pay for sheep shorn by hand. The Montana shears so closely and smoothly, it leaves the stubble in such fine condition, that the general appearance of the animal is a hundred per cent better than that of the animal sheared by hand, and the stock yards people willingly pay a premium for sheep sheared by this perfect machine.

YOU CAN'T CUT YOUR SHEEP when you shear them with a MONTANA Shearing Machine, a claim which cannot be successfully made for any other shearing machine ever invented. It means something to the sheep raiser to send his herd to market free from ugly wounds or scars which are sure to reduce the selling value of his animals. It means still more to him to turn his sheep on the range free from open sores caused by cutting when shearing, sores which become infected from poisonous

weeds and insects and which frequently introduce disease which sweeps away whole herds of valuable animals.

NO MATTER IF YOU HAVE TRIED

OTHER MACHINES, which have proved utter failures and which you have given up MONTANA at our expense. No sheep shearing machine on the market can compare with the Montana. We challenge the maker of any other machine on any and all good features. Order any other machine, if you like, and compare it with ours. Try them both. See which runs easier, requires the least power to operate, clips closer; see which one clogs or sticks when shearing thick or matted wool, note carefully the materials and workmanship, and if your judgment on every point is not entirely in our favor, send our machine back at our expense and we will return your money.

YOU CAN'T CLOG THE MONTANA, no matter how thick the wool or how fast you shear. It cuts faster than you can handle the sheep. It is the only machine which will clip the wool from every part of the animal from its legs from around the ears, etc. It shears over the abdomen without the slightest danger of injury to the sheep. You don't have to use the hand shears to start the shearing nor to finish up on the job, as you have to do when you use any other shearing machine on the market. If the wool on the brisket is matted the Montana cutting head will eat its way under it, and do it easily and without extra exertion. No other machine will do this. The user of any other machine is compelled to use the hand shears from a third to half the time, but the user of the MONTANA can throw away his shears, as he will never have further use for them.

IT DOES NOT MATTER whether you have ever used a shearing machine or not, you can learn to operate the MONTANA quickly and do perfect work with it. We send a book of instructions with every machine we sell, showing in both pictures and descriptive matter the various steps in shearing from the time the sheep is taken in hand until the fleece is entirely removed. It is all very easy. By the time you have had the practice which comes from shearing a half dozen sheep you will be able to do as perfect work, you will be able to clip as closely and as thoroughly as the most expert workman and speed will come to you as you become more experienced. Therefore, do not hesitate to order this machine. You will not have the slightest trouble in operating it, in doing perfect work with it, as it is so simply constructed and has absolutely nothing to get out of order.

OUR FREE TRIAL OFFER AND REFUND PROPOSITION. SEND US AN ORDER FOR THIS PERFECT SHEEP SHEARING MACHINE

at our price, \$10.40. When it reaches you read our instruction book containing very full and very plain information, oil all the bearings and shear 50 sheep with it. We want you to use it in your own way, give it every trial you want to give it, and decide for yourself the merits of this machine. If you do not find that it does all we claim for it, if you are not satisfied after having taken the fleece from 50 sheep that this machine is a great economizer in the practice which comes from shearing a half dozen sheep you will be able to do as perfect work, you will be able to clip as closely and as thoroughly as the most expert workman and speed will come to you as you become more experienced. Therefore, do not hesitate to order this machine. You will not have the slightest trouble in operating it, in doing perfect work with it, as it is so simply constructed and has absolutely nothing to get out of order.

OUR BINDING GUARANTEE.

WE BUILD THIS MONTANA Sheep Shearing Machine in our own factory under our own supervision and as we put into it the finest materials obtainable, all the steel we use is specially hardened and tempered for our use, and as we employ the most skilled workmen in its construction, we give with every machine we sell a binding guarantee that if at any time within 20 years any piece or part gives out or breaks by reason of defective material or workmanship we will promptly replace such defective piece or part absolutely free of charge. This guarantee does not apply to comb or cutter, minor parts which are sometimes broken by careless handling and dropping on the floor. We guarantee the Montana Sheep Shearing Machine to be better made, to be more durable, faster and easier to operate, simpler, stronger and to clip closer than any other shearing machine ever invented and in offering it to you we send it out under the strongest, most binding guarantee offered by any manufacturer or dealer.

EXTRA PROFITS ON 200 HEAD OF SHEEP.

THIS IS WHAT THE MONTANA

will do for you if you have a herd of 200 sheep, basing the figures on the most conservative estimates, 150 pounds extra wool at 25 cents per pound... \$37.50
Cost of shearing, \$6.67 instead of \$30.00, saving..... 23.33
Additional profits..... \$60.83

Add to this the increased price your wool will bring because of better quality, add saving in board of sheep shearers for days and weeks at a time, and you will find that your sheep will yield you from 60 to 75 cents a head more than they did before you used the Montana.

DESCRIPTION OF THE MONTANA MACHINE.

THE FRAME is made of the best gray iron and is very substantially constructed. It is of graceful design and very strong, and is well painted to preserve it from rust. **THE BEARINGS** are of the very best cold rolled steel, case hardened; they are accurately milled and properly fitted. **THE COMBINATION BALANCE** is of the best material and is accurately turned on a lathe to insure its running true. **AND DRIVE WHEEL** weighs 20 pounds and is accurately turned on a lathe to insure its running true. **SMALL GEARS** are made of the very best cold rolled steel, case hardened. **SHAFT** is of cold rolled steel made especially for use in these machines. **CASING** is of best cold rolled drawn steel tubing. **ALL GEARS** are carefully protected at the knuckle joints so that the operator cannot get his clothing or fingers caught in the mesh. **THE HEAD** is the most important part of the machine and the illustration herewith shows the general style of construction. The comb is carefully milled; it carries nine teeth and is adjustable to the cutter knife. The teeth are open and short and readily enter the wool and absolutely will not clog. It does not require hard pushing, just the gentlest pressure, just enough to keep the teeth against the uncut wool will keep it moving rapidly. The cutting blade which vibrates back and forth upon the teeth of the comb, is speeded to about 1600 vibrations per minute, cutting power being exerted upon any other cutting head ever devised. It cuts so rapidly that there is no limit to the amount of shearing it will do, the speed depending altogether upon the ability of the operator to handle the sheep. Because

ESPECIALLY for those who are raising sheep in sections of the country where the weather becomes very warm and where it is desirable to leave longer stubble on the back as a protection against the sun, we equip the cutter head with a special comb guard, by the use of which the length of stubble may be easily regulated. For price of this attachment see price list below.

No. 10F4855 Montana Sheep Shearing Machine, ready to fasten to post or board. Complete with four cutting blades. Price..... \$10.40

Extra Cutting Blades. Each..... \$0.50
Extra Combs. Each..... 1.00
Comb Guard, for regulating length of stubble to protect back of sheep from sun..... 1.00

\$11.40

Is our price for this wonderful sheep shearing machine, complete with stand exactly as shown in this illustration.

of the short, blunt comb and protected cutting knife it is absolutely impossible to cut the sheep by accident. The cutter lever is made of manganese bronze, it is hung on perfect bearings and it will last forever. The comb knives are made of a special high grade cold rolled tool steel, specially hardened and tempered for use in these machines. One knife will shear from 20 to 50 sheep, depending on the condition of the wool; if it is free from sand and dirt it will be no trouble at all to shear 50 head with one knife. A small thumbscrew on the cutter lever regulates the tension on the cutting knife and as the blade grows dull a slight turn of the screw presents a new cutting surface. This cutting head has an absolute shear cut and does not grind off the wool as other machines do, but cuts it clean and smooth and does not pull. The dull cutter blades are quickly removed and sharpened blades inserted. All the working parts are made of the best cold rolled steel, case hardened and are enclosed in a malleable cast handle heavily nickel plated.

SPECIAL NOTICE—We will exchange one sharp blade for every two dull cutting blades sent us, or we will sharpen dull cutting blades free of charge, providing you pay postage both ways.

\$10.40

IS OUR PRICE FOR THIS WONDERFUL SHEEP SHEARING MACHINE.

Ready to fasten to a post or board, as shown in this illustration.

This cutting head is simple, with no complicated parts. All bearings are carefully fitted, the cutting knife is instantly adjusted by means of thumb screw and comb is adjustable. Note open comb teeth, length of handle, etc.

Our Farmer Blanket Pin or Horseman's Quick Fastening Blanket Attachment.

No. 10F5673 This blanket pin is made in two parts, with a double pin on each and hook together. You put the double pin through the blanket, snap the pins on each side of the blanket and then to fasten the blanket around the horse's neck you hook the pin together. It is a very simple attachment and can be handled in the winter time with gloves or mittens. This is something entirely new and practicable and the very best blanket pin you can buy, as the pins are always on the blanket and do not have to be removed to put the blanket on or off the horse. This Farmer Blanket Pin and you will use no other. Price, 12 for 68c; 6 for 38c; 2 for..... 18c

The Farmer Blanket Trace Pin.

No. 10F5674 This Pin is used on the lower side of the blanket, so the trace may be dropped in the hook, and hold the blanket in place while the horse is standing. With the use of this blanket hook, your blanket will not pull over the horse and be tramped under the horse's feet and the horse receive no benefit from the blanket. If you use this Farmer's Blanket Trace Pin your horse will get the full benefit of his blanket and you will save wear and tear on the blanket. The blanket pin is very substantial, and can be used on all kinds of blankets for team harness or single and double driving harness. No farmer or horse owner should be without the Farmer Blanket Trace Pin. Price, 12 for 68c; 6 for 38c; 2 for..... 18c

WALL PAPER DEPARTMENT.

THIS BIG NEW 1907 WALL PAPER SAMPLE BOOK IS FREE

*A Book of Wall Paper Samples
From Sears Roebuck & Co.*

JUST SAY IN A LETTER OR ON A POSTAL, "Send me your new Wall Paper Sample Book," as illustrated, a large book 5½x7½ inches in size, containing over 40 samples, our entire line of new 1907 wall paper, will be sent to you immediately by mail, postpaid. Do not order a single roll of wall paper, and do not let any of your friends or neighbors order wall paper from anyone else until you first get this free sample book and see for yourself the beautiful high quality of wall paper we are now furnishing at the most remarkably low prices. **3 CENTS TO 25 CENTS PER DOUBLE ROLL** of 16 yards is our range of prices for our new line of wall paper, all new, desirable and stylish patterns, the handsomest line of wall paper we have ever been able to offer.

IN THIS SAMPLE BOOK we show a fair sized sample of the actual paper in all its beauty of color and pattern, and these samples you can compare with any wall paper offered you by anyone and see for yourself what wonderful values we offer in this department.

IF YOU ARE AT ALL INTERESTED IN WALL PAPER, if you expect to paper one or more rooms, if one or more rooms in your house look old and dingy, don't fail to write and

ask for this free Wall Paper Sample Book, and it will be sent to you by return mail. You will be surprised to find what beautiful wall paper we furnish for so little money. You will be more than pleased with the handsome new patterns, the splendid quality of wall paper we furnish at 6 cents, 8 cents, 9 cents, 10 cents, 12 cents and 15 cents per double roll, such paper as you could not buy at retail for less than double the price. If you are at all interested, do not fail to write for this free Wall Paper Sample Book.

YOU CAN PUT THE PAPER UP YOURSELF. You will not need to pay an expert paperhanger to do the job; if you want to save money you can hang the paper yourself, as we furnish complete instructions in every sample book. These instructions are so plain and simple that anyone without any previous experience can do the work. Just a small amount invested in wall paper will beautify your home wonderfully.

IT IS SURPRISING HOW LITTLE MONEY IT REQUIRES to buy beautiful up to date wall paper and paper one or more rooms in the house. So much is added to every room in beauty, cleanliness and utility by the use of wall paper, there is no method of treating the walls that pleases so constantly, that it really becomes the duty of every householder to make the small investment necessary and keep the home beautiful.

HOW WE CAN MAKE SUCH LOW PRICES, AND HOW WE CAN FURNISH THE HIGHEST GRADE WALL PAPER MADE IN THE WORLD.

WE MAKE OUR OWN WALL PAPER in our own big wall paper mill, one of the largest and most up to date wall paper mills in America. We show here a picture of our wall paper mill, located here in Chicago at No. 400 to 410 E. Illinois St., and in this mill we have ten big wall paper machines running day and night. If you could visit this wall paper mill, see these big machines turning out the printed wall paper in ten endless streams, go through the various departments of this big mill, the pattern designing room, the color room, the machine room, the rewinding room, the inspection room; see on what a large scale everything is conducted, how everything is running at top speed and fullest capacity you would understand how we have been able to reduce the cost of wall paper manufacturing to its lowest point. You would easily believe this fact, which is a fact, namely: that we produce wall paper at a lower cost than is produced in any other mill in the country. Our demand is so steady we are able to run continuously on a certain number of patterns. We have much fewer changes on the machines, our runs are long, we are not shifting constantly as other mills are shifting in accordance with the fluctuation in their orders, and all this makes for a lower cost of production.

YOU BUY THE WALL PAPER FROM US on the basis of this, our low mill or manufacturing cost, and the price you pay us is just a trifle more than mill cost, it is a price that represents our mill cost with only our one small percentage of profit added. You buy the paper from us for a lower price than most mills are able to make to wholesalers and jobbers, and you can easily understand for how much less you buy it than at the prices asked for similar grades at retail.

ABOUT THE QUALITY. Material, the colors, pigments; having the brass rollers from which the patterns are furnished made under our own supervision by our expert mechanics; overseeing every branch of the work we are in position to control the quality and keep it up to the highest standard and maintain the grade of every roll of paper we turn out. Manufacturing our own wall paper in such immense quantities and selling it direct to you without any intermediate profits, with just our narrow margin of profit added to the manufacturing cost it is comparatively easy for us to make a higher grade of paper than is turned out by other mills and yet offer lower prices than you can get elsewhere.

From this, our own wall paper mill, we turned out ten million rolls of paper in 1906 and we expect to make and sell fifteen million rolls in 1907.

YOU CAN ORDER YOUR WALL PAPER DIRECT FROM THIS CATALOGUE WITHOUT WAITING TO WRITE FOR SAMPLES
OUR GUARANTEE OR MONEY REFUND OFFER. We guarantee every roll of wall paper we put out to be strictly first class and the very best quality of its kind. We accept every order with the understanding and agreement that if you do not find the wall paper perfectly satisfactory in every way, if you are not convinced that you have saved money you are at liberty to return the paper to us, at our expense and we will promptly return your money, including what you paid for transportation charges.

IN THIS BOOK we show illustrations of our big leaders and greatest values in wall paper for this season, describe and price them fully, and if you are needing wall paper immediately you can safely order from the prices and descriptions here shown without waiting to get the free Wall Paper Sample Book. We will accept your order for wall paper ordered direct from this catalogue with the understanding that if you are not thoroughly satisfied you can return the paper and we will promptly refund your money.

JUR LOCOST PAINT; Our Competition Brand, a ready mixed paint offered by us in competition with the cheap ready mixed paint sold by other concerns at 80 to 90 cents per gallon, better than such paints in every way and yet not to be compared with our famous Seroco, the highest grade paint possible to make.

We furnish LoCost Paint in 20 of the most popular colors and only in the colors named. We cannot furnish it in any other colors. Always mention the name of color as well as the catalogue number.

Seroco Ready Mixed House Paint.

GUARANTEED FOR 10 YEARS.

FOR A READY MIXED PAINT for houses, for interior or exterior work, or even for barns, fences, for wood or iron where an extra grade, an extra durable and hand-some, easy working and fine finish paint is desired, the very best ready mixed paint made, we especially recommend this, our own Seroco Ready Mixed Paint.

REMEMBER, Seroco Ready Mixed Paint is made in our own factory, we guarantee every gallon to be full weight and full measure, to give perfect satisfaction or we will refund your money. At 85 cents to 98 cents per gallon, according to quantity ordered, we furnish this, our Seroco Ready Mixed Paint, made in our own paint factory, at prices that are based on the actual manufacturing cost, the cost of the raw material and labor, with but our one small percentage of profit added, and you can buy this, the highest grade ready mixed house paint from us at a lower price than dealers can buy their paint from other sources in any quantity.

YOU CAN ORDER DIRECT from this catalogue, selecting the color wanted from the colors listed below, with our guarantee that the color and quality will please you, or we will immediately return your money; but if you prefer to see the exact colors before ordering, write us and we will mail you our special Paint Color Sample Booklet free, with our compliments. This booklet shows samples of the actual colors of all the different paints we handle.

DIRECTIONS FOR SEROCO READY MIXED HOUSE PAINTS. For first coat, thin the paint with boiled linseed oil, in the proportion of one-half gallon oil to one gallon ready mixed paint. For second coat, use the paint as received, unless it should be very thick, when a little linseed oil may be added.

OUR GUARANTEE: We guarantee our Seroco Ready Mixed House Paint to wear for ten years, if the directions are carefully followed. Seroco Ready Mixed House Paint will not peel, scale, blister or chalk, our guarantee covers this.

WE FURNISH our Seroco Ready Mixed House Paint, the highest grade house paint on the market, at prices ranging from 85 cents to 98 cents per gallon, according to package, as follows:

Our 98-Cent Seroco House Paint.

At 98 cents per gallon we furnish the Seroco Ready Mixed Paint put up in 1-gallon tin pails, exactly as illustrated. The difference in price between 85 and 98 cents per gallon only represents the difference in cost of the package to us. If you require five gallons or more it will pay you to order this paint in buckets or barrels. Understand, it is put out under our binding guarantee that if it does not please you, if

you don't find it better than any ready mixed paint made, regardless of price, return it to us at our expense, and we will immediately return your money.

AT 93 CENTS PER GALLON we furnish our Seroco, the highest grade

ready mixed paint made, in 5-gallon buckets, exactly as illustrated.

In this package, in a 5-gallon wooden baled bucket, we can furnish our Seroco Paint at 93 cents per gallon. 93 cents barely covers the actual cost of material and labor; made, ground and put up in our own factory, with but our one small percentage of profit added. If you buy this paint from us you will get such value as you could not get from any other house.

88 Cents per Gallon for Seroco Mixed Paint, in 25-Gallon Half Barrels.

88 cents per gallon buys our highest grade Seroco Ready Mixed House Paint, put up in 25-gallon half barrels, exactly as illustrated.

This shows the style in which we put up Seroco paint in half-barrel lots and are able to offer it at 88 cents per gallon, just enough to cover cost of manufacture, with but our one small profit added.

GIVES A CLEAR, DEEP COLOR.

Sears, Roebuck & Co., Chicago, Ill.

Gentlemen:—Having given your new Seroco Ready Mixed Paint a fair trial, am prepared to say that it covers more surface than any other ready mixed paint, giving a clear, deep color. It gives a fine finish and will undoubtedly cover more surface than any other, and is much cheaper to use than ordinary paints.

Very truly yours, J. C. YELTON.

Anderson, Ind.

85 Cents per Gallon for Seroco Paint in Full 50-Gallon Barrels.

At 85 cents per gallon, made in our own factory,

In 50-gallon barrels this excellent Seroco Ready Mixed Paint is offered at 85 cents per gallon. Remember, every gallon of Seroco Ready Mixed Paint is guaranteed to give satisfaction in wearing qualities and covering capacity. This means you are absolutely safe when purchasing a barrel of this paint. The money paid will be promptly refunded if for any reason you should think that the paint is not as represented.

Brushes to Use With Seroco Ready Mixed House Paint.

For inside wall painting, use No. 30F3084 or No. 30F3086 wall brush, any size, 3/4 or 4-inch recommended. For interior wood work use a round paint brush, No. 30F3076 or No. 30F3078, any size, 3- or 4-0 recommended. For windows use a sash tool, No. 30F3072 or No. 30F3074; sizes 4 to 8 are best adapted for this work.

For outside house painting the following brushes are required: Wall brush, round paint brush, two or three sash tools. No. 30F3084 or No. 30F3086 wall brush, sizes 3/4, 4 or 4 1/2 inches in width are recommended for the walls. No. 30F3076 or No. 30F3078 round paint brushes, sizes 3-0 to 5-0, for applying the trimming colors. No. 30F3072 or No. 30F3074 sash tools, one each, sizes 4 and 8, for general trimming and used where the round paint brush will be found too large.

Seroco Graphite-Creosote Paint.

For barns, roofs, iron work, etc. Some prefer a graphite paint for painting barns, roofs, etc.; for this reason, we have made a paint which consists of pure air-floated graphite, sufficient mineral to give it the proper color, creosote and linseed oil. While it makes an excellent barn paint, it is especially recommended for surfaces under water, such as posts and timbers to be put under ground.

READ WHAT A FEW OF OUR CUSTOMERS SAY ABOUT SEROCO READY MIXED PAINT. THOUSANDS WRITE THE SAME WAY.

THIS EXPERT PAINTER SAYS THE SPREADING QUALITIES ARE EXCELLENT.

Sears, Roebuck & Co., Chicago, Ill. Evanston, Ind.
Gentlemen:—Being a practical painter and having used your Seroco Ready Mixed Paint can say that its equal would be impossible to find. Its spreading qualities are excellent, almost doubling those of other paints. It is easily worked and finishes handsomely with less than one-half the labor of the ordinary paint on the market. Ordinary mixed paints are much dearer than your Seroco Ready Mixed Paint would be at \$1.75 per gallon. Yours truly, E. F. ELBRECHT.

Experienced Painter's Verdict.
Sears, Roebuck & Co., Chicago, Ill. Carlton Center, Mich.
Gentlemen:—I am very much pleased with your paint. The man that did my painting says it is the best ready mixed paint he ever used, and he is an experienced painter. It holds its color well and will not peel off as I have seen some other brands do. I think I saved 30 per cent in buying your paint of you. Yours truly, JOHN USBORNE, SR.

Iron Paint Paddle.

No. 30F2942 Many a poor job of painting can be traced direct to the paint pot, in that the paint was not properly stirred. This paint paddle will mix the paint thoroughly in less time than can be done with a wood paddle, furthermore, a wood paddle will float and be always in the way of the brush. Made of malleable iron, strong and durable.

Seroeco Weatherproof Mineral Barn, Roof and Fence Paint.

Seroeco Weatherproof Mineral Barn, Roof and Fence Paint, the most durable mineral paint, finely ground and thinned with linseed oil, the very best barn, roof and fence paint that we handle, is especially recommended for these purposes and for all purposes where the paint is especially exposed to the weather.

As a preservative this paint cannot be excelled, and we recommend it in every way for shingles, tin or iron roofs, structural iron work, barns, elevators and posts or timbers to be put under the ground. This mineral and weatherproof paint is acknowledged to be the best preserver of wood and the most durable. It is also water and rustproof, will stop leaks, prevent corrosion and is free from surface two coats. We know that Seroeco Weatherproof Mineral Barn, Roof and Fence Paint will cover more surface, last longer, will give better satisfaction and is altogether the most desirable and durable paint for these purposes ever manufactured, and considering the covering surface and wearing qualities, it is worth double the price of any ordinary roof, fence or barn paint.

While our Free Color Sample Booklet shows the six different colors of this special weatherproof mineral barn, roof and fence paint and will be sent to any address on application, we would advise you to send your order direct from the catalogue, stating which of the six colors you desire; we will send the paint to you, guaranteeing the color to please you and the paint to prove satisfactory, or you can return it to us at our expense and we will immediately refund your money. Put up in 1-gallon cans, 5-gallon buckets, one-half barrels containing 25 gallons and barrels containing 50 gallons. Made in six shades.

OUR GUARANTEE: We guarantee our Seroeco Weatherproof Mineral Barn, Roof and Fence Paint to wear for ten years if the directions are carefully followed. Our guarantee covers any and all defects due to the quality of the paint.

The Kind of Brushes to Use with Seroeco Barn, Roof and Fence Paint.

For painting roofs and the walls of barns, sheds, etc., use a No. 30F3084 or No. 30F3086 wall brush, 4 or 4 1/2 inches in width. For fences use the same brush but narrower, 3 or 3 1/2 inches in width, or No. 30F3076 or No. 30F3078 round paint brush, size 3-0. For trimming use a round paint brush, No. 30F3076 or No. 30F3078, size 3-0.

Pure Graphite Ready Mixed Paint.

This paint is made of absolutely pure graphite and pure boiled linseed oil. It is the purest that can be made. Used extensively for painting smokestacks, tin and iron roofs, and structural iron and wood work. Pure graphite paint is a dark slate color. The black listed below is the pure graphite paint, with the addition of lamp black. Be sure to mention name of color and catalogue number.

Saved 52 Cents a Gallon.

Bears, Roebuck & Co., Chicago, Ill. Boyden, Iowa.
Gentlemen—Seroeco Ready Mixed is as good a paint as I ever used, was well pleased with it. The same paint I would have to pay \$1.50 per gallon for here, I got you for 72 cents, so you see I have saved 52 cents per gallon. Yours truly, ALBERT DEAN.

Seroeco Shingle Stain and Preservative.

While our Mineral Paint is highly recommended for shingled roofs, still some prefer a shingle stain. These stains are the best manufactured, the shingles can be dipped in same or it may be applied with a brush. A shingled roof coated with these stains will last twice as long. When applied with a brush, one gallon will cover about 150 square feet of surface, one coat, or 100 square feet, two coats. When dipped, 2 1/2 to 3 gallons will cover 1,000 of the regulation 4x16 shingles. Two-thirds the length of the shingle only need be dipped. Be sure to mention name of color and catalogue number. Furnished in the following shades:

No. 30F1181 Moss Green No. 30F1185 Red
No. 30F1182 Dark Green No. 30F1186 Brown
No. 30F1183 Dark Slate No. 30F1187 Black

Apply above Seroeco Shingle Stain with a No. 30F3084 or No. 30F3086 wall brush, the largest size recommended.

Seroeco Buggy Paints.

Our buggy paints are ground in the best coach varnish. The colors are guaranteed not to fade. It is prepared especially for buggies and carriages, but can be used on chairs, settees, benches, or any article exposed to the weather. One coat makes a beautiful and durable finish. Ready for use and no varnish required. Do not fail to state name of color as well as catalogue number.

No. 30F1600 Yellow

No. 30F1670 Black

Apply Seroeco Buggy Paint with a varnish brush. We recommend No. 30F3028 or No. 30F3036 for fine work. A 2-inch brush is the best size.

Wagon Paint.

Wagon Paint, ground in pure linseed oil and the best coach varnish. It is the best wagon paint, extremely tough and will not crack. The colors are permanent and will not fade. One coat of Seroeco wagon paint, at a small expense, will preserve your wagon or implement and make it look like new. Dries hard with a high gloss. Apply with a No. 30F3028, 30F3034 or 30F3036 varnish brush 1, 2 or 2 1/2 inches in width. Be sure to mention name of color and catalogue number.

Liquid Weatherproof Canvas Coating.

No. 30F2117 The greatest waterproof preparation for cotton duck. A coat of this material applied on cotton duck or canvas of the lightest weight will make it absolutely waterproof. The canvas can be folded without the danger of cracking. It acts like rubber. Especially adapted for hay stack covers, tents, wagon covers, tarpaulins, awnings; in fact, it can be applied to anything made of canvas or cotton duck and make it absolutely waterproof. Five gallons will cover an ordinary hay stack cover.

Seroeco Aluminum Enamel or Silver Paint.

No. 30F2145 The brightest and most brilliant Aluminum Enamel made. The dry powder and liquid come separately in a neat, compact can and is mixed when ready to use. It is unlike the ready mixed article in that the finish is bright and smooth, almost like nickel plate. Old scratched picture frames can be reclaimed and made to look like new with one coat of this material. It produces a rich aluminum or silver finish on picture frames, room moulding, chairs, iron beds, tables, baskets, bicycles, statues, sewing machines, curtain poles and trimmings, baby carriages, trays, mail boxes, umbrella holders, chandeliers and gas fixtures, kitchen and bathroom fixtures, iron fences, water and gas pipes.

Seroeco Gloss Enamel. A High Gloss Interior Paint.

This enamel is intended for high grade interior decoration. It produces a beautiful luster on walls, plastered or wood, interior woodwork, doors and windows. This is the finest enamel on the market for any kind of interior painting and the best work can be done with it. Ready mixed paints, such as our Seroeco Ready Mixed House Paint, are highly recommended for interior painting but where an enamel finish is desired we, by all means, recommend this enamel. When ordering, please mention catalogue number as well as name of color. Apply with a varnish brush, No. 30F3036, size 2 1/2 or 3.

MUSICAL GOODS DEPARTMENT—PIANOS AND ORGANS.

OUR NEW AND REMARKABLE OFFER No. 1

SEND NO MONEY. Deposit nothing in advance. We will send the instrument of the bank with which you expect to deposit the money for the instrument, and we will make immediate shipment and notify you. We will send the instrument to you freight prepaid, so that it will not be necessary for you to send us a cent either for the price of the instrument or freight charges. When you are notified that the instrument has arrived in your town you can deposit the price, together with freight charges, with your banker and take the instrument to your home for a thorough trial and examination. You can have it in your home full 30 days from the date you receive it, during which time you can call in your friends or any musical expert that you may desire and make a thorough test of the instrument, and if you are not fully satisfied with it in every particular, and fully convinced that you have made a great saving in purchasing from us you can box the instrument up and return it to us, and the banker will refund you every cent you have deposited.

So well convinced are we that our pianos and organs are among the very finest manufactured and sold anywhere that we are now making our customers an astonishing, new and liberal offer. If you wish to try one of our pianos or organs and will send us your order, it will not be necessary for you to send us one cent or deposit any money in advance. Particulars of this remarkably liberal proposition are more fully stated below.

agree to anything or to obligate yourself in any way whatever: all we ask is your permission to show you the wonderful quality represented by the Beckwith Pianos and Organs; we only ask you to test one for 30 days in your own home, and at the end of 30 days, either buy it or send it back to us at our expense. Remember, that if for any reason whatever you should return the shipment, you need not wait one moment for the return of your money in full; because all during your trial term, your money is at your own bank waiting for you.

OUR OFFER No. 2. In spite of this astonishingly liberal offer, even though we do not ask our customers to send us any money with the order, yet almost everyone prefers to do this for three reasons: In the first place they realize that with our Five Million Dollars paid up capital, our enormous forty-acre plant, our buildings and our millions of dollars' worth of merchandise, we are as strong and safe as any bank, and our reputation for honest and square dealing, our established reputation for fulfilling every agreement and promise we make, is full protection to the customer who sends the money to us.

In the second place, our friends prefer that the purchase of a piano or organ should be a confidential matter between us; they do not care for the banker or anyone else to know what they pay for this high class instrument; hence, they send the money with the order, knowing that they are amply protected under our positive agreement to refund every dollar at once, if the instrument is not satisfactory at the end of 30 days trial.

In the third place, they prefer to send the money to us, not only for the two reasons given, but also because we agree to such cases to deposit the money to their account in our Customers' Profit Sharing Department, and agree to refund the money as explained on the copy of the certificate printed below with interest at the rate of 7 per cent per annum, in case the shipment should be returned at the end of 30 days at our expense, together with any freight charge or other cost to the customer. Our standing in the business world, our financial responsibility, our reputation for fair dealing, all invite your confidence, and if you prefer to send the money direct to us, we shall be glad to deposit the money for you in our Customers' Profit Sharing Department. If you prefer to take advantage of either plan, remember we hereby obligate ourselves to fulfill every agreement made, and to refund every dollar should you return the shipment as unsatisfactory at the end of 30 days trial.

OUR 25 YEARS BINDING GUARANTEE is really a bond of indemnity, and this we show on the opposite side of the page. This is the strongest and most binding bond ever issued covering a piano or organ, and we are glad to show you a copy in order to remove any doubt, should doubt exist, as to the high quality of these instruments. We could not afford to offer such a strong guarantee to our customers unless we positively knew the great value and the high quality of the Beckwith.

OUR 1-YEAR TRIAL OFFER. Not only do we allow you to try the instrument in your home for a full period of 30 days, giving it a thorough test, trial and examination, but we also allow you to return it to us at any time within one year should you not be perfectly satisfied with it in every particular. In such case we will return you every cent you have paid, together with charges for freight and cartage.

OUR SPECIAL PIANO CATALOGUE. We especially recommend that you select and purchase a piano from us as illustrated and described in this big catalogue, rather than to cause a delay by writing for our free Special Piano Catalogue, since we guarantee that any piano which you may order from these pages will reach you in perfect condition, prove in every way satisfactory, and that you will find it a much better piano than you can buy elsewhere at anything like the price we offer. We also guarantee that you will make a big saving in the cost, and if you do not find this to be so, you can return the piano to us any time within thirty days and we will immediately and cheerfully refund your money and pay the freight charges both ways. If, however, you are unable to make a selection from the illustrations and descriptions shown in this catalogue, and you feel that you would like to have better illustrations and more complete descriptions, then we will be glad to send you a copy of our Special Piano Catalogue. This catalogue will be sent to you, upon request, postage prepaid, and it will only be necessary for you to send us a postal card in order to obtain it. Simply say, "Please send me your Piano Catalogue," and it will be sent by return mail.

READ THIS LETTER.

The name "Beckwith" on a piano is an absolute guarantee of excellence. It stands for all that is represented in the word "quality." The Beckwith Piano represents the very highest attainment in the art of piano making. The Beckwith Piano is second to none regardless of name or make.

THEO. A. SALVO,
Practical
Piano and Organ Tuner and Repairer,
Formerly of Chickering's

Sears, Roebuck & Co.,
Chicago, Ill.

Gentlemen:—

I was called upon the other day to look at a piano that you sold to Mr. J. Triplett at Goshen, N. C. The piano needed tuning and after I tuned it I must say I never was more surprised in my life. How can you make and sell such a piano as that at that extremely low price? The mechanism and material are excellent and I know if all who wish to purchase pianos could only see a Beckwith there would be lots of them sold. I have been in the business 54 years and have worked at three of the largest high grade piano factories. My knowledge of pianos and piano construction prompts me to write this unsolicited letter of praise for the Beckwith which I have just examined the second time. Again I say I am surprised that you can sell such a piano at such a low price. As I am on the road all the time following my vocation, I can and will speak to all I find who are about to purchase a piano, and advise them to give the Beckwith the first trial.

Wishing you success in this branch of business, I remain

Very respectfully,
Theo. A. Salvo.

The Beckwith Organs secured the highest award at the recent St. Louis Louisiana Purchase Exposition, as explained on page 295. The Beckwith Organs represent "quality" of the highest degree. The Beckwith is the finest organ offered regardless of name or make.

HICKORY, N. C., Sept. 19, 1905.

THIS WONDERFUL PIANO BOOK IS **FREE**

If you do not order a piano from these pages, and from the descriptions and illustrations given herein, do not, under any circumstances, place your order elsewhere until you have written for and secured our beautiful special Piano Book, our big, **SPECIAL PIANO CATALOGUE**, as illustrated below. If you desire further information not contained in these pages, more complete description of any piano, just write us a letter or postal card, asking us to send our big, free Piano Book, and it will go to you immediately by return mail, all postage paid.

YOU CAN ORDER A PIANO from the following pages with absolute confidence and safety. Every instrument is exactly as illustrated and described. We take all the risk and responsibility ourselves in shipping a piano to you, and if you are in a hurry, do not hesitate to order from the following pages, because you will find every piano as it is described herein. Our entire line of pianos is thoroughly illustrated and described and our very lowest prices, and all our inducements, privileges and offers are shown in the pages of this big catalogue; but if you are not able to make a satisfactory selection, or if you wish further information on the construction of the superior Beckwith piano or if for any reason everything is not thoroughly clear to you, if you desire to learn more about the Beckwith Piano before placing an order, then do not fail to write and get this big free Piano Book.

WE STRONGLY SOLICIT YOUR ORDER for a piano direct from the following pages, under our personal guarantee that we will please you in the fullest degree or immediately return your money. You do not take any risk whatever in ordering now direct from these pages for you have every privilege we extend and are fully protected in every way; yet if more information is desired, do not fail, under any circumstances, to send for this big Piano Book, free, postpaid. This handsome Piano Book is the most comprehensive work of this kind that has ever been printed or offered. The most complete piano catalogue ever issued, giving more valuable information on pianos, better illustrations, more detailed descriptions than any other ever published. It contains large handsome halftone pictures of all the Beckwith pianos, shows pictures of every

piece and part, and explains why the Beckwith pianos are as fine as any in the world, why we can furnish a piano of the highest quality at prices never before attempted; tells why it is a mistaken idea to believe that a large price is a guarantee of quality, why it is that over one-half of the prices of high class fine pianos can be saved and how you can avoid this useless expense. This beautiful catalogue contains illustrations of our guarantees and certificates of deposit. All our offers are fully explained. It is the most interesting book ever issued. It shows actual illustrations in color of the San Domingo mahogany, French burled walnut and English quarter sawed oak veneers. It will tell you all that you can possibly know about the building of a good piano and will actually give you more information than you could secure from any other source.

REMEMBER when we solicit your order for a piano, whether from these pages or from home on trial, with the understanding that you are to test it for thirty days, and that you and your musical friends are to judge the piano. Even if you send the money with the order, to be deposited for you in our Customers' Profit Sharing Department, as most of our friends do, we do not consider the piano sold unless you accept it and agree to keep it after the thirty days trial and test.

YOU ARE PERFECTLY SAFE in sending your order from these pages, yet if you desire further information, more detailed description of the Beckwith piano, write us a postal card now, asking us to send you this big Piano Book and we will mail the handsome work, absolutely free, postpaid.

A SPLENDID MUSICAL EDUCATION FREE

A FULL COURSE OF MUSIC LESSONS ON THE PIANO, ORGAN, BANJO, MANDOLIN,
VIOLIN OR CORNET GIVEN FREE TO OUR CUSTOMERS.

THE MOST WONDERFUL OFFER EVER MADE.

THIS REMARKABLE OFFER MAKES IT POSSIBLE FOR ANYONE TO ACQUIRE A MUSICAL EDUCATION, AND BECOME A FINISHED PERFORMER UPON HIS FAVORITE INSTRUMENT, ABSOLUTELY FREE OF CHARGE.

OUR OFFER

WE ARE MAKING THE ABOVE OFFER TO ALL OF OUR CUSTOMERS WHO PURCHASE MUSICAL INSTRUMENTS FROM US.

IN order to make this wonderful offer, we have not found it necessary to raise the prices on our musical instruments whatever, but give away this course of instruction absolutely free to our customers. The fact that many of our customers live in communities where musical instruction is difficult to procure, has led us to make this remarkable offer. Each course, consisting of from 10 to 96 lessons, according to the instrument purchased, is given entirely by mail by one of the best and most widely known music colleges in the country. These courses of instruction by mail, possess several advantages over the usual method of personal instruction.

The Musical Education Which You Will Secure From This Course Will, Therefore, be Broad and Thorough, and Fit You Perfectly for Further Study in the Very Highest Branches of the Art.

THE pupil can suit his own convenience as to the time for taking his lesson, and can use his spare time only, if he desires, in securing his musical education. Another great advantage in this course is that the lessons are brought right to your home, and it is not necessary to wait on the convenience of a music teacher. The lessons are right on your instrument, waiting for you at any time when it will suit your convenience to attend to them. The courses which we offer you, place you in a position to take advantage of a large conservatory of music and the personal attention of a large corps of teachers, each one a specialist in his own line.

HOW TO TAKE ADVANTAGE OF OUR GREAT FREE MUSICAL INSTRUCTION OFFER.

TO EVERY PERSON WHO PURCHASES A BECKWITH PIANO OR ORGAN, OR ANY ONE OF THE GUITARS, BANJOS, VIOLINS, MANDOLINS OR CORNETS SHOWN IN OUR CATALOGUE, WE GIVE, ABSOLUTELY FREE, A CERTIFICATE WHICH ENTITLES THE HOLDER TO A FULL COURSE OF LESSONS ON THE INSTRUMENT.

To All Who Purchase One of Our Cottage Home Organs, Boudoir Pianos at \$79.45 or one of our Home Favorite Pianos at \$89.00, we will give a certificate which entitles the holder to a full course of **six months lessons.** With each of the other Beckwith Pianos or Organs shown in our catalogue, we give a certificate which entitles the holder to a full course of **96 weekly lessons,** covering a period of two years. The only cost to the purchaser will be for postage, stationery and music, which we guarantee will not exceed 13 cents per week.

To Each Person Who Purchases a Violin, Guitar, Banjo, Mandolin or Cornet quoted at \$3.00 or under, we send a certificate which entitles the holder to a course of instruction, consisting of 10 weekly lessons. The only cost to the purchaser will be for postage, stationery and music, which we guarantee not to exceed \$1.00 for the entire course.

To Each Person Who Purchases a Violin, Guitar, Banjo, Mandolin or Cornet at prices in excess of \$3.00, we will give a certificate which entitles the holder to a course of **50 weekly lessons,** covering a period of one year. The only cost to the purchaser will be for postage, stationery and music, which we guarantee not to exceed 13 cents per week.

We Wish to Call Your Attention to the fact that to all but our customers, the course of music which we are offering you free, would cost the regular terms, which are \$24.00 for each course of 48 lessons. Not only is the regular fee \$24.00, but the books and music used in the course ordinarily amount to over \$15.00. All of this we give you free when you purchase one of our instruments. Not only do we save you the amount you would otherwise have to pay for tuition in the school, but we save you a much greater amount which you would have to pay for the personal instruction of a teacher if you took lessons in the usual way.

EXPERIENCE HAS DEMONSTRATED THAT MUSIC TAUGHT BY MAIL PROVES MUCH MORE SUCCESSFUL THAN WHEN ACQUIRED UNDER PERSONAL TUITION.

Because the pupil, not having a teacher present to whom he can always refer, is taught to think for himself and often thinks out many points which he would otherwise find it much easier to refer to his teacher. Knowledge acquired in this way is always more thorough and lasting. Any point which may arise about which the pupil is in doubt and which he cannot figure out for himself can always be referred by letter to the professors at the college and they will gladly explain any point which may seem to be obscure. Do not get the idea that you can learn music as well from a book of instructions as you can from one of these courses, because that would be a great error.

Bear in Mind that the receipt by you of one of these certificates places you under no obligation whatever to take the course, or if you begin you are under no obligation to continue any longer than it suits your convenience to do so. We wish to give our endorsement unreservedly to this musical course, because a careful investigation on our part has shown that wherever the lessons have been received in good faith by the pupil and a conscientious and patient effort made, it has resulted in complete success. By taking one of these courses you acquire a musical education according to the best and latest method and are in no danger of acquiring false ideas and wrong methods which would have to be gotten rid of sooner or later. You have the assurance that everything taught and every point covered is correct and according to the recognized standard of musical teaching. Having acquired a musical education in this way you will not suffer the embarrassment experienced by some players who have really fine musical ability, but have learned by methods which bring a smile to the experienced and correctly taught musician.

The Lessons are Sent to You Weekly and you are required to master each one of the lessons before you are allowed to proceed farther. The professors at the college will know at any stage of the course just exactly what proficiency you have acquired and everything given in the lessons must be thoroughly mastered and fixed in your mind. In attempting to learn music from an instruction book the tendency is to slight many important points and carry on the study in a slipshod manner so that you finally find yourself in the middle of the book with many important things unlearned which it is necessary you should know before proceeding farther. You are then in the situation of a military commander who leaves an untaken fortress behind him and finds it necessary to return and capture the stronghold before proceeding farther on the march. Of course, no good soldier will ever do this, but the temptation to do so on the part of the student who studies from a book, is very strong. You are never allowed to do this when studying music through one of these courses, but each step must be taken and each important point acquired with the view to further proficiency.

HOW TO PROCURE THE COURSE.

IN ORDER TO TAKE ADVANTAGE OF THIS GREAT OFFER IT IS ONLY NECESSARY FOR YOU TO TAKE ADVANTAGE OF ANY OF THE WONDERFUL VALUES WHICH WE ARE OFFERING IN MUSICAL INSTRUMENTS.

We Desire to Protect Our Customers in Every Way and we could not afford to offer anything to them that would be apt to prove unsatisfactory from any standpoint. Therefore, before entering into any contract with the college we personally examined into its facilities and methods and found them to be excellent in every respect. We found the officers and professors to be men of great musical ability and attainments and high character. The history of the school has been one of untiring devotion to the interests of its students, and the unswerving desire to place itself at the very head of the musical colleges of the country. That the school has been successful in its efforts is fully proved by the numerous testimonials which it has received from successful and satisfied students. We thoroughly satisfied ourselves that the institution is fully capable of living up to every contract it may make and fulfilling every promise it may give.

If You are Thinking of Buying a Piano, Organ or Any Other Musical Instrument, YOU CANNOT AFFORD TO MISS THIS GREAT OPPORTUNITY to Purchase it at an EXTREMELY LOW PRICE, and at the Same Time Secure for Yourself a THOROUGH and COMPLETE MUSICAL EDUCATION.

The Fact That We Allow a Full Year's Trial on all of the pianos and organs which we sell, and from ten to twenty days trial upon all of our other instruments, will prove to you at once that we have not sacrificed quality in order to make low prices. It has been our policy to give the customer the benefit of every reduction we could secure in the cost of the instruments to us, as we only desire to make a uniformly small profit on all of the instruments which we sell. As we have been able lately to buy our musical goods to greater advantage on account of the immense contracts which we have been able to make, we are placed in a position where we can safely offer to our customers the advantage of a splendid musical education absolutely free. If there are any questions which our customers desire to ask that will not be found answered on this page, we will be glad to answer them at any time, as we are always glad to have our customers investigate any offer which we may make them.

THE BECKWITH PIANOS.

A STANDARD LINE OF HIGH GRADE INSTRUMENTS AT PRICES LOWER THAN EVER BEFORE.
A FEW POINTERS ON THE ESSENTIALS OF A HIGH GRADE PIANO.

DO NOT BE DECEIVED by the remarkably low prices at which we offer the Beckwith piano. It is a mistaken idea to measure the quality of an instrument by the amount that the manufacturer, dealer, or agent seeks to secure for it. It is not true that the more you pay for a piano, the more value you receive. The manufacturing cost of a really fine piano is not a large amount. If you are one of the few who still believe that it is necessary to pay a large price to secure a good piano, you would be doing the Beckwith an injustice to attempt to measure its quality by our low price. We would be glad to have you forget the small amount that we are willing to accept for this high grade instrument, and order one under our liberal thirty days' trial offer, with the understanding that you are to judge the instrument from the standpoint of quality alone. Remember that "fine feathers do not make fine birds," and a high price is not a guarantee of quality. It is the system under which most pianos are sold that increases the price, but not the quality. Prices above that which we ask for the Beckwith piano represents absolutely nothing of any value which is not found developed to the fullest degree in the Beckwith. In paying the larger price demanded by others, do not be deceived into the belief that you are securing a better quality, because this is not a fact; you are only paying the larger profits, commissions and expenses of jobbers, dealers, agents and others through whose hands the piano passes on its journey to you. Or half or more of the prices of pianos sold in the ordinary manner represent nothing but useless expense, profits and commissions, which can be avoided and are saved to you under our "from factory to customer" direct plan. When we place a price that we are willing to receive upon the Beckwith piano, we are asking only the bare factory cost for the high grade material and skilled workmanship entering into its construction, to which we add the same narrow margin of profit which we reserve for ourselves and are willing to accept on the sale of any ordinary merchandise. Under this plan you pay only what any high grade standard, fine, artistic and widely advertised piano is honestly worth; no more and no less. The greatest favor you can do us is to secure any one of the pianos illustrated in this catalogue on trial under our liberal terms of shipment and place it beside any other make sold at double our prices, in your own home for an actual test for quality for thirty days at the hands of yourself and any unprejudiced, disinterested person. If you will do this you will be convinced of the superiority of the Beckwith, and the fact that the ordinary price charged for a high grade piano is altogether too high, and represents a great deal more than the honest cost to make it, with one margin of profit added.

THE SCALE. In the making of a piano the drawing of a scale is one of the most important points to be considered, as it is the foundation or fundamental principle on which the construction of the piano depends. A scale may be perfect upon its first drawing, or it may be redrawn innumerable times and still be a failure. A great many piano manufacturers have redrawn the scale of their pianos, have experimented with it during the entire period of their business lives, and then have not succeeded in securing satisfactory results or a perfect scale. The scale of the piano is the correct mathematical division of each tone and semi-tone; or in other words, of each note on the entire keyboard of the piano. It can be likened to any mechanical drawing. It is a plan to be followed by piano makers in laying out the strings of the piano; it determines the proper length of each string, the exact position it must occupy across the sounding board, how far apart on each string the bridges must be set so as to secure the balance of power and uniformity of vibration which must be properly distributed throughout the whole piano. A good scale is beyond value or price. Without a good scale there is no evenness of tone, and the instrument would lack that indefinable something in the tone which not only appeals to the musical ear, but appeals also to the finer sensibilities of the hearer. Another important feature in a true scale, such as the Beckwith's, is the proper location of the striking line, or that point on the string which the hammer must strike so as to secure the proper tonal quality. In the ordinary piano, this is something that is wholly neglected, and the consequence is a coarse, raw, unrefined and unsympathetic tone which really repels and does not attract. In the artistic piano, in the piano of a higher grade, and better kind and quality, the striking line is of the first consideration and one of the first requisites. Scientific research carried on by the best piano makers in the early history of piano building and years of subsequent experience, demonstrates that by striking the string practically upon a nodal point produces the best quality of tone; the most desirable quality, the pure piano tone, is best brought out by striking the string at a point at about one-eighth of its entire length below the upper bridge. This point is exactly between two nodes, or upon a nodal point. The string vibrates in waves. These waves or curves are called nodes. If the hammer strikes on one of these waves, it will bring out a light, peculiar tone; or what is called a harmonic tone. Strange as it may seem, there is really more than one tone in a string, and unless care is used in determining the striking line more than the fundamental tone will be heard. The lighter qualities of a piano string are known as "upper partials," whereas the required tone, the true tone, is known as a "fundamental" tone. The surface of the hammer dampens or kills the "upper partials," allowing the fundamental tone to sing out in all its purity. The point of contact of the hammer on the string determines the tone quality, and experience and mathematical precision has determined in the Beckwith the one only true point of contact, and this desirable quality is found in every Beckwith piano. The scale of the Beckwith is as close to perfection as human knowledge, experience and ingenuity can make it.

THE PIANO ACTION. This is a term applied to the mechanical part of the piano, that part through the medium of which the tone is produced. From a strictly mechanical standpoint, it is that portion of the piano which conveys the motion of the keys to the hammer and thus to the strings, producing the tone. The action contains many small levers, many separate pieces of felt, etc. The levers and centers of the action must be adjusted so perfectly that they respond with the same prompt elasticity to the most delicate as well as to the most powerful touch. In a fine action, such as is in the Beckwith piano, the material used in the construction of these parts is of a very fine quality and selected with the utmost care. The stock going to make an action is composed of many different kinds of wood and several kinds of felt and metal as well. That quality known as a "repeating" quality in an action is most necessary to fine execution. When a key is struck it acts on a series of levers which communicate to the hammer, throwing it forcibly against the string. For the action to respond properly, it is necessary that the lever adjustment be perfect and that the action be properly adjusted to the keys. It must be well balanced and finely and delicately adjusted. Each and every point covered above is found in the Beckwith piano. This piano is noted for the repeating qualities of the action and for the tone produced at each stroke of the key, no matter how often the stroke is repeated. The hammers are a very important part of the action and they must be made in such a manner that they are perfectly balanced and that they respond instantly to every demand. The Beckwith piano hammer is made of genuine 14-pound felt of the very highest quality. Each hammer head is constructed of two layers of felt, the inner felt being hard so as to give a solidity to the hammer, and the outer felt being of a softer fibre, gives elasticity to the stroke and hence a fine quality to the tone. Each bearing in the action is bushed throughout with felt, and there is not one single point of contact in the entire action that is not felted, so as to prevent rattling and looseness of motion. The actions in the Beckwith are all equipped with a continuous brass flange.

Remember also you get a Profit Sharing Certificate if you order a piano, as fully explained on pages 1 and 2 of this book.

There are many fine points in the construction of a piano about which the purchaser knows nothing. One of these points is the quality of the felt which enters into the instrument. This has a great deal to do with the quality of the instrument. Many cheap pianos are made without a particle of genuine piano felt entering into their construction. Some of these instruments sound very well for a time, but the tones soon become lifeless and unresponsive. The action of a piano felted in this way will rattle after being used for a time and the keys will refuse to work with that responsiveness so much desired and the piano will be altogether a disappointment. There is no remedy for this and it is simply a bad bargain. This can never happen to a Beckwith piano, as they are all thoroughly inspected before leaving the factory and are guaranteed in every way. The felts used in all of the Beckwith pianos are the finest quality of strictly high grade, all wool piano felts.

THE METAL FRAME is another important part of the piano. This frame must be so constructed as to give the least weight with the greatest amount of strength. As there is a strain of from 19 to 20 tons on the metal frame of the concert piano, tuned to international pitch, it is necessary that this frame should be constructed in the strongest possible manner so as to prevent its twisting or "buckling." It is on this frame that the strings are placed and it is securely bolted to the back and pin block in which the tuning pins are set. The scale of the piano must be of fine quality in order to produce a good tone. The scale of the Beckwith piano has a three-string union in the treble and two-string union in the overstrung bass. By "three-string union" we mean three strings for every note. The bass strings are carefully wound, and all but a few of the lowest ones, which are single, are known as a two-string union.

THE SOUNDING BOARD of the piano mellows and increases the tone of the strings and must be made of wood which is absolutely perfect and thoroughly seasoned. The sounding board in the Beckwith pianos is made of the choicest selected Canadian spruce and ribbed with braces of the same material, which insures it against warping or splitting.

THE KEY of the piano is a lever used to put the action in motion, throwing the hammer against the string and producing the tone. In order to have these keys balance perfectly they are weighted with small lead weights, inserted into the key shank back of the pivot, allowing the key, when released, to rise instantly into its former position. This requires the very nicest adjustment and is one of the most famous characteristics of the Beckwith pianos. The white keys are faced with ivory, the black keys are made of genuine ebony.

THE CASES of the Beckwith pianos are perfect in every respect and it is a fact not generally known that it takes about three months to put the finish on a good piano case. Each case is given from seven coats of varnish upward and each coat of varnish has to set from eight to ten days in order to become thoroughly dry before the next coat can be applied. These different processes, when perfectly performed, will consume from 70 to 90 days. These are points which are never slighted in the cases of the Beckwith pianos. Upon the thoroughness of this process depends the extremely high class finish for which the Beckwith piano cases are noted. In building the Beckwith piano cases the manufacturers use nothing but the best grade of richly figured sawed veneers. The case work on all these (with the exception of the Home Favorite) are double veneered inside and outside so as to provide against cracking or splitting. Anyone who is familiar with veneers and veneer work can tell by looking at the edge of either the music desk or the lower panel whether or not the piano is double veneered. If you cannot see the two layers of veneer you can rest assured that they are not there.

BUYING A PIANO.

WHEN YOU ARE READY TO PURCHASE your piano you are not only to purchase a fine instrument but also to buy it from a concern which is willing to stand behind its instruments at all times. Many concerns are ready and willing to issue a guarantee with the instruments which they sell, but in nine cases out of ten the concern issuing the guarantee has not the necessary financial standing to make the guarantee of any value. It is one thing to sell a piano at a low price and quite another to guarantee it at all times. Our low prices and our guarantee go hand in hand. Our guarantee protects you against any defect which may appear in our pianos, the result of defective material or workmanship. When a local agent places a piano in your home it looks fine and the tone appears to be excellent. So far as you can see, it is a high grade piano in every way, but when the agent goes away, then the real test begins; will it be as good tomorrow, next month, and next year as it is today, and will the guarantee that the agent gives you protect you in any way? Should the instrument prove defective in any particular whom will you hold responsible and to whom will you appeal for redress? As the piano is an instrument purchased but once in a lifetime, it is certainly to your interest to use great care in selecting your piano, and as there are many points of superiority for which you have to take the word of the salesman, how necessary it is for you to purchase your piano from a house which has a standing in the business world, which has a reputation for fulfilling its promises and guarantees.

WHEN WE TELL OUR CUSTOMERS that we can save them over \$200.00 on the purchase of a fine high grade piano, many of them cannot understand how this is done. People have been paying \$400.00 to \$500.00 for pianos for such a long time that they have grown to believe that it is necessary to pay that price in order to secure a good instrument. Some, before studying the matter fully, may doubt that we can sell them a strictly high grade piano, up to the musical standard in every way, with a splendid tone and beautiful finish for \$195.00. Very few people know that the ordinary piano costs, to manufacture, less than one-half the price which the dealer asks the customer for it. They do not realize that the expenses of sale and the profits which the different dealers make through whose hands the instrument passes, make up more than one-half of the retail price of the instrument. These profits and selling expenses do not add anything at all to the quality of the piano after it leaves the factory. This being true, the customer can easily understand that if we ship our pianos from the factory direct, simply adding our one small percentage of profit to the manufacturing cost we can sell the piano for less than one-half the price which the local dealer and agent charges for identically the same grade. The dealers through whose hands the piano must pass before it reaches the customer cannot afford to handle it for nothing and a profit of \$50.00 for the jobber, \$50.00 for the district agent and \$100.00 for the local dealer is not considered generally, a large profit to make on a single transaction; especially in view of the fact that a piano is a luxury and that the agent or dealer sells comparatively few of them. Whether he sells one or none, his expenses go on just the same and he is compelled to make a large profit on every sale to enable him to do business profitably.

BUT NOT ONLY DO WE MAKE A GREAT SAVING for our customers by cutting out the intermediate dealers' profits and expenses, but we are also able to make a great reduction in price on account of the immense buying advantage which we possess. We make contracts for thousands of pianos at one time on a spot cash basis and this places the manufacturer in a position to buy his material at the very lowest possible figure, and all of these advantages

go to the customer in low prices. Do not be afraid of the low prices which we make on our pianos. Remember, that we are taking all the chances ourselves and do not ask you to take any risk whatever. As you have to take the dealer's word for a great many qualities of the piano, why not purchase from a concern which cannot afford to sell a poor piano or ask their customers to be satisfied with an instrument which is not up to the standard in every way? That we are not exaggerating when we tell you that we can save you \$250.00 on the purchase of a Concert Grand Piano is fully proved by the testimonials which you will find on lower part of this page. We do not ask you to take our word for anything we say in favor of the Beckwith, and when we ship you a piano we do not ask you to promise anything or assume any obligations whatever, but we do ask you to believe the statements of your friends and neighbors as found in these voluntary testimonials.

BUYING FROM THE DEALER.

REMEMBER that where a dealer buys four or five pianos on consignment, or where he pays for them by turning in the notes at a very large discount received on other pianos sold on time, we contract for from two to three thousand pianos on a spot cash basis, therefore, at the lowest possible cost, making a great saving, all of which goes to you in the lower prices quoted.

WHEN A DEALER OFFERS YOU A PIANO, when he offers to at low prices, you must bear in mind that any low prices he can name does not represent the legitimate value of the instrument; it does not represent the honest factory cost with but one margin of profit added. When he offers you a piano he is not only offering you a handsome case and perhaps all that goes to make up a good piano, but he is offering you something more which, however, you cannot see, and which adds absolutely nothing to its value; he is compelled, by the very nature of things, to charge you the large profit the manufacturer made in selling the piano to the jobber, also the jobber's legitimate profit when he sells the piano to the agent. The agent must live and has expenses to meet. He cannot do business for nothing and must charge a large profit to cover his expenses, owing to the limited number of pianos he sells. The agent, in order to do business profitably, must secure what to him and to other agents and dealers may appear a legitimate profit, but it is many, many times more than the amount that we are perfectly willing to accept as our small margin of profit above the honest factory cost to make any fine piano. The dealer is under a disadvantage because his customers are few and far between, because his trade is confined, perhaps, to a village or a township or at the most, to a county. We sell pianos over the entire country, from Maine to California and from the Great Lakes to the Gulf. We enjoy an enormous purchasing power, and while we could very easily secure a great deal more for the superb Beckwith than we do, yet our policy is to reserve for ourselves always our one small margin of profit, and to give every dollar we can save to our customers, in the lower prices quoted.

STOP AND THINK how many pianos an agent will sell each year; consider the amount of store rent he must pay; consider how much he loses on bad debts when he sells on the installment plan;

The Profit Sharing Certificate we will send you on your purchase of a Piano will help you get valuable merchandise entirely free of charge.

See pages 1 and 2 in this book for full explanation.

WHAT OUR FRIENDS SAY ABOUT THE MAGNIFICENT VALUES WHICH WE ARE GIVING IN PIANOS.

Voluntary Testimonials From Just a Few of Those Who Have Purchased Pianos From Us in the Last Year.

What Our Customers Say About Our Pianos is the Best Evidence of Their Splendid Finish and Magnificent Tone.

AN EXPERIENCED TEACHER IS PLEASED WITH THE BECKWITH.

The following testimonial is from Prof. J. Dempster Towne of Grand Rapids, Mich. Prof. Towne is known all over Michigan as a splendid teacher of the piano and a brilliant performer on that instrument. A word of commendation from him is doubly valuable, because he is an expert pianist, understands the mechanical construction of the instrument thoroughly and renders his judgment only after careful examination and due consideration.

Sears, Roebuck & Co., Chicago, Ill. Grand Rapids, Mich.
Gentlemen:—The Beckwith Cabinet Grand Piano which I recently bought of you is a much better piano than I expected to get for that money. This piano is fully equal, and in some respects superior to a great many pianos ordinarily sold for \$300.00, and I have seen many pianos sold for \$350.00 and \$400.00 that were no better. During my long experience as a teacher of the piano, a great variety of pianos, of various makers and styles, have come under my observation, but I never before heard of good serviceable pianos, brand new, being sold at retail for such low prices. I have no hesitation in recommending anybody who wishes a strongly made, durable, and good looking family piano, to buy of you. I have for several years been sending to you for various articles, and have always found you willing and able to do the fair thing. In fact, I never dealt with a more reasonable, honorable or courteous house.
Very truly yours,
J. DEMPSTER TOWNE,
8 George Street.

AS GOOD AS HIS NEIGHBOR'S PIANO WHICH COST \$450.00.

The customer whose testimonial appears below, took advantage of our great 30 Days Free Trial Offer, which gave him a splendid opportunity to compare his piano with the \$450.00 instrument owned by his neighbor, and by reading the testimonial you will see that he found his piano in every way equal to the one purchased by his neighbor at \$450.00.

Sears, Roebuck & Co., Chicago, Ill. Sterling, Nebraska.
Dear Sirs:—The Beckwith piano I received of you in January has given good satisfaction so far. We are well pleased with the same. We cannot see but what it is as good as our neighbor's, that cost \$450.00. We are well pleased with the mandolin attachment. My neighbor's has no attachments. C. B. SMITH.
EQUAL TO PIANOS SOLD BY DEALERS AT \$350.00 AND BETTER TONED.

Below we give another testimonial from a customer who says that the piano we shipped him is equal to pianos sold by dealers at \$350.00 and is much better in tone. Bear in mind, that the customer writes this letter entirely of his own accord and without any dictation from us in any respect. We would be glad to have you write to the writer of any one of these testimonials and get his opinion of the merits of our instruments.

Sears, Roebuck & Co., Chicago, Ill. Three Rivers, Mich.
Dear Sirs:—I received the piano April 6th, all O. K. In appearance it is equal to a \$350.00 Wellington, sold by a dealer here and better toned.
Yours respectfully,
G. W. BARTO.

WOULD NOT PART WITH IT FOR ANY \$300.00 PIANO IN TOWN.
It is the universal verdict of our customers, as gleaned from the numerous voluntary letters which we receive, that they would not exchange the pianos which we have sold them for other pianos in the neighborhood which have cost much more in price.

Sears, Roebuck & Co., Chicago, Ill. St. Cloud, Minn.
Dear Sirs:—We received our piano and must say that we are more than pleased with it. I would not part with it for any \$300.00 piano in town. In fact, we are well pleased with all our goods. I wish to thank you very much. I'll advise everybody to get their goods from Sears, Roebuck & Co.
Yours very truly,
MISS M. STUCKE.

what his losses must be in taking various articles in exchange as part payment; figure what his honest living expenses are; the expenses of his family and the expenses of his salesmen, and bearing in mind his sales during the year, you can easily determine how much he must make on each piano he sells in order to meet these various expenses, without even allowing one dollar to be laid away for a rainy day.

WHEN A DEALER ASKS YOU MORE THAN \$195.00 FOR

A PIANO he is simply asking you to pay him, not only the large profit also the profits and selling expenses of other men through whose hands the piano passes before it comes to him. Perhaps a dealer or agent will come to you, as they have to a number of our customers and offer to sell a piano at from \$165.00 to \$250.00, claiming that they are equal to the Beckwith, but in every single case upon comparison such a piano offered by dealers at that price is found to be no better than the cheaper pianos we sell at \$89.00 and \$115.00; this has been proved time and again, and it merely upholds our claim that the ordinary piano sold in the ordinary way is sold at over twice its actual value.

A WORD ABOUT FREIGHT CHARGES.

REMEMBER that the freight charges on a piano are exactly the same, whether they are paid by the customer or by the dealer or agent. We guarantee that these charges will be nothing as compared to your large saving on the purchase of a Beckwith piano. Your regular dealer or agent must pay the same freight charge on any instrument he offers to you, and whether you pay this freight charge yourself on a piano purchased under our "from factory to consumer direct" plan at factory cost, with one margin of profit added, or whether you pay it to the agent or dealer in paying his prices, you pay it just the same. This freight charge must be borne by you, whether in the form of freight charge itself, or the larger prices demanded. By comparing our prices on pianos with those asked by your local dealers, and then comparing the freight charges which you will have to pay with the amount which we can save you on your purchase, you will see at once that the freight charge is but a very small amount in comparison with the amount you can save on a piano. Another advantage is, that in purchasing a piano from us you know exactly what the instrument costs you at the factory, and you know exactly what you pay in freight charges; while on the other hand, in purchasing from the local dealer, you know what the piano costs you, but do not know how much of it is his profit and how much the freight charge. The railroad companies are very reasonable in freight charges, and when you consider the fact that you have to pay the freight charges whether you buy from us or from the local dealer, we believe that you should not hesitate in giving us an opportunity to send you one of our splendid instruments under our great Thirty Days Free Trial Offer. Do not let the small amount of freight charges prove any obstacle to your purchasing one of these pianos, as we ship each one under our express promise to save you at least one-half, according to the grade of piano which you purchase.

Piano will help you get valuable merchandise entirely free of charge.

See pages 1 and 2 in this book for full explanation.

THE BUYER DOES NOT TAKE ANY CHANCES IN ORDERING A BECKWITH.

Mr. Ebel, the writer of this letter had a good many doubts as to our ability to live up to the representations made in our catalogue. We receive many letters every day from people who say that they would like to order pianos from us, but doubt our ability to furnish a good piano at the prices charged. Where we can prevail upon these people to let us send them a piano on trial we never have any difficulty in convincing them that the instrument is everything that we claim for it, and in many cases such customers say that we do not make our claims strong enough. Mr. Ebel was prejudiced against our instruments, but he is honest and frank enough to say that the instrument cannot be duplicated for less than \$400.00.

Sears, Roebuck & Co., Chicago, Ill. Moscow, Idaho.
Gentlemen:—I must say that I am surprised at the beauty of the wood, workmanship, finish and tone of the Beckwith piano I received. The tone is deep and full and the action is very responsive. I was skeptical of your ability to furnish a high grade piano at the prices you name. I went through every part of the instrument and, not wanting to rely entirely on my own judgment, I had the Rev. Father Keyser call, and both of us went through the piano very carefully. I can say, as this is my third piano, and I was examining and trying most every piano around here for sale, that this instrument cannot be duplicated for less than \$400.00. The buyer does not take any chances in placing an order with you. With best wishes, I am,
Very truly yours,
CHAS. F. EBEL.

EQUAL TO A KNABE AT \$600.00.

We give below a testimonial from one of our enthusiastic customers, who is a business man in Columbus, Ohio, and not given to exaggeration in any way. We desire to call the attention of our customers to the difference in the two prices which the dealers made on the Knabe piano, \$495.00 for cash and \$600.00 on payments, being a difference of \$105.00, which proves our assertion that dealers who sell instruments upon the installment plan must necessarily have their prices much higher than those who sell for cash. We do not know that we can add anything to this testimonial as it is complete in every respect. It is simply one of many which we receive from time to time.

Sears, Roebuck & Co., Chicago, Ill. Columbus, Ohio.
Dear Sirs:—I have already written you how well I like the Acme Cabinet Grand Piano, recently bought from you, but I would like again to state that according to my opinion the case is made and finished in the highest type of art. The tone is excellent and exquisite. I do not believe that I could have secured a better piano, no matter how much I paid or what I bought. That was my opinion the first day I received it, and it is still my opinion. In fact, the better I know the piano the better I like it. I would also add that the gentleman who selected the piano for me surely thoroughly understands pianos and piano construction. I do not believe that anyone else could have selected a piano for me that would suit me any better, and I thank him sincerely for the trouble to which he has gone. Miss Rose Lange, a young lady who is a fine pianist, has tried our piano very thoroughly. Last evening she told me that she liked my piano every bit as well as her own. She has a Knabe, which sells here for about \$600.00 on payments, and for which she paid \$495.00 spot cash. She says the case of my piano is much finer and more artistic than hers and that the action is easier and more responsive and the tone every bit as good as in her own piano. If you wish a recommendation at any time, refer anyone to me, I will gladly tell them how much money they can save in buying a piano from you and how honorably you have treated me and of your very liberal terms of shipment. I will certainly recommend anyone to get one of your pianos and thoroughly try it, knowing that you can suit them so well and save them so much money.
Respectfully yours,
HENRY W. MUELLER,
662 Briggs St.

\$79⁴⁵

No. 46F3

OWING TO LACK OF SPACE, WE ARE UNABLE TO SHOW ANY ILLUSTRATION OF THIS PIANO.

OUR BECKWITH BOUDOIR 6-OCTAVE PIANO

Particularly suitable for small houses, summer cottages and other places where a large piano is not desirable. The tone is full and sweet, of a very pleasing quality and all that could be desired or expected in a piano of this size.

\$79.45 REPRESENTS THE BARE COST TO MANUFACTURE THE INSTRUMENT, with our usual small margin of profit added. It is the finest and most satisfactory small piano ever offered. It is built upon what is known as the F scale, beginning with the lower F and ending on the high F. Remember that the keyboard only contains 6 octaves. The keyboard is, therefore, one and one-third octaves shorter than the keyboard of all other Beckwith pianos. The compass is the same as in all other 6-octave pianos and is quite practical. We recommend it as the best 6-octave piano ever attempted.

THE CASE is double veneered in genuine mahogany, with a beautiful panel effect in the upper and lower front. The trusses are square; in keeping with the balance of the case. All plasters, trusses and mouldings are solid wood, highly polished. The piano is furnished in mahogany veneer only.

THE ACTION, 6-octave, is of a very fine grade, responsive and repeats very nicely. The material and workmanship are of the best. **THE SCALE** is not overstrung. This piano has a straight stringing; in other words, it is strung straight up and down like a harp, and is not overstrung as is our Home Favorite Piano. There is not room enough in any 6-octave piano for the usual Beckwith overstringing. **THE PIN BLOCK** is built up in an approved manner, and cannot warp, crack or split. This construction holds the pin firmly. **THE SOUNDING BOARD** is very finely constructed of Canadian spruce pine, scientifically ribbed. **THE KEYS** are of highly polished ivory and ebony, and not celluloid. **THE PEDAL ACTION** is complete, having a loud and soft pedal and a practice pedal as well. This piano is not furnished with the mandolin attachment.

The price includes a handsome solid wood stool and complete instruction book.

THIS PIANO, THE BECKWITH BOUDOIR, in 6 octaves, is offered under our great 30 days free trial plan, as explained on page 283. All money refunded in full, together with the freight charges both ways, if you are not entirely satisfied. We guarantee this piano for five years only. Owing to its size and the peculiar manner of construction in all 6-octave pianos, we could not well afford to guarantee it for a longer period. If you contemplate the purchase of a 6-octave piano, you will find this the finest, the best, the most serviceable and attractive 6-octave piano ever offered.

YOUR PARTICULAR ATTENTION IS INVITED

to the fact that this instrument is not a full size, upright piano. It is only 48 inches high, 4 feet long and 20 inches wide. It has not the usual 7½ octaves. It has 6 octaves only. The tone, however, and the volume of tone is all that you could possibly expect in a piano of this size. Remember, this is a Beckwith piano, and as such is sent out under our binding guarantee for quality and under the provisions of our great 30-day free trial offer.

With every purchase of this piano, we give, free, a scholarship certificate in one of the largest music schools in the United States, which entitles the holder to a course of fifty complete lessons on the piano, as fully explained on page 285.

\$89⁰⁰

THE BECKWITH HOME FAVORITE PIANO

A Regular 7½ Octave Piano, With Overstrung Scale. A Full Size Parlor Piano, 4 Feet 6 Inches High, 5 Feet 1 Inch Long, and 2 Feet 2 Inches Deep. Weight, Boxed for Shipment, 750 Pounds.

A GUARANTEED PIANO, FULL PARLOR SIZE, FOR \$89.00.

THE PRICE INCLUDES THE PIANO, a handsome solid wood stool and complete instruction book. To every purchaser of this piano we give, free, a scholarship certificate in one of the largest music schools in the United States, which entitles the holder to a six months course of instruction on the piano, as explained on page 285.

FULL DESCRIPTION.

Our HOME FAVORITE PIANO is a full size instrument, very substantially built, and is a most remarkable value at the price named.

THE CASE is of a handsome design, as the illustration, taken direct from the photograph, will show. The panel in the front of the music desk is ornamented with a handsome scroll and extends the full length of the piano. It is finished in either mahogany or walnut finish, but is not veneered, therefore we can only guarantee it for five years. This piano is fitted with the latest style of rolling fall board.

THE SCALE is a regular full 7½ overstrung scale, the same as will be found in any piano offered by others at \$200.00. It is not harp strung as is our Boudoir Piano, above described, but is overstrung in the regular manner, thus giving the greatest possible length to the string.

THE PIN BLOCK is built up of several pieces of rock maple, which holds the tuning pin firmly.

THE STRINGS are of a very fine quality, thoroughly tested, and the piano is fitted with overstrung, wound bass strings.

THE KEYS are genuine ivory and ebony, very finely polished.

THE SOUNDING BOARD is made of selected Canadian spruce, scientifically braced.

THE METAL FRAME is as strong as it is possible to have in a piano of this size, and is large enough to withstand the strain in this piano when it is tuned to pitch.

THE TONE is very full, sweet and melodious and of ample power for all ordinary requirements.

THE SIZE. Height, 4 feet 6 inches; length, 5 feet 1 inch; depth, 2 feet 2 inches. Weight, boxed for shipment, 750 pounds.

WITH THIS PIANO we will include, charge, either the mandolin attachment or the practice pedal, which is fully described on page 289. It will be necessary for you to advise us which attachment you desire, but we advise you to order the practice pedal. The price includes a substantial stool and complete instruction book.

REMEMBER, that this piano has full 7½ octaves, overstrung scale, ivory and ebony keys, and is the most marvelous value ever offered at this price. Owing to the size of the piano, however, the strings are not so long nor as heavy, the action is not so strong or as large as in our better grades, the case is not double veneered but is only finished, hence, we are compelled to guarantee this piano for five years only.

No. 46F1 Our Home Favorite Beckwith Piano, Price, \$89.00.

YOU SHARE IN THE PROFITS OF OUR BUSINESS IF YOU PURCHASE EITHER OF THESE PIANOS, AS EXPLAINED ON PAGES 1 AND 2 OF THIS CATALOGUE. SOLD UNDER OUR LIBERAL 30 DAYS FREE TRIAL OFFER, AS EXPLAINED ON PAGE 283.

\$115.00

THE BECKWITH PALACE GRAND PIANO.

A VERY HANDSOME PIANO WITH A FINE TONE.

MADE OF SELECTED MATERIAL AND SOLD TO YOU AT \$115.00, which represents only the bare cost at added, the equal of any piano sold through other channels for \$250.00, and offered to you for a 30 days trial in your own home under our great "send no money with order" plan. Sold under our guarantee for quality, running 25 years.

PIN BLOCK is built up of rock maple and holds pin firmly, thus preventing it from turning.
METAL FRAME is the same as used in all Beckwith pianos, but is not quite so large as in those instruments sold at a higher price, but it is just as scientifically cast.

SOUNDING BOARD is the genuine Beckwith sounding board, made of Canadian spruce of the best quality, specially prepared for this purpose, and it is ribbed in the most approved manner, which is a guarantee that the sounding board will never crack, split or warp.

FINISH. This piano can be furnished in either English quarter sawed oak, French burled walnut or richly figured mahogany veneer, very highly polished and hand rubbed. When ordering please state the veneer desired.

SIZE, 4 feet 7 inches high, 2 feet 3 inches deep, 5 feet 1 inch long. Weight, boxed for shipment, 780 pounds.

THE PRICE INCLUDES a handsome stool with adjustable seat, a velour scarf, complete instruction book, and a certificate, which entitles you to ninety-six weekly lessons on the piano, covering a period of two years, as thoroughly explained on page 285. **A Profit Sharing Certificate, as explained on pages 1 and 2, will be yours if you purchase this piano.**

REMEMBER, that in ordering a piano from us you do not obligate yourself in the least. We take all the risk. In shipping a piano to you we are only placing it in your parlor for examination, so you can see it and test it and know the wonderful value we are offering. We are only showing it to you so you can make up your mind whether to buy it or not. You will probably only buy one piano in a lifetime and we feel that as our prices are so remarkably low, as we can furnish you a high grade Concert Piano for less than others charge for a cheap piano of low grade, you ought to invest all that you can possibly spare. You ought to purchase, if you possibly can, our Special Concert Grand Piano at \$195.00 as we guarantee it is a regular \$450.00 piano of high quality.

CASE is double veneered inside and outside, with cross banded, sawed veneer, and fitted with very handsome one-leg trusses, finished and polished in a beautiful manner. All mouldings, pilasters and trusses are of solid wood; a continuous music desk with handsomely raised panel in an artistic design; latest style of Boston rolling fall board. The hinges, pedals, pedal guards and metal parts are heavily nickel plated.

SCALE, full 7 1/4 octaves, overstrung. Three-string unison in treble and two-strings, string unison in bass register. Best quality Poehmann piano wire strings. Keys of the best ivory with ebony sharps.

ACTION, very responsive, and adjusted in a most thorough manner, so that it responds to every call made upon it. All wool piano felt in the hammers and all bearings in the action properly bushed.

TOPE is a full, rich Beckwith tone in all its beauty, but owing to the size of the instrument, the tone is not so full as in our Artists' Cabinet Grand Piano, but it is full and rich enough for all ordinary requirements.

No. 46F7 The Beckwith Palace Grand Piano. Price.....\$115.00

THE MANDOLIN ATTACHMENT AND THE MUFFLER OR PRACTICE PEDAL.

We furnish with all our pianos, without any extra charge, a mandolin attachment which is the best and most practical device yet invented for imitating the tones of the harp or mandolin. While this is unquestionably the best device of its character yet offered to the public, we do not advise our customers to order it in connection with their instruments. We find it necessary to furnish this mandolin attachment, as we frequently have calls for it, but in every case we advise the purchaser to substitute the practice pedal, as

it is of much more practical value than the mandolin attachment. While the practice pedal muffles the tone of the instrument during practice, its use also preserves the hammers from wear and injury, while the constant use of the mandolin attachment is certain to injure the hammers to a greater or less degree, and impair the tone of the instrument in the same proportion. While we will gladly furnish the mandolin attachment to anyone desiring it, still we expressly recommend that the practice pedal be substituted for it. Teacher, pupil and the inmates of the home where music lessons are practiced will all testify to the practical value of the muffler, or practice pedal.

\$138⁰⁰

THE BECKWITH ARTISTS' CABINET GRAND PIANO.

A PARLOR UPRIGHT PIANO OF STERLING QUALITY, excellent workmanship, neat and attractive case, offered under our "from factory to customer direct" plan. Guaranteed to be the equal of pianos which regularly retail at \$300.00.

IT IS A PIANO OF SPLENDID QUALITY AND IS WARRANTED BY US FOR TWENTY-FIVE YEARS.

The material and workmanship are of an excellent grade and we are perfectly willing to ship it to you with the understanding that you will find it the equal of any piano regularly sold at \$300.00 or it must be returned at our expense.

SEND NO MONEY. DEPOSIT NOTHING IN ADVANCE. We will ship the piano, freight charges prepaid, for a full 30 days free trial, as explained on page 283. Just send us your trial order and write us the name of the bank where you wish to deposit the price of the piano with the freight charges after it is received at your local station, and we will ship promptly. If the piano does not please you, send it back at our expense and the bank will refund your money. Remember that you assume no risk, because every dollar of your money will be at your own bank waiting for you.

does not please you, send it back at our expense and the bank will refund your money. Remember that you assume no risk, because every dollar of your money will be at your own bank waiting for you.

CASE is made of the very best seasoned hardwood lumber, double cross band sawed veneers inside and outside. It is beautifully finished and decorated with carved pilasters and trusses; all mouldings and trusses in solid wood.

MUSIC DESK is of the continuous or duct style, extending from side to side of the piano and is very handsomely ornamented with raised design on the panel.

SIZE. 4 feet 8½ inches high, 5 feet 2½ inches wide and 2 feet 3 inches deep, and will weigh, when boxed for shipment, 800 pounds.

SOUNDING BOARD

is made of the very best thoroughly seasoned Canadian spruce pine especially prepared for this purpose and universally used in only the best pianos. It is thoroughly braced by bars of the same wood. Ribs are scientifically placed, making the tone full, rich and sweet.

KEYS are tusk ivory, with ebony sharps, highly polished.

THE PRICE INCLUDES A HANDSOME SOLID WOOD STOOL, FINE SCARF AND COMPLETE INSTRUCTION BOOK.

The Profit Sharing Certificate we send you will help you get valuable articles free, as explained on pages 1 and 2 of this book.

FINISH. We furnish this piano either in English quarter sawed oak veneer, elegant burl walnut veneer, or richly figured mahogany veneer, as desired. The price is the same, and in ordering be sure to mention the veneer wanted.

ACTION responds instantly. It is a repeating action, built of selected materials and adjusted to a nicety. All bearings are carefully bushed with bushing felt. All hammers are genuine all wool piano felt; nickel plated action rail and brackets.

THE TONE is very full and sweet, pleasing to a wonderful degree. It is a Beckwith tone in all its purity and must be heard to be fully appreciated.

PIN BLOCK, in which the tuning pins are set, has four thicknesses of maple veneers, the grain of each running in opposite directions, making it impossible to warp or split.

FALL BOARD is of the Boston rolling pattern, the same as used on the highest grade pianos made.

MANDOLIN ATTACHMENT. We furnish the mandolin attachment with this piano absolutely free of charge; or if the customer desires, we will furnish, as a substitute for this attachment, the Beckwith practice pedal, which muffles the tone of the instrument while the student is practicing. See what we have to say in regard to this mandolin attachment on page 289.

SCALE is full size, 7¼ octaves, overstrung bass, three strings to each note except wound bass strings, full length metal frame, and is so constructed as to produce a remarkably even quality of tone throughout.

WITH EVERY PURCHASE of this piano we give, free, a scholarship certificate in one of the largest music schools in the United States, which entitles the holder to ninety-six complete lessons on the piano, covering a period of two years, as fully explained on page 285.

THERE IS A REASON WHY we can offer a piano of the highest grade at a lower price than any other dealer. Our enormous purchasing power enables us to secure better prices than others for high grade pianos because where a dealer or agent buys one or two pianos and pays for them by turning in installment notes at a large discount from their face value, we contract for from two to three thousand at one time, thus securing the best possible price.

THE BECKWITH SPECIAL CONCERT GRAND PIANO.

THE HIGHEST ATTAINMENT IN PIANO MAKING.

No. 46F13 Price

\$195.00

AS ILLUSTRATED ON OPPOSITE PAGE.

Fig. 1.

THE CASE. The case of this piano is artistic in design, the highest degree. This beautiful design is entirely new, and was only adopted after the keenest competition on the part of several of the best piano designers in the country. It is ornamented and tastefully decorated with handsomely executed genuine hand carving. There is not a particle of stained wood in the case; it is double veneered inside and outside in genuine woods and all pilasters, trusses, etc., are made of genuine solid oak, walnut or mahogany. All carvings are on natural wood. It is fitted with rolling fall cover with continuous hinges and has a handsome automatic two-thirds music desk. We believe it to be the most elegant piano that has yet been offered to the public, and will be glad to have you see it and examine it for yourself. The keyboard is supported by massive double pilasters and the pedals and pedal guards are of ornamental metallic design beautifully nickel plated and polished. The panels are very artistic and in perfect harmony with the richness of the very finely designed case. Each one of these cases is given an extremely high finish which takes from 70 to 90 days to apply. Each case is double veneered inside and out, and cross banded so that it cannot crack, warp or split. Cross banding means that the first or inner layer of veneer is glued to the base wood of the case under an enormous pressure, while the second or outer layer is glued in a like manner across the grain of the inner veneer, so that it will not be affected by climatic changes, no matter how severe. The engraving which accompanies this, marked Figure 1, shows how the veneer is placed on the piano case. These pianos are given a very high finish, each coat of varnish being allowed to become thoroughly dry, then being rubbed down before the next coat of varnish is applied. These successive coats of varnish give the case that smooth, glassy appearance so much admired in all fine pianos. As this varnish is perfectly transparent, of the very highest grade and most expensive kind, the delicate grain of the wood shows through it in all its natural beauty. In most cheap pianos the finish of the case is entirely superficial. This part of a cheap commercial piano is slighted just as all the rest of it is, and only about one-third the number of coats of varnish are applied as is applied to the Beckwith and the varnish itself is of a very low grade. **The design of these cases is everything that can be desired and will harmonize with the furnishings of any parlor.** We furnish them in English quarter sawed oak, French burled walnut, and San Domingo mahogany. Each case is thoroughly hand rubbed and carefully inspected before being turned out of the factory.

Fig. 2.

THE METAL PLATE of this piano is of the pattern known as a full metal plate. There is no cap upon it, but it is cast in one solid piece and is of the strongest possible construction. It must be strong to resist the tension of the strings when tuned to pitch, and with the extra strong back shown in another illustration, this metal plate makes a piano of unrivaled strength and durability, powerful enough to stand, if necessary, twice the strain that is put upon it. Examine this plate closely and you will find it has bushed tuning pins, ample reinforcements and braces, and with the extra strong back it will be seen at once, by a reference to Figure 2, that with this foundation the instrument is as strongly made as human ingenuity can make it. The metal plate in this piano receives the most careful consideration. Not one single plate is accepted until it receives the most searching inspection at the hands of experts. The fault with many cheap pianos is, that, to the manufacturer, a metal plate is a metal plate and neither the quality of the workmanship or the quality of the casting receives any consideration whatever. The ordinary manufacturer of the ordinary piano is content to buy a metal plate at the lowest possible price, whereas, in the Beckwith the price is the last consideration. The quality and fitness of the plate must not only represent the highest quality in material, the most scientific casting, and be perfect in every way, but it must be the best that money can buy regardless of the price asked for it. Each plate is cast in the most approved manner and is thoroughly examined for any flaw or other imperfection. In casting the plate, allowances must be made for any tendency to warp in cooling,

otherwise as the plate cools it naturally contracts, and in obedience to well defined natural laws the contraction would follow the line of least resistance and the plate would warp; this is guarded against in the casting of the perfect Beckwith plate. Should a plate be found which contains a so called blow hole, no matter how small or insignificant it might be, the plate is broken up. In the metal plate of the cheap commercial piano blow holes are numerous, because the manufacturer of such an instrument does not look upon the piano as an object of pride. To such a manufacturer the making of a piano resolves itself merely into the getting of dollars, and when an instrument has once passed out of his hands, with its many imperfections adroitly covered, it is forgotten. If a guarantee is issued with such a piano, it is of doubtful value and is more ornamental than it is useful; it is no protection to the purchaser because there is neither reputation or financial resource back of it. Not so with the Beckwith piano. This Special Concert Grand Piano is guaranteed with a written and binding guarantee running for a period of twenty-five years, backed by unlimited capital and a reputation of years of honorable dealing. We could not assume the responsibility of such a guarantee if we did not positively know that it is impossible to purchase a better grade or better quality of material than enters into its construction. The best of every thing goes into this piano. The highest priced veneers, the very best imported German steel piano strings, genuine high grade ivory and ebony keys, skilled workmanship of the best class, the highest priced and best selected piano felts and all that goes to make a recognized, standard, high grade, artistic piano. This plate is extra strong and very handsomely finished in gold bronze. From the illustration, which is necessarily small on account of our limited space, it is nevertheless easy to see how massive it is, how well it is braced and how securely it is fastened and bolted, together with the sounding board, to the extra strong foundation and frame.

PIN BLOCK. The pin block is one of the most important features of a piano. It is that part of the instrument which is built into the upper part of the foundation or back frame and into which the tuning pins are set. This pin block is also known among piano makers as a "wrest plank" and is made up of a number of separate layers of rock maple, as this is the best wood for this purpose. Each piece of wood is laid so that the grain runs in a different direction, and this in turn, presents to the tuning pins, as they go through the different layers of wood, a different face or grain. This binds the tuning pin and holds it firmly. In this piano is the very latest method of piano construction. It is equipped with what is known as "bushed" tuning pins. The metal plate of this piano is cast in one solid piece and extends from the bottom to the top of the piano, covering the pin block completely. Openings are drilled through this solid metal into which a plug, or "wood bushing" of hard maple is driven and through this bushing the heavily nickel plated, extra long tuning pin extends into the pin block. This wood bushing prevents over vibration, over brilliancy of tone, and also aids in holding the pin firmly, and by this method of construction the best tonal results are obtained. This late improvement is only found in pianos sold at \$400.00 and over. The pin block in this piano is of an extra strong construction, as a glance at Figure 3 will convince you. It is necessary to make it very strong and to use an extra strong nickel plated tuning pin on account of the strain when the piano is tuned to pitch, which in this instrument is over twenty tons. It is one of the finest and most scientific pin blocks ever constructed.

Fig. 3.

A—Built Up Pin Block.
B—Full Metal Plate.
C—Wood Bushing in Metal Plate.

A plug, or "wood bushing" of hard maple is driven and through this bushing the heavily nickel plated, extra long tuning pin extends into the pin block. This wood bushing prevents over vibration, over brilliancy of tone, and also aids in holding the pin firmly, and by this method of construction the best tonal results are obtained. This late improvement is only found in pianos sold at \$400.00 and over. The pin block in this piano is of an extra strong construction, as a glance at Figure 3 will convince you. It is necessary to make it very strong and to use an extra strong nickel plated tuning pin on account of the strain when the piano is tuned to pitch, which in this instrument is over twenty tons. It is one of the finest and most scientific pin blocks ever constructed.

SOUNDING BOARD. This may be called the heart and soul of the piano and occupies the entire back of the instrument. A good sounding board is made of the very choicest quality of selected materials. Over the sounding board the strings are stretched and the vibration of the strings is reinforced and the sonority is increased. It improves the quality of the tone and starts the vibration of the string, running through all parts of the instrument and out from it, when the string is struck by the hammer. Without the sounding board there would be no tone, the sounding board is, as you might say, the tone center. The importance of a good tone center is therefore essential. In the Beckwith piano only the finest selected spruce is used for both the sounding board itself and for the ribs or braces. Every piece of wood used in the Beckwith sounding board is carefully examined and tested. The making of a good sounding board is a delicate operation; especially constructed rooms and appliances must be used to bring out the most perfect results. The temperature is a large factor in its construction, as well as the proper consistency and the color of the glue used. Glue enters largely in the making of sounding boards and only the finest glue should be used. Furthermore in gluing the sounding boards the parts must be heated to a high degree of temperature so as to take the glue properly. In the Beckwith Piano the sounding board is of the highest type; it is thoroughly air and kiln dried until the wood from which it is made becomes as resonant as the top of an old violin. In some pianos the sounding board has a great number of ribs on it, and while these are necessary to protect it against warping or splitting, yet no more ribs should be placed on the sounding board than are absolutely necessary to protect it against these dangers. In the Beckwith pianos there are just enough ribs placed on the sounding board, no more and no less, and the exact number of these is mathematically determined by study and experience. We guarantee that the sounding board of this piano will not become weak or cracked, as is often the case with other pianos, and if this instrument is compared with other pianos costing from \$450.00 to \$500.00, we know that the customer will find that in volume and sweetness of tone the Beckwith is the equal of any other piano made.

THE ACTION is that part of the piano, through the medium of which the tone is produced. It means the keys, the hammers, and all the mechanism that transmits the stroke of the keys to the hammer, and thus produces the tone. The Beckwith piano is famous for its even tone and the remarkable quickness with which it responds to every touch of the performer. The Beckwith piano is fitted with a repeating action and the hammers come back into position ready for the repeat with marvelous rapidity. On a great many pianos it will be found that if you attempt to strike a succession of notes on one key, the hammer refuses to register any, except the

first stroke, but when the same experiment is tried upon the key of a Beckwith each tone is distinctly marked, in fact it is impossible to strike the notes with such rapidity that the hammer fails to respond. Each piece and part is selected with extreme care and is assembled only by experts. Every bearing in the entire action is bushed with specially prepared bushing felt. All of the felt in the hammers and the action itself is of the very highest grade possible to secure of all wool piano felt. After the action is assembled and before it is placed in the piano it is given a most searching examination. Every piece and part is gone over. After it is placed in position and fastened into the piano it is then given a most severe test for responsiveness, for quick action and is adjusted and voiced to perfection.

THE SCALE. This is the underlying or fundamental principle upon which all pianos are built. It is a so called "lay out" of the strings, and in drawing the scale, the scale maker or designer determines, by mathematical calculation, the exact position that each particular string of the entire 7½ octaves must occupy across the sounding board; the exact point where the lower bridges must rest upon the sounding board, the exact curve in the upper bridge just below the tuning pins, the size and length of strings to be used for each tone; must determine exactly where each particular hammer is to strike each particular string so as to bring out the fundamental tone. If these points are not very carefully considered, the result would be an uneven scale, and there would be what is called a "dead string" here, or perhaps a "wild tone" there, and that is what you find in cheap pianos of the commercial grade. Such tones are to a piano what flaws are to a diamond, and the peerless Beckwith piano can be likened to a diamond that is absolutely flawless, as no such tone will be found in it. The scale is as clear and as liquid as running water from one end of the piano to the other. To give some idea of what is required of a scale maker in drawing or designing a perfect scale, it is necessary for him to know the number of vibrations per second of each string. For example, when pianos are pitched to international pitch, middle "A" vibrates at the rate of 435 vibrations to a second. The least number that the ear can detect runs to about 24 per second, the highest number that the human ear can detect is about forty thousand per second. All this he must know and he must proportion the strings accordingly. He must know the exact point on each string where the hammer must strike to produce the true piano tone; he must remember that sound travels at the rate of 1090 feet per second in the air and that these sound waves may be reflected, refracted, or deflected exactly as light waves are. The scale of a Beckwith piano is so perfect that you will not find a single so called "metallic" sound or an unsympathetic "woody" quality. The scale in the Beckwith piano is accurate and true and we defy the most expert performer to find a break in it from the highest to the lowest tone. The scale is the heart of the piano; it is the piano, and the Beckwith scale has been pronounced by eminent authorities to be perfect in every detail.

Fig. 4.

KEYS. Figure 4 illustrates five Beckwith keys and shows how they are constructed. A well made piano key must be made of thoroughly seasoned and kiln dried wood of perfect grain and absolutely free from any imperfection. This is the quality of wood used in the Beckwith piano keys. The ivory used is of the best grade of tusk ivory which is glued on to the wood under enormous pressure. The sharps are of genuine ebony highly polished. The keys are so evenly balanced that they fall back to their position instantly, after being struck by the performer, ready for the repeat. It is through the medium of the keys that the hammers strike the strings, or in other words, it is through the keys that the performer plays the piano, and this is one of the points of the Beckwith that receives the utmost care in construction and the most searching scrutiny and inspection when the piano is completed.

THE PIANO HAMMER in this, our largest and best piano, is a genuine 14-pound hammer, the greatest size and weight possible in any piano. This extra size, shown in Figure 5, is demanded by a larger sounding board area and longer and heavier strings. All these features, combined, give greater volume and purity of tone, and the increased striking surface in this hammer lessens the liability (which, however, is very slight in the Beckwith) of the felt hardening.

A hardened hammer means a hard and unsympathetic tone. The tone, and the scale, after all, is the piano, and as the hammer is what produces the tone, too much care cannot be given to it. No matter how fine a grade of string is used, the string does not vibrate unless made to do so by the striking of the hammer. The better the hammer in weight, the more nicely it is poised, the larger the striking surface, the better the quality of felt, the more perfect it is in construction, then naturally, the better the tone. It gives the string a chance to be heard to advantage. All of these essential points are combined in the hammer which is shown in the illustration and which we use in this Special Concert Grand Piano. The felt used is of the finest quality, selected for elasticity and firmness; the shank is large enough to withstand the hardest blow, but is not unwieldy and does not burden the action with superfluous weight. The illustration shows the new, special two-piece felt hammer, the very latest advancement in hammer head construction. It is the finest hammer that it is possible to make; and the peculiar quality in the felt of this special hammer head gives it an elasticity which is a large factor in producing a most beautiful quality of tone.

This improved hammer is found only in the highest priced pianos in the market; its cost prohibits its use in the cheap commercial pianos.

Fig. 5.

Fig. 6.

THE STRINGS. This instrument has an over-known as a three-string unison, and is what is known as a three-string unison, each treble note having three strings, all of which are tuned in unison. Figure 6 illustrates the way the instrument is strung. Each one of the strings placed in this piano is thoroughly inspected and properly tested before it is placed in position. The bass or heavier part of the scale is what is called a two-string unison. All strings in the Beckwith pianos are of the very finest quality Poehlmann piano steel wire. Each string is tested for strength, size, and perfect formation before being accepted. They must all be free from any trace of phosphorus or sulphur, otherwise they would be brittle or liable to crack. An imperfect string produces an imperfect tone, and destroys the uniformity of tone so much desired in a fine piano. A good string is a very important part of a piano, as the string when struck by the hammer vibrates and produces the tone. The sounding board vibrates in harmony with the string and increases the volume of tone, therefore, if the string is poor the piano will produce a poor quality of tone. The bass strings in this Special Concert Grand Piano are all copper wound.

Fig. 7.

THE BACK FRAME. This is sometimes known as the foundation and is a very important part of a piano, as it must bear its just proportion of the strain upon it when the piano is tuned to pitch. The illustration, Figure 7, shows the seven massive uprights which are mortised into the top and bottom of the frame and shows the veneer on the two cross pieces as well as the scientifically ribbed sounding board. Into this back or foundation the pin block is built, and in a large piano, such as the Special Concert Grand, such a strong back is really essential. While the back of the piano really has nothing to do with the tonal production, yet many manufacturers give no thought to this important part and the relation it bears to the piano proper. Many piano makers use too few uprights in the back; others use too many and make them too heavy. It is unwise to burden a piano with superfluous weight, and a careful manufacturer, or one who studies this part of a piano, determines exactly the proper bracing to be used according to the size of the piano, the length of strings and other important features. The foundation or frame of a piano bears somewhat the same relationship to the instrument as a foundation of a building does to the superstructure, and therefore the maker of a high class piano bestows every consideration upon the back.

The wood in the Beckwith piano back is carefully selected and thoroughly seasoned. It really is a source of gratification to have every intending purchaser of this piano take the time and trouble to examine the back of this instrument, the uprights, the veneered upper and lower cross pieces, the general appearance of the back, the material, workmanship, finish, etc. If you will do this you will be convinced that the back receives the same loving care and attention as do the more delicate parts of the interior construction. It should do most to impress you with the quality of the piano as a whole.

REMEMBER, you run no risk of any sort whatever in sending your order to us for a piano today, making your selection from the pages of this our general catalogue; because we promise, agree and guarantee that you will find everything exactly as represented, illustrated and described, or we will cheerfully and willingly refund every dollar of expense on your part attending the transaction. If you are in a hurry for a piano, and you wish to have an instrument in your possession at the earliest possible date, then do not take the time to send for our free Special Piano Catalogue, but mail your order at once, making your choice from the illustrations and descriptions contained in these pages. You can safely rely upon each and every statement we make and can save valuable time in following this suggestion; but if you feel that you prefer to see our big Special Piano Book, the most complete work ever printed, if you feel there is other information that you desire before you place your order, then write us at once asking for our book, and it will be sent to you immediately free of charges.

If you are in the market for a high grade fine piano, then you cannot afford to place your order elsewhere, or consider the purchase of any other piano, no matter what the maker's name may be, before trying the high grade Beckwith of superlative quality under our great SEND NO MONEY OFFER.

THE MANDOLIN ATTACHMENT AND THE MUFFLER OR PRACTICE PEDAL.

WE FURNISH WITH ALL OF OUR PIANOS

without any extra charge, a mandolin attachment which is the best and most practical device yet invented for imitating the tones of the harp or mandolin. While this is unquestionably the best device of its character yet offered to the public we do not advise our customers to order it in connection with their piano. We find it necessary to furnish this mandolin attachment, as we frequently have calls for it, but in every case we advise the purchaser to substitute the practice pedal, as it is of much more practical value than the mandolin attachment. While the practice pedal muffles the tone of the instrument during practice, its use also preserves the hammers from wear and injury, while the constant use of the mandolin attachment is certain to injure the hammers to a greater or less degree, and impair the tone of the instrument in the same proportion. While we will gladly furnish the mandolin attachment to anyone desiring it, still we expressly recommend that the practice pedal be substituted for it. Teacher, pupil and the inmates of the home where music lessons are practiced will all testify to the practical value of the muffler or practice pedal. Be sure and state which attachment you desire, but we urge the use of the practice pedal and advise against the mandolin attachment.

No. 46F13 Beckwith Special Concert Grand Piano. Price.....\$195.00

BECKWITH ORGANS

HIGHEST AWARD AT ST. LOUIS WORLD'S FAIR

A MAGNIFICENT LINE OF

REED ORGANS

WHICH FOR DURABILITY OF CONSTRUCTION, ELEGANCE OF APPEARANCE, BEAUTY OF FINISH AND MUSICAL CAPACITY IS SUPERIOR TO ANY IN THE WORLD.

ON THE FOLLOWING PAGES you will find illustrated and described the most beautiful line of church and parlor organs ever offered to the American public. All of these organs are manufactured under our direct supervision, fully guaranteed by us for 25 years and sold under our liberal terms of shipment as outlined and explained on page 283 of this catalogue. The Beckwith Organ Company has established two of the largest organ factories in the world for the purpose of manufacturing these splendid instruments. In these factories they have installed the very latest improved labor saving organ making machinery, the very best system of handling materials, employed the most skillful and experienced workmen and established the most rigid system of inspection. We take the entire output of these two immense factories and so popular have the Beckwith organs become that the capacity of these two big plants is taxed to the utmost to supply the demand. These organ factories are being enlarged and the increased capacity guarantees prompt shipment on all orders. Our immense organ business is not the result of chance or a combination of favorable circumstances, but has been built up through a careful and conscientious attention to details, untiring efforts to perfect, these

splendid instruments, prompt service to our customers, a careful consideration of their wants and interests and the fact that we can sell high grade splendid organs for less money than any other house in the world. If you could visit one of our great factories either at Louisville, Ky., or St. Paul, Minn., examine the great labor saving machines, the modern, up to date methods of manufacture and see the immense number of organs turned out daily you would realize at once that we are in a position to make lower prices than any other dealer in the world. If you could witness the careful attention to details, the strict system of examination and inspection and examine the high grade of material purchased by the factory for these instruments, you would not wonder that we gladly guarantee them for a quarter of a century. Upon every employee of these great factories, from the superintendent to the shipping clerk, rests the responsibility for the excellence of the instruments turned out, and so thorough is our system of inspection that should a defect appear in any organ we could immediately place our hands upon the man responsible for it. It is this strict supervision on our part which has placed the Beckwith organs upon such a high plane and made them the standard of organ value throughout the world.

OUR LOW PRICES. Why should you be afraid of our low prices?

High prices on organs have been established and maintained for such a long time that many people are apt to believe that they cannot purchase a good organ for less than from \$75.00 to \$150.00, according to its grade and musical capacity. This is absolutely true under the usual method of sale, where the instruments are passed through the hands of several dealers before they reach their destination in the home; because, as each dealer has to make his profit, and as this profit must be included in the ultimate price, the amount that you are compelled to give for the organ will depend altogether upon the number of profits included in it and the amount of money you are willing to part with, rather than upon the cost of manufacturing it. Under our method of sale the instrument is shipped direct from the factory to you, and the only profit included in the price you pay is the one small profit which we add to the manufacturing cost. The price which we charge you for the organ is based upon the actual manufacturing cost and is the same to all of our customers. No other dealer can afford to sell organs at the same small margin of profit that we do, because the system under which he sells will not admit of it, and the number of organs sold is so few, as compared with our immense business, that it is necessary for him to make a large profit on each organ sold or go out of business. He must carry his organs in stock for a long time before he secures a customer, and it would be very poor business policy for him to tie up his money in this way without securing a large return on his investment. All organs become shop worn after being carried in stock for a short time, and must either be sold as second hand at a loss to the dealer or polished up and palmed off as new at a loss to the customer. Not only do we save you a large amount of money in the difference between our small profit and the several large profits which you would have to pay if you purchased your organ in the usual way, but we also make you a large saving on account of the great buying advantages we possess. As we take the entire output of the three great Beckwith organ factories we secure these instruments at the exact manufacturing cost and sell them to you at the same figures with but our one small margin of profit added. Our inexpensive method of handling business is another point to be considered. Our organ department is but one of 63 large merchandise departments in our house, occupies but a small office space, employs very few people, never sends out any traveling men, never has to rent store rooms or store buildings for exhibition purposes and receives its business from a few inexpensive pages in this large catalogue. We give you the benefit of all of this saving. When you consider the following facts: First, that we own all of our organs at the exact cost to manufacture, because we take the entire output of the two immense Beckwith organ factories; second, that we can handle the business at a much less expense, because our organ department is only one small section of our immense institution and uses but a small space in this big catalogue, and, third, that we sell these organs in such immense quantities (having sold over 125 in a day), that a very small amount added to the manufacturing cost yields us a sufficient profit, we know you will be convinced at once that we are in a position to sell you a high grade organ at about one-half the price which any other dealer will charge you.

THE QUESTION OF QUALITY is one which we have constantly kept in view since we first began the exclusive sale of the Beckwith organs.

The prices on our organs have never been lowered as the result of a reduction in the quality of the instruments. On the contrary, the quality of these instruments has grown higher as the prices have become lower. Labor saving machinery, skillful workmen and a great saving in buying and selling have brought about this great result. As we guarantee each one of these organs for a period of 25 years it is absolutely necessary for us to put into them the very best material and the most skilled workmanship obtainable, so that they will be certain to last and prove satisfactory during the entire period for which they are guaranteed. Our immense organ business has been built up on the basis of quality. Quality of tone, quality of finish, quality of design, quality of material and quality of workmanship have all combined to make the Beckwith organs the standard of quality throughout the world. With the Beckwith organs it is quality first and price second, and you are always sure of receiving the very highest quality no matter how low the price may be.

Diploma of Merit awarded the Beckwith Organs.

WE ARE SHOWING on this page a reproduction of the great diploma of merit awarded by the St. Louis World's Fair to the magnificent exhibit of Beckwith organs at the Louisiana Purchase Exposition. This exhibit was viewed by the thousands of visitors to the Liberal Arts Building and was a great surprise to musicians and manufacturers from all over the world. The high quality of the instruments awakened the admiration of all and the extremely low prices quoted astonished organ dealers and manufacturers alike. It was a signal triumph for the Beckwith line of organs and demonstrated to the entire world that our method of manufacturing and selling organs is the only one which will give the customer full value for his money. It was conceded from the beginning that the Beckwith organs would secure the highest prize offered for such an exhibit and the result fully confirmed these expectations, because the Superior Jury of Awards was unanimous in voting the highest award to the Beckwith organs. Not only were the Beckwith organs awarded the splendid diploma shown on this page, but they were also granted a medal for superior excellence of construction, great musical capacity, beauty of appearance and modern design. That the Superior Jury of Awards should grant the Beckwith organs the highest award, effectually and finally answers the question as to which is the standard line of organs of the world. When you buy one of the Beckwith organs you are not only buying an instrument which is covered by our binding 25-year guarantee, but you are also buying an instrument which the very highest authority in the world has declared to be the unquestioned standard of organ quality.

THE BECKWITH ORGAN FACTORIES

THE MOST MODERN, THE LARGEST AND FINEST FACTORIES EVER BUILT FOR THE MANUFACTURE OF REED ORGANS

LOUISVILLE FACTORY.

ON THIS PAGE WE SHOW PICTURES of our two immense Beckwith organ factories. These factories are built for the manufacture of reed organs exclusively, and are equipped with the most modern, up to date labor saving machinery. In these factories the Beckwith organs are built complete from top to bottom. Every known method, device or machine which will in any way reduce the cost of organ manufacture or work an improvement in their construction have been installed in these two big plants. Producing as they do, the very highest grade of organs in the world, covered by our binding guarantee which is as solid as any national bank, and sold at prices which are at least one-half lower than any other manufacturer can offer, they cannot afford to overlook any improvement in machinery or methods which will in any way better their methods of manufacture. When you purchase one of these organs you have the assurance that it is Beckwith all the way through. The bellows, the reeds, the stops, the valves, the couplers, the swells, and in fact everything in connection with the organ bears the stamp of Beckwith quality. Most of the organ factories throughout the country purchase their reeds, stops, bellows and other parts from different manufacturers, assemble these parts at the factory, put their name on the case and send the organ out as their own manufacture. This is the commonest method of organ making, and the result is always an instrument whose future is uncertain at the very best, which cannot be guaranteed by any reputable concern, and is sure to prove unsatisfactory to the purchaser sooner or later. The country is flooded today with organs which are manufactured in this way and sold at immense profits by irresponsible agents and dealers whose guarantee, if they venture to give any, is not worth the paper it is written on. These organs are fitted with reeds stamped out of sheet brass, dummy stops and an inferior bellows, which is bound to leak and ruin the organ sooner or later. When the organ is put in your house it looks nice; the case is handsomely finished and the tone appears to be fairly good. So far as you can see it is a good organ. But when the agent goes away the real test of the organ begins. Will it last? Will it be as good next week, next month or next year as it is today? The United States Government guarantees the money you give the agent, but who guarantees the organ the agent sells you? When the bellows gives out, the reeds break off, the top connections break or the valves get out of place and the organ begins to show the natural results of bad material and poor workmanship, to whom will you look for redress? By this time the agent is far away and the only way for you to do is to call in some local repair man and pay him to tinker it up and put it in condition—if he can. You have made a bad bargain and there is no help for it. The only way to avoid this danger is to buy your organ from a reputable dealer of sound business and financial standing whose guarantee will protect you against any defect in material or workmanship which may develop in the instrument through use. The 25-year guarantee which we send with all of our organs is as good as a government bond. It is backed by five million dollars of capital and surplus, buildings and appliances which are worth five million dollars more and an immense business in all classes of merchandise, an asset which cannot be estimated. This guarantee absolutely protects you against any loss and guarantees the future of your investment during every day of the twenty-five years for which it is drawn. We're safe in issuing this guarantee, because these organs are all manufactured under the strictest supervision, by the most skillful workmen that can be secured, and directly under the eyes of men in whom we have the greatest confidence.

BESIDES THE TWO IMMENSE FACTORIES, pictures of which we are showing on this page, we have a third factory devoted exclusively to the manufacture of the celebrated Home Queen Piano-Organ. This factory is also equipped with all of the most improved labor saving machinery for the manufacture of organs and all of our piano-organs are made complete from top to bottom under our strict supervision. Nothing but the very highest quality of

material is used in the manufacture of these organs and the reeds, bellows, and every piece and part is thoroughly and carefully inspected and tested before being placed in the instrument. The numerous and valuable improvements with which the Home Queen Piano-Organ is fitted require the use of many special and very costly machines which, while they are very costly to install, prove very economical in the end as they enable the factory to make the magnificent Home Queen Piano-Organ at much less cost than any other manufacturers can make organs of much inferior grade and quality. In the making of organs our factories have found that the installation of the very best machines and the employment of the most skillful workmen is the very best kind of economy, as skilled labor and improved machinery always improves the quality of the manufactured article and lowers the cost of production.

IN ORDER TO MAKE OURSELVES PERFECTLY SECURE under this guarantee, every piece and part which enters into the makeup of the Beckwith Organs is manufactured complete in our factories. The reeds are cut, bent, tuned, voiced and inspected by men who have a peculiar aptitude for this and have made a life study of the work. The cutting of the different parts, the adjustment and connection of the action and the assembling of the entire instrument are all in the hands of men who are specialists in their line, have made a study of that particular branch of organ manufacture and are especially fitted for the work.

THE LUMBER FROM WHICH WE MAKE THESE ORGANS is all cut, sized and seasoned in our saw mills at Lyons, Ky., is thoroughly inspected and selected by men who have had the widest experience in this line of work, and who make a business of purchasing this material for the Beckwith organs. In fact, we have left nothing undone to make the Beckwith organs the very highest standard of quality in the world. We have found it necessary to build these factories on a very large scale in order to give our customers the very best service and make immediate shipment upon all orders. As we guarantee them a sale for every organ they make, their buyers are able to go out into the markets of the world and buy organ material in immense quantities at the very lowest limit of price. The great modern, labor saving machines with which these factories are equipped have cheapened the cost of manufacture without in any way affecting the high quality of the instruments. With their splendid equipment they can manufacture an organ of the very highest quality for one-third less than it would cost any other factory to turn out an instrument of the same grade. All of this saving goes to you in reduced prices, and together with the great saving which we make in handling and selling, enables you to purchase one of these splendid instruments at a price which no dealer can in any way approach. We established these two big factories, not for the purpose of making a greater profit for ourselves, but for the purpose of giving our customers better service and lower prices. Every employee in these factories, from the highest to the lowest, fully understands that while the cost of manufacturing these organs must be kept down the quality of the instruments must be kept up, and that every piece of wood or metal, and every bit of workmanship must measure up to the standard of our 25-year guarantee.

ANOTHER IMPORTANT POINT is that these two great factories have been established at points which are admirably located in regard to shipping facilities. By making our northern and western shipments from the St. Paul factory and our southern and eastern shipments from the Louisville factory, we can place these organs in the homes of our customers at the very least possible expense for freight charges. This is a great advantage, because it enables us to make the freight charges on each shipment from \$1.00 to \$5.00 lower than the purchaser would otherwise have to pay.

ST. PAUL FACTORY.

THIS NEW SPECIAL ORGAN CATALOGUE IS FREE

THE MOST COMPREHENSIVE, THE MOST EXHAUSTIVE AND MOST BEAUTIFUL ORGAN CATALOGUE EVER ISSUED. FILLED FROM COVER TO COVER WITH INFORMATION, FACTS AND FIGURES CONCERNING THE MAKING, BUYING AND SELLING OF REED ORGANS.

WE ARE SHOWING an illustration on this page of the complete new Special Organ Catalogue, which we are now prepared to send free to all who are thinking of purchasing one of these instruments. This catalogue is the most complete work of its kind ever attempted, and contains everything in connection with the making and selling of reed organs. It contains 84 pages of illustrations and type matter, is printed on heavy, highly finished paper with large readable type and illustrated with the most expensive half-tone engravings. The cover is made of the very heaviest grade of cover material, and is ornamented with a beautiful panel in scroll work, showing a shepherd at rest, playing on his pipes. It has large illustrations of our organ factories, showing different sections with the organs in the process of manufacture. It shows the tuning rooms, the cabinet making rooms, the varnish rooms, the packing and shipping rooms, etc. Also a large picture of the Beckwith exhibit which was given the highest award at the World's Fair, with a full and complete description. It shows facsimile letters from the First National Bank and the Corn Exchange National Bank, both of Chicago, testifying as to the soundness of our financial standing and business methods. On page 5 you will find outlined and explained our liberal terms of shipment and the new and wonderful free trial offers which we make on our organs. Following this you will find illustrations of the indemnity bond under which we guarantee all of our organs, also the different certificates of deposit which we use with our 30 days free trial offer. Following this you will find a complete description of the different processes in organ making from the preparation of the wood to the final tuning and inspection. This chapter will give you many valuable suggestions in regard to the general construction and the vital and important parts of an organ, and will enable you to select your instrument to much greater advantage than you could otherwise. Following this are several pages which fully explain to you how we can afford to sell such high grade organs at such extremely low prices, and also giving you an outline of the methods pursued by traveling organ agents and dealers throughout the country. These pages explain to you how agents and dealers are able to make large discounts and allowances and pay commissions on the sale of their instruments. It clearly shows to you why it is not to your advantage to purchase an organ on installments, and explains the great advantage and saving to you in buying for cash. These pages also explain and illustrate the old method of buying and selling organs and clearly show you how many hands the organ must go through from the time it leaves the factory until it reaches you, and how many large profits are necessarily

included in the price you pay. Following this you will find the different Beckwith actions fully explained, the number and names of the stops given and the names and characteristic tone qualities of the different sets of reeds employed. Then follow 46 pages illustrating and describing our complete line of Beckwith organs. All of these illustrations are perfect photographic reproductions of the instruments, are etched on copper plates and reproduced on these pages with photographic exactness. The descriptions are complete, full and exact in every particular. On the back pages of the book you will find a complete table of freight rates on organs to different parts of the country, enabling you to figure out the exact freight charges to your home on any organ shown in the book; also numerous testimonial letters from satisfied and delighted purchasers.

BEFORE SENDING for a copy of this book, we ask you to refer to the following pages of this big General Catalogue, and see if you cannot make a selection without causing a delay by first writing for this special catalogue. You are perfectly safe in making your selection immediately from the pages of this our big catalogue, for our complete line, our lowest prices, our most liberal terms are shown on the following pages. You take no risk whatever in sending us your order immediately without waiting to get our Special Organ Catalogue, as illustrated on this page. All of the illustrations are made directly from photographs and printed from wood cuts, accompanied by complete descriptions and show our line complete. Furthermore, you can purchase the organ upon exactly the same terms as if you had the special catalogue, and as the actual examination and trial of the instrument is the final and most satisfactory test of its merits, and, as we do not ask you to pay us one cent until you are fully satisfied that the organ is everything that you desire, it is much preferable for you to order from the catalogue which is now in your hands rather than to cause any delay by writing for the special book illustrated here. If, however, you feel that you desire larger and finer illustrations and more complete descriptions of these organs, or wish to post yourself in regard to organ making and organ values before making your selection, or if you want further information about the Beckwith Organs, we will be glad to send you a copy of this book absolutely free on request. If you don't, send us your order direct from the following pages. Don't buy an organ from anyone until you first write and get this big, handsome special free Organ Catalogue with all its valuable organ information.

OUR BECKWITH HOME QUEEN PIANO-ORGAN

\$69.00

No. 46F115 ORDER BY NUMBER.

THIS is the same grade of organ which is usually offered throughout the country at \$100.00 and \$125.00, and we are only able to offer it to you at \$69.00 because we ship it directly from the factory to you, charging you the manufacturer's price only, with our one small margin of profit added. We do not ask you to take our word for the merits of this splendid instrument as we make you the sole judge of its splendid qualities and you are the one to be satisfied in every respect. We furnish it in splendid mahogany, beautifully figured oak or rich, solid walnut. Be sure and state the veneer desired.

SEE OPPOSITE PAGE FOR DESCRIPTION.

No. 46F115 ALWAYS ORDER BY NUMBER.

SHIPPED FROM CENTRAL OHIO ONLY.

DIMENSIONS. This instrument is as large as a regular concert size piano, being 56½ inches high, 60 inches long and 29½ inches wide.

WEIGHT. Properly boxed and packed for shipment this organ weighs about 470 pounds. It is carefully packed and we guarantee it will reach you in perfect condition. We do not ask you to take any chances in this respect because we will be responsible for its safe arrival at your town. We would be glad to give you the freight charges upon request, or you can figure them up yourself by taking the weight of the instrument and consulting the table of freight rates given in the front of the catalogue.

REMEMBER, we will ship you this organ with the understanding that if you do not find, when you receive it, that you are saving from \$50.00 to \$75.00, at least, in comparison with the price which other dealers would ask for the same grade of organ, we will cheerfully receive it back, refund your money and pay the freight charges both ways. Our sales

on these organs have been immense, owing to the extremely high qualities of the instrument, its handsome appearance and splendid tone. The piano-organ for which your dealer charges you from \$100.00 to \$125.00 ought to cost any more to make than does our Home Queen. The difference in the price is made necessary by the profits made and the expenses incurred by the different dealers through whose hands this instrument must pass before it reaches you. This in many cases more than doubles the original cost of the instrument, and you have to pay the extra profits and expenses. We simply charge you the original manufacturer's price with our one small margin of profit added.

TO EVERY PURCHASER of this instrument we give a certificate of musical instruction on the instrument, which entitles him to a complete course of musical instruction on the instrument, consisting of 96 weekly lessons, covering a period of two years. In order to make this magnificent offer we have not found it necessary to add anything extra to the price of the organ.

The Finest Toned Organ He Has Ever Handled or Played On.

Mr. Foose's testimony is especially valuable because he is a thorough musician and knows what he is talking about. He was called in to test and examine the Home Queen Piano-Organ that we sent to Miss Florence Garrison, and he thinks it is the finest organ he has ever seen.

Conway, Mo.

Dear Sirs:—I want to say that I have seen the Beckwith Home Queen Piano-Organ which you sent to Miss Florence Garrison of this place and also played on it and will say that if anyone wants a beautiful piece of furniture, and an excellent musical instrument, they may send to you with perfect safety, for it is the finest toned organ I have ever handled or played on, and as soon as I can get the price I intend to buy one exactly like it.

KYRTLE FOOSE.

It Beats All the Organs in His Neighborhood.

Frank Carlson thinks that the Home Queen Piano Organ is the greatest organ he has ever seen. He says that he saved at least \$50.00, and there is no doubt about it, because he could not purchase an organ of as high quality anywhere else in the world for less than \$125.00. Everyone of the thousands of testimonials which we receive testify to the great saving made by purchasing from us.

Ridgeway, Pa.

Dear Sirs:—We told our banker to forward the money to you on May 23d for the Home Queen Piano-Organ, which we received some time ago. We are very much pleased and like it very much in every way. It beats all the organs in our neighborhood. We feel that we have saved at least \$50.00 in buying it from you.

F. CARLSON, 302 E. 2nd St.

The Home Queen Piano-Organ Better Than He Expected.

John F. Sills is a well known music teacher and has had years of experience with organs. He did not expect to receive such a beautiful instrument as we shipped him, and naturally he is surprised and delighted. His wide experience in teaching music and handling organs certainly makes him an authority upon this subject.

Fallon, Wash.

Sirs:—The Beckwith Home Queen Piano-Organ was received on Nov. 21st, all in good condition. It was really better than I expected. The tone and action is good and the finish is the grandest I ever saw on an organ. The new patent octave coupler is surely one of the greatest improvements on an organ, and it is the easiest organ supplied with wind that I ever played on and I have played on a good many, as I have been teaching music for the past ten years. I believe that I am capable of expressing my judgment, as I have had years of experience in music with organs of all kinds and styles.

JOHN F. SILLS.

Likes the Home Queen Better Than a Piano.

Mr. Phelps of Pawnee, Okla., is delighted with the Home Queen Piano-Organ we shipped him. He says it has the sweetest and richest tone he has ever heard, and he knows what he is talking about, because we did not receive this testimonial from him until he had given the organ a thorough and severe test and trial.

Pawnee, Okla.

Gentlemen:—The piano-organ we purchased of you reached us on the 28th of May in perfect order without a scratch, and to say we are delighted with it is saying the least that could be said for it. It has the deepest, sweetest and richest tone I ever heard in an organ, and would be an ornament to anyone's parlor. Some of our best judges of musical instruments have seen it and say it is fine and that we surely got a bargain in it. My wife says she likes it better than a piano. With best wishes, we remain,

W. M. PHELPS.
L. G. "PHELPS.

BECKWITH ORGANS

HIGHEST AWARD AT ST. LOUIS WORLD'S FAIR

HOME QUEEN PIANO-ORGAN

THE PIANO-ORGAN is an instrument which has become very popular in the last few years on account of its resemblance to an upright piano. This resemblance has been more or less exact, depending to a great extent upon the factory making the instrument. The piano-organs offered by other makers are all fitted with the ordinary knee swell levers which at once rob the instruments of their resemblance to a piano. This difficulty was never overcome until we fitted our Home Queen Piano-Organ with the wonderful pneumatic swell which is fully described below. A piano-organ is not an instrument which can be used both as a piano and organ, as some people erroneously suppose, but is a reed organ placed in a piano case. We have spent much time, study and expense in perfecting this wonderful instrument and we have brought it to such a high state of perfection that it is beyond any question the very finest piano-organ ever offered. We could easily obtain a much higher price for this instrument, but it is our settled policy to sell all of our organs at the actual manufacturing cost with but one small percentage of profit added, and we are, therefore, in a position to offer you this magnificent instrument for \$69.00. Do not make the mistake of judging this beautiful organ by the remarkably low price we ask for it. Bear in mind the fact that our great buying advantage, our inexpensive way of handling business and our money saving method of sale are the only things which make such a wonderfully low price possible. All of the reeds in these splendid organs are manufactured, bent, tuned and voiced with the same great care and consummate skill which characterizes the making of the reeds for all of our other organs. We sell these piano-organs under our great free trial offers as fully explained on page 283 and all we ask is an opportunity to place one of them in your home and if the instrument does not convince you of its own merits after a thorough test and trial you can return it to us at our expense and we will cheerfully refund you every cent you have paid. This organ is unquestionably the finest instrument of its kind ever placed on the market, and at the price we offer it, \$69.00, it represents a saving to the purchaser of at least \$50.00 or \$75.00 on the purchase. This instrument has been steadily reduced in price owing to the improving and cheapening of manufacturing processes and the reduction of selling expenses, until we are able, at the present time, to offer it at this exceedingly low price. It is made in response to a demand for a reed organ which will exactly resemble a grand piano, and the engraving will show you that we have succeeded in producing an instrument which the casual observer will not be able to distinguish from a \$400.00 grand piano. In making this organ we have avoided the deadening and muffling of the tone, which is so common a fault with the ordinary piano-organ. Indeed, we have taken advantage of the shape of the case to produce in the instrument a large tone qualifying chamber, which amplifies and increases the tone of the instrument. By examining the engraving you will notice that we have avoided the necessity of placing knee swells on this instrument and their place is taken by our grand pneumatic swell.

See our wonderfully liberal terms of shipment fully outlined and explained on page 283 of this catalogue.

CASE.

The case of this organ is in every way equal to the case on an ordinary piano and can be furnished in San Domingo mahogany only. It is veneered like any piano case and given the same high finish. The wood of this case is so treated by the finisher as to show the beautiful grain through the different coats of transparent varnish with which it is covered. The carving and ornamentations are the finest ever placed on an organ case of this variety, and the design is modeled after the most approved piano design. We have been very successful in selling this instrument as it has given such universal satisfaction. It has a full duet music desk which can be pulled forward as shown in the engraving and is fitted with a regular piano fall cover. This instrument is fitted with regular piano pedals and pedal guard of regular piano design, handsomely nickel plated and polished. While the engraving gives a very good idea of the design and ornamentations of the case it falls far short of giving you an idea of its handsome appearance and beautiful finish.

CAPACITY.

The tone quality and power of this organ is far superior to the ordinary reed organ and it is fitted with three full sets of reeds and has a 7½-octave keyboard. It has 238 reeds in all and these can be formed into an immense number of harmonious combinations by the aid of the stops which can be seen in the engravings directly over the name of the organ. These stops are so arranged as not to be noticeable by the casual observer and do not detract from the piano effect in any way. The reeds are all the celebrated Newell reeds, are made of solid brass of the highest grade and the tongues are double riveted to the reed block. They are all tuned and bent especially for this instrument and we can guarantee their volume and sweetness of tone. The peculiar shape of the inside of the case adds to the singing quality and tone power of these reeds, and when the full power of the bellows is turned on, the effect of their different combinations is startling in its beauty.

GRAND PNEUMATIC SWELL.

This organ contains several improvements not found on any other instrument, among which is the grand pneumatic swell. This swell is placed on the organ to avoid incumbering it with knee swells. It is automatically opened by air pressure when the pedals are pumped hard and closes automatically when they are pumped lightly. When the performer desires to get more power out of the organ he naturally pumps the instrument harder and this opens the swell, allowing the full power of the organ to be heard, and when he does not desire such a volume of tone he naturally pumps the pedals with less violence and the swell closes, reducing the power of the instrument. This swell does not open suddenly, or all at once, but is opened gradually according to the power exerted on the pedals. This simple improvement will be recognized at once as being something especially fine in connection with the piano-organ, and it is not found in any other instrument on the market.

NEW PATENT OCTAVE COUPLER.

Another feature of this instrument is the new patent octave coupler operated by the middle pedal of the organ. This avoids the necessity of placing two extra stops on the organ, which would only detract from the piano effect of the case. It is an attachment whereby the tones of the instrument are coupled in both the treble and bass by pressing down the middle pedal. In order to release it, it is only necessary to press it a second time, when the coupler releases automatically. This will be recognized as a valuable addition to the instrument and will not be found on any other piano-organ on the market. The third pedal on this instrument gives the effect of a practice pedal on a grand piano, and adds to the magnificent appearance of the organ.

ACTION.

The action which we place in this organ is the very finest that can be obtained, and every bit of the material is thoroughly tested and examined before being used. Every bit of wood which enters into this action is thoroughly kiln and air dried before being worked up into the different parts for the action and so well are these things taken care of that we can guarantee our actions against defects in workmanship and material for a period of 25 years. All the different connecting parts are thoroughly felted with the best quality of wool felt, and all parts of the action intended to be air tight are covered by felt and sheepskin. In most organs the connecting parts are not felted and after they have been used for awhile they become loose and rattle. This is never found in the Beckwith organs. Every part of the action which we place in this organ is thoroughly and substantially built, so that the chances of it getting out of order are reduced to a minimum.

PIPE SWELL ATTACHMENT.

This instrument has fitted over the reeds a patent pipe swell attachment which so qualifies their tone as to make them a close imitation of the pipes on the grand pipe organ. This is an improvement much sought after by organ builders, but so far it is the only invention of its kind that has ever proven successful. It has caused the sale of a good many hundreds of these organs, and has never failed to call forth the highest praise of the performer.

BELLOWS.

This organ is fitted with the celebrated Beckwith bellows and reservoir which produces a powerful and well balanced tone. These bellows are constructed of three-ply built-up stock which cannot warp or split, and covered with fine rubber cloth which guarantees them against leaking. They are so arranged that the bellows exhausts the air in the reservoir, forming a vacuum, into which the air rushes through the reeds causing them to sound. The reservoir is fitted with our Patent Automatic Pressure Valve, which relieves the surplus air pressure and prevents the bellows being over strained by violent pumping. While these bellows have an extra large capacity the pedals are so arranged that the greatest amount of leverage is taken advantage of and the smallest child can sustain the full power of the instrument for an indefinite length of time without any great effort. By the bellows and reservoir combination which we place in this instrument, and in fact, all of our organs, we insure an easy and steady supply of air to the reeds and thus avoid that jerky, spasmodic effect which is so noticeable in other organs when the pedals are pumped violently.

THE STOPS.

All of the different sets of reeds which we place in this instrument are at all times under the control of the performer and can be worked into all sorts of harmonious combinations so as to bring out the real beauty of the instrument. These stops, or rather buttons, are easily within the reach of the player's hands and enable him to change the tone combinations of the instrument at will.

OUR OHIO FACTORY.

This splendid piano-organ is shipped direct from our factory in Central Ohio where it is made by the most improved labor saving machinery and skillful workmen. As this factory is centrally located, a great reduction in freight charges to all parts of the country is the result.

OUR 25 YEARS GUARANTEE.

We are willing to stand behind our organs, and we do not ask our customers to take any chances whatever when they purchase from us. We will ship you one of these organs with the understanding and agreement that if you should discover any defect in the workmanship or material within 25 years from the time you receive it we stand ready to make the defect good and satisfy you perfectly.

OUR 30 DAYS FREE TRIAL OFFER.

We send this organ out upon the same terms that we ship all our other organs and can place it in your home for 30 days, allow you to try it thoroughly and get the opinions of your friends before finally accepting it. How you can take advantage of this trial offer is fully explained on page 283, which we trust you will read carefully. Should you take advantage of our 30 days free trial offer, and the organ proves satisfactory within that length of time, we will then allow you one year in which time you can return the instrument at our expense and have your money refunded in case it should prove unsatisfactory. This is known as our one-year trial offer.

FREE.

We furnish absolutely free with this instrument a splendid stool, manufactured of wood to match the case of the organ, with handsome turned legs, brass claws and glass balls on the feet. We also furnish a handsome piano scarf, and a splendid instruction book by the aid of which anyone can learn how to play the instrument without the aid of a teacher.

\$42.25

BUYS THE NEW BECKWITH COTTAGE HOME ORGAN

A FINE, LARGE, HANDSOME ORGAN WITH 10 STOPS AND 122 REEDS. GOLDEN OAK CASE, 78½ INCHES HIGH, 44½ INCHES LONG AND 24 INCHES DEEP. Weight, boxed for shipment, 450 pounds. Sold under our liberal terms of shipment and covered by our Binding 25-Year Guarantee.

THIS ORGAN is manufactured for those of our customers who feel that they desire an instrument in their homes and are not situated financially so that they can purchase an organ of a higher grade. To those customers we wish to say that this organ is a very satisfying instrument, and while not as fine an organ as the other instruments of our line, it is far superior to other organs placed on the market at a much higher price. We seldom advise our customers as to which organ they should purchase, but we desire to say that it is always the very best kind of economy to purchase the best organ that your circumstances will permit.

because the small additional cost to you will be more than made up in the increased musical capacity of the organ which you purchase. Therefore, while we do not wish to discourage you from purchasing this organ, we suggest that you consider the other organs of our line, because every slight increase in price guarantees to you greater organ value, greater musical capacity, and a much more

satisfying instrument in every respect.

CASE. We furnish this organ in solid oak with the case nicely finished. The carvings with which the case is ornamented are all carefully cut by hand. The case is of a good design, as shown in the engraving, and is one which will prove a fine addition to any parlor. It has a pretty canopy top, finished with hand carvings and turned ornaments and fitted with an oval top mirror. The music desk is very wide and covers a large and roomy music cabinet. The top is designed so as to provide for lamp stands and brace-a-brace shelves and gives a very pretty effect to the entire instrument. The case is fitted with handles, casters and fall cover with lock and key. The pedals are furnished with tasty metallic guards, covered with Brussels carpet and fitted with the Beckwith device for preventing the pedal straps from wearing out and breaking. The instrument is one which will appeal to every one of taste and good judgment, and if you will compare it with any organ offered by any other dealer at a much higher price we know that you will find it to be a superior instrument in every respect.

ACTION. We fit this organ with 10 stops, 122 reeds and five swells for operating the swell and grand organs, making possible a great many harmonious and musical combinations. It is furnished with the very best reeds, with vibrating brass tongues solidly double riveted to heavy brass reed blocks. All of these reeds are made at our factory; cut, riveted, inspected, bent, voiced and tuned by the most skillful workmen. A constant and steady current of air is supplied to the reeds by the celebrated Beckwith bellows with which the instrument is fitted. The ten stops are as follows: Diapason, Principal, Celeste, Cremona, Diapason Forte, Principal Forte, Treble Coupler, Bass Coupler, Dulciana and Melodia. It has four sets of reeds as follows: One set of Principal reeds, 24 notes, one set of Melodia reeds, 37 notes, one set of Diapason reeds, 24 notes and one set of Celeste reeds, 37 notes. Every piece and part of this action is fully covered by our 25-year guarantee.

THE TONE. We guarantee the tone quality of this organ, and while it has not the immense musical capacity of the other organs of our line it has a sweet and mellow tone of good volume and is very pleasing. The stop and reed combinations are those which time and experience have proved to be the very best for an organ of this character. Every stop on the organ can be used for controlling and shading the tone in some way and the organ has no dummy stops whatever. There are a vast number of organs on the market today fitted with dummy stops, 1½ sets of reeds and an inferior action which are offered at a much higher price than we ask for this organ.

WE CAN SELL YOU THIS ORGAN AT

\$24.35 because we give you the full benefit of every advantage which we can gain in buying, handling and selling. It is the very best organ that can possibly be made and sold at this price, and you must not make the mistake of comparing it with any other organ at the same price, because it is a physical impossibility for any dealer, not possessing our buying and selling advantages, to offer you such an instrument as this at this low price. While we are always glad to ship this organ to our customers, we would much prefer to have them purchase one of the other organs of our line, not because we would expect to make a greater profit on the sale, but because they would be sure to receive an organ which would give them much better satisfaction in every respect. As we make the same small margin of profit upon every organ that we sell, of whatever style and price, the only advantage to us in selling a higher priced instrument rests in the greater satisfaction and pleasure which the customer receives from his purchase. By all means purchase one of our higher priced organs if possible, and if not possible, then we will gladly ship you this instrument with the assurance to you that you are receiving an organ which cannot be duplicated anywhere in the world for less than double the money.

OUR GREAT 30 DAYS FREE TRIAL OFFER fully explained and outlined on page 283, makes it very easy for you to place one of these organs in your home for a full trial and examination before paying us one cent.

FREE MUSIC LESSONS. To each purchaser of this organ we give a certificate entitling the holder to a complete course of music lessons on the instrument absolutely free. This course of lessons will be given by one of the best music colleges in the country.

THE PROFIT SHARING CERTIFICATE for \$24.35 goes free to every purchaser of this organ. It will entitle you to share at once in the profits of our immense business.

FREE. With this organ we give a very fine stool, made of wood and finished so as to match the case of the organ. The top is made of polished wood and so arranged that it can be raised and lowered at the convenience of the player. We also send a complete instruction book which will be of great assistance to the purchaser in learning to play the instrument.

BUYS THE COTTAGE FAVORITE ORGAN

ONE OF THE LATEST AND MOST GRACEFUL DESIGNS PRODUCED BY THE CELEBRATED BECKWITH ORGAN CO.

THE BECKWITH COTTAGE FAVORITE ORGAN is a very pretty instrument in every way, and has become very popular considering the short time it has been in our catalogue. A glance at the engraving will show you that it is a very attractive instrument from the standpoint of appearance, and as we furnish it with an action of good quality it is sure to be very pleasing and satisfactory from the standpoint of quality and volume of tone. While this organ does not possess the brilliant tone, quality and great volume which is a particular characteristic of the higher priced organs of our line, it is an instrument which will give you good service and be very ornamental and attractive in your home. We ship it out under our 25 year binding guarantee and in order that it may last and

No. 46F123

built by the most skillful workmen which we can secure. The Beckwith Cottage Favorite Organ is a substantial instrument in every way. The reeds are of high quality, the lumber of which it is made is thoroughly seasoned, the stop and reed combinations are adequate for the performance of any ordinary music, and we will be glad to have it compared with any organ which you may purchase from any other dealer at a much higher price. \$29.45 does not begin to represent the value contained in this instrument as compared with the

prices charged by dealers all over the country for organs of the same grade. If you are looking for an organ at a moderate price, which will give you good service we strongly recommend this instrument to your attention, but if you desire an organ of great volume, with a brilliant, mellow and rich tone, an organ fitted with all the latest devices for bringing the tone under easy control of the player, an organ of beautiful design and elegant finish; an organ which never fails to surprise and delight the purchaser, we refer you to either our Royal Grand Organ or our Imperial Grand Organ, as these are certainly the most splendid instruments which have ever been offered to the American public.

CASE. The case of this organ is of very pretty design, ornamented with neat hand carvings and covered with transparent varnish. We furnish it in either oak or walnut and it is very durable and solidly constructed. It has a very pretty canopy top finished and ornamented in keeping with the general outline of the design, furnished with a large music cabinet so arranged that the front can be pulled outward and downward by the player when taking out or replacing music. The front of this cabinet is fitted with an oval French bevel plate mirror as shown in the engraving and the top is so arranged as to provide for lamp or brace-brac shelves on each side. The music desk is extra large and acts as a cover for a large and roomy music cabinet and the top of the organ is so arranged that there is room on each side of this cabinet for a lamp or music books. The entire front of the organ below the knee swells is one large panel so arranged that it can be instantly removed should it be necessary to examine the bellows for any purpose. The pedals are fitted with metallic nickel plate frames, covered with Brussels carpet and fitted with the Beckwith device for preventing the pedal straps from wearing out and breaking. The case is fitted with handles, casters, fall cover, lock and key.

ACTION. As the tone is the most important feature of any organ this has been well provided for in the Beckwith Cottage Favorite Organ. It is fitted with a good quality of reeds manufactured in our own factories with vibrating brass tongues solidly double riveted to heavy brass reed blocks. They are all cut, riveted, inspected, bent, voiced and tuned by the most skillful workmen. For full information in regard to the making of these reeds see page 308 of this catalogue. The stop and reed combinations are those which long experience and study have shown to be peculiarly fitted for an organ of this grade and every stop can be used in some way for controlling and qualifying the tone and there are NO DUMMY STOPS WHATSOEVER. For a description of the characteristic tone quality of the reeds in this organ see page 308. The celebrated Beckwith bellows furnishes an even and steady supply of air to these reeds, avoiding the jerky, spasmodic effect which you will notice on other organs when the pedals are pumped violently. The construction of this bellows is fully explained on page 308, of this catalogue, and we know that you will find it to your advantage to read everything that we have to say regarding it.

FREE MUSIC LESSONS. To every purchaser of this organ we give a certificate which entitles the holder to a COMPLETE COURSE OF MUSIC LESSONS on the instrument. This course of instructions will be given by one of the very best music teachers in the country, and will be complete and satisfactory in every particular.

FREE. We furnish with this organ a very fine STOOL, made and finished to match the organ. The top is made of polished wood and can be raised or lowered at the convenience of the player. We also send free with this organ a complete instruction book, which will prove a great help in learning to play on the instrument.

THIS IS A LARGE STANDARD SIZE ORGAN. six feet six inches high, 44½ inches long and 24 inches deep. It weighs boxed and packed for shipment, 450 pounds.

TO GIVE YOU AN OPPORTUNITY TO THOROUGHLY TEST AND TRY ONE OF THESE ORGANS, we offer the most Liberal Terms of Shipment, which you will find fully explained on page 283 of this Catalogue.

A PROFIT SHARING CERTIFICATE GOES TO YOU FREE when you buy this organ. On pages 1 and 2 of this book you will find a complete list of the beautiful and valuable articles which we give in exchange for these PROFIT SHARING CERTIFICATES. No. 46F123 Action A, five octaves \$29.45 in oak. Price

THIS ACTION has 11 stops, as follows: Diapason, Principal, Celeste, Cremona, Diapason Forte, Principal Forte, Treble Coupler, Bass Coupler, Dulciana, Melodia, and Vox Humana; also two knee swells, swell organ and grand organ. \$27.35 OUR NEW PARLOR GEM ORGAN

THE FINEST LOW PRICE, SIX-OCTAVE COTTAGE ORGAN EVER PLACED ON THE MARKET.

AN ENTIRELY ORIGINAL DESIGN CONTAINING THE VERY LATEST IDEAS IN ORGAN CONSTRUCTION.

81 INCHES HIGH.

54 INCHES WIDE.

24 INCHES DEEP.

Boxed and packed for shipment it weighs 530 pounds.

WHAT SOME OF THE SATISFIED PURCHASERS OF THE PARLOR GEM ORGAN HAVE TO SAY ABOUT IT.

Below you will find a few of the many testimonial letters received from customers who have purchased the Parlor Gem Organ, and if you are considering the purchase of an organ of this grade it will be to your advantage to read them.

ARE VERY PROUD OF THE PARLOR GEM ORGAN.

To say that we are well pleased with the organ is to draw it mildly. The instrument came in good shape, and we are very proud of it.

New Harmony, Ind.
R. F. CARWRIGHT.

THE PARLOR GEM ORGAN A GREAT ADVERTISEMENT FOR US IN THIS COMMUNITY.

The organ we bought of you some time ago has been tested, and has proved to be a fine instrument, and the tone is very powerful. It is a great advertisement for you in this community.

C. C. WALFORD.

THE PARLOR GEM AS GOOD AS ANY \$65.00 ORGAN IN THE NEIGHBORHOOD.

I have received my organ and am well pleased with it. Some of my neighbors say that it is as good as any \$65.00 organ in the neighborhood.

FRED SHAW.

THE TONE OF THE PARLOR GEM AS GOOD AS ORGANS COSTING \$135.00.

We are very much pleased with the organ. We have had expert players to try it, and they all say it is a grand instrument. I saved from \$20.00 to \$25.00 in buying from you, and probably more. One player said the tone is as good as one she played on costing \$135.00.

Negley, Ohio.
JOHN BRAKRAM.

THE PARLOR GEM ORGAN IS THE FINEST IN HER LOCALITY.

I beg to say that my organ ordered from you is simply grand. Excellent in tone and quality and is considered to be the finest organ in my locality.

Vaughns Sta., Miss.
MONIA MARTIN.

PARLOR GEM MAKES THE SWEETEST MUSIC OF ANY ORGAN IN THEIR NEIGHBORHOOD.

I have used the organ about six months and can say that I am very much pleased with it. My friends and neighbors say that it makes the strongest and sweetest music of any organ in our neighborhood, and I thought it my duty to tell you of the praise your organ receives.

Wirtz, Va.
VIRGIE PEEL.

THE TONE OF THE PARLOR GEM AS GOOD AS AN ORGAN COSTING \$80.00.

We received the organ and are very well pleased with it. It's tone is today as good as when we first got it. Everyone who sees it and hears its tone thinks it is fine. Our neighbor thought it had a tone as good as their organ and they paid \$80.00 for theirs.

MRS. PETER DUERCKHEIMER.

THE PARLOR GEM ORGAN BETTER THAN CAN BE BOUGHT FROM AGENTS AT DOUBLE THE PRICE.

The organ came without a mar, and was just as represented. I think your organs are as good as can be bought from agents at double the price I paid. It has been tried by first class musicians and they all compare it with \$75.00 and \$80.00 organs. They say the tone is perfect. I will recommend your organs to all my friends.

MRS. H. K. NARACON.

THE ORGANISTS ALL SAY THAT THE PARLOR GEM IS A SPLENDID INSTRUMENT.

I had the organs tested by two good organists, and they say it is a splendid sounding instrument. I am satisfied that your company is honest and reliable, and can sincerely recommend your organ.

REV. H. COLBERT.

BOUGHT THE PARLOR GEM ORGAN FOR ONE-HALF THE PRICE HE WOULD HAVE TO PAY AN AGENT.

I am more than pleased with the organ. It is much better than I expected. I consider that I have saved half of what I would have had to pay an agent for one, so I want to advise all my neighbors to let agents alone and patronize Sears, Roebuck & Co. I can recommend your organs to any who may want to buy.

WM. HARDING.

THE PARLOR GEM ORGAN SURPASSED THEIR EXPECTATIONS IN SIZE, WORKMANSHIP AND TONE.

We enclose you a check for the Beckwith Organ, the number and quality of which you know. The organ has proven very satisfactory in every particular. It has the sweetest, most distinct tone and has such pretty carvings. It surpassed our expectation in size, workmanship and tone. We thank you very much for kindness and accommodation shown us and we can praise you upon your integrity which will be done gladly. Everything has been fulfilled in the contract. Hoping to have a receipt from you in the near future, I remain.

No. 46F128

BECKWITH CHAPEL ORGANS.

AN ESPECIALLY BEAUTIFUL LINE OF ORGANS FOR CHURCHES, SUNDAY SCHOOLS AND ALL KINDS OF PUBLIC HALLS.

WE ARE ESPECIALLY PROUD of our line of chapel organs, because no other on the market today is so well suited for the purpose of public meetings. We have made a study of the conditions under which such organs are to be used, have carefully considered the great demands which are to be made upon their musical capacities, the size of the rooms in which they are to be used, the character of the music to be played, etc., and as a consequence the Beckwith Chapel Organs have no superior on the market today. The musical qualities which a church organ must possess in order to meet all of the demands upon it and prove successful are entirely different from those required in a parlor organ. A parlor organ is, as its name suggests, for use in the parlor, which is generally a small room and does not require great depth and volume of tone. In a public hall conditions are entirely changed, and an organ for use in such a place must contain great breadth and volume of tone combined with sweetness and purity in order to come up to the requirements of such a place. The reeds which we place in these organs are all manufactured at our own factories, made out of the very best quality of brass with the tongues double riveted, bent, tuned and voiced by the most expert workmen. In preparing reeds for church organs the fact must always be kept in view that they are intended to be used in public halls and they must be prepared accordingly. In order to secure the breadth and volume of tone necessary for such purposes the reeds must be especially treated with this object in view. Very few manufacturers consider this point in building their church organs. They fit them with the same reeds, which are bent, tuned and voiced for parlor organ purposes and as a consequence the organ has a thin piping tone not at all suitable for church purposes. The manner in which we handle the reeds for all of our organs is largely responsible for the great reputation acquired by them. The care and skill which we put into this branch of organ manufacture has made the Beckwith Tone the standard of quality.

CASE DESIGNS. The designs for our church organ cases are drawn for us by some of the best designers in the country. They are all strictly new and handsome and you will find no out of date designs among them. A comparison of these cases with those offered by other dealers will convince you at once that for beauty of appearance, elegance of finish, and general fitness for public use they are far superior to any others on the market. Each one is given the finish which is most suitable for an organ of this character. They are all thoroughly and heavily covered with several coats of transparent varnish, which brings out the beautiful grain of the wood in splendid style. They are all fully covered by our wonderful 25 years guarantee, and sold under our great 30 days free trial offer. We make you and your church society the sole judge of the merits of the organ and its suitability for church use. It must prove satisfactory to you after a careful test and trial, and we do not ask you to make any decision on these points until after you have examined and tried it thoroughly.

37. William Park House Oct 21, 1904

Messrs. Sears, Roebuck & Co.,
Chicago, Ill.

Gentlemen:

This makes the fifth Beckwith Organ I order from you, for my pupils. Your organs give perfect satisfaction in every respect your prices are certainly astonishing, considering the excellence of tone and quality in these instruments. Thanking you for past favors I remain as

Yours truly
Otto Gerhardt
Organist & Music Teacher

U. C. Summary, St. Anthony P. Mine

A PROFIT SHARING CERTIFICATE FOR \$28.85 each one of these organs, absolutely free. For full particulars see pages 1 and 2 in this book.

DIMENSIONS. wide and weighs, boxed for shipment, 380 pounds.
No. 46F177 New Queen Chapel Organ. Action A, five octaves, oak, \$28.85
This action has eleven stops as follows: Diapason, Principal, Celeste, Cremona, Diapason Forte, Principal Forte, Treble Coupler, Bass Coupler, Dulciana, Melodia and Vox Humana. It has four sets of reeds as follows: one set of Principal reeds, 24 notes, one set of Melodia reeds, 37 notes, one set of Diapason reeds, 24 notes, one set of Celeste reeds, 37 notes. For a full description of the characteristic tone quality of these different sets of reeds see page 308.
If you desire the organ in solid walnut you must add \$2.00 to the above price.

WHEN YOU ARE READY TO SELECT YOUR ORGAN we wish to call your attention to this pretty instrument. While the case of this organ is very modest it is at the same time very neat and tasty and one which will prove very satisfactory for all kinds of public services. It has sufficient volume and general musical capacity to fill any ordinary church or public hall and is fully guaranteed for 25 years. It is offered especially for those who feel that they cannot afford to buy one of our higher priced church organs, and desire an organ of good musical capacity at a moderate price. This is the organ for which your dealer is asking from \$40.00 to \$45.00, and we will be glad to have you compare it with any church organ which he has to offer at these prices. While this is not by any means as fine an organ as our Cathedral Chapel, yet it is an instrument which will prove very satisfactory in any ordinary size church and will prove itself much superior to other church organs for which you will pay a much higher price. When you buy this organ you are not only buying an organ which is fully covered by our binding guarantee, but one which the Superior Jury of Awards at the World's Fair declared to be the very best in the world. For a confirmation of this statement, see page 295 of this catalogue.

CASE. The design of this case is very pretty and graceful and we can furnish it either in solid oak or walnut. It is nicely hand carved, decorated and ornamented, substantially and durably constructed and well finished. It is fitted with ornamental handles, casters and the latest design of fall cover with lock and key. It has an ornamental music desk, and top railing made of turned spindles and mouldings. The back is nicely paneled and ornamented so that it can be set in any position on the platform without presenting any unfinished sides to the audience. The pedals are covered with Brussels carpet bound with metallic frames, nickel plated, polished, and are fitted with the Beckwith device which prevents the pedal straps from wearing out and breaking. The back is so arranged that it can be opened instantly should it be necessary to examine the action for any purpose. We are willing to ship you this organ with the understanding that you cannot duplicate it anywhere for less than double the price we are asking, and if after examination and comparison you find that this statement is not absolutely true we will receive the organ back at our expense and cheerfully refund your money.

THE TONE. The tone of this organ is everything that can be desired in an instrument of its size and capacity. The reeds are all manufactured in our factory especially for this organ. They are made from the very best quality of brass with vibrating tongues solidly double riveted to heavy reed blocks. They are all bent, tuned and voiced by men who have made a life study of this work, and guarantee to this organ the breadth, volume and sweetness of tone necessary for an organ of this character. The stop and reed combinations are those which experience has proved to be the very best for a church organ of this size, and the entire action is so arranged that it is at all times under the easy control of the player.

No. 46F177 Showing Back of Organ.

Catalogue No. 46F185. Order by Number.

THE BECKWITH CHOIR GEM ORGAN

\$34.65 = A VERY BEAUTIFUL CHURCH ORGAN,

WITH RICH MELLOW TONE AND GREAT MUSICAL CAPACITY.
FULLY GUARANTEED FOR 25 YEARS AND SOLD UNDER
OUR GREAT 30 DAYS FREE TRIAL OFFER

GUARANTEED FOR 25 YEARS.

THIS IS THE LONGEST, STRONGEST AND MOST BINDING
GUARANTEE ISSUED WITH ANY ORGAN.

WHEN YOU ARE READY TO PURCHASE A CHURCH ORGAN we want to call your attention to this beautiful instrument. This is one of the favorite organs of our line and has become very popular on account of its many splendid qualities and the extremely low price which we make on it. In fixing a price on this instrument we have followed our usual policy and cut the price down to the very limit, because as these organs are always used in public places, they act as the very best kind of advertising for our house, and the profit which we sacrifice comes back to us in the shape of increased business. We desire to place one of these organs in your church or Sunday school and allow you to place it in comparison with any church organ offered you by any other dealer, and if you do not find, after such comparison, that an organ of this same grade will cost you at least \$65.00 you can box it up and return it to us at our expense and we will refund your money immediately without asking a question. All we ask is a fair and impartial trial and comparison and we are prepared to make you the sole judge of the merits of the organ. It is not fair to judge an organ by its outward appearance. It is much cheaper and easier to give an organ case a beautiful design and high finish than it is to furnish it with sufficient musical capacity to make it suitable for church purposes. It is possible that some other dealer may make you the same, or even a less price, upon an organ which appears to be the same instrument as ours, and in such case, if you will do us the justice to write us fully, stating the different claims which are made for the other organ, we will be glad to point out the different superior points in ours. In such case it will always be found that our organ has more reeds, more stops and greater musical capacity in every way than the organ offered by our competitor. As you desire to purchase the very best organ you can for the least money it will certainly pay you to give us every opportunity to prove that our organ is a superior one, because it gives you an opportunity to make your purchase intelligently and insures your receiving the very greatest amount of value for your money.

CASE. The case of this organ is furnished either in American black walnut or solid oak. It is very highly finished, is given several coats of transparent varnish and hand rubbed with pumice stone, oil and water, which removes the varnish gloss, leaving a deep, rich finish. The design is very handsome, strictly modern in every respect and will harmonize with the furnishings of any church, Sunday school or public hall. It is finished with a full paneled back, ornamented with carvings and scroll work, backed by colored dustproof cloth and so arranged that it can be removed instantly should it be necessary to examine the action for any reason. It has ornamental handles, casters, and the latest design of fall cover with lock and key. This fall cover is hung on a swinging frame and can be opened or closed without sticking or binding. The music rack is of graceful design and the top of the case is ornamented with a pretty railing, hand carvings and machine turned ornaments. The top is so arranged as to provide for lamp stand on each side of the music rack to allow ample room for placing music and hymn books. The front lower panel can be removed without difficulty in case it is necessary, and the pedals are covered with Brussels carpet, bound with metallic frames highly nickel plated and fitted with the Beckwith device for preventing the pedal straps from wearing out and breaking. The neat bench which we give with this organ is in perfect keeping with the design and is ornamental and tasty. The keyboard is supported on each side by machine turned spindles giving the entire instrument an appearance of elegance not found on other church organs at anywhere near this price.

TONE. This organ has a very sweet and mellow tone combined with sufficient volume to fill any church, Sunday school or public hall. All of the reeds are manufactured, bent, tuned and voiced in our own factories and are prepared especially for this instrument. They are all made of the very highest quality of brass with brading tongues solidly double riveted to heavy reed blocks. For a full description of the making of these reeds, their names and different characteristic tone qualities see page 308. A great many manufacturers do not discriminate between parlor and church organs in preparing their reeds and the consequence is that the tone of their different organs is not marked by that character which distinguishes the Beckwith line. While we place the same sets of reeds in our church organs that we do in our parlor organs they are all bent, tuned and voiced according as they are to be used for church or parlor organ. Perfectly satisfactory results cannot be secured in any other way, because church and parlor organs are used for an entirely different purpose and under entirely different conditions. In order to insure an even and powerful volume of tone this organ is fitted with the celebrated Beckwith Automatic Bellows, which is fully described on page 308.

IF YOU ARE THINKING OF PURCHASING A CHURCH ORGAN you cannot afford to make your purchase elsewhere without giving us an opportunity to send you one of these fine instruments for examination and trial. When you ask us to send you one of these organs under our liberal terms of shipment, which are fully explained on page 283, you do not take any responsibility or assume any obligations whatever. We take all the risks of shipment and assume all of the chances and responsibilities and only ask you to give the organ a perfectly impartial test and trial. We do not care how severe this test may be, if it is fair and impartial and made by disinterested parties, we will be perfectly satisfied with the result. As you and your church society are the ones who have to use the organ you should be perfectly satisfied that it is everything that you desire and an organ which will prove satisfactory with continued use; and we are perfectly confident that such trial and examination will fully convince you that you cannot purchase an organ of this grade from a local dealer for less than \$65.00. We have made a special effort to make our line of church organs the very highest in quality and that we have succeeded is fully proved by the decision of the Superior Jury of Awards at the World's Fair and the thousands of testimonials we receive every year from satisfied purchasers. We are aware of the fact that local dealers are always ready to make a large discount, or allowance from their prices in order to place one of their organs in a church or Sunday school and this always looks as though they were really giving something to the society, but a little thought will show you that they are simply reducing a trifle the usually large profit which they make and that the original price of the instrument was placed at a high figure for the very purpose of making you this allowance or discount. We do even better than this. We place our original prices so low that no matter how large a discount or allowance the dealer may make he cannot make it sufficiently large to bring his price anywhere near as low as ours. We often have requests from church societies to make discounts or allowances from our catalogue prices, but we find it impossible to do so, because we are selling these organs now at such a very narrow margin of profit that any allowance we might make would result in a loss to us.

FREE MUSIC LESSONS. With every Choir Gem Organ we give a certificate of musical instruction on the instrument, which entitles the holder to a free course of

A NEAT ORGAN BENCH is given free with this organ and also a complete instruction book.

YOU SHARE IN OUR PROFITS WHEN YOU BUY THIS ORGAN, because we give you a profit sharing certificate for \$34.65, or \$38.65, according to the organ you purchase. For a complete list of the many valuable articles which we give in exchange for these certificates, see pages 1 and 2 in this book.

DIMENSIONS. This organ is 4 feet 8 inches high, 3 feet 10 1/2 inches wide, 2 feet deep and weighs, boxed for shipment, about 400 pounds.

No. 46F185 Action A, Five Octaves, in oak \$34.65
This action has eleven stops as follows: Diapason, Principal, Celeste, Cremona, Diapason Forte, Principal Forte, Treble Coupler, Bass Coupler, Dulciana, Melodia and Vox Humana. It has four sets of reeds as follows: one set of Principal reeds, 24 notes; one set of Melodia reeds, 37 notes; one set of Diapason reeds, 24 notes, and one set of Celeste reeds, 37 notes.

No. 46F186 Action C, Five Octaves, in oak \$38.65
This organ has fifteen stops as follows: Diapason, Principal, Dulciana, Melodia, Celeste, Cremona, Viola, Flute, Bordón, Dulcet, Diapason Forte, Principal Forte, Treble Coupler, Bass Coupler and Vox Humana. BECKWITH

CATHEDRAL CHAPEL ORGAN

No. 46F198
FOR

\$56.65

Without Doubt the Most Magnificent Chapel Organ Ever Placed on the Market. Splendid in Tone, Elegant in Appearance, Beautiful in Finish and Graceful in Design.

WE OFFER THIS ORGAN as being superior to any organ ever offered to the public. The design is elaborate and at the same time simple; it is handsome and at the same time solid and substantial. It has an appearance of quiet strength which is one of its distinctive features and the details of the case are very delicate and pretty. The entire design is full of original ideas so consistently worked out that the result is highly satisfactory and pleasing. We do not hesitate to advise our customers to purchase this organ to the exclusion of any other church organ made. The organ bench which we send with this instrument is made especially for it so as not to destroy the effect of unity and consistency which is such a prominent feature of this design. For churches, Sunday schools, lodges, public schools and public halls of all kinds this instrument has no equal. This is the organ for which dealers are asking from \$100.00 to \$150.00, and if you will give us the opportunity to ship you one of these organs, and do not find when you receive it that it is in every way equal, if not superior to any organ for which you would have to give the above mentioned price, you can return it to us at our expense, and we will gladly return your money, paying all freight charges both ways. If you are figuring on purchasing a church organ you naturally desire to secure the very best bargain you can for the money which you have to invest, and we desire to give you the fullest opportunity to thoroughly test and try one of our organs before calling upon you to make your final decision. We will be glad to place this organ in your church where it can be examined by every member of the society, where it can be inspected and tested by the most competent musicians and critics and compared impartially with any other church organs in your neighborhood of whatever price or grade, and if you are not completely convinced that our organ is the superior instrument in every respect, and the one which will give you the best service with continued use, send it back to us entirely at our expense, and we will return your money. Please read page 283, where you will find our wonderful "Send No Money Offer" fully and clearly explained.

An examination of the accompanying engravings will at once convince you that this is the most superb design that you have ever seen in a church organ. We secured this design at the cost of great trouble and expense, as it appealed to us as being one of the richest, most graceful and elegant we had ever seen in our long experience. Notice the simple and graceful way in which all of the

carvings and scroll work have been treated, and the generally solid and massive effect which has been secured by their consistent combination. A detailed description of this design would not tell you nearly as much as one glance at the instrument itself. We furnish it either in beautiful solid oak with quarter sawed oak front, rich American black walnut. All of the carvings are hand wrought, the scroll work is carefully and clearly cut, and not one part is slighted. The music desk is a beautiful piece of scroll work and the top is finished with machine cut designs and turned spindle moldings. The keyboard is supported on each side by elegant three column trusses and the key slip is ornamented with scroll work backed by colored dustproof cloth. It has ornamental handles, casters, and an improved fall cover with lock and key. This fall cover is hung on a swinging frame which allows it to open and close without sticking or binding. The back is beautifully ornamented with hand carvings and scroll work, the top being so arranged that it can be instantly removed should it be necessary to examine the action. The pedals are fitted with metallic frames highly nickel plated and polished, are covered with Brussels carpet and fitted with the well known Beckwith device for protecting the pedals and preventing them from wearing out and breaking.

ONE. The tone of this organ is remarkable in every respect. It is fitted with nine sets of reeds all manufactured in our own factories of the very best quality of brass, not tuned, voiced and especially prepared for this organ. For a full description of the characteristic tone qualities of these reeds see page 8. We fit this organ with the Beckwith Grand Orchestral Action, the best wonderful combination of reeds and stops ever placed in an organ. This wonderful action is controlled by the grand organ knee swell and is drawn on and off at the pleasure of the player. Besides the usual reeds we supply this organ with an extra set of subbass reeds which increase the profundity of tone to a wonderful degree. The nine sets of reeds, the thirteen necessary stops and the wonderful Beckwith Grand Orchestral action make this the most powerful reed organ ever placed on the market. In order that the full capacity of this organ may be at the command of the player at all times we fit it with an extra large automatic Beckwith swell which enables the performer to control the full power of the instrument without difficulty. Each set of reeds can be used separately so desired or the performer can throw on the grand orchestral action which combines all these different sets of reeds into one sonorous and ofoud volume of tone, which never fails to produce an effect of startling beauty. All of these splendid qualities combine to make the Beckwith Cathedral Chapel Organ an ideal church organ in every respect, and unhesitatingly recommend it as an organ which will satisfy you in every way.

FREE MUSICAL INSTRUCTION. With every one of these organs we give a certificate which entitles the purchaser to a complete course of musical instruction on the organ to be given by one of the best music teachers in the country.

FREE. We send free a fine organ bench, as shown in the illustration, and a complete instruction book which will be of great assistance in learning to play on the instrument.

PROFIT SHARING CERTIFICATE GOES TO YOU FREE when you buy this organ. The certificate which we give you entitles you to share at once in the profits of our business. For a complete list of the many beautiful and valuable articles which we give in exchange for these certificates, see pages 1 and 2.

NO. 46F198 Action E, Five Octaves, Oak, Price..... \$56.65
NO. 46F200 Action E, Six Octaves, Oak, Price..... 63.65

This action has eighteen stops as follows: Diapason, Principal, Dulciana, Melodia, Bourdon, Clarinet, Cornet, Cornet Echo, Cremona, Treble, Viola, Celeste, Subbass, Bass Coupler, Treble Coupler, Diapason Forte, Principal Forte and Vox Humana. It has nine sets of reeds as follows: one set of Principal reeds, 24 notes; one set of Melodia reeds, 37 notes; one set of Diapason reeds, 24 notes; one set of Celeste reeds, 37 notes; one set of Flute reeds, 37 notes; one set of Bourdon reeds, 24 notes; one set of Clarinet reeds, 24 notes; one set of Cornet Echo reeds, 37 notes; one set of Subbass reeds, 13 notes; 257 reeds in five octaves; 305 reeds in six octaves.

If you desire the organ in walnut you must add \$2.00 to the above price.

Please read page 283, where you will find our wonderful "Send No Money Offer" fully and clearly explained.

\$1.95 VIOLINS \$22.45

AT \$1.95 TO \$22.45

**WE OFFER GREAT BARGAINS IN VIOLINS,
EACH AND EVERY INSTRUMENT CAREFULLY
TESTED AND APPROVED BY OUR VIOLIN EXPERT.**

OUR LINE OF VIOLINS was never so complete and of such high grade as at the present time. Our prices were never so low and we were never in a position to offer greater values in these popular instruments than we are at the present time. Some dealers are offering violins as low in price as 79 cents, but we feel that in offering a violin at \$1.95 we are striking the very lowest limit at which a violin can be offered containing any qualities of real merit. We could sell to our customers' violins lower in price than any other dealer can offer, but we could not afford to sell and recommend to our customers violins which we know will not give satisfaction. From the very lowest to the very highest priced violin in our line each instrument is the very best value that can possibly be offered for the money. We will be glad to have you compare any instrument in our line with any violin offered by others at double the prices we are asking.

THE VALUE OF A VIOLIN depends upon two things—workmanship and material. The grade of workmanship and the quality of the material which enter into a violin can be fully judged by an expert only. The manager of our musical department has made a life study of violins and violin values, and has selected from among the hundreds of samples submitted, the following violins, which represent the very greatest values which can possibly be given at the prices asked. The purchase of a violin from us guarantees your receiving an instrument which cannot be duplicated for less than double the prices we are asking. The expert knowledge of the manager of this department and our great purchasing power are both entirely at the service of our customers. Should you desire a personal selection to be made for you, the manager will be glad to comply with your wishes, and select a violin for you which will represent full value and more for the price you pay. No instruments

are so susceptible of false valuations, but our knowledge and experience of violin values fully protect you against any danger of loss in this respect.

OUR LIBERAL TERMS OF SHIPMENT make it possible for you to order any violin from us for examination and comparison without entering into any obligations or making any promise to accept it until you satisfy yourself by examination that it is the very best value that can be obtained anywhere for less than double the price we ask.

THE FITTINGS which we send with all of our violins are in every way equal in value to the instrument itself, and the bow which we give, free, with each instrument is not the usual cheap thrashy affair sent out with the violins sold by other dealers, but is in every way on a par with the violins themselves. The bow is a very important part of the outfit, and as it is good or bad, so will be the tone produced on the instrument. These are all things which you should take into consideration when figuring on the purchase of a violin. Do not be misled by the apparently lower prices offered by other dealers, as our great buying advantage and our inexpensive method of sale make it possible for us to sell our goods at lower prices than any other dealer can make. It is impossible for other dealers to undersell us on any goods without sacrificing quality to price.

FREE FURNITURE, FREE CLOTHING, Etc.

You get a **PROFIT SHARING CERTIFICATE** for every purchase and these entitle you to valuable articles **FREE**, as explained on pages 1 and 2 of this book.

OUR \$3.85 CONSERVATORY VIOLIN.

This violin is made after the celebrated Stradivarius model. The wood of which it is constructed is old and well seasoned material, and the entire instrument is put together with great care. It has the characteristic Stradivarius neck and scroll and the tailpiece, fingerboard and pegs are made of solid ebony. The body of the instrument is finished in a rich, red color, shaded into amber, and covered with a beautiful transparent varnish. It is double lined and carefully blocked. Do not class this instrument with violins which are usually sold by dealers at this price, because it is an instrument which will compare favorably with the violins usually offered for sale by other dealers at from \$6.00 to \$8.00. The very best material and workmanship which can possibly be furnished at this price enter into its construction, and we can recommend it as the very best value which can be obtained in a violin for less than double the price we ask. We will be glad to have you order this instrument and compare it with violins offered generally throughout the country at

more than double the price, and we know you will find it superior in every way. Shipping weight, 10 pounds.

With this violin we furnish the following outfit:

Our Conservatory Violin, as described above.....

OUR \$1.95 STRADIVARIUS MODEL VIOLIN.

\$1.95

No. 12F210 In this violin we are furnishing a genuine Stradivarius model at an extremely low price. While we always recommend that our customers buy the very best violin their circumstances will permit, still we believe

you will find no instrument at this price which will give equal satisfaction. This violin is modeled very carefully after the celebrated violins of Stradivarius. It is made of selected wood, has very neat maple back and sides with top of resonant spruce. The tailpiece, fingerboard and pegs are of very fine imitation ebony and the body of the violin is finished in a brownish red color shaded into yellow. The purfling is very neatly and evenly inlaid and the entire instrument has the appearance of the \$4.00 violin ordinarily sold by music dealers. Do not make the

mistake of comparing it with the violins usually sold by dealers at \$1.95, as it will be found far superior in every respect. With this violin we give a certificate entitling the

holder to a course of ten weekly lessons on the instrument.

AN EXACT COPY OF
THE CELEBRATED
MAGGINI
VIOLIN.

No. 12F216 This violin is one of the neatest violins we have to offer in our cheaper line. It is an exact copy of the celebrated Maggini violins and the characteristic Maggini double purfling gives it a very trim, graceful appearance. The back is made of two pieces of beautiful flamed maple, and the sides of the same material. The top is made of old, well seasoned spruce and the soundholes are evenly and gracefully cut. The tailpiece, fingerboard and pegs are of solid ebony and the scroll is the characteristic neat Maggini model. The body of the instrument is finished in golden red, blending into the natural color of the wood in a very effective manner. This is one of the very best values that we have to offer in a moderate priced violin and in beauty of appearance, excellence of tone and durability of construction it cannot be equaled by any violin on the market at anywhere near this price.

WE FURNISH WITH THIS VIOLIN a very nicely finished serviceable bow, which is in every way as good a value as the violin itself, a box of rosin, an extra set of strings, a complete instruction book, fingerboard chart and a marbled pasteboard case. We also give a certificate which entitles the holder to a course of fifty weekly lessons on the instrument. Price.....

REMEMBER you not only save money on your violin purchase, but you get one of our valuable Profit Sharing Certificates also.

No. 12F218 This violin is an exact copy of the famous Stainer violins, a characteristic of which is the bulging top and back and a long flat scroll. The original Stainer violins are today much sought after by artists on account of their exceedingly beautiful tone. Great care has been used to pattern this instrument exactly after this celebrated model. The back of the instrument is made of two pieces of very highly flamed, well seasoned maple, the sides being of the same material. The top is made of well seasoned resonant silver spruce, and the soundholes are graceful and very sharply and neatly cut and the purfling is accurately and evenly inlaid. The body of the violin is a deep red color blending into the natural color of the wood. The tailpiece, fingerboard and pegs are of solid ebony. If you will compare it with the violins usually sold by dealers throughout the country you will find that you cannot purchase an instrument of this grade elsewhere for less than \$10.00 to \$12.00.

THIS VIOLIN GOES COMPLETE with well made, durable bow of good pattern and finely finished, a complete instruction book, a box of rosin, an extra set of strings, a fingerboard chart and a very nice marbled pasteboard case. Also a certificate which entitles the holder to a course of fifty weekly lessons on the instrument. Price.....

WE SHARE our profit with you. Your PROFIT SHARING CERTIFICATE will help you get something for nothing from us.

No. 12F222 This violin is a very accurate copy of the celebrated Stradivarius violin, and is the characteristic flat pattern of this maker. The Stradivarius violins are the most gracefully made instruments of all the celebrated makers. Antinous Stradivarius unquestionably carried the art of violin making to its very highest perfection and today his violins are the most highly prized of any of the works of the great violin makers. Our \$6.10 Stradivarius model violin has a two-piece back of fine grained, well flamed maple, the sides being of the same material. The top is made of old, well seasoned resonant silver spruce, and the soundholes are of the graceful Stradivarius pattern. The body of the violin is finished in rich, deep red color, shaded into a light yellowish red, and the transparent varnish brings out the grain of the wood and the color of the finish in a beautiful manner. The tailpiece, fingerboard and pegs are made of solid ebony. The edges of the top, back and scroll are finished in the natural color of the wood, giving it a rich, graceful appearance.

We ship this instrument complete with a durable and well finished Brazilwood bow, a complete instruction book, an extra set of strings, a box of rosin, fingerboard chart and a nicely marbled pasteboard case. We also give free a certificate which entitles the holder to a full course of fifty weekly lessons on the instrument. Price....

No. 12F223 Amati Model Violin. This violin is a perfect copy of the violins of the celebrated Nicholas Amati and has the characteristic one-piece back of that celebrated maker. It is handsomely finished and gracefully outlined and contains wonderful value for the price we ask. The back is made of one piece of selected curly maple. The sides are made of maple, and the top of very old, thoroughly seasoned silver spruce. The soundholes are of the small graceful Amati pattern and the purfling is very fine and beautifully inlaid. The instrument is finished in a light chocolate brown color, and the transparent varnish with which it is coated is highly polished and brings out many beauties in the grain of the wood. The tailpiece, fingerboard and pegs are of solid ebony and the scroll is neatly cut. This is the violin for which your dealer is obtaining from \$12.00 to \$15.00, and we will be glad to have you compare it with any instrument at this price offered by any other dealer.

No. 12F262 This violin is a fine copy of the celebrated King Joseph violins, made by Joseph Guarnerius in the best period of his career. It has a beautifully flamed two-piece back made of selected, well seasoned maple. The sides are made of maple, the top of especially selected Cremona silver spruce. The soundholes are the characteristic Guarnerius pattern and the purfling is perfectly inlaid. The edges of the top, bottom and scroll are finished in natural wood, adding greatly to the beauty of its appearance. The instrument is a deep, rich red throughout,

covered with a splendid transparent amber varnish and highly polished. The tailpiece, fingerboard and pegs are of solid ebony and the scroll is accurately and gracefully cut. Order this violin and give it a thorough trial and examination, and if you do not find that it is in every way equal to any violin that you can purchase elsewhere for from \$14.00 to \$16.00, we will cheerfully receive it back and return you your money. This instrument is shipped com-

plete, with a good quality Brazilwood bow, finely finished and skillfully made, complete instruction book, box of rosin, extra set of strings, fingerboard chart and a very nicely finished wooden case, also a certificate entitling the holder to a complete course of instruction on the instrument. GRADE VIOLIN, EX-
CELLENTLY MADE AND
TASTEFULLY ORNA-
MENTED.

No. 12F263 If you desire a violin at a moderate price, handsome in appearance, beautiful in tone and durable in construction we know that this fine Stradivarius model violin will appeal to you. This instrument is made of old, well seasoned wood especially selected for its resonant qualities and its great age. The color of the body is deep rich red blending into a yellowish tint. The scroll is handsomely hand carved and the tailpiece, the fingerboard and pegs are made of genuine ebony. The pegs and tailpiece are beautifully inlaid with mother-of-pearl. The nut is

made of ivory, which is very durable fingerboard. The entire instrument is covered with beautiful transparent varnish, which shows off the grain of the wood very nicely, but the real beauty of this violin does not consist in its elegant appearance, but in its splendid tone. It is double lined throughout and blocked so as to insure the permanency of its tone. With this instrument we give the following out-

fit without extra charge: One Brazilwood bow, well balanced, made of selected wood after the best model, with ebony frog, German silver trimmed and inlaid with a handsome design in mother-of-pearl; one nicely finished wood case, one extra set of strings, one piece of rosin, one complete instruction book, one fingerboard chart and a certificate entitling the holder to a complete course of instruction on the instrument. No. 12F264 This violin is a copy of the celebrated violins of Jacob Stainer of a higher grade than the No. 12F218, quoted on a previous page. It is a very good specimen of the expert violin maker's art and is a magnificent value at the price we ask. It has a two-piece maple back made of old, thoroughly seasoned maple, beautifully figured and flamed. The sides are maple and the top is made of carefully selected, thoroughly seasoned old Cremona spruce. It has the characteristic Stainer soundholes and the tailpiece, fingerboard and pegs are made of

solid ebony. The instrument is finished in a rich wine color blending into the natural color of the wood. It is covered with beautiful transparent varnish polished to a high degree. This is an instrument which cannot be duplicated for less than from \$18.00 to \$20.00 anywhere in the country, and we are only able to offer it at this extremely low price on account of our inexpensive method of sale. We would be glad to send you one of these instruments under our 10 days trial proposition, and give you an opportunity to compare it with any violin in your neighborhood purchased at anywhere near this price, and if you do not find

that this is superior in every way, you can return it to us, and we will cheerfully refund your money.

We ship this violin complete with a very fine Brazilwood bow, equal in quality to the violin, a complete instruction book, a box of rosin, an extra set of strings, fingerboard chart and a nicely finished well constructed wooden case; also a certificate which entitles the holder to fifty weekly lessons on the instrument, covering a period of one year. A \$25.00 Violin for \$13.85
and a PROFIT SHARING
CERTIFICATE for \$13.85
to help you get your share
of our profit, as explained
on pages 1 and 2.

No. 12F266 This violin is an elegant copy of the violins of Caspar da Salo, who was born in Lombardy in 1558. The illustration given above will give you a very good idea of the characteristic ornamentation of the violins of this maker. These violins have the double purfling, the same as the Maggini, but the bulge of the top and back is not so marked, and the soundholes differ in shape. The back of this violin is made of two pieces of beautifully marked and flamed maple. The sides are made of maple, and the top of very close grain, thoroughly seasoned

Cremona spruce. The purfling is beautifully and accurately set, and the model is one of the finest ever conceived. The instrument is a deep, rich red, softened by a tinge of yellow, giving the instrument a very elegant appearance. The instrument is very highly polished and covered with a coat of transparent varnish. The tailpiece, fingerboard and pegs are made of genuine ebony, and the outlines of the scroll are graceful in the extreme.

We ship this violin complete with a high quality, well balanced, Brazilwood bow, a complete instruction book, an extra set of strings, a box of rosin, a fingerboard chart and a well finished and constructed case. We also give a complete course of fifty lessons on the instrument. Price..... \$13.85

\$16.25

OUR PERUGINI VIRTUOSO VIOLIN.

BACK VIEW

No. 12F271 This violin is an excellent copy of some of the very rarest of the violins of Antonius Stradivarius, which were made with one-piece back. It will be necessary for you to see this violin and examine it before its real beauty will become apparent. Its beautiful outlines show the handwork of the violin maker who loves his profession for its own sake. The back is made of one piece of especially selected beautifully figured maple. The sides are of the

same material, and the top is made of very rare old Cremona spruce. The violin gets its delicate appearance from the manner in which the purfling is inlaid, it being set very close to the outside edge of the top and bottom of the instrument. The instrument is finished in a beautiful shade of reddish brown and polished to the last degree of completion. The tailpiece and fingerboard are made of genuine ebony and the pegs of rosewood. It is double lined throughout and carefully blocked. The scroll is beautifully carved and has the word "Virtuoso" stamped upon it. This is a violin such as you will very seldom find for sale by local music dealers.

We ship this instrument complete with an exceptionally high grade Pernambuco bow with frog German silver trimmed, complete instruction book, extra set of strings, box of rosin, fingerboard chart and a well finished wooden case. Please notice that the label in each one of these violins is carefully signed with the autograph of its maker. We give with this violin a complete course of instruction on the instrument, consisting of fifty weekly lessons. Price..... \$16.25

OUR GENUINE HEBERLIN.

\$19.95

FRONT VIEW

BACK VIEW

No. 12F278 This violin is an exact copy of the violins made by Nicholas Amati, one of the chief characteristics of which was a one-piece back. It would be an extremely difficult matter to find a violin more beautiful in

appearance than this exquisite instrument. The one-piece back is made of especially selected curled and flamed maple. The sides are made of the same material, and the top is made of very rare, old Cremona spruce. The model of the violin is very dignified and beautiful, and the body of the violin is finished in natural wood, tinged with golden yellow, blending off into a beautiful yellowish red. The instrument is double lined, carefully blocked, and the tailpiece, fingerboard and pegs are made of polished ebony. The pegs and tailpiece are ornamented with

gold plated tips, which add much to the beauty of the instrument. This is an instrument which has been extensively imitated throughout the country, and we desire to caution our customers against purchasing a so-called Heberlin violin, unless fully satisfied that it is genuine. We send a certificate of guarantee with each violin, signed by the maker, and each instrument has the autograph of the maker written across the label on the inside of the violin, and should anyone offer to sell you a Heberlin violin, you can easily detect the

fraud by examining the label. The illustration given above will give you but a very poor idea of the real beauty of this instrument. We ship this violin complete with a very high quality Pernambuco Tourte model bow, with full German silver trimmed frog, complete instruction book, extra set of strings, box of rosin, fingerboard chart and a finely finished wooden case. We give to each purchaser of this violin a certificate which entitles the holder to a course of instruction, consisting of fifty weekly lessons. Price..... \$19.95

No. 12F281 This violin is a copy of the celebrated Stradivarius violin, beautifully worked out by the maker, L. Ludwig. It has a two-piece back of carefully selected, well seasoned maple, beautifully figured and flamed. The sides are maple and the top is made of carefully selected, close grained, thoroughly seasoned silver spruce. The soundholes are accurately and delicately cut, and the entire general appearance of the instrument is very handsome. The body is finished in brownish red color covered with especially prepared varnish. It is highly polished and the pegs and tailpiece are furnished with gold plated ornaments. Should you desire an instrument for orchestra or solo work where a

powerful and sweet tone is desired we would unhesitatingly recommend this violin. Each violin bears the autograph of the maker across the label on the inside. Do not allow yourself to be deceived by imitations. This is a violin which cannot be duplicated anywhere in the country for less than \$35.00 to \$40.00. It will improve with age, and prove in the end a very

profitable investment. We ship this violin complete with an extra quality Pernambuco wood bow, Tourte model, complete instruction book, extra set of strings, box of rosin, fingerboard chart and well finished wooden case. We also give with this violin a complete course of instruction, consisting of fifty weekly lessons. Price..... \$22.45

An Exact Copy of one of the very best specimens of the Violins made by the celebrated Antonius Stradivarius.

No. 12F282 Antonius Stradivarius was the greatest maker of violins that ever lived. His violins are today among the

very highest priced and some specimens have been sold for as high as \$10,000.00. Curatoli, one of the best known modern violin makers of Italy has copied one of the choicest of these rare old violins and furnished us with a limited number of violins, which are an exact imitation of the wonderful Stradivarius violin mentioned above. Not only has he copied the model and proportions exactly, but he has also imitated the violin in every respect. The varnish and wood show the same signs of age, the top around the chinrest is worn, the color is exactly the

same and so exactly has he copied the old violin that no one but the most clever expert can distinguish it from a violin worth thousands of dollars. The varnish has the same rich glow and luster, which is one of the chief characteristics of the old Cremona varnish, and, while the maker has succeeded in duplicating the old violin in appearance he has also duplicated the deep sonorous tone which gives it its great value. If you wish to be the possessor of a

violin which is an exact duplicate of a \$10,000.00 Stradivarius this is the instrument you are looking for. We furnish with this violin a splendid Pernambuco wood bow, Tourte model, complete instruction book, extra set of strings, box of rosin, fingerboard chart and well finished wooden case. Also a complete course of instruction consisting of 50 weekly lessons. Price..... \$29.85

Shipping weight, 7 pounds.

WE SHIP THIS OUTFIT to the customer with the assurance that it cannot be purchased in the regular way for less than \$13.00 to \$14.00. We are willing to have the purchaser compare it with anything his local dealer has to offer at these prices, and if he does not find that it is equal, and in many points superior, he can return the entire outfit to us, we will refund the money paid and pay the express charge both ways.

WITH THIS OUTFIT we give a certificate which entitles the holder to a complete course of musical instructions.

Maggini model and is the very best violin ever offered in an outfit at this price. The back is made of two pieces of very nicely flamed maple and the sides are constructed of the same material. The top is made of a carefully selected piece of thoroughly seasoned silver spruce, and the tailpiece, fingerboard and pegs are made of solid ebony. The body of the instrument is finished in a dark reddish brown, blending into the natural color of the wood. You will find this a very handsome violin and a very great bargain at this price. The neck is curly maple, very finely finished, and the scroll is neatly and gracefully cut.

OUR HIGH GRADE CHALLENGE OUTFIT FOR \$7.25.

THIS OUTFIT IS OFFERED to those who desire to invest a little more money in an outfit than we ask for the above. Every article which it contains is the very best which can possibly be supplied for the price we ask, the entire outfit has been gotten up with great care so as to insure the customer receiving something which will be perfectly satisfactory to him and fully supply his needs. Remember, also, that you will get a Profit Sharing Certificate, and in this way you can quickly share in our profit and get something entirely free, as explained on pages 1 and 2.

WITH THIS OUTFIT we send a certificate which entitles the customer to a full course of instructions on the instrument, consisting of fifty weekly lessons, covering a period of one year. This certificate costs you absolutely nothing, and the lessons are given by one of the best musical colleges in the country. You will find full particulars of this splendid offer fully outlined and explained on page 285 of this catalogue.

THIS OUTFIT is made up of one genuine Stradivarius model violin, one Brazilwood bow, case, extra set of strings, rosin, instruction book, fingerboard chart and a tuning pipe.

THE VIOLIN which we give with this outfit is a genuine Stradivarius model, very handsomely and durably made. The back is made of two pieces of beautifully curled and flamed maple. The sides are made of a very pretty piece of maple and the top of a well selected piece of close grained silver spruce. The tailpiece, fingerboard and pegs are made of solid ebony, the scroll is very nicely cut and the body of the instrument is finished a yellowish brown color very nicely blending into yellow.

OUR SPECIAL CONSERVATORY OUTFIT FOR \$9.85.

THIS OUTFIT is a little higher in price than those preceding it and is fully as great a bargain as any in our line. Each article which goes to make it up is carefully selected and is of the very best, considering the price of the outfit. Do not make the mistake of comparing this outfit with the outfits sold generally by dealers throughout the country at this price, as this is a regular \$30.00 outfit, and cannot be purchased for less than that amount from any dealer in the country. Our buying advantage is so great that we are in a position to get the very lowest possible prices upon all classes of goods, and as we import all of these goods from Europe we are able to quote the actual importing price with but our one small percentage of profit added. Every bit of advantage we can gain, either in buying or selling, we give to our customers in

low prices. That is the reason why we can sell this \$30.00 violin outfit at \$9.85. The outfit contains one special high grade Guarnerius model violin, with a beautifully flamed two-piece back made of selected well seasoned maple. The sides are made of maple and the top of especially selected Cremona spruce. The soundholes are of the characteristic Guarnerius pattern and the purfling is perfectly and tastefully inlaid. The edges of the top, bottom and scroll are finished in natural wood, adding greatly to the beauty of its finish. The instrument is a deep, rich red throughout covered with a splendid transparent amber varnish and highly polished. The tailpiece, fingerboard and pegs are of solid ebony, and the scroll is accurately and gracefully cut.

Regular retail price of violin \$20.00
One Vuillaume model bow, imitation snakewood with carved ivory frog 4.00

OUR SPECIAL PROFESSIONAL VIOLIN OUTFIT, \$13.95.

THIS OUTFIT is regularly sold by dealers throughout the country for from \$45.00 to \$55.00. We have been furnishing this outfit for the past five years, and it has given the greatest satisfaction to every purchaser. We send with each outfit a certificate which entitles the holder to a complete course of instruction on the violin consisting of fifty weekly lessons covering a period of one year. These lessons are given by one of the best music schools in the country and we charge you absolutely nothing for the certificate. **WE ARE OFFERING** This outfit in response to a demand from professionals who desire an outfit for general work and do not desire to pay the usual high prices asked by dealers generally for outfits of this grade. We furnish with this outfit one special high grade Stradivarius model violin, one

bow, case, rosin, instruction book, extra set of strings, fingerboard chart, tuning pipes, violin and collection of violin music. All of these articles are of the very best that can possibly be purchased at the price.

THE VIOLIN which we furnish with this outfit is a genuine Stradivarius model and is very elegant in appearance. It has two-piece back of highly flamed well seasoned maple. The sides are made of a very nice quality of maple, and the top is made of a carefully selected piece of close grain Cremona spruce. The tailpiece, fingerboard and pegs are of solid ebony, the neck is of curly maple and the scroll is carefully and tastefully cut. The body of the instrument is finished in a very rich, brownish red color. It is the most elegant violin ever offered at this price.

A GENUINE HEBERLIN VIOLIN OUTFIT, \$17.65.

THIS OUTFIT is high grade in every respect, and every article in it is fully guaranteed by us. The maker of the violin which we send with this outfit is among the best known violin makers of Europe and we have been able to arrange with him to furnish us with a limited number of these instruments, which we can supply in an outfit at this exceptionally low price. The violin is guaranteed to be perfect in every respect and is accompanied by a numbered certificate countersigned with the autograph of the maker. Should anyone attempt to sell you a Heberlin violin you can easily detect the fraud by asking for the certificate. We are showing herewith a facsimile of the certificate which goes with every one of these violins.

THE VIOLIN is a genuine Stradivarius model, has two-piece, highly flamed maple back, nicely figured maple sides and top of old, well seasoned Cremona silver spruce. The edges of the top, bottom and scroll are finished in natural wood, adding greatly to the instrument's appearance. The fingerboard and tailpiece are of solid ebony and the pegs of rosewood. The violin is double lined throughout and carefully blocked. The body is a very deep, rich brown. An elegant instrument in every respect, and one which will please amateur and professional alike. We show below the comparison in price between this outfit at retail and our bargain price.

Regular retail price of violin \$40.00
One genuine snakewood Vuillaume model bow with handsomely carved genuine ivory frog, double pearl eye, German silver lining and ivory buttons 5.00

THE PROFIT SHARING CERTIFICATE FOR \$17.65 which we will send you if you buy this outfit, will enable you to share in our profit, as explained on pages 1 and 2.

OUR GENUINE L. LUDWIG OUTFIT, \$18.95.

BY A SPECIAL ARRANGEMENT with this celebrated maker we are able to offer a limited number of these fine violins in these outfits. We guarantee absolutely that each one of these outfits is genuine and the maker's autograph will be found plainly written across the label on the inside of the instrument. This entire outfit is of exceptionally high grade and one which will satisfy anyone who desires an outfit which will prove satisfactory under all conditions. If any dealer should offer to sell you an L. Ludwig violin be sure to examine the label on the inside, and if you do not find the maker's signature written across it you will know at once that it is an imitation.

OUR GENUINE CHADWICK (LONDON) VIOLIN OUTFIT, \$23.45.

THIS IS AN EXTREMELY HIGH GRADE VIOLIN OUTFIT which we up for the use of professionals and high class amateurs, and which we are prepared to furnish at the present time at a price never before heard of. This is one of the very best outfits we have ever offered to our customers, and its sale up to the present time proves that it is destined to become as popular as any of our other high grade outfits. If you are looking for a violin outfit which will be strictly high class in every respect and in which every article will be of the very best, you will make no mistake in purchasing this. You will not find an outfit of this grade offered for sale by any of your local dealers. The violin which we furnish with this outfit is made under the direct supervision of Chadwick, the famous London violin maker, and we guarantee its beauty of

appearance, the durability of its workmanship and the quality of its tone. If you could purchase an outfit of this high grade from your local dealer it would cost you as follows: One high grade Chadwick violin, Stradivarius model, beautifully worked out by the maker. We cannot begin to describe the elegant and graceful appearance of this instrument, as it must be seen to be appreciated. The back is made of two pieces of very close grain, finely flamed maple. The sides are made of the same material and the top is made of a rare old piece of Cremona silver spruce. It is double lined throughout and carefully blocked. The tailpiece, fingerboard and pegs are made of solid ebony, and the body of the instrument is finished in deep orange yellow. This is undoubtedly the most elegant violin which we furnish with any outfit shown in our catalogue. It has the words, "The Chadwick London Violin" stamped on the back of the scroll.

\$1⁹⁵ GUITARS \$25¹⁵

AT \$1.95 TO \$25.15 WE OFFER THIS MATCHLESS LINE OF HIGH GRADE GUITARS

OUR LINE OF GUITARS is more than usually complete this year, and we are glad to be able to offer to our customers such especially wonderful values in this line. We wish to say that we could offer for sale guitars as low in price as \$1.25, but the reputation, which we have been so many years in building up, is much too valuable for us to sacrifice for the sake of a few cents profit on the sale of such an instrument. Do not allow yourself to be misled by the apparently lower prices offered by others upon these instruments, because a careful examination and comparison will at once convince you that such instruments are not by any means what they appear to be, and that the guitar which we offer at \$1.95 is superior in every way to those offered by others at a much higher price. Each one of the following guitars from the highest to the lowest in price contains the very best material and workmanship that can possibly enter into a guitar at the price named.

THE DIMENSIONS OF THE DIFFERENT SIZES of guitars are as follows:
STANDARD SIZE—Length of body, 18½ inches; total length, 37 inches; width, small end, 9½ inches; width, large end, 12¼ inches; depth, small end, 3¼ inches; depth, large end, 3½ inches.

CONCERT SIZE—Length of body, 18¾ inches; total length, 37¼ inches; width, small end, 9½ inches; width, large end, 13¼ inches; depth, small end, 3¼ inches; depth, large end, 3½ inches.

GRAND CONCERT SIZE—Length of body, 19 inches; total length, 38 inches; width, small end, 10 inches; width, large end, 14 inches; depth, small end, 3½ inches; depth, large end, 4 inches.

AUDITORIUM SIZE—Length of body, 19½ inches; total length, 38¾ inches; width, small end, 10½ inches; width, large end, 14½ inches; depth, small end, 3½ inches; depth, large end, 4 inches. **The auditorium size guitars are made to order only, and require from two to three weeks' time.**

WE SELL ALL OF THESE GUITARS upon the same liberal terms upon which we sell all other musical instruments, and give every purchaser 10 days trial.

REMEMBER You get a Profit Sharing Certificate for your purchase entitling you to share in our profits as explained on pages 1 and 2. **WITH EACH GUITAR** we send an extra set of strings, one magic Capo d'Astro, one book of Guckert's chords and one lettered fingerboard chart. Shipping weight, 12 pounds.

BACK VIEW

This guitar is rosewood finished, being an exact imitation of the highest priced genuine rosewood. It has a spruce top, inlaid with variegated wood around the edge and soundhole, and bound with white celluloid. It is also inlaid down the back with a strip of different colored wood. The fingerboard is made of genuine rosewood with pearl position dots and raised frets. It has the best quality of American made patent head, nickel plated metal tailpiece and ebony bridge.

With this guitar outfit we give a certificate, entitling the holder to a complete course of instruction on the instrument, consisting of ten weekly lessons, given by one of the best music colleges in the country.

We offer this outfit as the very best that could possibly be put up at this price. The material and workmanship which enter into the construction of every article offered is the very best that has ever been offered at anywhere near this price. The tone and finish of the guitar is everything that could be found in an instrument sold by others at from \$7.00 to \$10.00.

We can furnish these guitars in standard size only. Shipping weight, about 12 pounds.

With this guitar we furnish the following

\$1.95 THE TROUBADOUR GUITAR.

THE OAKWOOD GUITAR AT \$2.35.

No. 12F600 This is the greatest bargain that was ever offered in a guitar at this price, and the very best material and workmanship which can be furnished at this figure enters into its construction. The back

and sides are made of hardwood, finished in a very beautiful imitation of San Domingo mahogany. The top is made of resonant spruce inlaid around the soundhole with five strips of different colored wood, bound with celluloid

and two strips of black inlaying. The entire body and neck of the instrument is varnished with transparent varnish and beautifully polished. It has a brass patent head of good quality and the fingerboard is accurately fretted with raised metallic frets and inlaid with three pearl position dots. Standard size only. Price **\$1.95**

No. 12F601 This instrument is a splendid bargain at the price we ask for it, the body being finished in a splendid imitation of quarter sawed oak, the top being made of a very nice piece of spruce with the edges inlaid with nine layers of different colored wood and bound with white celluloid. The soundhole is inlaid with two rings of seven different colors of wood. It has a good quality of brass patent head, a fingerboard accurately fretted with raised metallic frets and a nickel plated tailpiece.

The back has a very pretty decalcomania strip down the center. To each purchaser of one of these guitars we give, free, a certificate entitling the holder to a complete course of instruction on the instrument. Standard size only. Price **\$2.35**

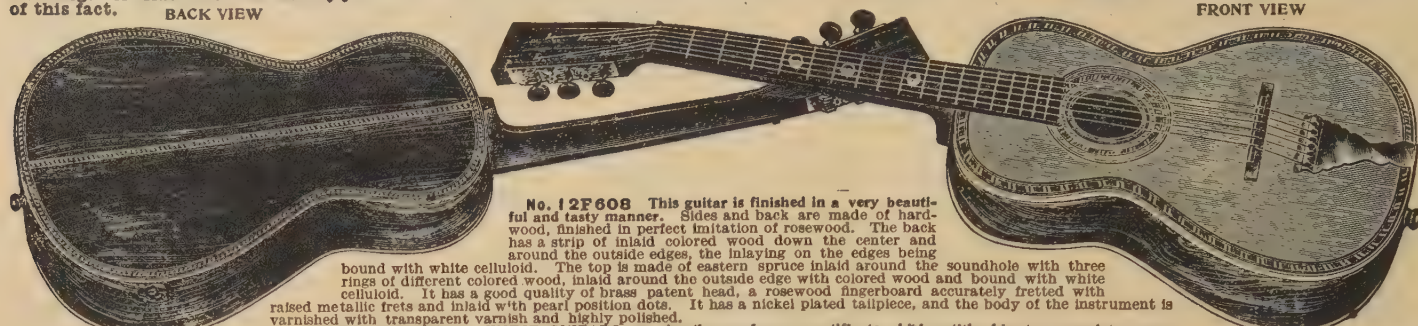

Our college line of guitars represents the very highest attainment in guitar building. A trial order will satisfy you of this fact.

THE STANFORD GUITAR, \$4.20.

YOU WILL GET A PROFIT SHARING CERTIFICATE for your purchase and can soon get a valuable article entirely FREE, as explained on pages 1 and 2.

FRONT VIEW

No. 12F608 This guitar is finished in a very beautiful and tasty manner. Sides and back are made of hardwood, finished in perfect imitation of rosewood. The back has a strip of inlaid colored wood down the center and around the outside edges, the inlaying on the edges being rings of different colored wood, inlaid around the soundhole with three rings of different colored wood and bound with white celluloid. It has a good quality of brass patent head, a rosewood fingerboard accurately fretted with raised metallic frets and inlaid with pearl position dots. It has a nickel plated tailpiece, and the body of the instrument is varnished with transparent varnish and highly polished.

WITH EACH ONE OF THESE GUITARS, we give the purchaser a certificate which entitles him to a complete course

of instruction on the instrument, consisting of fifty weekly lessons, covering a period of one year. This course of instruction will make you a performer upon the guitar if you have a fair amount of perseverance and intelligence. We will be glad to have you compare this instrument with anything your dealer has to offer in this line at double the price we are asking you for this, as we know you will find it superior in every way. While we always recommend that our cus-

tomers purchase the very best guitar of which their circumstances will admit, still, if you feel that you do not desire to pay more than \$4.20 for a guitar, we would recommend this instrument to you as something especially good at this price. Standard size only.

No. 12F608 Price..... \$4.20

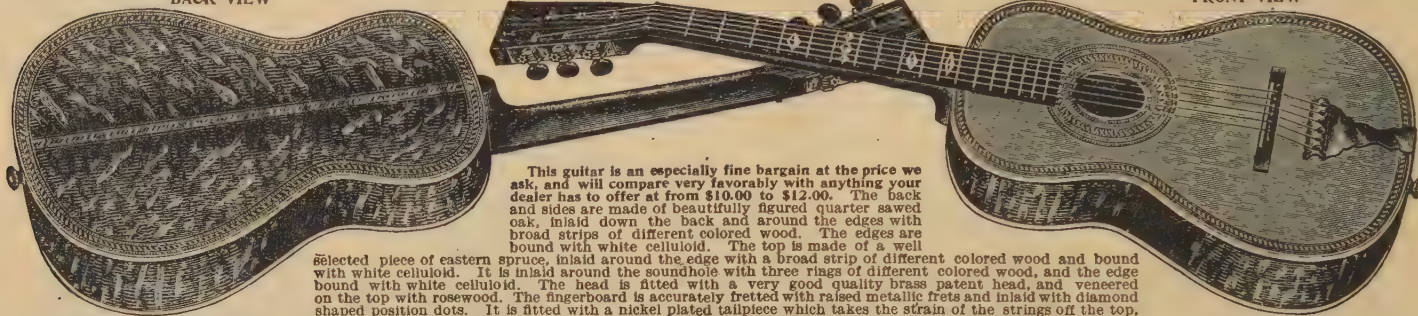

You will not find these guitars for sale by dealers. The designs are our exclusive property and can be obtained from us only.

BACK VIEW

THE COLUMBIA GUITAR, \$6.90.

From the lowest to the highest in price, each guitar is the very best that can be sold for the price.

FRONT VIEW

This guitar is an especially fine bargain at the price we ask, and will compare very favorably with anything your dealer has to offer at from \$10.00 to \$12.00. The back and sides are made of beautifully figured quarter sawed oak, inlaid down the back and around the edges with broad strips of different colored wood. The edges are bound with white celluloid. The top is made of a well

selected piece of eastern spruce, inlaid around the edge with a broad strip of different colored wood and bound with white celluloid. It is inlaid around the soundhole with three rings of different colored wood, and the edge bound with white celluloid. The head is fitted with a very good quality brass patent head, and veneered on the top with rosewood. The fingerboard is accurately fretted with raised metallic frets and inlaid with diamond shaped position dots. It is fitted with a nickel plated tailpiece which takes the strain of the strings off the top, and the entire instrument is coated with transparent varnish, highly polished.

A FREE COURSE OF MUSICAL INSTRUCTION goes absolutely free with each one of these guitars. This course consists of fifty weekly lessons, covering a period of one year. The splendid value which we are offering in this instrument fully justifies us shipping it out under our liberal terms of shipment. It is a guitar which cannot be purchased from your local

dealer for less than from \$10.00 to \$15.00. We can recommend this instrument as being a splendid bargain, considering the low price we ask for it.

No. 12F614 Standard size. Price..... \$6.90
Concert size. Price..... \$7.60

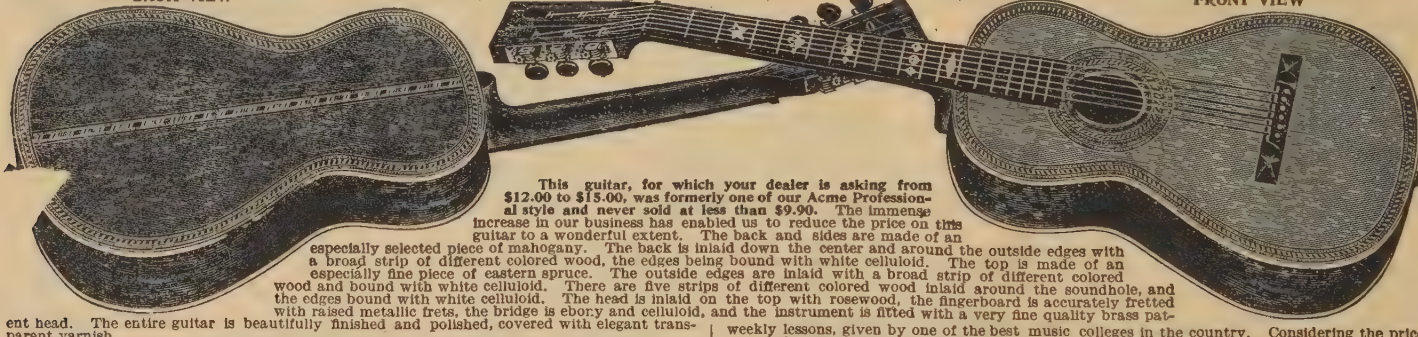

Give us a trial order for one of our best guitars. If you are an artist you will admire the finish. If you are a musician you will fall in love with the tone.

BACK VIEW

THE OXFORD, \$7.85.

Nothing is quite so satisfying as a guitar with an elegant finish and beautiful tone. Our guitars never fail to satisfy the purchaser in both of these points.

FRONT VIEW

This guitar, for which your dealer is asking from \$12.00 to \$15.00, was formerly one of our Acme Professional style and never sold at less than \$9.90. The immense increase in our business has enabled us to reduce the price on this guitar to a wonderful extent. The back and sides are made of an

especially selected piece of mahogany. The back is inlaid down the center and around the outside edges with a broad strip of different colored wood, the edges being bound with white celluloid. The top is made of an especially fine piece of eastern spruce. The outside edges are inlaid with a broad strip of different colored wood and bound with white celluloid. There are five strips of different colored wood inlaid around the soundhole, and the edges bound with white celluloid. The head is inlaid on the top with rosewood, the fingerboard is accurately fretted with raised metallic frets, the bridge is ebony and celluloid, and the instrument is fitted with a very fine quality brass patent head. The entire guitar is beautifully finished and polished, covered with elegant transparent varnish.

WE GIVE ABSOLUTELY FREE to every purchaser of this guitar a certificate which entitles him to a complete course of instruction on the instrument, consisting of fifty

weekly lessons, given by one of the best music colleges in the country. Considering the price we ask for this instrument it cannot be duplicated anywhere on the market.

No. 12F651 Concert size. Price..... \$7.85

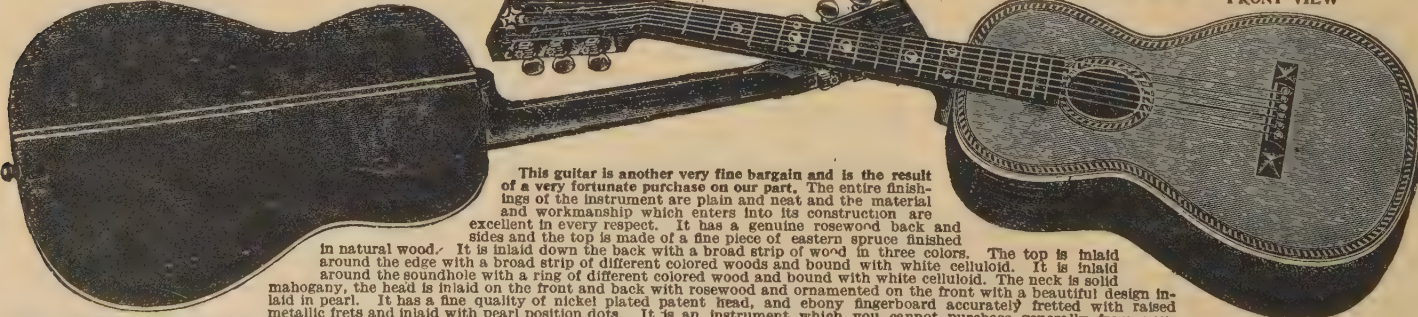

We guarantee tone, finish, durability and price. You cannot possibly make a mistake when you purchase one of these guitars.

BACK VIEW

THE CAMBRIDGE, \$8.75.

Nothing adds quite so much elegance to your apartment as a well made, elegantly finished guitar. Our guitars are within the reach of all.

FRONT VIEW

This guitar is another very fine bargain and is the result of a very fortunate purchase on our part. The entire finishings of the instrument are plain and neat and the material and workmanship which enters into its construction are excellent in every respect. It has a genuine rosewood back and sides and the top is made of a fine piece of eastern spruce finished

in natural wood. It is inlaid down the back with a broad strip of eastern spruce finished around the edge with a ring of different colored woods and bound with white celluloid. It is inlaid around the soundhole with a ring of different colored wood and bound with white celluloid. The neck is solid mahogany, the head is inlaid on the front and back with rosewood and ornamented on the front with a beautiful design inlaid in pearl. It has a fine quality of nickel plated patent head, and ebony fingerboard accurately fretted with raised metallic frets and inlaid with pearl position dots. It is an instrument which you cannot purchase generally from your

dealer for less than from \$15.00 to \$18.00 and we would be glad to have it compared with any instrument at this price.

WE GIVE WITH THIS GUITAR a certificate which entitles you to a complete course of instruction by one of the very best music colleges in the country. This course consists of fifty

weekly lessons, covering a period of one year.

No. 12F653 Standard size. Price..... \$8.75
No. 12F654 Concert size. Price..... \$9.25
No. 12F655 Grand Concert size. Price..... \$10.25

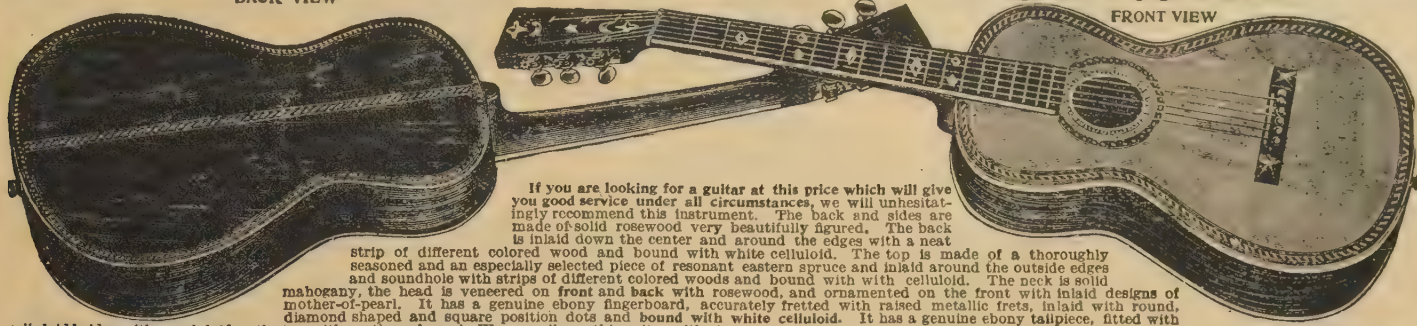

We will return your money for any guitar which does not prove satisfactory.

BACK VIEW

THE CORNELL, \$10.95.

SOMETHING FREE FOR YOU. You share in our profit. The PROFIT SHARING CERTIFICATE is yours, as explained on pages 1 and 2.

FRONT VIEW

celluloid bridge with pegs inlaid on the top with mother-of-pearl. We can sell you this guitar with the assurance that you cannot purchase the same instrument for less than from \$18.00 to \$20.00. WITH EACH CORNELL GUITAR we give a certificate which entitles the purchaser to a complete course of instruction on the instrument. The college which gives these lessons is not one organized especially to give lessons with our instruments, but is a college of long standing and of good reputation in the city of New York.

If you are looking for a guitar at this price which will give you good service under all circumstances, we will unhesitatingly recommend this instrument. The back and sides are made of solid rosewood, very beautifully figured. The back is inlaid down the center and around the edges with a neat strip of different colored wood and bound with white celluloid. The top is made of a thoroughly seasoned and an especially selected piece of resonant eastern spruce and inlaid around the outside edges with celluloid. The neck is solid mahogany, the head is veneered on front and back with rosewood, and ornamented on the front with inlaid designs of mother-of-pearl. It has a genuine ebony fingerboard, accurately fretted with raised metallic frets, inlaid with round, diamond shaped and square position dots and bound with white celluloid. It has a genuine ebony tailpiece, fitted with

THE PRINCETON GUITAR, \$13.70.

These illustrations will give you but a very poor idea of the splendid appearance and beautiful tone of our guitars. Nothing but an examination will show this.

FRONT VIEW

covering a period of one year. This offer is the chance of a lifetime to purchase a high grade instrument at a low price and fit yourself to become a finished player.

This guitar is a very elegant instrument in every respect. It is an instrument which we can recommend under all conditions and is certainly a great bargain at the price we ask. The back and sides are made of solid rosewood, the back is inlaid down the middle with a broad strip of beautifully colored wood and the edges bound with white celluloid. The top is made of a very fine piece of eastern spruce, is beautifully ornamented around the edge and soundhole with very broad strips of different colored woods combined with round and diamond shaped figures in mother-of-pearl and bound with white celluloid. The head is inlaid on front and back with rosewood, the fingerboard is solid ebony accurately fretted with raised metallic frets, inlaid with round, square, diamond and star shaped pearl position dots and bound with white celluloid. The bridge is of solid ebony, fitted with pins inlaid with mother-of-pearl. The screw patent head is of the very best quality and the neck is carved with a very tasty design. We give, free with each Princeton guitar, a certificate which entitles the purchaser to fifty weekly lessons on the instrument.

WE SELL THE GUITAR TO YOU AT THE LOWEST POSSIBLE PRICE, AND LET YOU SHARE IN OUR PROFIT, AS EXPLAINED ON PAGES 1 AND 2.

This is a guitar offered especially in connection with this college line of guitars, to fill a demand for a guitar elegant in design, beautiful in finish, handsome in model, durably built, and mellow and powerful in tone. The back and sides are beautifully figured rosewood, handsomely finished and polished. The top is made of thoroughly seasoned resonant spruce, ornamented with purfling of inlaid wood around the entire edge. It has a black ebony guard plate, with a handsome design in metal and colored wood. The neck is made of solid mahogany, fitted with genuine ebony fingerboard, accurately and evenly fretted, and beautifully trimmed with a design of inlaid mother-of-pearl. The head is veneered with rosewood, ornamented with inlaid mother-of-pearl design and fitted with the very best American patent head. The back of the instrument is exquisitely ornamented with splendid designs of inlaid colored wood, with an ornamental strip of inlaid woods down the center and around the entire edge. This is certainly one of the handsomest guitars on the market today, and you cannot duplicate it anywhere outside of our house for less than double the price we are asking you. We send the guitar complete, with a full set of strings

and a handsome canvas case, lined with flannel and thoroughly leather bound. With this guitar we give a certificate which entitles the purchaser to a full course of instruction on the instrument. This course consists of fifty weekly lessons.

These guitars are all musical instruments. Made to play upon, not merely to sell.

BACK VIEW

THE HARVARD GUITAR, \$21.35.

It is cheaper to furnish a guitar with a high finish than to give it a beautiful tone. We furnish both tone and finish.

FRONT VIEW

This guitar is one of the very finest instruments made. It is constructed of the very best material by the most skilled workmen and is beautifully ornamented throughout. The back and sides are made of solid rosewood, the back is inlaid down the center with a broad strip of mother-of-pearl, bound on each side with strips of different colored woods. The back is bound around the edges with white celluloid, the sides are inlaid with two strips of handsome mother-of-pearl, bound on each side with strips of white holly. The top is made of especially selected eastern silver spruce and is inlaid around the edge and soundhole with a very broad strip of mother-of-pearl bound with strips of different colored wood. The edges of the top and soundhole are bound with white celluloid. The neck is made of solid mahogany, the head is inlaid on the front and back with rosewood and bound with white celluloid. It is beautifully ornamented on the front with designs of mother-of-pearl. The fingerboard is made of solid ebony, accurately fretted with metallic frets, bound with white celluloid and handsomely

ornamented with a vine, flowers and leaves made of inlaid metal and different colored mother-of-pearl. The bridge is made of solid ebony and has pegs of white celluloid inlaid on top with ebony. It has the very best pattern brass American patent head, and the neck is beautifully carved and capped with white celluloid. The entire instrument is handsomely finished and polished and is one of the most beautiful in design, finish and tone ever offered to the public.

\$1.95 MANDOLINS \$19.85

AT \$1.95 TO \$19.85 WE OFFER THIS SPLENDID
LINE OF MANDOLINS.

WE FEEL CONSIDERABLE PARDONABLE PRIDE in the line of mandolins which we have to show this season. Our buyer has been more than usually careful and fortunate in his work, and has succeeded in getting together a line of mandolins which we believe to be unsurpassed by any line offered for sale in the country. We could offer mandolins as low in price as \$1.25, but they would be instruments which would be entirely unsatisfactory to our customers, and while they would be in every way equal to the mandolins offered by others at from \$2.25 to \$2.50, still, we do not feel that they are instruments which would meet with the approval of our customers, and therefore, we do not offer them for sale. Other dealers are offering mandolins a little lower in price than we are showing, but a careful comparison of our instruments with theirs will show you at once that they are far inferior to any mandolins that we are offering.

OUR TERMS OF SHIPMENT are as liberal upon our mandolins as upon all of our other instruments. We allow any mandolin purchased from us to be tried and tested for ten days, and will receive it back and cheerfully refund the price paid, together with transportation charges, if it does not prove satisfactory.

YOU WILL GET A PROFIT SHARING CERTIFICATE for every order you send us, as well as saving money on your purchase.

WITH EACH ONE OF THESE MANDOLINS we give an extra set of strings, a complete instruction book, a very nice pick, a fingerboard chart, and a complete course of instruction on the instrument absolutely free. Weight of mandolin, about 7 pounds.

BACK VIEW

FRONT VIEW

This mandolin outfit is complete in every respect, and is one of the greatest bargains ever offered at this price. The mandolin has 11 ribs of alternate rosewood and mahogany, with strips of white holly between. It has a solid rosewood cap, top of resonant spruce, inlaid around the edge with a broad strip of different colored wood and bound with white celluloid. The soundhole has a ring of different colored wood, the guard plate is of fancy design, inlaid with a neat ornament in different colored wood. The neck is solid mahogany, the patent head is of the best screw pattern, the fingerboard is solid rosewood with raised metallic frets and genuine mother-of-pearl position dots. It has a nickel plated sleeve protector and a solid rosewood bridge. This is the most complete mandolin outfit ever offered at this price, and is one which dealers are generally selling at from \$6.00 to \$8.00.

\$2⁴⁵ BANJOS \$19⁶⁵

AT \$2.45 TO \$19.65 WE SHOW A SPLENDID LINE OF BANJOS, THE GREATEST VALUES EVER OFFERED.

WE WANT YOU TO MAKE A CAREFUL COMPARISON between the instruments which we are offering in this line and those offered by any other house. Such a comparison will convince you at once that no dealer can sell banjos which are in any way equal to ours at anywhere near the price we are quoting. It is not a question with us how cheap we can sell our banjos, but rather how good we can make them at the prices we quote. We could sell banjos at much lower prices than we are offering, but they could not possibly prove satisfactory to our customers, and they would prove very poor advertisements for our line of musical goods. From the highest to the lowest priced banjos in this line, each one contains the very best workmanship and material which it is possible to put into it at the price.

SEND US YOUR ORDER, enclose our price and we will send the banjo promptly; filed in every way, return the instrument to us and we will promptly return your money and transportation charges. We guarantee complete satisfaction in every transaction.

A PROFIT SHARING CERTIFICATE will be sent to you when you order, and you can soon get something valuable entirely FREE.

WE FURNISH, FREE, WITH EACH BANJO one set of Glendon strings, one instruction book of chords, one lettered fingerboard chart, and a complete course of instruction on the instrument.

OUR CHALLENGE BANJO OUTFIT.

You share in our profit when you buy from us, as well as saving a great deal on your purchase. See pages 1 and 2.

FRONT VIEW

No. 12F867 If you are looking for something particularly fine in a banjo, at a price which will astonish you, this is certainly the instrument you desire. We make the assertion, without fear of contradiction, that this is the handsomest banjo ever offered to the musical public. It is manufactured in response to a demand for something particularly elegant in the line of a solo banjo, to be sold by our great money saving method. This instrument is fitted with a heavy nickel 11-inch rim with wire spun edge and lined with birdskin head. It has 25 patent hexagon brackets, and a high grade calfskin head. It has a nickel plated metallic staypiece with solid ebony keys, which prevents the neck from coming loose. The neck extension is bound with white celluloid on each of the four corners, veneered with narrow strips of ebony. The neck is made of birdseye maple and the heel is beautifully carved and tipped with a solid plate of genuine ebony. The head is veneered with six layers of wood consisting of ebony, white holly and rosewood. The fingerboard is bound with celluloid, together with narrow strips of rosewood, white celluloid and ebony and is solid ebony with handsome position ornaments

of inlaid mother-of-pearl. The head is beautifully ornamented with elegant designs of inlaid mother-of-pearl. All the frets are accurately and evenly placed, and the instrument is fitted with the very highest grade of patent pegs. We furnish this banjo complete with strings,

tuning key, and a handsome flannel lined, leather bound canvas case. We also give, free, a certificate which entitles the holder to a complete course of musical instruction, consisting of fifty weekly lessons on the instrument. Shipping weight, 12 pounds. Price, **\$17.85**

**OUR VERY FINEST BANJO—NOTHING BETTER MADE.**

No. 12F868 This banjo is artistic in every respect. It has an 11-inch head, heavy nickel shell and strainer hoop, lined with red stained birdseye maple. It has thirty-one hexagon brackets with protection nuts. It has a patent extension neck held in place by two ebony keys and fitted with swivel strainer screw. The head and fingerboard are veneered with three layers of different colored wood capped with a heavy layer of genuine ebony. The front of the head is profusely inlaid with star, crescent and flower shaped figures in mother-of-pearl. The fingerboard is fitted with raised metallic frets and ornamented with beautiful designs inlaid in white mahogany and mother-of-pearl, representing a flower pot, vines, leaves and lilies running the full length of the fingerboard. The instrument is fitted with patented friction pegs with white celluloid buttons. The heel of the neck is heavily hand carved and inlaid with different layers of colored wood capped with ebony. The banjo has a genuine Joseph Rogers, Jr., calfskin head and is elegantly finished throughout. If you are looking for a banjo which will be a work of art as well as an elegant musical instrument,

this is the banjo which you should buy. We would be glad to send you this instrument and give you an opportunity to compare it with anything your dealer has to offer in this line, and if you do not find, after the most critical comparison and examination, that it is much superior to anything you can buy from any local dealer for less than \$40.00 to \$45.00, you can box it up and return it to us and we will cheerfully refund every cent you have paid, including transportation charges. Besides the usual outfit, we give with this banjo a complete course of

musical instruction, consisting of fifty weekly lessons, extending over a period of one year. This course of instruction is absolutely free and will be furnished by one of the best music colleges in the country. Price..... **\$19.65**

A strictly high grade instrument. Shipping weight, about 15 pounds. Price..... **\$7.85**

THE AUTOHARP

difficulty in following it. With each autoharp we give a complete instruction book with many different selections of music. Each one of these instruments is finished in the most beautiful manner, and carefully and durably constructed. If your time will not allow you to learn to play upon a violin, piano or other instrument of this class we would by all means, advise you to purchase one of these instruments.

has become one of the most popular of small musical instruments. Our trade in these instruments has become enormous, and is largely due to two points: our extremely low prices and the general excellence of the instruments we handle. These are favorite musical instruments, because it requires but little practice to play upon them, and the music is of the very highest order. Anyone who can read English and possesses ordinary intelligence can play upon an autoharp, because the music that we furnish is simply and plainly figured and the player will find no difficulty in following it. With each autoharp we give a complete instruction book with many different selections of music. Each one of these instruments is finished in the most beautiful manner, and carefully and durably constructed. If your time will not allow you to learn to play upon a violin, piano or other instrument of this class we would by all means, advise you to purchase one of these instruments.

\$1.75

No. 12F900 Our \$1.75 Autoharp has 20 strings, 3 bars and produces 3 chords. With this instrument the simpler airs and chords may be played. The best steel strings are furnished and the tone is remarkably sweet. Without a single exception, every purchaser has been delighted with this autoharp, and would not part with it at any price if another could not be secured. Weight, packed for shipment, 6 pounds. Price.....**\$1.75**

\$2.95

No. 12F902 Our \$2.95 Autoharp has 23 strings, 5 bars and produces 5 chords. The possibilities of this beautiful instrument are unbounded, and while but little practice is needed for the beginner to play nicely, constant practice will enable the performer to produce very difficult music. Weight, packed for shipment, 7 pounds. Price.....**\$2.95**

\$4.95

No. 12F904 For \$4.95 we offer an autoharp that is entirely new, strictly first class in workmanship and susceptible of wonderful manipulation. This special autoharp is complete with 32 strings and is fitted with 8 bars, as it has 8 chords, as follows: C major, G seventh, F major, C seventh, Bb major, B minor, A seventh and G minor. The range of different music is very great and the possibilities of the instrument are beyond that of any other of similar construction and much higher price. You cannot purchase this autoharp from any other dealer for less than from \$8.00 to \$10.00. Weight, packed for shipment, 9 pounds. Price.....**\$4.95**

\$6.45

No. 12F906 This Autoharp is the very latest product of the manufacturers, and is destined to become the most popular style of their entire list. It has 37 strings and 12 chord bars; these bars are placed close together making the manipulation of them exceedingly easy. They produce 12 chords, as follows: G major, E seventh, C major, A minor, G seventh, E seventh, F major, D minor, C seventh, A seventh, Bb major and G minor. It is strung and tuned in a perfect chromatic scale. The finish is beautiful; highly polished ebony finish; altogether a handsome, useful musical instrument. Weight, packed for shipment, 10 pounds. Price.....**\$6.45**

\$10.85

No. 12F908 The back and sides of this beautiful Autoharp are made of well seasoned hardwood and enameled in black. The top or sounding board is made of a carefully selected piece of beautifully close grain pine and finished in a light brown color. The edges are inlaid in white maple with a narrow strip of black between, giving the instrument a very elegant appearance. The bars and supporters are enameled in black and fitted with celluloid buttons for the fingers. It has six bars, by the use of which 16 chords are made possible. Weight, packed for shipment, 16 pounds. Price.....**\$10.85**
No. 12F909 Same as above, but packed in fine black wood autoharp case, flannel lined. Price.....**\$11.85**

GUITAR ZITHERS.

out effort. As an accompaniment of the voice these chords are invaluable. In connection with the violin, piano or other musical instrument, the guitar zither is especially delightful. It rewards individual skill more than any other harp in existence. These are musical-instruments which charm alike the home circle and the concert audience.

The Guitar Zither is an improved and simplified German zither, upon which may be rendered the most difficult music without the aid of a teacher. Our method of instruction is so easy that anyone can learn to play the instrument in a very short time. The bass notes are tuned in groups of chords. This is a very attractive feature because the various chords of the key are ready to be picked without effort. It rewards individual skill more than any other harp in existence. These are musical-instruments which charm alike the home circle and the concert audience.

\$1.65

No. 12F921 The Guitar Zither at \$1.65, illustrated herewith, made of maple, cherry stained and polished. It has a hand rest, 31 strings and 4 chords, namely, C, G, F major and G minor, complete with instruction book, key and ring. Lovers of music will find this a particularly fine instrument, as it is very easily learned and is delightfully entertaining. We will be glad to place this instrument in your hands for trial and examination, as we know you will find it to be an instrument which will meet your wants in every respect. Shipping weight, about 9 pounds. Price.....**\$1.65**

\$1.98

No. 12F923 This is another splendid Guitar Zither, and is made of maple, ebonyed and beautifully finished. It has hand rest, and is considerably larger in size than No. 12F921. It is inlaid around the soundhole with beautiful ornamental designs, has 31 strings and 4 chords, namely, C, G, F major and G minor. Complete with instruction book, key and ring. This instrument will be found by players to be handsome in every respect, and possesses a deep tone which never fails to delight the listener. It is new in our line, and we highly recommend it for its many excellent qualities. Shipping weight, about 9 pounds. Price.....**\$1.98**

\$2.95

No. 12F925 This is another Guitar Zither, made of maple, ebonyed and handsomely finished. It has hand rest, highly polished and is beautifully inlaid around the soundhole, has 41 strings and 6 chords, namely, C, G, F, D and A major. It is beautifully ornamented around the edge of the sounding board and is an instrument of which one may well be proud. We furnish a chart also with this instrument, which can be laid under the strings, giving the position of every note. It comes complete, with instruction book, key and ring. Shipping weight, about 9 lbs. Price **\$2.95**

\$3.95

No. 12F927 This is a particularly fine instrument of great musical capacity. It is made of maple, ebonyed, has hand rest, highly polished, and beautifully inlaid around the soundhole and the edge of the sounding board. Has nickel plated tuning pins, full chromatic scale with 51 strings and 6 chords, namely, C, G, F, D major and A minor. It has a deep, full, rich tone, and by the aid of the chart and instruction book which we send, it can be easily learned. We send it complete with chart, instruction book, key and ring, and the purchaser will find that it will prove a never ending source of entertainment and delight. Shipping weight, about 9 pounds. Price.....**\$3.95**

\$3.45

No. 12F929 Our new Harp Zither. This is the latest addition to our fine line of zithers and we know will prove very acceptable to our customers. It is beautifully made and handsomely finished in imitation ebony. In appearance it perfectly resembles a beautiful Italian harp and has 21 melody strings with 5 groups of chords, as follows: A, D, F, G and C. The illustration will give you but a very poor idea of the beautiful appearance of this instrument and nothing but a trial and test will give you a thorough appreciation of its handsome finish and exquisite tone. It has the very best quality of strings, nickel plated tuning pins, hand rest and chart for placing under the strings, showing exactly what each string and chord represents. We furnish it with tuning hammer, instruction book and extra charts. It is 25 inches wide, and 23 inches high and the shipping weight, about 12 pounds. Price.....**\$3.45**

MANDOLIN-GUITAR-ZITHER.

Three Instruments Combined at the Price of One.

No picks or rings are required to play this instrument, a patent keyboard being used instead. As you will see in the illustration, the instrument is made after the style of the guitar-zither, having treble strings on which the air is played and accompaniment strings for the accompaniment. The keyboard, which is placed over the strings, is the greatest feature with which the mandolin effect is produced. These mandolin-guitar-zithers are made of selected material beautifully ebonyed and decorated with decalcomania ornamentations around the edges.

No. 12F940 Has 31 strings, 4 chords G, C and F major and G dominant 7th. Price.....**\$3.35**
Weight, packed for shipment, 9 pounds.

No. 12F942 Has 41 strings, 5 chords C, G, F, D and A major. Price.....**\$4.35**

THE FAMOUS MARX PIANO HARP.

No. 12F947 This instrument is picked with the right hand, same as an ordinary autoharp, while the hammers are manipulated with the left hand. These hammers are so arranged as to produce the chords of C major, G seventh, F major, C seventh, and their relative minors. The figured music which is used on this piano harp is the simplest ever offered in any instrument of this kind. By its use anyone, even though not familiar with music, can play any tune without any previous instruction. It has 23 strings and 7 hammers. It differs from the ordinary autoharp in the important particular that there are no dead strings over which the performer has to play. It is 11 inches long and 20 inches wide, and weighs, boxed for shipment, 10 pounds. With this instrument we furnish one tuning key, one pick, one music holder and 30 pieces of figured music. Price.....**\$2.65**

OUR NEW LINE OF PRINCESS MUSIC BOXES

This well known and popular line of Music Boxes offered to the public for the first time by our great money saving method of sale.

WE HAVE SUCCEEDED IN MAKING SUCH A FAVORABLE CONTRACT WITH THE MANUFACTURERS of the well known Princess Music Boxes that we are now able to offer them for the first time by our great money saving method of sale. These boxes are all fitted with removable discs so that each box will play any number of tunes desired. We will be glad to send to anyone a list of the different discs which we can supply for these famous music boxes, and our wonderful bargain prices make it possible for you to furnish your home with music with but a very small outlay. Each one of these boxes is operated by a spring and wound up with a crank, which is shown in each illustration. If you desire to purchase something in the line of a music box which will furnish you with a never ending source of pleasure at a very small cost, we would recommend one of these boxes to you. Each box is furnished with twelve discs without extra charge.

No. 12F930 Princess Music Box. This music box is 12 1/2 inches long, 9 1/2 inches wide and 7 1/2 inches deep. It takes a disc 3 1/2 inches in diameter and is well and thoroughly made. The woodwork is mahogany very highly finished and the metallic parts are all beautifully finished and polished. We will be glad to have you examine anything in this line offered by other dealers and make any comparison or test you desire, and we know that you will find that this box surpasses anything else of the kind offered by other dealers at very much higher prices. Do not get the idea that because we are offering this box at this extremely low price it is not of high grade, because the very low prices which we are making are only made possible by our great buying and selling advantage. We have succeeded in making these extremely low prices without detracting in any way from the high quality of these boxes. The fact that each one of these goes to the customer under an absolute guarantee of merit will prove to you at once that the goods are of the very highest quality. Shipping weight, 24 pounds. Price.....\$13.85

No. 12F936 Our Princess Cabinet Music Box. This is the largest Princess Music Box which we handle, and is certainly a splendid instrument in every way. It is grand concert size, being 22 1/2 inches long, 20 inches wide, 13 inches deep and taking a disc 15 1/2 inches in diameter. It will play an innumerable number of tunes, as the disc is large enough to play the longest composition. The box winds on the side with a crank, as shown in the illustration, but do not get the idea that any of these boxes turn with the crank, as the crank is only used to wind them up. This is the largest Princess Music Box ever placed on the market, and at the price which we quote we have made competition absolutely impossible. The illustration will give you but a very poor idea of the beautiful finish of this box and the elegant music which it will furnish. It must be seen and heard to be appreciated. The box is finished in beautiful mahogany and all the metallic parts are nickel plated, gilt finished and highly polished. Shipping weight, 96 pounds. Price.....\$59.85

No. 12F934 Princess Music Box. This box is a trifle larger than No. 12F932, being 18 1/2 inches long, 15 inches wide and 10 1/2 inches deep. It is handsomely finished in mahogany with all of the metallic parts nickel plated and finely polished. This is a box of great musical capacity, and it takes a disc 12 1/2 inches in diameter. This is a very large and handsome music box and one which will not only make a handsome ornament in the home but also prove a never ceasing source of amusement and entertainment. We would be glad to have you compare the prices which we are making on this box with the prices asked anywhere else in the country for this same kind and grade of music box, and we know you will find that our prices are very much lower than any which you can obtain elsewhere. We desire to place one of these boxes in every home in the country, and we recommend them as the greatest entertainers which we have yet offered to the public. Shipping weight, 52 pounds. Price.....\$34.45

No. 12F932 Princess Music Box. This box is somewhat larger than the No. 12F930, being 13 inches long, 12 inches wide and 8 1/2 inches deep. It takes a disc 3 1/2 inches in diameter and has greater musical capacity. We can furnish extra discs for this music box which you can select from the list which we will send you on request. This music box has never before been offered to the public at anywhere near the price which we are quoting here. We will be glad to send you this box with the understanding that if you do not find that it is much superior to the same style of music box offered by your dealer at a much higher price, we will receive it back and cheerfully refund your money. It is finished in mahogany, highly polished, and all the metal parts are finished and finely burnished. It is neat, and compact and occupies but very little room. We offer it to you as something very desirable in this line, and know that you will be more than pleased with it. Shipping weight, 37 pounds. Price.....\$24.95

MUSIC BOXES

SELF ACTING—AUTOMATIC—CYLINDER. These boxes are made by the best manufacturer in Switzerland, the home of the music box. It is a recognized fact that the originators and best makers of music boxes are the Swiss people. In presenting this line to our customers, we have made a very careful selection from the catalogue of one of the best known Swiss makers, and know we are offering an assortment that is unsurpassed. Every box is made with the greatest care, and the comb and mechanism being firmly attached to the bottom (the sounding board) of the beautifully finished cases, brings forth the best possible quality of tone—that sweet, delightful tone so peculiar to the Swiss box. The mechanism is simple and will not get out of order, unless tampered with. A drop of oil occasionally in the worm of the governor keeps them running nicely, and each box is furnished with a safety catch that makes serious accidents impossible.

Our \$1.59, \$2.95 and \$3.55 Swiss Music Boxes.

No. 12F948 This box measures 4 1/2 x 3 1/4 x 2 1/4 inches; is a perfect little musical instrument. It plays two tunes. The case is highly finished in natural wood. The mechanism winds with a key and can be started and stopped by a small lever on the front of the box. Shipping weight, 16 ounces. Price \$1.59

No. 12F950 This music box, as shown in illustration, is 5 1/4 inches long, 3 1/4 inches wide and 2 1/4 inches high. The case is made of walnut, beautifully polished and highly finished. The cylinder is 2 1/4 inches long; the comb has 36 teeth, plays three tunes. It is wound with a key and changes automatically. Shipping weight, 19 ounces. Price.....\$2.95

No. 12F952 This box is the same as No. 12F950, shown in the illustration; the same size and finish, but plays four tunes. Shipping weight, 19 ounces. Price...\$3.55

Our \$22.95 Music Box.

No. 12F958 This box is the largest and finest box which we furnish and is the most wonderful value ever offered in this line. The case is of handsome rosewood veneer, with beautiful white wood inlaying, highly polished and finished.

The box is 24 x 9 1/2 x 6 1/2 inches. The cylinder is 11 inches in length and plays 12 complete and different tunes. The tone is exceptionally pleasing, and with the new auto-zither attachment a surprising and delightful change in tune can be made. This can be used at will by the simple moving of a lever and a very pretty effect can be secured. **PLAYS 12 TUNES.**

The box is operated by a very large strong spring, which is wound up by a lever handle. There are also two levers, one to enable you to repeat any tune desired and which can be repeated as many times as you wish, the other lever to start and stop the box. Our price on this box is considerably less than what other dealers are obliged to ask, as we import all of our Swiss boxes direct and list them at our usual one small percentage of profit.

No. 12F955 Price.....(Shipping weight, 45 pounds).....\$22.95

Our \$6.25 and \$7.85 Swiss Music Boxes.

No. 12F954 This box is made in imitation rosewood highly polished and handsomely decorated. The box is 13 1/4 inches long, 7 inches wide, 5 1/4 inches high. Has a 3 1/2-inch cylinder. It plays six tunes and has a tune indicator, showing which selection is being played. It is operated by a strong steel spring. It is wound up by a lever handle; is also provided with two levers which enable you to have the box repeat any tune and the other lever to stop or start the music. The mechanism is covered by a glass lid to protect it from dust. This box is a great bargain at the price at which we offer it. Shipping weight, 12 pounds. Price.....\$6.25

No. 12F956 This box is the same description as No. 12F954, but is somewhat larger. It has a 4 1/2-inch cylinder and plays eight tunes; it is every other detail the same as No. 12F954. Shipping weight, 15 pounds. Price.....\$7.85

Our Swiss Concert Music Box for \$16.95.

THIS BEAUTIFUL MUSIC BOX IS MADE IN SWITZERLAND, AND, AT THE PRICE WE ASK, IS ONE OF THE BEST MUSIC BOXES ON THE MARKET.

No. 12F959 This case is handsomely veneered with rosewood and has a very high piano finish. The ornaments on the case are of inlaid colored woods in handsome designs. Size, 10 1/2 inches wide, 17 inches long and 8 inches high. The cylinder is 6 1/2 inches long and fitted with eight of the prettiest and most popular tunes. Besides the cylinder, this box is fitted with snare drum and orchestra bells, which can be thrown on and off at pleasure by means of a lever.

It has repeat, change, stop and start levers and winds with a handle on the side.

The action is protected from dust and dirt by a. extra glass cover which can be raised so as to increase the volume of tone. The comb contains 44 resonant steel tongues and the entire mechanism of the box is well and strongly made. Shipping weight, 45 pounds. Price.....\$16.95

OUR GEM ROLLER ORGAN, \$3.25

THE MOST MARVELOUS MUSICAL INSTRUMENT EVER OFFERED TO THE PUBLIC.

By contracting for the entire output of the factory we are able now to offer this beautiful Musical Instrument at the wonderfully low price of \$3.25.

It is the greatest opportunity ever offered for supplying your home with a splendid musical instrument at an extremely low price.

THE GEM ROLLER ORGAN is an excellent instrument in every respect. It is durably made, beautifully finished, handsome in appearance and wonderful in tone. It is so simply arranged that a child can operate it and no previous knowledge of the music is necessary in order to play the most delightful pieces on this beautiful little organ. The music is produced by a roller which has teeth or pins like the cylinder of a regular Swiss music box. These pins operate upon valve keys allowing the air to pass through and thus producing the different tones.

ALL THE WORKING PARTS of the instrument are easily accessible, and are made of solid metal, the rollers and keys being mounted on castings. Nothing has been omitted to give these instruments their crowning qualities of extreme simplicity and durability. They are beautifully finished, making a handsome parlor ornament, and are genuine musical instruments which are recommended by good musicians. Full sized organ reeds are used, and the volume of sound will fill any ordinary sized hall.

THEY WILL PLAY hymns and popular airs with clarity and accuracy, and furnish acceptable music for any occasion. For dances, lodges, etc., they are most admirable. Perfect execution of music is obtained without the services of a skilled musician. There is no limit to either kind or quality of music they will play, and they are the most perfect mechanical musical instruments in design, operation and effect that have been produced.

WE CAN FURNISH ANY KIND OF MUSIC including sacred, Spanish, German, Norwegian and all the latest popular selections.

THE GEM ROLLER ORGAN is 16 inches long, 14 inches wide and 9 inches high.

No. 12F985 Gem Roller Organ, including three rollers. Price, \$3.25

Order by number. Shipping weight, 12 pounds.

IN ORDERING ROLLERS ALWAYS BE SURE TO GIVE A SECOND CHOICE, SO THAT IF THE FIRST IS OUT OF STOCK WE CAN SUBSTITUTE WITHOUT DELAY.

COMPLETE LIST OF THE BEST ROLLERS FOR GEM AND CONCERT ROLLER ORGANS.

OUR \$7.60 CONCERT ROLLER ORGAN.

THIS ORGAN is of somewhat higher grade than the Gem roller organ, has greater musical capacity, is much better constructed and a finer instrument in every way. The cylinder and all of the mechanism are enclosed and covered with a glass door, which effectually excludes dust and dirt. It is operated in the same way as the Gem roller organ and uses the same cylinder, so that in ordering cylinders for this organ you can make your selections from the list above.

THIS IS A VERY DESIRABLE INSTRUMENT, produces delightful music and, as great many different pieces can be played. The tone is similar to that of a parlor organ, as the tone is produced by reeds operated by a cylinder containing teeth, which open and close the valves. It is made of genuine black walnut, nicely finished.

PART of our profit is given back to you under our **PROFIT SHARING SYSTEM** as explained on pages 1 and 2.

The Rollers Cost as Follows:

Series No. 12F986 Price, for extra rollers, each \$0.18

Per dozen 2.16

If by mail, postage extra, each, 6 cents.

Five Tunes Furnished Free With Each Concert Organ.

No. 12F988 Concert Roller Organ. Price \$7.60

Weight, packed for shipment, 30 pounds.

No. 12F988

OUR BÖHM LINE OF SOVEREIGN ACCORDIONS.

A FINE LINE OF LOW PRICED ACCORDIONS. We assure all admirers of the accordion that they will find in these instruments the greatest value ever offered in low priced accordions. They are made especially for us by a maker who has an international reputation for manufacturing these instruments. They are all well and thoroughly made throughout, and we know that we can sell them to you at a price much lower than what other dealers will ask for the same grade of instrument. We ship them upon the same terms that we ship out other musical goods and allow full ten days' trial. They are all handsomely finished and ornamented and are instruments which we can conscientiously recommend to our customers. With each instrument we include a complete and comprehensive instruction book, by the aid of which anyone can learn to play on these instruments without the aid of a teacher. This is a line of old favorite accordions and we have been so successful in handling them that we have come to look upon them as a staple article in the accordion line. Our contract with the manufacturer of these accordions is such a favorable one that we are in a position to make prices which are lower than ever before. As a proof of this we ask you to examine the accordions shown below and compare the prices which we quote with anything any other dealer has to offer. If you are looking for an accordion of sterling merit, handsome in appearance, well made and beautifully toned at prices one-half lower than you can obtain elsewhere we will recommend any accordion in this line. Why should you go to the local dealer and purchase an accordion in the usual way, paying a price which is more than half made up of intermediate dealers' profits and selling expenses, when you can purchase just as good an accordion from us at about one-half the price?

WITH EACH ACCORDION WE GIVE A COMPLETE INSTRUCTION BOOK.

No. 12F994 This is a very fine accordion, is highly polished and finished with fancy fluted mouldings, and has double bellows with eight folds, with corner protectors and nickel clasps. It is very prettily ornamented with nickel stripes on the inside of the panels and is fitted with ten keys and two sets of reeds and stops. We can recommend this accordion very highly as being a durable and splendidly made instrument. It is well built and handsomely finished throughout, and has great volume and mellowness of tone. We sell all accordions under our offer to refund your money and pay the express charges both ways should you decide that you did not care to keep it after a thorough trial and examination. It is exactly such an accordion as those for which you would be compelled to pay your local dealer from \$3.50 to \$4.00. We are satisfied that you will gladly admit this. If you could see it and test it, which you can do under our liberal offer. Size, 6x7x10 1/4 inches. Weight, boxed about 8 pounds.

Price \$1.65

No. 12F995 This is a very fine accordion with fluted, ebonyized mouldings and dark red panels, triple bellows, nine folds, in three alternate colors, red, black and green. Highly ornamented corner protectors, ten nickel plated keys, two sets of reeds, two stops, fancy gold paper ornamentations around the frame. Nickel plated clasps and trimmings throughout. Fitted with strips of fancy webbing. A beautiful instrument at a medium price. Should you purchase an accordion of this same grade from your local dealer he will charge you from \$4.00 to \$4.50 for it. Give us an opportunity of placing this splendid instrument in your hands for examination, with the understanding that we will receive it back and refund your money if it does not prove satisfactory in every particular. We guarantee the instrument to be a high class accordion in every respect. We have sold a good many thousands of these instruments, and they have given universal satisfaction. Size, 5 1/2 x 7 x 10 1/4 inches. Weight, boxed, about 10 pounds.

Price \$1.95

No. 12F996 Fancy fluted mouldings finished in imitation ebony. Keyboard also in imitation ebony; rich deep blue panels, with gold decorations. Triple bellows of nine folds with corner protectors, bellows and all leather work being in two colors, green and brown with rich Turkish red paper between the folds. Ten long nickel keys, clasps and trimmings, three sets of steel bronze reeds, three stops. A regular \$5.00 instrument and sold for this price by dealers throughout the country. We will be glad to have you compare it with any accordion your local dealer has to offer in the same grade at double the price. We offer it to you as one of the greatest bargains that has ever been offered in such an instrument. We sell this accordion with the understanding that if you do not find when you receive it, that you have saved at least \$3.00 on your purchase, that it is the greatest bargain you ever saw, you are to return it to us, and we will refund your money and pay the express charges. Size, 6x7 1/2 x 12 1/2 inches. Weight, boxed, about 12 pounds. Price \$2.65

No. 12F997 This is undoubtedly the best double row accordion for the money yet placed on the market. It is finished with fancy fluted mouldings, highly polished ebonyized keyboard, and is also furnished in imitation ebony, beautiful green panels ornamented with gold pencil designs, double bellows of ten folds, and each fold is protected by metal protectors. The clasps are all nickel, and it is trimmed in three colors, red, black and green. It contains four sets of reeds, nineteen keys, four stops and four bellows. This accordion is sold under our guarantee for quality and is shipped out with the distinct understanding and agreement that if it is not all that you expect or if it is not entirely satisfactory after a thorough trial and examination, it is to be returned to us at our expense and all money paid by you is to be refunded in full. This is the offer we make on all our accordions. Size, 7 1/2 x 12 inches. Weight, boxed, about 14 pounds. Price \$4.25

No. 12F998 The same accordion as described above except that it has twenty-one keys. Weight, boxed, about 14 pounds. Price \$4.65

OUR WEIDLICH ACCORDIONS.

This line of accordions is manufactured by one of the best known makers of accordions in Germany, and they are all furnished for us under special contract with the manufacturers. We guarantee each instrument to be satisfactory and the purchaser has the privilege of returning any instrument he may order from us should it fail to satisfy him in any particular. These accordions are all finely finished with the metallic parts beautifully nickel plated and the frames ebonyized and stained in beautiful colors. There are many imitations of these accordions on the market, but for strictly guaranteed instruments of good grade and standard reputation, our prices are far below any competition. We include, free with each instrument, a complete, valuable instruction book, by the aid of which anyone can learn this instrument without a teacher. Your Profit Sharing Certificate will help you get some valuable article absolutely FREE of cost to you.

A SPLENDID LINE OF ACCORDIONS AT AN EXTREMELY LOW PRICE.

No. 12F1001 This is the greatest bargain in our line of accordions. It is 10 1/4 inches high by 6 1/2 inches wide. The case is made of imitation mahogany, beautifully polished and finished. It has ten nickel keys, two stops and two sets of reeds, and double bellows with nickel corners and clasps. Our Empress Accordions have established themselves in public favor to a wonderful extent, and this popularity is due altogether to the fact that these instruments give perfect satisfaction to all purchasers. We recommend this entire line as being something particularly fine at the extremely low prices quoted. Weight, boxed for shipment, 7 pounds. Price \$1.55

No. 12F1002 We offer this accordion as something new and particularly desirable. It has three stops, controlling three sets of powerful steel bronze reeds. It has two basses and ten keys with highly nickel plated valves. It has triple bellows of nine folds furnished with nickel corner protectors. The auxiliary bellows folds are covered with green and light brown pebbled leatherette, and protected with broad nickel corner protectors. The instrument is fitted with two nickel clasps to keep it closed when not in use, and the woodwork is finished in black enamel. It measures 5 1/2 inches in depth, is 10 inches wide and 10 inches long. It is a very powerful, sweet toned instrument, and one which we are sure will be a welcome addition to this line. Weight, boxed for shipment, 10 pounds. Price \$2.25

No. 12F1003 Genuine Celebrated Empress Accordion. It is 9x10 1/4 x 5 1/4 inches in size. The frame is beautifully made, with highly polished ebonyized mouldings with gilt lines; has nickel corners and clasps, ten nickel keys, leather straps, two ebonyized stops, powerful double bellows with the center fold protected with nickel corners. The space will not allow us to dwell with any great length upon the merits of this instrument. It has two sets of extra broad reeds, giving it a specially strong and beautiful quality of tone. Weight, boxed for shipment, about 10 pounds. Price \$2.35

No. 12F1005 Empress Accordion. This is a handsome instrument with great musical capacity and powerful tone. It has a double bellows of eight folds bound with red cloth. It has a sunken keyboard enameled in silver and the entire instrument is finished in black and yellow enameled wood, red and green cloth ornamented with silver bronze and corners fitted with nickel protectors. It has two powerful basses, ten keys fitted with elegant mother-of-pearl buttons, two stops controlling two sets of richly toned reeds, making it suitable for all kinds of concert music. This is one of the nearest accordions in our Weidlich line and we recommend it to all who desire a handsome and durable instrument at a price which is within the reach of all. If you should buy this same accordion from the dealer you would find that he would be compelled to ask you a very much higher price than we do. This instrument is 11 1/2 inches high, 10 inches wide and 5 1/2 inches deep. Weight, boxed for shipment, about 10 pounds. Price \$2.75

No. 12F1004 We offer this accordion in competition with any instrument you can buy elsewhere at from \$4.00 to \$6.00. This accordion is 13 inches in height, 6 1/2 inches in width, has beautiful ebonyized case, fancy cut corners, handsome gilt ornaments on corners and top. Beautiful gilt beading around same. Has two stops and two sets of reeds. Open action, nickel corners and clasps. Double bellows. This is an especially handsome instrument and we have sold thousands to professionals and amateurs alike, who desire an instrument which will meet all their demands. The workmanship and material throughout is the very best that possibly can be put into an accordion at this price, and we know that the instrument will surprise and delight you, because it is one of the very best low priced accordions on the market. In tone, quality and general appearance it is in every way equal to accordions sold throughout the country at double the price. Weight, boxed, about 12 pounds. Price \$2.85

No. 12F1022 The Empress Professional Instrument. This is a large accordion, being 14 1/2 inches high by 9 inches wide, with two sets of mahogany moulded frame, mahogany panels and keys, ornamented with handsome gilt and nickel ornaments. Clasp and corners are fully nickel plated, sunken open keyboard, double ribbed bellows, ten keys, eight stops, four sets of reeds, tuned in chords. Complete instruction book free. This is the best we offer, and is an instrument of great capacity and volume of tone. It is our very best Empress accordion, and is highly ornamented throughout. We will be glad to place this instrument in your hands and give you an opportunity to compare it with any accordion which your dealer has to offer at from \$10.00 to \$12.00. It is elegantly finished, and no accordion at this price on the market can in any way equal it in quality and volume of tone. Weight, boxed, about 15 pounds. Price \$6.40

SEE OUR CUSTOMERS' PROFIT SHARING DEPARTMENT ON PAGES 1 AND 2 OF THIS BOOK.

THE CELEBRATED PITZSCHLER ACCORDIONS.

We have selected five of the very large number of instruments made by this celebrated maker, and by special arrangement and by contracting for a large quantity, we are able to list them at prices representing the very greatest value ever quoted in instruments of this kind. Anyone desiring to purchase an accordion should see and try our Pitzschler's before deciding to purchase elsewhere. Most remarkably superior in richness and purity of tone, ease of action as well as details of construction.

THIS LINE OF ACCORDIONS IS SO WELL KNOWN that it is not necessary for us to say much in its favor. These instruments are in universal use not only in the United States, but throughout Europe as well. An accordion player who has one of these accordions can very well feel that he is prepared for any demand which may be made upon him. We ask you to examine the accordions kept in stock by your local dealer and we know that you will see at once that we are prepared to sell you a high class instrument for about one-half the price which he would charge you. **ALL OF THESE ACCORDIONS ARE FITTED WITH PEARL BUTTON KEYS. WITH EVERY ACCORDION WE GIVE A COMPLETE INSTRUCTION BOOK.**

No. 12F1080 This accordion measures 7 1/2 x 8 1/2 x 13 1/2 inches. It is of ebony finish, the moulding highly polished; has nine-fold triple bellows with metal corners; three sets of reeds and open keyboard; two basses. This is an exceptionally powerful accordion and a great bargain. If you will order one of these accordions, give it a thorough trial and examination and are not convinced that you could not buy it from your local dealer for less than \$10.00, you can return it to us, and we will cheerfully refund the purchase price. We include with each accordion a complete instruction book. We feel justified in recommending this accordion to our customers, as it is one of the greatest triumphs for our method of sale and is certainly a magnificent bargain in every respect. Every instrument is carefully packed. Shipping weight, 10 pounds. Price.....\$2.85

No. 12F1082 This accordion measures 7 1/2 x 8 1/2 x 13 1/2 inches. It is of ebony finish, the moulding highly polished; has nine-fold triple bellows with metal corners; three sets of reeds and open keyboard; two basses. This is an exceptionally powerful accordion and a great bargain. If you will order one of these accordions, give it a thorough trial and examination and are not convinced that you could not buy it from your local dealer for less than \$10.00, you can return it to us, and we will cheerfully refund the purchase price. We include with each accordion a complete instruction book. We feel justified in recommending this accordion to our customers, as it is one of the greatest triumphs for our method of sale and is certainly a magnificent bargain in every respect. Every instrument is carefully packed. Shipping weight, 10 pounds. Price.....\$4.90

No. 12F1084 This accordion is one of the latest designs; measures 7 1/2 x 8 1/2 x 13 1/2 inches. The mouldings are all finished in imitation ebony, highly polished and beautifully decorated. Has 10-fold extra broad single bellows. The end of the bellows are entirely covered with nickel and the corners are mounted with beautiful fancy metal caps, making this one of the handsomest accordions ever offered by any music dealer. This instrument has a sunken keyboard, with open action. The keys are all mounted with mother of pearl buttons. This accordion has three sets of reeds, three stops and two basses, and produces a beautiful and powerful tone. An examination of the illustration will give you some idea of the fine appearance of this accordion, but no illustration however good can give you any idea of its beautiful appearance and splendid tone. We include with each accordion a complete instruction book. Every instrument is carefully packed. Shipping weight, 11 pounds. Price.....\$5.80

accordion a complete instruction book. which you will find in your local musical dealer's window priced at from \$6.00 to \$6.50. He cannot afford to sell such an instrument as this for any less than that amount, because he has not the same buying and selling advantage which we have. We sell so many thousands of these accordions that we can afford to be contented with a very small profit, and can sell them at the manufacturer's price with but our one small margin of profit added. Every instrument is carefully packed. Shipping weight, 10 pounds. Price.....\$2.85

No. 12F1086 This instrument is one of the best of the Pitzschler make. It measures 7 1/2 x 8 1/2 x 13 1/2 inches. The mouldings are all made in imitation ebony, highly polished and decorated. Has 10-fold, double, very powerful bellows protected with nickel corners; four stops, four sets of reeds and two basses. Sunken keyboard, open action. The keys are fitted with mother of pearl buttons, making the accordion easy to play. The tone of this instrument is especially powerful and of excellent quality. Accordions of this grade are sold generally throughout the country for about \$12.00, and are considered to be great bargains at that price. Our money saving method of sale enables us to sell them to you at the wonderfully low price quoted. If you will compare this accordion with any instrument offered at the same price at the music stores you will find that everything that we have told you in regard to the great saving which we offer you is absolutely true in every respect. We recommend this instrument as the finest accordion that can be purchased anywhere in the country at this price. Shipping weight, about 20 pounds. Price.....\$6.40

No. 12F1088 This is the finest Pitzschler accordion we handle. It has the finest mouldings in imitation mahogany; panels genuine mahogany; all woodwork finely polished and finished; sunken open action keyboard; double row, nineteen nickel keys; heavy double bellows, with nickel protectors; nickel plated corners and clasps; four stops; four sets of reeds. Size, 14 inches by 8 inches. A complete instruction book free. Weight packed, about 20 pounds. Price.....\$7.40

No. 12F1090 Genuine Pitzschler Accordion. Is just the same in every way as No. 12F1088, described above, but has twenty-one nickel plated keys, as shown in the illustration. The additional three keys on this instrument increase the volume of tone to a wonderful extent and give the instrument a much greater musical capacity. The slight addition in price is more than compensated for in the greater musical value which will be obtained. Weight packed, about 20 pounds. Price.....\$7.80

KALBE ACCORDIONS.

The name Imperial, together with the "double anchor" trade mark, on an accordion is a guarantee of its being of the very highest grade. While the price of these goods may be a trifle higher than others, the satisfaction derived from them, on account of the perfect workmanship and wearing qualities will amply repay for the difference in price, and they will be found much the cheapest in the end. We guarantee every one to arrive in perfect playing condition. You cannot make a mistake in buying a Kalbe Imperial for you get the very best article of the kind that is made. Attention is especially called to the patent simplex keys, which are made of heavy metal, in one piece, and are extremely durable. All of the styles of Imperial Accordions that we carry are supplied with patent metal bellows corners and patent folding clasps. Every part of these instruments is of the very best material and workmanship. The Kalbe Accordions are known throughout the world as standard instruments in every way, and we have sold an enormous number since we first began to handle them. The name Kalbe on an accordion is an evidence of the finest grade, most thorough workmanship and most beautiful tone. You will get a **PROFIT SHARING CERTIFICATE** with your purchase and can soon share in our profit, get some valuable article **FREE**, shown on pages 1 and 2, and in this way your Accordion will cost you even less money. At the same time our prices are as low as possible, guaranteed lower than you can get from any other dealer.

Our Kalbe Accordion at \$3.19.

No. 12F1100 This is a splendid Kalbe instrument with an ebonized maple frame very handsomely finished. It is very highly polished and is ornamented with fluted moulding. It has a powerful double bellows of eight folds, with nickel plated corner protectors. Highly polished nickel trimmings and clasps, two sets of reeds and two stops. This accordion is fitted with a tremolo or vox humana attachment, which gives the tone a wavy and undulating effect in imitation of the human voice. The tremolo can be thrown in and out of action at the will of the player by means of a lever, operated by the thumb of the right hand. The instrument is splendidly fitted throughout and will be sure to satisfy all players upon the accordion. Weight, boxed for shipment, about 10 pounds. Price.....\$3.19

No. 12F1104 Kalbe's Imperial Miniature. Beautifully polished ebonized frame, open action, patent simplex keys, which are very durable; double bellows, with hand painted artistic design on bellows frame, patent nickel plated corners on bellows, thus protecting the weakest part of the accordion. Ten keys, two stops, two sets of reeds and patent clasps. The size of this accordion is 10 1/2 inches high by 6 1/2 inches wide. This is a very ornamental instrument, very highly finished and attractive. It has a very beautiful tone and is accurately tuned. Its good quality has caused an immense sale as it is one of the favorites in the Kalbe line. If you desire a small accordion which will be satisfactory in every way, at a price which no dealer can afford to take, we are recommending this instrument to your notice. Weight, boxed for shipment, about 10 pounds. Price.....\$3.40

Our Kalbe Accordion at \$3.40.

No. 12F1112 Kalbe Imperial Accordion. This is an instrument of great sweetness and volume of tone, very rich in appearance and with highly polished ebonized case. The corners are protected by fancy ornamental nickel plated corner protectors and the corners of the bellows panels are protected in the same way. It is handsomely ornamented and decorated throughout, has triple bellows of eight folds. The bellows folds are ornamented in gold trimmings and the entire instrument is one of the handsomest on the market. It has two sets of reeds and two stops and fitted on each side with patent clasps to keep the instrument closed when not in use. Size of instrument, 6 1/2 inches wide. Weight, boxed for shipment, about 10 pounds. Price.....\$4.40

No. 12F1120 Kalbe Imperial Accordion. This is a splendid instrument in every respect and has a very nicely finished ebonized case; has broad nickel plated corner protectors and handsome clasps on each side to keep it closed when not in use. Has powerful double bellows of ten folds, four sets of reeds and four stops. Is very highly ornamented throughout and we guarantee it to give satisfaction. Size, 6 1/2 inches deep by 11 1/2 inches wide. This is certainly one of the handsomest accordions on the market and is not only a beautiful musical instrument, but is a fine piece of workmanship as well. This accordion at \$6.45 represents a wonderful saving in price to you. We could not afford to sell this magnificent instrument at this price if it were not for the fact that we buy them in such enormous quantities that we secure the lowest possible price, a price that represents the actual cost of making at the factory to which we add our one small margin of profit. Weight, boxed for shipment, about 12 pounds. Price.....\$6.45

THE CELEBRATED HOHNER HARMONICAS.

In every trade, in every business, there can generally be found one firm that stands at the head of all the rest; and so in the small musical goods business, the firm of M. Hohner is known throughout the world as the largest manufacturers of these instruments. Not only do the Hohner goods enjoy a very large sale in the United States, but also in Europe and in all other foreign countries; and no business as extensive as the Hohner stands today, could possibly have been built up and held had not the lines laid down at the very inception—of superior quality in material and superlative excellence of workmanship—been strictly adhered to during the intervening years. Through the efforts on the part of M. Hohner, Sr., founder of the business, whose adaptability to his chosen work, coupled with sterling qualities which always command success, has established a trade of which one has every reason to feel justly proud; the name Hohner, as applied to harmonicas, has become a household word in all parts of the globe. The factories of M. Hohner stand at the head of all others in this industry, and their products are unquestionably of the best materials, expert workmanship and excel in tone. The customer can, therefore, rest assured that any instrument bearing the name of M. Hohner carries with it the same good qualities that have distinguished the Hohner harmonicas during the past half century.

M. HOHNER

During the past fifty years the Hohner Harmonicas have been leading the market as the best mouth organs made, and have grown steadily in popularity and perfection on account of their admitted excellence. This success is not the result of chance but of superior skill and conscientious work along the line of harmonica betterment. The primary efforts of these years have been to perfect the tone. With the tone perfected, it was a comparatively easy matter to obtain the most modern machinery and to carry out all improvements and new ideas. To satisfy the constantly increasing demand for these harmonicas there are employed in the main factory and its fifteen branches over 1,500 men who turn out daily over 20,500 of these instruments. We are glad to be able to announce that we are prepared to sell these harmonicas by our great money saving method of giving our customers an opportunity to purchase them at prices away below what other dealers are prepared to make. Each one of these harmonicas is sold with our absolute guarantee of merit and we recommend them to all players who desire harmonicas of beautiful appearance and splendid tone at exceedingly low prices. The engravings shown below give but a very poor idea of the handsome appearance of these instruments, and no matter how fine the illustration may be it will always be necessary for the player to thoroughly test the tone, to prove the merits of the harmonica.

No. 12F1604 M. Hohner Marine Band Harmonica. This is a beautiful little instrument, is exactly suited to performers who desire an instrument of good compass and volume to carry in the pocket. It is handsomely and durably made and accurately tuned. It has ten single holes and twenty silver toned reeds set in brass plates. It is fitted with heavy convex brass covers with open back handsomely nickel plated. We send each one of these instruments complete with neat hinged pasteboard case. 4 inches long; furnished in A, B, C, D, E, F and G. When ordering, be sure and specify key desired. Price..... (If by mail, postage extra, 6 cents) 19c

No. 12F1606 Three Little Hohners. This is a very pretty set of three very fine Hohner harmonicas in a handsomely finished leather covered case. These harmonicas come in three different keys, which is a great advantage to the player. The case is 4 1/2 inches long 4 inches wide and 1 inch deep, and can be carried very nicely in the pocket. Each of these harmonicas has ten holes and twenty bell metal reeds exquisitely tuned. The reed plates are made of the very best quality of brass and the reed plate covers are highly nickel plated and polished. This is the handsomest little set of harmonicas ever placed on the market. Price..... (If by mail, postage extra, 8 cents) 68c

No. 12F1608 Hohner's Marine Band. This is a beautiful little harmonica, 4 1/4 inches long, very neatly finished and durably made. It has ten double holes, twenty reeds, brass plates, nickel plated convex covers with flat sides. We send each one of these harmonicas out in a fine leatherette pouch, which closes with button clasp, the style of which has never before been used in the harmonica line. Not only is this pouch very handy and durable but it also keeps the mouth organ in much better condition than the old style pasteboard box. Furnished in A, B, C, D, E, F and G. When ordering, be sure to state the key desired. Price..... (If by mail, postage extra, 6 cents) 45c

No. 12F1610 The Chimewood. This is the newest idea in harmonicas, having a hollow wooden backing giving the harmonica an almost perfect violin tone. The ends of this hollow wooden backing can be covered by the hands, thus subduing the tone at the will of the player. The wooden back is very handsomely finished and highly polished with nickel plated binding on the ends. The harmonica has ten holes and twenty bell metal reeds. The reed plates are made of the very finest brass with nickel plated covers. The harmonica is 4 1/4 inches long and one of the most exquisite little instruments ever made. Price..... (If by mail, postage extra, 5 cents) 38c

No. 12F1612 Hohner's Autovalue Harp. This is absolutely a new idea in an harmonica and is fitted with a wind saving device, which is the greatest improvement that has been made in the harmonica line within the last 20 years. This improvement makes a concert harp as easy blowing as any single reed mouth organ. It has ten double holes, forty silver toned reeds, brass plates, nickel plated covers in new design, and is sent out complete in a handsome leatherette pouch shown in the engraving. 4 1/4 inches long. Furnished in A, B, C, D, E, F and G. When ordering, be sure to state key desired. Price..... (If by mail, postage extra, 6 cents) 70c

No. 12F1614 The Hohner Alpenecho. This is another new idea in harmonicas, being a double instrument with sixteen double holes on each side. It has sixty-four beautifully tuned bell metal reeds solidly riveted to heavy brass reed plates with nickel plated cylindrical covers. The horn like shape of these covers increases the tone of the instrument in a wonderful degree and make it one of the most powerful harmonicas on the market. It comes tuned in two different keys and is 5 inches in length. Price..... (If by mail, postage extra, 7 cents) 62c

No. 12F1624 Hohner's Triple Tremolo Harmonica. This instrument is offered in response to a demand for a harmonica which can be played in three different keys. The instrument is supplied with three sides, each tuned to a different key, and the changes from one key to another can be made instantly. The instrument is handsomely finished throughout and furnished with turning bars on each end for turning the instrument from one harmonica to the other. It has forty-eight double bell metal reeds, brass plates, nickel covers, three sides and three keys and is a wonderful instrument in many ways. The fact that this instrument is tuned in three different keys is of great importance when playing with other instruments or for accompaniments for songs. 6 1/4 inches long. Price..... (If by mail, postage extra, 8 cents) 86c

No. 12F1624 Hohner's Triple Tremolo Harmonica. This instrument is offered in response to a demand for a harmonica which can be played in three different keys. The instrument is supplied with three sides, each tuned to a different key, and the changes from one key to another can be made instantly. The instrument is handsomely finished throughout and furnished with turning bars on each end for turning the instrument from one harmonica to the other. It has forty-eight double bell metal reeds, brass plates, nickel covers, three sides and three keys and is a wonderful instrument in many ways. The fact that this instrument is tuned in three different keys is of great importance when playing with other instruments or for accompaniments for songs. 6 1/4 inches long. Price..... (If by mail, postage extra, 10 cents) 1.25

No. 12F1620 The Hohnerphone is an harmonica with a brass horn which amplifies the tone and increases it in volume. By placing the right hand over the end of the bell the most crescendo effect can be obtained, and much more conveniently than by using a glass tumbler for the same purpose. For concert work on the stage as well as for home playing, this attachment is of great importance. The harmonica has ten double holes, forty reeds, brass plates and nickel covers. The length of the horn is 6 1/4 inches. This is the first time that this fine instrument has been offered to the public at this wonderfully low price. Our contract with the manufacturer is such that we are able to sell this instrument by our direct from the factory to customer method and thus offer it to you for about one-half the price generally asked by dealers for the same instrument. Price..... (If by mail, postage extra, 10 cents) 75c

No. 12F1628 Hohner's Trumpet Call. This is one of the very latest designs in the Hohner line, and it is an instrument which will be welcomed with enthusiasm by harmonica players throughout the country. It has twenty-four double holes, forty-eight bell metal reeds, extra heavy brass reed plates and heavy nickel plated covers with flaring edges. By a special construction a beautiful tremolo effect is given to the music produced on this harmonica and we recommend this instrument for all kinds of concert work. We ship this instrument to the customer in a very fine leatherette case, and guarantee it to give satisfaction in every way. 7 1/2 inches long. Furnished in A, B, C, D, E, F and G. In ordering, be sure to specify key wanted. Price..... (If by mail, postage extra, 8 cents) 58c

HOHNER'S MARINE BAND ECHO HARMONICA—ELEVEN AND ONE-HALF INCHES LONG.

No. 12F1632 This is a grand concert instrument in every respect, and is intended for those who desire an instrument of great capacity and volume of tone. It is tuned in different keys so that the performer can change instantly from one key to another. It is with a great deal of pleasure that we offer this instrument to the harmonica players of this country, and we know it will fill a long felt want and will be an instrument which will always be useful to the purchaser who requires an instrument that will meet all of the demands which may be made upon him. This instrument has sixty-four double holes, one hundred and twenty-eight reeds, brass plates, nickel plated convex covers and handsomely decorated extension ends. Each instrument

comes in four keys. It goes to the customer complete with a fine case fitted with hinges and ornamental metallic clasps. We cannot recommend this instrument too highly, and desire to place it in the hands of every harmonica player who does concert playing. Like all other harmonicas which we handle, this instrument goes to the customer under our absolute guarantee of merit and with the distinct understanding that if the customer does not find, when he receives it, that he is getting an instrument of the same grade as the one for which his dealer asks double the price, it can be returned to us, and we will cheerfully refund the money paid. 11 1/2 inches long. **No. 12F1632 Price, \$1.45** (If by mail, postage extra, 12 cents).

No. 12F1804 Harmonica Holder. Will fit any harmonica not more than 4 1/2 inches in length. Two springs which instantly adjust themselves to any sized harmonica, thus firmly securing the same. When not in use, it may be folded into a small compass.
Price.....30c
If by mail, postage extra 5c.

No. 12F1812 Bohm's Sovereign Harmonica. A rare bargain in harmonicas. This harmonica is 5 1/2 inches long and 1 1/2 inches wide; has sixteen double holes and thirty-two steel bronze reeds, heavy metal reed plates and beautiful fancy nickel covers. Price.....15c
If by mail, postage extra, 5 cents.

No. 12F1816 Youth's Companion. Instead of the ordinary nickel cover the harp is made in the shape of a horn which enables the player to get the various effects which are ordinarily produced by using a tumbler. This harp has ten double holes, twenty accurately tuned brass reeds and heavy brass reed plates. 5 1/2 inches long. Furnished in A, B, C, D, E, F and G. State key desired. Price.....29c
If by mail, postage, extra, 7 cents.

No. 12F1808 Bohm's Jubilee Harmonica. has ten single holes, twenty brass reeds mounted on heavy brass reed plates, nickel covers. Made in imitation of organ pipes, producing an exceptionally nice quality of tone. This is a very neat little instrument and has proved a great favorite on account of being made a convenient size to carry in the pocket, 4 inches long. It comes in A, B, C, D, E, F and G. State key desired. Price, 13c
If by mail, postage extra, 5 cents.

No. 12F1830 This is an illustration of our World's Ruler Swan Brand Harmonica, and the illustration shows an entirely new model. The instrument is fitted with twelve trumpets which carry the tone from the reeds and increase them wonderfully in volume. The instrument has a black frame highly polished. The reeds are riveted solidly to brass plates and it has nickel plated covers of very fancy artistic design. It is fitted with ten holes, twenty bellmetal extra sonorous reeds and goes to the customer complete in a fancy hinged cover box. It is 4 1/2 inches long and 1 1/2 inches wide at top. It comes in A, B, C, D, E, F and G. State key desired. Price.....21c
If by mail, postage extra, 6 cents.

No. 12F1834 This is the David's Harp Harmonica. It has a wood frame finished in rich red color, and the reeds are riveted solidly to heavy brass plates. It is fitted with twenty holes, twenty extra broad musical reeds in perfect tune. By using the hand at the bell of this trumpet the same effect can be obtained as when using a glass. On account of the shape of the harmonica the player is enabled to perform easily, as no breath is lost through the corner of the mouth, 4 inches long. We furnish it in seven different keys, as follows: A, B, C, D, E, F and G. State key desired. Price.....22c
If by mail, postage extra, 6 cents.

No. 12F1844 David's Harp. This Harmonica is 6 inches long, has 20 double holes and 40 powerful, beautifully tuned bellmetal reeds solidly riveted to heavy reed plates. The cover is elegantly nickel plated, polished and ornamented with beautiful enameled and embossed flower designs. The harmonica is made by Ch. Messner & Co., and is furnished in the keys of A, B, C, D, E, F and G. State key desired. The wood frame is finished in yellowish brown, beautifully finished and polished. Price.....43c
If by mail, postage extra, 5c.

No. 12F1850 Our New Drum Harmonica. This is one of the latest novelties in harmonicas and consists of a drum attached to a harmonica and played with the right hand as shown in the illustration. The entire instrument is very nicely finished, the metallic parts are nickel plated polished and durably made. We furnish one harmonica with this instrument with 10 double holes and 20 finely tuned reeds riveted to heavy brass reed plates. This instrument never fails to make a hit wherever exhibited and very little practice will enable the player to become very proficient in the use of the drum. It is 5 1/2 inches long and oval in shape. Price.....(If by mail, postage extra, 8c).....65c

Ocarinas—Flehn's Vienna Make.
No Better Ocarinas can be had at any price than these genuine imported instruments. We import these direct from Europe and own them at prices enabling us to offer them to you at about what your dealer himself pays. These instruments are easily broken and must be packed with care. We guarantee that each Ocarina leaves our hands in perfect condition. A sheet of instructions with each instrument showing exactly how it is played.

Jews' Harps.
The Jews' Harps which we list below are made by the best maker in America, and are known as the genuine E. L. American Jews' Harps and are not to be compared with the many inferior harps on the market. They are all made of white metal frames and have brass tipped tongues. If you are thinking of ordering a Jews' Harp it will pay you to buy our genuine E. L. harp. They will outlast six of the ordinary harps offered for sale by other dealers.

Flute Accordion. Substantially made, with ten bone keys, two basses and excellent reeds. Wood case with projecting bell. Weight, 20 ounces.
No. 12F2210 Price.....68c

This is the newest pattern, made of black wood, polished case, projecting bell, imitation ebony, trimmed and decorated with white celluloid. Has ten keys, the same style of action as our most expensive accordions and two basses. Weight, 24 ounces.
No. 12F2214 Price.....82c

No. 12F1820 Concert Harmonica, made by And. Koch, whose name is a guarantee for quality. This harmonica has ten double holes, forty bellmetal reeds, accurately tuned. Heavy brass reed plates, brass nickel plated covers, 4 1/2 inches long and furnished in A, B, C, D, E, F and G. Be sure to give key desired. Exceptionally sweet and powerful tone. Price.....23c
If by mail, postage extra, 7 cents.

No. 12F1824 Sousa's Band, 4 inches long, 1 inch wide; ten holes and twenty heavy brass reed plates; handsome nickel covers. We can recommend this harmonica as being something especially fine in a low priced instrument. Furnished in A, B, C, D, E, F and G. State key desired. Price, 16c
If by mail, postage extra, 6 cents.

No. 12F1828 Universal Favorite Harmonica, made by And. Koch, whose name is a guarantee for quality. This harmonica has ten single holes, twenty bellmetal reeds accurately tuned, fine tone, heavy brass reed plates, handsome nickel covers. Packed in a pasteboard box with hinge cover as illustrated. The illustration shown above falls far short of doing this instrument full justice. It is a neat and compact instrument and very convenient for carrying in the pocket. If you desire a harmonica which will be a constant source of pleasure, we unhesitatingly recommend this instrument. We recommend this instrument to all who are looking for a good harmonica at an unusually low price. It is 4 inches long and we can furnish it in A, B, C, D, E, F and G. State key desired. Price.....14c
If by mail, postage extra, 6 cents.

at a low price. We furnish this instrument in seven keys, as follows: A, B, C, D, E, F and G. State key desired. Price, complete with case.....(If by mail, postage extra, 7 cents).....26c

No. 12F1836 The Tremolo Concert Harmonicas are made by And. Koch. Sixteen double holes; 7 1/2 inches in length, 1 1/2 inches wide; two reeds to each hole, sixty-four reeds in all. Brass reed plates and nickel plated covers. The illustration gives but a very poor idea of the size and beautiful appearance of this harmonica. It is one of the best harmonicas which we handle and is a great bargain at the price which we fix upon it. We recommend it to all who desire a harmonica for general playing, as we know it will give the greatest satisfaction in every way. Comes in the following combinations of keys: A-G, C-F, A-E. State key desired. Price, 45c
If by mail, postage extra, 6 cents.

No. 12F1848 The Echo Bell. This Harmonica is made by Fred Hotz, and has ten double holes and 20 exquisitely tuned reeds solidly riveted to heavy brass reed plates. The entire instrument is so arranged as to amplify and increase the tone power of the reeds, making it an instrument which will prove very satisfactory to harmonica players. The wooden frame is finished in imitation ebony on the front and back and highly polished red on the ends. It is 4 1/2 inches long and is a very neat looking instrument. Furnished in A, B, C, D, E, F and G. State key desired. Price.....(Postage extra, 5c).....21c

Metronomes.
The Metronome is used by students of music, especially of the piano, to indicate the tempo or time. The upright rod moves backward and forward like an inverted pendulum, the movement being actuated by a spring which is wound up with a key. The time is indicated both to eye and ear, the movement being in sight and ticking similar to a clock. The time is regulated fast or slow by the sliding weight on the pendulum, while the latter has a graduated scale. This is an invaluable instrument for pupils of the piano and organ especially. Weight, 2 pounds. We sell only the very finest French Make.
No. 12F2207 Metronome. Genuine French make, solid mahogany case. Maelzel system. Price.....\$1.95
No. 12F2208 Same as No. 12F2207, but with bell attachment. Price.....\$2.95

BLOW ACCORDIONS.

The Clarlophone.

A handsome little musical instrument that possesses all the necessary qualities for pleasing the ear with melodious sounds. Wood body, with fancy metal ornaments; ten keys, two basses and excellent reeds. Weight, about 28 ounces.
No. 12F2216 Price.....87c

Our Finest Blow Accordion none better made; in fact this instrument is of far better quality than any other blow accords usually found in retail stores. The case is made of imitation ebony, highly polished and beautifully nickel trimmed. Has projecting bell. The action is the same as used on high grade accordions; the entire key being in one piece. Has ten keys and two basses. Weight, 30 ounces.
No. 12F2220 Price.....99c

OUR BAND INSTRUMENT DEPARTMENT

THREE MAGNIFICENT LINES OF BRASS INSTRUMENTS SOLD EXCLUSIVELY BY US. A COMPLETE LINE OF WOOD WIND INSTRUMENTS, DRUMS, AND GENERAL BAND SUPPLIES EVERY INSTRUMENT COVERED BY OUR WRITTEN BINDING GUARANTEE

OUR FREE SPECIAL BAND INSTRUMENT CATALOGUE.

THE MOST COMPLETE AND COMPREHENSIVE CATALOGUE OF BAND INSTRUMENTS EVER ISSUED WILL BE SENT TO YOU ABSOLUTELY FREE ON REQUEST.

WE ARE SHOWING ON THIS PAGE an illustration of the splendid special catalogue which we are now issuing, containing illustrations and descriptions of band instruments and supplies, showing the most complete line ever offered to the bandmen of the United States. This book contains large illustrations and full descriptions of our three splendid lines of brass instruments also clarinets, saxophones, flutes, oboes, bassoons, drums and all kinds of band instrument supplies. It also tells you how to select and purchase your band instruments, how to organize and manage your band, and gives a table showing the correct instrumentation for bands of all sizes together with many suggestions regarding the care of band instruments. This book should be in the hands of every bandman in the United States, as it marks a startling revolution in the purchase and sale of all kinds of band instruments. It fully explains the reasons why we are able to sell high class band instruments for one-half the prices asked by others. It tells you why the prices on band instruments have been so high in the past, and gives valuable information which will prove a great advantage to you when you are ready to purchase your instruments. We desire to place this book in your hands, but will say that if you are ready to make your purchase you are perfectly safe in making your selection of band instruments from the following pages, and it is much preferable for you to do so rather than cause a delay by writing for our Special Band Catalogue. The illustrations which we give on the following pages are faithful reproductions of the instruments themselves from photographs, and the descriptions are as complete as we can possibly make them in the small space allowed for this purpose. As the true and final test of any article ordered from us is the examination and trial which you give it after it is received, and as you are not asked to accept it until after a thorough trial you are fully satisfied that it is everything that you desire and a great bargain in every respect, you will see that you have the same advantages in ordering from this big catalogue that you would have in ordering from the special catalogue. If, however, you desire illustrations and descriptions of our complete line before ordering, we will be glad to send you this special catalogue, and it will only be necessary for you to send us a postal card saying, "Please send me your Special Band Catalogue," when it will be forwarded to you absolutely free. We are now the largest band instrument dealers in the world selling directly to users, and we are in a better position than any other house in the country to furnish you instruments of a high grade at the same small margin of profit which we make on groceries, dry goods, etc. If you are not particularly interested at the present time in the purchase of band instruments, we would esteem it a favor if you would send us the name of the band leader in your town, or some member of the band who will be interested in these goods. You probably know of some band about to be organized, and you will not only do us a great favor, but you will also do them a great service as well by sending us the name of the leading member, so that we may place this catalogue in his hands.

WE WANT ALL BANDMEN TO KNOW that we are now the largest band instrument dealers in the country selling directly to the user. Last year we furnished over 500 bands with complete sets of instruments besides selling an immense number of single instruments of all kinds, and this year our business will undoubtedly be doubled. The reason for the growth of this immense business is easily explained. Our methods of sale have worked the same revolution in this line of goods as in all other lines. We sell our instruments directly to the user adding but one small percentage of profit to the maker's price, and in this way the cornet which was formerly sold at \$50.00 is now sold at \$15.00, and a proportional saving is made throughout the entire line of band instruments. As our business has grown in this line and we have sold these instruments in greater quantities, we have been able to reduce the prices from time to time, so that now we are selling all classes of band instruments at prices ranging from one-third to one-half

lower than any other dealers are able to offer. We ask you to compare all the instruments and prices shown in our catalogue with those offered by other dealers and you will find the above statement to be absolutely true in every particular. The fact that we send all of our instruments out with the understanding that the purchaser is to be the sole judge of their merits and decide for himself whether or not they are everything we claim for them and high grade instruments in every respect, will remove all doubt in regard to the truthfulness of the statements we make. It is our desire and intention to make our band instrument department headquarters for band instruments and supplies in the United States, and we certainly could not do this by misrepresenting our goods in any way. There is no class of goods so susceptible to false valuation as musical instruments. The true value of such an instrument can only be fixed by one who is expert in its manufacture or handles it constantly in buying or selling. The fact that a man is a musician does not always make him a good judge of musical instrument values. He can judge of tone or ease of execution, but as to the material and workmanship contained in the instrument he is often the poorest kind of a judge. These are points for which the purchaser has to take the dealer's word absolutely, and, as a general rule, is entirely at the mercy of the man from whom he purchases. The value of every musical instrument which we handle is accurately determined by an expert at the time we purchase it. We base our prices upon the value determined at that time and sell the instrument to the customer under our binding guarantee, so that the purchaser is always sure of receiving an instrument the real value of which is in proportion to the price we charge. There are many so called high class cornets on the market today for which the manufacturer is charging from \$50.00 to \$100.00, when as an actual fact the real cost of manufacturing the instrument does not exceed \$15.00 at the outside. He is able to fix and receive this large price because he has established a reputation, possesses a monopoly and is absolutely without competition. The price is fixed without any reference whatever to the real value of the instrument, but with the idea of getting as much as the unsuspecting customer is willing to pay.

THE MARCEAU BAND INSTRUMENTS are certainly the very finest line of low priced band instruments ever offered to American bandmen. They are fully guaranteed by us, shipped under our ten days' trial offer and we ship them with the distinct understanding and agreement that the buyer must be perfectly satisfied or they can be returned entirely at our expense. They are especially suitable for beginners or amateurs who are playing a medium grade of music and desire a set of instruments which will give satisfactory service at a low price. We have sold hundreds of sets of these instruments and they have proved universally satisfactory. They are all of the very best models with French pattern silver piston valve and are thoroughly tested and inspected by us before shipping.

OUR DUPONT BAND INSTRUMENTS. This is our line of medium priced band instruments, and we are willing to have them compared with band instruments offered by other dealers and sold at more than double our prices. These instruments are especially suitable for the better grade of amateur bands and the thousands of testimonials which we receive every year sufficiently prove that they give satisfaction in every case. We have handled them for the last five years, and during that time have furnished them to hundreds of bands. They are instruments which will meet every demand made upon them, are of the very best model, and are fitted with French light action piston valves. If you are figuring on purchasing a new set of instruments for your band and desire a set of instruments at a low price, which will give satisfaction under all conditions, we especially recommend them for your consideration.

TOURVILLE & CO. BAND INSTRUMENTS. This is certainly the most magnificent line of band instruments ever sold in this country. We are the sole American agents for these splendid instruments, and while we have only been selling them for about three years our sales have grown to enormous proportions. They will compare favorably with the very highest class of band instruments made in this country, and in many instances they have been selected in preference to several well known makes of instruments manufactured in this country. They are of beautiful model, handsome chased reinforced joints, splendidly made and fitted with the French light action silver piston valves. We recommend them to all bands who desire to do the very finest kind of concert playing, as they will meet every demand made upon them and prove satisfactory under all conditions. They are superb instruments in every respect and all we ask is an opportunity to place one or more of them in your hands for trial and examination, and if you do not find that they are up to your expectations in every way, and that the price you have paid is only about one-half what you would have to give any other dealer for the same grade of instruments, we will not ask you to keep them, but you can return them entirely at our expense and we will cheerfully refund your money. We have equipped some of the largest concert bands in the country with these splendid instruments, and in almost every case they have been selected in preference to well known and high priced instruments of American make. All of these instruments are of the latest improved short model, handsomely ornamented with chased bands around the joints, made of the very best material and by the most skillful workmen. They are all imported from France, the home of modern high grade band instruments. We desire an opportunity to place a set of these magnificent instruments in your hands for trial and examination.

HOW TO ORDER.

Select the instrument you want, order by number, enclose our price and we will make prompt shipment with the understanding and agreement that the buyer must be perfectly satisfied on our part that it will prove perfectly satisfactory to you in every way, just as represented by us and a wonderful value for the money; and if on receipt you do not find all this true, you are at liberty to return it to us at our expense and we will promptly return all your money including what you paid out for transportation charges.

OUR TEN DAYS TRIAL OFFER.

After the customer has received the instrument we allow him to try it for ten days, and if at any time within that period it should prove unsatisfactory, it can be returned to us and we will refund the full price paid and pay express charges both ways. This fully protects the customer against any possible loss, and we make him the sole judge of the merits of the instruments. We ship all our band instruments and musical goods upon these terms, as we desire our customers to be perfectly satisfied before finally accepting their purchase.

A COMPLETE COURSE IN MUSIC FREE.

With each cornet sold by us we give absolutely free to the purchaser a certificate which entitles him to a complete course, consisting of fifty weekly lessons, extending over a period of one year. This course of lessons is so complete and thorough that the student will have no difficulty in understanding them. The lessons will be given by one of the best music colleges in the country, the only expense to the student being the cost of the instrument which we guarantee not to exceed 13 cents a week. You will find this course of lessons fully outlined and explained on page 285 of this catalogue, which we ask you to read carefully. The fact that we give this course of lessons absolutely free does not in any way affect the extremely low prices which we make on our instruments, and we shall continue to offer to our customers the very highest grade of instruments that can be secured at the very lowest possible prices.

OUR CELEBRATED MARCEAU BAND INSTRUMENTS.

GREATEST BARCAINS IN BAND INSTRUMENTS EVER OFFERED TO THE BANDMEN OF AMERICA.

THIS IS ONE OF THE FINE LINES of band instruments which we have been handling for years and which have given such immense satisfaction.

MUSIC RACKS and INSTRUCTION BOOKS are sent with all of these instruments.

YOU GET A PROFIT SHARING CERTIFICATE WITH EVERY PURCHASE and CAN SOON GET SOMETHING VALUABLE FREE OF COST, AS EXPLAINED ON PAGES 1 AND 2.

WE GUARANTEE EVERY INSTRUMENT

In this line and sell them on the same terms that we sell all of our other band instruments. Each horn is fitted with celebrated French piston light action valves and is splendid in model and finish. On page 335 of this catalogue you will find the terms upon which we sell these instruments fully given and also estimates of bands of different sizes, which may prove of interest to you.

Marceau E Flat Altos and B Flat Tenors.

These instruments are splendid for harmony work in a band, and we recommend them highly for those who desire fine altos and tenors at extremely low prices. They have a splendid tone, a beautiful model and a handsome appearance. They are perfect in tune and tone and so well constructed that they will last a lifetime. The action of the valves is extremely light and either one of these instruments can be used very nicely for solo purposes. We guarantee them to be satisfactory, and we believe that alto and tenor players will find in these instruments just what they desire at a very small cost. We desire to place them in the hands of all who are looking for something in this line at a moderate price, and we do not ask the customer to take any chances as we assume all the risk of shipping them.

Marceau B Flat Baritone.

These instruments have been used with great success in all sorts of solo playing and general band work. A large number of bandmen have pronounced them the finest baritones on the market for less than double the price given below. Their tone is full and sonorous without being dull, and is light and clear without being too snappy. The model is handsome and the general workmanship on the instruments is all that can be desired. We recommend these baritones highly to baritone players throughout the country and we are always willing to have them compared with instruments offered by other dealers for twice the price.

Marceau Circular Alto.

This style of alto horn has become very popular with all kinds of military and concert bands in the last few years on account of its beautiful mellow tone. It is used almost exclusively by all of the larger bands and we recommend its use to all bandmen. Its circular model makes it a very easy blowing and sensitive instrument and not only does it add to the appearance of the band but it gives the music a coloring which can be obtained in no other way. It is made by the same celebrated makers who manufacture the balance of this line, and is a valuable addition to the well known Marceau & Co. band instruments which we have handled so successfully for years. If your band does not possess allos of this model you should by all means procure them without delay and you will find that the beautiful effect which you will obtain will much more than compensate for the small expense incurred.

We wish to call your attention particularly to this instrument and will say, without fear of contradiction, that it has never been equaled, price considered. It has a deep, rich tone and furnishes an excellent fundamental bass for any brass band. It has enough volume to answer for a large instrumentation and the tone is full and sweet enough for use, if desired, in orchestras. The model is fine and the tubing is so thoroughly braced and reinforced that it will not break down under severe use. The valves are all quick and responsive and we guarantee the in-

OUR WORLD RENOWNED DUPONT BAND INSTRUMENTS.

Saved \$200.00 on a Set of Band Instruments.

Edenville, Mich.

Sears, Roebuck & Co., Chicago, Ill.

The set of band instruments purchased of your house is giving the best possible satisfaction. I have had them examined by experts in the band business and it was hard for me to make them believe that they were bought for so little money. The valve action, taken with the ease in blowing, is simply marvelous. In finish and appearance I consider the band instruments excelled by no others in the world, regardless of price. I earnestly thank you in behalf of the band for the generous and courteous manner in which you have treated me in the purchasing of our band. Our band has cost us \$300.00 and I do not believe that I could have purchased the same high grade instruments elsewhere for less than \$500.00. I would earnestly recommend all interested to compare your goods and prices with those of any other firm doing band business before placing their orders.

JOHN P. LEE.

Dupont E Flat Cornet.

This is an especially fine instrument, and is so constructed that many of the objectionable features to be found in other E flat cornets have been entirely avoided. The E flat cornet is never used except for playing with a band. If you want a cornet for general playing you should order a B flat cornet.

The Best Cornet He Has Ever Seen.

Newton, Ala.

Sears, Roebuck & Co., Chicago, Ill.

I can truly say that the cornet I purchased from you is the best I have ever seen for the money. One member of our band preferred it to his \$25.00 silver cornet. It is still a very fair cornet although it has been kicked about very much. I can recommend it to all my friends.

SAXON P. POYNER.

Dupont Solo Alto.

This instrument is intended for use as a solo alto, and while it can be used as a harmony instrument it is best adapted for use on solo alto parts in band music which have been so popular of late years.

No. 12F8076	Brass, polished.....	\$11.90
No. 12F8078	Nickel plated.....	13.90
No. 12F8080	Silver plated, satin finish.....	18.90
No. 12F8082	Silver plated, polished.....	22.75

Dupont Concert Alto.

This is fast becoming a very popular instrument, both in bands and orchestras. It adds a dash of color to the harmony in band music, which can be obtained in no other way, and is fast supplanting the regular upright alto as an accompaniment horn. In orchestra it is considered valuable because it does not require the constant practice which is required on the French horn, and its tone is every bit as mellow and sweet. Anyone who has learned to play a cornet or alto can play this instrument, because it fingers exactly the same as a cornet and blows exactly the same as the alto. It is furnished in the key of F, with C, E flat and D crook. When used in a band it is always played in E flat, and when used in the orchestra, the F and D crooks are used. The C crook is very useful, as it throws the instrument into a key which enables the performer to play right along with the piano or organ without transposing the music. It is the beautiful French horn model and is furnished complete, with music rack, mouthpiece and instruction book. We especially recommend this instrument and we know it will prove acceptable to all band and orchestra men who use it.

No. 12F8075	Brass, polished.....	\$22.45

Dupont B Flat Baritone.

We take pleasure in bringing to the notice of baritone players the magnificent instrument shown in the engraving opposite. We have supplied these instruments to a large number of bands, and in every case they have called forth the unstinted praise of the player. The tone is round, full and deep, and in solo playing it leaves nothing to be desired. Particular care has been used by the manufacturer in the production of this instrument, and we do not hesitate to say that it is certainly one of the best baritones made today.

No. 12F8114	Silver plated, polished.....	34.75

Dupont E Flat Bass.

We do not believe that these instruments have ever been equalled for dignity and profundity of tone by any other basses ever made, where the price is taken into consideration. They are capable, in the hands of an ordinary player, of furnishing a fundamental bass for any band, and when used in an orchestra the effect is striking and grand. They possess the quality so rare in bass instruments of being in perfect tune in the upper register, and from low B flat clear up through the entire chromatic scale, every note is full, accurate and in perfect tune. We have supplied a great many bass players throughout the country with these instruments and in every instance they have called forth the loudest praise.

OUR SPLENDID LINE OF TOURVILLE & CO. BAND INSTRUMENTS.

MADE BY TOURVILLE & CO., OF PARIS, FRANCE

AND THE ENTIRE LINE FITTED WITH THE WONDERFUL TOURVILLE LOW PITCH ATTACHMENT

AN EXAMINATION OF THE ENGRAVINGS SHOWN BELOW

will show you that each one of these splendid instruments is now fitted with a low pitch attachment, enabling the performer to change the instrument instantly from high to low pitch. This is of immense advantage, because the performer never knows when it will be necessary for him to change his instrument from one pitch to another, and with ordinary band instruments it would be necessary to possess both a high and low pitch instrument in order to be prepared for every emergency. With this attachment only one instrument is necessary. As all pianos manufactured nowadays are tuned to low pitch, and as the large majority of band instruments used throughout the country are tuned to high pitch, a great deal of confusion arises and professional musicians have always found it necessary to own both a high and low pitch instrument, in order to be fully prepared for every emergency. With the Tourville instruments this is not necessary, as the low pitch attachment makes it easy to change from one pitch to another. The engraving which we show herewith illustrates how this appliance is attached to upright horns. It adds to the appearance of the instrument and is one of the most valuable improvements ever made in brass instruments. The addition of this attachment to these instruments has not in any way affected the price, and the low prices which we have always quoted on this splendid line places this great improvement easily within your reach. All of the cornets are fitted with extra low pitch slides which can be inserted instantly if necessary to change from one pitch to another.

horns. It adds to the appearance of the instrument and is one of the most valuable improvements ever made in brass instruments. The addition of this attachment to these instruments has not in any way affected the price, and the low prices which we have always quoted on this splendid line places this great improvement easily within your reach. AND OFFER THE COMPLETE LINE AS BEING UNSURPASSED BY ANY LINE OF BAND INSTRUMENTS ON THE MARKET TODAY.

B Flat Baritone.

Of all brass instruments the baritone is perhaps the most difficult to make, for the reason that great depth and breadth of tone are required, combined with the lightest possible action. This happy combination is fully realized in this baritone.

The valve action in this instrument is the result of much special thought and experiment, and the maker has succeeded in so regulating the air pressure as to produce the lightest valve action ever known.

E Flat Bass.

The Tuba shown in the engraving is without any question the finest E flat bass ever made in tone, tune and finish. Too much cannot be said in its praise, but we would prefer to place it in the hands of bass players and let it speak for itself. In tone, tune and valve action it is certainly a revelation, and never fails to receive the greatest praise from all who may use it. It has that grand, sonorous and at the same time mellow tone which has been the dream of both player and manufacturer for years, and only realized in this production of the master hand.

Our Engraved Marceau Bb Cornet, \$8.25.

We are offering this instrument in response to a demand for a highly engraved Bb cornet at a moderate price. We can say, without fear of contradiction, that never before in the history of the band instrument business has a fully engraved Bb cornet been offered at any where near the price which we are quoting on this instrument. This cornet is one of our Marceau line, handsomely and completely engraved, and an instrument which is sure to please you in every way. It is fitted with French piston light action valves, the model is very handsome and the instrument is very carefully and skilfully made. If you desire a fine looking instrument, one which is easy blowing, and has a beautiful tone, we will unhesitatingly recommend this cornet to you. The engraving gives but a very poor idea of the appearance of this splendid instrument and nothing but an examination and trial will bring out all of its good qualities. Compare this instrument with any cornet of the same grade offered by any other dealer and you will find at once that we are offering it to you at one-half the price generally charged throughout the country. Weight, packed for shipment, 12 pounds.

Our Engraved Double Water Key Marceau Cornet, \$12.45

This is one of our double water key Marceau cornets, Courtols model, engraved especially in response to a demand for a cornet of handsome appearance and good tone at a moderate price. We are pioneers in offering instruments of this high grade at the exceedingly low prices quoted below. Up to the time when we began to offer these instruments to the public the prices on all engraved band instruments were exceedingly high and were so fixed and maintained by the dealers, as it was to their interest to do so. We found that by importing the instruments directly from Europe and selling them with our one small margin of profit added we could furnish these beautifully engraved instruments at prices in many cases two-thirds lower than the dealers could afford to make.

No. 12F7860	Brass, highly polished. Price	\$12.45

Our Specially Engraved Marceau Slide Trombone, \$9.75.

With each one of these instruments we give a complete instruction book and music holder, also a complete course of instruction free.

We have had so many calls for a slide trombone of good grade engraved throughout at a moderate price that we are now offering this instrument to the public as one of the finest trombones of this description that was ever offered. One important feature of this instrument deserves especial notice on our part, and that is the fitting and adjustment of the slide. The slides on these instruments are carefully and skilfully adjusted by being ground into the tubing until they become perfectly airtight and at the same time work absolutely without friction. The tone of this instrument is rich and mellow, and is everything that can be desired by the most critical performer. The many splendid qualities which this instrument possesses cannot be shown in an engraving, however fine it may be. We offer this instrument to bandmen with the assurance that nothing finer in this line has ever been offered at less than double the prices which we charge.

Our New HIGH and LOW Pitch Cornet, Four in One.

OUR PROFESSIONAL LAMOREAUX FRERES Bb CORNET, \$22.45.

This splendid instrument is the finest cornet that we have so far offered to bandmen and is manufactured in one of the finest band instrument factories in Paris, France, and imported directly by us. It has many improvements, the most important of which is the screw device shown in the engraving for regulating the pitch of the cornet. It is not necessary to carry around a Bb and A chanck with this cornet, because the instrument is accurately tuned in Bb and in order to throw it into the key of A it is only necessary to reach down with the thumb of the right hand and push out the A slide by using the knob shown in the engraving. By using the screw attachment shown in the engraving the pitch of the instrument can be regulated to the very finest shade of tone, and you have a Bb and A cornet complete without the use of shanks, which are liable at any time to get lost or mislaid. We furnish also with this instrument a set of low pitch slides so that the cornet can be changed from high pitch to low pitch by pulling out the Bb slides and inserting these slides in their places. The bell of this instrument is handsomely engraved, as shown in the illustration, and the valve buttons are decorated with beautiful pearl tips.

This illustration shows the screw regulating device with which this cornet is fitted. Its many good points can be seen at a glance.

No. 12F7876	Brass, polished. Price	\$22.45
No. 12F7878	Nickel plated. Price	23.70
No. 12F7880	Silver plated, satin finish. Price	26.95
No. 12F7882	Silver plated, polished. Price ..	29.55

\$17.45

This trombone is an instrument of exceptionally high grade and great care and skill are used in its manufacture. One of the greatest virtues of a slide trombone is that the slide shall work easily and quickly and that virtue is possessed by this instrument in the highest degree. The engraving shown above gives but a very poor idea of the beauty of this instrument and must be tested and examined before its many fine qualities can be fully appreciated. One of the important improvements that this instrument possesses is the screw attachment for regulating the pitch of the instrument. By placing the set screw in a certain position the instrument can be instantly thrown into low pitch by drawing the tuning slide. By the use of the set screw the pitch of the instrument can be regulated to the finest shade of tone. The bell of this instrument is beautifully engraved, and the instrument is highly finished throughout. It has the latest improved water key and the model is very handsome. We have no hesitation in recommending this instrument to professionals and amateurs alike, as we know that it will prove satisfactory under every condition. We shall be glad to have you compare this instrument with anything shown you of a similar grade by other dealers, and you will always find that our price is about one-half lower. In fact, we are prepared to ship you this beautiful trombone with the distinct understanding and agreement that if you do not find when you receive it that it is equal, and in many points, superior to instruments sold by other dealers at double the price, you can return it to us and we will cheerfully refund your money. This is a splendid instrument for presentation purposes and never fails to attract attention and create admiration when used as a solo instrument on the stage.

OUR FINE LINE OF FLUTES.

All of these Flutes are made of grenadilla wood, selected stock, accurately bored and handsomely finished. They are fitted with pure German silver keys, highly polished and we guarantee them absolutely as to tone, tune and wearing qualities. These instruments are all made by one of the most celebrated European flute makers, and we take pleasure in offering them to American musicians. Remember that we send out all of these flutes with the understanding that if they do not prove satisfactory in every way, and up to your expectations in every particular, we will refund your money and pay the express charges both ways. The prices which we make on these flutes are less than one-half the prices which other dealers are asking for instruments of inferior grade, and these prices are only made possible by the fact that we ship them directly from our house to the customer. They are suitable for bands or orchestras, and can be used right along with piano or violin if the proper key is selected. Do not class these instruments with the different cheap flutes which local dealers are offering throughout the country, because these are high class instruments in every way, and when we ship them to our customers they go with our absolute guarantee of quality. If you are looking for a good flute at a very small price, we highly recommend these instruments to your consideration. We can furnish anything in this line from one-key flutes to the very finest Boehm instrument with a guarantee to sell them for lower prices than any other dealer can make.

No. 12F9070 Genuine cocoa wood, German silver trimmed, tuning slide, 1 key. Price.....\$1.45

Sears, Roebuck & Co., Chicago, Ill.

I have bought several of your band instruments for myself and friends. I bought an upright alto horn, Dupont make, nickel plated, about a year and a half ago and used it in the band. I found that it blew easy and the valve action was good and the old bandmen said that it was the nicest toned horn in the band. Next I bought a Marceau B flat cornet, which I played in the band for a while and found it satisfactory in every way. Then I bought a slide trombone of the same make and found it satisfactory in every way. The slide works very easy and it has a good tone. Then I bought another nickel plated cornet of the same make for a Christmas present, which was satisfactory and pleasing.

WM. C. COWGILL, Jr.

Messrs. Sears, Roebuck & Co., Chicago, Ill.

The Marceau Solo Bb Cornet I bought of you at \$7.95 I don't only think, but I know is a great bargain. I have it now one year, and as you know it was sent with a written guarantee for one year and I have not had the privilege of sending it to you for repairs of any kind. I have compared this horn with one sold by another company at \$10.55, and it is superior to the \$10.55 horn in tone, valve action and ease of blowing and of course lets the water out better, as the \$10.55 horn was a single water key cornet, which you know sell about \$2.00 cheaper than a double water key, the kind I got of you. So you see it would take \$12.55 to get the cornet from the other company with double water key like the one I got of you. Then I'm afraid it would be behind it in some things. But this I know. I think I know what I am talking about. I ordered my brother one of those \$8.95 cornets from you and it's a dandy. Double water key and nickel plated and fine enough for any man, and I would say to anyone wishing to buy band instruments that they can get as good ones, or better ones, from Sears, Roebuck & Co. as from any other place I know of and keep one-third their money in their pockets.

Yours respectfully,
W. E. ALDERMAN, (Band Leader).

P. S.—I bought 7 horns of you lately which are giving satisfaction, also 2 drums which are all right.

Elthefelts, Va., April 6, 1906.

OWING TO THE PECULIAR CHARACTER

of the construction of wood wind instruments, they are liable to crack at any time, and no music dealer can give a guarantee for any length of time. We, however, guarantee that these instruments will reach you in perfect condition and should they be cracked when you receive them we will replace them with others in perfect condition. If, however, they are in perfect condition when you receive them we could not be responsible for their checking or cracking, as this depends entirely upon atmospheric conditions and is not governed in any way by the high or low quality of the material of which they are constructed.

OUR SPLENDID LINE OF CLARIONETS.

LaFayette & Co.'s Clarionets.

The clarionets are certainly the finest line of low priced clarionets ever offered to the American market. They are substantially made and well finished. They are made of grenadilla wood and all of the trimmings are pure German silver, highly polished. We promise to save the purchaser from \$5.00 to \$10.00 upon each one of these clarionets bought from us, and will ask our friends to compare them and the prices we ask, with the instruments and prices offered by other dealers. LaFayette & Co. have been manufacturing these clarionets for years. They have always given the greatest satisfaction.

Shipping weight, 60 ounces.

J. B. Martin Clarionets.

This is the line of favorite clarionets which we have handled for years, and which have given such universal satisfaction. We do not believe that there is a line of moderate priced clarionets on the American market today which in any way equals them in tone and finish. They are all made of genuine grenadilla wood, with trimmings of pure German silver, highly polished. They are bored through cleanly and evenly and are accurately in A, Bb, C or Eb. We guarantee them as to tone and tone and are prepared to take back any instrument which does not give satisfaction in every way. These clarionets, as well as the balance of our line, are fitted with the Albert system, and we can furnish them in all of the different keys. Bear in mind that you take no chances in purchasing one of these instruments, because we send them out on approval and we do not ask you to accept them unless you are perfectly satisfied in every respect. Many expert clarionet players have been surprised at the wonderful degree of superiority demonstrated by these clarionets. Bandmen desiring to furnish their reed sections with clarionets, and who are not prepared to pay a large amount for such instruments, cannot do better than purchase a set of these splendid clarionets.

No. 12F8854 13 keys, 2 rings, grenadilla wood, in A, Bb, C or Eb. Be sure to state key wanted. Price.....\$11.25

Shipping weight, 13 keys, 60 ounces. Shipping weight, 15 keys, 64 ounces.

Tourville & Co.'s Universelle Clarionets.

Tourville & Co.'s Universelle Clarionets are considered by experts to be the finest in the world. We are offering these instruments in response to a demand for a line of clarionets which will be as fine as can be procured. We are willing to say without question that no clarionet, however costly, can excel these instruments in tone, tone and wearing qualities. They are used by all the finest concert bands of Europe and are meeting with an enthusiastic reception from clarionet players in this country. They are all made of the finest selected grenadilla wood, accurately and evenly bored, with the intervals absolutely perfect. The trimmings are all pure German silver, highly polished and strongly made. Because we are offering these clarionets at such extremely low prices, we do not want you to make the mistake of classing them with the different lines of low class clarionets which are offered throughout the country by dealers today. The reason we are able to make such extremely low prices upon these instruments is because we purchase them directly from the manufacturer in France, and sell them by our usual method directly to the customer. No clarionet should cost over \$20.00, and when you pay a higher price than this you are simply paying for the name of the maker, which in many cases adds no value to the clarionet in any way.

No. 12F8860 13 keys, 2 rings, grenadilla wood, in A, Bb, C or Eb. Be sure to state key wanted. Price.....\$13.95

If by mail, postage extra, 16 cents.

ACME PROFESSIONAL DRUMS

OUR NEW PATENT DRUM ROD AND CORD HOOK.

THE GREATEST IMPROVEMENT
EVER MADE IN DRUMS.

LINE OF ACME PROFESSIONAL DRUMS.

do not purchase elsewhere without having first given us an opportunity to place one of these instruments in your hands and demonstrate to you what a wonderful improvement these drum rods are. All of our Prussian pattern bass and snare drums are fitted with these patent drum rods, and we do not add anything extra to the price in order to give our customers the benefit of this wonderful invention.

THE NEW PATENTED DRUM HOOK

is another remarkable invention for the improvement of Regulation Pattern Drums. They are made of white metal and are very durable. Like the drum rods they can be obtained only from us and will be found only upon our Acme Professional Drums. Instead of having an eye for the cord to run through, like the old fashioned drum hooks, they are furnished with an open hook, which holds the cord securely in its place. Should it be necessary to fit the drum with a new cord or repair the cord when broken it is not necessary to remove all the hooks, as with the old fashioned pattern, but it is only necessary to loop the cord over the hooks and tighten it up. All of our Regulation Drums are fitted with this new cord hook, and you can obtain them from no one else and upon no other line of drums.

CAN ONLY BE FOUND UPON OUR CELEBRATED
THESE WONDERFUL NEW INVENTIONS

are certainly the greatest improvements that have ever been made in bass and snare drums. We know that they will be gladly welcomed by drummers all over the country, and they can only be secured on our drums. A glance at the above illustration will show you at once how vast an improvement OUR NEW PATENT DRUM ROD is over the old fashioned device. It is stamped out of sheet steel and nickel plated. It is tightened by a double screw in the center and can be operated with almost any wrench. It fits snugly on the strainer hoops of the drum, and unlike the old fashioned drum rod does not allow the end to stick up beyond the hoop to catch on the clothing. It is very much neater in appearance than the old fashioned drum rod, and imparts a graceful appearance to the instrument which cannot be obtained with any other drum rod. One of the greatest advantages which it possesses is that it makes the drum very much lighter than when fitted with the old fashioned drum rod. This increase in lightness makes a wonderful improvement in the tone of the instrument, and adds 100 per cent to its responsiveness. REMEMBER, you can only obtain these drum rods with our Acme Professional Drums, and if you are thinking of purchasing a drum

THE ACME PROFESSIONAL TENOR OR SNARE DRUMS.
PRUSSIAN PATTERN.

Weight, packed, about 15 pounds.

STRINGS.

line, knowing that we can

SILVER TONED BELL BRAND STRINGS.

Without doubt the best steel strings on the market. They are carefully and accurately made of tested materials of superior quality. The steel used is especially made, giving the strings the true tone of silver like bell quality. Each string is carefully tested, heavily silver plated and polished, wrapped in anti-tarnish ribbed silver tissue paper and enclosed in an oil paper envelope, making the strings impervious to moisture and climatic changes and preserves them against tarnish and rust. We recommend the Bell Brand strings as being strictly high grade in every particular.

Silk Violin E Strings.
No. 12F4125 Muller's Celebrated Eternelle. Most reliable. Doz. Each string in existence. 90c 8c

Our "Verona" Brand Violin Strings.

Special attention is called to this splendid line of strings, as they are unquestionably as fine as any Italian strings made. They are made of the very best quality of sheep gut, and particular attention is called to the way they are wrapped, which insures them against injury in transmission through the mails. We recommend them to all who are looking for fine violin strings at a reasonable price. All E strings have 4 lengths, A and D strings 2½ lengths and G strings 1 length.
